
ACKNOWLEDGEMENTS

This report is an analysis of the firearms received by men and women of the Metropolitan Police Department's (MPD) seven police districts and examined by the members of the Firearms Identification Unit (FIU), Washington, DC. The daunting task of an orderly receipt of almost three thousand firearms in a short period of time should be recognized.

In addition, the preparation of a report in such a narrow time frame required the combined efforts of the men and women of the Bureau of Alcohol, Tobacco and Firearms (ATF) and they are also recognized for their assistance.
