

**DSS Post Blast Investigation Techniques (PBIT)
Course ID EXPL-CS-0011**

PBIT is a five (5) day, forty (40) hour basic post blast course designed to teach a systematic method of investigating an explosion scene. The course provides instruction in explosives identification and applications, explosives effects, IED component recognition, and evidence collection. The course is comprised of classroom lecture and PowerPoint, numerous laboratory practical exercises, an explosives demonstration, and actual investigation of multiple post blast scenes.

Applicants must be DSS RSO Special Agents.

The class is held at ATF's National Center for Explosives Training and Research, located in Huntsville, Alabama.
