

# ATF'S NATIONAL LABORATORY PROGRAM

ATF's forensic labs examine evidence related to explosives, fire and firearms.

ATF's fire research lab reconstructs and tests arson and fire scenarios.

## In Fiscal Year 2017, ATF Labs:

Processed 2,561 forensic cases

Provided 760 days of training for federal, state and local investigators and examiners

Worked 227 days at crime scenes

Processed 124 fire research cases

Provided 98 days of expert testimony in the courts
