Data Source: Firearms Tracing System

January 1, 2014 – December 31, 2014
(1) Firearm traces are designed to assist law enforcement authorities in conducting investigations by tracking the sale and possession of specific firearms. Law enforcement agencies may request firearms traces for any reason, and those reasons are not necessarily reported to the Federal Government. Not all firearms used in crime are traced and not all firearms traced are used in crime.

(2) Firearms selected for tracing are not chosen for purposes of determining which types, makes or models of firearms are used for illicit purposes. The firearms selected do not constitute a random sample and should not be considered representative of the larger universe of all firearms used by criminals, or any subset of that universe. Firearms are normally traced to the first retail seller, and sources reported for firearms traced do not necessarily represent the sources or methods by which firearms in general are acquired for use in crime.

Analytical Criteria Used to Compile the Enclosed Statistics

Total Number of Firearms Recovered and Traced
• Includes traces with a recovery state of Kansas. Traces in which the recovery state was not provided were included when the requesting agency state was equal to Kansas.
• Includes Firearms Recovered and Traced between 1/1/2014 – 12/31/2014, or, if the recovery date was blank, the trace entry date was between 1/1/2014 – 12/31/2014.
• Duplicate traces, Firearms Not Recovered, Gun Buyback and Firearms Turned In are not included in this figure.
• Data was extracted from the Firearms Tracing System (FTS) on May 1, 2015.
• All traces may not have been submitted or completed at the time of this study.

Firearm Types and Calibers with a Kansas Recovery
• Includes same criteria as Total Number of Firearms Recovered and Traced.

Top Categories Reported on Firearm Traces with a Kansas Recovery
