

Available Inventory

The available inventory phrase is used to identify non-restricted NFA weapons that are listed under your FFL and are available to transfer.

Helpful hint- Once you have entered a transfer for a weapon, the eForms system will remove the weapon from your available inventory to prevent duplicate transfers for the same weapon.

Viewing your Available Inventory

Once the FFL **and** EIN associations have been approved for the eForms account, the user may transfer NFA weapons via their eForms account. The available inventory will be listed in all transfer types of forms, such as Forms 3, 4, 5, and 9. To view your available inventory in any of the transfer forms listed above, you must choose the FFL that the weapon is listed under in the appropriate “train stop”; otherwise the weapon inventory will not populate. (see “train stops” below) For example: Skipping “train stops” will cause the available inventory not to show.

The highlighted sections below are referred to as “train stops”.

Firearm

To add a firearm click on the "Add Firearm" button below:

Add Firearm Print Line Items

View

ID	Serial Number	Manufacturer	Product Type	Caliber	Model	Barrel Length	Overall Length	Actions
No data to display								

Total records: 0

Transferee Necessity Statement (State a reasonable necessity to possess the machinegun, short barreled rifle, short-barreled shotgun, or destructive device)

Back Next

- A pop up will appear with a list of all available inventory that can be added to the form. The columns are searchable to include serial number, manufacturer, product type, caliber, model, barrel length and overall length. This table

also lists a total number of records in the bottom left-hand corner. **Please note: this total could be different than the active inventory total.**

[illegible]

Helpful tip-This weapon information is current with what has been reported to ATF. This information could/should be used to perform internal audits to be sure that all non-restricted inventory is listed/not listed correctly under your FFL. To print the list of information to make internal audits easier to perform, click the “print line items” in the top left-hand corner to convert information to an Excel document to print. (see below of exported Excel document)
