

Advanced Explosives Disposal Techniques (Course ID EXPL-CS-0001)

Program Description: In 1999, ATF explosive experts recognized a disturbing fact: Bomb technicians in the United States were more likely to be killed or injured while conducting an explosives disposal operation than any other mission, including attempting to render safe an improvised explosive device. Moreover, numerous bomb squad accident investigations conducted by ATF revealed that additional training was the single most effective way to attempt any reduction in the number of these accidents. In response to this need, the ATF Office of Training and Professional Development, in cooperation with the ATF Explosives Technology Branch, developed the AEDT training program for bomb technicians and explosives specialists. AEDT provides in depth classroom and range instruction in virtually every aspect of explosives disposal.

ATF provides travel and lodging in addition to training, classroom materials and range tools. Students are also reimbursed a daily per diem rate as determined by GSA. The course is delivered at the ATF Explosives Training Branch located on Redstone Arsenal in Huntsville, Alabama.

Curriculum includes:

- *Relevant Environmental Protection Agency (EPA) laws and regulations*
- *Relevant Department of Transportation laws and regulations*
- *Explosives storage laws and regulations*
- *Explosives Disposal Range Management and Operational Planning*
- *Personal Protective Equipment*
- *Disposal techniques for most types of explosives*
- *Fireworks and pyrotechnic hazards*

Duration of course: Two-week period with Monday of first week and Friday of second week as travel days. The weekend is open. Eight (8) days instruction.

Prerequisites for Attendance: Applicant must be a full time public safety official trained as a Bomb Technician and whose mission includes destruction/disposal of explosive materials. Selections are based on several factors, which include but are not limited to, current assignment and geographical location.

Application: Download [ATF F 6310.1](#) — State and Local Training Registration Request. Please send the completed application via e-mail to Patricia.K.Morris@atf.gov. All applicants must provide their Basic Hazardous Device School (HDS) class number on the registration request. Please enter the information in the “Briefly Describe Your Area of Responsibility and Duties Section” Those selected will be contacted via email with available course dates.

(Please view the chart below for available course dates.)

FY-2021 AEDT COURSE DATES

Course	From	To	Location	Travel Dates
AEDT 2101	October 19, 2020	October 29, 2020	Redstone Arsenal, AL	October 18 and October 30
AEDT 2102	December 1, 2020	December 10, 2020	Redstone Arsenal, AL	November 30 and December 11
AEDT 2103	February 2, 2021	February 11, 2021	Redstone Arsenal, AL	February 1 and February 12
AEDT 2104	March 2, 2021	March 11, 2021	Redstone Arsenal, AL	March 1 and March 12
AEDT 2105	April 13, 2021	April 22, 2021	Redstone Arsenal, AL	April 12 and April 23
AEDT 2106	May 10, 2021	May 21, 2021	Redstone Arsenal, AL	May 9 and May 22
AEDT 2107	June 8, 2021	June 18, 2021	Redstone Arsenal, AL	June 7 and June 19
AEDT 2108	July 27, 2021	August 5, 2021	Redstone Arsenal, AL	July 26 and Aug 6
AEDT 2109	August 17, 2021	August 26, 2021	Redstone Arsenal, AL	August 16 and August 27
AEDT 2110	September 14, 2021	September 23, 2021	Redstone Arsenal, AL	Sept. 13 and Sept. 24
