ATF has taken a number of steps to address the unprecedented receipt of over 276,000 tax paid NFA applications just prior to the July 13, 2016, effective date of the Final Rule regarding legal entities (41F). ATF has augmented normal data entry efforts so that all applications are now accounted for within days of receipt. ATF is currently applying additional overtime resources and providing an increased level of effort to the research and perfection of pipeline applications. ATF will continue to surge application processing 7 days a week. ATF is also diligently working to bring tax paid applications to the eForms portal for efficient workflow management. Lastly, all business processes are being re-examined to maximize efficiency of paper application handling and leverage technology where possible.
