Dear Federal Firearms Licensee:

The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) is the primary agency responsible for enforcing the Federal firearms laws. Our mission is to prevent terrorism, reduce violent crime, and protect the public. With respect to firearms, ATF works to take armed, violent offenders off the streets and to ensure criminals and other prohibited persons do not possess firearms.

Licensees play a critical role in protecting America from violent firearms crime through responsible and lawful distribution of firearms and accurate recordkeeping which assists ATF in tracing guns used to commit crimes. By complying with Federal law, licensees prevented the sale of more than 870,000 firearms to prohibited persons from November 1998 through September 2005. An untold number of lives have been saved and countless crimes have been prevented by stopping such transactions from taking place.

Dedicated licensees also make significant contributions to crime prevention efforts through active support of such collaborative efforts as the National Shooting Sports Foundation (NSSF) campaign “Don’t Lie for the Other Guy.” We are grateful to the scores of licensees who cooperate with ATF in preventing illegal straw purchases, which helps to disrupt firearms trafficking organizations. We encourage your continued support and we thank you for reporting suspicious criminal activity and firearms thefts to ATF. Please note, to report a theft, you should call 1-888-930-9275, and to report other criminal activity, you should call 1-800-ATF-GUNS.

The 2005 edition of the Federal Firearms Regulations Reference Guide provides information designed to help you comply with all of the laws and regulations governing the manufacture, importation, and distribution of firearms and ammunition. Accordingly, it contains the relevant Federal firearms laws and regulations, some of which have changed since the 2000 edition. It also contains rulings, general information, and questions and answers to give you further guidance on the Federal firearms laws. The laws and regulations are in a different order from previous versions so that this publication will be easier to use. This new edition also contains additional points of contact to help you get in touch with ATF more easily.

Since firearms laws can change over time, please be aware that the information in this book may change after the date of publication. The ATF Web site at www.atf.gov is an excellent source for up-to-date information. As always, you are welcome to contact your local ATF field office for information or assistance.

Sincerely yours,

Carl J. Truscott
Director

EDITOR’S NOTE

The cross references, bracketed notes, and Editor’s notes seen in the laws and regulations are for guidance and assistance only and do not appear in the official United States Code and Code of Federal Regulations.
Title I: State Firearms Control Assistance

Purpose

Sec. 101. The Congress hereby declares that the purpose of this title is to provide support to Federal, State, and local law enforcement officials in their fight against crime and violence, and it is not the purpose of this title to place any undue or unnecessary Federal restrictions or burdens on law-abiding citizens with respect to the acquisition, possession, or use of firearms appropriate to the purpose of hunting, trapshooting, target shooting, personal protection, or any other lawful activity, and that this title is not intended to discourage or eliminate the private ownership or use of firearms by law-abiding citizens for lawful purposes, or provide for the imposition by Federal regulations of any procedures or requirements other than those reasonably necessary to implement and effectuate the provisions of this title.

Chapter 44—Firearms

§ 921 Definitions.
§ 922 Unlawful acts.
§ 923 Licensing.
§ 924 Penalties.
§ 925 Exceptions: Relief from disabilities.
§ 925A Remedy for erroneous denial of firearms.
§ 926 Rules and regulations.
§ 926A Interstate transportation of firearms.
§ 926B Carrying of concealed firearms by qualified law enforcement officers.
§ 926C Carrying of concealed firearms by qualified retired law enforcement officers.
§ 927 Effect on State law.
§ 928 Separability.

§ 929 Use of restricted ammunition.
§ 930 Possession of firearms and dangerous weapons in Federal facilities.
§ 931 Prohibition on purchase, ownership, or possession of body armor by violent felons.

Editor’s Note:

On September 13, 1994, Congress passed the Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322. Title IX, Subtitle A, Section 110105 of this Act generally made it unlawful to manufacture, transfer and possess semiautomatic assault weapons (SAWs) and to transfer and possess large capacity ammunition feeding devices (LCAFDs). The law also required importers and manufacturers to place certain markings on SAWs and LCAFDs, designating they were for export or law enforcement/government use. Significantly, the law provided that it would expire 10 years from the date of enactment. Accordingly, effective 12:01 a.m. on September 13, 2004, the provisions of the law ceased to apply. These provisions are marked “repealed” in this publication.

§ 921 Definitions.

(a) As used in this chapter—

(1) The term “person” and the term “whoever” include any individual, corporation, company, association, firm, partnership, society, or joint stock company.

(2) The term “interstate or foreign commerce” includes commerce between any place in a State and any place outside of that State, or within any possession of the United States (not including the Canal Zone) or the District of Columbia, but such term does not include commerce between places within the same State but through any place outside of that State. The term “State” includes the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States (not including the Canal Zone).

(3) The term “firearm” means (A) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (B) the frame or receiver of any such weapon; (C) any firearm muffler or firearm silencer; or (D) any destructive device. Such term does not include an antique firearm.

(4) The term “destructive device” means—

(A) any explosive, incendiary, or poison gas—

(i) bomb,

(ii) grenade,

(iii) rocket having a propellant charge of more than four ounces,

(iv) missile having an explosive or incendiary charge of more than one-quarter ounce,

(v) mine, or

(vi) device similar to any of the devices described in the preceding clauses;

(B) any type of weapon (other than a shotgun or a shotgun shell which the Attorney General finds is generally recognized as particularly suitable for sporting purposes) by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, and which has any barrel with a bore of more than one-half inch in diameter; and

(C) any combination of parts either designed or intended for use in converting any device into any destructive device described in subparagraph (A) or (B) and from which a destructive device may be readily assembled.

The term “destructive device” shall not include any device which is neither designed nor redesigned for use as a weapon; any device, although originally designed for use as a weapon, which is redesigned for use as a signaling, pyro-
tends to use solely for sporting, recreational or cultural purposes.

(5) The term "shotgun" means a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of an explosive to fire through a smooth bore either a number of ball shot or a single projectile for each single pull of the trigger.

(6) The term "short-barreled shotgun" means a shotgun having one or more barrels less than eighteen inches in length and any weapon made from a shotgun (whether by alteration, modification, or otherwise) if such weapon as modified has an overall length of less than twenty-six inches.

(7) The term "rifle" means a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of an explosive to fire only a single projectile through a rifled bore for each single pull of the trigger.

(8) The term "short-barreled rifle" means a rifle having one or more barrels less than sixteen inches in length and any weapon made from a rifle (whether by alteration, modification, or otherwise) if such weapon, as modified, has an overall length of less than twenty-six inches.

(9) The term "importer" means any person engaged in the business of importing or bringing firearms or ammunition into the United States for purposes of sale or distribution; and the term "licensed importer" means any such person licensed under the provisions of this chapter.

(10) The term "manufacturer" means any person engaged in the business of manufacturing firearms or ammunition for purposes of sale or distribution; and the term "licensed manufacturer" means any such person licensed under the provisions of this chapter.

(11) The term "dealer" means (A) any person engaged in the business of selling firearms at wholesale or retail, (B) any person engaged in the business of repairing firearms or of making or fitting special barrels, stocks, or trigger mechanisms to firearms, or (C) any person who is a pawnbroker. The term "licensed dealer" means any dealer who is licensed under the provisions of this chapter.

(12) The term "pawnbroker" means any person whose business or occupation includes the taking or receiving, by way of pledge or pawn, of any firearm as security for the payment or repayment of money.

(13) The term "collector" means any person who acquires, holds, or disposes of firearms as curios or relics, as the Attorney General shall by regulation define, and the term "licensed collector" means any such person licensed under the provisions of this chapter.

(14) The term "indictment" includes an indictment or information in any court under which a crime punishable by imprisonment for a term exceeding one year may be prosecuted.

(15) The term "fugitive from justice" means any person who has fled from any State to avoid prosecution for a crime or to avoid giving testimony in any criminal proceeding.

(16) The term "antique firearm" means—

(A) any firearm (including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system) manufactured in or before 1898; or

(B) any replica of any firearm described in subparagraph (A) if such replica—

(i) is not designed or redesigned for using rimfire or conventional centerfire fixed ammunition, or

(ii) uses rimfire or conventional centerfire fixed ammunition which is no longer manufactured in the United States and which is not readily available in the ordinary channels of commercial trade; or

(C) any muzzle loading rifle, muzzle loading shotgun, or muzzle loading pistol, which is designed to use black powder, or a black powder substitute, and which cannot use fixed ammunition. For purposes of this subparagraph, the term "antique firearm" shall not include any weapon which incorporates a firearm frame or receiver, any firearm which is converted into a muzzle loading weapon, or any muzzle loading weapon which can be readily converted to fire fixed ammunition by replacing the barrel, bolt, breechblock, or any combination thereof.

(17) (A) The term "ammunition" means ammunition or cartridge cases, primers, bullets, or propellant powder designed for use in any firearm.

(B) The term "armor piercing ammunition" means—

(i) a projectile or projectile core which may be used in a handgun and which is constructed entirely (excluding the presence of traces of other substances) from one or a combination of tungsten alloys, steel, iron, brass, beryllium copper, or depleted uranium; or

(ii) a full jacketed projectile larger than .22 caliber designed and intended for use in a handgun and whose jacket has a weight of more than 25 percent of the total weight of the projectile.

(C) The term "armor piercing ammunition" does not include shotgun shot required by Federal or State environmental or game regulations for hunting purposes, a frangible projectile designed for target shooting, a projectile which the Attorney General finds is primarily intended to be used for sporting purposes, or any other projectile or projectile core which the Attorney General finds is intended to be used for industrial purposes, including a charge used in an oil and gas well perforating device.

(18) The term "Attorney General" means the Attorney General of the United States.

(19) The term "published ordinance" means a published law of any political subdivision of a State which the Attorney General determines to be relevant to the enforcement of this chapter and which is contained on a list compiled by the Attorney General, which list shall be published in the Federal Register, revised annually, and furnished to each licensee under this chapter.

(20) The term "crime punishable by imprisonment for a term exceeding one year" does not include—

(A) any Federal or State offenses pertaining to antitrust violations, un-
fair trade practices, restraints of trade, or other similar offenses relating to the regulation of business practices, or

(B) any State offense classified by the laws of the State as a misdemeanor and punishable by a term of imprisonment of two years or less.

What constitutes a conviction of such a crime shall be determined in accordance with the law of the jurisdiction in which the proceedings were held. Any conviction which has been expunged, or set aside, or for which a person has been pardoned or has had civil rights restored, shall not be considered a conviction for purposes of this chapter, unless such pardon, expungement, or restoration of civil rights expressly provides that the person may not ship, transport, possess, or receive firearms.

(21) The term "engaged in the business" means—

(A) as applied to a manufacturer of firearms, a person who devotes time, attention, and labor to manufacturing firearms as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the firearms manufactured;

(B) as applied to a manufacturer of ammunition, a person who devotes time, attention, and labor to manufacturing ammunition as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the ammunition manufactured;

(C) as applied to a dealer in firearms, as defined in section 921(a)(11)(A), a person who devotes time, attention, and labor to dealing in firearms as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the firearms sold; and

(D) as applied to a dealer in firearms, as defined in section 921(a)(11)(B), a person who devotes time, attention, and labor to engaging in such activity as a regular course of trade or business with the principal objective of livelihood and profit, but such term shall not include a person who makes occasional repairs of firearms, or who occasionally fits special barrels, stocks, or trigger mechanisms to firearms;

(E) as applied to an importer of firearms, a person who devotes time, attention, and labor to importing firearms as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the firearms imported; and

(F) as applied to an importer of ammunition, a person who devotes time, attention, and labor to importing ammunition as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the ammunition imported.

(22) The term "with the principal objective of livelihood and profit" means that the intent underlying the sale or disposition of firearms is predominantly one of obtaining livelihood and pecuniary gain, as opposed to other intents, such as improving or liquidating a personal firearms collection: Provided, That proof of profit shall not be required as to a person who engages in the regular and repetitive purchase and disposition of firearms for criminal purposes or terrorism. For purposes of this paragraph, the term "terrorism" means activity, directed against United States persons, which—

(A) is committed by an individual who cohabitates or has cohabitated with the person.

(B) involves violent acts or acts dangerous to human life which would be a criminal violation if committed within the jurisdiction of the United States; and

(C) is intended—

(i) to intimidate or coerce a civilian population;

(ii) to influence the policy of a government by intimidation or coercion; or

(iii) to affect the conduct of a government by assassination or kidnapping.

(23) The term "machinegun" has the meaning given such term in section 5845(b) of the National Firearms Act (26 U.S.C. 5845(b)).

(24) The terms "firearm silencer" and "firearm muffler" mean any device for silencing, muffling, or diminishing the report of a portable firearm, including any combination of parts, designed or redesigned, and intended for use in assembling or fabricating a firearm silencer or firearm muffler, and any part intended only for use in such assembly or fabrication.

(25) The term "school zone" means—

(A) in, or on the grounds of, a public, parochial or private school; or

(B) within a distance of 1,000 feet from the grounds of a public, parochial or private school.

(26) The term "school" means a school which provides elementary or secondary education, as determined under State law.

(27) The term "motor vehicle" has the meaning given such term in section 13102 of title 49, United States Code.

(28) The term "semiautomatic rifle" means any repeating rifle which utilizes a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round, and which requires a separate pull of the trigger to fire each cartridge.

(29) The term "handgun" means—

(A) a firearm which has a short stock and is designed to be held and fired by the use of a single hand; and

(B) any combination of parts from which a firearm described in subparagraph (A) can be assembled.

(30) Repealed.

(31) Repealed.

(32) The term "intimate partner" means, with respect to a person, the spouse of the person, a former spouse of the person, an individual who is a parent of a child of the person, and an individual who cohabitates or has cohabited with the person.

(33) (A) Except as provided in subparagraph (C), the term "misdemeanor crime of domestic violence" means an offense that—

(i) is a misdemeanor under Federal or State law; and

(ii) has, as an element, the use or attempted use of physical force, or
the threatened use of a deadly weapon, committed by a current or former spouse, parent, or guardian of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabited with the victim as a spouse, parent, or guardian, or by a person similarly situated to a spouse, parent, or guardian of the victim.

(B) (i) A person shall not be considered to have been convicted of such an offense for purposes of this chapter, unless—

(I) the person was represented by counsel in the case, or knowingly and intelligently waived the right to counsel in the case; and

(ii) in the case of a prosecution for an offense described in this paragraph for which a person was entitled to a jury trial in the jurisdiction in which the case was tried, either

(aa) the case was tried by a jury, or

(bb) the person knowingly and intelligently waived the right to have the case tried by a jury, by guilty plea or otherwise.

(ii) A person shall not be considered to have been convicted of such an offense for purposes of this chapter if the conviction has been expunged or set aside, or is an offense for which the person has been pardoned or has had civil rights restored (if the law of the applicable jurisdiction provides for the loss of civil rights under such an offense) unless the pardon, expungement, or restoration of civil rights expressly provides that the person may not ship, transport, possess, or receive firearms.

Editor’s Note:

Subparagraph (C) referenced in 921(a)(33)(A) never was enacted. We presume the reference should have been to subparagraph (B).

(34) The term "secure gun storage or safety device" means—

(A) a device that, when installed on a firearm, is designed to prevent the firearm from being operated without first deactivating the device;

(B) a device incorporated into the design of the firearm that is designed to prevent the operation of the firearm by anyone not having access to the device; or

(C) a safe, gun safe, gun case, lock box, or other device that is designed to be or can be used to store a firearm and that is designed to be unlocked only by means of a key, a combination, or other similar means.

(35) The term "body armor" means any product sold or offered for sale, in interstate or foreign commerce, as personal protective body covering intended to protect against gunfire, regardless of whether the product is to be worn alone or is sold as a complement to another product or garment.

(b) For the purposes of this chapter, a member of the Armed Forces on active duty is a resident of the State in which his permanent duty station is located.

§ 922 Unlawful acts.

(a) It shall be unlawful—

(1) for any person—

(A) except a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, to transport in interstate or foreign commerce, as personal protective body covering intended to protect against gunfire, regardless of whether the product is to be worn alone or is sold as a complement to another product or garment.

(B) except a licensed importer or licensed manufacturer, to engage in the business of importing, manufacturing, or dealing in firearms, or in the course of such business to ship, transport, or receive any firearm in interstate or foreign commerce; or

(2) for any importer, manufacturer, dealer, or collector licensed under the provisions of this chapter to ship or transport in interstate or foreign commerce any firearm to any person other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, except that—

(A) this paragraph and subsection (b)(3) shall not be held to preclude a licensed importer, licensed manufacturer, licensed dealer, or licensed collector from returning a firearm or combination, or other similar means.

(B) this paragraph shall not be held to preclude a licensed importer, licensed manufacturer, or licensed dealer from depositing a firearm for conveyance in the mails to any officer, employee, agent, or watchman who, pursuant to the provisions of section 1715 of this title, is eligible to receive through the mails pistols, revolvers, and other firearms capable of being concealed on the person, for use in connection with his official duty; and

(C) nothing in this paragraph shall be construed as applying in any manner in the District of Columbia, the Commonwealth of Puerto Rico, or any possession of the United States differently than it would apply if the District of Columbia, the Commonwealth of Puerto Rico, or the possession were in fact a State of the United States;

(3) for any person other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector to transport into or receive in the State where he resides (or if the person is a corporation or other business entity, the State where it maintains a place of business) any firearm purchased or otherwise obtained by such person outside that State, except that this paragraph (A) shall not preclude any person who lawfully acquires a firearm by bequest or intestate succession in a State other than his State of residence from transporting the firearm into or receiving it in that State, if it is lawful for such person to purchase or possess such firearm in that State. (B) shall not apply to the transportation or receipt of a firearm obtained in conformity with subsection (b)(3) of this section, and (C) shall not apply to the transportation of any firearm acquired in any State prior to the effective date of this chapter;

(4) for any person, other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, to transport in interstate or foreign commerce any destructive device, machinegun (as defined in section 5845 of the Internal Revenue Code of 1954), short-barreled shotgun, or short-barreled rifle, except as specifically authorized by the Attorney General consistent with public safety and necessity;

(5) for any person (other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, to transport in interstate or foreign commerce any destructive device, machinegun (as defined in section 5845 of the Internal Revenue Code of 1954), short-barreled shotgun, or short-barreled rifle, except as specifically authorized by the Attorney General consistent with public safety and necessity;
collect) to transfer, sell, trade, give, transport, or deliver any firearm to any person (other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector) who the transferee knows or has reasonable cause to believe does not reside in (or if the person is a corporation or other business entity, does not maintain a place of business in) the State in which the transferee resides; except that this paragraph shall not apply to (A) the transfer, transportation, or delivery of a firearm made to carry out a bequest of a firearm to, or an acquisition by intestate succession of a firearm by, a person who is permitted to acquire or possess a firearm under the laws of the State of his residence, and (B) the loan or rental of a firearm to any person for temporary use for lawful sporting purposes;

(6) for any person in connection with the acquisition or attempted acquisition of any firearm or ammunition from a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, knowingly to make any false or fictitious oral or written statement or to furnish or exhibit any false, fictitious, or misrepresented identification, intended or likely to deceive such importer, manufacturer, dealer, or collector with respect to any fact material to the lawfulness of the sale or other disposition of such firearm or ammunition under the provisions of this chapter;

(7) for any person to manufacture or import armor piercing ammunition, unless—

(A) the manufacture of such ammunition is for the use of the United States, any department or agency of the United States, any State, or any department, agency, or political subdivision of a State;

(B) is for the purpose of exportation; or

(C) is for the purpose of testing or experimentation and has been authorized by the Attorney General;

(9) for any person, other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, who does not reside in any State to receive any firearms unless such receipt is for lawful sporting purposes.

(b) It shall be unlawful for any licensed importer, licensed manufacturer, licensed dealer, or licensed collector to sell or deliver—

(1) any firearm or ammunition to any individual who the licensee knows or has reasonable cause to believe is less than eighteen years of age, and, if the firearm or ammunition is other than a shotgun or rifle, or ammunition for a shotgun or rifle, to any individual who the licensee knows or has reasonable cause to believe is less than twenty-one years of age;

(2) any firearm to any person in any State where the purchase or possession by such person of such firearm would be in violation of any State law or any published ordinance applicable at the place of sale, delivery or other disposition, unless the licensee knows or has reasonable cause to believe that the purchase or possession would not be in violation of such State law or such published ordinance;

(3) any firearm to any person who the licensee knows or has reasonable cause to believe does not reside in (or if the person is a corporation or other business entity, does not maintain a place of business in) the State in which the licensee's place of business is located, except that this paragraph (A) shall not apply to the sale or delivery of any rifle or shotgun to a resident of a State other than a State in which the licensee's place of business is located if the transferee meets in person with the transferee to accomplish the transfer, and the sale, delivery, and receipt fully comply with the legal conditions of sale in both such States (and any licensed manufacturer, importer or dealer shall be presumed, for purposes of this subparagraph, in the absence of evidence to the contrary, to have had actual knowledge of the State laws and published ordinances of both States), and (B) shall not apply to the loan or rental of a firearm to any person for temporary use for lawful sporting purposes;

(4) to any person any destructive device, machinegun (as defined in section 5845 of the Internal Revenue Code of 1954), short-barreled shotgun, or short-barreled rifle, except as specifically authorized by the Attorney General consistent with public safety and necessity; and

(5) any firearm or armor-piercing ammunition to any person unless the licensee notes in his records, required to be kept pursuant to section 923 of this chapter, the name, age, and place of residence of such person if the person is an individual, or the identity and principal and local places of business of such person if the person is a corporation or other business entity.

Paragraphs (1), (2), (3), and (4) of this subsection shall not apply to transactions between licensed importers, licensed manufacturers, licensed dealers, and licensed collectors. Paragraph (4) of this subsection shall not apply to a sale or delivery to any research organization designated by the Attorney General.

(c) In any case not otherwise prohibited by this chapter, a licensed importer, licensed manufacturer, or licensed dealer may sell a firearm to a person who does not appear in person at the licensee's business premises (other than another licensed importer, manufacturer, or dealer) only if—

(1) the transferee submits to the transferee a sworn statement in the following form:

"Subject to penalties provided by law, I swear that, in the case of any firearm other than a shotgun or a rifle, I am twenty-one years or more of age, or that, in the case of a shotgun or a rifle, I am eighteen years or more of age; that I am not prohibited by the provisions of chapter 44 of title 18, United States Code, from receiving a firearm in interstate or foreign commerce; and that my receipt of this firearm will not be in violation of any statute of the State and published ordinance applicable to the locality in which I reside. Further, the true title, name, and address of the principal law enforcement officer of the locality to which the firearm will be delivered are ____________________________.

Signature ____________________________.
Date ______________.

and containing blank spaces for the attachment of a true copy of any permit or other information required pursuant to such statute or published ordinance; (2) the transferor has, prior to the shipment or delivery of the firearm, forwarded by registered or certified mail (return receipt requested) a copy of the sworn statement, together with a description of the firearm, in a form prescribed by the Attorney General, to the chief law enforcement officer of the transferee’s place of residence, and has received a return receipt evidencing delivery of the statement or has had the statement returned due to the refusal of the named addressee to accept such letter in accordance with United States Post Office Department regulations; and

(3) the transferor has delayed shipment or delivery for a period of at least seven days following receipt of the notification of the acceptance or refusal of delivery of the statement.

A copy of the sworn statement and a copy of the notification to the local law enforcement officer, together with evidence of receipt or rejection of that notification, shall be retained by the licensee as a part of the records required to be kept under section 923(g).

(d) It shall be unlawful for any person to sell or otherwise dispose of any firearm or ammunition to any person knowing or having reasonable cause to believe that such person—

(1) is under indictment for, or has been convicted in any court of, a crime punishable by imprisonment for a term exceeding one year;

(2) is a fugitive from justice;

(3) is an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802));

(4) has been adjudicated as a mental defective or has been committed to any mental institution;

(5) who, being an alien—

(A) is illegally or unlawfully in the United States; or

(B) except as provided in subsection (y)(2), has been admitted to the United States under a nonimmigrant visa (as that term is defined in section 101(a)(26) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(26));

(6) who has been discharged from the Armed Forces under dishonorable conditions;

(7) who, having been a citizen of the United States, has renounced his citizenship;

(8) is subject to a court order that restrains such person from harassing, stalking, or threatening an intimate partner of such person or child of such intimate partner or person, or engaging in other conduct that would place an intimate partner in reasonable fear of bodily injury to the partner or child, except that this paragraph shall only apply to a court order that—

(A) was issued after a hearing of which such person received actual notice, and at which such person had the opportunity to participate; and

(B) (i) includes a finding that such person represents a credible threat to the physical safety of such intimate partner or child; or

(ii) by its terms explicitly prohibits the use, attempted use, or threatened use of physical force against such intimate partner or child that would reasonably be expected to cause bodily injury; or

(9) has been convicted in any court of a misdemeanor crime of domestic violence.

This subsection shall not apply with respect to the sale or disposition of a firearm or ammunition to a licensed importer, licensed manufacturer, licensed dealer, or licensed collector who pursuant to subsection (b) of section 925 of this chapter is not precluded from dealing in firearms or ammunition, or to a person who has been granted relief from disabilities pursuant to subsection (c) of section 925 of this chapter.

(e) It shall be unlawful for any person knowingly to deliver or cause to be delivered to any common or contract carrier for transportation or shipment in interstate or foreign commerce, to persons other than licensed importers, licensed manufacturers, licensed dealers, or licensed collectors, any package or other container in which there is any firearm or ammunition without written notice to the carrier that such firearm or ammunition is being transported or shipped; except that any passenger who owns or legally possesses a firearm or ammunition being transported aboard any common or contract carrier for movement with the passenger in interstate or foreign commerce may deliver said firearm or ammunition into the custody of the pilot, captain, conductor or operator of such common or contract carrier for the duration of the trip without violating any of the provisions of this chapter. No common or contract carrier shall require or cause any label, tag, or other written notice to be placed on the outside of any package, luggage, or other container that such package, luggage, or other container contains a firearm.

(f) (1) It shall be unlawful for any common or contract carrier to transport or deliver in interstate or foreign commerce any firearm or ammunition with knowledge or reasonable cause to believe that the shipment, transportation, or receipt thereof would be in violation of the provisions of this chapter.

(2) It shall be unlawful for any common or contract carrier to deliver in interstate or foreign commerce any firearm without obtaining written acknowledgement of receipt from the recipient of the package or other container in which there is a firearm.

(g) It shall be unlawful for any person—

(1) who has been convicted in any court of, a crime punishable by imprisonment for a term exceeding one year;

(2) who is a fugitive from justice;

(3) who is an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802));

(4) who has been adjudicated as a mental defective or who has been committed to a mental institution;

(5) who, being an alien—

(A) is illegally or unlawfully in the United States; or

(B) except as provided in subsection (y)(2), has been admitted to the United States under a nonimmigrant visa (as that term is defined in section 101(a)(26) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(26));

(6) who has been discharged from the Armed Forces under dishonorable conditions;

(7) who, having been a citizen of the United States, has renounced his citizenship;
which is a part of, which constitutes, or stolen ammunition, which is moving as, security for a loan any stolen firearm or pledged or accept as sell, or dispose of any stolen firearm or receive, possess, conceal, store, barter, sell, or dispose of any stolen firearm or stolen ammunition, or pledge or accept as security for a loan any stolen firearm or stolen ammunition, which is moving as, which is a part of, which constitutes, or

which has been shipped or transported in, interstate or foreign commerce, either before or after it was stolen, knowing or having reasonable cause to believe that the firearm or ammunition was stolen.

It shall be unlawful for any person knowingly to transport, ship, or receive, in interstate or foreign commerce, any firearm which has had the importer's or manufacturer's serial number removed, obliterated, or altered, or to possess or receive any firearm which has had the importer's or manufacturer's serial number removed, obliterated, or altered and has, at any time, been shipped or transported in interstate or foreign commerce.

Except as provided in section 925(d) of this chapter, it shall be unlawful for any person knowingly to import or bring into the United States or any possession thereof any firearm or ammunition; and it shall be unlawful for any person knowingly to receive any firearm or ammunition which has been imported or brought into the United States or any possession thereof in violation of the provisions of this chapter.

It shall be unlawful for any licensed importer, licensed manufacturer, licensed dealer, or licensed collector knowingly to make any false entry in, to fail to make appropriate entry in, or to fail to properly maintain, any record which he is required to keep pursuant to section 923 of this chapter or regulations promulgated thereunder.

It shall be unlawful for any person who is under indictment for a crime punishable by imprisonment for a term exceeding one year to ship or transport in interstate or foreign commerce any firearm or ammunition or receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.

Except as provided in paragraph (2), it shall be unlawful for any person to transfer or possess a machine gun.

This subsection does not apply with respect to—

A transfer to or by, or possession by or under the authority of, the United States or any department or agency thereof or a State, or a department, agency, or political subdivision thereof; or

any lawful transfer or lawful possession of a machine gun that was lawfully possessed before the date this subsection takes effect.

It shall be unlawful for any person to receive, possess, conceal, store, barter, sell, or dispose of any stolen firearm or stolen ammunition, or pledge or accept as security for a loan any stolen firearm or stolen ammunition, which is moving as, which is a part of, which constitutes, or

which has been shipped or transported in, interstate or foreign commerce, either before or after it was stolen, knowing or having reasonable cause to believe that the firearm or ammunition was stolen.

It shall be unlawful for any person to transport or ship in interstate or foreign commerce, any stolen firearm or stolen ammunition, knowing or having reasonable cause to believe that the firearm or ammunition was stolen.

It shall be unlawful for any person to transport or ship in interstate or foreign commerce, any stolen firearm or stolen ammunition, or pledge or accept as security for a loan any stolen firearm or stolen ammunition, which is moving as, which is a part of, which constitutes, or

which has been shipped or transported in, interstate or foreign commerce, either before or after it was stolen, knowing or having reasonable cause to believe that the firearm or ammunition was stolen.

It shall be unlawful for any person to transport or ship in interstate or foreign commerce, any firearm or ammunition in or affecting interstate or foreign commerce; or

It shall be unlawful for any person to transport or ship in interstate or foreign commerce, any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.

It shall be unlawful for any person to transport or ship in interstate or foreign commerce, any firearm or ammunition, which has been imported or brought into the United States or any possession thereof in violation of the provisions of this chapter.

That at the close of such 12-month period, and at appropriate times thereafter the Attorney General shall promulgate regulations to permit the manufacture, importation, sale, shipment, delivery, possession, transfer, or receipt of firearms previously prohibited under this subparagraph that are as detectable as a "Security Exemplar" which contains 3.7 ounces of material type 17-4 PH stainless steel in a shape resembling a handgun; and

that, after removal of grips, stocks, and magazines, is not as detectable as the Security Exemplar, by walk-through metal detectors calibrated and operated to detect the Security Exemplar; or

any major component of which, when subjected to inspection by the types of x-ray machines commonly used at airports, does not generate an image that accurately depicts the shape of the component. Barium sulfate or other compounds may be used in the fabrication of the component.

For purposes of this subsection—

the term "firearm" does not include the frame or receiver of any such weapon;

the term "major component" means, with respect to a firearm, the barrel, the slide or cylinder, or the frame or receiver of the firearm; and

the term "Security Exemplar" means an object, to be fabricated at the direction of the Attorney General, that is—

(i) constructed of, during the 12-month period beginning on the date of the enactment of this subsection, 3.7 ounces of material type 17-4 PH stainless steel in a shape resembling a handgun; and

(ii) suitable for testing and calibrating metal detectors:

Provided, however, That at the close of such 12-month period, and at appropriate times thereafter the Attorney General shall promulgate regulations to permit the manufacture, importation, sale, shipment, delivery, possession, transfer, or receipt of firearms previously prohibited under this subparagraph that are as detectable as a "Security Exemplar" which contains 3.7 ounces of material type 17-4 PH stainless steel, in a shape resembling a handgun, or such lesser amount as is detectable in view of advances in state-of-the-art developments in weapons detection technology.
son acting pursuant to a contract with a licensed manufacturer, for the purpose of examining and testing such firearm to determine whether paragraph (1) applies to such firearm. The Attorney General shall ensure that rules and regulations adopted pursuant to this paragraph do not impair the manufacture of prototype firearms or the development of new technology.

(4) The Attorney General shall permit the conditional importation of a firearm by a licensed importer or licensed manufacturer, for examination and testing to determine whether or not the unconditional importation of such firearm would violate this subsection.

(5) This subsection shall not apply to any firearm which—

(A) has been certified by the Secretary of Defense or the Director of Central Intelligence, after consultation with the Attorney General and the Administrator of the Federal Aviation Administration, as necessary for military or intelligence applications; and

(B) is manufactured for and sold exclusively to military or intelligence agencies of the United States.

(6) This subsection shall not apply with respect to any firearm manufactured in, imported into, or possessed in the United States before the date of the enactment of the Undetectable Firearms Act of 1988.

(q) (1) The Congress finds and declares that—

(A) crime, particularly crime involving drugs and guns, is a pervasive, nationwide problem;

(B) crime at the local level is exacerbated by the interstate movement of drugs, guns, and criminal gangs;

(C) firearms and ammunition move easily in interstate commerce and have been found in increasing numbers in and around schools, as documented in numerous hearings in both the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate;

(D) in fact, even before the sale of a firearm, the gun, its component parts, ammunition, and the raw materials from which they are made have considerably moved in interstate commerce;

(E) while criminals freely move from State to State, ordinary citizens and foreign visitors may fear to travel to or through certain parts of the country due to concern about violent crime and gun violence, and parents may decline to send their children to school for the same reason;

(F) the occurrence of violent crime in school zones has resulted in a decline in the quality of education in our country;

(G) this decline in the quality of education has an adverse impact on interstate commerce and the foreign commerce of the United States;

(H) States, localities, and school systems find it almost impossible to handle gun-related crime by themselves—even States, localities, and school systems that have made strong efforts to prevent, detect, and punish gun-related crime find their efforts unavailing due in part to the failure or inability of other States or localities to take strong measures; and

(I) the Congress has the power, under the interstate commerce clause and other provisions of the Constitution, to enact measures to ensure the integrity and safety of the Nation’s schools by enactment of this subsection.

(2) (A) It shall be unlawful for any individual knowingly to possess a firearm that has moved in or that otherwise affects interstate or foreign commerce at a place that the individual knows, or has reasonable cause to believe, is a school zone.

(B) Subparagraph (A) does not apply to the discharge of a firearm—

(i) on private property not part of school grounds;

(ii) as part of a program approved by a school in the school zone, by an individual who is participating in the program;

(iii) by an individual in accordance with a contract entered into between a school in a school zone and the individual or an employer of the individual; or

(iv) by a law enforcement officer acting in his or her official capacity.

(4) Nothing in this subsection shall be construed as preempting or preventing a State or local government from enacting a statute establishing gun free school zones as provided in this subsection.

(r) It shall be unlawful for any person to assemble from imported parts any semi-automatic rifle or any shotgun which is
has not received information from the chief law enforcement officer that receipt or possession of the handgun by the transferee would be in violation of Federal, State, or local law; or

(II) the transferee has received notice from the chief law enforcement officer that the officer has no information indicating that receipt or possession of the handgun by the transferee would violate Federal, State, or local law;

(B) the transferee has presented to the transferee a written statement, issued by the chief law enforcement officer of the place of residence of the transferee during the 10-day period ending on the date of the most recent proposal of such transfer by the transferee, stating that the transferee requires access to a handgun because of a threat to the life of the transferee or of any member of the household of the transferee;

(C) (i) the transferee has presented to the transferee a permit that—

(I) allows the transferee to possess or acquire a handgun; and

(II) was issued not more than 5 years earlier by the State in which the transfer is to take place; and

(ii) the law of the State provides that such a permit is to be issued only after an authorized government official has verified that the information available to such official does not indicate that possession of a handgun by the transferee would be in violation of the law;

(D) the law of the State requires that, before any licensed importer, licensed manufacturer, or licensed dealer completes the transfer of a handgun to an individual who is not licensed under section 923, an authorized government official verify that the information available to such official does not indicate that possession of a handgun by the transferee would be in violation of law;

(E) the Attorney General has approved the transfer under section 5812 of the Internal Revenue Code of 1954; or

(F) on application of the transferee,
(iv) has not been adjudicated as a mental defective or been committed to a mental institution;

(v) is not an alien who—

(I) is illegally or unlawfully in the United States; or

(II) subject to subsection (y)(2), has been admitted to the United States under a nonimmigrant visa (as that term is defined in section 101(a)(26) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(26));

(vi) has not been discharged from the Armed Forces under dishonorable conditions; and

(vii) is not a person who, having been a citizen of the United States, has renounced such citizenship;

(C) the date the statement is made; and

(D) notice that the transferee intends to obtain a handgun from the transferor.

(4) Any transferor of a handgun who, after such transfer, receives a report from a chief law enforcement officer containing information that receipt or possession of the handgun by the transferee violates Federal, State, or local law shall, within 1 business day after receipt of such request, communicate any information related to the transfer that the transferor has about the transfer and the transferee to—

(A) the chief law enforcement officer of the place of business of the transferor; and

(B) the chief law enforcement officer of the place of residence of the transferee.

(5) Any transferor who receives information, not otherwise available to the public, in a report under this subsection shall not disclose such information except to the transferee, to law enforcement authorities, or pursuant to the direction of a court of law.

(6) (A) Any transferor who sells, delivers, or otherwise transfers a handgun to a transferee shall retain the copy of the statement of the transferee with respect to the handgun transaction, and shall retain evidence that the transferor has complied with subclauses (III) and (IV) of paragraph (1)(A)(i) with respect to the statement.

(B) Unless the chief law enforcement officer to whom a statement is transmitted under paragraph (1)(A)(i)(IV) determines that a transaction would violate Federal, State, or local law—

(i) the officer shall, within 20 business days after the date the transferee made the statement on the basis of which the notice was provided, destroy the statement, any record containing information derived from the statement, and any record created as a result of the notice required by paragraph (1)(A)(i)(III);

(ii) the information contained in the statement shall not be conveyed to any person except a person who has a need to know in order to carry out this subsection; and

(iii) the information contained in the statement shall not be used for any purpose other than to carry out this subsection.

(C) If a chief law enforcement officer determines that an individual is ineligible to receive a handgun and the individual requests the officer to provide the reason for such determination, the officer shall provide such reasons to the individual in writing within 20 business days after receipt of the request.

(7) A chief law enforcement officer or other person responsible for providing criminal history background information pursuant to this subsection shall not be liable in an action at law for damages—

(A) for failure to prevent the sale or transfer of a handgun to a person whose receipt or possession of the handgun is unlawful under this section; or

(B) for preventing such a sale or transfer to a person who may lawfully receive or possess a handgun.

(8) For purposes of this subsection, the term "chief law enforcement officer" means the chief of police, the sheriff, or an equivalent officer or the designee of any such individual.

(9) The Attorney General shall take necessary actions to ensure that the provisions of this subsection are published and disseminated to licensed dealers, law enforcement officials, and the public.

(t) (1) Beginning on the date that is 30 days after the Attorney General notifies licensees under section 103(d) of the Brady Handgun Violence Prevention Act that the national instant criminal background check system is established, a licensed importer, licensed manufacturer, or licensed dealer shall not transfer a firearm to any other person who is not licensed under this chapter, unless—

(A) before the completion of the transfer, the licensee contacts the national instant criminal background check system established under section 103 of that Act;

(B) (i) the system provides the licensee with a unique identification number; or

(ii) 3 business days (meaning a day on which State offices are open) have elapsed since the licensee contacted the system, and the system has not notified the licensee that the receipt of a firearm by such other person would violate subsection (g) or (n) of this section; and

(C) the transferor has verified the identity of the transferee by examining a valid identification document (as defined in section 1028(d) of this title) of the transferee containing a photograph of the transferee.

(2) If receipt of a firearm would not violate section 922 (g) or (n) or State law, the system shall—

(A) assign a unique identification number to the transfer;

(B) provide the licensee with the number; and

(C) destroy all records of the system with respect to the call (other than the identifying number and the date the number was assigned) and all records of the system relating to the person or the transfer.

(3) Paragraph (1) shall not apply to a firearm transfer between a licensee and another person if—

(A) (i) such other person has presented to the licensee a permit that—

(I) allows such other person to possess or acquire a firearm; and

(II) was issued not more than 5 years earlier by the State in which the transfer is to take place; and
(ii) the law of the State provides that such a permit is to be issued only after an authorized government official has verified that the information available to such official does not indicate that possession of a firearm by such other person would be in violation of law;

(B) the Attorney General has approved the transfer under section 5812 of the Internal Revenue Code of 1954; or

(C) on application of the transferee, the Attorney General has certified that compliance with paragraph (1)(A) is impracticable because—

(i) the ratio of the number of law enforcement officers of the State in which the transfer is to occur to the number of square miles of land area of the State does not exceed 0.0025;

(ii) the business premises of the licensee at which the transfer is to occur are extremely remote in relation to the chief law enforcement officer (as defined in subsection (5)); and

(iii) there is an absence of telecommunications facilities in the geographical area in which the business premises are located.

(4) If the national instant criminal background check system notifies the licensee that the information available to the system does not demonstrate that the receipt of a firearm by such other person would violate subsection (g) or (n) of State law, and the licensee transfers a firearm to such other person, the licensee shall include in the record of the transfer the unique identification number provided by the system with respect to the transfer.

(5) If the licensee knowingly transfers a firearm to such other person and knowingly fails to comply with paragraph (1) of this subsection with respect to the transfer and, at the time such other person most recently proposed the transfer, the national instant criminal background check system was operating and information was available to the system demonstrating that receipt of a firearm by such other person would violate subsection (g) or (n) of this section or State law, the Attorney General may, after notice and opportunity for a hearing, suspend for not more than 6 months or revoke any license issued to the licensee under section 923, and may impose on the licensee a civil fine of not more than $5,000.

(6) Neither a local government nor an employee of the Federal Government or of any State or local government, responsible for providing information to the national instant criminal background check system shall be liable in an action at law for damages—

(A) for failure to prevent the sale or transfer of a firearm to a person whose receipt or possession of the firearm is unlawful under this section; or

(B) for preventing such a sale or transfer to a person who may lawfully receive or possess a firearm.

(u) It shall be unlawful for a person to steal or unlawfully take or carry away from the person or the premises of a person who is licensed to engage in the business of importing, manufacturing, or dealing in firearms, any firearm in the licensee’s business inventory that has been shipped or transported in interstate or foreign commerce.

(v) Repealed.

(w) Repealed.

(x) (1) It shall be unlawful for a person to sell, deliver, or otherwise transfer to a person who the transferor knows or has reasonable cause to believe is a juvenile—

(A) a handgun; or

(B) ammunition that is suitable for use only in a handgun.

(2) It shall be unlawful for any person who is a juvenile to knowingly possess—

(A) a handgun; or

(B) ammunition that is suitable for use only in a handgun.

(3) This subsection does not apply to—

(A) a temporary transfer of a handgun or ammunition to a juvenile or to the possession or use of a handgun or ammunition by a juvenile if the handgun and ammunition are possessed and used by the juvenile—

(i) in the course of employment, in the course of ranching or farming related to activities at the residence of the juvenile (or on property used for ranching or farming at which the juvenile, with the permission of the property owner or lessee, is performing activities related to the operation of the farm or ranch), target practice, hunting, or a course of instruction in the safe and lawful use of a handgun;

(ii) with the prior written consent of the juvenile’s parent or guardian who is not prohibited by Federal, State, or local law from possessing a firearm, except—

(I) during transportation by the juvenile of an unloaded handgun in a locked container directly from the place of transfer to a place at which an activity described in clause (i) is to take place and transportation by the juvenile of that handgun, unloaded and in a locked container, directly from the place at which such an activity took place to the transferor; or

(II) with respect to ranching or farming activities as described in clause (i), a juvenile may possess and use a handgun or ammunition with the prior written approval of the juvenile’s parent or legal guardian and at the direction of an adult who is not prohibited by Federal, State or local law from possessing a firearm;

(iii) the juvenile has the prior written consent in the juvenile’s possession at all times when a handgun is in the possession of the juvenile; and

(iv) in accordance with State and local law;

(B) a juvenile who is a member of the Armed Forces of the United States or the National Guard who possesses or carries with a handgun in the line of duty;

(C) a transfer by inheritance of title (but not possession) of a handgun or ammunition to a juvenile; or

(D) the possession of a handgun or ammunition by a juvenile taken in defense of the juvenile or other persons against an intruder into the residence of the juvenile or a residence in which the juvenile is an invited guest.

(4) A handgun or ammunition, the
possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection shall not be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner when such handgun or ammunition is no longer required by the Government for the purposes of investigation or prosecution.

(5) For purposes of this subsection, the term "juvenile" means a person who is less than 18 years of age.

(6) (A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant's parent or legal guardian at all proceedings.

(B) The court may use the contempt power to enforce subparagraph (A).

(C) The court may excuse attendance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

(y) Provisions relating to aliens admitted under nonimmigrant visas.

(1) Definitions. In this subsection—

(A) the term "alien" has the same meaning as in section 101(a)(3) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(3)); and

(B) the term "nonimmigrant visa" has the same meaning as in section 101(a)(26) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(26)).

(2) Exceptions. Subsections (d)(5)(B), (g)(5)(B), and (s)(3)(B)(v)(II) do not apply to any alien who has been lawfully admitted to the United States under a nonimmigrant visa, if that alien is—

(A) admitted to the United States for lawful hunting or sporting purposes or is in possession of a hunting license or permit lawfully issued in the United States;

(B) an official representative of a foreign government who is—

(i) accredited to the United States Government or the Government's mission to an international organization having its headquarters in the United States; or

(ii) en route to or from another country to which that alien is accredited;

(C) an official of a foreign government or a distinguished foreign visitor who has been so designated by the Department of State; or

(D) a foreign law enforcement officer of a friendly foreign government entering the United States on official law enforcement business.

(3) Waiver.

(A) Conditions for waiver. Any individual who has been admitted to the United States under a nonimmigrant visa may receive a waiver from the requirements of subsection (g)(5), if—

(i) the individual submits to the Attorney General a petition that meets the requirements of subparagraph (C); and

(ii) the Attorney General approves the petition.

(B) Petition. Each petition under subparagraph (B) shall—

(i) demonstrate that the petitioner has resided in the United States for a continuous period of not less than 180 days before the date on which the petition is submitted under this paragraph; and

(ii) include a written statement from the embassy or consulate of the petitioner, authorizing the petitioner to acquire a firearm or ammunition and certifying that the alien would not, absent the application of subsection (g)(5)(B), otherwise be prohibited from such acquisition under subsection (g).

(C) Approval of petition. The Attorney General shall approve a petition submitted in accordance with this paragraph, if the Attorney General determines that waiving the requirements of subsection (g)(5)(B) with respect to the petitioner—

(i) would be in the interests of justice; and

(ii) would not jeopardize the public safety.

Editor's Note:

18 U.S.C. § 922(z) was added to the Gun Control Act as part of the “Protection of Lawful Commerce in Arms Act” enacted on October 26, 2005. It is effective April 24, 2006.

(z) SECURE GUN STORAGE OR SAFETY DEVICE—

(1) IN GENERAL- Except as Provided under paragraph (2), it shall be unlawful for any licensed importer, licensed manufacturer, or licensed dealer to sell, deliver, or transfer any handgun to anyone other than any person licensed under this chapter, unless the transferee is provided with a secure gun storage or safety device (as defined in section 921(a)(34)) for the handgun.

(2) EXCEPTIONS – Paragraph shall not apply to—

(A) the manufacture for, transfer to, or possession by, the United States, a department or agency of the United States, a State, or a department, agency, or political subdivision of a State, of a handgun; or

(B) the transfer to, or possession by, a law enforcement officer employed by an entity referred to in clause (i) of a handgun for law enforcement purposes (whether on or off duty); or

(C) the transfer to any person of a handgun listed as a curio or relic by the Secretary pursuant to section 921(a)(13); or

(D) the transfer to any person of a handgun for which a secure gun storage or safety device is temporarily unavailable for the reasons described in the exceptions stated in section 923(e), if the licensed manufacturer, licensed importer, or licensed dealer delivers to the transferee within 10 calendar days from the date of the delivery of the handgun to the transferee a secure gun storage or safety device for the handgun.

(3) LIABILITY FOR USE –

(A) IN GENERAL– Notwithstanding any other provision of law, a person
who has lawful possession and control of a handgun, and who uses a secure gun storage or safety device with the handgun, shall be entitled to immunity from a qualified civil liability action.

(B) PROSPECTIVE ACTIONS — A qualified civil liability action may not be brought in any Federal or State court.

(C) DEFINED TERM — As used in this paragraph, the term qualified civil liability action—

(i) means a civil action brought by any person against a person described in subparagraph (A) for damages resulting from the criminal or unlawful misuse of the handgun by a third party, if—

(1) the handgun was accessed by another person who did not have the permission or authorization of the person having lawful possession and control of the handgun to have access to it; and

(2) at the time access was gained by the person not so authorized, the handgun had been made in operable use of a secure gun storage or safety device; and

(ii) shall not include an action brought against the person having lawful possession and control of the handgun for negligent entrustment or negligence per se.

APPENDIX A — Repealed.

§ 923 Licensing.

(a) No person shall engage in the business of importing, manufacturing, or dealing in fireworks, or importing or manufacturing ammunition, until he has filed an application with and received a license to do so from the Attorney General. The application shall be in such form and contain only that information necessary to determine eligibility as the Attorney General shall by regulation prescribe. The fee for such license shall be $10 per year.

(b) Any person desiring to be licensed as a collector shall file an application for such license with the Attorney General. The application shall be in such form and contain only that information necessary to determine eligibility as the Attorney General shall by regulation prescribe. The fee for such license shall be $100 per year; or

(c) Any person desiring to be licensed as an importer of fireworks other than destructive devices, a fee of $50 per year; or

(d) Any person desiring to be licensed as a dealer in destructive devices, ammunition for firearms, other than ammunition for destructive devices or armor piercing ammunition, a fee of $1,000 per year; or

(e) of firearms other than destructive devices, a fee of $50 per year; or

(f) of ammunition for firearms, other than ammunition for destructive devices or armor piercing ammunition, a fee of $10 per year.

(2) If the applicant is an importer—

(A) of destructive devices, ammunition for destructive devices or armor piercing ammunition, a fee of $1,000 per year; or

(B) firearms other than other destructive devices or ammunition for firearms other than destructive devices, a fee of $1,000 per year; or

(C) of ammunition for firearms, other than ammunition for destructive devices, or ammunition other than armor piercing ammunition, a fee of $50 per year.

(3) If the applicant is a dealer—

(A) in destructive devices or ammunition for destructive devices, a fee of $1,000 per year; or

(B) who is not a dealer in destructive devices, a fee of $200 for 3 years, except that the fee for renewal of a valid license shall be $90 for 3 years.

(4) Any person desiring to be licensed as a collector shall file an application for such license with the Attorney General. The application shall be in such form and contain only that information necessary to determine eligibility as the Attorney General shall by regulation prescribe. The fee for such license shall be $10 per year. Any license granted under this subsection shall only apply to transactions in curios and relics.

(5) Upon the filing of a proper application and payment of the prescribed fee, the Attorney General shall issue to a qualified applicant the appropriate license which, subject to the provisions of this chapter and other applicable provisions of law, shall entitle the licensee to transport, ship, and receive firearms and ammunition covered by such license in interstate or foreign commerce during the period stated in the license. Nothing in this chapter shall be construed to prohibit a licensed manufacturer, importer, or dealer from maintaining and disposing of a personal collection of firearms, subject only to such restrictions as apply in this chapter to dispositions by a person other than a licensed manufacturer, importer, or dealer. If any firearm is so disposed of by a licensee within one year after its transfer from his business inventory into such licensee's personal collection or if such disposition or any other acquisition is made for the purpose of willfully evading the restrictions placed upon licensees by this chapter, then such firearm shall be deemed part of such licensee's business inventory, except that any licensed manufacturer, importer, or dealer who has maintained a firearm as part of a personal collection for one year and who sells or otherwise disposes of such firearm shall record the description of the firearm in a bound volume, containing the name and place of residence and date of birth of the transferee if the transferee is an individual, or the identity and principal and local places of business of the transferee if the transferee is a corporation or other business entity. Provided. That no other recordkeeping shall be required.

(6) (1) Any application submitted under subsection (a) or (b) of this section shall be approved if—

(A) the applicant is twenty-one years of age or over;

(B) the applicant (including, in the case of a corporation, partnership, or association, any individual possessing, directly or indirectly, the power to direct or cause the direction of the management and policies of the corporation, partnership, or association) is not prohibited from transporting, shipping, or receiving firearms or ammunition in interstate or foreign commerce under section 922(g) and (n) of this chapter;

(C) the applicant has not willfully violated any of the provisions of this chapter or regulations issued thereunder;

(D) the applicant has not willfully failed to disclose any material information required, or has not made any false statement as to any material fact, in connection with his application;

(E) the applicant has in a State (i) premises from which he conducts business subject to license under this chapter or from which he intends to conduct such business within a reasonable period of time, or (ii) in the case of a collector, premises from which he conducts his collecting subject to license under this chapter or from which he intends to conduct such collecting within a reasonable period of time;

(F) the applicant certifies that—
(i) the business to be conducted under the license is not prohibited by State or local law in the place where the licensed premise is located;

(ii) within 30 days after the application is approved the business will comply with the requirements of State and local law applicable to the conduct of the business; and

(ii) the business will not be conducted under the license until the requirements of State and local law applicable to the business have been met; and

(iii) that the applicant has sent or delivered a form to be prescribed by the Attorney General, to the chief law enforcement officer of the locality in which the premises are located, which indicates that the applicant intends to apply for a Federal firearms license; and

(G) in the case of an application to be licensed as a dealer, the applicant certifies that secure gun storage or safety devices will be available at any place in which firearms are sold under the license to persons who are not licensees (subject to the exception that in any case in which a secure gun storage or safety device is temporarily unavailable because of theft, casualty loss, consumer sales, backorders from a manufacturer, or any other similar reason beyond the control of the licensee, the dealer shall not be considered to be in violation of the require-ment to make available such a device). The Attorney General may, after notice and opportunity for hearing, revoke the license of a dealer who willfully transfers armor piercing ammunition. The Attorney General’s action under this subsection may be reviewed only as provided in sub-paragraph (f) of this section.

(f) (1) Any person whose application for a license is denied and any holder of a license which is revoked shall receive a written notice from the Attorney General stating specifically the grounds upon which the application was denied or upon which the license was revoked. Any notice of a revocation of a license shall be given to the holder of such license before the effective date of the revocation.

(2) If the Attorney General denies an application for, or revokes, a license, he shall, upon request by the aggrieved party, promptly hold a hearing to review his denial or revocation. In the case of a revocation of a license, the Attorney General shall upon the request of the holder of the license stay the effective date of the revocation. A hearing held under this paragraph shall be held at a location convenient to the aggrieved party.

(3) If after a hearing held under para-graph (2) the Attorney General decides not to reverse his decision to deny an application or revoke a license, the Attorney General shall give notice of his decision to the aggrieved party. The aggrieved party may at any time within sixty days after the date notice was given under this paragraph file a peti-tion with the United States district court for the district in which he resides or has his principal place of business for a de novo judicial review of such denial or revocation. In a proceeding conducted under this subsection, the court may consider any evidence submitted by the parties to the proceeding whether or not such evidence was considered at the hearing held under paragraph (2). If the court decides that the Attorney General was not authorized to deny the application or to revoke the license, the court shall order the Attorney General to take such action as may be necessary to comply with the judgment of the court.

(4) If criminal proceedings are insti-tuted against a licensee alleging any violation of this chapter or of rules or regulations prescribed under this chapter, and the licensee is acquitted of such charges, or such proceedings are terminated, other than upon motion of the Government before trial upon such charges, the Attorney General shall be absolutely barred from denying or re-voking any license granted under this chapter where such denial or revoca-tion is based in whole or in part on the facts which form the basis of such criminal charges. No proceedings for the revocation of a license shall be in-stituted by the Attorney General more than one year after the filing of the in-dictment or information.

(g) (1) Each licensed importer, li-censed manufacturer, and licensed dealer shall maintain such records of importation, production, shipment, receipt, sale, or other disposition of firearms at his place of business for such period, and in such form, as the Attorney General may by regulations prescribe. Such importers, manufacturers, and dealers shall not be required to submit to the Attorney General reports and information with respect to such records and the contents thereof, except as expressly required by this sec-tion. The Attorney General, when he has reasonable cause to believe a violation of this chapter has occurred and that evi-dence thereof may be found on such premises, may, upon demonstrating such cause before a Federal magistrate and securing from such magistrate a warrant authorizing entry, enter during business hours the premises (including places of storage) of any licensed firearms importer, licensed manufacturer, licensed dealer, licensed collector, or any licensed im-porter or manufacturer of ammunition, for the purpose of inspecting or examining—

(i) any records or documents re-quired to be kept by such licensed importer, licensed manufacturer, li-censed dealer, or licensed collec-tor under this chapter or rules or regulations under this chapter, and

(ii) any firearms or ammunition kept or stored by such licensed importer, licensed manufacturer, li-censed dealer, or licensed collec-tor, at such premises.

(B) The Attorney General may in-spect or examine the inventory and records of a licensed importer, li-censed manufacturer, or licensed dealer without such reasonable cause or warrant—

(i) in the course of a reasonable inquiry during the course of a criminal investigation of a person
or persons other than the licensee;

(ii) for ensuring compliance with the record keeping requirements of this chapter—

(I) not more than once during any 12-month period; or

(II) at any time with respect to records relating to a firearm involved in a criminal investigation that is traced to the licensee; or

(iii) when such inspection or examination may be required for determining the disposition of one or more particular firearms in the course of a bona fide criminal investigation.

(C) The Attorney General may inspect the inventory and records of a licensed collector without such reasonable cause or warrant—

(i) for ensuring compliance with the record keeping requirements of this chapter not more than once during any twelve-month period; or

(ii) when such inspection or examination may be required for determining the disposition of one or more particular firearms in the course of a bona fide criminal investigation.

(D) At the election of a licensed collector, the annual inspection of records and inventory permitted under this paragraph shall be performed at the office of the Attorney General designed for such inspections which is located in closest proximity to the premises where the inventory and records of such licensed collector are maintained. The inspection and examination authorized by this paragraph shall not be construed as authorizing the Attorney General to seize any records or other documents other than those records or documents constituting material evidence of a violation of law. If the Attorney General seizes such records or documents, copies shall be provided to the licensee within a reasonable time. The Attorney General may make available to any Federal, State, or local law enforcement agency any information which he may obtain by reason of this chapter with respect to the identification of persons prohibited from purchasing or receiving firearms or ammunition who have purchased or received firearms or ammunition, together with a description of such firearms or ammunition, and he may provide information to the extent such information may be contained in the records required to be maintained by this chapter, when so requested by any Federal, State, or local law enforcement agency.

(2) Each licensed collector shall maintain in a bound volume the nature of which the Attorney General may by regulations prescribe, records of the receipt, sale, or other disposition of firearms. Such records shall include the name and address of any person to whom the collector sells or otherwise disposes of a firearm. Such collector shall not be required to submit to the Attorney General reports and information with respect to such records and the contents thereof, except as expressly required by this section.

(3) (A) Each licensee shall prepare a report of multiple sales or other dispositions whenever the licensee sells or otherwise disposes of, at one time or during any five consecutive business days, two or more pistols, or revolvers, or any combination of pistols and revolvers totaling two or more, to an unlicensed person. The report shall be prepared on a form specified by the Attorney General and forwarded to the office specified thereon and to the department of State police or State law enforcement agency of the State or local law enforcement agency of the local jurisdiction in which the sale or other disposition took place, not later than the close of business on the day that the multiple sale or other disposition occurs.

(B) Except in the case of forms and contents thereof regarding a purchaser who is prohibited by subsection (g) or (n) of section 922 of this title from receipt of a firearm, the department of State police or State law enforcement agency or local law enforcement agency of the local jurisdiction shall not disclose any such form or the contents thereof to any person or entity, and shall destroy each such form and any record of the contents thereof no more than 20 days from the date such form is received. No later than the date that is 6 months after the effective date of this subparagraph, and at the end of each 6-month period thereafter, the department of State police or State law enforcement agency or local law enforcement agency of the local jurisdiction shall certify to the Attorney General of the United States that no disclosure contrary to this subparagraph has been made and that all forms and any record of the contents thereof have been destroyed as provided in this subparagraph.

(4) Where a firearms or ammunition business is discontinued and succeeded by a new licensee, the records required to be kept by this chapter shall appropriately reflect such facts and shall be delivered to the successor. Where discontinuance of the business is absolute, such records shall be delivered within thirty days after the business discontinuance to the Attorney General. However, where State law or local ordinance requires the delivery of records to other responsible authority, the Attorney General may arrange for the delivery of such records to such other responsible authority.

(5) (A) Each licensee shall, when required by letter issued by the Attorney General, and until notified to the contrary in writing by the Attorney General, submit on a form specified by the Attorney General, for periods and at the times specified in such letter, all record information required to be kept by this chapter or such lesser record information as the Attorney General in such letter may specify.

(B) The Attorney General may authorize such record information to be submitted in a manner other than that prescribed in subparagraphs (A) of this paragraph when it is shown by a licensee that an alternate method of reporting is reasonably necessary and will not unduly hinder the effective administration of this chapter. A licensee may use an alternate method of reporting if the licensee describes the proposed alternate method of reporting and the need therefor in a letter application submitted to the Attorney General, and the Attorney General approves such alternate method of reporting.

(6) Each licensee shall report the theft or loss of a firearm from the licensee's inventory or collection, within 48 hours after the theft or loss is discovered, to the Attorney General and to the appropriate local authorities.

(7) Each licensee shall respond immediately to, and in no event later than 24 hours after the receipt of, a request by the Attorney General for information contained in the records required to be kept by this chapter as may be required for determining the disposition of 1 or more firearms in the course of a bona fide criminal investigation. The requested information shall be provided orally or in writing, as the Attorney General may require. The Attorney
General shall implement a system whereby the licensee can positively identify and establish that an individual requesting information via telephone is employed by and authorized by the agency to request such information.

(h) Licenses issued under the provisions of subsection (c) of this section shall be kept posted and kept available for inspection on the premises covered by the license.

(i) Licensed importers and licensed manufacturers shall identify, by means of a serial number engraved or cast on the receiver or frame of the weapon, in such manner as the Attorney General shall by regulations prescribe, each firearm imported or manufactured by such importer or manufacturer.

(j) A licensed importer, licensed manufacturer, or licensed dealer may, under rules or regulations prescribed by the Attorney General, conduct business temporarily at a location other than the location specified on the license if such temporary location is the location for a gun show or event sponsored by any national organization, or any affiliate of any such organization devoted to the collection, competitive use, or other sporting use of firearms in the community, and such location is in the State which is specified on the license. Records of receipt and disposition of firearms transactions conducted at such temporary location shall include the location of the sale or other disposition and shall be entered in the permanent records of the licensee and retained on the location specified on the license. Nothing in this subsection shall authorize any licensee to conduct business in or from any motorized or towed vehicle. Notwithstanding the provisions of subsection (a) of this section, a separate fee shall not be required of a licensee with respect to business conducted under this subsection. Any inspection or examination of inventory or records under this chapter by the Attorney General at such temporary location shall be limited to inventory consisting of, or records relating to, firearms held or disposed at such temporary location. Nothing in this subsection shall be construed to authorize the Attorney General to inspect or examine the inventory or records of a licensed importer, licensed manufacturer, or licensed dealer at any location other than the location specified on the license. Nothing in this subsection shall be construed to diminish in any manner any right to display, sell, or otherwise dispose of firearms or ammunition, which is in effect before the date of the enactment of the Firearms Owners’ Protection Act, including the right of a licensee to conduct "curos or relics" firearms transfers and business away from their business premises with another licensee without regard as to whether the location of where the business is conducted is located in the State specified on the license of either licensee.

(k) Licensed importers and licensed manufacturers shall mark all armor piercing projectiles and packages containing such projectiles for distribution in the manner prescribed by the Attorney General by regulation. The Attorney General shall furnish information to each dealer licensed under this chapter defining which projectiles are considered armor piercing ammunition as defined in section 921(a)(17)(B).

(l) The Attorney General shall notify the chief law enforcement officer in the appropriate State and local jurisdictions of the names and addresses of all persons in the State to whom a firearms license is issued.

§ 924 Penalties.

(a) (1) Except as otherwise provided in this subsection, subsection (b), (c), (f), or (p) of this section, or in section 929, whoever—

(A) knowingly makes any false statement or representation with respect to the information required by this chapter to be kept in the records of a person licensed under this chapter or in applying for any license or exemption or relief from disability under the provisions of this chapter;

(B) knowingly violates subsection (a)(4), (f), (k), or (q) of section 922;

(C) knowingly imports or brings into the United States or any possession thereof any firearm or ammunition in violation of section 922(l); or

(D) willfully violates any other provision of this chapter, shall be fined under this title, imprisoned not more than five years, or both.

Editor’s Note:

The reference to subsection (p) in the introductory paragraph of 18 U.S.C. section 924(a)(1) was added to the Gun Control Act as part of the “Protection of Lawful Commerce in Arms Act” enacted on October 26, 2005. It is effective April 24, 2006.

(2) Whoever knowingly violates subsection (a)(6), (d), (g), (h), (i), (j), or (o) of section 922 shall be fined as provided in this title, imprisoned not more than 10 years, or both.

(3) Any licensed dealer, licensed importer, licensed manufacturer, or licensed collector who knowingly—

(A) makes any false statement or representation with respect to the information required by the provisions of this chapter to be kept in the records of a person licensed under this chapter, or

(B) violates subsection (m) of section 922, shall be fined under this title, imprisoned not more than one year, or both.

(4) Whoever violates section 922(q) shall be fined under this title, imprisoned for not more than 5 years, or both. Notwithstanding any other provision of law, the term of imprisonment imposed under this paragraph shall not run concurrently with any other term of imprisonment imposed under any other provision of law. Except for the authorization of a term of imprisonment of not more than 5 years made in this paragraph, for the purpose of any other law a violation of section 922(q) shall be deemed to be a misdemeanor.

(5) Whoever knowingly violates subsection (s) or (t) of section 922 shall be fined not more than $1,000 under this title, imprisoned for not more than 1 year, or both.

(6) (A) (i) A juvenile who violates section 922(x) shall be fined under this title, imprisoned not more than 1 year, or both, except that a juvenile described in clause (ii) shall be sentenced to probation on appropriate conditions and shall not be incarcerated unless the juvenile fails to comply with a condition of probation.

(ii) A juvenile is described in this clause if—

(I) the offense of which the juvenile is charged is possession of a handgun or ammunition in violation of section 922(x)(2); and

(II) the juvenile has not been convicted in any court of an offense (including an offense under section 922(x) or a similar State law, but not including any other offense consisting of conduct that if engaged in by an adult would not constitute an offense) or adjudicated as a juvenile delinquent for conduct that if engaged in by an adult would
(B) A person other than a juvenile who knowingly violates section 922(x)—

(i) shall be fined under this title, imprisoned not more than 1 year, or both; and

(ii) if the person sold, delivered, or otherwise transferred a handgun or ammunition to a juvenile knowing or having reasonable cause to know that the juvenile intended to carry or otherwise possess or discharge or otherwise use the handgun or ammunition in the commission of a crime of violence, shall be fined under this title, imprisoned not more than 10 years, or both.

(7) Whoever knowingly violates section 931 shall be fined under this title, imprisoned not more than 3 years, or both.

(b) Whoever, with intent to commit therewith an offense punishable by imprisonment for a term exceeding one year, or with knowledge or reasonable cause to believe that an offense punishable by imprisonment for a term exceeding one year is to be committed therewith, ships, transports, or receives a firearm or any ammunition in interstate or foreign commerce shall be fined under this title, or imprisoned not more than ten years, or both.

(c) (1) (A) Except to the extent that a greater minimum sentence is otherwise provided by this subsection or by any other provision of law, any person who, during and in relation to any crime of violence or drug trafficking crime (including a crime of violence or drug trafficking crime that provides for an enhanced punishment if committed by the use of a deadly or dangerous weapon or device) for which the person may be prosecuted in a court of the United States, uses or carries armor piercing ammunition, or who, in furtherance of any such crime, possesses armor piercing ammunition, shall, in addition to the punishment provided for such crime of violence or drug trafficking crime or conviction under this section—

(i) be sentenced to a term of imprisonment of not less than 5 years;

(ii) if the firearm is brandished, be sentenced to a term of imprisonment of not less than 7 years; and

(iii) if the firearm is discharged, be sentenced to a term of imprisonment of not less than 10 years.

(B) If the firearm possessed by a person convicted of a violation of this subsection—

(i) is a short-barreled rifle, short-barreled shotgun, or semiautomatic assault weapon, the person shall be sentenced to a term of imprisonment of not less than 10 years; or

Editor’s Note:
The reference to semiautomatic assault weapons in § 924 (c)(1)(B)(i) was repealed when the semiautomatic assault weapon provision ceased to apply on September 13, 2004.

(ii) is a machinegun or a destructive device, or is equipped with a firearm silencer or firearm muffler, the person shall be sentenced to a term of imprisonment of not less than 25 years; and

(ii) if the firearm involved is a machinegun or a destructive device, or is equipped with a firearm silencer or firearm muffler, be sentenced to imprisonment for life.

(D) Notwithstanding any other provision of law—

(i) a court shall not place on probation any person convicted of a violation of this subsection; and

(ii) no term of imprisonment imposed on a person under this subsection shall run concurrently with any other term of imprisonment imposed on the person, including any term of imprisonment imposed for the crime of violence or drug trafficking crime during which the firearm was used, carried, or possessed.

(2) For purposes of this subsection, the term "drug trafficking crime" means any felony punishable under the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.).

(3) For purposes of this subsection the term "crime of violence" means an offense that is a felony and—

(A) has as an element the use, attempted use, or threatened use of physical force against the person or property of another, or

(B) that by its nature, involves a substantial risk that physical force against the person or property of another may be used in the course of committing the offense.

(4) For purposes of this subsection, the term "brandish" means, with respect to a firearm, to display all or part of the firearm, or otherwise make the presence of the firearm known to another person, in order to intimidate that person, regardless of whether the firearm is directly visible to that person.

(5) Except to the extent that a greater minimum sentence is otherwise provided under this subsection, or by any other provision of law, any person who, during and in relation to any crime of violence or drug trafficking crime (including a crime of violence or drug trafficking crime that provides for an enhanced punishment if committed by the use of a deadly or dangerous weapon or device) for which the person may be prosecuted in a court of the United States, uses or carries armor piercing ammunition, or who, in furtherance of any such crime, possesses armor piercing ammunition, shall, in addition to the punishment provided for such crime of violence or drug trafficking crime or conviction under this section—

(A) be sentenced to a term of imprisonment of not less than 15 years; and

(B) if death results from the use of such ammunition—

(i) if the killing is murder (as defined in section 1111), be punished by death or sentenced to a term of imprisonment for any term of years or for life; and

(ii) if the killing is manslaughter (as defined in section 1112), be punished as provided in section 1112.

(d) (1) Any firearm or ammunition involved in or used in any knowing violation of subsection (a)(4), (a)(6), (f), (g), (h), (i), (j), or (k) of section 922, or knowing im-
portation or bringing into the United States or any possession thereof any firearm or ammunition in violation of section 922(l), or knowingly violating any provision of this chapter or any rule or regulation promulgated thereunder, or any violation of any other criminal law of the United States, or any firearm or ammunition intended to be used in any offense referred to in paragraph (3) of this subsection, where such intent is demonstrated by clear and convincing evidence, shall be subject to seizure, forfeiture, and disposition.

(D) The United States shall be liable for attorneys’ fees under this paragraph only to the extent provided in advance by appropriation Acts.

(3) The offenses referred to in paragraphs (1) and (2)(C) of this subsection are—

(A) any crime of violence, as that term is defined in section 924(c)(3) of this title;

(B) any offense punishable under the Controlled Substances Act (21 U.S.C. 801 et seq.) or the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.);

(C) any offense described in section 922(a)(1), 922(a)(3), 922(a)(5), 922(b)(3) of this title where the firearm or ammunition intended to be used in any such offense is involved in a pattern of activities which includes a violation of any offense described in section 922(a)(1), 922(a)(3), 922(a)(5), or 922(b)(3) of this title;

(D) any offense described in section 922(d) of this title where the firearm or ammunition is intended to be used in such offense by the transferee of such firearm or ammunition;

(E) any offense described in section 922(i), 922(j), 922(l), 922(n), or 924(b) of this title; and

(F) any offense which may be prosecuted in a court of the United States which involves the exportation of firearms or ammunition.

(e) (1) In the case of a person who knowingly violates section 922(g) of this title and has three previous convictions by any court referred to in section 922(g)(1) of this title for a violent felony or a serious drug offense, or both, committed on occasions different from one another, such person shall be fined under this title and imprisoned not less than fifteen years, and, notwithstanding any other provision of law, the court shall not suspend the sentence of, or grant a probationary sentence to, such person with respect to the conviction under section 922(g).

(2) As used in this subsection—

(A) the term "serious drug offense" means—

(i) an offense under the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.), for which a maximum term of imprisonment of ten years or more is prescribed by law; or

(ii) an offense under State law, involving manufacturing, distributing, or possessing with intent to manufacture or distribute, a controlled substance (as defined in section 102 of the Controlled Substances Act (21 U.S.C. 802)), for which a maximum term of imprisonment of ten years or more is prescribed by law;

(B) the term "violent felony" means any crime punishable by imprisonment for a term exceeding one year, or any act of juvenile delinquency involving the use or carrying of a firearm, knife, or destructive device that would be punishable by imprisonment for such term if committed by an adult, that—

(i) has as an element the use, attempted use, or threatened use of physical force against the person of another; or

(ii) is burglary, arson, or extortion, involves use of explosives, or otherwise involves conduct that presents a serious potential risk of physical injury to another; and

(C) the term "conviction" includes a finding that a person has committed an act of juvenile delinquency involving a violent felony.

(f) In the case of a person who knowingly violates section 922(p), such person shall be fined under this title, and imprisoned not more than 5 years, or both.

(g) Whoever, with the intent to engage in conduct which—

(1) constitutes an offense listed in section 1661(1),

(2) is punishable under the Controlled Substances Act (21 U.S.C. 802 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.),

(3) violates any State law relating to any controlled substance (as defined in section 102(6) of the Controlled Substances Act (21 U.S.C. 802(6))), or

21
shall—

(4) constitutes a crime of violence (as defined in subsection (c)(3)),

for the purpose of committing a crime of violence (as defined in subsection (c)(3)), or for trafficking in controlled substances (as defined in subsection (c)(2)) or drug trafficking offense under chapter 110 of title 21, shall be fined under this title, or both; and

(i) A person who knowingly transfers a firearm knowing that such firearm will be used to commit a crime of violence (as defined in subsection (c)(3)), or that such firearm is a machinegun or destructive device, or is equipped with a firearm silencer or muffler, shall be imprisoned for not more than 20 years, fined under this title, or both; and

(2) Nothing contained in this subsection shall be construed as indicating an intention of Congress to occupy the field in which provisions of this chapter operate to the exclusion of State laws on the same subject matter, nor shall any provision of this subsection be construed as invalidating any provision of State law unless such provision is inconsistent with any of the purposes of this subsection.

(j) A person who, in the course of a violation of subsection (c), causes the death of a person through the use of a firearm, shall—

(1) if the killing is a murder (as defined in section 1111), be punished by death or by imprisonment for any term of years or for life; and

(2) if the killing is manslaughter (as defined in section 1112), be punished as provided in that section.

(k) A person who, with intent to engage in or to promote conduct that—

(1) is punishable under the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or the Maritime Drug Law Enforcement Act (46 U.S.C. App. 1901 et seq.),

(2) violates any law of a State relating to any controlled substance (as defined in section 102 of the Controlled Substances Act, 21 U.S.C. 802); or

(3) constitutes a crime of violence (as defined in subsection (c)(3)), smuggles or knowingly brings into the United States a firearm, or attempts to do so, shall be imprisoned not more than 10 years, fined under this title, or both.

(l) A person who steals any firearm which is moving as, or is a part of, or which has moved in, interstate or foreign commerce shall be imprisoned for not more than 10 years, fined under this title, or both.

(m) A person who steals any firearm from a licensed importer, licensed manufacturer, licensed dealer, or licensed collector shall be fined under this title, imprisoned not more than 10 years, or both.

(n) A person who, with the intent to engage in conduct that constitutes a violation of section 922(a)(1)(A), travels from any State or foreign country into any other State and acquires, or attempts to acquire, a firearm in such other State in furtherance of such purpose shall be imprisoned for not more than 10 years.

(o) A person who conspires to commit an offense under subsection (c) shall be imprisoned for not more than 20 years, fined under this title, or both; and if the firearm is a machinegun or destructive device, or is equipped with a firearm silencer or muffler, shall be imprisoned for any term of years or life.

Editor’s Note

18 U.S.C. § 924(p) was added to the Gun Control Act as part of the “Protection of Lawful Commerce in Arms Act” enacted on October 26, 2005. It is effective April 24, 2006.

(p) PENALTIES RELATING TO SECURE GUN STORAGE OR SAFETY DEVICE—

(1) IN GENERAL—

(A) SUSPENSION OR REVOCATION OF LICENSE; CIVIL PENALTIES— With respect to each violation of section 922(z)(1) by a licensed manufacturer, licensed importer, or licensed dealer, the Secretary may, after notice and opportunity for hearing—

(i) suspend for not more than 6 months, or revoke, the license issued to the licensee under this chapter that was used to conduct the firearm transfer; or

(ii) subject the licensee to a civil penalty in an amount equal to not more than $2,500.

(B) REVIEW— An action of the Secretary under this paragraph may be reviewed only as provided under section 923(f).

(2) ADMINISTRATIVE REMEDIES
The suspension or revocation of a license or the imposition of a civil penalty under paragraph (1) shall not preclude any administrative remedy that is otherwise available to the Secretary. .

§ 925 Exceptions: Relief from disabili- ties.

(a) (1) The provisions of this chapter, except for sections 922(d)(9) and 922(g)(9) and provisions relating to firearms subject to the prohibitions of section 922(p), shall not apply with respect to the transportation, shipment, receipt, possession, or importation of any firearm or ammunition imported for, sold or shipped to, or issued for the use of, the United States or any department or agency thereof or any State or any department, agency, or political subdivision thereof.

(b) (2) The provisions of this chapter, except for provisions relating to firearms subject to the prohibitions of section 922(p), shall not apply with respect to the transportation, shipment, receipt, possession, or importation of any firearm or ammunition carried out to enable a person, who lawfully received such firearm or ammunition from the Secretary of the Army pursuant to section 4308 of title 10 before the repeal of such section by section 1624(a) of the Corporation for the Promotion of Rifle Practice and Firearms Safety Act, and (B) the transportation of any such firearm or ammunition to a member of the United States Armed Forces on active duty outside the United States or to a club, recognized by the Department of Defense, whose entire membership is composed of such members, and such members or clubs may receive a firearm or ammunition determined by the Attorney General to be generally recognized as particularly suitable for sporting purposes and intended for the personal use of such member or club.

(c) (3) Unless otherwise prohibited by this chapter, except for provisions relating to firearms subject to the prohibitions of section 922(p), or any other Federal law, a licensed importer, licensed manufacturer, or licensed dealer may ship to a member of the United States Armed Forces on active duty outside the United States, to clubs, recognized by the Department of Defense, whose entire membership is composed of such members, and such members or clubs may receive a firearm or ammunition determined by the Attorney General to be particularly suitable for sporting purposes and intended for the personal use of such member or club.

(d) (4) When established to the satisfaction of the Attorney General to be con-
sistent with the provisions of this chapter, except for provisions relating to firearms subject to the prohibitions of section 922(p), and other applicable Federal and State laws and published ordinances, the Attorney General may authorize the transportation, shipment, receipt, or importation into the United States to the place of residence of any member of the United States Armed Forces who is on active duty outside the United States (or who has been on active duty outside the United States within the sixty day period immediately preceding the transportation, shipment, receipt, or importation), of any firearm or ammunition which is (A) determined by the Attorney General to be generally recognized as particularly suitable for sporting purposes, or determined by the Department of Defense to be a type of firearm normally classified as a war souvenir, and (B) intended for the personal use of such member.

(5) For the purpose of paragraph (3) of this subsection, the term "United States" means each of the several States and the District of Columbia.

(b) A licensed importer, licensed manufacturer, licensed dealer, or licensed collector who is indicted for a crime punishable by imprisonment for a term exceeding one year, may, notwithstanding any other provision of this chapter, continue operation pursuant to his existing license (if prior to the expiration of the term of the existing license timely application is made for a new license) during the term of such indictment and until any conviction pursuant to the indictment becomes final.

(c) A person who is prohibited from possessing, shipping, transporting, or receiving firearms or ammunition may make application to the Attorney General for relief from the disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, transportation, or possession of firearms, and the Attorney General may grant such relief if it is established to his satisfaction that the circumstances regarding the disability, and the applicant's record and reputation, are such that the applicant will not be likely to act in a manner dangerous to public safety and that the granting of the relief would not be contrary to the public interest. Any person whose application for relief from disabilities is denied by the Attorney General may file a petition with the United States district court for the district in which he resides for a judicial review of such denial. The court may in its discretion admit additional evidence where failure to do so would result in a miscarriage of justice. A licensed importer, licensed manufacturer, licensed dealer, or licensed collector conducting operations under this chapter, who makes application for relief from the disabilities incurred under this chapter, shall not be barred by such disability from further operations under his license pending final action on an application for relief filed pursuant to this section. Whenever the Attorney General grants relief to any person pursuant to this section he shall promptly publish in the Federal Register notice of such action, together with the reasons therefore.

Editor's Note:

As of the date of this publication, ATF is prohibited from acting upon applications for relief from individuals because of an appropriations restriction. Please contact ATF to determine if the restriction is still in effect.

(d) The Attorney General shall authorize a firearm or ammunition to be imported or brought into the United States or any possession thereof if the firearm or ammunition—

(1) is being imported or brought in for scientific or research purposes, or is for use in connection with competition or training pursuant to chapter 401 of title 10;

(2) is an unserviceable firearm, other than a machinegun as defined in section 5845(b) of the Internal Revenue Code of 1954 (not readily restorable to firing condition), imported or brought in as a curio or museum piece;

(3) is of a type that does not fall within the definition of a firearm as defined in section 5845(a) of the Internal Revenue Code of 1954 and is generally recognized as particularly suitable for or readily adaptable to sporting purposes, excluding surplus military firearms, except in any case where the Attorney General has not authorized the importation of the firearm pursuant to this paragraph, it shall be unlawful to import any frame, receiver, or barrel of such firearm which would be prohibited if assembled; or

(4) was previously taken out of the United States or a possession by the person who is bringing in the firearm or ammunition.

The Attorney General shall permit the conditional importation or bringing in of a firearm or ammunition for examination and testing in connection with the making of a determination as to whether the importation or bringing in of such firearm or ammunition will be allowed under this subsection.

(e) Notwithstanding any other provision of this title, the Attorney General shall authorize the importation of any licensed importer, by the following:

(1) All rifles and shotguns listed as curios or relics by the Attorney General pursuant to section 921(a)(13), and

(2) All handguns listed as curios or relics by the Attorney General pursuant to section 921(a)(13), provided that such handguns are generally recognized as particularly suitable for or readily adaptable to sporting purposes.

(f) The Attorney General shall not authorize, under subsection (d), the importation of any firearm the importation of which is prohibited by section 922(p).

§ 925A Remedy for erroneous denial of firearm.

Any person denied a firearm pursuant to subsection (s) or (t) of section 922—

(1) due to the provision of erroneous information relating to the person by any State or political subdivision thereof, or by the national instant criminal background check system established under section 103 of the Brady Handgun Violence Prevention Act; or

(2) who was not prohibited from receipt of a firearm pursuant to subsection (g) or (n) of section 922, may bring an action against the State or political subdivision responsible for providing the erroneous information, or responsible for denying the transfer, or against the United States, as the case may be, for an order directing that the erroneous information be corrected or that the transfer be approved, as the case may be. In any action under this section, the court, in its discretion, may allow the prevailing party a reasonable attorney's fee as part of the costs.

§ 926 Rules and regulations.

(a) The Attorney General may prescribe only such rules and regulations as are necessary to carry out the provisions of this chapter, including—

(1) regulations providing that a person licensed under this chapter, when dealing with another person so licensed, shall provide such other licensed person a certified copy of this license;

(2) regulations providing for the issuance, at a reasonable cost, to a person...
licensed under this chapter, of certified copies of his license for use as provided under regulations issued under paragraph (1) of this subsection; and

(3) regulations providing for effective receipt and secure storage of firearms relinquished by or seized from persons described in subsection (d)(8) or (g)(8) of section 922.

No such rule or regulation prescribed after the date of the enactment of the Firearms Owners’ Protection Act may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or dispositions be established. Nothing in this section expands or restricts the Attorney General’s authority to inquire into the disposition of any firearm in the course of a criminal investigation.

(b) The Attorney General shall give not less than ninety days public notice, and shall afford interested parties opportunity for hearing, before prescribing such rules and regulations.

(c) The Attorney General shall not prescribe rules or regulations that require purchasers of black powder under the exemption provided in section 845(a)(5) of this title to complete affidavits or forms attesting to that exemption.

§ 926A Interstate transportation of firearms.

Notwithstanding any other provisions of any law or any rule or regulation of a State or any political subdivision thereof, any person who is not otherwise prohibited by this chapter from transporting, shipping, or receiving a firearm shall be entitled to transport a firearm for any lawful purpose from any place where he may lawfully possess and carry such firearm to any other place where he may lawfully possess and carry such firearm if, during such transportation the firearm is unloaded, and neither the firearm nor any ammunition being transported is readily accessible or is directly accessible from the passenger compartment of such transporting vehicle: Provided, That in the case of a vehicle without a compartment separate from the driver’s compartment, the firearm or ammunition shall be contained in a locked container other than the glove compartment or console.

§ 926B Carrying of concealed firearms by qualified law enforcement officers.

(a) Notwithstanding any other provision of the law of any State or any political subdivision thereof, an individual who is a qualified law enforcement officer and who is carrying the identification required by subsection (d) may carry a concealed firearm that has been shipped or transported in interstate or foreign commerce, subject to subsection (b).

(b) This section shall not be construed to supersede or limit the laws of any State that—

(1) permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property; or

(2) prohibit or restrict the possession of firearms on any State or local government property, installation, building, base, or park.

(c) As used in this section, the term “qualified law enforcement officer” means an employee of a governmental agency who—

(1) is authorized by law to engage in or supervise the prevention, detection, investigation, or prosecution of, or the incarceration of any person for, any violation of law, and has statutory powers of arrest;

(2) is authorized by the agency to carry a firearm;

(3) is not the subject of any disciplinary action by the agency;

(4) meets standards, if any, established by the agency which require the employee to regularly qualify in the use of a firearm;

(5) is not under the influence of alcohol or another intoxicating or hallucinatory drug or substance; and

(6) is not prohibited by Federal law from receiving a firearm.

(d) The identification required by this subsection is the photographic identification issued by the governmental agency for which the individual is employed as a law enforcement officer.

(e) As used in this section, the term “firearm” does not include—

(1) any machinegun (as defined in section 5845 of the National Firearms Act);

(2) any firearm silencer (as defined in section 921 of this title); and

(3) any destructive device (as defined in section 921 of this title).

§ 926C Carrying of concealed firearms by qualified retired law enforcement officers.

(a) Notwithstanding any other provisions of the law of any State or any political subdivision thereof, an individual who is a qualified retired law enforcement officer and who is carrying the identification required by subsection (d) may carry a concealed firearm that has been shipped or transported in interstate or foreign commerce, subject to subsection (b).

(b) This section shall not be construed to supersede or limit the laws of any State that—

(1) permit private persons or entities to prohibit or restrict the possession of concealed firearms on their property; or

(2) prohibit or restrict the possession of firearms on any State or local government property, installation, building, base, or park.

(c) As used in this section, the term “qualified retired law enforcement officer” means an individual who—

(1) retired in good standing from service with a public agency as a law enforcement officer, other than for reasons of mental instability;

(2) before such retirement, was authorized by law to engage in or supervise the prevention, detection, investigation, or prosecution of, or the incarceration of any person for, any violation of law, and had statutory powers of arrest;

(3) (A) before such retirement, was regularly employed as a law enforcement officer for an aggregate of 15 years or more; or

(B) retired from service with such agency, after completing any applicable probationary period of such service, due to a service-connected disability, as determined by such agency;

(4) has a nonforfeitable right to benefits under the retirement plan of the agency;

(5) during the most recent 12-month period, has met, at the expense of the individual, the State’s standards for training and qualification for active law enforcement officers to carry firearms;
(6) is not under the influence of alcohol or another intoxicating or hallucinatory drug or substance; and

(7) is not prohibited by Federal law from receiving a firearm.

(d) The identification required by this subsection is—

(1) a photographic identification issued by the agency from which the individual retired from service as a law enforcement officer that indicates that the individual has, not less recently than one year before the date the individual is carrying the concealed firearm, been tested or otherwise found by the agency to meet the standards established by the agency for training and qualification for active law enforcement officers to carry a firearm of the same type as the concealed firearm; or

(2) (A) a photographic identification issued by the agency from which the individual retired from service as a law enforcement officer; and

(B) a certification issued by the State in which the individual resides that indicates that the individual has, not less recently than one year before the date the individual is carrying the concealed firearm, been tested or otherwise found by the State to meet the standards established by the State for training and qualification for active law enforcement officers to carry a firearm of the same type as the concealed firearm.

(e) As used in this section, the term “firearm” does not include—

(1) any machineguns (as defined in section 5845 of the National Firearms Act);

(2) any firearm silencer (as defined in section 921 of this title); and

(3) a destructive device (as defined in section 921 of this title).

§ 927 Effect on State law.

No provision of this chapter shall be construed as indicating an intent on the part of the Congress to occupy the field in which such provision operates to the exclusion of the law of any State on the same subject matter, unless there is a direct and positive conflict between such provision and the law of the State so that the two cannot be reconciled or consistently stand together.

§ 928 Separability.

If any provision of this chapter or the application thereof to any person or circumstance is held invalid, the remainder of the chapter and the application of such provision to other persons not similarly situated or to other circumstances shall not be affected thereby.

§ 929 Use of restricted ammunition.

(a) (1) Whoever, during and in relation to the commission of a crime of violence or drug trafficking crime (including a crime of violence or drug trafficking crime which provides for an enhanced punishment if committed by the use of a deadly or dangerous weapon or device) for which he may be prosecuted in a court of the United States, uses or carries a firearm and is in possession of armor piercing ammunition capable of being fired in that firearm, shall, in addition to the punishment provided for the commission of such crime of violence or drug trafficking crime be sentenced to a term of imprisonment for not less than five years.

(b) Notwithstanding any other provision of law, the court shall not suspend the sentence of any person convicted of a violation of this section, nor place the person on probation, nor shall the terms of imprisonment run concurrently with any other terms of imprisonment, including that imposed for the crime in which the armor piercing ammunition was used or possessed.

§ 930 Possession of firearms and dangerous weapons in Federal facilities.

(a) Except as provided in subsection (d), whoever knowingly possesses or causes to be present a firearm or other dangerous weapon in a Federal facility (other than a Federal court facility), or attempts to do so, shall be fined under this title or imprisoned not more than 5 years, or both.

(b) Whoever, with intent that a firearm or other dangerous weapon be used in the commission of a crime, knowingly possesses or causes to be present such firearm or dangerous weapon in a Federal facility, or attempts to do so, shall be fined under this title or imprisoned not more than 5 years, or both.

(c) A person who kills any person in the course of a violation of subsection (a) or (b), or in the course of an attack on a Federal facility involving the use of a firearm or other dangerous weapon, or attempts or conspires to do such an act, shall be punished as provided in sections 1111, 1112, 1113, and 1117.

(d) Subsection (a) shall not apply to—

(1) the lawful performance of official duties by an officer, agent, or employee of the United States, a State, or a political subdivision thereof, who is authorized by law to engage in or supervise the prevention, detection, investigation, or prosecution of any violation of law;

(2) the possession of a firearm or other dangerous weapon by a Federal official or a member of the Armed Forces if such possession is authorized by law; or

(3) the lawful carrying of firearms or other dangerous weapons in a Federal facility incident to hunting or other lawful purposes.

(e) (1) Except as provided in paragraph (2), whoever knowingly possesses or causes to be present a firearm in a Federal court facility, or attempts to do so, shall be fined under this title, imprisoned not more than 2 years, or both.

(2) Paragraph (1) shall not apply to conduct which is described in paragraph (1) or (2) of subsection (d).

(f) Nothing in this section limits the power of a court of the United States to punish for contempt or to promulgate rules or orders regulating, restricting, or prohibiting the possession of weapons within any building housing such court or any of its proceedings, or upon any grounds appurtenant to such building.

(g) As used in this section:

(1) The term "Federal facility" means a building or part thereof owned or leased by the Federal Government, where Federal employees are regularly present for the purpose of performing their official duties.

(2) The term "dangerous weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a
The term "Federal court facility" means the courtroom, judges' chambers, witness rooms, jury deliberation rooms, attorney conference rooms, prisoner holding cells, offices of the court clerks, the United States attorney, and the United States marshal, probation and parole offices, and adjoining corridors of each court of the United States.

Notice of the provisions of subsections (a) and (b) shall be posted conspicuously at each public entrance to each Federal facility, and notice of subsection (e) shall be posted conspicuously at each public entrance to a Federal court facility, and no person shall be convicted of an offense under subsection (a) or (e) with respect to a Federal facility if such notice is not so posted at such facility, unless such person had actual notice of subsection (a) or (e), as the case may be.

§ 931 Prohibition on purchase, ownership, or possession of body armor by violent felons.

(a) In general. Except as provided in subsection (b), it shall be unlawful for a person to purchase, own, or possess body armor, if that person has been convicted of an offense under subsection (a) or (e), as the case may be.

(b) Notice of the provisions of subsections (a) and (b) shall be posted conspicuously at each public entrance to each Federal facility, and notice of subsection (e) shall be posted conspicuously at each public entrance to a Federal court facility, and no person shall be convicted of an offense under subsection (a) or (e) with respect to a Federal facility if such notice is not so posted at such facility, unless such person had actual notice of subsection (a) or (e), as the case may be.

§ 931 Prohibition on purchase, ownership, or possession of body armor by violent felons.

(a) In general. Except as provided in subsection (b), it shall be unlawful for a person to purchase, own, or possess body armor, if that person has been convicted of a felony that is—

(1) a crime of violence (as defined in section 16); or

(2) an offense under State law that would constitute a crime of violence under paragraph (1) if it occurred within the special maritime and territorial jurisdiction of the United States.

(b) Affirmative defense.

(1) In general. It shall be an affirmative defense under this section that—

(A) the defendant obtained prior written certification from his or her employer that the defendant's purchase, use, or possession of body armor was necessary for the safe performance of lawful business activity; and

(B) the use and possession by the defendant were limited to the course of such performance.

(2) Employer. In this subsection, the term "employer" means any other individual employed by the defendant's business that supervises defendant's activity. If that defendant has no supervisor, prior written certification is acceptable from any other employee of the business.

Editor's Note:

The following provisions of the GCA were repealed when the semiautomatic assault weapon and large capacity ammunition feeding device bans sunset on September 13, 2004.

18 U.S.C. § 921 (30): The term "semiautomatic assault weapon" means-

(A) any of the firearms, or copies or duplicates of the firearms in any caliber, known as—

(i) Norinco, Mitchell, and Poly Technologies Avtomat Kalashnikovs (all models);

(ii) Action Arms Israeli Military Industries UZI and Galli;

(iii) Beretta Ar70 (SC-70);

(iv) Colt AR-15;

(v) Fabrique National FN/FAL, FN/LAR, and FNC;

(vi) SWD M-10, M-11, M-11/9, and M-12;

(vii) Steyr AUG;

(viii) INTRATEC TEC-9, TEC-DC9 and TEC-22; and

(ix) revolving cylinder shotguns, such as (or similar to) the Street Sweeper and Striker 12;

(B) a semiautomatic rifle that has an ability to accept a detachable magazine and has at least 2 of—

(i) a folding or telescoping stock;

(ii) a pistol grip that protrudes conspicuously beneath the action of the weapon;

(iii) a bayonet mount;

(iv) a flash suppressor or threaded barrel designed to accommodate a flash suppressor; and

(v) a grenade launcher;

(C) a semiautomatic pistol that has an ability to accept a detachable magazine and has at least 2 of—

(i) an ammunition magazine that attaches to the pistol outside of the pistol grip;

(ii) a threaded barrel capable of accepting a barrel extender, flash suppressor, forward handgrip, or silencer;

(iii) a shroud that is attached to, or partially or completely encircles, the barrel and that permits the shooter to hold the firearm with the nontrigger hand without being burned;

(iv) a manufactured weight of 50 ounces or more when the pistol is unloaded; and

(v) a semiautomatic version of an automatic firearm; and

(D) a semiautomatic shotgun that has at least 2 of—

(i) a folding or telescoping stock;

(ii) a pistol grip that protrudes conspicuously beneath the action of the weapon;

(iii) a fixed magazine capacity in excess of 5 rounds; and

(iv) an ability to accept a detachable magazine.

18 U.S.C. § 921 (31) The term "large capacity ammunition feeding device"-

(A) means a magazine, belt, drum, feed strip, or similar device manufactured after the date of enactment of the Violent Crime Control and Law Enforcement Act of 1994 that has a capacity of, or that can be readily restored or converted to accept, more than 10 rounds of ammunition; but

(B) does not include an attached tubular device designed to accept, and capable of operating only with, .22 caliber rimfire ammunition.

18 U.S.C. § 922 (v) (1) It shall be unlawful for a person to manufacture, transfer, or possess a semiautomatic assault weapon.

(2) Paragraph (1) shall not apply to the possession or transfer of any semiautomatic assault weapon otherwise lawfully possessed under Federal law on the date of the enactment of this subsection.

(3) Paragraph (1) shall not apply to—
(A) any of the firearms, or replicas or duplicates of the firearms, specified in Appendix A to this section, as such firearms were manufactured on October 1, 1993;

(B) any firearm that—

(i) is manually operated by bolt, pump, lever, or slide action;

(ii) has been rendered permanently inoperable; or

(iii) is an antique firearm;

(C) any semiautomatic rifle that cannot accept a detachable magazine that holds more than 5 rounds of ammunition; or

(D) any semiautomatic shotgun that cannot hold more than 5 rounds of ammunition in a fixed or detachable magazine.

The fact that a firearm is not listed in Appendix A shall not be construed to mean that paragraph (1) applies to such firearm. No firearm exempted by this subsection may be deleted from Appendix A so long as this subsection is in effect.

(4) Paragraph (1) shall not apply to—

(A) the manufacture for, transfer to, or possession by the United States or a department or agency of the United States or a State or a department, agency, or political subdivision of a State, or a transfer to or possession by a law enforcement officer employed by such an entity for purposes of law enforcement (whether on or off duty);

(B) the transfer to a licensee under title I of the Atomic Energy Act of 1954 for purposes of establishing and maintaining an on-site physical protection system and security organization required by Federal law, or possession by an employee or contractor of such licensee on-site for such purposes or off-site for purposes of licensee-authorized training or transportation of nuclear materials;

(C) the possession, by an individual who is retired from service with a law enforcement agency and is not otherwise prohibited from receiving a firearm, of a semiautomatic assault weapon transferred to the individual by the agency upon such retirement; or

(D) the manufacture, transfer, or possession of a semiautomatic assault weapon by a licensed manufacturer or licensed importer for the purposes of testing or experimentation authorized by the Attorney General.

(w) (1) Except as provided in paragraph (2), it shall be unlawful for a person to transfer or possess a large capacity ammunition feeding device.

(2) Paragraph (1) shall not apply to the possession or transfer of any large capacity ammunition feeding device otherwise lawfully possessed on or before the date of the enactment of this subsection.

(3) This subsection shall not apply to—

(A) the manufacture for, transfer to, or possession by the United States or a department or agency of the United States or a State or a department, agency, or political subdivision of a State, or a transfer to or possession by a law enforcement officer employed by such an entity for purposes of law enforcement (whether on or off duty);

(B) the transfer to a licensee under title I of the Atomic Energy Act of 1954 for purposes of establishing and maintaining an on-site physical protection system and security organization required by Federal law, or possession by an employee or contractor of such licensee on-site for such purposes or off-site for purposes of licensee-authorized training or transportation of nuclear materials;

(C) the possession, by an individual who is retired from service with a law enforcement agency and is not otherwise prohibited from receiving a firearm, of a large capacity ammunition feeding device transferred to the individual by the agency upon such retirement; or

(D) the manufacture, transfer, or possession of any large capacity ammunition feeding device by a licensed manufacturer or licensed importer for the purposes of testing or experimentation authorized by the Attorney General.

(4) If a person charged with violating paragraph (1) asserts that paragraph (1) does not apply to such person because of paragraph (2) or (3), the Government shall have the burden of proof to show that such paragraph (1) applies to such person. The lack of a serial number as described in section 923 (i) of this title shall be a presumption that the large capacity ammunition feeding device is not subject to the prohibition of possession in paragraph (1).

PART 478—COMMERCE IN FIREARMS AND AMMUNITION
(This Part was formerly designated as Part 178)

Editor’s Note:

Effective January 24, 2003, the Homeland Security Act transferred the Bureau of Alcohol, Tobacco and Firearms from the Department of the Treasury to the Department of Justice. In addition, the agency’s name was changed to the Bureau of Alcohol, Tobacco, Firearms and Explosives. The regulations, as printed in this publication, do not yet reflect this change. The regulations will be amended to change the references from the “Bureau of Alcohol, Tobacco and Firearms,” the “Department of the Treasury,” and the “Secretary of the Treasury” to the “Bureau of Alcohol, Tobacco, Firearms and Explosives,” the “Department of Justice” and the “Attorney General,” respectively.

Subpart A – Introduction

§ 478.1 Scope of regulations.

§ 478.2 Relation to other provisions of law.

Subpart B – Definitions

§ 478.11 Meaning of terms.

Subpart C – Administrative and Miscellaneous Provisions

§ 478.21 Forms prescribed.

§ 478.22 Alternate methods or procedures; emergency variations from requirements.

§ 478.23 Right of entry and examination.

§ 478.24 Compilation of State laws and published ordinances.

§ 478.25 Disclosure of information.

§ 478.25a Responses to requests for information.

§ 478.26 Curio and relic determination.

§ 478.27 Destructive device determination.

§ 478.28 Transportation of destructive devices and certain firearms.

§ 478.29 Out-of-State acquisition of firearms by nonlicensees.

§ 478.29a Acquisition of firearms by nonresidents.

§ 478.30 Out-of-State disposition of firearms by nonlicensees.

§ 478.31 Delivery by common or contract carrier.

§ 478.32 Prohibited shipment, transportation, possession, or receipt of firearms and ammunition by certain persons.

§ 478.33 Stolen firearms and ammunition.

§ 478.33a Theft of firearms.

§ 478.34 Removed, obliterated, or altered serial number.

§ 478.35 Skeet, trap, target, and similar shooting activities.

§ 478.36 Transfer or possession of machine guns.

§ 478.37 Manufacture, importation and sale of armor piercing ammunition.

§ 478.38 Transportation of firearms.

§ 478.39 Assembly of semiautomatic rifles or shotguns.

§ 478.39a Reporting theft or loss of firearms.

§ 478.40 Manufacture, transfer, and possession of semiautomatic assault weapons.

§ 478.40a Transfer and possession of large capacity ammunition feeding devices.

Subpart D – Licenses

§ 478.41 General.

§ 478.42 License fees.

§ 478.43 License fee not refundable.

§ 478.44 Original license.

§ 478.45 Renewal of license.

§ 478.46 Insufficient fee.

§ 478.47 Issuance of license.

§ 478.48 Correction of error on license.

§ 478.49 Duration of license.

§ 478.50 Locations covered by license.

§ 478.51 License not transferable.

§ 478.52 Change of address.

§ 478.53 Change in trade name.

§ 478.54 Change of control.

§ 478.55 Continuing partnerships.

§ 478.56 Right of succession by certain persons.

§ 478.57 Discontinuance of business.

§ 478.58 State or other law.

§ 478.59 Abandoned application.

§ 478.60 Certain continuances of business.

Subpart E – License Proceedings

§ 478.71 Denial of an application for license.

§ 478.72 Hearing after application denial.

§ 478.73 Notice of revocation, suspension, or imposition of civil fine.

§ 478.74 Request for hearing after notice of suspension, revocation, or imposition of civil fine.

§ 478.75 Service on applicant or licensee.

§ 478.76 Representation at a hearing.

§ 478.77 Designated place of hearing.
§ 478.78 Operations by licensee after notice.

Subpart F – Conduct of Business

§ 478.91 Posting of license.

§ 478.92 How must licensed manufacturers and licensed importers identify firearms, armor piercing ammunition, and large capacity ammunition feeding devices?

§ 478.93 Authorized operations by a licensed collector.

§ 478.94 Sales or deliveries between licensees.

§ 478.95 Certified copy of license.

§ 478.96 Out-of-State and mail order sales.

§ 478.97 Loan or rental of firearms.

§ 478.98 Sales or deliveries of destructive devices and certain firearms.

§ 478.99 Certain prohibited sales or deliveries.

§ 478.100 Conduct of business away from licensed premises.

§ 478.101 Record of transactions.

§ 478.102 Sales or deliveries of firearms on and after November 30, 1998.

§ 478.103 Posting of signs and written notification to purchasers of handguns.

Subpart G – Importation

§ 478.111 General.

§ 478.112 Importation by a licensed importer.

§ 478.113 Importation by other licensees.

§ 478.113a Importation of firearm barrels by nonlicensees

§ 478.114 Importation by members of the U.S. Armed Forces.

§ 478.115 Exempt importation.

§ 478.116 Conditional importation.

§ 478.117 Function outside a customs territory. Importation of certain firearms classified as curios or relics.

§ 478.118 Importation of ammunition feeding devices.

§ 478.119 Firearms or ammunition imported by or for a nonimmigrant alien.

Subpart H – Records

§ 478.121 General.

§ 478.122 Records maintained by importers.

§ 478.123 Records maintained by manufacturers.

§ 478.124 Firearms transaction record.

§ 478.124a Firearms transaction record in lieu of record of receipt and disposition.

§ 478.125 Record of receipt and disposition.

§ 478.125a Personal firearms collection.

§ 478.126 Furnishing transaction information.

§ 478.126a Reporting multiple sales or other disposition of pistols and revolvers.

§ 478.127 Discontinuance of business.

§ 478.128 False statement or representation.

§ 478.129 Record retention.

Subpart I – Exemptions, Seizures, and Forfeitures

§ 478.131 Firearms transactions not subject to a NICS check.

§ 478.132 Dispositions of semiautomatic assault weapons and large capacity ammunition feeding devices to law enforcement officers for official use and to employees or contractors of nuclear facilities.

§ 478.133 Records of transactions in semiautomatic assault weapons.

§ 478.134 Sale of firearms to law enforcement officers.

Subpart J—[Reserved]

Subpart K—Exportation

§ 478.171 Exportation.
NOTICE: ASSAULT WEAPONS BAN

On September 13, 1994, Congress passed the Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322. Title IX, Subtitle A, Section 110105 of this Act generally made it unlawful to manufacture, transfer, and possess semiautomatic assault weapons (SAWs) and to transfer and possess large capacity ammunition feeding devices (LCAFDs). The law also required importers and manufacturers to place certain markings on SAWs and LCAFDs, designating they were for export or law enforcement/government use. Significantly, the law provided that it would expire 10 years from the date of enactment. Accordingly, effective 12:00 am on September 13, 2004, these provisions of the law ceased to apply and the following provisions of the regulations in Part 478 no longer apply:

Section 478.11 – Definitions of the terms “semiautomatic assault weapon” and “large capacity ammunition feeding device;”
Section 478.40 – Entire section;
Section 478.40a – Entire section;
Section 478.57 – Paragraphs (b) and (c);
Section 478.92 – Paragraphs (a)(3) and (c);
Section 478.119 – Entire section (Note: an import permit is still needed pursuant to the Arms Export Control Act – see 27 CFR 447.41(a));
Section 478.132 – Entire section; and
Section 478.153 – Entire section.

References to “ammunition feeding device” in section 478.116 are not applicable on or after September 13, 2004. References to “semiautomatic assault weapons” in section 478.171 are not applicable on or after September 13, 2004.

The regulations will be amended to reflect these changes.

Subpart A—Introduction

§ 478.1 Scope of regulations.

(a) General. The regulations contained in this part relate to commerce in firearms and ammunition and are promulgated to implement Title I, State Firearms Control Assistance.

(b) Procedural and substantive requirements. This part contains the procedural and substantive requirements relative to:

(1) The interstate or foreign commerce in firearms and ammunition;
(2) The licensing of manufacturers and importers of firearms and ammunition, collectors of firearms, and dealers in firearms;
(3) The conduct of business or activity by licensees;
(4) The importation of firearms and ammunition;
(5) The records and reports required of licensees;
(6) Relief from disabilities under this part;
(7) Exempt interstate and foreign commerce in firearms and ammunition; and

(8) Restrictions on armor piercing ammunition.

§ 478.2 Relation to other provisions of law.

The provisions in this part are in addition to, and are not in lieu of, any other provision of law, or regulations, respecting commerce in firearms or ammunition. For regulations applicable to traffic in machine guns, destructive devices, and certain other firearms, see Part 479 of this chapter. For statutes applicable to the registration and licensing of persons engaged in the business of manufacturing, importing or exporting arms, ammunition, or implements of war, see section 38 of the Arms Export Control Act (22 U.S.C. 2778) and regulations thereunder and Part 447 of this chapter. For statutes applicable to nonmailable firearms, see 18 U.S.C. 1715 and regulations thereunder.

Subpart B – Definitions

§ 478.11 Meaning of terms.

When used in this part and in forms prescribed under this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine. The terms “includes” and “including” do not exclude other things not enumerated which are in the same general class or are otherwise within the scope thereof.

Act. 18 U.S.C. Chapter 44.

Adjudicated as a mental defective.

(a) A determination by a court, board, commission, or other lawful authority that a person, as a result of marked subnormal intelligence, or mental illness, incompetency, condition, or disease:

(1) Is a danger to himself or to others; or
(2) Lacks the mental capacity to contract or manage his own affairs.

(b) The term shall include—

(1) A finding of insanity by a court in a criminal case; and
(2) Those persons found incompetent to stand trial or found not guilty by reason of lack of mental responsibility pursuant to articles 50a and 72b of the Uniform Code of Military Justice, 10 U.S.C. 850a, 876b.

Admitted to the United States for lawful hunting or sporting purposes. (a) Is entering the United States to participate in a competitive target shooting event sponsored by a national, State, or local organization, devoted to the competitive use or other sporting use of firearms; or
(b) Is entering the United States to display
firearms at a sports or hunting trade show sponsored by a national, State, or local firearms trade organization, devoted to the competitive use or other sporting use of firearms.

Alien. Any person not a citizen or national of the United States.

Alien illegally or unlawfully in the United States. Aliens who are unlawfully in the United States are not in valid immigrant, nonimmigrant or parole status. The term includes any alien—

(a) Who unlawfully entered the United States without inspection and authorization by an immigration officer and who has not been paroled into the United States under section 212(d)(5) of the Immigration and Nationality Act (INA);

(b) Who is a nonimmigrant and whose authorized period of stay has expired or who has violated the terms of the nonimmigrant category in which he or she was admitted;

(c) Paroled under INA section 212(d)(5) whose authorized period of parole has expired or whose parole status has been terminated; or

(d) Under an order of deportation, exclusion, or removal, or under an order to depart the United States voluntarily, whether or not he or she has left the United States.

Ammunition. Ammunition or cartridge cases, primers, bullets, or propellant powder designed for use in any firearm other than an antique firearm. The term shall not include (a) any shotgun shot or pellet not designed for use as the single, complete projectile load for one shotgun hull or casing, nor (b) any unloaded, non-metallic shotgun hull or casing not having a primer.

Antique firearm. Any firearm (including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system) manufactured in or before 1898; and (b) any replica of any firearm described in paragraph (a) of this definition if such replica (1) is not designed or redesigned for using rimfire or conventional centerfire fixed ammunition, or (2) uses rimfire or conventional centerfire fixed ammunition which is no longer manufactured in the United States and which is not readily available in the ordinary channels of commercial trade.

Armor piercing ammunition. Projectiles or projectile cores which may be used in a handgun and which are constructed entirely (excluding the presence of traces of other substances) from one or a combination of tungsten alloys, steel, iron, brass, bronze, beryllium copper, or depleted uranium; or full jacketed projectiles larger than .22 caliber designed and intended for use in a handgun and whose jacket has a weight of more than 25 percent of the total weight of the projectile. The term does not include shotgun shot required by Federal or State environmental or game regulations for hunting purposes, fragile projectiles designed for target shooting, projectiles which the Director finds are primarily intended to be used for sporting purposes, or any other projectiles or projectile cores which the Director finds are intended to be used for industrial purposes, including charges used in oil and gas well perforating devices.

ATF officer. An officer or employee of the Bureau of Alcohol, Tobacco and Firearms (ATF) authorized to perform any function relating to the administration or enforcement of this part.

Business premises. The property on which the manufacturing or importing of firearms or ammunition or the dealing in firearms is or will be conducted. A private dwelling, no part of which is open to the public, shall not be recognized as coming within the meaning of the term.

Chief, National Licensing Center. The ATF official responsible for the issuance and renewal of licenses under this part.

Collector. Any person who acquires, holds, or disposes of firearms as curios or relics.

Collection premises. The premises described on the license of a collector as the location at which he maintains his collection of curios and relics.

Commerce. Travel, trade, traffic, commerce, transportation, or communication among the several States, or between the District of Columbia and any State, or between any foreign country or any territory or possession and any State or the District of Columbia, or between points in the same State but through any other State or the District of Columbia or a foreign country.

Committed to a mental institution. A formal commitment of a person to a mental institution by a court, board, commission, or other lawful authority. The term includes a commitment to a mental institution involuntarily. The term includes commitment for mental defectiveness or mental illness. It also includes commitments for other reasons, such as for drug use. The term does not include a person in a mental institution for observation or a voluntary admission to a mental institution.

Controlled substance. A drug or other substance, or immediate precursor, as defined in section 102 of the Controlled Substances Act, 21 U.S.C. 802. The term includes, but is not limited to, marijuana, depressants, stimulants, and narcotic drugs. The term does not include distilled spirits, wine, malt beverages, or tobacco, as those terms are defined or used in Subtitle E of the Internal Revenue Code of 1954, as amended.

Crime punishable by imprisonment for a term exceeding 1 year. Any Federal, State or foreign offense for which the maximum penalty, whether or not imposed, is capital punishment or imprisonment in excess of 1 year. The term shall not include (a) any Federal or State offenses pertaining to antitrust violations, unfair trade practices, restraints of trade, or other similar offenses relating to the regulation of business practices or (b) any State offense classified by the laws of the State as a misdemeanor and punishable by a term of imprisonment of 2 years or less. What constitutes a conviction of such a crime shall be determined in accordance with the law of the jurisdiction in which the proceedings were held. Any conviction which has been expunged or set aside or for which a person has been pardoned or has had civil rights restored shall not be considered a conviction for the purposes of the Act or this part, unless such pardon, expunction, or restoration of civil rights expressly provides that the person may not ship, transport, possess, or receive firearms, or unless the person is prohibited by the law of the jurisdiction in which the proceedings were held from receiving or possessing any firearms.

Editor’s Note:

Foreign offenses no longer qualify as crimes punishable by imprisonment for a term exceeding 1 year. The regulation will be changed to reflect this.

Curios or relics. Firearms which are of special interest to collectors by reason of some quality other than is associated with firearms intended for sporting use or as offensive or defensive weapons. To be recognized as curios or relics, firearms must fall within one of the following categories:

(a) Firearms which were manufactured at least 50 years prior to the current date, but not including replicas thereof;

(b) Firearms which are certified by the curator of a municipal, State, or Federal museum which exhibits firearms to be curios or relics of museum interest; and

(c) Any other firearms which derive a substantial part of their monetary value
from the fact that they are novel, rare, bizarre, or because of their association with some historical figure, period, or event. Proof of qualification of a particular firearm under this category may be established by evidence of present value and evidence that like firearms are not available except as collector's items, or that the value of like firearms available in ordinary commercial channels is substantially less.

Editor's Note:

ATF Publication 5300.11, Firearms Curios and Relics List, consists of lists of those firearms determined to be curios or relics from 1972 to the present.

Customs officer. Any officer of the Customs Service or any commissioned, warrant, or petty officer of the Coast Guard, or any agent or other person authorized by law or designated by the Secretary of the Treasury to perform any duties of an officer of the Customs Service.

Dealer. Any person engaged in the business of selling firearms at wholesale or retail; any person engaged in the business of repairing firearms or of making or fitting special barrels, stocks, or trigger mechanisms to firearms; or any person who is a pawnbroker. The term shall include any person who engages in such business or occupation on a part-time basis.

Destructive device. (a) Any explosive, incendiary, or poison gas (1) bomb, (2) grenade, (3) rocket having a propellant charge of more than 4 ounces, (4) missile having an explosive or incendiary charge of more than one-quarter ounce, (5) mine, or (6) device similar to any of the devices described in the preceding paragraphs of this definition; (b) any type of weapon (other than a shotgun or a shotgun shell which the Director finds is generally recognized as particularly suitable for sporting purposes) by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, and which has any barrel with a bore of more than one-half inch in diameter; and (c) any combination of parts either designed or intended for use in converting any device into any destructive device described in paragraph (a) or (b) of this section and from which a destructive device may be readily assembled. The term shall not include any device which is neither designed nor redesigned for use as a weapon; any device, although originally designed for use as a weapon, which is redesign for use as a signaling, pyrotechnic, line throwing, safety, or similar device; surplus ordnance sold, loaned, or given by the Secretary of the Army pursuant to the provisions of section 4684(2), 4685, or 4686 of title 10, United States Code; or any other device which the Director finds is not likely to be used as a weapon, is an antique, or is a rifle which the owner intends to use solely for sporting, recreational, or cultural purposes.

Director. The Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, D.C.

Director of Industry Operations. The principal ATF official in a Field Operations division responsible for administering regulations in this part.

Discharged under dishonorable conditions. Separation from the U.S. Armed Forces resulting from a dishonorable discharge or dismissal adjudged by a general court-martial. The term does not include any separation from the Armed Forces resulting from any other discharge, e.g., a bad conduct discharge.

Division. A Bureau of Alcohol, Tobacco and Firearms Division.

Engaged in the business—(a) Manufacturer of firearms. A person who devotes time, attention, and labor to manufacturing firearms as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the firearms manufactured; (b) Manufacturer of ammunition. A person who devotes time, attention, and labor to manufacturing ammunition as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the ammunition manufactured; (c) Dealer in firearms other than a gunsmith or a pawnbroker. A person who devotes time, attention, and labor to dealing in firearms as a regular course of trade or business with the principal objective of livelihood and profit through the repetitive purchase and resale of firearms, but such a term shall not include a person who makes occasional sales, exchanges, or purchases of firearms for the enhancement of a personal collection or for a hobby, or who sells all or part of his personal collection of firearms; (d) Gunsmith. A person who devotes time, attention, and labor to engaging in such activity as a regular course of trade or business with the principal objective of livelihood and profit, but such a term shall not include a person who makes occasional repairs of firearms or who occasionally fits special barrels, stocks, or trigger mechanisms to firearms; (e) Importer of firearms. A person who devotes time, attention, and labor to importing firearms as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the firearms imported; and, (f) Importer of ammunition. A person who devotes time, attention, and labor to importing ammunition as a regular course of trade or business with the principal objective of livelihood and profit through the sale or distribution of the ammunition imported.

Executed under penalties of perjury. Signed with the prescribed declaration under the penalties of perjury as provided on or with respect to the return form, or other document or, where no form of declaration is prescribed, with the declaration:

“I declare under the penalties of perjury that this—(insert type of document, such as, statement, application, request, certificate), including the documents submitted in support thereof, has been examined by me and, to the best of my knowledge and belief, is true, correct, and complete.”

Firearm. Any weapon, including a starter gun, which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of any such weapon; any firearm muffler or firearm silencer; or any destructive device; but the term shall not include an antique firearm. In the case of a licensed collector, the term shall mean only curios and relics.

Firearm frame or receiver. That part of a firearm which provides housing for the hammer, bolt or breechblock, and firing mechanism, and which is usually threaded at its forward portion to receive the barrel.

Firearm muffler or firearm silencer. Any device for silencing, muffling, or diminishing the report of a portable firearm, including any combination of parts, designed or redesigned, and intended for use in assembling or fabricating a firearm silencer or firearm muffler, and any part intended only for use in such assembly or fabrication.

Friendly foreign government. Any government with whom the United States has diplomatic relations and whom the United States has not identified as a State sponsor of terrorism.

Fugitive from justice. Any person who
has fled from any State to avoid prosecution for a felony or a misdemeanor; or any person who leaves the State to avoid giving testimony in any criminal proceeding. The term also includes any person who knows that misdemeanor or felony charges are pending against such person and who leaves the State of prosecution.

Handgun. (a) Any firearm which has a short stock and is designed to be held and fired by the use of a single hand; and

(b) Any combination of parts from which a firearm described in paragraph (a) can be assembled.

Hunting license or permit lawfully issued in the United States. A license or permit issued by a State for hunting which is valid and unexpired.

Identification document. A document containing the name, residence address, date of birth, and photograph of the holder which was made or issued by or under the authority of the United States Government, a State, political subdivision of a State, a foreign government, political subdivision of a foreign government, an international governmental or an international quasi-governmental organization which, when completed with information concerning a particular individual, is of a type intended or commonly accepted for the purpose of identification of individuals.

Importation. The bringing of a firearm or ammunition into the United States; except that the bringing of a firearm or ammunition from outside the United States into a foreign trade zone for storage pending shipment to a foreign country or subsequent importation into this country, pursuant to this part, shall not be deemed importation.

Importer. Any person engaged in the business of importing or bringing firearms or ammunition into the United States. The term shall include any person who engages in such business on a part-time basis.

Indictment. Includes an indictment or information in any court, under which a crime punishable by imprisonment for a term exceeding 1 year (as defined in this section) may be prosecuted, or in military cases to any offense punishable by imprisonment for a term exceeding 1 year which has been referred to a general court-martial. An information is a formal accusation of a crime, differing from an indictment in that it is made by a prosecuting attorney and not a grand jury.

Interstate or foreign commerce. Includes commerce between any place in a State and any place outside of that State, or within any possession of the United States (not including the Canal Zone) or the District of Columbia. The term shall not include commerce between places within the same State but through any place outside of that State.

Intimate partner. With respect to a person, the spouse of the person, a former spouse of the person, an individual who is a parent of a child of the person, and an individual who cohabitates or has cohabitated with the person.

Large capacity ammunition feeding device. A magazine, belt, drum, feed strip, or similar device for a firearm manufactured after September 13, 1994, that has a capacity of, or that can be readily restored or converted to accept, more than 10 rounds of ammunition. The term does not include an attached tubular device designed to accept, and capable of operating only with, .22 caliber rimfire ammunition, or a fixed device for a manually operated firearm, or a fixed device for a firearm listed in 18 U.S.C. 922, Appendix A.

Licensed collector. A collector of curios and relics only and licensed under the provisions of this part.

Licensed dealer. A dealer licensed under the provisions of this part.

Licensed importer. An importer licensed under the provisions of this part.

Licensed manufacturer. A manufacturer licensed under the provisions of this part.

Machinegun. Any weapon which shoots, is designed to shoot, or can be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger. The term shall also include the frame or receiver of any such weapon, any part designed and intended solely and exclusively, or combination of parts designed and intended, for use in converting a weapon into a machine gun, and any combination of parts from which a machine gun can be assembled if such parts are in the possession or under the control of a person.

Manufacturer. Any person engaged in the business of manufacturing firearms or ammunition. The term shall include any person who engages in such business on a part-time basis.

Mental institution. Includes mental health facilities, mental hospitals, sanitariums, psychiatric facilities, and other facilities that provide diagnoses by licensed professionals of mental retardation or mental illness, including a psychiatric ward in a general hospital.

Misdemeanor crime of domestic violence. (a) Is a Federal, State or local offense that:

(1) Is a misdemeanor under Federal or State law or, in States which do not classify offenses as misdemeanors, is an offense punishable by imprisonment for a term of one year or less, and includes offenses that are punishable only by a fine. (This is true whether or not the State statute specifically defines the offense as a “misdemeanor” or as a “misdemeanor crime of domestic violence.” The term includes all such misdemeanor convictions in Indian Courts established pursuant to 25 CFR Part 11.);

(2) Has, as an element, the use or attempted use of physical force (e.g., assault and battery), or the threatened use of a deadly weapon; and

(3) Was committed by a current or former spouse, parent, or guardian of the victim, by a person with whom the victim shares a child in common, by a person who is cohabiting with or has cohabited with the victim as a spouse, parent, or guardian, (e.g., the equivalent of a “common law” marriage even if such relationship is not recognized under the law), or a person similarly situated to a spouse, parent, or guardian of the victim (e.g., two persons who are residing at the same location in an intimate relationship with the intent to make that place their home would be similarly situated to a spouse).

(b) A person shall not be considered to have been convicted of such an offense for purposes of this part unless:

(1) The person is considered to have been convicted by the jurisdiction in which the proceedings were held;

(2) The person was represented by counsel in the case, or knowingly and intelligently waived the right to counsel in the case; and

(3) In the case of a prosecution for which a person was entitled to a jury trial in the jurisdiction in which the case was tried, either

(i) The case was tried by a jury, or

(ii) The person knowingly and intelligently waived the right to have the case tried by a jury, by guilty plea or otherwise.
A person shall not be considered to have been convicted of an offense for purposes of this part if the conviction was set aside, unless it was set aside as a result of a pardon or reprieve that is not a national or permanent resident alien of the United States.

Nonimmigrant alien. An alien in the United States in a nonimmigrant classification as defined by section 101(a)(15) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15)).

Pawnbroker. Any person whose business or occupation includes the taking or receiving, by way of pledge or pawn, of any firearm as security for the payment or repayment of money. The term shall include any person who engages in such business on a part-time basis.

Permanently inoperable. A firearm which is incapable of discharging a shot by means of an explosive and incapable of being readily restored to a firing condition. An acceptable method of rendering most firearms permanently inoperable is to fuse weld the chamber closed and fusion weld the barrel solidly to the frame. Certain unusual firearms require other methods to render the firearm permanently inoperable. Contact ATF for instructions.

Person. Any individual, corporation, company, association, firm, partnership, society, or joint stock company.

Pistol. A weapon originally designed, made, and intended to fire a projectile (bullet) from one or more barrels when held in one hand, and having (a) a chamber(s) as an integral part(s) of, or permanently aligned with, the bore(s); and (b) a short stock designed to be gripped by one hand and at an angle to and extending below the line of the bore(s).

Principal objective of livelihood and profit. The intent underlying the sale or disposition of firearms is predominantly one of obtaining livelihood and pecuniary gain, as opposed to other intents such as improving or liquidating a personal firearms collection: Provided. That proof of profit shall not be required as to a person who engages in the regular and repetitive purchase and disposition of firearms for criminal purposes or terrorism. For purposes of this part, the term "terrorism" means activity, directed against United States persons, which—a

(1) Is committed by an individual who is not a national or permanent resident alien of the United States;

(2) Involves violent acts or acts dangerous to human life which would be a criminal violation if committed within the jurisdiction of the United States; and

(3) Is intended—

(a) To intimidate or coerce a civilian population;

(b) To influence the policy of a government by intimidation or coercion; or

(c) To affect the conduct of a government by assassination or kidnapping.

Published ordinance. A published law of any political subdivision of a State which the Director determines to be relevant to the enforcement of this part and which is contained on a list compiled by the Director, which list is incorporated by reference in the FEDERAL REGISTER, revised annually, and furnished to licensees under this part.

Renounced U.S. citizenship. (a) A person has renounced his U.S. citizenship if the person, having been a citizen of the United States, has renounced citizenship or redesignation to use the energy of the explosive in a fixed metallic cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger.

Rifle. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder, and designed or redesigned and made or remade to use the energy of the explosive in a fixed metallic cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger.

Semiautomatic assault weapon. (a) Any of the firearms, or copies or duplicates of the firearms in any caliber, known as:

(1) Norinco, Mitchell, and Poly Technologies Avtomat Kalashnikovs (all models).

(2) Action Arms Israeli Military Industries UZI and Galil,

(3) Beretta Ar70 (SC–70),

(4) Colt AR–15,

(5) Fabrique National FN/FAL, FN/LAR, and FNC,

(6) SWD M–10, M–11, M–11/9, and M–12,

(7) Steyr AUG,

(8) INTRATEC TEC–9, TEC–DC9 and TEC–22, and

(9) Revolving cylinder shotguns, such as (or similar to) the Street Sweeper and Striker 12;

(b) A semiautomatic rifle that has an ability to accept a detachable magazine and has at least 2 of—

(1) A folding or telescoping stock,

(2) A pistol grip that protrudes conspicuously beneath the action of the weapon,

(3) A bayonet mount,

(4) A flash suppressor or threaded barrel designed to accommodate a flash suppressor, and

(5) A grenade launcher;

(c) A semiautomatic pistol that has an ability to accept a detachable magazine and has at least 2 of—

(1) An ammunition magazine that attaches to the pistol outside of the pistol grip,

(2) A threaded barrel capable of accepting a barrel extender, flash suppressor, forward handgrip,
(3) A shroud that is attached to, or partially or completely encircles, the barrel and that permits the shooter to hold the firearm with the nontrigger hand without being burned,

(4) A manufactured weight of 50 ounces or more when the pistol is unloaded, and

(5) A semiautomatic version of an automatic firearm; and

(d) A semiautomatic shotgun that has at least 2 of—

(1) A folding or telescoping stock,

(2) A pistol grip that protrudes conspicuously beneath the action of the weapon,

(3) A fixed magazine capacity in excess of 5 rounds, and

(4) An ability to accept a detachable magazine.

Semiautomatic pistol. Any repeating pistol which utilizes a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round, and which requires a separate pull of the trigger to fire each cartridge.

Semiautomatic rifle. Any repeating rifle which utilizes a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round, and which requires a separate pull of the trigger to fire each cartridge.

Semiautomatic shotgun. Any repeating shotgun which utilizes a portion of the energy of a firing cartridge to extract the fired cartridge case and chamber the next round, and which requires a separate pull of the trigger to fire each cartridge.

Short-barreled rifle. A rifle having one or more barrels less than 18 inches in length, and any weapon made from a rifle, whether by alteration, modification, or otherwise, if such weapon, as modified, has an overall length of less than 26 inches.

Short-barreled shotgun. A shotgun having one or more barrels less than 18 inches in length, and any weapon made from a shotgun, whether by alteration, modification, or otherwise, if such weapon as modified has an overall length of less than 26 inches.

Shotgun. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder, and designed or redesigned and made or remade to use the energy of the explosive in a fixed shotgun shell to fire through a smooth bore either a number of ball shot or a single projectile for each single pull of the trigger.

State. A State of the United States. The term shall include the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States (not including the Canal Zone).

State of residence. The State in which an individual resides. An individual resides in a State if he or she is present in a State with the intention of making a home in that State. If an individual is on active duty as a member of the Armed Forces, the individual's State of residence is the State in which his or her permanent duty station is located. An alien who is legally in the United States shall be considered to be a resident of a State only if the alien is residing in the State and has resided in the State for a period of at least 90 days prior to the date of sale or delivery of a firearm. The following are examples that illustrate this definition:

Example 1. A maintains a home in State X. A travels to State Y on a hunting, fishing, business, or other type of trip. A does not become a resident of State Y by reason of such trip.

Example 2. A is a U.S. citizen and maintains a home in State X and a home in State Y. A resides in State X except for weekends or the summer months of the year and in State Y for the weekends or the summer months of the year. During the time that A actually resides in State X, A is a resident of State X, and during the time that A actually resides in State Y, A is a resident of State Y.

Example 3. A, an alien, travels on vacation or on a business trip to State X. Regardless of the length of time A spends in State X, A does not have a State of residence in State X. This is because A does not have a home in State X at which he has resided for at least 90 days.

Unlawful user of or addicted to any controlled substance. A person who uses a controlled substance and has lost the power of self-control with reference to the use of controlled substance; and any person who is a current user of a controlled substance in a manner other than as prescribed by a licensed physician. Such use is not limited to the use of drugs on a particular day, or within a matter of days or weeks before, but rather that the unlawful use has occurred recently enough to indicate that the individual is actively engaged in such conduct. A person may be an unlawful current user of a controlled substance even though the substance is not being used at the precise time the person seeks to acquire a firearm or receives or possesses a firearm. An inference of current use may be drawn from evidence of a recent use or possession of a controlled substance or a pattern of use or possession that reasonably covers the present time, e.g., a conviction for use or possession of a controlled substance within the past year; multiple arrests for such offenses within the past 5 years if the most recent arrest occurred within the past year; or persons found through a drug test to use a controlled substance unlawfully, provided that the test was administered within the past year.

For a current or former member of the Armed Forces, an inference of current use may be drawn from recent disciplinary or other administrative action based on confirmed drug use, e.g., court-martial conviction, nondisciplinary punishment, or an administrative discipline based on drug use or drug rehabilitation failure.

Unserviceable firearm. A firearm which is incapable of discharging a shot by means of an explosive and is incapable of being readily restored to a firing condition.

Subpart C—Administrative and Miscellaneous Provisions

§ 478.21 Forms prescribed.

(a) The Director is authorized to prescribe all forms required by this part. All of the information called for in each form shall be furnished as indicated by the headings on the form and the instructions or on pertaining to the form. In addition, information called for in each form shall be furnished as required by this part.

(b) Requests for forms should be mailed to the ATF Distribution Center, 7943 Angus Court, Springfield, Virginia 22153.

§ 478.22 Alternate methods or procedures; emergency variations from requirements.

(a) Alternate methods or procedures. The licensee, on specific approval by the Director as provided in this paragraph, may use an alternate method or procedure in lieu of a method or procedure specifically prescribed in this part. The Director may approve an alternate method or procedure, subject to stated conditions, when it is found that:

(1) Good cause is shown for the use of the alternate method or procedure;
(2) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure and that the alternate method or procedure is substantially equivalent to that specifically prescribed method or procedure; and

(3) The alternate method or procedure will not be contrary to any provision of law and will not result in an increase in cost to the Government or hinder the effective administration of this part. Where the licensee desires to employ an alternate method or procedure, a written application shall be submitted to the appropriate Director of Industry Operations, for transmittal to the Director. The application shall specifically describe the proposed alternate method or procedure and shall set forth the reasons for it. Alternate methods or procedures may not be employed until the application is approved by the Director. The licensee shall, during the period of authorization of an alternate method or procedure, comply with the terms of the approved application. Authorization of any alternate method or procedure may be withdrawn whenever, in the judgment of the Director, the effective administration of this part is hindered by the continuation of the authorization.

(b) Emergency variations from requirements. The Director may approve a method of operation other than as specified in this part, where it is found that an emergency exists and the proposed variation from the specified requirements are necessary and the proposed variations (1) will not hinder the effective administration of this part, and (2) will not be contrary to any provisions of law. Variations from requirements granted under this paragraph are conditioned on compliance with the procedures, conditions, and limitations set forth in the approval of the application. Failure to comply in good faith with the procedures, conditions, and limitations shall automatically terminate the authority for the variations, and the licensee shall fully comply with the prescribed requirements of regulations from which the variations were authorized. Authority for any variation may be withdrawn whenever, in the judgment of the Director, the effective administration of this part is hindered by the continuation of the variation. Where the licensee desires to employ an emergency variation, a written application shall be submitted to the appropriate Director of Industry Operations for transmittal to the Director. The application shall describe the proposed variation and set forth the reasons for it. Variations may not be employed until the application is approved.

(c) Retention of approved variations. The licensee shall retain, as part of the licensee’s records, available for examination by ATF officers, any application approved by the Director under this section.

§ 478.23 Right of entry and examination.

(a) Except as provided in paragraph (b), any ATF officer, when there is reasonable cause to believe a violation of the Act has occurred and that evidence of the violation may be found on the premises of any licensed manufacturer, licensed importer, licensed dealer, or licensed collector, may, upon demonstrating such cause before a Federal magistrate and obtaining from the magistrate a warrant authorizing entry, enter during business hours (or, in the case of a licensed collector, the hours of operation) the premises, including places of storage, of any such licensee for the purpose of inspecting or examining:

(1) Any records or documents required to be kept by such licensee under this part and

(2) Any inventory of firearms or ammunition kept or stored by any licensed manufacturer, licensed importer, or licensed dealer at such premises or any firearms curios or relics or ammunition kept or stored by any licensed collector at such premises.

(b) Any ATF officer, without having reasonable cause to believe a violation of the Act has occurred or that evidence of the violation may be found and without demonstrating such cause before a Federal magistrate or obtaining from the magistrate a warrant authorizing entry, enter during business hours (or, in the case of a licensed collector, the hours of operation) the premises, including places of storage, of any licensee's records, available for inspecting or examining:

(1) In the course of a reasonable inquiry during the course of a criminal investigation of a person or persons other than the licensee,

(2) For insuring compliance with the recordkeeping requirements of this part:

(i) Not more than once during any 12-month period, or

(ii) At any time with respect to records relating to a firearm involved in a criminal investigation that is traced to the licensee, or

(3) When such inspection or examination may be required for determining the disposition of one or more particular firearms in the course of a bona fide criminal investigation.

(c) Any ATF officer, without having reasonable cause to believe a violation of the Act has occurred or that evidence of the violation may be found and without demonstrating such cause before a Federal magistrate or obtaining from the magistrate a warrant authorizing entry, may enter during hours of operation the premises, including places of storage, of any licensed collector for the purpose of inspecting or examining the records, documents, firearms, and ammunition referred to in paragraph (a) of this section for ensuring compliance with the recordkeeping requirements of this part not more than once during any 12-month period or (2) when such inspection or examination may be required for determining the disposition of one or more particular firearms in the course of a bona fide criminal investigation. At the election of the licensed collector, the annual inspection permitted by this paragraph shall be performed at the ATF office responsible for conducting such inspection in closest proximity to the collector's premises.

(d) The inspections and examinations provided by this section do not authorize an ATF officer to seize any records or documents other than those records or documents constituting material evidence of a violation of law. If an ATF officer seizes such records or documents, copies shall be provided to the licensee within a reasonable time.

§ 478.24 Compilation of State laws and published ordinances.

(a) The Director shall annually revise and furnish Federal firearms licensees with a compilation of State laws and published ordinances which are relevant to the enforcement of this part. The Director annually revises the compilation and publishes it as “State Laws and Published Ordinances—Firearms” which is furnished free of charge to licensees under this part. Where the compilation has previously been furnished to licensees, the Director need only furnish amendments of the relevant laws and ordinances to such licensees.

(b) “State Laws and Published Ordinances—Firearms” is incorporated by reference in this part. It is ATF Publication 5300.5, revised yearly. The current edition is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. It is also
available for inspection at the Office of the Federal Register, Room 8401, 1100 L Street, N.W., Washington D.C. This incorporation by reference was approved by the Director of the Federal Register.

§ 478.25 Disclosure of information.

The Director of Industry Operations may make available to any Federal, State or local law enforcement agency any information which is obtained by reason of the provisions of the Act with respect to the identification of persons prohibited from purchasing or receiving firearms or ammunition who have purchased or received firearms or ammunition, together with a description of such firearms or ammunition. Upon the request of any Federal, State or local law enforcement agency, the Director of Industry Operations may provide such agency any information contained in the records required to be maintained by the Act or this part.

§ 478.25a Responses to requests for information.

Each licensee shall respond immediately to, and in no event later than 24 hours after the receipt of, a request by an ATF officer at the National Tracing Center for information contained in the records required to be kept by this part for determining the disposition of one or more firearms in the course of a bona fide criminal investigation. The requested information shall be provided orally to the ATF officer within the 24-hour period. Verification of the identity and employment of National Tracing Center personnel requesting information may be established at the time the requested information is provided by telephoning the toll-free number 1–800–788–7132 or using the toll-free facsimile (FAX) number 1–800–578–7223.

(Approved by the Office of Management and Budget under control number 1512–0387)

§ 478.26 Curio and relic determination.

Any person who desires to obtain a determination whether a particular firearm is a curio or relic shall submit a written request, in duplicate, for a ruling thereon to the Director. Each such request shall be executed under the penalties of perjury and contain a complete and accurate description of the firearm, the name and address of the manufacturer or importer thereof, the purpose of and use for which it is intended, and such photographs, diagrams, or drawings as may be necessary to enable the Director to make his determination. The Director may require the submission to him, of a sample of such device for examination and evaluation. If the submission of such device is impracticable, the person requesting the ruling shall so advise the Director and designate the place where the device will be available for examination and evaluation.

§ 478.27 Destructive device determination.

The Director shall determine in accordance with 18 U.S.C. 921(a)(4) whether a device is excluded from the definition of a destructive device. A person who desires to obtain a determination under that provision of law for any device which he believes is not likely to be used as a weapon shall submit a written request, in triplicate, for a ruling thereon to the Director. Each such request shall be executed under the penalties of perjury and contain a complete and accurate description of the device, the name and address of the manufacturer or importer thereof, the purpose of and use for which it is intended, and such photographs, diagrams, or drawings as may be necessary to enable the Director to make his determination. The Director may require the submission to him, of a sample of such device for examination and evaluation. If the submission of such device is impracticable, the person requesting the ruling shall so advise the Director and designate the place where the device will be available for examination and evaluation.

§ 478.28 Transportation of destructive devices and certain firearms.

(a) The Director may authorize a person to transport in interstate or foreign commerce any destructive device, machine gun, short-barreled shotgun, or short-barreled rifle, if he finds that such transportation is reasonably necessary and is consistent with public safety and applicable State and local law. A person who desires to transport in interstate or foreign commerce any such device or weapon shall submit a written request so to do, in duplicate, to the Director. The request shall contain:

   (1) A complete description and identification of the device or weapon to be transported;
   (2) A statement whether such transportation involves a transfer of title;
   (3) The need for such transportation;
   (4) The approximate date such transportation is to take place;
   (5) The present location of such device or weapon and the place to which it is to be transported;
   (6) The mode of transportation to be used (including, if by common or contract carrier, the name and address of such carrier); and
   (7) Evidence that the transportation or possession of such device or weapon is not inconsistent with the laws at the place of destination.

(b) No person shall transport any destructive device, machine gun, short-barreled shotgun, or short-barreled rifle in interstate or foreign commerce under the provisions of this section until he has received specific authorization so to do from the Director. Authorization granted under this section does not carry or import relief from any other statutory or regulatory provision relating to firearms.

(c) This section shall not be construed as requiring licensees to obtain authorization to transport destructive devices, machine guns, short-barreled shotguns, and short-barreled rifles in interstate or foreign commerce: Provided, That in the case of a licensed importer, licensed manufacturer, or licensed dealer, such a licensee is qualified under the National Firearms Act (see also Part 479 of this chapter) and this part to engage in the business with respect to the device or weapon to be transported, and that in the case of a licensed collector, the device or weapon to be transported is a curio or relic.

§ 478.29 Out-of-State acquisition of firearms by nonlicensees.

No person, other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, shall transport into or receive in the State where the person resides (or if a corporation or other business entity, where it maintains a place of business) any firearm purchased or otherwise obtained by such person outside that State: Provided, That the provisions of this section:

(a) Shall not preclude any person who lawfully acquires a firearm by bequest or intestate succession in a State other than his State of residence from transporting the firearm into or receiving it in that State, if it is lawful for such person to purchase or possess such firearm in that State,

(b) Shall not apply to the transportation or receipt of a rifle or shotgun obtained from a licensed manufacturer, licensed importer, licensed dealer, or licensed collector in a State other than the transferee’s State of residence in an over-the-counter transaction at the licensee’s premises obtained in conformity with the provisions of § 478.96(c) and

(c) Shall not apply to the transportation or receipt of a firearm obtained in conformity with the provisions of §§ 478.30 and 478.97.
§ 478.29a Acquisition of firearms by nonresidents.

No person, other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, who does not reside in any State shall receive any firearms unless such receipt is for lawful sporting purposes.

§ 478.30 Out-of-State disposition of firearms by nonlicensees.

No nonlicensee shall transfer, sell, trade, give, transport, or deliver any firearm to any other nonlicensee, who the transferor knows or has reasonable cause to believe does not reside in (or if the person is a corporation or other business entity, does not maintain a place of business in) the State in which the transferor resides: Provided, That the provisions of this section:

(a) shall not apply to the transfer, transportation, or delivery of a firearm made to carry out a bequest of a firearm to, or any acquisition by intestate succession of a firearm by, a person who is permitted to acquire or possess a firearm under the laws of the State of his residence; and

(b) shall not apply to the loan or rental of a firearm to any person for temporary use for lawful sporting purposes.

§ 478.31 Delivery by common or contract carrier.

(a) No person shall knowingly deliver or cause to be delivered to any common or contract carrier for transportation or shipment in interstate or foreign commerce to any person other than a licensed importer, licensed manufacturer, licensed dealer, or licensed collector, any package or other container in which there is a firearm or ammunition without written notice to the carrier that such firearm or ammunition is being transported or shipped:

Provided, that any passenger who owns or legally possesses a firearm or ammunition being transported aboard any common or contract carrier for movement with the passenger in interstate or foreign commerce may deliver said firearm or ammunition into the custody of the pilot, captain, conductor or operator of such common or contract carrier for the duration of that trip without violating any provision of this part.

(b) No common or contract carrier shall require or cause any label, tag, or other written notice to be placed on the outside of any package, luggage, or other container indicating that such package, luggage, or other container contains a firearm.

(c) No common or contract carrier shall transport or deliver in interstate or foreign commerce any firearm or ammunition with knowledge or reasonable cause to believe that the shipment, transportation, or receipt thereof would be in violation of any provision of this part:

Provided, however, that the provisions of this paragraph shall not apply in respect to the transportation of firearms or ammunition in in-bond shipment under Customs laws and regulations.

(d) No common or contract carrier shall knowingly deliver in interstate or foreign commerce any firearm without obtaining written acknowledgement of receipt from the recipient of the package or other container in which there is a firearm: Provided, That this paragraph shall not apply with respect to the return of a firearm to a passenger who places firearms in the carrier's custody for the duration of the trip.

§ 478.32 Prohibited shipment, transportation, possession, or receipt of firearms and ammunition by certain persons.

(a) No person may ship or transport any firearm or ammunition in interstate or foreign commerce, or receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce, or possess any firearm or ammunition in or affecting commerce, who:

(1) Has been convicted in any court of a crime punishable by imprisonment for a term exceeding 1 year,

(2) Is a fugitive from justice,

(3) Is an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act, 21 U.S.C. 802),

(4) Has been adjudicated as a mental defective or has been committed to a mental institution,

(5) Being an alien —

(i) Is illegally or unlawfully in the United States; or

(ii) Except as provided in paragraph (f) of this section, is a nonimmigrant alien: Provided, That the provisions of this paragraph (a)(5)(ii) do not apply to any nonimmigrant alien if that alien is—

(A) Admitted to the United States for lawful hunting or sporting purposes or is in possession of a hunting license or permit lawfully issued in the United States;

(B) An official representative of a foreign government who is either accredited to the United States Government or the Government's mission to an international organization having its headquarters in the United States or is en route to or from another country to which that alien is accredited. This exception only applies if the firearm or ammunition is shipped, transported, possessed, or received in the representative's official capacity;

(C) An official of a foreign government or a distinguished foreign visitor who has been so designated by the Department of State. This exception only applies if the firearm or ammunition is shipped, transported, possessed, or received in the official's or visitor's official capacity, except if the visitor is a private individual who does not have an official capacity; or

(D) A foreign law enforcement officer of a friendly foreign government entering the United States on official law enforcement business,

(6) Has been discharged from the Armed Forces under dishonorable conditions,

(7) Having been a citizen of the United States, has renounced citizenship,

(8) Is subject to a court order that—

(i) Was issued after a hearing of which such person received actual notice, and at which such person had an opportunity to participate;

(ii) Restrains such person from harassing, stalking, or threatening an intimate partner of such person or child of such intimate partner or person, or engaging in other conduct that would place an intimate partner in reasonable fear of bodily injury to the partner or child; and

(iii) (A) Includes a finding that such person represents a credible threat to the physical safety of such intimate partner or child; or

(B) By its terms explicitly prohibits the use, attempted use, or threatened use of physical force against such intimate partner or child that would reasonably be ex-
(9) Has been convicted of a misdemeanor crime of domestic violence.

(b) No person who is under indictment for a crime punishable by imprisonment for a term exceeding one year may ship or transport any firearm or ammunition in interstate or foreign commerce or receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.

(c) Any individual, who to that individual's knowledge and while being employed by any person described in paragraph (a) of this section, may not in the course of such employment receive, possess, or transport any firearm or ammunition in commerce affecting commerce or receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce.

(d) No person may sell or otherwise dispose of any firearm or ammunition to any person knowing or having reasonable cause to believe that such person:

(1) Is under indictment for, or has been convicted in any court of, a crime punishable by imprisonment for a term exceeding 1 year,

(2) Is a fugitive from justice,

(3) Is an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act, 21 U.S.C. 802),

(4) Has been adjudicated as a mental defective or has been committed to a mental institution,

(5) Being an alien —

(i) Is illegally or unlawfully in the United States; or

(ii) Except as provided in paragraph (f) of this section, is a nonimmigrant alien: Provided, That the provisions of this paragraph (d)(5)(ii) do not apply to any nonimmigrant alien if that alien is—

(A) Admitted to the United States for lawful hunting or sporting purposes or is in possession of a hunting license or permit lawfully issued in the United States;

(B) An official representative of a foreign government who is either accredited to the United States Government or the Government's mission to an international organization having its headquarters in the United States or on route to or from another country to which that alien is accredited. This exception only applies if the firearm or ammunition is shipped, transported, possessed, or received in the representative's official capacity;

(C) An official of a foreign government or a distinguished foreign visitor who has been so designated by the Department of State. This exception only applies if the firearm or ammunition is shipped, transported, possessed, or received in the official's or visitor's official capacity, except if the visitor is a private individual who does not have an official capacity; or

(D) A foreign law enforcement officer of a friendly foreign government entering the United States on official law enforcement business,

(6) Has been discharged from the Armed Forces under dishonorable conditions,

(7) Having been a citizen of the United States, has renounced citizenship,

(8) Is subject to a court order that restrains such person from harassing, stalking, or threatening an intimate partner or child of such person or child of such intimate partner or person, or engaging in other conduct that would place an intimate partner in reasonable fear of bodily injury to the partner or child: Provided, That the provisions of this paragraph shall only apply to a court order that—

(i) Was issued after a hearing of which such person received actual notice, and at which such person had the opportunity to participate; and

(ii)(A) Includes a finding that such person represents a credible threat to the physical safety of such intimate partner or child; or

(B) By its terms explicitly prohibits the use, attempted use, or threatened use of physical force against such intimate partner or child that would reasonably be expected to cause bodily injury, or

(9) Has been convicted of a misdemeanor crime of domestic violence.

(e) The actual notice required by paragraphs (a)(8)(i) and (d)(8)(i) of this section is notice expressly and actually given, and brought home to the party directly, including service of process personally served on the party and service by mail. Actual notice also includes proof of facts and circumstances that raise the inference that the party received notice including, but not limited to, proof that notice was left at the party's dwelling house or usual place of abode with some person of suitable age and discretion residing therein; or proof that the party signed a return receipt for a hearing notice which had been mailed to the party. It does not include notice published in a newspaper.

(f) Pursuant to 18 U.S.C. 922(y)(3), any nonimmigrant alien may receive a waiver from the prohibition contained in paragraph (a)(5)(ii) of this section, if the Attorney General approves a petition for the waiver.

§ 478.33 Stolen firearms and ammunition.

No person shall transport or ship in interstate or foreign commerce any stolen firearm or stolen ammunition knowing or having reasonable cause to believe that the firearm or ammunition was stolen, and no person shall receive, possess, conceal, store, barter, sell, or dispose of any stolen firearm or stolen ammunition, or pledge or accept as security for a loan any stolen firearm or stolen ammunition, which is moving as, which is a part of, which constitutes, or which has been shipped or transported in, interstate or foreign commerce, either before or after it was stolen, knowing or having reasonable cause to believe that the firearm or ammunition was stolen.

§ 478.33a Theft of firearms.

No person shall steal or unlawfully take or carry away from the person or the premises of a person who is licensed to engage in the business of importing, manufacturing, or dealing in firearms, any firearm in the licensee's business inventory that has been shipped or transported in interstate or foreign commerce.

§ 478.34 Removed, obliterated, or altered serial number.

No person shall knowingly transport, ship, or receive in interstate or foreign commerce any firearm which has had the importer's or manufacturer's serial number removed, obliterated, or altered, or possess or receive any firearm which has had the importer's or manufacturer's serial number removed, obliterated, or altered and has, at any time, been shipped or transported in interstate or foreign commerce.
§ 478.35 Skeet, trap, target, and similar shooting activities.

Licensing and recordkeeping requirements, including permissible alternate records, for skeet, trap, target, and similar organized activities shall be determined by the Director of Industry Operations on a case by case basis.

§ 478.36 Transfer or possession of machine guns.

No person shall transfer or possess a machine gun except:

(a) A transfer to or by, or possession by or under the authority of, the United States, or any department or agency thereof, or a State, or a department, agency, or political subdivision thereof. (See Part 479 of this chapter); or

(b) Any lawful transfer or lawful possession of a machine gun that was lawfully possessed before May 19, 1986 (See Part 479 of this chapter).

§ 478.37 Manufacture, importation and sale of armor piercing ammunition.

No person shall manufacture or import, and no manufacturer or importer shall sell or deliver, armor piercing ammunition, except:

(a) The manufacture or importation, or the sale or delivery by any manufacturer or importer, of armor piercing ammunition for the use of the United States or any department or agency thereof or any State or any department, agency or political subdivision thereof;

(b) The manufacture, or the sale or delivery by a manufacturer or importer, of armor piercing ammunition for the purpose of exportation; or

(c) The sale or delivery by a manufacturer or importer of armor piercing ammunition for the purposes of testing or experimentation as authorized by the Director under the provisions of § 478.149.

§ 478.38 Transportation of firearms.

Notwithstanding any other provision of any law or any rule or regulation of a State or any political subdivision thereof, any person who is not otherwise prohibited by this chapter from transporting, shipping, or receiving a firearm shall be entitled to transport a firearm for any lawful purpose from any place where such person may lawfully possess and carry such firearm to any other place where such person may lawfully possess and carry such firearm if, during such transportation the firearm is unloaded, and neither the firearm nor any ammunition being transported is readily accessible or is directly accessible from the passenger compartment of such transporting vehicle: Provided, That in the case of a vehicle without a compartment separate from the driver's compartment the firearm or ammunition shall be contained in a locked container other than the glove compartment or console.

§ 478.39 Assembly of semiautomatic rifles or shotguns.

(a) No person shall assemble a semiautomatic rifle or any shotgun using more than 10 of the imported parts listed in paragraph (c) of this section if the assembled firearm is prohibited from importation under section 925(d)(3) as not being particularly suitable for or readily adaptable to sporting purposes.

(b) The provisions of this section shall not apply to:

(1) The assembly of such rifle or shotgun for sale or distribution by a licensed manufacturer to the United States or any department or agency thereof or to any State or any department, agency, or political subdivision thereof; or

(2) The assembly of such rifle or shotgun for the purposes of testing or experimentation authorized by the Director under the provisions of § 478.151; or

(3) The repair of any rifle or shotgun which had been imported into or assembled in the United States prior to November 30, 1990, or the replacement of any part of such firearm.

(c) For purposes of this section, the term imported parts are:

(1) Frames, receivers, receiver castings, forgings or stampings

(2) Barrels

(3) Barrel extensions

(4) Mounting blocks (trunions)

(5) Muzzle attachments

(6) Bolts

(7) Bolt carriers

(8) Operating rods

(9) Gas pistons

(10) Trigger housings

(11) Triggers

(12) Hammers

(13) Sears

(14) Disconnectors

(15) Buttstocks

(16) Pistol grips

(17) Forearms, handguards

(18) Magazine bodies

(19) Followers

(20) Floorplates

§ 478.39a Reporting theft or loss of firearms.

Each licensee shall report the theft or loss of a firearm from the licensee’s inventory (including any firearm which has been transferred from the licensee’s inventory to a personal collection and held as a personal firearm for at least 1 year), or from the collection of a licensed collector, within 48 hours after the theft or loss is discovered. Licensees shall report thefts or losses by telephoning 1-800-800-3855 (nationwide toll free number) and by preparing ATF Form 3310.11, Federal Firearms Licensee Theft/Loss Report, in accordance with the instructions on the form. The original of the report shall be forwarded to the office specified thereon, and copy 1 shall be retained by the licensee as part of the licensee’s permanent records. Theft or loss of any firearm shall also be reported to the appropriate local authorities.

(Approved by the Office of Management and Budget under control number 1512–0524)

§ 478.40 Manufacture, transfer, and possession of semiautomatic assault weapons.

(a) Prohibition. No person shall manufacture, transfer, or possess a semiautomatic assault weapon.

(b) Exceptions. The provisions of paragraph (a) of this section shall not apply to:

(1) The possession or transfer of any semiautomatic assault weapon otherwise lawfully possessed in the United States under Federal law on September 13, 1994;

(2) Any of the firearms, or replicas or duplicates of the firearms, specified in 18 U.S.C. 922, Appendix A, as such firearms existed on October 1, 1993;

(3) Any firearm that—
(i) Is manually operated by bolt, pump, lever, or slide action;

(ii) Has been rendered permanently inoperable; or

(iii) Is an antique firearm;

(4) Any semiautomatic rifle that cannot accept a detachable magazine that holds more than 5 rounds of ammunition;

(5) Any semiautomatic shotgun that cannot hold more than 5 rounds of ammunition in a fixed or detachable magazine;

(6) The manufacture for, transfer to, or possession by the United States or a department or agency of the United States or a State or a department, agency, or political subdivision of a State, or a transfer to or possession by a law enforcement officer employed by such an entity for purposes of law enforcement;

(7) The transfer to a licensee under title I of the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) for purposes of establishing and maintaining an on-site physical protection system and security organization required by Federal law, or possession by an employee or contractor of such licensee on-site for such purposes or off-site for purposes of licensee-authorized training or transportation of nuclear materials;

(8) The possession, by an individual who is retired from service with a law enforcement agency and is not otherwise prohibited from receiving a firearm, of a semiautomatic assault weapon transferred to the individual by the agency upon such retirement;

(9) The manufacture, transfer, or possession of a semiautomatic assault weapon by a licensed manufacturer or licensed importer for the purposes of testing or experimentation as authorized by the Director under the provisions of §478.153; or

(10) The manufacture, transfer, or possession of a semiautomatic assault weapon by a licensed manufacturer, licensed importer, or licensed dealer for the purpose of exportation in compliance with the Arms Export Control Act (22 U.S.C. 2778).

(c) Manufacture and dealing in semiautomatic assault weapons. Subject to compliance with the provisions of this part, licensed manufacturers and licensed dealers in semiautomatic assault weapons may manufacture and deal in such weapons manufactured after September 13, 1994: Provided, The licensee obtains evidence that the weapons will be disposed of in accordance with paragraph (b) of this section. Examples of acceptable evidence include the following:

(1) Contracts between the manufacturer and dealers stating that the weapons may only be sold to law enforcement agencies, law enforcement officers, or other purchasers specified in paragraph (b) of this section;

(2) Copies of purchase orders submitted to the manufacturer or dealer by law enforcement agencies or other purchasers specified in paragraph (b) of this section;

(3) Copies of letters submitted to the manufacturer or dealer by government agencies, law enforcement officers, or other purchasers specified in paragraph (b) of this section expressing an interest in purchasing the semiautomatic assault weapons;

(4) Letters from dealers to the manufacturer stating that sales will only be made to law enforcement agencies, law enforcement officers, or other purchasers specified in paragraph (b) of this section; and

(5) Letters from law enforcement officers purchasing in accordance with §478.132.

(Paragraph (c) approved by the Office of Management and Budget under control number 1512–0528)

§478.40a Transfer and possession of large capacity ammunition feeding devices.

(a) Prohibition. No person shall transfer or possess a large capacity ammunition feeding device.

(b) Exceptions. The provisions of paragraph (a) of this section shall not apply to:

(1) The possession or transfer of any large capacity ammunition feeding device otherwise lawfully possessed on September 13, 1994;

(2) The manufacture for, transfer to, or possession by the United States or a department or agency of the United States or a State or a department, agency, or political subdivision of a State, or a transfer to or possession by a law enforcement officer employed by such an entity for purposes of law enforcement;

(3) The transfer to a licensee under title I of the Atomic Energy Act of 1954 for purposes of establishing and maintaining an on-site physical protection system and security organization required by Federal law, or possession by an employee or contractor of such licensee on-site for such purposes or off-site for purposes of licensee-authorized training or transportation of nuclear materials;

(4) The possession, by an individual who is retired from service with a law enforcement agency and is not otherwise prohibited from receiving ammunition, of a large capacity ammunition feeding device transferred to the individual by the agency upon such retirement;

(5) The manufacture, transfer, or possession of any large capacity ammunition feeding device by a manufacturer or importer for the purpose of exportation in accordance with the Arms Export Control Act (22 U.S.C. 2778);

(c) Importation, manufacture, and dealing in large capacity ammunition feeding devices. Possession and transfer of large capacity ammunition feeding devices by persons who manufacture, import, or deal in such devices will be presumed to be lawful if such persons maintain evidence establishing that the devices are possessed and transferred for sale to purchasers specified in paragraph (b) of this section. Examples of acceptable evidence include the following:

(1) Contracts between persons who import or manufacture such devices and persons who deal in such devices stating that the devices may only be sold to law enforcement agencies or other purchasers specified in paragraph (b) of this section;

(2) Copies of purchase orders submitted to persons who manufacture, import, or deal in such devices by law enforcement agencies or other purchasers specified in paragraph (b) of this section;

(3) Copies of letters submitted to persons who manufacture, import, or deal in such devices by government agencies or other purchasers specified in paragraph (b) of this section expressing an interest in purchasing the devices;
(4) Letters from persons who deal in such devices to persons who import or manufacture such devices stating that sales will only be made to law enforcement agencies or other purchasers specified in paragraph (b) of this section; and

(5) Letters from law enforcement officers purchasing in accordance with paragraph (b)(2) of this section and §478.132.

(Paragraph (c) approved by the Office of Management and Budget under control number 1512–0526)

Subpart D—Licenses

§ 478.41 General.

(a) Each person intending to engage in business as an importer or manufacturer of firearms or ammunition, or a dealer in firearms shall, before commencing such business, obtain the license required by this subpart for the business to be operated. Each person who desires to obtain a license as a collector of curios and relics may obtain such a license under the provisions of this subpart.

(b) Each person intending to engage in business as a firearms or ammunition importer or manufacturer, or dealer in firearms shall file an application, with the required fee (see §478.42), with ATF in accordance with the instructions on the form (see §478.44), and, pursuant to §478.47, receive the license required for such business from the Chief, National Licensing Center. Except as provided in §478.50, a license must be obtained for each business and each place at which the applicant is to do business. A license as an importer or manufacturer of firearms or ammunition, or a dealer in firearms shall, subject to the provisions of the Act and other applicable provisions of law, entitle the licensee to transport, ship, receive, and acquire curios and relics in interstate or foreign commerce, and to make disposition of curios and relics in interstate or foreign commerce, to any other person licensed under the provisions of this part, for the period stated on the license.

(d) The collector license provided by this part shall apply only to transactions related to a collector’s activity in acquiring, holding or disposing of curios and relics. A collector’s license does not authorize the collector to engage in a business required to be licensed under the Act or this part. Therefore, if the acquisitions and dispositions of curios and relics by a collector bring the collector within the definition of a manufacturer, importer, or dealer under this part, he shall qualify as such. (See also §478.93 of this part.)

§ 478.42 License fees.

Each applicant shall pay a fee for obtaining a firearms license or ammunition license, a separate fee being required for each business or collecting activity at each place of such business or activity, as follows:

(a) For a manufacturer:

(1) Of destructive devices, ammunition for destructive devices or armor piercing ammunition—$1,000 per year.

(2) Of firearms other than destructive devices—$50 per year.

(3) Of ammunition for firearms other than ammunition for destructive devices or armor piercing ammunition—$10 per year.

(b) For an importer:

(1) Of destructive devices, ammunition for destructive devices or armor piercing ammunition—$1,000 per year.

(2) Of firearms other than destructive devices or ammunition for firearms other than destructive devices or ammunition other than armor piercing ammunition—$50 per year.

(c) For a dealer:

(1) In destructive devices—$1,000 per year.

(2) Who is not a dealer in destructive devices—$200 for 3 years, except that the fee for renewal of a valid license shall be $90 for 3 years.

(d) For a collector of curios and relics—$10 per year.

§ 478.43 License fee not refundable.

No refund of any part of the amount paid as a license fee shall be made where the operations of the licensee are, for any reason, discontinued during the period of an issued license. However, the license fee submitted with an application for a license shall be refunded if that application is denied or withdrawn by the applicant prior to being acted upon.

§ 478.44 Original license.

(a) (1) Any person who intends to engage in business as a firearms or ammunition importer or manufacturer, or firearms dealer, or who has not previously been licensed under the provisions of this part to so engage in business, or who has not timely submitted an application for renewal of the previous license issued under this part, must file an application for license, ATF Form 7 (Firearms), in duplicate, with ATF in accordance with the instructions on the form. The application must:

(i) Be executed under the penalties of perjury and the penalties imposed by 18 U.S.C. 924;

(ii) Include a photograph and fingerprints as required in the instructions on the form;

(iii) If the applicant (including, in the case of a corporation, partnership, or association, any individual possessing, directly or indirectly, the power to direct or cause the direction of the management and policies of the corporation, partnership, or association) is a nonimmigrant alien, applicable documentation demonstrating that the nonimmigrant alien falls within an exception to or has obtained a waiver from the nonimmigrant alien provision (e.g., a hunting license or permit lawfully issued in the United States; waiver);

(iv) Be accompanied by a completed ATF Form 5300.37 (Certifica-
§ 478.45 Renewal of license.

If a licensee intends to continue the business or activity described on a license issued under this part during any portion of the ensuing year, the licensee shall, unless otherwise notified in writing by the Chief, National Licensing Center, execute and file with ATF prior to the expiration of the license an application for a license renewal, ATF Form 8 Part II, accompanied by a completed ATF Form 5300.37 and ATF Form 5300.36, in accordance with the instructions on the forms, and the required fee. If the applicant is a nonimmigrant alien, the application must include applicable documentation demonstrating that the nonimmigrant alien falls within an exception to or has obtained a waiver from the nonimmigrant alien provision (e.g., a hunting license or permit lawfully issued in the United States; waiver). The Chief, National Licensing Center, may, in writing, require the applicant for license renewal to also file completed ATF Form 7 or ATF Form 7CR in the manner required by § 478.44. In the event the licensee does not timely file an ATF Form 8 Part II, the licensee must file an ATF Form 7 or ATF Form 7CR as required by § 478.44, and obtain the required license before continuing business or collecting activity. If an ATF Form 8 Part II is not timely received through the mails, the licensee should so notify the Chief, National Licensing Center. (Approved by the Office of Management and Budget under control number 1512–0570)

§ 478.46 Insufficient fee.

If an application is filed with an insufficient fee, the application and any fee submitted will be returned to the applicant.

§ 478.47 Issuance of license.

(a) Upon receipt of a properly executed application for a license on ATF Form 7, ATF Form 7CR, or ATF Form 8 Part II, the Chief, National Licensing Center, shall, upon finding through further inquiry, investigation, or otherwise, that the applicant is qualified, issue the appropriate license. Each license shall bear a serial number and such number may be assigned to the licensee to whom issued for so long as the licensee maintains continuity of renewal in the same location (State).

(b) The Chief, National Licensing Center, shall approve a properly executed application for license on ATF Form 7, ATF Form 7CR, or ATF Form 8 Part II, if:

1. The applicant is 21 years of age or over;

2. The applicant (including, in the case of a corporation, partnership, or association, any individual possessing, directly or indirectly, the power to direct or cause the direction of the management and policies of the corporation, partnership, or association) is a nonimmigrant alien, the application must include applicable documentation demonstrating that the nonimmigrant alien falls within an exception to or has obtained a waiver from the nonimmigrant alien provision (e.g., a hunting license or permit lawfully issued in the United States; waiver). The Chief, National Licensing Center, may, in writing, require the applicant for license renewal to also file completed ATF Form 7 or ATF Form 7CR in the manner required by § 478.44. In the event the licensee does not timely file an ATF Form 8 Part II, the licensee must file an ATF Form 7 or ATF Form 7CR as required by § 478.44, and obtain the required license before continuing business or collecting activity. If an ATF Form 8 Part II is not timely received through the mails, the licensee should so notify the Chief, National Licensing Center. (Approved by the Office of Management and Budget under control number 1512–0570)

3. The applicant has not willfully violated any of the provisions of the Act or this part;

4. The applicant has not willfully failed to disclose any material information required, or has not made any false statement as to any material fact, in connection with his application;

5. The applicant has in a State

   (i) premises from which he conducts business subject to license under the Act or from which he intends to conduct such business within a reasonable period of time, or

   (ii) in the case of a collector, premises from which he conducts his collecting subject to license under the Act or from which he intends to conduct such collecting within a reasonable period of time; and

6. The applicant has filed an ATF Form 5300.37 (Certification of Compliance with State and Local Law) with ATF in accordance with the instructions on the form certifying under the penalties of perjury that—

   (i) The business to be conducted under the license is not prohibited by State or local law in the place where the licensed premises are located;

   (ii) Within 30 days after the application is approved the business will comply with the requirements of State and local law applicable to the conduct of business;

   (iii) The business will not be conducted under the license until the requirements of State and local law applicable to the business have been met; and

   (iv) The applicant has completed and sent or delivered ATF F 5300.36 (Notification of Intent to Apply for a Federal Firearms License) to the chief law enforcement officer of the locality in which the premises are located, which indicates that the applicant intends to apply for a Federal firearms license. For purposes of this paragraph, the "chief law enforcement officer" is the chief of police, the sheriff, or an equivalent officer.

   (c) The Chief, National Licensing Center, shall approve or the Director of Industry Operations shall deny an application for a license within the 60-day period beginning on the date the properly executed application was received: Provided, That when an applicant for license renewal is a person who is, pursuant to the provisions of §§ 478.78, § 478.143, or § 478.144, conducting business or collecting activity under a previously issued license, action regarding the application will be held in
§ 478.49 Duration of license.

The license entitles the person to whom issued to engage in the business or activity specified on the license, within the limitations of the Act and the regulations contained in this part, for a three-year period, unless terminated sooner.

§ 478.50 Locations covered by license.

The license covers the class of business or the activity specified in the license at the address specified therein. A separate license must be obtained for each location at which a firearms or ammunition business or activity requiring a license under this part is conducted except:

(a) No license is required to cover a separate warehouse used by the licensee solely for storage of firearms or ammunition if the records required by this part are maintained at the licensed premises served by such warehouse;

(b) A licensed collector may acquire curios and relics at any location, and dispose of curios or relics to any licensee or to other persons who are residents of the State where the collector’s license is held and the disposition is made;

(c) A licensee may conduct business at a gun show pursuant to the provisions of § 478.100; or

(d) A licensed importer, manufacturer, or dealer may engage in the business of dealing in curio or relic firearms with another licensee at any location pursuant to the provisions of § 478.100.

§ 478.51 License not transferable.

Licensures issued under this part are not transferable. In the event of the lease, sale, or other transfer of the operations authorized by the license, the successor must obtain the license required by this part prior to commencing such operations. However, for rules on right of succession, see § 478.56.

§ 478.52 Change of address.

(a) Licensees may during the term of their current license remove their business or activity to a new location at which they intend regularly to carry on such business or activity by filing an Application for an Amended Federal Firearms License, ATF Form 5300.38, in duplicate, not less than 30 days prior to such removal with the Chief, National Licensing Center. The ATF Form 5300.38 shall be completed in accordance with the instructions on the form. The application must be executed under the penalties of perjury and penalties imposed by 18 U.S.C. 924. The application shall be accompanied by the license’s original license. The Chief, National Licensing Center, may, in writing, require the applicant for an amended license to also file completed ATF Form 7 or ATF Form 7CR, or portions thereof, in the manner required by § 478.44.

(b) Upon receipt of a properly executed application for an amended license, the Chief, National Licensing Center, shall, upon finding through further inquiry or investigation, or otherwise, that the applicant is qualified at the new location, issue the amended license, and return it to the applicant. The license shall be valid for the remainder of the term of the original license. The Chief, National Licensing Center, shall, if the applicant is not qualified, refer the application for amended license to the Director of Industry Operations for denial in accordance with § 478.71.

(Approved by the Office of Management and Budget under control number 1512–0525)

§ 478.53 Change in trade name.

A licensee continuing to conduct business at the location shown on his license is not required to obtain a new license by reason of a mere change in trade name under which he conducts his business: Provided, That such licensee furnishes his license for endorsement of such change to the Chief, National Licensing Center, within 30 days from the date the licensee begins his business under the new trade name.

§ 478.54 Change of control.

In the case of a corporation or association holding a license under this part, if actual or legal control of the corporation or association changes, directly or indirectly, whether by reason of change in stock ownership or control (in the licensed corporation or in any other corporation), by operations of law, or in any other manner, the licensee shall, within 30 days of such change, give written notification thereof, executed under the penalties of perjury, to the Chief, National Licensing Center. Upon expiration of the license, the corporation or association must file a Form 7 (Firearms) as required by § 478.44.

§ 478.55 Continuing partnerships.

Where, under the laws of the particular State, the partnership is not terminated on death or insolvency of a partner, but continues until the winding up of the partnership affairs is completed, and the surviving
partner has the exclusive right to the control and possession of the partnership assets for the purpose of liquidation and settlement, such surviving partner may continue to operate the business under the license of the partnership. If such surviving partner acquires the business on completion of the settlement of the partnership, he shall obtain a license in his own name from the date of acquisition, as provided in § 478.44. The rule set forth in this section shall also apply where there is more than one surviving partner.

§ 478.56 Right of succession by certain persons.

(a) Certain persons other than the licensee may secure the right to carry on the same firearms or ammunition business at the same address shown on, and for the remainder of the term of, a current license. Such persons are:

1. The surviving spouse or child, or executor, administrator, or other legal representative of a deceased licensee; and
2. A receiver or trustee in bankruptcy, or an assignee for benefit of creditors.

(b) In order to secure the right provided by this section, the person or persons continuing the business shall furnish the license for that business for endorsement to the Chief, National Licensing Center, within 30 days from the date on which the successor begins to carry on the business.

§ 478.57 Discontinuance of business.

(a) Where a firearm or ammunition business is either discontinued or succeeded by a new owner, the owner of the business discontinued or succeeded shall within 30 days thereof furnish to the Chief, National Licensing Center notification of the discontinuance or succession. (See also § 478.127.)

(b) Since section 922(v), Title 18, U.S.C., makes it unlawful to transfer or possess a semiautomatic assault weapon, except as provided in the law, any licensed manufacturer, licensed importer, or licensed dealer intending to discontinue business shall, prior to going out of business, transfer the weapons to the Chief, National Licensing Center for correction or endorsement in compliance with the provisions contained in this subpart may continue his operations while awaiting its return.

§ 478.60 Certain continuances of business.

A licensee who furnishes his license to the Chief, National Licensing Center for correction or endorsement in compliance with the provisions contained in this subpart may continue his operations while awaiting its return.

Subpart E—License Proceedings

§ 478.71 Denial of an application for license.

Whenever the Director of Industry Operations has reason to believe that an applicant is not qualified to receive a license under the provisions of § 478.47, he may issue a notice of denial, on Form 4498, to the applicant. The notice shall set forth the matters of fact and law relied upon in determining that the application should be denied, and shall afford the applicant 15 days from the date of receipt of the notice in which to request a hearing to review the denial. If no request for a hearing is filed within such time, the application shall be disapproved and a copy, so marked, shall be returned to the applicant.

§ 478.72 Hearing after application denial.

If the applicant for an original or renewal license desires a hearing to review the denial of his application, he shall file a request therefor, in duplicate, with the Director of Industry Operations within 15 days after receipt of the notice of denial. The request should include a statement of the reasons therefor. On receipt of the request, the Director of Industry Operations shall, as expeditiously as possible, make the necessary arrangements for the hearing and advise the applicant of the date, time, location, and the name of the officer before whom the hearing will be held. Such notification shall be made not less than 10 days in advance of the date set for the hearing. On conclusion of the hearing and consideration of all relevant facts and circumstances presented by the applicant or his representative, the Director of Industry Operations shall render his decision confirming or reversing the denial of the application. If the decision is that the denial should stand, a certified copy of the Director of Industry Operations findings and conclusions shall be furnished to the applicant with a final notice of denial, Form 4501. A copy of the application, marked “Disapproved,” will be returned to the applicant. If the decision is that the license applied for should be issued, the applicant shall be so notified, in writing, and the license shall be issued as provided by § 478.47.

§ 478.73 Notice of revocation, suspension, or imposition of civil fine.

(a) Basis for action. Whenever the Director of Industry Operations has reason to believe that a licensee has willfully violated any provision of the Act or this part, a notice of revocation of the license, ATF Form 4500, may be issued. In addition, a notice of revocation, suspension, or imposition of a civil fine may be issued on ATF Form 4500 whenever the Director of Industry Operations has reason to believe that a licensee has knowingly transferred a firearm to an unlicensed person and knowingly failed to comply with the requirements of 18 U.S.C. 922(t)(1) with respect to the transfer and, at the time that the transferee most recently proposed the transfer, the national instant criminal background check system was operating and information was available to the system demonstrating that the transferee's
receipt of a firearm would violate 18 U.S.C. 922(g) or 922(n) or State law.

(b) Issuance of notice. The notice shall set forth the matters of fact constituting the violations specified, dates, places, and the sections of law and regulations violated. The Director of Industry Operations shall afford the licensee 15 days from the date of receipt of the notice in which to request a hearing prior to suspension or revocation of the license, or imposition of a civil fine. If the licensee does not file a timely request for a hearing, the Director of Industry Operations shall issue a final notice of suspension or revocation and/or imposition of a civil fine on ATF Form 4501, as provided in §478.74.

§ 478.74 Request for hearing after notice of suspension, revocation, or imposition of civil fine.

If a licensee desires a hearing after receipt of a notice of suspension or revocation of a license, or imposition of a civil fine, the licensee shall file a request, in duplicate, with the Director of Industry Operations within 15 days after receipt of the notice of suspension or revocation of a license, or imposition of a civil fine. On receipt of such request, the Director of Industry Operations shall, as expeditiously as possible, make necessary arrangements for the hearing and advise the licensee of the date, time, location and the name of the officer before whom the hearing will be held. Such notification shall be made no less than 10 days in advance of the date set for the hearing. On conclusion of the hearing and consideration of all the relevant presentations made by the licensee or the licensee’s representative, the Director of Industry Operations shall render a decision and shall prepare a brief summary of the findings and conclusions on which the decision is based. If the decision is that the license should be revoked, or, in actions under 18 U.S.C. 922(t)(5), that the license should be revoked or suspended, and/or that a civil fine should be imposed, a certified copy of the formal document shall be delivered to the applicant or licensee, or, in the case of a corporation, partnership, or association, by delivering it to an officer, manager, or general agent thereof, or to its attorney of record.

§ 478.76 Representation at a hearing.

An applicant or licensee may be represented by an attorney, certified public accountant, or other person recognized to practice before the Bureau of Alcohol, Tobacco and Firearms, as provided in 31 CFR Part 8 (Practice Before the Bureau of Alcohol, Tobacco and Firearms), if he has otherwise complied with the applicable requirements of 26 CFR 601.521 through 601.527 (conference and practice requirements for Alcohol, Tobacco and Firearms activities) of this chapter. The Director of Industry Operations may be represented in proceedings by an attorney in the office of the Assistant Chief Counsel or Division Counsel who is authorized to execute and file motions, briefs and other papers in the proceeding, on behalf of the Director of Industry Operations, in his own name as “Attorney for the Government.”

§ 478.77 Designated place of hearing.

The designated place of the hearing shall be a location convenient to the aggrieved party.

§ 478.78 Operations by licensee after notice.

In any case where denial, suspension, or revocation proceedings are pending before the Bureau of Alcohol, Tobacco and Firearms, or notice of denial, suspension, or revocation has been served on the licensee and he has filed timely request for a hearing, the license in the possession of the licensee shall remain in effect even though such license has expired, or the suspension or revocation date specified in the notice of revocation on Form 4500 served on the licensee has passed: Provided, That with respect to a license that has expired, the licensee has timely filed an application for the renewal of his license. If a licensee is dissatisfied with a posthearing decision revoking or suspending the license or denying the application or imposing a civil fine, as the case may be, he may, pursuant to 18 U.S.C. 923(f)(3), within 60 days after receipt of the final notice denying the application or revoking or suspending the license or imposing a civil fine, file a petition for judicial review of such action. Such petition should be filed with the U.S. district court for the district in which the applicant or licensee resides or has his principal place of business. In such case, when the Director of Industry Operations finds that justice so requires, he may postpone the effective date of suspension or revocation of a license or authorize continued operations under the expired license, as applicable, pending judicial review.

Subpart F—Conduct of Business

§ 478.91 Posting of license.

Any license issued under this part shall be kept posted and kept available for inspection on the premises covered by the license.

§ 478.92 How must licensed manufacturers and licensed importers identify firearms, armor piercing ammunition, and large capacity ammunition feeding devices?

(a) (1) Firearms. You, as a licensed manufacturer or licensed importer of firearms, must legibly identify each firearm manufactured or imported as follows:

(i) By engraving, casting, stamping (impressing), or otherwise conspicuously placing or causing to be engraved, cast, stamped (impressed) or placed on the frame or receiver thereof an individual serial number. The serial number must be placed in a manner not susceptible of being readily obliterated, altered, or removed, and must not duplicate any serial number placed by you on any other firearm. For firearms manufactured or imported on and after January 30, 2002, the engraving, casting, or stamping (impressing) of the serial number must be to a minimum depth of .003 inch and in a print size no smaller than 1/16 inch; and

(ii) By engraving, casting, stamping (impressing), or otherwise conspicuously placing or causing to be engraved, cast, stamped (impressed) or placed on the frame, receiver, or barrel thereof certain additional information. This information must be placed in a manner not susceptible of being readily obliterated, altered, or removed. For firearms manufactured or imported on and after January 30, 2002, the engraving, casting, or stamping (impressing) of this information must be to a minimum depth of
.003 inch. The additional information includes:

(A) The model, if such designation has been made;

(B) The caliber or gauge;

(C) Your name (or recognized abbreviation) and also, when applicable, the name of the foreign manufacturer;

(D) In the case of a domestically made firearm, the city and State (or recognized abbreviation thereof) where you as the manufacturer maintain your place of business; and

(E) In the case of an imported firearm, the name of the country in which it was manufactured and the city and State (or recognized abbreviation thereof) where you as the importer maintain your place of business. For additional requirements relating to imported firearms, see Customs regulations at 19 CFR part 134.

(2) Firearm frames or receivers. A firearm frame or receiver that is not a component part of a complete weapon at the time it is sold, shipped, or otherwise disposed of by you must be identified as required by this section.

(3) Special markings for semi-automatic assault weapons, effective July 5, 1995. In the case of any semi-automatic assault weapon manufactured after September 13, 1994, you must mark the frame or receiver “RESTRICTED LAW ENFORCEMENT/GOVERNMENT USE ONLY” or, in the case of weapons manufactured for export, “FOR EXPORT ONLY,” in a manner not susceptible of being readily obliterated, altered, or removed. For weapons manufactured or imported on and after January 30, 2002, the engraving, casting, or stamping (impressing) of the special markings prescribed in this paragraph (a)(3) must be to a minimum depth of .003 inch.

(4) Exceptions.

(i) Alternate means of identification. The Director may authorize other means of identifying that weapon upon receipt of a letter application from you, submitted in duplicate, showing that engraving, casting, or stamping (impressing) such a weapon would be dangerous or impracticable.

(ii) Destructive devices. In the case of a destructive device, the Director may authorize other means of identifying that weapon upon receipt of a letter application from you, submitted in duplicate, showing that engraving, casting, or stamping (impressing) such a weapon would be dangerous or impracticable.

(iii) Machine guns, silencers, and parts. Any part defined as a machine gun, firearm muffler, or firearm silencer in § 478.11, that is not a component part of a complete weapon at the time it is sold, shipped, or otherwise disposed of by you, must be identified as required by this section. The Director may authorize other means of identification of parts defined as machine guns other than frames or receivers and parts defined as mufflers or silencers upon receipt of a letter application from you, submitted in duplicate, showing that such other identification is reasonable and will not hinder the effective administration of this part.

(5) Measurement of height and depth of markings. The depth of all markings required by this section will be measured as the distance between the metal and not the peaks or ridges. The height of serial numbers required by paragraph (a)(1)(i) of this section will be measured as the distance between the latitudinal ends of the character impression bottoms (bases).

(b) Armor piercing ammunition.

(1) Marking of ammunition. Each licensed manufacturer or licensed importer of armor piercing ammunition shall identify such ammunition by means of painting, staining or dying the exterior of the projectile with an opaque black coloring. This coloring must completely cover the point of the projectile which is visible when the projectile is loaded into a cartridge case.

(2) Labeling of packages. Each licensed manufacturer or licensed importer of armor piercing ammunition shall clearly and conspicuously label each package in which armor piercing ammunition is contained, e.g., each box, carton, case, or other container. The label shall include the words “ARMOR PIERCING” in block letters at least 1/4 inch in height. The lettering shall be located on the exterior surface of the package which contains information concerning the caliber or gauge of the ammunition. There shall also be placed on the same surface of the package in block lettering at least 1/8 inch in height the words “FOR GOVERNMENTAL ENTITIES OR EXPORTATION ONLY.” The statements required by this subparagraph shall be on a contrasting background.

(c) Large capacity ammunition feeding devices manufactured after September 13, 1994. (1) Each person who manufactures or imports any large capacity ammunition feeding device manufactured after September 13, 1994, shall legibly identify each device with a serial number. Such person may use the same serial number for all large capacity ammunition feeding devices produced.

(i) Additionally, in the case of a domestically made large capacity ammunition feeding device, such device shall be marked with the name, city and State (or recognized abbreviation thereof) of the manufacturer;

(ii) And in the case of an imported large capacity ammunition feeding device, such device shall be marked:

(A) With the name of the manufacturer, country of origin, and,

(B) Effective July 5, 1995, the name, city and State (or recognized abbreviation thereof) of the importer.

(iii) Further, large capacity ammunition feeding devices manufactured after September 13, 1994, shall be marked “RESTRICTED LAW ENFORCEMENT/GOVERNMENT USE ONLY” or, in the case of devices manufactured or imported for export, effective July 5, 1995, “FOR EXPORT ONLY.”

(2) All markings required by this paragraph (c) shall be cast, stamped, or engraved on the exterior of the device. In the case of a magazine, the markings shall be placed on the magazine body.

(3) Exceptions—(i) Metallic links. Persons who manufacture or import metallic links for use in the assembly of belted ammunition are only required to place the identification marks prescribed in paragraph (c)(1) of this section on the containers used for the packaging of the links.

(ii) Alternate means of identification. The Director may authorize other means of identifying large capacity ammunition feeding devices upon receipt of a letter application, in duplicate, from the manufacturer or importer showing that such other identification is reasonable and will not hinder the effective administration of this part.

51
§ 478.93 Authorized operations by a licensed collector.

The license issued to a collector of curios or relics under the provisions of this part shall cover only transactions by the licensed collector in curios and relics. The collector’s license is of no force or effect and a licensed collector is of the same status under the Act and this part as a nonlicensee with respect to (a) any acquisition or disposition of firearms other than curios or relics, or any transportation, shipment, or receipt of firearms other than curios or relics in interstate or foreign commerce, and (b) any transaction with a nonlicensee involving any firearm other than a curio or relic. (See also § 478.50.) A collectors license is not necessary to receive or dispose of ammunition, and a licensed collector is not precluded by law from receiving or disposing of armor piercing ammunition. However, a licensed collector may not dispose of any ammunition to a person prohibited from receiving or possessing ammunition (see § 478.99(c)). Any licensed collector who disposes of armor piercing ammunition must record the disposition as required by § 478.125 (a) and (b).

§ 478.94 Sales or deliveries between licensees.

A licensed importer, licensed manufacturer, or licensed dealer selling or otherwise disposing of firearms, and a licensed collector selling or otherwise disposing of curios or relics, to another licensee shall verify the identity and licensed status of the transferee prior to making the transaction. Verification shall be established by the transferee furnishing to the transferor a certified copy of the transferee’s license and by such other means as the transferor deems necessary. Provided, That it shall not be required (a) for a transferee who has furnished a certified copy of its license to a transferor to again furnish such certified copy to that transferor during the term of the transferee’s current license, (b) for a licensee to furnish a certified copy of its license to another licensee if a firearm is being returned either directly or through another licensee to such licensee and (c) for licensees of multi-licensed business organizations to furnish certified copies of their licenses to other licensed locations operated by such organization: Provided further, That a multi-licensed business organization may furnish to a transferor, in lieu of a certified copy of each license, a list, certified to be true, correct and complete, containing the name, address, license number, and the date of license expiration of each licensed location operated by such organization, and the transferee may sell or otherwise dispose of firearms as provided by this section to any licensee appearing on such list without requiring a certified copy of a license therefrom. A transferee licensee who has the certified information required by this section may sell or dispose of firearms to a licensee for not more than 45 days following the expiration date of the transferee’s license.

§ 478.95 Certified copy of license.

The license furnished to each person licensed under the provisions of this part contains a purchasing certification statement. This original license may be reproduced and the reproduction then certified by the licensee for use pursuant to § 478.94. If the licensee desires an additional copy of the license for certification (instead of making a reproduction of the original license), the licensee may submit a request, in writing, for a certified copy or copies of the license to the Chief, National Licensing Center. The request must set forth the name, trade name (if any) and address of the licensee, and the number of license copies desired. There is a charge of $1 for each copy. The fee paid for copies of the license must accompany the request for copies. The fee may be paid by (a) cash, or (b) money order or check made payable to the Bureau of Alcohol, Tobacco and Firearms.

§ 478.96 Out-of-State and mail order sales.

(a) The provisions of this section shall apply when a firearm is purchased by or delivered to a person not otherwise prohibited by the Act from purchasing or receiving it.

(b) A licensed importer, licensed manufacturer, or licensed dealer may sell a firearm that is subject to the provisions of § 478.102 to a nonlicensee who does not appear in person at the licensee’s business premises or business premises if the nonlicensee is a resident of the same State in which the licensee’s business premises are located, and the nonlicensee furnishes to the licensee the firearms transaction record, Form 4473, required by § 478.424. The nonlicensee shall attach to such record a true copy of any permit or other information required pursuant to any statute of the State and published ordinance applicable to the locality in which he resides. The licensee shall, prior to shipment or delivery of the firearm, forward by registered or certified mail (return receipt requested) a copy of the record, Form 4473, to the chief law enforcement officer named on such record, and delay shipment or delivery of the firearm for a period of at least 7 days following receipt by the licensee of the return receipt evidencing delivery of the copy of the record to such chief law enforcement officer, or the return of the copy of the record to him due to the refusal of such chief law enforcement officer to accept same in accordance with U.S. Postal Service regulations. The original Form 4473, and evidence of receipt or rejection of delivery of the copy of the Form 4473 sent to the chief law enforcement officer shall be retained by the licensee as a part of the records required of him to be kept under the provisions of subpart H of this part.

(c) (1) A licensed importer, licensed manufacturer, or licensed dealer may sell or deliver a rifle or shotgun, and a licensed collector may sell or deliver a rifle or shotgun that is a curio or relic to a nonlicensed resident of a State other than the State in which the licensee’s place of business is located if—

(i) The purchaser meets with the license in person at the licensee’s premises to accomplish the transfer, sale, and delivery of the rifle or shotgun;

(ii) The licensed importer, licensed manufacturer, or licensed dealer complies with the provisions of § 478.102;

(iii) The purchaser furnishes to the licensed importer, licensed manufacturer, or licensed dealer the firearms transaction record, Form 4473, required by § 478.124; and

(iv) The sale, delivery, and receipt of the rifle or shotgun fully comply with the legal conditions of sale in both such States.

(2) For purposes of paragraph (c) of this section, any licensed manufacturer, licensed importer, or licensed dealer is presumed, in the absence of evidence to the contrary, to have had actual knowledge of the State laws and published ordinances of both such States.

§ 478.97 Loan or rental of firearms.

(a) A licensee may lend or rent a firearm to any person for temporary use off the premises of the licensee for lawful sporting purposes: Provided, That the delivery of the firearm to such person is not prohibited by § 478.99(b) or § 478.99(c), the licensees complies with the requirements of § 478.102, and the licen-
see records such loan or rental in the records required to be kept by him under Subpart H of this part.

(b) A club, association, or similar organization temporarily furnishing firearms (whether by loan, rental, or otherwise) to participants in a skeet, trap, target, or similar shooting activity for use at the time and place such activity is held does not, unattended by other circumstances, cause such club, association, or similar organization to become engaged in the business of a dealer in firearms or as engaging in firearms transactions. Therefore, licensing and recordkeeping requirements contained in this part pertaining to firearms transactions would not apply to this temporary furnishing of firearms for use on premises on which such an activity is conducted.

§ 478.98 Sales or deliveries of destructive devices and certain firearms.

The sale or delivery by a licensee of any destructive device, machine gun, short-barreled shotgun, or short-barreled rifle, to any person other than another licensee who is licensed under this part to deal in such device or firearm, is prohibited unless the person to receive such device or firearm furnishes to the licensee a sworn statement setting forth

(a) The reasons why there is a reasonable necessity for such person to purchase or otherwise acquire the device or weapon; and

(b) That such person's receipt or possession of the device or weapon would be consistent with public safety. Such sworn statement shall be made on the application to transfer and register the firearm required by Part 479 of this chapter. The sale or delivery of the device or weapon shall not be made until the application for transfer is approved by the Director and returned to the licensee (transferor) as provided in Part 479 of this chapter.

§ 478.99 Certain prohibited sales or deliveries.

(a) Interstate sales or deliveries. A licensed importer, licensed manufacturer, licensed dealer, or licensed collector shall not sell or deliver any firearm to any person not licensed under this part and who the licensee knows or has reasonable cause to believe does not reside in (or if a corporation or other business entity, does not maintain a place of business in) the State in which the licensee's place of business or activity is located: Provided, that the foregoing provisions of this paragraph (1) shall not apply to the sale or delivery of a rifle or shotgun (curio or relic, in the case of a licensed collector) to a resident of a State other than the State in which the licensee's place of business or collection premises is located if the requirements of § 478.96(c) are fully met; and (2) shall not apply to the loan or rental of a firearm to any person for temporary use for lawful sporting purposes (see § 478.97).

(b) Sales or deliveries to underaged persons. A licensed importer, licensed manufacturer, licensed dealer, or licensed collector shall not sell or deliver (1) any firearm or ammunition to any individual who the importer, manufacturer, dealer, or collector knows or has reasonable cause to believe is less than 18 years of age, and, if the firearm, or ammunition, is other than a shotgun or rifle, or ammunition for a shotgun or rifle, to any individual who the importer, manufacturer, dealer, or collector knows or has reasonable cause to believe is less than 21 years of age, or (2) any firearm to any person in any State where the purchase or possession by such person of such firearm would be in violation of any State law or any published ordinance applicable at the place of sale, delivery, or other disposition, unless the importer, manufacturer, dealer, or collector knows or has reasonable cause to believe that the purchase or possession would not be in violation of such State law or such published ordinance.

(c) Sales or deliveries to prohibited categories of persons. A licensed manufacturer, licensed importer, licensed dealer, or licensed collector shall not sell or otherwise dispose of any firearm or ammunition to any person knowing or having reasonable cause to believe that such person:

(1) Is, except as provided by § 478.143, under indictment for, or, except as provided by § 478.144, has been convicted in any court of a crime punishable by imprisonment for a term exceeding 1 year;

(2) Is a fugitive from justice;

(3) Is an unlawful user of or addicted to any controlled substance (as defined in section 102 of the Controlled Substances Act, 21 U.S.C. 802);

(4) Has been adjudicated as a mental defective or has been committed to any mental institution;

(5) Is an alien illegally or unlawfully in the United States or, except as provided in § 478.32(f), is a nonimmigrant alien: Provided, That the provisions of this paragraph (c)(5) do not apply to any nonimmigrant alien if that alien is—

(i) Admitted to the United States for lawful hunting or sporting purposes or is in possession of a hunting license or permit lawfully issued in the United States;

(ii) An official representative of a foreign government who is either accredited to the United States Government or the Government's mission to an international organization having its headquarters in the United States or en route to or from another country to which that alien is accredited. This exception only applies if the firearm or ammunition is shipped, transported, possessed, or received in the representative's official capacity;

(iii) An official of a foreign government or a distinguished foreign visitor who has been so designated by the Department of State. This exception only applies if the firearm or ammunition is shipped, transported, possessed, or received in the official's or visitor's official capacity, except if the visitor is a private individual who does not have an official capacity; or

(iv) A foreign law enforcement officer of a friendly foreign government entering the United States on official law enforcement business;

(v) Has been discharged from the Armed Forces under dishonorable conditions;

(6) Who, having been a citizen of the United States, has renounced citizenship;

(8) Is subject to a court order that restrains such person from harassing, stalking, or threatening an intimate partner of such person or child of such intimate partner or person, or engaging in other conduct that would place an intimate partner in reasonable fear of bodily injury to the partner or child, except that this paragraph shall only apply to a court order that—

(i) Was issued after a hearing of which such person received actual notice, and at which such person had the opportunity to participate; and

(ii) (A) Includes a finding that such person represents a credible threat to the physical safety of such intimate partner or child; or

(B) By its terms explicitly prohibits the use, attempted use, or threatened use of physical force against such intimate partner or child that would reasonably be ex-
(9) Has been convicted of a misdemeanor crime of domestic violence.

(d) Manufacture, importation, and sale of armor piercing ammunition by licensed importers and licensed manufacturers. A licensed importer or licensed manufacturer shall not import or manufacture armor piercing ammunition or sell or deliver such ammunition, except:

(1) For use of the United States or any political subdivision thereof; or

(2) For the purpose of exportation; or

(3) For the purpose of testing or experimentation authorized by the Director under the provisions of § 478.149.

(e) Transfer of armor piercing ammunition by licensed dealers. A licensed dealer shall not willfully transfer armor piercing ammunition: Provided, That armor piercing ammunition received and maintained by the licensed dealer as business inventory prior to August 28, 1986, may be transferred to any department or agency of the United States or any State or political subdivision thereof if a record of such ammunition is maintained in the form and manner prescribed by § 478.125(c). Any licensed dealer who violates this paragraph is subject to license revocation. See subpart E of this part. For purposes of this paragraph, the Director shall furnish each licensed dealer information defining which projectiles are considered armor piercing. Such information may not be all-inclusive for purposes of the prohibition on manufacture, importation, or sale or delivery by a manufacturer or importer of such ammunition or 18 U.S.C. 929 relating to criminal misuse of such ammunition.

§ 478.101 Record of transactions.

Every licensee shall maintain firearms and armor piercing ammunition records in such form and manner as is prescribed by subpart H of this part.

§ 478.102 Sales or deliveries of firearms on and after November 30, 1998.

(a) Background check. Except as provided in paragraph (d) of this section, a licensed importer, licensed manufacturer, or licensed dealer (the licensee) shall not sell, deliver, or transfer a firearm to any other person who is not licensed under this part unless the licensee meets the following requirements:

(1) Before the completion of the transfer, the licensee has contacted NICS;

(2)(i) NICS informs the licensee that it has no information that receipt of the firearm by the transferee would be in violation of Federal or State law and provides the licensee with a unique identification number; or

(ii) Three business days (meaning days on which State offices are open) have elapsed from the date the licensee contacted NICS and NICS has not notified the licensee that receipt of the firearm by the transferee would be in violation of law; and

(3) The licensee verifies the identity of the transferee by examining the identification document presented in accordance with the provisions of § 478.124(c).

Example for paragraph (a). A licensee contacts NICS on Thursday, and gets a “delayed” response. The licensee does not get a further response from NICS. If State offices are not open on Saturday and Sunday, 3 business days would have elapsed on the following Tuesday. The licensee may transfer the firearm on the next day, Wednesday.

(b) Transaction number. In any transaction for which a licensee receives a transaction number from NICS (which shall include either a NICS transaction number or, in States where the State is recognized as a point of contact for NICS checks, a State transaction number), such number shall be recorded on a firearms transaction record, Form 4473, which shall be retained in the records of the licensee in accordance with the provisions of § 478.129. This applies regardless of whether the transaction is approved or denied by NICS, and regardless of whether the firearm is actually transferred.

(c) Time limitation on NICS checks. A NICS check conducted in accordance with paragraph (a) of this section may be relied upon by the licensee only for use in a single transaction, and for a period not to exceed 30 calendar days from the date that NICS was initially contacted. If the transaction is not completed within the 30-day period, the licensee shall initiate a new NICS check prior to completion of the transfer.

Example 1 for paragraph (c). A purchaser completes the Form 4473 on December 15, 1998, and a NICS check is initiated by the licensee on that date. The licensee is informed by NICS that the information available to the system does not indicate that receipt of the firearm by the transferee would be in violation of law, and a unique identification number is provided. However, the State imposes a 7-day waiting period on all firearms transactions, and the purchaser does not return to pick up the firearm until January 22, 1999. The licensee must conduct another NICS check before transferring the firearm to the purchaser.

Example 2 for paragraph (c). A purchaser completes the Form 4473 on January 25, 1999, and arranges for the purchase of a single firearm. A NICS check is initiated by the licensee on that date. The licensee is informed by NICS that the information available to the system does not indicate that receipt of the firearm by the transferee would be in violation of law, and a unique identification number is provided. The State imposes a 7-day waiting period on all firearms trans-
actions, and the purchaser returns to pick up the firearm on February 15, 1999. Before the licensee executes the Form 4473, and the firearm is transferred, the purchaser decides to purchase an additional firearm. The transfer of these two firearms is considered a single transaction; accordingly, the licensee may add the second firearm to the Form 4473, and transfer that firearm without conducting another NICS check.

Example 3 for paragraph (c). A purchaser completes a Form 4473 on February 15, 1999. The licensee receives a unique identification number from NICS on that date, the Form 4473 is executed by the licensee, and the firearm is transferred. On February 20, 1999, the purchaser returns to the licensee’s premises and wishes to purchase a second firearm. The purchase of the second firearm is a separate transaction; thus, a new NICS check must be initiated by the licensee.

(d) Exceptions to NICS check. The provisions of paragraph (a) of this section shall not apply if—

(1) The transferee has presented to the licensee a valid permit or license that—

(i) Allows the transferee to possess, acquire, or carry a firearm;

(ii) Was issued not more than 5 years earlier by the State in which the transfer is to take place; and

(iii) The law of the State provides that such a permit or license is to be issued only after an authorized government official has verified that the information available to such official does not indicate that possession of a firearm by the transferee would be in violation of Federal, State, or local law.

(2) The firearm is subject to the provisions of the National Firearms Act and has been approved for transfer under 27 CFR part 479; or

(3) On application of the licensee, in accordance with the provisions of § 478.150, the Director has certified that compliance with paragraph (a)(1) of this section is impracticable.

(e) The document referred to in paragraph (d)(1) of this section (or a copy thereof) shall be retained or the required information from the document shall be recorded on the firearms transaction record in accordance with the provisions of § 478.131.

(Approved by the Office of Management and Budget under control number 1512-0544)

§ 478.103 Posting of signs and written notification to purchasers of handguns.

(a) Each licensed importer, manufacturer, dealer, or collector who delivers a handgun to a nonlicensee shall provide such nonlicensee with written notification as described in paragraph (b) of this section.

(b) The written notification (ATF L 5300.2) required by paragraph (a) of this section shall state as follows:

(1) The misuse of handguns is a leading contributor to juvenile violence and fatalities.

(2) Safely storing and securing firearms away from children will help prevent the unlawful possession of handguns by juveniles, stop accidents, and save lives.

(3) Federal law prohibits, except in certain limited circumstances, anyone under 18 years of age from knowingly possessing a handgun, or any person from transferring a handgun to a person under 18.

(4) A knowing violation of the prohibition against selling, delivering, or otherwise transferring a handgun to a person under the age of 18 is, under certain circumstances, punishable by up to 10 years in prison.

FEDERAL LAW

The Gun Control Act of 1968, 18 U.S.C. Chapter 44, provides in pertinent part as follows:

18 U.S.C. 922(x)

(x)(1) It shall be unlawful for a person to sell, deliver, or otherwise transfer to a person who the transferor knows or has reasonable cause to believe is a juvenile—

(A) a handgun; or

(B) ammunition that is suitable for use only in a handgun.

(3) This subsection does not apply to—

(A) a temporary transfer of a handgun or ammunition to a juvenile or to the possession or use of a handgun or ammunition by a juvenile if the handgun and ammunition are possessed and used by the juvenile—

(i) in the course of employment, in the course of ranching or farming related to activities at the residence of the juvenile (or on property used for ranching or farming at which the juvenile, with the permission of the property owner or lessee, is performing activities related to the operation of the farm or ranch), target practice, hunting, or a course of instruction in the safe and lawful use of a handgun;

(ii) with the prior written consent of the juvenile’s parent or guardian who is not prohibited by Federal, State, or local law from possessing a firearm, except—

(I) during transportation by the juvenile of an unloaded handgun in a locked container directly from the place of transfer to a place at which an activity described in clause (i) is to take place and transportation by the juvenile of that handgun, unloaded and in a locked container, directly from the place at which such an activity took place to the transferor; or

(II) with respect to ranching or farming activities as described in clause (i) a juvenile may possess and use a handgun or ammunition with the prior written approval of the juvenile’s parent or legal guardian and at the direction of an adult who is not prohibited by Federal, State, or local law from possessing a firearm;

(iii) the juvenile has the prior written consent in the juvenile’s possession at all times when a handgun is in the possession of the juvenile; and

(iv) in accordance with State and local law;

(B) a juvenile who is a member of the Armed Forces of the United States or the National Guard who possesses or is armed with a handgun in the line of duty;
(C) a transfer by inheritance of title (but not possession) of a handgun or ammunition to a juvenile; or

(D) the possession of a handgun or ammunition by a juvenile taken in defense of the juvenile or other persons against an intruder into the residence of the juvenile or a residence in which the juvenile is an invited guest.

(4) A handgun or ammunition, the possession of which is transferred to a juvenile in circumstances in which the transferor is not in violation of this subsection shall not be subject to permanent confiscation by the Government if its possession by the juvenile subsequently becomes unlawful because of the conduct of the juvenile, but shall be returned to the lawful owner when such handgun or ammunition is no longer required by the Government for the purposes of investigation or prosecution.

(5) For purposes of this subsection, the term "juvenile" means a person who is less than 18 years of age.

(6)(A) In a prosecution of a violation of this subsection, the court shall require the presence of a juvenile defendant's parent or legal guardian at all proceedings.

(B) The court may use the contempt power to enforce subparagraph (A).

(C) The court may excuse attendance of a parent or legal guardian of a juvenile defendant at a proceeding in a prosecution of a violation of this subsection for good cause shown.

18 U.S.C. 924(a)(6)

(6)(A)(i) A juvenile who violates section 922(x) shall be fined under this title, imprisoned not more than 1 year, or both; and

(ii) if the person sold, delivered, or otherwise transferred a handgun or ammunition to a juvenile knowing or having reasonable cause to know that the juvenile intended to carry or otherwise possess or discharge or otherwise use the handgun or ammunition in the commission of a crime of violence, shall be fined under this title, imprisoned not more than 10 years, or both.

(c) This written notification shall be delivered to the nonlicensee on ATF I 5300.2, or in the alternative, the same written notification may be delivered to the nonlicensee on another type of written notification, such as a manufacturer's or importer's brochure accompanying the handgun; a manufacturer's or importer's operational manual accompanying the handgun; or a sales receipt or invoice applied to the handgun package or container delivered to a nonlicensee. Any written notification delivered to a nonlicensee other than on ATF I 5300.2 shall include the language set forth in paragraph (b) of this section in its entirety. Any written notification other than ATF I 5300.2 shall be legible, clear, and conspicuous, and the required language shall appear in type size no smaller than 10-point type.

(d) Except as provided in paragraph (f) of this section, each licensed importer, manufacturer, or dealer who delivers a handgun to a nonlicensee shall display at its licensed premises (including temporary business locations at gun shows) a sign as described in paragraph (e) of this section. The sign shall be displayed where customers can readily see it. Licensed importers, manufacturers, and dealers will be provided with such signs by ATF. Replacement signs may be requested from the ATF Distribution Center.

(e) The sign (ATF I 5300.1) required by paragraph (d) of this section shall state as follows:

(1) The misuse of handguns is a leading contributor to juvenile violence and fatalities.

(2) Safely storing and securing fire-arms away from children will help prevent the unlawful possession of handguns by juveniles, stop accidents, and save lives.

(3) Federal law prohibits, except in certain limited circumstances, anyone under 18 years of age from knowingly possessing a handgun, or any person from transferring a handgun to a person under 18.

(4) A knowing violation of the prohibition against selling, delivering, or otherwise transferring a handgun to a person under the age of 18 is, under certain circumstances, punishable by up to 10 years in prison.

Editor's Note:

ATF I 5300.2 provides the complete language of the statutory prohibitions and exceptions provided in 18 U.S.C. 922(x) and the penalty provisions of 18 U.S.C. 924(a)(6). The Federal firearms licensee posting this sign will provide customers with a copy of this publication upon request. Requests for additional copies of ATF I 5300.2 should be mailed to the ATF Distribution Center, P.O. Box 5950, Springfield, Virginia 22150–5950.

(f) The sign required by paragraph (d) of this section need not be posted on the premises of any licensed importer, manufacturer, or dealer whose only dispositions of handguns to nonlicensees are to nonlicensees who do not appear at the licensed premises and the dispositions otherwise comply with the provisions of this part.

Subpart G—Importation

§ 478.111 General.

(a) Section 922(a)(3) of the Act makes it unlawful, with certain exceptions not pertinent here, for any person other than a licensee to transport into or receive in the State where the person resides any firearm purchased or otherwise obtained by the person outside of that State. However, section 925(a)(4) provides a limited exception for the transportation, shipment, receipt, importation of certain firearms and ammunition by certain members of the United States Armed Forces. Section 922(1) of the Act makes it unlawful for any person knowingly to import or bring into the United States or any possession thereof any firearm or ammunition except as provided by section 925(d) of the Act, which section provides standards for importing or bringing firearms or ammunition into the United States. Section 925(d) also provides standards for importing or bringing firearm barrels into the United States. Accordingly, no firearm, firearm barrel, or ammunition may be imported or brought...
into the United States except as provided by this part.

(b) Where a firearm, firearm barrel, or ammunition is imported and the authorization for importation required by this subpart has not been obtained by the person importing same, such person shall:

(1) Store, at the person's expense, such firearm, firearm barrel, or ammunition at a facility designated by U.S. Customs or the Director of Industry Operations to await the issuance of the required authorization or other disposition; or

(2) Abandon such firearm, firearm barrel, or ammunition to the U.S. Government; or

(3) Export such firearm, firearm barrel, or ammunition.

(c) Any inquiry relative to the provisions or procedures under this subpart, other than that pertaining to the payment of customs duties or the release from Customs custody of firearms, firearm barrels, or ammunition authorized by the Director to be imported, shall be directed to the Director of Industry Operations for reply.

§ 478.112 Importation by a licensed importer.

(a) No firearm, firearm barrel, or ammunition shall be imported or brought into the United States by a licensed importer (as defined in § 478.11) unless the Director has authorized the importation of the firearm, firearm barrel, or ammunition.

(b) (1) An application for a permit, ATF Form 6—Part I, to import or bring a firearm, firearm barrel, or ammunition into the United States or a possession thereof under this section must be filed, in triplicate, with the Director. The application must be signed and dated and must contain the information requested on the form, including:

(i) The name, address, telephone number, and license number (including expiration date) of the importer;

(ii) The country from which the firearm, firearm barrel, or ammunition is to be imported;

(iii) The name and address of the foreign seller and foreign shipper;

(iv) A description of the firearm, firearm barrel, or ammunition to be imported, including:

(A) The name and address of the manufacturer;

(B) The type (e.g., rifle, shotgun, pistol, revolver and, in the case of ammunition only, ball, wadcuter, shot, etc.);

(C) The caliber, gauge, or size;

(D) The model;

(E) The barrel length, if a firearm or firearm barrel (in inches);

(F) The overall length, if a firearm (in inches);

(G) The serial number, if known;

(H) Whether the firearm is new or used;

(I) The quantity;

(J) The unit cost of the firearm, firearm barrel, or ammunition to be imported;

(v) The specific purpose of importation, including final recipient information if different from the importer;

(vi) Verification that if a firearm, it will be identified as required by this part; and

(vii)(A) If a firearm or ammunition imported or brought in for scientific or research purposes, a statement describing such purpose; or

(B) If a firearm or ammunition for use in connection with competition or training pursuant to Chapter 401 of Title 10, U.S.C., a statement describing such intended use; or

(C) If an unserviceable firearm (other than a machine gun) being imported as a curio or museum piece, a description of how it was rendered unserviceable and an explanation of why it is a curio or museum piece; or

(D) If a firearm other than a surplus military firearm, of a type that does not fall within the definition of a firearm under section 5845(a) of the Internal Revenue Code of 1954, and is for sporting purposes, an explanation of why the firearm is generally recognized as particularly suitable for or readily adaptable to sporting purposes; or

(E) If ammunition being imported for sporting purposes, a statement why the ammunition is particularly suitable for or readily adaptable to sporting purposes; or

(F) If a firearm barrel for a handgun, an explanation why the handgun is generally recognized as particularly suitable for or readily adaptable to sporting purposes.

(2)(i) If the Director approves the application, such approved application will serve as the permit to import the firearm, firearm barrel, or ammunition described therein, and importation of such firearms, firearm barrels, or ammunition may continue to be made by the licensed importer under the approved application (permit) during the period specified thereon. The Director will furnish the approved application (permit) to the applicant and retain two copies thereof for administrative use.

(ii) If the Director disapproves the application, the licensed importer will be notified of the basis for the disapproval.

(c) A firearm, firearm barrel, or ammunition imported or brought into the United States or a possession thereof under the provisions of this section by a licensed importer may be released from Customs custody to the licensed importer upon showing that the importer has obtained a permit from the Director for the importation of the firearm, firearm barrel, or ammunition to be released. The importer will also submit to Customs a copy of the export license authorizing the export of the firearm, firearm barrel, or ammunition from the exporting country. If the exporting country does not require issuance of an export license, the importer must submit a certification, under penalty of perjury, to that effect.

(1) In obtaining the release from Customs custody of a firearm, firearm barrel, or ammunition authorized by this section to be imported through the use of a permit, the licensed importer will prepare ATF Form 6A, in duplicate, and furnish the original ATF Form 6A to the Customs officer releasing the firearm, firearm barrel, or ammunition. The Customs officer will, after certification, forward the ATF Form 6A to the address specified on the form.

(2) The ATF Form 6A must contain the information requested on the form, including:

(i) The name, address, and license number of the importer;

(ii) The name of the manufacturer of the firearm, firearm barrel, or ammunition;

(iii) The country of manufacture;

(iv) The type;
lease from Customs custody, the licensed importer must:

(1) Forward to the address specified on the form a copy of ATF Form 6A on which must be reported any error or discrepancy appearing on the ATF Form 6A certified by Customs and serial numbers if not previously provided on ATF Form 6A;

(2) Pursuant to § 478.92, place all required identification data on each imported firearm if same did not bear such identification data at the time of its release from Customs custody; and

(3) Post in the records required to be maintained by the importer under subpart H of this part all required information regarding the importation.

(Paragraph (b) approved by the Office of Management and Budget under control number 1512–0017; paragraphs (c) and (d) approved by the Office of Management and Budget under control number 1512–0019)

§ 478.113 Importation by other licensees.

(a) No person other than a licensed importer (as defined in § 478.11) shall engage in the business of importing firearms or ammunition. Therefore, no firearm or ammunition shall be imported or brought into the United States or a possession thereof by any licensee other than a licensed importer unless the Director issues a permit authorizing the importation of the firearm or ammunition. No barrel for a handgun not generally recognized as particularly suitable for or readily adaptable to sporting purposes shall be imported or brought into the United States or a possession thereof by any person. Therefore, no firearm barrel shall be imported or brought into the United States or possession thereof by any licensee other than a licensed importer unless the Director issues a permit authorizing the importation of the firearm barrel.

(b) (1) An application for a permit, ATF Form 6—Part I, to import or bring a firearm, firearm barrel, or ammunition into the United States or a possession thereof by a licensee, other than a licensed importer, must be filed, in triplicate, with the Director. The application must be signed and dated and must contain the information requested on the form, including:

(i) The name, address, telephone number, and license number (including expiration date) of the applicant;

(ii) The country from which the firearm, firearm barrel, or ammunition is to be imported;

(iii) The name and address of the foreign seller and foreign shipper;

(iv) A description of the firearm, firearm barrel, or ammunition to be imported, including:

(A) The name and address of the manufacturer;

(B) The type (e.g., rifle, shotgun, pistol, revolver and, in the case of ammunition only, ball, wadcutter, shot, etc.);

(C) The caliber, gauge, or size;

(D) The model;

(E) The barrel length, if a firearm or firearm barrel (in inches);

(F) The overall length, if a firearm (in inches);

(G) The serial number, if known;

(H) Whether the firearm is new or used;

(I) The quantity;

(J) The unit cost of the firearm, firearm barrel, or ammunition to be imported;

(v) The specific purpose of importation, including final recipient information if different from the applicant; and

(vi) (A) If a firearm or ammunition imported or brought in for scientific or research purposes, a statement describing such purpose; or

(B) If a firearm or ammunition for use in connection with competition or training pursuant to Chapter 401 of Title 10, U.S.C., a statement describing such intended use; or

(C) If an unserviceable firearm (other than a machine gun) being imported as a curio or museum piece, a description of how it was rendered unserviceable and an explanation of why it is a curio or museum piece; or

(D) If a firearm other than a surplus military firearm, of a type that does not fall within the definition of a firearm under section 5845(a) of the Internal Revenue Code of 1986, and is for sporting purposes, an explanation of why the firearm is generally recognized as particularly suitable for or readily adaptable to sporting purposes; or

(E) If ammunition being imported for sporting purposes, a statement why the ammunition is particularly suitable for or readily adaptable to sporting purposes; or

(F) If a firearm barrel, for a handgun, an explanation why the handgun is generally recognized as particularly suitable for or adequately adaptable to sporting purposes.

(2)(i) If the Director approves the application, such approved application will serve as the permit to import the firearm, firearm barrel, or ammunition described therein, and importation of such firearms, firearm barrels, or ammunition may continue to be made by the applicant under the approved application (permit) during the period specified thereon. The Director will furnish the approved application (permit) to the applicant and retain two copies thereof for administrative use.

(ii) If the Director disapproves the application, the applicant will be notified of the basis for the disapproval.

(c) A firearm, firearm barrel, or ammunition imported or brought into the United States or a possession thereof under the provisions of this section may be released from Customs custody to the licensee upon showing that the licensee has obtained a permit from the Director for the importation of the firearm, firearm barrel, or ammunition to be released.

(1) In obtaining the release from Customs custody of a firearm, firearm barrel, or ammunition authorized by this section to be imported through the use of a permit, the licensee will prepare ATF Form 6A, in duplicate, and furnish the original ATF Form 6A to the Customs officer releasing the firearm, firearm barrel, or ammunition. The Customs officer will, after certification, forward the ATF Form 6A to the address specified on the form.

(2) The ATF Form 6A must contain the information requested on the form, including:

(i) The name, address, and license number of the licensee;
§ 478.113a Importation of firearm barrels by nonlicensees.

(a) A permit will not be issued for a firearm barrel for a handgun not generally recognized as particularly suitable for or readily adaptable to sporting purposes. No firearm barrel shall be imported or brought into the United States or possession thereof by any nonlicensee unless the Director issues a permit authorizing the importation of the firearm barrel.

(b)(1) An application for a permit, ATF Form 6—Part I, to import or bring a firearm barrel into the United States or a possession thereof shall be signed and dated and must contain the information requested on the form, including:

(i) The name, address, and telephone number of the applicant;

(ii) The country of manufacture;

(iv) The type;

(v) The model;

(vi) The caliber, gauge, or size;

(vii) The serial number in the case of firearms; and

(viii) The number of firearms, firearm barrels, or rounds of ammunition released.

(Paragraph (b) approved by the Office of Management and Budget under control number 1512–0017; paragraph (c) approved by the Office of Management and Budget under control number 1512–0019)

§ 478.114 Importation by members of the U.S. Armed Forces.

(a) The Director may issue a permit authorizing the importation of a firearm or ammunition into the United States to the place of residence of any military member of the U.S. Armed Forces who is on active duty outside the United States, or who has been on active duty outside the United States within the 60-day period immediately preceding the intended importation: Provided, That such firearm or ammunition is generally recognized as particularly suitable for or readily adaptable to sporting purposes and is intended for the personal use of such member.

(1) An application for a permit, ATF Form 6—Part II, to import a firearm or ammunition into the United States under this section must be filed, in triplicate, with the Director. The application must be signed and dated and must contain the information requested on the form, including:

(i) The name, current address, and telephone number of the applicant;

(ii) Certification that the transportation, receipt, or possession of the firearm or ammunition to be imported would not constitute a violation of any provision of the Act or of any State law or local ordinance at the place of the applicant's residence;

(iii) The country from which the firearm or ammunition is to be imported;

(iv) A description of the firearm or ammunition to be imported, including:

(A) The name and address of the manufacturer;

(B) The type (e.g., rifle, shotgun, pistol, revolver);

(C) The caliber, gauge, or size;

(D) The model;

(E) The barrel length (in inches);

(F) The quantity;

(G) The unit cost of the firearm barrel;

(v) The specific purpose of importation, including final recipient information if different from the importer; and

(vi) If a handgun barrel, an explanation of why the barrel is for a handgun that is generally recognized as particularly suitable for or readily adaptable to sporting purposes.

(2)(i) If the Director approves the application, such approved application will serve as the permit to import the firearm barrel, and importation of such firearm barrels may continue to be made by the applicant under the approved application (permit) during the period specified thereon. The Director will furnish the approved application (permit) to the applicant and retain two copies thereof for administrative use.

(ii) If the Director disapproves the application, the applicant will be notified of the basis for the disapproval.

(c) A firearm barrel imported or brought into the United States or a possession thereof under the provisions of this section may be released from Customs custody of a firearm barrel authorized by this section to be imported:

(1) In obtaining the release from Customs custody of a firearm barrel authorized by this section to be imported through the use of a permit, the person importing the firearm barrel will prepare ATF Form 6A, in duplicate, and furnish the original ATF Form 6A to the Customs officer releasing the firearm barrel. The Customs officer will, after certification, forward the ATF Form 6A to the address specified on the form.

(2) The ATF Form 6A must contain the information requested on the form, including:

(i) The name and address of the person importing the firearm barrel;

(ii) The name of the manufacturer of the firearm barrel;

(iii) The country of manufacture;

(iv) The type;

(v) The model;

(vi) The caliber or gauge of the firearm barrel so released; and

(vii) The number of firearm barrels released.

(Paragraph (b) approved by the Office of Management and Budget under control number 1512–0017; paragraph (c) approved by the Office of Management and Budget under control number 1512–0019)
(E) The barrel length, if a firearm (in inches);

(F) The overall length, if a firearm (in inches);

(G) The serial number;

(H) Whether the firearm is new or used;

(I) The quantity;

(J) The unit cost of the firearm or ammunition imported;

(vi) The specific purpose of importation, that is —

(A) That the firearm or ammunition being imported is for the personal use of the applicant; and

(B) If a firearm, a statement that it is not a surplus military firearm, that it does not fall within the definition of a firearm under section 5845(a) of the Internal Revenue Code of 1986, and an explanation of why the firearm is generally recognized as particularly suitable for or readily adaptable to sporting purposes; or

(C) If ammunition, a statement why it is generally recognized as particularly suitable for or readily adaptable to sporting purposes; and

(vii) The applicant’s date of birth;

(viii) The applicant’s rank or grade;

(ix) The applicant’s place of residence;

(x) The applicant’s present foreign duty station or last foreign duty station, as the case may be;

(xi) The date of the applicant’s reassignment to a duty station within the United States, if applicable; and

(xii) The military branch of which the applicant is a member.

(2)(i) If the Director approves the application, such approved application will serve as the permit to import the firearm or ammunition described therein. The Director will furnish the approved application (permit) to the applicant and retain two copies thereof for administrative use.

(ii) If the Director disapproves the application, the applicant will be notified of the basis for the disapproval.

(b) Except as provided in paragraph (b)(3) of this section, a firearm or ammunition imported into the United States under the provisions of this section by the applicant may be released from Customs custody to the applicant upon showing that the applicant has obtained a permit from the Director for the importation of the firearm or ammunition to be released.

(1) In obtaining the release from Customs custody of a firearm or ammunition authorized by this section to be imported through the use of a permit, the military member of the U.S. Armed Forces will prepare ATF Form 6A and furnish the completed form to the Customs officer releasing the firearm or ammunition. The Customs officer will, after certification, forward the ATF Form 6A to the address specified on the form.

(2) The ATF Form 6A must contain the information requested on the form, including:

(i) The name and address of the military member;

(ii) The name of the manufacturer of the firearm or ammunition;

(iii) The country of manufacture;

(iv) The type;

(v) The model;

(vi) The caliber, gauge, or size;

(vii) The serial number in the case of firearms; and

(viii) If applicable, the number of firearms or rounds of ammunition released.

(3) When such military member is on active duty outside the United States, the military member may appoint, in writing, an agent to obtain the release of the firearm or ammunition from Customs custody for such member. Such agent will present sufficient identification of the agent and the written authorization to act on behalf of such military member to the Customs officer who is to release the firearm or ammunition.

(c) Firearms determined by the Department of Defense to be war souvenirs may be imported into the United States by the military members of the U.S. Armed Forces under such provisions and procedures as the Department of Defense may issue.

Paragraph (a) approved by the Office of Management and Budget under control number 1512–0018; paragraph (b) approved by the Office of Management and Budget under control number 1512–0019.

§ 478.115 Exempt importation.

(a) Firearms and ammunition may be brought into the United States or any possession thereof by any person who can establish to the satisfaction of Customs that such firearm or ammunition was previously taken out of the United States or any possession thereof by such person. Registration on Customs Form 4457 or on any other registration document available for this purpose may be completed before departure from the United States at any U.S. customhouse or any office of a Director of Industry Operations. A bill of sale or other commercial document showing transfer of the firearm or ammunition in the United States to such person also may be used to establish proof that the firearm or ammunition was taken out of the United States by such person. Firearms and ammunition furnished under the provisions of section 925(a)(3) of the Act to military members of the U.S. Armed Forces on active duty outside of the United States also may be imported into the United States or any possession thereof by such military members upon establishing to the satisfaction of Customs that such firearms and ammunition were so obtained.

(b) Firearms, firearm barrels, and ammunition may be imported or brought into the United States by or for the United States or any department or agency thereof, or any State or any department, agency, or political subdivision thereof. A firearm, firearm barrel or ammunition imported or brought into the United States under this paragraph may be released from Customs custody upon a showing that the firearm, firearm barrel or ammunition is being imported or brought into the United States by or for such a governmental entity.

(c) The provisions of this subpart shall not apply with respect to the importation into the United States of any antique firearm.

(d) Firearms and ammunition are not imported into the United States, and the provisions of this subpart shall not apply, when such firearms and ammunition are brought into the United States by:

(1) A nonresident of the United States for legitimate hunting or lawful sporting purposes, and such firearms and such ammunition as remains following such shooting activity are to be taken back out of the territorial limits of the United States by such person upon conclusion of the shooting activity;

(2) Foreign military personnel on offi-
The Director may impose conditions upon any importation under this section including a requirement that the firearm, firearm barrel, ammunition, or ammunition feeding device be shipped directly from Customs custody to the Director and that the person importing or bringing in the firearm, firearm barrel, ammunition, or ammunition feeding device must agree to either export the firearm, firearm barrel, ammunition, or ammunition feeding device or destroy same if a determination is made that the firearm, firearm barrel, ammunition, or ammunition feeding device may not be imported or brought in under this part. A firearm, firearm barrel, ammunition, or ammunition feeding device imported or brought into the United States or any possession thereof under the provisions of this section shall be released from Customs custody upon the payment of customs duties, if applicable, and in the manner prescribed in the conditional authorization issued by the Director.

Editor’s Note:

The references to “ammunition feeding device” in section 478.116 are not applicable on or after September 13, 2004.

§ 478.117 Function outside a customs territory.

In the insular possessions of the United States outside customs territory, the functions performed by U.S. Customs officers under this subpart within a customs territory may be performed by the appropriate authorities of a territorial government or other officers of the United States who have been designated to perform such functions. For the purpose of this subpart, the term customs territory means the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

§ 478.118 Importation of certain firearms classified as curios or relics.

Notwithstanding any other provision of this part, a licensed importer may import all rifles and shotguns classified by the Director as curios or relics, and all handguns classified by the Director as curios or relics that are determined to be generally recognized as particularly suitable for or readily adaptable to sporting purposes. The importation of such curio or relic firearms must be in accordance with the applicable importation provisions of this part and the importation provisions of 27 CFR part 447. Curios or relics which fall within the definition of "firearm" under 26 U.S.C. 5845(a) must also meet the importation provisions of 27 CFR part 479 before they may be imported.

§ 478.119 Importation of ammunition feeding devices.

(a) No ammunition feeding device shall be imported or brought into the United States unless the Director has authorized the importation of such device.

(b) For purposes of this section, an "ammunition feeding device" is a magazine, belt, drum, feed strip, or similar device for a firearm that has a capacity of, or that can be readily restored or converted to accept, more than 10 rounds of ammunition. The term does not include an attached tubular device designed to accept, and capable of operating only with, .22 caliber rimfire ammunition, or a fixed device for a manually operated firearm, or a fixed device for a firearm listed in 18 U.S.C. 922, Appendix A.

(c) An application for a permit, ATF Form 6, to import or bring an ammunition feeding device into the United States or a possession thereof under this section shall be filed, in triplicate, with the Director. The application shall contain:

1. The name and address of the person importing the device,

2. A description of the device to be imported, including type and cartridge capacity, model and caliber of firearm for which the device was made, country of manufacture, and name of the manufacturer if known,

3. The unit cost of the device to be imported,

4. The country from which to be imported,

5. The name and address of the foreign seller and the foreign shipper,

6. Verification that such device will be marked as required by this part, and

7. A statement by the importer that the device is being imported for sale to purchasers specified in § 478.40a(b) or physical or reasonable documentary evidence establishing that the magazine was manufactured on or before September 13, 1994. Any one of the following examples, which are not meant to be exhaustive, may be sufficient to establish the time of manufacture:

   (i) Permanent markings or physical characteristics which establish that the magazine was manufactured on or before September 13, 1994;

   (ii) A certification from the importer, under penalty of perjury, that the importer maintained continuous custody beginning on a date prior to September 14, 1994, and continuing until the date of the certification. Such
certification shall also be supported by reasonable documentary evidence, such as commercial records;

(iii) A certification from the importer, under penalty of perjury, that the magazine was in the custody and control of a foreign Government on or before September 13, 1994, along with reasonable documentary evidence to support the certification; or

(iv) A certification from the importer, under penalty of perjury, that the magazine was in the possession of a foreign arms supplier on or before September 13, 1994, along with reasonable documentary evidence to support the certification.

(d) The Director shall act upon applications to import ammunition feeding devices as expeditiously as possible. If the Director approves the application, such approved application shall serve as the permit to import the device described therein, and importation of such devices may continue to be made by the person importing such devices under the approved application (permit) during the period specified thereon. The Director shall furnish the approved application (permit) to the applicant and retain two copies thereof for administrative use. If the Director disapproves the application, the person importing such devices shall be notified of the basis for the disapproval.

(e) An ammunition feeding device imported or brought into the United States by a person importing such a device may be released from Customs custody to the person importing such a device upon showing that such person has obtained a permit from the Director for the importation of the device to be released. In obtaining the release from Customs custody of such a device authorized by this section to be imported through use of a permit, the person importing such a device shall prepare ATF Form 6A, in duplicate, and furnish the original ATF Form 6A to the Customs officer releasing the device. The Customs officer shall, after certification, forward the ATF Form 6A to the address specified on the form. The ATF Form 6A shall show the name and address of the person importing the device, the name of the manufacturer of the device, the country of manufacture, the type, model, caliber, size, and the number of devices released.

(f) Within 15 days of the date of release from Customs custody, the person importing such a device shall:

(1) Forward to the address specified on the form a copy of ATF Form 6A on which shall be reported any error or discrepancy appearing on the ATF Form 6A certified by Customs, and

(2) Pursuant to § 478.92, place all required identification data on each imported device manufactured after September 13, 1994, if same did not bear such identification data at the time of its release from Customs custody.

(g) The Director may authorize the conditional importation of an ammunition feeding device as provided in § 478.116.

(Paragraphs (a), (c), and (d) approved by the Office of Management and Budget under control numbers 1512–0017 and 1512–0018; paragraphs (e) and (f) approved by the Office of Management and Budget under control number 1512–0019)

---

Editor’s Note:
An import permit is still needed for ammunition feeding devices pursuant to the Arms Export Control Act – see 27 CFR 447.41(a).

§ 478.120 Firearm or ammunition imported by or for a nonimmigrant alien.

(a) Any nonimmigrant alien who completes an ATF Form 6 to import firearms or ammunition into the United States, or any licensee who completes an ATF Form 6 to import firearms or ammunition for a nonimmigrant alien, must attach applicable documentation to the Form 6 (e.g., a hunting license or permit lawfully issued in the United States; waiver) establishing the nonimmigrant alien falls within an exception to or has obtained a waiver from the nonimmigrant alien prohibition.

(b) Nonimmigrant aliens importing or bringing firearms or ammunition into the United States must provide the United States Customs Service with applicable documentation (e.g., a hunting license or permit lawfully issued in the United States; waiver) establishing the nonimmigrant alien falls within an exception to or has obtained a waiver from the nonimmigrant alien prohibition before the firearm or ammunition may be imported. This provision applies in all cases, whether or not a Form 6 is needed to bring the firearms or ammunition into the United States.

(Approved by the Office of Management and Budget under control number 1512–0570)

Subpart H—Records

§ 478.121 General.

(a) The records pertaining to firearms transactions prescribed by this part shall be retained on the licensed premises in the manner prescribed by this subpart and for the length of time prescribed by § 478.129. The records pertaining to ammunition prescribed by this part shall be retained on the licensed premises in the manner prescribed by § 478.125.

(b) ATF officers may, for the purposes and under the conditions prescribed in § 478.23, enter the premises of any licensed importer, licensed manufacturer, licensed dealer, or licensed collector for the purpose of examining or inspecting any record or document required by or obtained under this part. Section 923(g) of the Act requires licensed importers, licensed manufacturers, licensed dealers, and licensed collectors to make such records available for such examination or inspection during business hours or, in the case of licensed collectors, hours of operation, as provided in § 478.23.

(c) Each licensed importer, licensed manufacturer, licensed dealer, and licensed collector shall maintain such records of importation, production, shipment, receipt, sale, or other disposition, whether temporary or permanent, of firearms and such records of the disposition of ammunition as the regulations contained in this part prescribe. Section 922(m) of the Act makes it unlawful for any licensed importer, licensed manufacturer, licensed dealer, or licensed collector knowingly to make any false entry in, to fail to make appropriate entry in, or to fail to properly maintain any such record.

(d) For recordkeeping requirements for sales by licensees at gun shows see § 478.100(c).

(Information collection requirements in paragraph (a) approved by the Office of Management and Budget under control number 1512–0129; information collection requirements in paragraphs (b) and (c) approved by the Office of Management and Budget under control number 1512–0387)

§ 478.122 Records maintained by importers.

(a) Each licensed importer shall, within 15 days of the date of importation or other acquisition, record the type, model, caliber or gauge, manufacturer, country of manufacture, and the serial number of each firearm imported or otherwise acquired, and the date such importation or other acquisition was made.

(b) A record of firearms disposed of by a licensed importer to another licensee and a separate record of arms or ammunition dispositions to governmental entities, for exportation, or for testing or experimentation authorized under the provisions of § 478.149 shall be maintained by the licensed importer on the licensed premises. For firearms, the record shall show the quantity, type, manu-
Each licensed manufacturer shall record the type, model, caliber or gauge, and serial number of each complete firearm manufactured or otherwise acquired, and the date such manufacture or other acquisition was made. The information required by this paragraph shall be recorded not later than the seventh day following the date such manufacture or other acquisition was made.

(b) A record of firearms disposed of by a manufacturer to another licensee and a separate record of armor piercing ammunition dispositions to governmental entities, for exportation, or for testing or experimentation authorized under the provision of § 478.149 shall be maintained by the licensed manufacturer on the licensed premises. For firearms, the record shall show the quantity, type, model, manufacturer, caliber, size or gauge, serial number of the firearms so transferred, the name and license number of the licensee to whom the firearms were transferred, and the date of the transaction. For armor piercing ammunition, the record shall show the manufacturer, caliber or gauge, quantity, the name and address of the transferee to whom the armor piercing ammunition was transferred, and the date of the transaction. The information required by this paragraph shall be entered in the proper record book not later than the seventh day following the date of the transaction, and such information shall be recorded under the format prescribed by § 478.122, except that the name of the manufacturer of a firearm or armor piercing ammunition need not be recorded if the firearm or armor piercing ammunition is of the manufacturer's own manufacture.

(c) Notwithstanding the provisions of paragraph (b) of this section, the Director of Industry Operations may authorize alternate records to be maintained by a licensed importer to record the disposal of firearms and armor piercing ammunition when it is shown by the licensed importer that such alternate records will accurately and readily disclose the information required by paragraph (b) of this section. A licensed importer who proposes to use alternate records shall submit a letter application, in duplicate, to the Director of Industry Operations and shall describe the proposed alternate records and the need therefor. Such alternate records shall not be employed by the licensed importer until approval in such regard is received from the Director of Industry Operations.

(d) Each licensed importer shall maintain separate records of the sales or other dispositions made of firearms to nonlicensees. Such records shall be maintained in the form and manner as prescribed by §§ 478.124 and 478.125 in regard to firearms transaction records and records of acquisition and disposition of firearms.

(Approved by the Office of Management and Budget under control number 1512–0387)

§ 478.123 Records maintained by manufacturers.

(a) Each licensed manufacturer shall record the type, model, caliber or gauge, and serial number of each complete firearm manufactured or otherwise acquired, and the date such manufacture or other acquisition was made. The information required by this paragraph shall be recorded not later than the seventh day following the date such manufacture or other acquisition was made.

(b) A record of firearms disposed of by a manufacturer to another licensee and a separate record of armor piercing ammunition dispositions to governmental entities, for exportation, or for testing or experimentation authorized under the provision of § 478.149 shall be maintained by the licensed manufacturer on the licensed premises. For firearms, the record shall show the quantity, type, model, manufacturer, caliber, size or gauge, serial number of the firearms so transferred, the name and license number of the licensee to whom the firearms were transferred, and the date of the transaction. For armor piercing ammunition, the record shall show the manufacturer, caliber or gauge, quantity, the name and address of the transferee to whom the armor piercing ammunition was transferred, and the date of the transaction. The information required by this paragraph shall be entered in the proper record book not later than the seventh day following the date of the transaction, and such information shall be recorded under the format prescribed by § 478.122, except that the name of the manufacturer of a firearm or armor piercing ammunition need not be recorded if the firearm or armor piercing ammunition is of the manufacturer's own manufacture.

(c) Notwithstanding the provisions of paragraph (b) of this section, the Director of Industry Operations may authorize alternate records to be maintained by a licensed importer to record the disposal of firearms and armor piercing ammunition when it is shown by the licensed manufacturer that such alternate records will accurately and readily disclose the information required by paragraph (b) of this section. A licensed manufacturer who proposes to use alternate records shall submit a letter application, in duplicate, to the Director of Industry Operations and shall describe the proposed alternate record and the need therefor. Such alternate records shall not be employed by the licensed manufacturer until approval in such regard is received from the Director of Industry Operations.

(d) Each licensed manufacturer shall maintain separate records of the sales or other dispositions made of firearms to nonlicensees. Such records shall be maintained in the form and manner as prescribed by §§ 478.124 and 478.125 in regard to firearms transaction records and records of acquisition and disposition of firearms.

(Approved by the Office of Management and Budget under control number 1512–0386)

§ 478.124 Firearms transaction record.

(a) A licensed importer, licensed manufacturer, or licensed dealer shall not sell or otherwise dispose, temporarily or permanently, of any firearm to any person, other than another licensee, unless the licensee records the transaction on a firearms transaction record, Form 4473. Provided, That a firearms transaction record, Form 4473, shall not be required to record the disposition made of a firearm delivered to a licensee for the sole purpose of repair or customizing when such firearm or a replacement firearm is returned to the person from whom received.

(b) A licensed manufacturer, licensed importer, or licensed dealer shall retain in alphabetical (by name of purchaser), chronological (by date of disposition), or numerical (by transaction serial number) order, and as a part of the required records, each Form 4473 obtained in the course of transferring custody of the firearms.

(c) (1) Prior to making an over-the-counter transfer of a firearm to a nonlicen-

see who is a resident of the State in which
the licensee's business premises is lo-
cated, the licensed importer, licensed
manufacturer, or licensed dealer so trans-
ferring the firearm shall obtain a Form
4473 from the transferee showing the
transferee's name, sex, residence address
(including county or similar political sub-
division), date and place of birth; height,
weight and race of the transferee; the
transferee's country of citizenship; the
transferee's INS-issued alien number or
admission number; the transferee's State
of residence; and certification by the trans-
feree that the transferee is not prohibited
by the Act from transporting or shipping a
firearm in interstate or foreign commerce
or receiving a firearm which has been
shipped or transported in interstate or
foreign commerce or possessing a firearm
in or affecting commerce.

(2) In order to facilitate the transfer of
a firearm and enable NICS to verify the
identity of the person acquiring the fire-
arm, ATF Form 4473 also requests cer-
tain optional information. This
information includes the transferee's
social security number. Such informa-
tion may help avoid the possibility of the
transferee being misidentified as a felon
or other prohibited person.

(3) After the transferee has executed
the Form 4473, the licensee:

(i) Shall verify the identity of the
transferee by examining the identifi-
cation document (as defined in
§ 478.11) presented, and shall note
on the Form 4473 the type of identifi-
cation used;

(ii) Shall, in the case of a transfere-
eree who is an alien legally in the
United States, cause the transferee to
present documentation establishing
that the transferee is a resident of the
State (as defined in § 478.11) in
which the licensee's business prem-
ises is located, and shall note on the
form the documentation used. Ex-
amples of acceptable documentation in-
clude utility bills or a lease agreement
which show that the transferee has
resided in the State continuously for
at least 90 days prior to the transfer of
the firearm; and

(iii) Must, in the case of a trans-
ferree who is a nonimmigrant alien
who states that he or she falls within
an exception to, or has a waiver from,
the nonimmigrant alien prohibition,
have the transferee present applica-
table documentation establishing the
exception or waiver, note on the Form
4473 the type of documentation pro-
vided, and attach a copy of the
documentation to the Form 4473.

(iv) Shall comply with the require-
ments of § 478.102 and record on the
form the date on which the licensee
contacted the NICS, as well as any
response provided by the system, in-
cluding any identification number pro-
vided by the system.

(4) The licensee shall identify the
firearm to be transferred by listing on
the Form 4473 the name of the manu-
ufacturer, the name of the importer (if
any), the type, model, caliber or gauge,
and the serial number of the firearm.

(5) The licensee shall sign and date
the form if the transferee does not know
or have reasonable cause to believe
that the transferee is disqualified by law
from receiving the firearm and transfer
the firearm described on the Form 4473.

(d) Prior to making an over-the-counter
transfer of a shotgun or rifle under the
provisions contained in § 478.96(c) to a
nonlicensee who is not a resident of the
State in which the licensee's business
premises is located, the licensee so trans-
ferring the shotgun or rifle, and such trans-
feree, shall comply with the requiremen-
t of paragraph (c) of this section: Provided,
That in the case of a transferee who is an
alien legally in the United States, the
documentation required by paragraph
(c)(3)(ii) of this section need only establish
that the transferee is a resident of any
State and has resided in such State con-
tinuously for at least 90 days prior to the
transfer of the firearm. Examples of ac-
ceptable documentation include utility bills
or a lease agreement. The licensee shall
note on the form the documentation used.

(e) Prior to making a transfer of a fire-
arm to any nonlicensee who is not a resi-
dent of the State in which the licensee's
business premises is located, and such
nonlicensee is acquiring the firearm by
loan or rental from the licensee for tempo-
rary use for lawful sporting purposes, the
licensed importer, licensed manufacturer,
or licensed dealer so furnishing the fire-
arm, and such transferee, shall comply
with the provisions of paragraph (c) of
this section, except for the provisions of
paragraph (c)(3)(ii).

(f) Form 4473 shall be submitted, in
duplicate, to a licensed importer, licensed
manufacturer, or licensed dealer by a
transferee who is purchasing or other-
wise acquiring a firearm by other than an
over-the-counter transaction, who is not subject
to the provisions of § 478.102(a), and who
is a resident of the State in which the li-
censee's business premises are located.
The Form 4473 shall show the name, ad-
dress, date and place of birth, height,
weight, and race of the transferee; and the
title, name, and address of the principal
law enforcement officer of the locality to
which the firearm will be delivered. The
transferee also must date and execute the
sworn statement contained on the form
showing, in case the firearm to be trans-
ferrer is a firearm other than a shotgun or
rifle, the transferee is 21 years or more of
age; in case the firearm to be transferred
is a shotgun or rifle, the transferee is 18
years or more of age; whether the trans-
feree is a citizen of the United States; the
transferee's State of residence, and in the
case of a transferee who is an alien legally
in the United States, the transferee has
resided in that State continuously for at
least 90 days prior to the transfer of the
firearm; the transferee is not prohibited
by the provisions of the Act from shipping
or transporting a firearm in interstate or for-
eign commerce or receiving a firearm
which has been shipped or transported in
interstate or foreign commerce or pos-
sessing a firearm in or affecting com-
merce; and the transferee's receipt of the
firearm would not be in violation of any
statute of the State or published ordinance
applicable to the locality in which the
transferee resides. Upon receipt of such
Forms 4473, the licensee shall identify the
firearm to be transferred by listing in the
Forms 4473 the name of the manufac-
turer, the name of the importer if any),
the type, model, caliber or gauge, and the
serial number of the firearm to be trans-
ferrer. The licensee shall prior to shipment
or delivery of the firearm to such trans-
feree, forward by registered or certified
mail (return receipt requested) a copy of
the Form 4473 to the principal law en-
forcement officer named in the Form 4473
by the transferee, and shall delay ship-
ment or delivery of the firearm to the trans-
feree for a period of at least 7 days
following receipt by the licensee of the
return receipt evidencing delivery of the
copy of the Form 4473 to such principal
law enforcement officer, or the return of
the copy of the Form 4473 to the licensee
due to the refusal of such principal law
enforcement officer to accept same in
accordance with U.S. Postal Service regu-
lations. The original Form 4473, and evi-
dence of receipt or rejection of delivery of
the copy of the Form 4473 sent to the
principal law enforcement officer, shall be
retained by the licensee as a part of the
records required to be kept under this
subpart.

(g) A licensee who sells or otherwise
disposes of a firearm to a nonlicensee
who is other than an individual, shall ob-
tain from the transferee the information
required by this section from an individual
authorized to act on behalf of the trans-
feree. In addition, the licensee shall obtain
from the individual acting on behalf of the
transferee a written statement, executed
under the penalties of perjury, that the
firearm is being acquired for the use of
and will be the property of the transferee, and showing the name and address of that transferee.

(h) The requirements of this section shall be in addition to any other record-keeping requirement contained in this part.

(i) A licensee may obtain, upon request, an emergency supply of Forms 4473 from any Director of Industry Operations. For normal usage, a licensee should request a year’s supply from the ATF Distribution Center, 7943 Angus Court, Springfield, Virginia 22153.

(Paragraph (c) approved by the Office of Management and Budget under control numbers 1512–0544, 1512–0129, and 1512–0570; paragraph (f) approved by the Office of Management and Budget under control number 1512–0130; all other record-keeping approved by the Office of Management and Budget under control number 1512–0129)

§ 478.124a Firearms transaction record in lieu of record of receipt and disposition.

(a) A licensed dealer acquiring firearms after August 1, 1988 and contemplating the disposition of not more than 50 firearms within a succeeding 12-month period to licensees or nonlicensees may maintain a record of the acquisition and disposition of such firearms on a firearms transaction record, Form 4473(LV), Part I or II, in lieu of such firearms on a firearms transaction record, Form 4473(LV), Part I or II, associated with the sale or other disposition of a firearm to another licensee by entering on the Form 4473(LV), Part I or II, reflecting firearms possessed by such business in chronological (by date of receipt) or numerical (by transaction serial number) order. Forms 4473(LV) reflecting the licensee’s sale or disposition of firearms shall be retained in alphabetical (by name of purchaser), chronological (by date of disposition) or numerical (by transaction serial number) order.

(b) Each licensed dealer maintaining firearms acquisition and disposition records pursuant to this section shall record the purchase or other acquisition of a firearm on Form 4473(LV) pursuant to this section. A licensed dealer who maintains records pursuant to this section, but whose firearms dispositions exceed 50 firearms within such 12-month period, shall make and maintain the acquisition and disposition records required by § 478.125 with respect to each firearm exceeding 50.

(c) Each licensed dealer maintaining firearms acquisition and disposition records pursuant to this section shall retain Form 4473(LV), Part I or II, reflecting firearms possessed by such business in chronological (by date of receipt) or numerical (by transaction serial number) order. Forms 4473(LV) reflecting the licensee’s sale or disposition of firearms shall be retained in alphabetical (by name of purchaser), chronological (by date of disposition) or numerical (by transaction serial number) order.

(d) A licensed dealer maintaining records pursuant to this section shall record the sale or other disposition of a firearm to another licensee by entering on the Form 4473(LV), Part I, associated with such firearm, the name and license number of the person to whom transferred and by signing and dating the form.

(e) A licensed dealer shall obtain the Form 4473(LV), Part I, associated with the firearm in lieu of a Form 4473 and comply with the requirements specified in § 478.124 prior to making an over-the-counter transfer of a firearm to a nonlicensee:

1. Who is a resident of the State in which the licensee's business premises is located,
2. Who is not a resident of the State in which the licensee's business premises is located and the firearm is a shotgun or rifle and the transfer is under the provisions of § 478.96(c), or
3. Who is not a resident of the State in which the licensee's business premises is located and who is acquiring the firearm by loan or rental for temporary use for lawful sporting purposes.

(f) A licensed dealer shall obtain the Form 4473(LV), Part II, associated with the firearm in lieu of a Form 4473 and comply with the requirements specified in § 478.124(f) prior to making a disposition of a firearm to a nonlicensee who is purchasing or otherwise acquiring a firearm by other than an over-the-counter transaction and who is a resident of the State in which the licensee's business premises is located. If the licensee's record of the acquisition of the firearm is, at the time of the disposition, being maintained on a Form 4473(LV), Part I, for over-the-counter transactions, the licensee shall transfer the information relative to the receipt of the firearm, as required by paragraph (b) of this section, to Form 4473(LV), Part II. The corresponding form 4473(LV), Part I, may then be destroyed.

§ 478.125 Record of receipt and disposition.

(a) Armor piercing ammunition sales by licensed collectors to nonlicensees. The sale or other disposition of armor piercing ammunition by licensed collectors shall be recorded in a bound record at the time a transaction is made. The bound record shall be maintained in chronological order by date of sale or disposition of the armor piercing ammunition, and shall be retained on the licensed premises of the licensee for a period less than two years following the date of the recorded sale or disposition of the armor piercing ammunition. The bound record entry shall show:

1. The date of the transaction;
2. The name of the manufacturer;
3. The caliber or gauge;
4. The quantity of projectiles;
5. The name, address, and date of birth of the nonlicensee; and
6. The method used to establish the identity of the armor piercing ammunition purchaser. The format required for the bound record is as follows:

(Table 3)

However, when a commercial record is made at the time a transaction is made, a licensee may delay making an entry into the bound record if the provisions of paragraph (d) of this section are complied with.

(b) Armor piercing ammunition sales by licensed collectors to licensees. Sales or other dispositions of armor piercing ammunition from a licensed collector to another licensee shall be recorded and maintained in the manner prescribed in §478.122(b) for importers: Provided, That the license number of the transferee may be recorded in lieu of the transferee’s address.

(c) Armor piercing ammunition sales by licensed dealers to governmental entities. A record of armor piercing ammunition disposed of by a licensed dealer to a governmental entity pursuant to §478.99(e) shall be maintained by the licensed dealer on the licensed premises and shall show the name of the manufacturer, the caliber or gauge, the quantity, the name and address of the entity to which the armor piercing ammunition was transferred, and the date of the transaction. Such information shall be recorded under the format prescribed by §478.122(b). Each licensed dealer disposing of armor piercing ammunition pursuant to §478.99(e) shall also maintain a record showing the date of acquisition of such ammunition which shall be filed in an orderly manner separate from other commercial records maintained and be readily available for inspection. The records required by this paragraph shall be retained on the licensed premises of the licensee for a period not less than two years following the date of the recorded sale or disposition of the armor piercing ammunition.

(d) Commercial records of armor piercing ammunition transactions. When a commercial record is made at the time of sale or other disposition of armor piercing ammunition, and such record contains all information required by the bound record prescribed by paragraph (a) of this section, the licensed collector transferring the armor piercing ammunition may, for a period not exceeding 7 days following the date of such transfer, delay making the required entry into such bound record: Provided, That the commercial record pertaining to the transfer is:

(1) Maintained by the licensed collector separate from other commercial documents maintained by such licensee, and

(2) Is readily available for inspection on the licensed premises until such time as the required entry into the bound record is made.

(e) Firearms receipt and disposition by dealers. Except as provided in §478.124a with respect to alternate records for the receipt and disposition of firearms by dealers, each licensed dealer shall enter into a record each receipt and disposition of firearms. In addition, before commencing or continuing a firearms business, each licensed dealer shall inventory the firearms possessed for such business and shall record same in the record required by this paragraph. The record required by this paragraph shall be maintained in bound form under the format prescribed below. The purchase or other acquisition of a firearm shall, except as provided in paragraph (g) of this section, be recorded not later than the close of the next business day following the date of such purchase or acquisition. The record shall show the date of receipt, the name and address of the person to whom the firearm was transferred, or the firearms transaction record, the name and license number of the person from whom received, the name of the manufacturer and importer (if any), the model, serial number, type, and the caliber or gauge of the firearm. The sale or other disposition of a firearm shall be recorded by the licensed dealer not later than 7 days following the date of such transaction. When such disposition is made to a nonlicensee, the commercial record of the transaction shall be retained, until the transaction is recorded, separate from other commercial documents maintained by the licensee, and be readily available for inspection. The record shall show the date of the sale or other disposition of each firearm curio or relic, the name and address of the person to whom the firearm curio or relic is transferred, or the name and license number of the person to whom transferred if such person is a licensee, and the date of birth of the transferee if other than a licensee. In addition, the licensee shall—

(1) Cause the transferee, if other than a licensee, to be identified in any manner customarily used in commercial transactions (e.g., a driver’s license), and note on the record the method used, and

(2) In the case of a transferee who is an alien legally in the United States and who is other than a licensee—

(i) Verify the identity of the transferee by examining an identification document (as defined in §478.11), and

(ii) Cause the transferee to present documentation establishing that the transferee is a resident of the State (as defined in § 478.11) in which the licensee’s business premises is located if the firearm curio or relic is other than a shotgun or rifle, and note on the record the documentation used or is a resident of any State and has resided in such State continuously for at least 90 days prior to the transfer of the firearm if the firearm curio or relic is a shotgun or rifle and shall note on the record the documentation used. Examples of acceptable documentation include utility bills or a lease agreement which show that the transferee has resided in the State continuously for at least 90 days prior to the transfer of the firearm curio or relic.

(3) The format required for the record of receipt and disposition of firearms by collectors is as follows: (See Table 5)

| Commercial records of firearms received. When a commercial record is held by a licensed dealer or licensed collector showing the acquisition of a firearm or firearm curio or relic, and such record contains all acquisition information required by the bound record prescribed by paragraphs (e) and (f) of this section, the licensed dealer or licensed collector acquiring such firearm or curio or relic, may, for a period not exceeding 7 days following the date of such acquisition, delay making the required entry into such bound record: Provided, That the commercial record is, until such time as the required entry into the bound record is made, (1) maintained by the licensed dealer or licensed collector separate from other commercial documents maintained by such licensee, and (2) readily available for inspection on the licensed premises: Provided further, That when disposition is made of a firearm or firearm curio or relic not entered in the bound record under the provisions of this paragraph, the licensed dealer or licensed collector making such disposition shall enter all required acquisition information regarding the firearm or firearm curio or relic in the bound record at the time such transfer or disposition is made.

(h) Alternate records. Notwithstanding the provisions of paragraphs (a), (e), and (f) of this section, the Director of Industry Operations may authorize alternate records to be maintained by a licensed dealer or licensed collector to record the acquisition and disposition of firearms or curios or relics and the disposition of armor piercing ammunition when it is shown by the licensed dealer or the licensed collector that such alternate records will accurately and readily disclose the required information. A licensed dealer or licensed collector who proposes to use alternate records shall submit a letter application, in duplicate, to the Director of Industry Operations and shall describe the proposed alternate records and the need therefor. Such alternate records shall not be employed by the licensed dealer or licensed collector until approval in such regard is received from the Director of Industry Operations.

(i) Requirements for importers and manufacturers. Each licensed importer and licensed manufacturer selling or otherwise disposing of firearms or armor piercing ammunition to nonlicensees shall maintain such records of such transactions as are required of licensed dealers by this section.

(Approved by the Office of Management and Budget under control number 1512–0387)

§ 478.125a Personal firearms collection.

(a) Notwithstanding any other provision of this subpart, a licensed manufacturer, licensed importer, or licensed dealer is not required to comply with the provisions of § 478.102 or record on a firearms transaction record, Form 4473, the sale or other disposition of a firearm maintained as part of the licensee’s personal firearms collection: Provided, That (1) The licensee has maintained the firearm as part of such collection for 1 year from the date the firearm was transferred from the business inventory into the personal collection or otherwise acquired as a personal firearm, (2) The licensee recorded in the bound record prescribed by § 478.125(e) the receipt of the firearm into the business inventory or other acquisition, (3) The licensee recorded the firearm as a disposition in the bound record prescribed by § 478.125(e) when the firearm was transferred from the business inventory into the personal firearms collection or otherwise acquired as a personal firearm, and (4) The licensee enters the sale or other disposition of the firearm from the personal firearms collection into a bound record, under the format prescribed below, identifying the firearm transferred by recording the name of the manufacturer and importer (if any), the model, serial number, type, and the caliber or gauge, and showing the date of the sale or other disposition, the name and address of the transferee, or the name and business address of the transferee if such person is a licensee, and the date of birth of the transferee if other than a licensee. In addition, the licensee shall cause the transferee, if other than a licensee, to be identified in any manner customarily used in commercial transactions (e.g., a driver’s license). The format required for the disposition record of personal firearms is as follows: (See Table 6 on page 67)

(b) Any licensed manufacturer, licensed importer, or licensed dealer selling or otherwise disposing of a firearm from the licensee’s personal firearms collection under this section shall be subject to the restrictions imposed by the Act and this part on the dispositions of firearms by persons other than licensed manufacturers, licensed importers, and licensed dealers.

(Approved by the Office of Management and Budget under control number 1512–0387)

§ 478.126 Furnishing transaction information.

(a) Each licensee shall, when required by letter issued by the Director of Industry Operations, and until notified to the contrary in writing by such officer, submit on Form 4463, Report of Firearms Transac-

| Manufacturer and/or importer | Model | Serial No. | Type | Caliber or gauge | Date | Name and address or name and license No. | Date | Name and address or name and license No. | Date of birth if nonlicensee | Driver’s license No. or other identification if nonlicensee | For transfers to aliens, documentation used to establish residency |
tions, for the periods and at the times specified in the letter issued by the Director of Industry Operations, all record information required by this subpart, or such lesser record information as the Director of Industry Operations in his letter may specify.

(b) The Director of Industry Operations may authorize the information to be submitted in a manner other than that prescribed in paragraph (a) of this section when it is shown by a licensee that an alternate method of reporting is reasonably necessary and will not unduly hinder the effective administration of this part. A licensee who proposes to use an alternate method of reporting shall submit a letter application, in duplicate, to the Director of Industry Operations and shall describe the proposed alternate method of reporting and the need therefor. An alternate method of reporting shall not be employed by the licensee until approval in such regard is received from the Director of Industry Operations.

(Approved by the Office of Management and Budget under control number 1512–0387)

§ 478.126a Reporting multiple sales or other disposition of pistols and revolvers.

Each licensee shall prepare a report of multiple sales or other disposition whenever the licensee sells or otherwise disposes of, at one time or during any five or more consecutive business days, two or more pistols, or revolvers, or any combination of pistols and revolvers totaling two or more, to an unlicensed person: Provided, That a report need not be made where pistols or revolvers, or any combination thereof, are returned to the same person from whom they were received. The report shall be prepared on Form 3310.4, Report of Multiple Sale or Other Disposition of Pistols and Revolvers. Not later than the close of business on the day that the multiple sale or other disposition occurs, the licensee shall forward two copies of Form 3310.4 to the ATF office specified thereon and one copy to the State police or to the local law enforcement agency in which the sale or other disposition took place. Where the State or local law enforcement officials have notified the licensee that a particular official has been designated to receive Forms 3310.4, the licensee shall forward such forms to that designated official. The licensee shall retain one copy of Form 3310.4 and attach it to the firearms transaction record, Form 4473, executed upon delivery of the pistols or revolvers.

Example. 1. A licensee sells a pistol and revolver in a single transaction to an unlicensed person. This is a multiple sale and must be reported not later than the close of business on the date of the transaction.

Example. 2. A licensee sells a pistol on Monday and sells a revolver on the following Friday to the same unlicensed person. This is a multiple sale and must be reported not later than the close of business on Friday. If the licensee sells the same unlicensed person another pistol or revolver on the following Monday, this would constitute an additional multiple sale and must also be reported.

Example 3. A licensee maintaining business hours on Monday through Saturday sells a revolver to an unlicensed person on Monday and sells another revolver to the same person on the following Saturday. This does not constitute a multiple sale and need not be reported since the sales did not occur during five consecutive business days.

(Approved by the Office of Management and Budget under control number 1512–0006)

§ 478.127 Discontinuance of business.

Where a licensed business is discontinuance and succeeded by a new licensee, the records prescribed by this subpart shall appropriately reflect such facts and shall be delivered to the successor. Where discontinuance of the business is absolute, the records shall be delivered within 30 days following the business discontinuance to the ATF Out-of-Business Records Center, 2029 Stonewall Jackson Drive, Falling Waters, West Virginia 25419, or to any ATF office in the division in which the business was located: Provided, however, Where State law or local ordinance requires the delivery of records to other responsible authority, the Chief, National Licensing Center may arrange for the delivery of the records required by this subpart to such authority: Provided further, That where a licensed business is discontinued and succeeded by a new licensee, the records may be delivered within 30 days following the business discontinuance to the ATF Out-of-Business Records Center or to any ATF office in the division in which the business

(c) An application, in duplicate, to the Director of Industry Operations in his letter may specify that a multiple sale or other disposition has occurred. Where the State or local law enforcement officials have notified the licensee that a particular official has been designated to receive Forms 3310.4, the licensee shall forward copies of Forms 3310.4 to the ATF office specified thereon and one copy to the State police or to the local law enforcement agency in which the sale or other disposition took place. Where the State or local law enforcement officials have notified the licensee that a particular official has been designated to receive Forms 3310.4, the licensee shall forward such forms to that designated official. The licensee shall retain one copy of Form 3310.4 and attach it to the firearms transaction record, Form 4473, executed upon delivery of the pistols or revolvers.

Example. 1. A licensee sells a pistol and revolver in a single transaction to an unlicensed person. This is a multiple sale and must be reported not later than the close of business on the date of the transaction.

Example. 2. A licensee sells a pistol on Monday and sells a revolver on the following Friday to the same unlicensed person. This is a multiple sale and must be reported not later than the close of business on Friday. If the licensee sells the same unlicensed person another pistol or revolver on the following Monday, this would constitute an additional multiple sale and must also be reported.

Example 3. A licensee maintaining business hours on Monday through Saturday sells a revolver to an unlicensed person on Monday and sells another revolver to the same person on the following Saturday. This does not constitute a multiple sale and need not be reported since the sales did not occur during five consecutive business days.

(Approved by the Office of Management and Budget under control number 1512–0006)

§ 478.128 False statement or representation.

(a) Any person who knowingly makes any false statement or representation in applying for any license or exemption or relief from disability, under the provisions of the Act, shall be fined not more than $5,000 or imprisoned not more than 5 years, or both.

(b) Any person other than a licensed manufacturer, licensed importer, licensed dealer, or licensed collector who knowingly makes any false statement or representation with respect to any information required by the provisions of the Act or this part to be kept in the records of a person licensed under the Act or this part shall be fined not more than $5,000 or imprisoned not more than 5 years, or both.

(c) Any licensed manufacturer, licensed importer, licensed dealer, or licensed collector who knowingly makes any false statement or representation with respect to any information required by the provisions of the Act or this part to be kept in the records of a person licensed under the Act or this part shall be fined not more than $1,000 or imprisoned not more than 1 year, or both.

§ 478.129 Record retention.

(a) Records prior to Act. Licensed importers and licensed manufacturers may dispose of records of sale or other disposition of firearms prior to December 16, 1968. Licensed dealers and licensed collectors may dispose of all records of firearm transactions that occurred prior to December 16, 1968.

(b) Firearms transaction record. Licensees shall retain each Form 4473 and Form 4473(LV) for a period of not less than 20 years after the date of sale or disposition. Where a licensee has initiated a NICS check for a proposed firearms transaction, but the sale, delivery, or transfer of the firearm is not made, the licensee shall record any transaction number on the Form 4473, and retain the Form 4473 for a period of not less than 5 years after the date of the NICS inquiry. Forms 4473 shall be retained in their secure location.

(c) Statement of intent to obtain a handgun, reports of multiple sales or other disposition of pistols and revolvers, and reports of theft or loss of firearms. Licensees shall retain each Form 5300.35 (Statement of Intent to Obtain a Handgun(s)) for a period of not less than 5 years after notice of the intent to obtain the handgun was forwarded to the chief law enforcement officer, as defined in § 478.150(c). Licensees shall retain each copy of Form 3310.4 (Report of Multiple Sale or Other Disposition of Pistols and Revolvers) for a period of not less than 5 years after the date of sale or other disposition. Licensees shall retain each copy of Form 3310.11 (Federal Firearms Licensee Theft/Loss Report) for a period of not less than 5 years after the date the theft or loss was reported to ATF.

(d) Records of importation and manufacture. Licensees will maintain permanent records of the importation, manufacture, or other acquisition of firearms, including ATF Forms 6 and 6A as required by subpart G of this part. Licensed importers' records and licensed manufacturers' records of the sale or other disposition of firearms after December 15, 1968, shall be retained through December 15, 1988, after which records of transactions over 20 years of age may be discarded.

(e) Records of dealers and collectors under the Act. The records prepared by licensed dealers and licensed collectors under the Act of the sale or other disposition of firearms and the corresponding record of receipt of such firearms shall be retained through December 15, 1988, after which records of transactions over 20 years of age may be discarded.

(f) Retention of records of transactions in semiautomatic assault weapons. The documentation required by §§ 478.40(c) and 478.132 shall be retained in the licensee's permanent records for a period of not less than 5 years after the date of sale or other disposition.

§ 478.131 Firearms transactions not subject to a NICS check.

(a) (1) A licensed importer, licensed manufacturer, or licensed dealer whose sale, delivery, or transfer of a firearm is made pursuant to the alternative provisions of § 478.102(d) and is not subject to the NICS check prescribed by § 478.102(a) shall maintain the records required by paragraph (a) of this section.

(b) Employees or contractors of nuclear facilities. (1) Evidence that the employee is employed by a nuclear facility licensed pursuant to 42 U.S.C. 2133 or evidence that the contractor has a valid contract with such a facility.

(2) A written statement from the purchasing employee or contractor under penalty of perjury, stating that the weapon or device is being purchased for one of the purposes authorized in § 478.40(b)(7) and § 478.40(b)(3), i.e., on-site physical protection, on-site or off-site training, or off-site transportation of nuclear materials.

(3) A written statement from a supervisor of the purchasing employee or contractor, on agency or company letterhead, under penalty of perjury, stating that the purchasing employee or contractor is acquiring the weapon or device for use in official duties, and that the weapon or device is not being acquired for personal use or for purposes of transfer or resale.

§ 478.133 Records of transactions in semiautomatic assault weapons.

The evidence specified in § 478.40(c), relating to transactions in semiautomatic assault weapons, shall be retained in the permanent records of the manufacturer or dealer and in the records of the licensee to whom the weapons are transferred.

§ 478.134 Sale of firearms to law enforcement officers.

(a) Law enforcement officers purchasing firearms for official use who provide the licensee with a certification on agency letterhead, signed by a person in authority within the agency (other than the officer purchasing the firearm), stating that the officer will use the firearm in official duties and that a records check reveals that the purchasing officer has no convictions for misdemeanor crimes of domestic violence are not required to complete Form 4473 or Form 5300.35. The law enforcement officer purchasing the firearm may purchase a firearm from a licensee in another State, regardless of where the officer resides or where the agency is located.

(b) (1) The following individuals are considered to have sufficient authority to suitably use in performing official duties, and that the weapon or device is not being acquired for personal use or for purposes of transfer or resale.
certify that law enforcement officers purchasing firearms will use the firearms in the performance of official duties:

(i) In a city or county police department, the director of public safety or the chief or commissioner of police.

(ii) In a sheriff's office, the sheriff.

(iii) In a State police or highway patrol department, the superintendent or the supervisor in charge of the office to which the State officer or employee is assigned.

(iv) In Federal law enforcement offices, the supervisor in charge of the office to which the Federal officer or employee is assigned.

(2) An individual signing on behalf of the person in authority is acceptable, provided there is a proper delegation of authority.

(c) Licensees are not required to prepare a Form 4473 or Form 5300.35 covering sales of firearms made in accordance with paragraph (a) of this section to law enforcement officers for official use. However, disposition to the officer must be entered into the licensee's permanent records, and the certification letter must be retained in the licensee's files.

Subpart I—Exemptions, Seizures, and Forfeitures

§ 478.141 General.

With the exception of §§ 478.32(a)(9) and (d)(9) and 478.99(c)(9), the provisions of this part shall not apply with respect to:

(a) The transportation, shipment, receipt, possession, or importation of any firearm or ammunition imported for, sold or shipped to, or issued for the use of, the United States or any department or agency thereof or any State or any department, agency, or political subdivision thereof.

(b) The shipment or receipt of firearms or ammunition when sold or issued by the Secretary of the Army pursuant to section 4308 of Title 10, U.S.C., and the transportation of any such firearm or ammunition carried out to enable a person, who lawfully received such firearm or ammunition from the Secretary of the Army, to engage in military training or in competitions.

(c) The shipment, unless otherwise prohibited by the Act or any other Federal law, by a licensed importer, licensed manufacturer, or licensed dealer to a member of the U.S. Armed Forces on active duty outside the United States, or to clubs recognized by the Department of Defense whose entire membership is composed of such members of the U.S. Armed Forces, and such members or clubs may receive a firearm or ammunition determined by the Director to be generally recognized as particularly suitable for sporting purposes and intended for the personal use of such member or club. Before making a shipment of firearms or ammunition under the provisions of this paragraph, a licensed importer, licensed manufacturer, or licensed dealer may submit a written request, in duplicate, to the Director for a determination by the Director whether such shipment would constitute a violation of the Act or any other Federal law, or whether the firearm or ammunition is considered by the Director to be generally recognized as particularly suitable for sporting purposes.

(d) The transportation, shipment, receipt, possession, or importation of any antique firearm.

§ 478.142 Effect of pardons and expunctions of convictions.

(a) A pardon granted by the President of the United States regarding a Federal conviction for a crime punishable by imprisonment for a term exceeding 1 year shall remove any disability which otherwise would be imposed by the provisions of this part with respect to that conviction.

(b) A pardon granted by the Governor of a State or other State pardoning authority or by the pardoning authority of a foreign jurisdiction with respect to a conviction, or any expunction, reversal, setting aside of a conviction, or other proceeding rendering a conviction nugatory, or a restoration of civil rights shall be certified by the court or other government entity or official as a true copy. An application shall include:

1. In the case of an applicant who is an individual, a written statement from each of 3 references, who are not related to the applicant by blood or marriage and have known the applicant for at least 3 years, recommending the granting of relief;

2. Written consent to examine and obtain copies of records and to receive statements and information regarding the applicant's background, including records, statements and other information concerning employment, medical history, military service, and criminal record;

3. In the case of an applicant under indictment, a copy of the indictment or information;

4. In the case of an applicant having been convicted of a crime punishable by imprisonment for a term exceeding 1 year, a copy of the indictment or information on which the applicant was convicted, the judgment of conviction or record of plea of nolo contendere or plea of guilty or finding of guilt by the
court, and any pardon, expunction, setting aside or other order purporting to show that the conviction was rendered nugatory or that civil rights were restored;

(5) In the case of an applicant who has been adjudicated a mental defective or committed to a mental institution, a copy of the order of a court, board, commission, or other lawful authority that made the adjudication or ordered the commitment, any petition that sought to have the applicant so adjudicated or committed, any medical records reflecting the reasons for commitment and diagnoses of the applicant, and any court order or finding of a court, board, commission, or other lawful authority showing the applicant’s discharge from commitment, restoration of mental competency and the restoration of rights;

(6) In the case of an applicant who has been discharged from the Armed Forces under dishonorable conditions, a copy of the applicant’s summary of service record (Department of Defense Form 214), charge sheet (Department of Defense Form 458), and final court martial order;

(7) In the case of an applicant who, having been a citizen of the United States, has renounced his or her citizenship, a copy of the formal renunciation of nationality before a diplomatic or consular officer of the United States in a foreign state or before an officer designated by the Attorney General when the United States was in a state of war (see 8 U.S.C. 1481(a) (5) and (6)); and

(8) In the case of an applicant who has been convicted of a misdemeanor crime of domestic violence, a copy of the indictment or information on which the applicant was convicted, the judgment of conviction or record of any plea of nolo contendere or plea of guilty or finding of guilt by the court, and any pardon, expunction, setting aside or other record purporting to show that the conviction was rendered nugatory or that civil rights were restored.

(d) The Director may grant relief to an applicant if it is established to the satisfaction of the Director that the circumstances regarding the disability, and the applicant's record and reputation, are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief would not be contrary to the public interest. The Director will not ordinarily grant relief if the applicant has not been discharged from parole or probation for a period of at least 2 years. Relief will not be granted to an applicant who is prohibited from possessing all types of firearms by the law of the State where such applicant resides.

(e) In addition to meeting the requirements of paragraph (d) of this section, an applicant who has been adjudicated a mental defective or committed to a mental institution will not be granted relief unless the applicant was subsequently determined by a court, board, commission, or other lawful authority to have been restored to mental competency, to be no longer suffering from a mental disorder, and to have had all rights restored.

(f) Upon receipt of an incomplete or improperly executed application for relief, the applicant shall be notified of the deficiency in the application. If the application is not corrected and returned within 30 days following the date of notification, the application shall be considered as having been abandoned.

(g) Whenever the Director grants relief to any person pursuant to this section, a notice of such action shall be promptly published in the FEDERAL REGISTER, together with the reasons therefor.

(h) A person who has been granted relief under this section shall be relieved of any disabilities imposed by the Act with respect to the acquisition, receipt, transfer, shipment, transportation, or possession of firearms or ammunition and incurred by reason of such disability.

(i) (1) A licensee who incurs disabilities under the Act (see §478.32(a)) during the term of a current license or while the licensee has pending a license renewal application, and who files an application for removal of such disabilities, shall not be barred from licensed operations for 30 days following the date on which the applicant was first subject to such disabilities (30 days after the date upon which the conviction for a crime punishable by imprisonment for a term exceeding 1 year becomes final), and if the licensee files the application for relief as provided by this section within such 30-day period, the licensee may further continue licensed operations during the pendency of the application. A licensee who does not file such application within such 30-day period shall not continue licensed operations beyond 30 days following the date on which the conviction is first subject to such disabilities (30 days from the date the conviction for a crime punishable by imprisonment for a term exceeding 1 year becomes final).

(2) In the event the term of a license of a person expires during the 30-day period specified in paragraph (i)(1) of this section, or during the pendency of the application for relief, a timely application for renewal of the license must be filed in order to continue licensed operations. Such license application shall show that the applicant is subject to Federal firearms disabilities, shall describe the event giving rise to such disabilities, and shall state when the disabilities were incurred.

(3) A licensee shall not continue licensed operations beyond 30 days following the date the Director issues notification that the licensee’s application for renewal of disabilities has been denied.

(4) When as provided in this paragraph a licensee may no longer continue licensed operations, any application for renewal of license filed by the licensee during the pendency of the application for removal of disabilities shall be denied by the Director of Industry Operations.

§ 478.145 Research organizations.

The provisions of § 478.98 with respect to the sale or delivery of destructive devices, machine guns, short-barreled shotguns, and short-barreled rifles shall not apply to the sale or delivery of such devices and weapons to any research organization designated by the Director to receive same. A research organization desiring such designation shall submit a letter application, in duplicate, to the Director. Such application shall contain the name and address of the research organization, the names and addresses of the persons directing or controlling, directly or indirectly, the policies and management of such organization, the nature and purpose of the research being conducted, a description of the devices and weapons to be received, and the identity of the person or persons from whom such devices and weapons are to be received.

§ 478.146 Deliveries by mail to certain persons.

The provisions of this part shall not be construed as prohibiting a licensed importer, licensed manufacturer, or licensed dealer from depositing a firearm for conveyance in the mails to any officer, employee, agent, or watchman who, pursuant to the provisions of section 1715 of title 18, U.S.C., is eligible to receive through the mails pistols, revolvers, and other firearms capable of being concealed on the person, for use in connection with his official duties.

§ 478.147 Return of firearm.

A person not otherwise prohibited by Federal, State or local law may ship a
firearm to a licensed importer, licensed manufacturer, or licensed dealer for any lawful purpose, and, notwithstanding any other provision of this part, the licensed manufacturer, licensed importer, or licensed dealer may return in interstate or foreign commerce to that person the firearm or a replacement firearm of the same kind and type. See § 478.124(a) for requirements of a Form 4473 prior to return. A person not otherwise prohibited by Federal, State or local law may ship a firearm curio or relic to a licensed collector for any lawful purpose, and, notwithstanding any other provision of this part, the licensed collector may return in interstate or foreign commerce to that person the firearm curio or relic.

§ 478.148 Armor piercing ammunition intended for sporting or industrial purposes.

The Director may exempt certain armor piercing ammunition from the requirements of this part. A person who desires to obtain an exemption under this section for any such ammunition which is primarily intended for sporting purposes or intended for industrial purposes, including charges used in oil and gas well perforating devices, shall submit a written request to the Director. Each request shall be executed under the penalties of perjury and contain a complete and accurate description of the ammunition, the name and address of the manufacturer or importer, the purpose of and use for which it is designed and intended, and any photographs, diagrams, or drawings as may be necessary to enable the Director to make a determination. The Director may require that a sample of the ammunition be submitted for examination and evaluation.

§ 478.149 Armor piercing ammunition manufactured or imported for the purpose of testing or experimentation.

The provisions of §§ 478.37 and 478.99(d) with respect to the manufacture or importation of armor piercing ammunition and the sale or delivery of armor piercing ammunition by manufacturers and importers shall not apply to the manufacture, importation, sale or delivery of armor piercing ammunition for the purpose of testing or experimentation as authorized by the Director. A person desiring such authorization to receive armor piercing ammunition shall submit a letter application, in duplicate, to the Director. Such application shall contain the name and addresses of the persons directing or controlling, directly or indirectly, the policies and management of the applicant, the nature or purpose of the testing or experimentation, a description of the armor piercing ammunition to be received, and the identity of the manufacturer or importer from whom such ammunition is to be received. The approved application shall be submitted to the manufacturer or importer who shall retain a copy as part of the records required by subpart H of this part.

§ 478.150 Alternative to NICS in certain geographical locations.

(a) The provisions of § 478.102(d)(3) shall be applicable when the Director has certified that compliance with the provisions of § 478.102(a)(1) is impracticable because:

(1) The ratio of the number of law enforcement officers of the State in which the transfer is to occur to the number of square miles of land area of the State does not exceed 0.0025;

(2) The business premises of the licensee at which the transfer is to occur are extremely remote in relation to the chief law enforcement officer; and

(3) There is an absence of telecommunications facilities in the geographical area in which the business premises are located.

(b) A licensee who desires to obtain a certification under this section shall submit a written request to the Director. Each request shall be executed under the penalties of perjury and contain information sufficient for the Director to make such certification. Such information shall include statistical data, official reports, or other statements of government agencies pertaining to the ratio of law enforcement officers to the number of square miles of land area of a State and statements of government agencies and private utility companies regarding the absence of telecommunications facilities in the geographical area in which the licensee’s business premises are located.

(c) For purposes of this section and § 478.129(c), the “chief law enforcement officer” means the chief of police, the sheriff, or an equivalent officer or the designee of any such individual.

(Approved by the Office of Management and Budget under control number 1512–0544)

§ 478.151 Semiautomatic rifles or shotguns for testing or experimentation.

(a) The provisions of § 478.39 shall not apply to the assembly of semiautomatic rifles or shotguns for the purpose of testing or experimentation as authorized by the Director.

(b) A person desiring authorization to assemble nonsporiting semiautomatic rifles or shotguns shall submit a written request, in duplicate, to the Director. Each such request shall be executed under the penalties of perjury and shall contain a complete and accurate description of the firearm to be assembled, and such diagrams or drawings as may be necessary to enable the Director to make a determination. The Director may require the submission of the firearm parts for examination and evaluation. If the submission of the firearm parts is impractical, the person requesting the authorization shall so advise the Director and designate the place where the firearm parts will be available for examination and evaluation.

§ 478.152 Seizure and forfeiture.

(a) Any firearm or ammunition involved in or used in any knowing violation of subsections (a)(4), (a)(6), (f), (g), (h), (i), (j), or (k) of section 922 of the Act, or knowing importation or bringing into the United States or any possession thereof any firearm or ammunition in violation of section 922(l) of the Act, or knowing violation of section 924 of the Act, or willful violation of any other provision of the Act or of this part, or any violation of any other criminal law of the United States, or any firearm or ammunition intended to be used in any offense referred to in paragraph (c) of this section, where such intent is demonstrated by clear and convincing evidence, shall be subject to seizure and forfeiture, and all provisions of the Internal Revenue Code of 1986 relating to the seizure, forfeiture, and disposition of firearms, as defined in section 5845(a) of that Code, shall, so far as applicable, extend to seizures and forfeitures under the provisions of the Act: Provided, That upon acquittal of the owner or possessor, or dismissal of the charges against such person other than upon motion of the Government prior to trial, or lapse of or court termination of the restraining order to which he is subject, the seized or relinquished firearms or ammunition shall be returned forthwith to the owner or possessor or to a person delegated by the owner or possessor unless the return of the firearms or ammunition would place the owner or possessor or the delegate of the owner or possessor in violation of law. Any action or proceeding for the forfeiture of firearms or ammunition shall be commenced within 120 days of such seizure.

(b) Only those firearms or quantities of ammunition particularly named and individually identified as involved in or used in any violation of the provisions of the Act or this part, or any other criminal law of the United States or as intended to be used in any offense referred to in paragraph (c) of this section, where such intent is demonstrated by clear and convincing evidence, shall be subject to seizure, forfeiture and disposition.
(c) The offenses referred to in paragraphs (a) and (b) of this section for which firearms and ammunition intended to be used in such offenses are subject to seizure and forfeiture are:

(1) Any crime of violence, as that term is defined in section 924(c)(3) of the Act;

(2) Any offense punishable under the Controlled Substances Act (21 U.S.C. 801 et seq.) or the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.);

(3) Any offense described in section 922(a)(1), 922(a)(3), 922(a)(5), or 922(b)(3) of the Act, where the firearm or ammunition intended to be used in such offense is involved in a pattern of activities which includes a violation of any offense described in section 922(a)(1), 922(a)(3), 922(a)(5), or 922(b)(3) of the Act;

(4) Any offense described in section 922(d) of the Act where the firearm or ammunition intended to be used in such offense by the transferor of such firearm or ammunition;

(5) Any offense described in section 922(i), 922(j), 922(l), 922(n), or 924(b) of the Act; and

(6) Any offense which may be prosecuted in a court of the United States which involves the exportation of firearms or ammunition.

§ 478.153 Semiautomatic assault weapons and large capacity ammunition feeding devices manufactured or imported for the purposes of testing or experimentation.

The provisions of § 478.40 with respect to the manufacture, transfer, or possession of a semiautomatic assault weapon, and § 478.40a with respect to large capacity ammunition feeding devices, shall not apply to the manufacture, transfer, or possession of such weapons or devices by a manufacturer or importer for the purposes of testing or experimentation as authorized by the Director. A person desiring such authorization shall submit a letter application, in duplicate, to the Director. Such application shall contain the name and addresses of the persons directing or controlling, directly or indirectly, the policies and management of the applicant, the nature or purpose of the testing or experimentation, a description of the weapons or devices to be manufactured or imported, and the source of the weapons or devices. The approved application shall be retained as part of the records required by subpart H of this part.

Subpart J—[Reserved]

Subpart K—Exportation

§ 478.171 Exportation.

Firearms and ammunition shall be exported in accordance with the applicable provisions of section 38 of the Arms Export Control Act (22 U.S.C. 2778) and regulations thereunder. However, licensed manufacturers, licensed importers, and licensed dealers exporting firearms shall maintain records showing the manufacture or acquisition of the firearms as required by this part and records showing the name and address of the foreign consignee of the firearms and the date the firearms were exported. Licensed manufacturers and licensed importers exporting armor piercing ammunition and semiautomatic assault weapons manufactured after September 13, 1994, shall maintain records showing the name and address of the foreign consignee and the date the armor piercing ammunition or semiautomatic assault weapons were exported.

Editor’s Note:

The references to “semiautomatic assault weapons” in section 478.171 are not applicable on or after September 13, 2004.
THE NATIONAL FIREARMS ACT

TITLE 26, UNITED STATES CODE, CHAPTER 53

INTERNAL REVENUE CODE

Editor’s Note:

The National Firearms Act (NFA) is part of the Internal Revenue Code of 1986. The Internal Revenue Code, with the exception of the NFA, is administered and enforced by the Secretary of the Treasury. When ATF transferred to the Department of Justice under the Homeland Security Act of 2002, all its authorities, including the authority to administer and enforce the NFA, were transferred to the Attorney General. In order to keep all the references throughout the Internal Revenue Code consistent, references to the term “Secretary” or “Secretary of the Treasury” in the NFA shall mean the Attorney General.

CHAPTER 53 – MACHINE GUNS, DESTRUCTIVE DEVICES, AND CERTAIN OTHER FIREARMS

Subchapter A – Taxes

Part I – Special (occupational) taxes.

§ 5801 Imposition of tax.

§ 5802 Registration of importers, manufacturers, and dealers.

Part II – Tax on transferring firearms.

§ 5811 Transfer tax.

§ 5812 Transfers.

Part III – Tax on making firearms.

§ 5821 Making tax.

§ 5822 Making.

Subchapter B – General Provisions and Exemptions

§ 5841 Registration of firearms.

§ 5842 Identification on firearms.

§ 5843 Records and returns.

§ 5844 Importation.

§ 5845 Definitions.

§ 5846 Other laws applicable.

§ 5847 Effect on other laws.

§ 5848 Restrictive use of information.

§ 5849 Citation of chapter.

Part II – Exemptions.

§ 5851 Special (occupational) taxes.

§ 5852 General transfer and making tax exemption.

§ 5853 Transfer and making tax exemption available to certain governmental entities.

§ 5854 Exportation of firearms exempt from transfer tax.

Subchapter C – Prohibited Acts

§ 5861 Prohibited acts.

Subchapter D– Penalties and Forfeitures

§ 5871 Penalties.

§ 5872 Forfeitures.

SUBCHAPTER A — TAXES

Part I – Special Occupational Taxes

§ 5801 Imposition of tax.

(a) General rule. On first engaging in business and thereafter on or before July 1 of each year, every importer, manufacturer, and dealer in firearms shall register with the Secretary in each internal revenue district in which such business is to be carried on, his name, including any trade name, and the address of each location in the district where he will conduct such business. An individual required to register under this section shall include a photograph and fingerprints of the individual with the initial application. Where there is a change during the taxable year in the location of, or the trade name used in, such business, the importer, manufacturer, or dealer shall file an application with the Secretary to amend his registration. Firearms operations of an importer, manufacturer, or dealer may not be commenced at the new location or under a new trade name prior to approval of the application by the Secretary.

Part II – Tax on Transferring Firearms.

§ 5811 Transfer tax.

(a) Rate. There shall be levied, collected, and paid on firearms transferred a tax at the rate of $200 for each firearm transferred, except, the transfer tax on any firearm classified as any other weapon under section 5845(e) shall be at the rate of $5 for each such firearm transferred.

(b) By whom paid. The tax imposed
by subsection (a) of this section shall be paid by the transferor.

(c) Payment. The tax imposed by subsection (a) of this section shall be payable by the appropriate stamps prescribed for payment by the Secretary.

§ 5812 Transfers.

(a) Application. A firearm shall not be transferred unless (1) the transferee of the firearm has filed with the Secretary a written application, in duplicate, for the transfer and registration of the firearm to the transferee on the application form prescribed by the Secretary; (2) any tax payable on the transfer is paid as evidenced by the proper stamp affixed to the original application form; (3) the transferee is identified in the application form in such manner as the Secretary may by regulations prescribe, except that, if such person is an individual, the identification must include his fingerprints and his photograph; (4) the transferor of the firearm is identified in the application form in such manner as the Secretary may by regulations prescribe; (5) the firearm is identified in the application form in such manner as the Secretary may by regulations prescribe; (6) the application form shows that the Secretary has approved the transfer and the registration of the firearm to the transferee. Applications shall be denied if the transfer, receipt, or possession of the firearm would place the transferee in violation of law.

(b) Transfer of possession. The transferee of a firearm shall not take possession of the firearm unless the Secretary has approved the transfer and registration of the firearm to the transferee as required by subsection (a) of this section.

Part III – Tax on Making Firearms.

§ 5821 Making tax.

(a) Rate. There shall be levied, collected, and paid upon the making of a firearm a tax at the rate of $200 for each firearm made.

(b) By whom paid. The tax imposed by subsection (a) of this section shall be paid by the person making the firearm.

(c) Payment. The tax imposed by subsection (a) of this section shall be payable by the stamp prescribed for payment by the Secretary.

§ 5822 Making.

No person shall make a firearm unless he has (a) filed with the Secretary a written application, in duplicate, to make and register the firearm on the form prescribed by the Secretary; (b) paid any tax payable on the making and such payment is evidenced by the proper stamp affixed to the original application form; (c) identified the firearm to be made in the application form in such manner as the Secretary may by regulations prescribe; (d) identified himself in the application form in such manner as the Secretary may by regulations prescribe, except that, if such person is an individual, the identification must include his fingerprints and his photograph; and (e) obtained the approval of the Secretary to make and register the firearm and the application form shows such approval. Applications shall be denied if the making or possession of the firearm would place the person making the firearm in violation of law.

SUBCHAPTER B — GENERAL PROVISIONS AND EXEMPTIONS

§ 5841 Registration of firearms.

(a) Central registry. The Secretary shall maintain a central registry of all firearms in the United States which are not in the possession or under the control of the United States. This registry shall be known as the National Firearms Registry and Transfer Record. The registry shall include—

1. identification of the firearm;
2. date of registration; and
3. identification and address of person entitled to possession of the firearm.

(b) By whom registered. Each manufacturer, importer, and maker shall register each firearm he manufactures, imports, or makes. Each firearm transferred shall be registered to the transferee by the transferor.

(c) How registered. Each manufacturer shall notify the Secretary of the manufacture of a firearm in such manner as may by regulations be prescribed and such notification shall effect the registration of the firearm required by this section. Each importer, maker, and transferor of a firearm shall, prior to importing, making, or transferring a firearm, obtain authorization in such manner as required by this chapter or regulations issued thereunder to import, make, or transfer the firearm, and such authorization shall effect the registration of the firearm required by this section.

(d) Firearms registered on effective date of this act. A person shown as possessing a firearm by the records maintained by the Secretary pursuant to the National Firearms Act in force on the day immediately prior to the effective date of the National Firearms Act of 1968 shall be considered to have registered under this section the firearms in his possession which are disclosed by that record as being in his possession.

(e) Proof of registration. A person possessing a firearm registered as required by this section shall retain proof of registration which shall be made available to the Secretary upon request.

§ 5842 Identification of firearms.

(a) Identification of firearms other than destructive devices. Each manufacturer and importer and anyone making a firearm shall identify each firearm, other than a destructive device, manufactured, imported, or made by a serial number which may not be readily removed, obliterated, or altered, the name of the manufacturer, importer, or maker, and such other identification as the Secretary may by regulations prescribe.

(b) Firearms without serial number. Any person who possesses a firearm, other than a destructive device, which does not bear the serial number and other information required by subsection (a) of this section shall identify the firearm with a serial number assigned by the Secretary and any other information the Secretary may by regulations prescribe.

(c) Identification of destructive device. Any firearm classified as a destructive device shall be identified in such manner as the Secretary may by regulations prescribe.

§ 5843 Records and returns.

Importers, manufacturers, and dealers shall keep such records of, and render such returns in relation to, the importation, manufacture, making, receipt, and sale, or other disposition, of firearms as the Secretary may by regulations prescribe.

§ 5844 Importation.

No firearm shall be imported or brought into the United States or any territory under its control or jurisdiction unless the importer establishes, under regulations as
(b) Machinegun. The term 'machinegun' means any weapon which shoots, is designed to shoot, or can be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger. The term shall also include the frame or receiver of any such weapon, any part designed and intended solely and exclusively, or combination of parts designed and intended, for use in converting a weapon into a machinegun, and any combination of parts from which a machinegun can be assembled if such parts are in the possession or under the control of a person.

(c) Rifle. The term 'rifle' means a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed cartridge.

(d) Shotgun. The term 'shotgun' means a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed shotgun shell to fire through a smooth bore either a number of projectiles (ball shot) or a single projectile for each pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed shotgun shell.

(e) Any other weapon. The term 'any other weapon' means any weapon or device capable of being concealed on the person from which a shot can be discharged through the energy of an explosive, a pistol or revolver having a barrel with a smooth bore designed or redesigned to fire a fixed shotgun shell, weapons with combination shotgun and rifle barrels of less than 18 inches in length; (f) Destructive device. The term 'destructive device' means (1) any explosive, incendiary, or poison gas (A) bomb, (B) grenade, (C) rocket having a propellant charge of more than four ounces, (D) missile having an explosive or incendiary charge of more than one-quarter ounce, (E) mine, or (F) similar device; (2) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Secretary finds is not likely to be used as a weapon, or is an antique or is a rifle which the owner intends to use solely for sporting purposes.

(g) Antique firearm. The term 'antique firearm' means any firearm not designed or redesigned for use as a weapon; any firearm which is originally designed for use as a weapon, which is redesigned for use as a signaling, pyrotechnic, line throwing, safety, or similar device; surplus ordnance sold, loaned, or given by the Secretary of the Army pursuant to the provisions of section 4684(2), 4685, or 4686 of title 10 of the United States Code; or any other device which the Secretary finds is not likely to be used as a weapon, or is an antique or is a rifle which the owner intends to use solely for sporting purposes.

(h) Unserviceable firearm. The term 'unserviceable firearm' means a firearm which is incapable of discharging a shot by means of an explosive and incapable of being readily restored to a firing condition.

(i) Make. The term 'make', and the various derivatives of such word, shall include manufacturing (other than by one qualified to engage in such business under this chapter), putting together, altering, any combination of these, or otherwise producing a firearm.

(j) Transfer. The term 'transfer' and the various derivatives of such word, shall include selling, assigning, pledging, leasing, loaning, giving away, or otherwise disposing of.

(k) Dealer. The term 'dealer' means any person, not a manufacturer or importer, engaged in the business of selling, renting, leasing, or loaning firearms and shall include pawnbrokers who accept firearms as collateral for loans.

(l) Importer. The term 'importer' means any person who is engaged in the business of importing or bringing firearms into the United States.
(m) Manufacturer. The term 'manufacturer' means any person who is engaged in the business of manufacturing firearms.

§ 5846 Other laws applicable.

All provisions of law relating to special taxes imposed by chapter 51 and to engraving, issuance, sale, accountability, cancellation, and distribution of stamps for tax payment shall, insofar as not inconsistent with the provisions of this chapter, be applicable with respect to the taxes imposed by sections 5801, 5811, and 5821.

§ 5847 Effect on other laws.

Nothing in this chapter shall be construed as modifying or affecting the requirements of section 414 of the Mutual Security Act of 1954, as amended, with respect to the manufacture, exportation, and importation of arms, ammunition, and implements of war.

§ 5848 Restrictive use of information.

(a) General Rule. No information or evidence obtained from an application, registration, or records required to be submitted or retained by a natural person in order to comply with any provision of this chapter or regulations issued thereunder, shall, except as provided in subsection (b) of this section, be used, directly or indirectly, as evidence against that person in a criminal proceeding with respect to a violation of law occurring prior to or concurrently with the filing of the application or registration, or the compiling of the records containing the information or evidence.

(b) Furnishing false information. Subsection (a) of this section shall not preclude the use of any such information or evidence in a prosecution or other action under any applicable provision of law with respect to the furnishing of false information.

§ 5849 Citation of chapter.

This chapter may be cited as the 'National Firearms Act' and any reference in any other provision of law to the 'National Firearms Act' shall be held to refer to the provisions of this chapter.

Part II – Exemptions.

§ 5851 Special (occupational) tax exemption.

(a) Business with United States. Any person required to pay special (occupational) tax under section 5801 shall be relieved from payment of that tax if he establishes to the satisfaction of the Secretary that his business is conducted exclusively with, or on behalf of, the United States or any department, independent establishment, or agency thereof. The Secretary may relieve any person manufacturing firearms for, or on behalf of, the United States from compliance with any provision of this chapter in the conduct of such business.

(b) Application. The exemption provided for in subsection (a) of this section may be obtained by filing with the Secretary an application on such form and containing such information as may by regulations be prescribed. The exemptions must thereafter be renewed on or before July 1 of each year. Approval of the application by the Secretary shall entitle the applicant to the exemptions stated on the approved application.

§ 5852 General transfer and making tax exemption.

(a) Transfer. Any firearm may be transferred to the United States or any department, independent establishment, or agency thereof, without payment of the transfer tax imposed by section 5811.

(b) Making by a person other than a qualified manufacturer. Any firearm may be made by, or on behalf of, the United States, or any department, independent establishment, or agency thereof, without payment of the making tax imposed by section 5821.

(c) Making by a qualified manufacturer. A manufacturer qualified under this chapter to engage in such business may make the type of firearm which he is qualified to manufacture without payment of the making tax imposed by section 5821.

(d) Transfers between special (occupational) taxpayers. A firearm registered to a person qualified under this chapter to engage in business as an importer, manufacturer, or dealer may be transferred by that person without payment of the transfer tax imposed by section 5811 to any other person qualified under this chapter to manufacture, import, or deal in that type of firearm.

(e) Unserviceable firearm. An unserviceable firearm may be transferred as a curio or ornament without payment of the transfer tax imposed by section 5811, under such requirements as the Secretary may by regulations prescribe.

(f) Right to exemption. No firearm may be transferred or made exempt from tax under the provisions of this section unless the transfer or making is performed pursuant to an application in such form and manner as the Secretary may by regulations prescribe.

§ 5853 Transfer and making tax exemption available to certain governmental entities.

(a) Transfer. A firearm may be transferred without the payment of the transfer tax imposed by section 5811 to any State, possession of the United States, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations.

(b) Making. A firearm may be made without payment of the making tax imposed by section 5821 by, or on behalf of, any State, or possession of the United States, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations.

(c) Right to exemption. No firearm may be transferred or made exempt from tax under this section unless the transfer or making is performed pursuant to an application in such form and manner as the Secretary may by regulations prescribe.

§ 5854 Exportation of firearms exempt from transfer tax.

A firearm may be exported without payment of the transfer tax imposed under section 5811 provided that proof of the exportation is furnished in such form and manner as the Secretary may by regulations prescribe.

SUBCHAPTER C — PROHIBITED ACTS

§ 5861 Prohibited acts.

It shall be unlawful for any person—

(a) to engage in business as a manufacturer or importer of, or dealer in, firearms without having paid the special (occupational) tax required by section 5801 for his business or having registered as required by section 5802; or

(b) to receive or possess a firearm transferred to him in violation of the provisions of this chapter; or

(c) to receive or possess a firearm made in violation of the provisions of this chapter; or

(d) to receive or possess a firearm
which is not registered to him in the National Firearms Registration and Transfer Record; or

(e) to transfer a firearm in violation of the provisions of this chapter; or

(f) to make a firearm in violation of the provisions of this chapter; or

(g) to obliterate, remove, change, or alter the serial number or other identification of a firearm required by this chapter; or

(h) to receive or possess a firearm having the serial number or other identification required by this chapter obliterated, removed, changed, or altered; or

(i) to receive or possess a firearm which is not identified by a serial number as required by this chapter; or

(j) to transport, deliver, or receive any firearm in interstate commerce which has not been registered as required by this chapter; or

(k) to receive or possess a firearm which has been imported or brought into the United States in violation of section 5844; or

(l) to make, or cause the making of, a false entry on any application, return, or record required by this chapter, knowing such entry to be false.

SUBCHAPTER D — PENALTIES AND FORFEITURES

§ 5871 Penalties.

Any person who violates or fails to comply with any provision of this chapter shall, upon conviction, be fined not more than $10,000, or be imprisoned not more than ten years, or both.

§ 5872 Forfeitures.

(a) Laws applicable. Any firearm involved in any violation of the provisions of this chapter shall be subject to seizure and forfeiture, and (except as provided in subsection (b)) all the provisions of internal revenue laws relating to searches, seizures, and forfeitures of unstamped articles are extended to and made to apply to the articles taxed under this chapter, and the persons to whom this chapter applies.

(b) Disposal. In the case of the forfeiture of any firearm by reason of a violation of this chapter, no notice of public sale shall be required; no such firearm shall be sold at public sale; if such firearm is forfeited for a violation of this chapter and there is no remission or mitigation of forfeiture thereof, it shall be delivered by the Secretary to the Administrator of General Services, General Services Administration, who may order such firearm destroyed or may sell it to any State, or possession, or political subdivision thereof, or at the request of the Secretary, may authorize its retention for official use of the Treasury Department, or may transfer it without charge to any executive department or independent establishment of the Government for use by it.
Editor’s Note:

Effective January 24, 2003, the Homeland Security Act transferred the Bureau of Alcohol, Tobacco and Firearms from the Department of the Treasury to the Department of Justice. In addition, the agency’s name was changed to the Bureau of Alcohol, Tobacco, Firearms and Explosives. The regulations, as printed in this publication, do not yet reflect this change. The regulations will be amended to change the references from the “Bureau of Alcohol, Tobacco and Firearms,” the “Department of the Treasury,” and the “Secretary of the Treasury” to the “Bureau of Alcohol, Tobacco, Firearms and Explosives,” the “Department of Justice” and the “Attorney General,” respectively.

Subpart A—Scope of Regulations

§ 479.1 General.

Subpart B—Definitions

§ 479.11 Meaning of terms.

Subpart C—Administrative and Miscellaneous Provisions

§ 479.21 Forms prescribed.

§ 479.22 Right of entry and examination.

§ 479.23 Restrictive use of required information.

§ 479.24 Destructive device determination.

§ 479.49 Failure to register change or removal.

§ 479.50 Delinquency.

§ 479.51 Fraudulent return.

Application of State Laws

§ 479.52 State regulations.

Subpart E—Tax on Making Firearms

§ 479.61 Rate of tax.

Application to Make a Firearm

§ 479.62 Application to make.

§ 479.63 Identification of applicant.

§ 479.64 Procedure for approval of application.

§ 479.65 Denial of application.

§ 479.66 Subsequent transfer of firearms.

§ 479.67 Cancellation of stamp.

Exceptions to Tax on Making Firearms

§ 479.68 Qualified manufacturer.

§ 479.69 Making a firearm for the United States.

§ 479.70 Certain government entities.

Registration

§ 479.71 Proof of registration.

Subpart F—Transfer Tax

§ 479.81 Scope of tax.
Subpart A—Scope of Regulations

§ 479.1 General.

This part contains the procedural and substantive requirements relative to the importation, manufacture, making, exportation, identification and registration of, and the dealing in, machine guns, destructive devices and certain other firearms under the provisions of the National Firearms Act (26 U.S.C. Chapter 53).

Subpart B—Definitions

§ 479.11 Meaning of terms.

When used in this part and in forms prescribed under this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words importing the masculine gender shall include the feminine. The terms “includes” and “including” do not exclude other things not enumerated which are in the same general class or are otherwise within the scope thereof.

Antique firearm. Any firearm not designed or redesigned for using rim fire or conventional center fire ignition with fixed ammunition and manufactured in or before 1898 (including any matchlock, flintlock, percussion cap, or similar type of ignition system or replica thereof, whether actually manufactured before or after the year 1898) and also any firearm using fixed ammunition manufactured in or before 1898, for which ammunition is no longer manufactured in the United States and is not readily available in the ordinary channels of commercial trade.

Any other weapon. Any weapon or device capable of being concealed on the person from which a shot can be discharged through the energy of an explosive, a pistol or revolver having a barrel with a smooth bore designed or redesigned to fire a fixed shotgun shell, weapons with combination shotgun and rifle barrels 12 inches or more, less than 18 inches in length, from which only a single discharge can be made from either barrel without manual reloading, and shall include any such weapon which may be readily restored to fire. Such term shall not include a pistol or a revolver having a rifled bore, or rifled bores, or weapons designed, made, or intended to be fired from the shoulder and not capable of firing fixed ammunition.

ATF officer. An officer or employee of the Bureau of Alcohol, Tobacco and Firearms (ATF) authorized to perform any function relating to the administration or enforcement of this part.

Customs officer. Any officer of the Customs Service or any commissioned, warrant, or petty officer of the Coast Guard, or any agent or other person authorized by law or designated by the Secretary of the Treasury to perform any duties of an officer of the Customs Service.

Dealer. Any person, not a manufacturer or importer, engaged in the business of selling, renting, leasing, or loaning firearms and shall include pawnbrokers who accept firearms as collateral for loans.

Destructive device. (a) Any explosive, incendiary, or poison gas bomb, grenade, rocket having a propellant charge of more than 4 ounces, (4) missile having an explosive or incendiary charge of more than one-quarter ounce, (5) mine, or (6) similar device; (b) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Director finds is generally recognized as particularly suitable for sporting purposes; and (c) any combination of parts either designed or intended for use in converting any device into a destructive device as described in paragraphs (a) and (b) of this definition and from which a destructive device may be readily assembled. The term shall not include any device which is neither designed or redesigned for use as a weapon; any device, although originally designed for use as a weapon, which is redesigned for use as a signaling, pyrotechnic, line throwing, safety, or similar device; surplus ordnance sold, loaned, or given by the Secretary of the Army under 10 U.S.C. 4684(2), 4685, or 4686, or any device which the Director finds is not likely to be used as a weapon, or is an antique or is a rifle which the owner intends to use solely for sporting purposes.

Director. The Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, DC.

Director of the Service Center. A director of an Internal Revenue Service Center in an internal revenue region.

District director. A district director of the Internal Revenue Service in an internal revenue district.

Exported under penalties of perjury. Signed with the prescribed declaration under the penalties of perjury as provided on or with respect to the return, form, or other document or, where no form of declaration is prescribed, with the declaration:

“I declare under the penalties of perjury that this—(insert type of document, such as, statement, application, request, certificate), including the documents submitted in support thereof, has been examined by me and, to the best of my knowledge and belief, is true, correct, and complete.”

Exportation. The severance of goods from the mass of things belonging to this country with the intention of uniting them to the mass of things belonging to some foreign country.

Exporter. Any person who exports firearms from the United States.

Firearm. (a) A shotgun having a barrel or barrels of less than 18 inches in length; (b) a weapon made from a shotgun if such weapon as modified has an overall length of less than 26 inches or a barrel or barrels of less than 18 inches in length; (c) a rifle having a barrel or barrels of less than 16 inches in length; (d) a weapon made from a rifle if such weapon as modified has an overall length of less than 26 inches or a barrel or barrels of less than 16 inches in length; (e) any other weapon, as defined in this subpart; (f) a machine gun; (g) a muffler or a silencer for any firearm manufactured in the United States.
whether or not such firearm is included within this definition; and (h) a destructive device. The term shall not include an antique firearm or any device (other than a machine gun or destructive device) which, although designed as a weapon, the Director finds by reason of the date of its manufacture, value, design, and other characteristics is primarily a collector's item and is not likely to be used as a weapon. For purposes of this definition, the length of the barrel having an integral chamber(s) on a shotgun or rifle shall be determined by measuring the distance between the muzzle and the face of the bolt, breech, or breech block when closed and when the shotgun or rifle is cocked. The overall length of a weapon made from a shotgun or rifle is the distance between the extreme ends of the weapon measured along a line parallel to the center line of the bore.

Fixed ammunition. That self-contained unit consisting of the case, primer, propellant charge, and projectile or projectiles.

Frame or receiver. That part of a firearm which provides housing for the hammer, bolt or breechblock and firing mechanism, and which is usually threaded at its forward portion to receive the barrel.

Importation. The bringing of a firearm within the limits of the United States or any territory under its control or jurisdiction, from a place outside thereof (whether such place be a foreign country or territory subject to the jurisdiction of the United States), with intent to unlace. Except that, bringing a firearm from a foreign country or a territory subject to the jurisdiction of the United States into a foreign trade zone for storage pending shipment to a foreign country or subsequent importation into this country, under Title 26 of the United States Code, and this part, shall not be deemed importation.

Importer. Any person who is engaged in the business of importing or bringing firearms into the United States.

Machine gun. Any weapon which shoots, is designed to shoot, or can be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger. The term shall also include the frame or receiver of any such weapon, any part designed and intended solely and exclusively, or combination of parts designed and intended, for use in converting a weapon into a machine gun, and any combination of parts from which a machine gun can be assembled if such parts are in the possession or under the control of a person.

Make. This term and the various derivatives thereof shall include manufacturing (other than by one qualified to engage in such business under this part), putting together, altering, any combination of these, or otherwise producing a firearm.

Manual reloading. The inserting of a cartridge or shell into the chamber of a firearm either with the hands or by means of a mechanical device controlled and energized by the hands.

Muffler or silencer. Any device for silencing, muffling, or diminishing the report of a portable firearm, including any combination of parts, designed or redesigned, and intended for the use in assembling or fabricating a firearm silencer or firearm muffler, and any part intended only for use in such assembly or fabrication.

Person. A partnership, company, association, trust, estate, or corporation, as well as a natural person.

Pistol. A weapon originally designed, made, and intended to fire a projectile (bullet) from one or more barrels when held in one hand, and having (a) a chamber(s) as an integral part(s) of, or permanently aligned with, the bore(s); and (b) a short stock designed to be gripped by one hand and at an angle to and extending below the line of the bore(s).

Regional director (compliance). The principal ATF regional official responsible for administering regulations in this part.

Revolver. A projectile weapon, of the pistol type, having a breechloading chambered cylinder so arranged that the cocking of the hammer or movement of the trigger rotates it and brings the next cartridge in line with the barrel for firing.

Rifle. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed cartridge.

Shotgun. A weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed shotgun shell to fire through a smooth bore either a number of projectiles (ball shot) or a single projectile for each pull of the trigger, and shall include any such weapon which may be readily restored to fire a fixed shotgun shell.

Transfer. This term and the various derivatives thereof shall include selling, assigning, pledging, leasing, loaning, giving away, or otherwise disposing of.

United States. The States and the District of Columbia.

Unserviceable firearm. A firearm which is incapable of discharging a shot by means of an explosive and incapable of being readily restored to a firing condition.

Subpart C—Administrative and Miscellaneous Provisions

§ 479.21 Forms prescribed.

(a) The Director is authorized to prescribe all forms required by this part. All of the information called for in each form shall be furnished as indicated by the headings on the form and the instructions on or pertaining to the form. In addition, information called for in each form shall be furnished as required by this part. Each form requiring that it be executed under penalties of perjury shall be executed under penalties of perjury.

(b) Requests for forms should be
§ 479.22 Right of entry and examination.

Any ATF officer or employee of the Bureau of Alcohol, Tobacco and Firearms duly authorized to perform any function relating to the administration or enforcement of this part may enter during business hours the premises (including places of storage) of any importer or manufacturer of or dealer in firearms, to examine any books, papers, or records required to be kept pursuant to this part, and any firearms kept by such importer, manufacturer or dealer on such premises, and may require the production of any books, papers, or records necessary to determine any liability for tax under 26 U.S.C. Chapter 53, or the observance of 26 U.S.C. Chapter 53, and this part.

§ 479.23 Restrictive use of required information.

No information or evidence obtained from an application, registration, or record required to be submitted or retained by a natural person in order to comply with any provision of 26 U.S.C. Chapter 53, or this part or section 207 of the Gun Control Act of 1968 shall be used, directly or indirectly, as evidence against that person in a criminal proceeding with respect to a violation of law occurring prior to or concurrently with the filing of the application or registration, or the compiling of the record containing the information or evidence: Provided, however, that the provisions of this section shall not preclude the use of any such information or evidence in a prosecution or other action under any applicable provision of law with respect to the furnishing of false information.

§ 479.24 Destructive device determination.

The Director shall determine in accordance with 26 U.S.C. 5845(f) whether a device is excluded from the definition of a destructive device. A person who desires to obtain a determination under that provision of law for any device which he believes is not likely to be used as a weapon shall submit a written request, in triplicate, for a ruling thereon to the Director. Each such request shall be executed under the penalties of perjury and contain a complete and accurate description of the device, the name and address of the manufacturer or importer thereof, the purpose of and use for which it is intended, and such photographs, diagrams, or drawings as may be necessary to enable the Director to make his determination. The Director may require the submission to him, of a sample of such device for examination and evaluation. If the submission of such device is impracticable, the person requesting the ruling shall so advise the Director and designate the place where the device will be available for examination and evaluation.

§ 479.25 Collector's items.

The Director shall determine in accordance with 26 U.S.C. 5845(a) whether a firearm or device, which although originally designed as a weapon, is by reason of the date of its manufacture, value, design, and other characteristics primarily a collector's item and is not likely to be used as a weapon. A person who desires to obtain a determination under that provision of law shall follow the procedures prescribed in § 479.24 relating to destructive device determinations, and shall include information as to date of manufacture, value, design and other characteristics which would sustain a finding that the firearm or device is primarily a collector's item and is not likely to be used as a weapon.

§ 479.26 Alternate methods or procedures; emergency variations from requirements.

(a) Alternate methods or procedures. Any person subject to the provisions of this part, on specific approval by the Director as provided in this paragraph, may use an alternate method or procedure in lieu of a method or procedure specifically prescribed in this part. The Director may approve an alternate method or procedure, subject to stated conditions, when it is found that:

(1) Good cause is shown for the use of the alternate method or procedure;

(2) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure and that the alternate method or procedure is substantially equivalent to that specifically prescribed method or procedure; and

(3) The alternate method or procedure will not be contrary to any provision of law and will not result in an increase in cost to the Government or hinder the effective administration of this part. Where such person desires to employ an alternate method or procedure, a written application shall be submitted to the appropriate regional director (compliance), for transmittal to the Director. The application shall specifically describe the proposed alternate method or procedure and shall set forth the reasons for it. Alternate methods or procedures may not be employed until the application is approved by the Director. Such person shall, during the period of authorization of an alternate method or procedure, comply with the terms of the approved application. Authorization of any alternate method or procedure may be withdrawn whenever, in the judgment of the Director, the effective administration of this part is hindered by the continuation of the authorization.

(b) Emergency variations from requirements. The Director may approve a method of operation other than as specified in this part, where it is found that an emergency exists and the proposed variation from the specified requirements are necessary and the proposed variations (1) will not hinder the effective administration of this part, and (2) will not be contrary to any provisions of law. Variations from requirements granted under this paragraph are conditioned on compliance with the procedures, conditions, and limitations set forth in the approval of the application. Failure to comply in good faith with the procedures, conditions, and limitations shall automatically terminate the authority for the variations, and the person granted the variance shall fully comply with the prescribed requirements of regulations from which the variations were authorized. Authority for any variation may be withdrawn.
whenever, in the judgment of the Director, the effective administration of this part is hindered by the continuation of the variation. Where a person desires to employ an emergency variation, a written application shall be submitted to the appropriate regional director (compliance) for transmittal to the Director. The application shall describe the proposed variation and set forth the reasons for it. Variations may not be employed until the application is approved.

(c) Retention of approved variations. The person granted the variance shall retain and make available for examination by ATF officers any application approved by the Director under this section.

Subpart D—Special (Occupational) Taxes

§ 479.31 Liability for tax.

(a) General. Every person who engages in the business of importing, manufacturing, or dealing in (including pawnbrokers) firearms in the United States shall pay a special (occupational) tax at a rate specified by § 479.32. The tax shall be paid on or before the date of commencing the taxable business, and thereafter every year on or before July 1. Special (occupational) tax shall not be prorated. The tax shall be computed for the entire tax year (July 1 through June 30), regardless of the portion of the year during which the taxpayer engages in business. Persons commencing business at any time after July 1 in any year are liable for the special (occupational) tax for the entire tax year.

(b) Each place of business taxable. An importer, manufacturer, or dealer in firearms incurs special tax liability at each place of business where an occupation subject to special tax is conducted. A place of business means the entire office, plant or area of the business in any one location under the same proprietorship. Passageways, streets, highways, rail crossings, waterways, or partitions dividing the premises are not sufficient separation to require additional special tax, if the divisions of the premises are otherwise contiguous. See also §§ 479.38–479.39.

§ 479.32 Special (occupational) tax rates.

(a) Prior to January 1, 1988, the special (occupational) tax rates were as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Description</th>
<th>Tax Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Importer of firearms</td>
<td>$500.00</td>
</tr>
<tr>
<td>2</td>
<td>Manufacturer of firearms</td>
<td>$500.00</td>
</tr>
<tr>
<td>3</td>
<td>Dealer in firearms</td>
<td>$200.00</td>
</tr>
</tbody>
</table>

(b) Except as provided in § 479.32a, the special (occupational) tax rates effective January 1, 1988, are as follows:

<table>
<thead>
<tr>
<th>Class</th>
<th>Description</th>
<th>Tax Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>4</td>
<td>Importer only of weapons classified as “any other weapon”</td>
<td>$25.00</td>
</tr>
<tr>
<td>5</td>
<td>Manufacturer only of weapons classified as “any other weapon”</td>
<td>$25.00</td>
</tr>
<tr>
<td>6</td>
<td>Dealer only in weapons classified as “any other weapon”</td>
<td>$10.00</td>
</tr>
</tbody>
</table>

(c) A taxpayer who was engaged in a business on January 1, 1988, for which a special (occupational) tax was paid for a taxable period which began before January 1, 1988, and included that date, shall pay an increased special tax for the period January 1, 1988, through June 30, 1988. The increased tax shall not exceed one-half the excess (if any) of (1) the rate of special tax in effect on January 1, 1988, over (2) the rate of such tax in effect on December 31, 1987. The increased special tax shall be paid on or before April 1, 1988.

§ 479.32a Reduced rate of tax for small importers and manufacturers.

(a) General. Effective January 1, 1988, 26 U.S.C. 5801(b) provides for a reduced rate of special tax with respect to any importer or manufacturer whose gross receipts (for the most recent taxable year ending before the first day of the taxable period to which the special tax imposed by § 479.32 relates) are less than $500,000. The rate of tax for such an importer or manufacturer is $500 per year or fraction thereof. The “taxable year” to be used for determining gross receipts is the taxpayer’s income tax year. All gross receipts of the taxpayer shall be included, not just the gross receipts of the business subject to special tax. Proprietors of new businesses that have not yet begun a taxable year, as well as proprietors of existing businesses that have not yet ended a taxable year, who commence a new activity subject to special tax, quality for the reduced special (occupational) tax rate, unless the business is a member of a “controlled group;” in that case, the rules of paragraph (b) of this section shall apply.

(b) Controlled group. All persons treated as one taxpayer under 26 U.S.C. 5061(e)(3) shall be treated as one taxpayer for the purpose of determining gross receipts under paragraph (a) of this section. “Controlled group” means a controlled group of corporations, as defined in 26 U.S.C. 1563 and implementing regulations in 26 CFR 1.1563–1 through 1.1563–4, except that the words “at least 80 percent” shall be replaced by the words “more than 50 percent” in each place they appear in subsection (a)
of 26 U.S.C. 1563, as well as in the implementing regulations. Also, the rules for a “controlled group of corporations” apply in a similar fashion to groups which include partnerships and/or sole proprietorships. If one entity maintains more than 50% control over a group consisting of corporations and one, or more, partnerships and/or sole proprietorships, all of the members of the controlled group are one taxpayer for the purpose of this section.

(c) Short taxable year. Gross receipts for any taxable year of less than 12 months shall be annualized by multiplying the gross receipts for the short period by 12 and dividing the result by the number of months in the short period, as required by 26 U.S.C. 448(c)(3).

(d) Returns and allowances. Gross receipts for any taxable year shall be reduced by returns and allowances made during that year under 26 U.S.C. 448(c)(3).

§ 479.33 Special exemption.

(a) Any person required to pay special (occupational) tax under this part shall be relieved from payment of that tax if he establishes to the satisfaction of the Director that his business is conducted exclusively with, or on behalf of, the United States or any department, independent establishment, or agency thereof. The Director may relieve any person manufacturing firearms for or on behalf of the United States from compliance with any provision of this part in the conduct of the business with respect to such firearms.

(b) The exemption in this section may be obtained by filing with the Director an application, in letter form, setting out the manner in which the applicant conducts his business, the type of firearm to be manufactured, and proof satisfactory to the Director of the existence of the contract with the United States, department, independent establishment, or agency thereof, under which the applicant intends to operate.

§ 479.34 Special tax registration and return.

(a) General. Special tax shall be paid by return. The prescribed return is ATF Form 5630.7, Special Tax Registration and Return. Special tax returns, with payment of tax, shall be filed with ATF in accordance with instructions on the form. Properly completing, signing, and timely filing of a return (Form 5630.7) constitutes compliance with 26 U.S.C. 5802.

(b) Preparation of ATF Form 5630.7. All of the information called for on Form 5630.7 shall be provided, including:

1. The true name of the taxpayer.
2. The trade name(s) (if any) of the business(es) subject to special tax.
3. The employer identification number (see § 479.35).
4. The exact location of the place of business, by name and number of building or street, or if these do not exist, by some description in addition to the postal address. In the case of one return for two or more locations, the address to be shown shall be the taxpayer’s principal place of business (or principal office, in the case of a corporate taxpayer).
5. The class(es) of special tax to which the taxpayer is subject.
6. Ownership and control information: That is, the name, position, and address of every owner of the business and of every person having power to control its management and policies with respect to the activity subject to special tax. “Owner of the business” shall include every partner, if the taxpayer is a partnership, and every person owning 10% or more of its stock, if the taxpayer is a corporation. However, the ownership and control information required by this paragraph need not be stated if the same information has been previously provided to ATF in connection with a license application under Part 478 of this chapter, and if the information previously provided is still current.
7. Multiple locations and/or classes of tax. A taxpayer subject to special tax for the same period at more than one location or for more than one class of tax shall—

1. File one special tax return, ATF Form 5630.7, with payment of tax, to cover all such locations and classes of tax; and
2. Prepare, in duplicate, a list identified with the taxpayer’s name, address (as shown on ATF Form 5630.7), employer identification number, and period covered by the return. The list shall show, by States, the name, address, and tax class of each location for which special tax is being paid. The original of the list shall be filed with ATF in accordance with instructions on the return, and the copy shall be retained at the taxpayer’s principal place of business (or principal office, in the case of a corporation, the title of the officer).

(d) Signing of ATF Forms 5630.7—
1. Ordinary returns. The return of an individual proprietor shall be signed by the individual. The return of a partnership shall be signed by a general partner. The return of a corporation shall be signed by any officer. In each case, the person signing the return shall designate his or her capacity as “individual owner,” “member of firm,” or, in the case of a corporation, the title of the officer.

2. Fiduciaries. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the business of a bankrupt, insolvent, deceased person, etc., shall indicate the fiduciary capacity in which they act.

3. Agent or attorney in fact. If a return is signed by an agent or attorney in fact, the signature shall be preceded by the name of the principal and followed by the title of the agent or attorney in fact. A return signed by a person as agent will not be accepted unless there is filed, with the ATF office with which the return is required to be filed, a power of attorney authorizing the agent to perform the act.

4. Perjury statement. ATF Forms 5630.7 shall contain or be verified by a written declaration that the return has been executed under the penalties of perjury.

(e) Identification of taxpayer. If the taxpayer is an individual, with
§ 479.35 Employer identification number.

(a) Requirement. The employer identification number (defined in 26 CFR 301.7701–12) of the taxpayer who has been assigned such a number shall be shown on each special tax return, including amended returns, filed under this subpart. Failure of the taxpayer to include the employer identification number may result in the imposition of the penalty specified in § 70.113 of this chapter.

(b) Application for employer identification number. Each taxpayer who files a special tax return, who has not already been assigned an employer identification number, shall file IRS Form SS–4 to apply for one. The taxpayer shall apply for and be assigned only one employer identification number, regardless of the number of places of business for which the taxpayer is required to file a special tax return. The employer identification number shall be applied for no later than 7 days after the filing of the taxpayer’s first special tax return. IRS Form SS–4 may be obtained from the director of an IRS service center or from any IRS district director.

(c) Preparation and filing of IRS Form SS–4. The taxpayer shall prepare and file IRS Form SS–4, together with any supplementary statement, in accordance with the instructions on the form or issued in respect to it.

§ 479.36 The special tax stamp, receipt for special (occupational) taxes.

Upon filing a properly completed and executed return (Form 5630.7) accompanied by remittance of the full amount due, the taxpayer will be issued a special tax stamp as evidence of payment of the special (occupational) tax.

§ 479.37 Certificates in lieu of stamps lost or destroyed.

When a special tax stamp has been lost or destroyed, such fact should be reported immediately to the regional director (compliance) who issued the stamp. A certificate in lieu of the lost or destroyed stamp will be issued to the taxpayer upon the submission of an affidavit showing to the satisfaction of the regional director (compliance) that the stamp was lost or destroyed.

§ 479.38 Engaging in business at more than one location.

A person shall pay the special (occupational) tax for each location where he engages in any business taxable under 26 U.S.C. 5801. However, a person paying a special (occupational) tax covering his principal place of business may utilize other locations solely for storage of firearms without incurring special (occupational) tax liability at such locations. A manufacturer, upon the single payment of the appropriate special (occupational) tax, may sell firearms, if such firearms are of his own manufacture, at the place of manufacture and at his principal office or place of business if no such firearms, except samples, are kept at such office or place of business. When a person changes the location of a business for which he has paid the special (occupational) tax, he will be liable for another such tax unless the change is properly registered with the regional director (compliance) for the region in which the special tax stamp was issued, as provided in § 479.46.

§ 479.39 Engaging in more than one business at the same location.

If more than one business taxable under 26 U.S.C. 5801 is carried on at the same location during a taxable year, the special (occupational) tax imposed on each such business must be paid. This section does not require a qualified manufacturer or importer to qualify as a dealer if such manufacturer or importer also engages in business on his qualified premises as a dealer. However, a qualified manufacturer who engages in business as an importer must also qualify as an importer. Further, a qualified dealer is not entitled to engage in business as a manufacturer or importer.

§ 479.40 Partnership liability.

Any number of persons doing business in partnership at any one location shall be required to pay but one special (occupational) tax.

§ 479.41 Single sale.

A single sale, unattended by circumstances showing the one making the sale to be engaged in business, does not create special (occupational) tax liability.

Change of Ownership

§ 479.42 Changes through death of owner.

Whenever any person who has paid special (occupational) tax dies, the surviving spouse or child, or executors or administrators, or other legal representatives, may carry on this business for the remainder of the term for which tax has been paid and at the place (or places) for which the tax was paid, without any additional payment, subject to the following conditions. If the surviving spouse or child, or executor or administrator, or other legal representative of the deceased taxpayer continues the business, such person shall, within 30 days after the date on which the successor begins to carry on the business, file a new return, Form 5630.7, with ATF in accordance with the instructions on the form. The return thus executed shall show the name of the original taxpayer, together with the basis of the succession. (As to liability in case of failure to register, see § 479.49.)

§ 479.43 Changes through bankruptcy of owner.

A receiver or referee in bankruptcy may continue the business under the stamp issued to the tax-
payers at the place and for the period for which the tax was paid. An assignee for the benefit of creditors may continue business under his assignor's special tax stamp without incurring additional special (occupational) tax liability. In such cases, the change shall be registered with ATF in a manner similar to that required by § 479.42.

§ 479.44 Change in partnership or unincorporated association.

When one or more members withdraw from a partnership or an unincorporated association, the remaining member, or members, may, without incurring additional special (occupational) tax liability, carry on the same business at the same location for the balance of the taxable period for which special (occupational) tax was paid, provided any such change shall be registered in the same manner as required by § 479.42. Where new member(s) are taken into a partnership or an unincorporated association, the new firm so constituted may not carry on business under the special tax stamp of the old firm. The new firm must file a return, pay the special (occupational) tax and register in the same manner as a person who first engages in business is required to do under § 479.34 even though the name of the new firm may be the same as that of the old. Where the members of a partnership or an unincorporated association, which has paid special (occupational) tax, form a corporation to continue the business, a new special tax stamp must be taken out in the name of the corporation.

§ 479.45 Changes in corporation.

Additional special (occupational) tax is not required by reason of a mere change of name or increase in the capital stock of a corporation if the laws of the State of incorporation provide for such change or increase without the formation of a new corporation. A stockholder in a corporation, who after its dissolution continues the business, incurs new special (occupational) tax liability.

Change of Business Location

§ 479.46 Notice by taxpayer.

Whenever during the taxable year a taxpayer intends to remove his business to a location other than specified in his last special (occupational) tax return (see § 479.34), he shall file with ATF (a) a return, Form 5630.7, bearing the notation "Removal Registry," and showing the new address intended to be used, (b) his current special tax stamp, and (c) a letter application requesting the amendment of his registration. The regional director (compliance), upon approval of the application, shall return the special tax stamp, amended to show the new business location. Firearms operations shall not be commenced at the new business location by the taxpayer prior to the required approval of his application to so change his business location.

Change of Trade Name

§ 479.47 Notice by taxpayer.

Whenever during the taxable year a taxpayer intends to change the name of his business, he shall file with ATF (a) a return, Form 5630.7, bearing the notation "Amended," and showing the trade name intended to be used, (b) his current special tax stamp, and (c) a letter application requesting the amendment of his registration. The regional director (compliance), upon approval of the application, shall return the special tax stamp, amended to show the new trade name. Firearms operations shall not be commenced under the new trade name by the taxpayer prior to the required approval of his application to so change the trade name.

Penalties and Interest

§ 479.48 Failure to pay special (occupational) tax.

Any person who engages in a business taxable under 26 U.S.C. 5801, without timely payment of the tax imposed with respect to such business (see § 479.34) shall be liable for such tax, plus the interest and penalties thereon (see 26 U.S.C. 6601 and 6651). In addition, such person may be liable for criminal penalties under 26 U.S.C. 5871.

§ 479.49 Failure to register change or removal.

Any person succeeding to and carrying on a business for which special (occupational) tax has been paid without registering such change within 30 days thereafter, and any taxpayer removing his business with respect to which special (occupational) tax has been paid to a place other than that for which tax was paid without obtaining approval thereof (see § 479.46), will incur liability to an additional payment of the tax, addition to tax and interest, as provided in sections 5801, 6651, and 6601, respectively, I.R.C., for failure to make return (see § 479.50) or pay tax, as well as criminal penalties for carrying on business without payment of special (occupational) tax (see section 5871 I.R.C.).

§ 479.50 Delinquency.

Any person liable for special (occupational) tax under section 5801, I.R.C., who fails to file a return (Form 5630.7), as prescribed, will be liable for a delinquency penalty computed on the amount of tax due unless a return (Form 5630.7) is later filed and failure to file the return timely is shown to the satisfaction of the regional director (compliance), to be due to reasonable cause. The delinquency penalty to be added to the tax is 5 percent if the failure is for not more than 1 month, with an additional 5 percent for each additional month or fraction thereof during which failure continues, not to exceed 25 percent in the aggregate (section 6651, I.R.C.). However, no delinquency penalty is assessed where the 50 percent addition to tax is assessed for fraud (see § 479.51).

§ 479.51 Fraudulent return.

If any part of any underpayment of tax required to be shown on a return is due to fraud, there shall be added to the tax an amount equal to 50 percent of the underpayment, but no delinquency penalty shall be assessed with respect to the same underpayment (section 6653, I.R.C.).

Application of State Laws

§ 479.52 State regulations.

Special tax stamps are merely receipts for the tax. Payment of tax under Federal law confers no privilege to act contrary to State law. One to whom a special tax stamp has been issued may still be punishable under a State law prohibiting or controlling the manufacture, possession or transfer of firearms. On
the other hand, compliance with State law confers no immunity under Federal law. Persons who engage in the business of importing, manufacturing or dealing in firearms, in violation of the law of a State, are nevertheless required to pay special (occupational) tax as imposed under the internal revenue laws of the United States. For provisions relating to restrictive use of information furnished to comply with the provisions of this part see § 479.23.

Subpart E—Tax on Making Firearms

§ 479.61 Rate of tax.

Except as provided in this subpart, there shall be levied, collected, and paid upon the making of a firearm a tax at the rate of $200 for each firearm made. This tax shall be paid by the person making the firearm. Payment of the tax on the making of a firearm shall be represented by a $200 adhesive stamp bearing the words "National Firearms Act." The stamps are maintained by the Director.

Application to Make a Firearm

§ 479.62 Application to make.

No person shall make a firearm unless the person has filed with the Director a written application on Form 1 (Firearms), Application to Make and Register a Firearm, in duplicate, executed under the penalties of perjury, to make and register the firearm and has received the approval of the Director to make the firearm which approval shall effectuate registration of the weapon to the applicant. The application shall identify the firearm to be made by serial number, type, model, caliber or gauge, length of barrel, other marks of identification, and the name and address of the original manufacturer (if the applicant is not the original manufacturer). The applicant must be identified on the Form 1 (Firearms) by name and address and, if other than a natural person, the name and address of the principal officer or authorized representative and the employer identification number and, if an individual, the identification must include the date and place of birth and the information prescribed in § 479.63. Each applicant shall identify the Federal firearms license and special (occupational) tax stamp issued to the applicant, if any. The applicant shall also show required information evidencing that making or possession of the firearm would not be in violation of law. If the making is taxable, a remittance in the amount of $200 shall be submitted with the application in accordance with the instructions on the form. If the making is taxable and the application is approved, the Director will affix a National Firearms Act stamp to the original application in the space provided therefor and properly cancel the stamp (see § 479.67). The approved application will be returned to the applicant. If the making of the firearm is tax exempt under this part, an explanation of the basis of the exemption shall be attached to the Form 1 (Firearms).

§ 479.63 Identification of applicant.

If the applicant is an individual, the applicant shall securely attach to each copy of the Form 1 (Firearms), in the space provided on the form, a photograph of the applicant 2 × 2 inches in size, clearly showing a full front view of the features of the applicant with head bare, with the distance from the top of the head to the point of the chin approximately 1 1/4 inches, and which shall have been taken within 1 year prior to the date of the application. The applicant shall attach two properly completed FBI Form F-B 250 (Fingerprint Card) to the application. The fingerprints must be clear for accurate classification and should be taken by someone properly equipped to take them. A certificate of the local chief of police, sheriff of the county, head of the State police, State or local district attorney or prosecutor, or such other person whose certificate may in a particular case be acceptable to the Director, shall be completed on each copy of the Form 1 (Firearms). The certificate shall state that the certifying official is satisfied that the fingerprints and photograph accompanying the application are those of the applicant and that the certifying official has no information indicating that possession of the firearm by the maker would be in violation of State or local law or that the maker will use the firearm for other than lawful purposes.

§ 479.64 Procedure for approval of application.

The application to make a firearm, Form 1 (Firearms), must be forwarded directly, in duplicate, by the maker of the firearm to the Director in accordance with the instructions on the form. The Director will consider the application for approval or disapproval. If the application is approved, the Director will return the original thereof to the maker of the firearm and retain the duplicate. Upon receipt of the approved application, the maker is authorized to make the firearm described therein. The maker of the firearm shall not, under any circumstances, make the firearm until the application, satisfactorily executed, has been forwarded to the Director and has been approved and returned by the Director with the National Firearms Act stamp affixed. If the application is disapproved, the original Form 1 (Firearms) and the remittance submitted by the applicant for the purchase of the stamp will be returned to the applicant with the reason for disapproval stated on the form.

§ 479.65 Denial of application.

An application to make a firearm shall not be approved by the Director if the making or possession of the firearm would place the person making the firearm in violation of law.

§ 479.66 Subsequent transfer of firearms.

Where a firearm which has been made in compliance with 26 U.S.C. 5821, and the regulations contained in this part, is to be transferred subsequently, the transfer provisions of the firearms laws and regulations must be complied with. (See subpart F of this part).

§ 479.67 Cancellation of stamp.

The person affixing to a Form 1 (Firearms) a "National Firearms Act" stamp shall cancel it by writing or stamping thereon, in ink, his initials, and the day, month and year, in such manner as to render it unfit for reuse. The cancellation shall not so deface the stamp as to prevent its denomination and genuineness from being readily determined.
shall be made available to any ATF to establish proof of his registration of a firearm. The original Form 1 (Firearms) shall effectuate registration of the firearm described in the Form 1. A manufacturer shall report and register each firearm made in the manner prescribed by this part.

§ 479.69 Making a firearm for the United States.

A firearm may be made by, or on behalf of, the United States or any department, independent establishment, or agency thereof without payment of the making tax. However, if a firearm is to be made on behalf of the United States, the manufacturer must file an application, in duplicate, on Form 1 (Firearms) and obtain the approval of the Director in the manner prescribed in § 479.62.

§ 479.70 Certain government entities.

A firearm may be made without payment of the making tax by, or on behalf of, any State, or possession of the United States, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations. Any person making a firearm under this exemption shall first file an application, in duplicate, on Form 1 (Firearms) and obtain the approval of the Director as prescribed in § 479.62.

Registration

§ 479.71 Proof of registration.

The approval by the Director of an application, Form 1 (Firearms), to make a firearm under this subpart shall effectuate registration of the firearm described in the Form 1 (Firearms) to the person making the firearm. The original Form 1 (Firearms) showing approval by the Director shall be retained by the maker to establish proof of his registration of the firearm described therein, and shall be made available to any ATF officer on request.

Subpart F—Transfer Tax

§ 479.81 Scope of tax.

Except as otherwise provided in this part, each transfer of a firearm in the United States is subject to a tax to be represented by an adhesive stamp of the proper denomination bearing the words “National Firearms Act” to be affixed to the Form 4 (Firearms), Application for Transfer and Registration of Firearm, as provided in this subpart.

§ 479.82 Rate of tax.

The transfer tax imposed with respect to firearms transferred within the United States is at the rate of $200 for each firearm transferred, except that the transfer tax on any firearm classified as “any other weapon” shall be at the rate of $5 for each such firearm transferred. The tax imposed on the transfer of the firearm shall be paid by the transferor.

§ 479.83 Transfer tax in addition to import duty.

The transfer tax imposed by section 5811, I.R.C., is in addition to any other tax to be represented by an adhesive stamp of the proper denomination being affixed to the application, Form 4 (Firearms), properly cancelled.

§ 479.84 Application to transfer.

Except as otherwise provided in this subpart, no firearm may be transferred in the United States unless an application, Form 4 (Firearms), Application for Transfer and Registration of Firearm, in duplicate, executed under the penalties of perjury to transfer the firearm and register it to the transferee has been filed with and approved by the Director. The application, Form 4 (Firearms), shall be filed by the transferor and shall identify the firearm to be transferred by type; serial number; name and address of the manufacturer and importer, if known; model; caliber, gauge or size; in the case of a short-barreled shotgun or a short-barreled rifle, the length of the barrel; in the case of a weapon made from a rifle or shotgun, the overall length of the weapon and the length of the barrel; and any other identifying marks on the firearm. In the event the firearm does not bear a serial number, the applicant shall obtain a serial number from the Regional director (compliance) and shall stamp (impress) or otherwise conspicuously place such serial number on the firearm in a manner not susceptible of being readily obliterated, altered or removed. The application, Form 4 (Firearms), shall identify the transferor by name and address; shall identify the transferee's Federal firearms license and special (occupational) Chapter tax stamp, if any; and if the transferee is other than a natural person, shall show the title or status of the person executing the application. The application also shall identify the transferee by name and address, and, if the transferee is a natural person not qualified as a manufacturer, importer or dealer under this part, he shall be further identified in the manner prescribed in § 479.85. The application also shall identify the special (occupational) tax stamp and Federal firearms license of the transferee, if any. Any tax payable on the transfer must be represented by an adhesive stamp of proper denomination being affixed to the application, Form 4 (Firearms), properly cancelled.

§ 479.85 Identification of transferee.

If the transferee is an individual, such person shall securely attach to each copy of the application, Form 4 (Firearms), in the space provided on the form, a photograph of the applicant 2 × 2 inches in size, clearly showing a full front view of the features of the applicant with head bare, with the distance from the top of the head to the point of the chin approximately 1 1/4 inches, and which shall have been taken within 1 year prior to the date of the application. The transferee shall attach two properly completed FBI Forms FD–258 (Fingerprint Card) to the application. The fingerprints must be clear for accurate classification and should be taken by someone properly equipped to take them. A certificate of the local chief of police, sheriff of the county, head of the State police, State or local district attorney or prosecutor, or such other person whose certificate may in a particular case be acceptable to the Director, shall be completed on each copy of the Form 4 (Firearms). The certificate shall state that the certifying official is satisfied that the fingerprints and photograph accompanying the application are those of the applicant and that the certifying official has no information indicating that the receipt or possession of the firearm would place the transferee in violation of State or local law or that the transferee will...
use the firearm for other than lawful purposes.

§ 479.86 Action on application.

The Director will consider a completed and properly executed application, Form 4 (Firearms), to transfer a firearm. If the application is approved, the Director will affix the appropriate National Firearms Act stamp, cancel it, and return the original application showing approval to the transferor who may then transfer the firearm to the transferee along with the approved application. The approval of an application, Form 4 (Firearms), by the Director will effectuate registration of the firearm to the transferee. The transferee shall not take possession of a firearm until the application, Form 4 (Firearms), for the transfer filed by the transferor has been approved by the Director and registration of the firearm is effectuated to the transferee. The transferee shall retain the approved application as proof that the firearm described therein is registered to the transferee, and shall make the approved Form 4 (Firearms) available to any ATF officer on request. If the application, Form 4 (Firearms), to transfer a firearm is disapproved by the Director, the original application and the remittance for purchase of the stamp will be returned to the transferor with reasons for the disapproval stated on the application. An application, Form 4 (Firearms), to transfer a firearm shall be denied if the transferor, receipt, or possession of a firearm would place the transferee in violation of law. In addition to any other records checks that may be conducted to determine whether the transfer, receipt, or possession of a firearm would place the transferee in violation of law, the Director shall contact the National Instant Criminal Background Check System.

§ 479.87 Cancellation of stamp.

The method of cancellation of the stamp required by this subpart as prescribed in § 479.67 shall be used.

Exemptions Relating to Transfers of Firearms

§ 479.88 Special (occupational) taxpayers.

(a) A firearm registered to a person qualified under this part to engage in business as an importer, manufacturer, or dealer may be transferred by that person without payment of the transfer tax to any other person qualified under this part to manufacture, import, or deal in firearms.

(b) The exemption provided in paragraph (a) of this section shall be obtained by the transferee of the firearm filing with the Director an application, Form 3 (Firearms), Application for Tax-exempt Transfer of Firearm and Registration to Special (Occupational) Taxpayer, in duplicate, executed under the penalties of perjury. The application, Form 3 (Firearms), shall (1) show the name and address of the transferee, and of the transferee, (2) identify the Federal firearms license and special (occupational) tax stamp of the transferee and of the transferee, (3) show the name and address of the manufacturer and the importer of the firearm, if known, (4) show the type, model, overall length (if applicable), length of barrel, caliber, gauge or size, serial number, and other marks of identification of the firearm, and (5) contain a statement by the transferee that he is entitled to the exemption because the transferee is a person qualified under this part to manufacture, import, or deal in firearms. If the Director approves an application, Form 3 (Firearms), he shall return the original Form 3 (Firearms) to the transferee with the approval noted thereon. Approval of an application, Form 3 (Firearms), by the Director shall remove registration of the firearm reported thereon from the transferee and shall effectuate the registration of that firearm to the transferee. Upon receipt of the approved Form 3 (Firearms), the transferee shall deliver same with the firearm to the transferee. The transferee shall not transfer the firearm to the transferee until his application, Form 3 (Firearms), has been approved by the Director and the original thereof has been returned to the transferor. If the Director disapproves the application, Form 3 (Firearms), he shall return the original Form 3 (Firearms) to the transferee with the reasons for the disapproval stated thereon.

(c) The transferee shall be responsible for establishing the exempt status of the transferee before making a transfer under the provisions of this section. Therefore, before engaging in transfer negotiations with the transferee, the transferee shall satisfy himself as to the claimed exempt status of the transferee and the bona fides of the transaction. If not fully satisfied, the transferee should communicate with the Director, report all circumstances regarding the proposed transfer, and await the Director's advice before making application for the transfer. An unapproved transfer or a transfer to an unauthorized person may subject the transferee to civil and criminal liabilities. (See 26 U.S.C. 5852, 5861, and 5871.)

§ 479.89 Transfers to the United States.

A firearm may be transferred to the United States or any department, independent establishment or agency thereof without payment of the transfer tax. However, the procedures for the transfer of a firearm as provided in § 479.90 shall be followed in a tax-exempt transfer of a firearm under this section, unless the transferee is relieved of such requirement under other provisions of this part.

§ 479.90 Certain government entities.

(a) A firearm may be transferred without payment of the transfer tax to or from any State, possession of the United States, any political subdivision thereof, or any official police organization of such a governmental entity engaged in criminal investigations.

(b) The exemption provided in paragraph (a) of this section shall be obtained by the transferee of the firearm filing with the Director an Application, Form 5 (Firearms), Application for Tax-exempt Transfer and Registration of Firearm, in duplicate, executed under the penalties of perjury. The application shall (1) show the name and address of the transferee and of the transferee, (2) identify the Federal firearms license and special (occupational) tax stamp, if any, of the transferee and of the transferee, (3) show the name and address of the manufacturer and the importer of the firearm, if known, (4) show the type, model, overall length (if applicable), length of barrel, caliber, gauge or size, serial number, and other marks of identification of the firearm, and (5) contain a statement by the trans-
feror that the transferor is entitled to the exemption because either the transferor or the transferee is a governmental entity coming within the purview of paragraph (a) of this section. In the case of a transfer of a firearm by a governmental entity to a transferee who is a natural person not qualified as a manufacturer, importer, or dealer under this part, the transferee shall be further identified in the manner prescribed in §479.85. If the Director approves an application, Form 5 (Firearms), the original Form 5 (Firearms) shall be returned to the transferor with the approval noted thereon. Approval of an application, Form 5 (Firearms), by the Director shall effectuate the registration of that firearm to the transferee. Upon receipt of the approved Form 5 (Firearms), the transferee shall deliver same with the firearm to the transferee. The transferor shall not transfer the firearm to the transferee until the application, Form 5 (Firearms), has been approved by the Director and the original thereof has been returned to the transferor. If the Director disapproves the application, Form 5 (Firearms), the original Form 5 (Firearms) shall be returned to the transferor with the reasons for the disapproval stated thereon. An application by a governmental entity to transfer a firearm shall be denied if the transfer, receipt, or possession of a firearm would place the transferee in violation of law.

(c) The transferor shall be responsible for establishing the exempt status of the transferee before making a transfer under the provisions of this section. Therefore, before engaging in transfer negotiations with the transferee, the transferor should satisfy himself of the claimed exempt status of the transferee and the bona fide of the transaction. If not fully satisfied, the transferor should communicate with the Director regarding the proposed transfer, and await the Director’s advice before making application for transfer. An unapproved transfer or a transfer to an unauthorized person may subject the transferor to civil and criminal liabilities. (See 26 U.S.C. 5811, 5852, 5861, and 5871.)

§479.91 Unserviceable firearms.

An unserviceable firearm may be transferred as a curio or ornament without payment of the transfer tax. However, the procedures for the transfer of a firearm as provided in §479.90 shall be followed in a tax-exempt transfer of a firearm under this section, except a statement shall be entered on the transfer application, Form 5 (Firearms), by the transferor that he is entitled to the exemption because the firearm to be transferred is unserviceable and is being transferred as a curio or ornament. An unapproved transfer, the transfer of a firearm under the provisions of this section which is in fact not an unserviceable firearm, or the transfer of an unserviceable firearm as something other than a curio or ornament, may subject the transferor to civil and criminal liabilities. (See 26 U.S.C. 5811, 5852, 5861, and 5871.)

§479.92 Transportation of firearms to effect transfer.

Notwithstanding any provision of §478.28 of this chapter, it shall not be required that authorization be obtained from the Director for the transportation in interstate or foreign commerce of a firearm in order to effect the transfer of a firearm authorized under the provisions of this subpart.

Other Provisions

§479.93 Transfers of firearms to certain persons.

Where the transfer of a destructive device, machine gun, short-barreled shotgun, or short-barreled rifle is to be made by a person licensed under the provisions of Title I of the Gun Control Act of 1968 (82 Stat. 1213) to a person not so licensed, the sworn statement required by §478.98 of this chapter shall be attached to and accompany the transfer application required by this subpart.

Subpart G—Registration and Identification of Firearms

§479.101 Registration of firearms.

(a) The Director shall maintain a central registry of all firearms in the United States which are not in the possession of or under the control of the United States. This registry shall be known as the National Firearms Registration and Transfer Record and shall include:

(1) Identification of the firearm as required by this part;

(2) Date of registration; and

(3) Identification and address of person entitled to possession of the firearm as required by this part.

(b) Each manufacturer, importer, and maker shall register each firearm he manufactures, imports, or makes in the manner prescribed by this part. Each firearm transferred shall be registered to the transferee by the transferor in the manner prescribed by this part. No firearm may be registered by a person unlawfully in possession of the firearm except during an amnesty period established under section 207 of the Gun Control Act of 1968 (82 Stat. 1235).

(c) A person shown as possessing firearms by the records maintained by the Director pursuant to the National Firearms Act (26 U.S.C. Chapter 53) in force on October 31, 1968, shall be considered to have registered the firearms in his possession which are disclosed by that record as being in his possession on October 31, 1968.

(d) The National Firearms Registration and Transfer Record shall include firearms registered to the possessors thereof under the provisions of section 207 of the Gun Control Act of 1968.

(e) A person possessing a firearm registered to him shall retain proof of registration which shall be made available to any ATF officer upon request.

(f) A firearm not identified as required by this part shall not be registered.

§479.102 How must firearms be identified?

(a) You, as a manufacturer, importer, or maker of a firearm, must legibly identify the firearm as follows:

(1) By engraving, casting, stamping (impressing), or otherwise conspicuously placing or causing to be engraved, cast, stamped (impressed) or placed on the frame or receiver thereof an individual serial number. The se-
rial number must be placed in a manner not susceptible of being readily obliterated, altered, or removed, and must not duplicate any serial number placed by you on any other firearm. For firearms manufactured, imported, or made on and after January 30, 2002, the engraving, casting, or stamping (impressing) of the serial number must be to a minimum depth of .003 inch and in a print size no smaller than 1/16 inch; and

(2) By engraving, casting, stamping (impressing), or otherwise conspicuously placing or causing to be engraved, cast, stamped (impressed), or placed on the frame, receiver, or barrel thereof certain additional information. This information must be placed in a manner not susceptible of being readily obliterated, altered or removed. For firearms manufactured, imported, or made on and after January 30, 2002, the engraving, casting, or stamping (impressing) of this information must be to a minimum depth of .003 inch. The additional information includes:

(i) The model, if such designation has been made;

(ii) The caliber or gauge;

(iii) Your name (or recognized abbreviation) and also, when applicable, the name of the foreign manufacturer or maker;

(iv) In the case of a domestically made firearm, the city and State (or recognized abbreviation thereof) where you as the manufacturer maintain your place of business, or where you, as the maker, made the firearm; and

(v) In the case of an imported firearm, the name of the country in which it was manufactured and the city and State (or recognized abbreviation thereof) where you as the importer maintain your place of business. For additional requirements relating to imported firearms, see Customs regulations at 19 CFR part 154.

(b) The depth of all markings required by this section will be measured from the flat surface of the metal and not the peaks or ridges. The height of serial numbers required by paragraph (a)(1) of this section will be measured as the distance between the latitudinal ends of the character impression bottoms (bases).

(c) The Director may authorize other means of identification upon receipt of a letter application from you, submitted in duplicate, showing that such other identification is reasonable and will not hinder the effective administration of this part.

(d) In the case of a destructive device, the Director may authorize other means of identifying that weapon upon receipt of a letter application from you, submitted in duplicate, showing that engraving, casting, or stamping (impressing) such a weapon would be dangerous or impracticable.

(e) A firearm frame or receiver that is not a component part of a complete weapon at the time it is sold, shipped, or otherwise disposed of by you must be identified as required by this section.

(f)(1) Any part defined as a machine gun, muffler, or silencer for the purposes of this part that is not a component part of a complete firearm at the time it is sold, shipped, or otherwise disposed of by you must be identified as required by this section.

2 The Director may authorize other means of identification of parts defined as machine guns other than frames or receivers and parts defined as mufflers or silencers upon receipt of a letter application from you, submitted in duplicate, showing that such other identification is reasonable and will not hinder the effective administration of this part.

(Approved by the Office of Management and Budget under control number 1512–0550)

§ 479.103 Registration of firearms manufactured.

Each manufacturer qualified under this part shall file with the Director an accurate notice on Form 2 (Firearms), Notice of Firearms Manufactured or Imported, executed under the penalties of perjury, to show his manufacture of firearms. The notice shall set forth the name and address of the manufacturer, identify his special (occupational) tax stamp and Federal firearms license, and show the date of manufacture, the type, model, length of barrel, overall length, caliber, gauge or size, serial numbers, and other marks of identification of the firearms he manufactures, and the place where the manufactured firearms will be kept. All firearms manufactured by him during a single day shall be included on one notice, Form 2 (Firearms), filed by the manufacturer no later than the close of the next business day. The manufacturer shall prepare the notice, Form 2 (Firearms), in duplicate, file the original notice as prescribed herein and keep the copy with the records required by subpart I of this part at the premises covered by his special (occupational) tax stamp. Receipt of the notice, Form 2 (Firearms), by the Director shall effectuate the registration of the firearms listed on that notice. The requirements of this part relating to the transfer of a firearm are applicable to transfers by qualified manufacturers.

§ 479.104 Registration of firearms by certain governmental entities.

Any State, any political subdivision thereof, or any official police organization of such a government that is engaged in criminal investigations, which acquires for official use a firearm not registered to it, such as by abandonment or by forfeiture, will register such firearm with the Director by filing Form 10 (Firearms), Registration of Firearms Acquired by Certain Governmental Entities, and such registration shall become a part of the National Firearms Registration and Transfer Record. The application shall identify the applicant, describe each firearm covered by the application, show the location where each firearm usually will be kept, and, if the firearm is unserviceable, the application shall show how the firearm was made unserviceable. This section shall not apply to a firearm merely being held for use as evidence in a criminal proceeding. The Form 10 (Firearms) shall be executed in duplicate in accordance with the instructions thereon. Upon registering the firearm, the Director shall return the original Form 10 (Firearms) to the
Machine Guns

§ 479.105 Transfer and possession of machine guns.

(a) General. As provided by 26 U.S.C. 5812 and 26 U.S.C. 5822, an application to make or transfer a firearm shall be denied if the making, transfer, receipt, or possession of the firearm would place the maker or transferee in violation of law. Section 922(o), Title 18, U.S.C., makes it unlawful for any person to transfer or possess a machine gun, except a transfer to or by, or possession by or under the authority of, the United States or any department or agency thereof or a State, or a department, agency, or political subdivision thereof; or any lawful transfer or lawful possession of a machine gun that was lawfully possessed before May 19, 1986. Therefore, notwithstanding any other provision of this part, no application to make, transfer, or import a machine gun will be approved except as provided by this section.

(b) Machine guns lawfully possessed prior to May 19, 1986. A machine gun possessed in compliance with the provisions of this part prior to May 19, 1986, may continue to be lawfully possessed by the person to whom the machine gun is registered and may, upon compliance with the provisions of this part, be lawfully transferred to and possessed by the transferee.

(c) Importation and manufacture. Subject to compliance with the provisions of this part, importers and manufacturers qualified under this part may import and manufacture machine guns on or after May 19, 1986, for sale or distribution to any department or agency of the United States or any State or political subdivision thereof, or for use by dealers qualified under this part as sales samples as provided in paragraph (d) of this section. The registration of such machine guns under this part and their subsequent transfer shall be conditioned upon and restricted to the sale or distribution of such weapons for the official use of Federal, State or local governmental entities. Subject to compliance with the provisions of this part, manufacturers qualified under this part may manufacture machine guns on or after May 19, 1986, for export in compliance with the Arms Export Control Act (22 U.S.C. 2778) and regulations prescribed thereunder by the Department of State.

(d) Dealer sales samples. Subject to compliance with the provisions of this part, applications to transfer and register a machine gun manufactured or imported on or after May 19, 1986, to dealers qualified under this part will be approved if it is established by specific information that the expected governmental customers who would require a demonstration of the weapon, information as to the availability of the machine gun to fill subsequent orders, and letters from governmental entities expressing a need for a particular model or interest in seeing a demonstration of a particular weapon. Applications to transfer more than one machine gun of a particular model to a dealer must also establish the dealer's need for the quantity of samples sought to be transferred.

(e) The making of machine guns on or after May 19, 1986. Subject to compliance with the provisions of this part, applications to make and register machine guns on or after May 19, 1986, for the benefit of a Federal, State or local governmental entity (e.g., an invention for possible future use of a governmental entity or the making of a weapon in connection with research and development on behalf of such an entity) will be approved if it is established by specific information that the machine gun is particularly suitable for use by Federal, State or local governmental entities and that the making of the weapon is at the request and on behalf of such an entity.

(f) Discontinuance of business. Since section 922(o), Title 18, U.S.C., makes it unlawful to transfer or possess a machine gun except as provided in the law, any qualified manufacturer, importer, or dealer intending to discontinue business shall, prior to going out of business, transfer in compliance with the provisions of this part any machine gun manufactured or imported after May 19, 1986, to a Federal, State or local governmental entity, qualified manufacturer, qualified importer, or, subject to the provisions of paragraph (d) of this section, dealer qualified to possess such, machine gun.

Subpart H—Importation and Exportation

Importation

§ 479.111 Procedure.

(a) No firearm shall be imported or brought into the United States or any territory under its control or jurisdiction unless the person importing or bringing in the firearm establishes to the satisfaction of the Director that the firearm to be imported or brought in is being imported or brought in for:

(1) The use of the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or

(2) Scientific or research purposes; or

(3) Testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or registered dealer.

The burden of proof is affirmatively on any person importing or bringing the firearm into the United States or any territory under its control or jurisdiction to show that the firearm is being imported or brought in under one of the above paragraphs. Any person desiring to import or bring a firearm into the United States under this paragraph shall file with the Director an application on Form 6 (Firearms), Application and Permit for Importation of Firearms, Ammunition and Implements of War, in triplicate, executed under the penalties of perjury. The application shall show the information required by subpart G of Part 478 of this chapter. A detailed explanation of why the importation of the firearm falls within the standards set out in this paragraph shall be attached to the application. The person seeking to import or bring in the firearm will be notified of the approval or disapproval of his application. If the application is approved, the original Form 6 (Firearms) will
be returned to the applicant showing such approval and he will present the approved application, Form 6 (Firearms), to the Customs officer at the port of importation. The approval of an application to import a firearm shall be automatically terminated at the expiration of one year from the date of approval unless, upon request, it is further extended by the Director. If the firearm described in the approved application is not imported prior to the expiration of the approval, the Director shall be so notified. Customs officers will not permit release of a firearm from Customs custody, except for exportation, unless covered by an application which has been approved by the Director and which is currently effective. The importation or bringing in of a firearm not covered by an approved application may subject the person responsible to civil and criminal liabilities. (26 U.S.C. 5861, 5871, and 5872.)

(b) Part 478 of this chapter also contains requirements and procedures for the importation of firearms into the United States. A firearm may not be imported into the United States under this part unless those requirements and procedures are also complied with by the person importing the firearm.

(c) The provisions of this subpart shall not be construed as prohibiting the return to the United States or any territory under its control or jurisdiction of a firearm by a person who can establish to the satisfaction of Customs that (1) the firearm was taken out of the United States or any territory under its control or jurisdiction by such person, (2) the firearm is registered to that person, and (3) if appropriate, the authorization required by Part 478 of this chapter for the transportation of such a firearm in interstate or foreign commerce has been obtained by such person.

§ 479.112 Registration of imported firearms.

(a) Each importer shall file with the Director an accurate notice on Form 2 (Firearms), Notice of Firearms Manufactured or Imported, executed under the penalties of perjury, showing the importation of a firearm. The notice shall set forth the name and address of the importer, identify the importer's special (occupational) tax stamp and Federal firearms license, and show the import permit number, the date of release from Customs custody, the type, model, length of barrel, overall length, caliber, gauge or size, serial number, and other marks of identification of the firearm imported, and the place where the imported firearm will be kept. The Form 2 (Firearms) covering an imported firearm shall be filed by the importer no later than fifteen (15) days from the date the firearm was released from Customs custody. The importer shall prepare the notice, Form 2 (Firearms), in duplicate, file the original return as prescribed herein, and keep the copy with the records required by subpart I of this part at the premises covered by the special (occupational) tax stamp. The timely receipt by the Director of the notice, Form 2 (Firearms), and the timely receipt by the Director of the copy of Form 6A (Firearms), Release and Receipt ofImported Firearms, Ammunition and Implements of War, required by § 478.112 of this chapter, covering the weapon reported on the Form 2 (Firearms) by the qualified importer, shall effectuate the registration of the firearm to the importer.

(b) The requirements of this part relating to the transfer of a firearm are applicable to the transfer of imported firearms by a qualified importer or any other person.

(c) Subject to compliance with the provisions of this part, an application, Form 6 (Firearms), to import a firearm by an importer or dealer qualified under this part, for use as a sample in connection with sales of such firearms to Federal, State or local governmental entities, will be approved if it is established by specific information attached to the application that the firearm is suitable for governmental use. Applications to import more than one firearm of a particular model for use as a sample by an importer or dealer must also establish the importer's or dealer's need for the quantity of samples sought to be imported.

(d) Subject to compliance with the provisions of this part, an application, Form 6 (Firearms), to import a firearm by an importer or dealer qualified under this part, for use as a sample in connection with sales of such firearms to Federal, State or local governmental entities, will be approved if it is established by specific information attached to the application that the firearm is particularly suitable for use by such entities. Such information must show why a sales sample of a particular firearm is suitable for such use and the expected governmental customers who would require a demonstration of the firearm. Information as to the availability of the firearm to fill subsequent orders and letters from governmental entities expressing a need for a particular model or interest in seeing a demonstration of a particular firearm would establish suitability for governmental use. Applications to import more than one firearm of a particular model for use as a sample by an importer or dealer must also establish the importer's or dealer's need for the quantity of samples sought to be imported.

§ 479.113 Conditional importation.

The Director shall permit the conditional importation or bringing into the United States of any firearm for the purpose of examining and testing the firearm in connection with making a determination as to whether the importation or bringing in of such firearm will be authorized under this subpart. An application under this section shall be filed on Form 6 (Firearms), in triplicate, with the Director. The Director may impose conditions upon any importation under this section including a requirement that the firearm be shipped directly from Customs custody to the Director and that the person importing or bringing in the firearm must agree to either export the weapon or destroy it if a final determination is made that it may not be imported or brought in under this subpart. A firearm so imported or brought into the United States may be released from Customs custody in the manner prescribed by the conditional authorization of the
to the application, the intended port signee, number of firearms covered and address of the foreign consignee.

Part 1 of the application shall show the name and address of the foreign consignee, number of firearms covered by the application, the intended port of exportation, a complete description of each firearm to be exported, the name, address, State Department license number (or date of application if not issued), and identification of the special (occupational) tax stamp of the transferee. Part 1 of the application shall be executed under the penalties of perjury by the transferee and shall be supported by a certified copy of a written order or contract of sale or other evidence showing that the firearm is to be shipped to a foreign destination. Where it is desired to make a transfer of tax to another person who in turn will export the firearm, the transferee shall likewise file an application supported by evidence that the transfer will start the firearm in course of exportation, except, however, that where such transferee and exporter are registered special-taxpayers the transferee will not be required to file an application on Form 9 (Firearms).

§ 479.115 Action by Director.

If the application is acceptable, the Director will execute the permit, Part 2 of Form 9 (Firearms), to export the firearm described on the form and return three copies thereof to the applicant. Issuance of the permit by the Director will suspend assertion of tax liability for a period of six (6) months from the date of issuance. If the application is disapproved, the Director will indicate thereon the reason for such action and return the forms to the applicant.

§ 479.116 Procedure by exporter.

Shipment may not be made until the permit, Form 9 (Firearms), is received from the Director. If application is to be made by means other than by parcel post, two copies of the form must be addressed to the District Director of Customs at the port of exportation, and must precede or accompany the shipment in order to permit appropriate inspection prior to lading. If exportation is to be made by parcel post, one copy of the form must be presented to the postmaster at the office receiving the parcel who will execute Part 4 of such form and return the form to the exporter for transmittal to the Director. In the event exportation is not effected, all copies of the form must be immediately returned to the Director for cancellation.

§ 479.117 Action by Customs.

Upon receipt of a permit, Form 9 (Firearms), in duplicate, authorizing the exportation of firearms, the District Director of Customs may order such inspection as deemed necessary prior to lading of the merchandise. If satisfied that the shipment is proper and the information contained in the permit to export is in agreement with information shown in the shipper's export declaration, the District Director of Customs will, after the merchandise has been duly exported, execute the certificate of exportation (Part 3 of Form 9 (Firearms)). One copy of the form will be retained with the shipper's export declaration and the remaining copy thereof will be transmitted to the Director.

§ 479.118 Proof of exportation.

Within a six-month's period from date of issuance of the permit to export firearms, the exporter shall furnish or cause to be furnished to the Director (a) the certificate of exportation (Part 3 of Form 9 (Firearms)) executed by the District Director of Customs as provided in § 479.117, or (b) the certificate of mailing by parcel post (Part 4 of Form 9 (Firearms)) executed by the postmaster of the post office receiving the parcel containing the firearm, or (c) a certificate of lading executed by a Customs officer of the foreign country to which the firearm is exported, or (d) a sworn statement of the foreign consignee covering the receipt of the firearm, or (e) the return receipt, or a reproduced copy thereof, signed by the addressee or his agent, where the shipment of a firearm was made by insured or registered parcel post. Issuance of a permit to export a firearm and furnishing of evidence establishing such exportation under this section will relieve the actual exporter and the person selling to the exporter for exportation from transfer tax liability. Where satisfactory evidence of exportation of a firearm is not furnished within the stated period, the transfer tax will be assessed.

§ 479.119 Transportation of firearms to effect exportation.

Notwithstanding any provision of § 478.28 of this chapter, it shall not be required that authorization be obtained from the Director for the transportation in interstate or foreign commerce of a firearm in order to effect the exportation of a firearm authorized under the provisions of this subpart.

§ 479.120 Refunds.

Where, after payment of tax by the manufacturer, a firearm is exported, and satisfactory proof of exportation (see § 479.118) is furnished, a claim for refund may be submitted on Form 843 (see § 479.172). If the manufacturer waives all claim for the amount to be refunded, the refund shall be made to the exporter. A claim for refund by an exporter of tax paid by a manufacturer should be accompanied by waiver of the manufacturer and proof of tax payment by the latter.

§ 479.121 Insular possessions.

Transfers of firearms to persons in the insular possessions of the United States are exempt from transfer tax, provided title in cases involving change of title (and custodly or control, in cases not involving change of title), does not pass to the transferee or his agent in the United States. However, such exempt transactions must be covered by approved permits and supporting documents corresponding to those required in the case of firearms exported to foreign countries (see §§ 479.114 and 479.115), except that the Director may vary the requirements herein set forth in accordance with the requirements of the governing authority of the insular possession. Shipments to the insular possessions will not be authorized without compliance with the requirements of the governing authorities thereof. In the case of a nontaxable transfer to a person in
such insular possession, the exemption extends only to such transfer and not to prior transfers.

Arms Export Control Act

§ 479.122 Requirements.

(a) Persons engaged in the business of importing firearms are required by the Arms Export Control Act (22 U.S.C. 2778) to register with the Director. (See Part 447 of this chapter.)

(b) Persons engaged in the business of exporting firearms caliber .22 or larger are subject to the requirements of a license issued by the Secretary of State. Application for such license should be made to the Office of Munitions Control, Department of State, Washington, DC 20502, prior to exporting firearms.

Subpart I—Records and Returns

§ 479.131 Records.

For the purposes of this part, each manufacturer, importer, and dealer in firearms shall keep and maintain such records regarding the manufacture, importation, acquisition (whether by making, transfer, or otherwise), receipt, and disposition of firearms as are prescribed, and in the manner and place required, by part 478 of this chapter. In addition, each manufacturer, importer, and dealer shall maintain, in chronological order, at his place of business a separate record consisting of the documents required by this part showing the registration of any firearm to him. If firearms owned or possessed by a manufacturer, importer, or dealer are stored or kept on premises other than the place of business shown on his special (occupational) tax stamp, the record establishing registration shall show where such firearms are stored or kept. The records required by this part shall be readily accessible for inspection at all reasonable times by ATF officers.

(Approved by the Office of Management and Budget under control number 1512–0387)

Subpart J—Stolen or Lost Firearms or Documents

§ 479.141 Stolen or lost firearms.

Whenever any registered firearm is stolen or lost, the person losing possession thereof will, immediately upon discovery of such theft or loss, make a report to the Director showing the following: (a) Name and address of the person in whose name the firearm is registered, (b) kind of firearm, (c) serial number, (d) model, (e) caliber, (f) manufacturer of the firearm, (g) date and place of theft or loss, and (h) complete statement of facts and circumstances surrounding such theft or loss.

§ 479.142 Stolen or lost documents.

When any Form 1, 2, 3, 4, 5, 6A, or 10 (Firearms) evidencing possession of a firearm is stolen, lost, or destroyed, the person losing possession will immediately upon discovery of the theft, loss, or destruction report the matter to the Director. The report will show in detail the circumstances of the theft, loss, or destruction and will include all known facts which may serve to identify the document. Upon receipt of the report, the Director will make such investigation as appears appropriate and may issue a duplicate document upon such conditions as the circumstances warrant.

Subpart K—Examination of Books and Records

§ 479.151 Failure to make returns: Substitute returns.

If any person required by this part to make returns shall fail or refuse to make any such return within the time prescribed by this part or designated by the Director, then the return shall be made by an ATF officer upon inspection of the books, but the making of such return by an ATF officer shall not relieve the person from any default or penalty incurred by reason of failure to make such return.

§ 479.152 Penalties (records and returns).

Any person failing to keep records or make returns, or making, or causing the making of, a false entry on any application, return or record, knowing such entry to be false, is liable to fine and imprisonment as provided in section 5871, I.R.C.

Subpart L—Distribution and Sale of Stamps

§ 479.161 National Firearms Act stamps.

"National Firearms Act" stamps evidencing payment of the transfer tax or tax on the making of a firearm are maintained by the Director. The remittance for purchase of the appropriate tax stamp shall be submitted with the application. Upon approval of the application, the Director will cause the appropriate tax to be paid by affixing the appropriate stamp to the application.

§ 479.162 Stamps authorized.

Adhesive stamps of the $5 and $200 denomination, bearing the words "National Firearms Act," have been prepared and only such stamps shall be used for the payment of the transfer tax and for the tax on the making of a firearm.

§ 479.163 Reuse of stamps prohibited.

A stamp once affixed to one document cannot lawfully be removed and affixed to another. Any person willfully reusing such a stamp shall be subject to the penalty prescribed by 26 U.S.C. 7208.

Subpart M—Redemption of or Allowance for Stamps or Refunds

§ 479.171 Redemption of or allowance for stamps.

Where a National Firearms Act stamp is destroyed, mutilated or rendered useless after purchase, and before liability has been incurred, such stamp may be redeemed by giving another stamp in lieu thereof. Claim for redemption of the stamp should be filed on ATF Form 2635 (5620.8) with the Director. Such claim shall be accompanied by the stamp or by a satisfactory explanation of the reasons why the stamp cannot be returned, and shall be filed within 3 years after the purchase of the stamp.

§ 479.172 Refunds.

As indicated in this part, the transfer tax or tax on the making of a firearm is ordinarily paid by the purchase and affixing of stamps, while special tax stamps are issued in
payment of special (occupational) taxes. However, in exceptional cases, transfer tax, tax on the making of firearms, and/or special (occupational) tax may be paid pursuant to assessment. Claims for refunds of such taxes, paid pursuant to assessment, shall be filed on ATF Form 2635 (5620.8) within 3 years next after payment of the taxes. Such claims shall be filed with the regional director (compliance) serving the region in which the tax was paid. (For provisions relating to hand-carried documents and manner of filing, see 26 CFR 301.6091–1(b) and 301.6402–2(a).) When an applicant to make or transfer a firearm wishes a refund of the tax paid on an approved application where the firearm was not made pursuant to an approved Form 1 (Firearms) or transfer of the firearm not take place pursuant to an approved Form 4 (Firearms), the applicant shall file a claim for refund of the tax on ATF Form 2635 (5620.8) with the Director. The claim shall be accompanied by the approved application bearing the stamp and an explanation why the tax liability was not incurred. Such claim shall be filed within 3 years next after payment of the tax.

Subpart N—Penalties and Forfeitures

§ 479.181 Penalties.

Any person who violates or fails to comply with the requirements of 26 U.S.C. Chapter 53 shall, upon conviction, be subject to the penalties imposed under 26 U.S.C. 5871.

§ 479.182 Forfeitures.

Any firearm involved in any violation of the provisions of 26 U.S.C. Chapter 53, shall be subject to seizure, and forfeiture under the internal revenue laws: Provided, however, That the disposition of forfeited firearms shall be in conformance with the requirements of 26 U.S.C. 5872. In addition, any vessel, vehicle or aircraft used to transport, carry, convey or conceal or possess any firearm with respect to which there has been committed any violation of any provision of 26 U.S.C. Chapter 53, or the regulations in this part issued pursuant thereto, shall be subject to seizure and forfeiture under the Customs laws, as provided by the act of August 9, 1939 (49 U.S.C. App., Chapter 11).

Subpart O—Other Laws Applicable

§ 479.191 Applicability of other provisions of internal revenue laws.

All of the provisions of the internal revenue laws not inconsistent with the provisions of 26 U.S.C. Chapter 53 shall be applicable with respect to the taxes imposed by 26 U.S.C.

§ 479.192 Commerce in firearms and ammunition.

For provisions relating to commerce in firearms and ammunition, including the movement of destructive devices, machine guns, short-barreled shotguns, or short-barreled rifles, see 18 U.S.C. Chapter 44, and Part 478 of this chapter issued pursuant thereto.

§ 479.193 Arms Export Control Act.

For provisions relating to the registration and licensing of persons engaged in the business of manufacturing, importing or exporting arms, ammunition, or implements of war, see the Arms Export Control Act (22 U.S.C. 2778), and the regulations issued pursuant thereto. (See also Part 447 of this chapter.)
§ 2778. Control of arms exports and imports

(a) Presidential control of exports and imports of defense articles and services; exceptions.

(1) In furtherance of world peace and the security and foreign policy of the United States, the President is authorized to control the import and the export of defense articles and defense services and to provide foreign policy guidance to persons of the United States involved in the export and import of such articles and services. The President is authorized to designate those items which shall be considered as defense articles and defense services for the purposes of this section and to promulgate regulations for the import and export of such articles and services. The items so designated shall constitute the United States Munitions List.

(2) Decisions on issuing export licenses under this section shall take into account whether the export of an article would contribute to an arms race, aid in the development of weapons of mass destruction, support international terrorism, increase the possibility of outbreak or escalation of conflict, or prejudice the development of bilateral or multilateral arms control or nonproliferation agreements or other arrangements.

(3) In exercising the authorities conferred by this section, the President may require that any defense article or defense service be sold under this Act as a condition of its eligibility for export, and may require that persons engaged in the negotiation for the export of defense articles and services keep the President fully and currently informed of the progress and future prospects of such negotiations.

(b) Registration and licensing requirements for manufacturers, exporters, or importers of designated defense articles and defense services.

(1) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in an official capacity) who engages in the business of manufacturing, exporting, or importing any defense articles or defense services designated by the President under subsection (a)(1) shall register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations. Such regulations shall prohibit the return to the United States for sale in the United States (other than for the Armed Forces of the United States and its allies or for any State or local law enforcement agency) of any military firearms or ammunition of United States manufacture furnished to foreign governments by the United States under this Act or any other foreign assistance or sales program of the United States, whether or not enhanced in value or improved in condition in a foreign country. This prohibition shall not extend to similar firearms that have been so substantially transformed as to become, in effect, articles of foreign manufacture.

(II) Such brokering activities shall include the financing, transportation, freight forwarding, or taking of any other action that facilitates the manufacture, export, or import of a defense article or defense service.

(III) No person may engage in the business of brokering activities described in subclause (I) without a license, issued in accordance with this Act, except that no license shall be required for such activities undertaken by or for an agency of the United States Government—

(aa) for use by an agency of the United States Government; or

(bb) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

(IV) For purposes of this clause, the term "foreign defense article or defense ser-
“agency of the United States Government or defense service of a nature described on the United States Munitions List regardless of whether such article or service is of United States origin or whether such article or service contains United States origin components.

(B) The prohibition under such regulations required by the second sentence of subparagraph (A) shall not extend to any military firearms (or ammunition, components, parts, accessories, and attachments for such firearms) of United States manufacture furnished to any foreign government by the United States under this Act or any other foreign assistance or sales program of the United States if—

(i) such firearms are among those firearms that the Secretary of the Treasury is, or was at any time, required to authorize the importation of by reason of the provisions of section 925(e) of title 18, United States Code (including the requirement for the listing of such firearms as curios or relics under section 921(a)(13) of that title); and

(ii) such foreign government certifies to the United States Government that such firearms are owned by such foreign government.

(C) A copy of each registration made under this paragraph shall be transmitted to the Secretary of the Treasury for review regarding law enforcement concerns. The Secretary shall report to the President regarding such concerns as necessary.

(2) Except as otherwise specifically provided in regulations issued under subsection (a)(1), no defense articles or defense services designated by the President under subsection (a)(1) may be exported or imported without a license for such export or import, issued in accordance with this Act and regulations issued under this Act, except that no license shall be required for exports or imports made by or for an agency of the United States Government (A) for official use by a department or agency of the United States Government, or (B) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

(3) (A) For each of the fiscal years 1988 and 1989, $250,000 of registration fees collected pursuant to paragraph (1) shall be credited to a Department of State account, to be available without fiscal year limitation. Fees credited to that account shall be available only for the payment of expenses incurred for—

(i) contract personnel to assist in the evaluation of munitions control license applications, reduce processing time for license applications, and improve monitoring of compliance with the terms of licenses; and

(ii) the automation of munitions control functions and the processing of munitions control license applications, including the development, procurement, and utilization of computer equipment and related software.

(B) The authority of this paragraph may be exercised only to such extent or in such amounts as are provided in advance in appropriation Acts.

(C) Criminal violations; punishment.

Any person who willfully violates any provision of this section or section 39, or any rule or regulation issued under either section, or who willfully, in a registration or license application or required report, makes any untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein not misleading, shall upon conviction be fined for each violation not more than $1,000,000 or imprisoned not more than ten years, or both.

(d) [Repealed]

(e) Enforcement powers of President.

In carrying out functions under this section with respect to the export of defense articles and defense services, the President is authorized to exercise the same powers concerning violations and enforcement which are conferred upon departments, agencies and officials by subsections (c), (d), (e), and (g) of section 11 of the Export Administration Act of 1979 [50 USCS Appx § 2410], and by subsections (a) and (c) of section 12 of such Act [50 USCS Appx § 2411(a) and (c)], subject to the same terms and conditions as are applicable to such powers under such Act, except that section 11(c)(2)(B) of such Act shall not apply, and instead, as prescribed in regulations issued under this section, the Secretary of State may assess civil penalties for violations of this Act and regulations prescribed thereunder and further may commence a civil action to recover such civil penalties, and except further that the names of the countries and the types and quantities of defense articles for which licenses are issued under this section shall not be withheld from public disclosure unless the President determines that the release of such information would be contrary to the national interest. Nothing in this subsection shall be construed as authorizing the withholding of information from the Congress. Notwithstanding section 11(c) of the Export Administration Act of 1979, the civil penalty for each violation involving controls imposed on the export of defense articles and defense services under this section may not exceed $500,000.

(f) Periodic review of items on the munitions list; notification regarding exemption from licensing requirements for export of defense items.

(1) The President shall periodically review the items on the United States Munitions List to determine what items, if any, no longer warrant export controls under this section. The results of such reviews shall be reported to the Speaker of the House of Representatives and to the Committee on Foreign Relations and the Committee on Banking, Housing, and Urban Affairs of the Senate. The President may not remove any item from the Munitions List until 30 days after the date on which the President has provided notice of the proposed removal to the Committee on International Relations of the House of Representatives and to the Committee on Foreign Relations of the Senate in accordance with the procedures applicable to reprogram-
ming notifications under section 634A(a) of the Foreign Assistance Act of 1961. Such notice shall describe the nature of any controls to be imposed on that item under any other provision of law.

(2) The President may not authorize an exemption for a foreign country from the licensing requirements of this Act for the export of defense items under subsection (j) or any other provision of this Act until 30 days after the date on which the President has transmitted to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations of the Senate a notification that includes—

(A) a description of the scope of the exemption, including a detailed summary of the defense articles, defense services, and related technical data covered by the exemption; and

(B) a determination by the Attorney General that the bilateral agreement concluded under subsection (j) requires the compilation and maintenance of sufficient documentation relating to the export of United States defense articles, defense services, and related technical data to facilitate law enforcement efforts to detect, prevent, and prosecute criminal violations of any provision of this Act, including the efforts on the part of countries and factions engaged in international terrorism to illicitly acquire sophisticated United States defense items.

(3) Paragraph (2) shall not apply with respect to an exemption for Canada from the licensing requirements of this Act for the export of defense items.
Editor’s Note:
Effective January 24, 2003, the Homeland Security Act transferred the Bureau of Alcohol, Tobacco and Firearms from the Department of the Treasury to the Department of Justice. In addition, the agency’s name was changed to the Bureau of Alcohol, Tobacco, Firearms and Explosives. The regulations, as printed in this publication, do not yet reflect this change. The regulations will be amended to change the references from the “Bureau of Alcohol, Tobacco and Firearms,” the “Department of the Treasury,” and the “Secretary of the Treasury” to the “Bureau of Alcohol, Tobacco, Firearms and Explosives,” the “Department of Justice” and the “Attorney General,” respectively.

Subpart A—Scope
§ 447.1 General.

§ 447.63 Seizure and forfeiture.
part E of this part are applicable to all importations of articles on the U.S. Munitions Import List not subject to controls under 27 CFR Part 478 or 479. U.S. Munitions Import List articles subject to controls under 27 CFR Part 478 or 27 CFR Part 479 are subject to the import permit procedures of those regulations if imported into the United States (within the meaning of those regulations if imported into the United States or any State or political subdivision thereof are exempt from the import controls of 27 CFR Part 478 but are not exempt from control under Section 38, Arms Export Control Act of 1976, unless imported by the United States or any agency thereof. All such importations not imported by the United States or any agency thereof shall be subject to the import permit procedures of subpart E of this part.

(d) For provisions requiring the registration of persons engaged in the business of brokering activities with respect to the importation of any defense article or defense service, see Department of State regulations in 22 CFR Part 129.

Subpart B—Definitions

§ 447.11 Meaning of terms.

When used in this part and in forms prescribed under this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this section. Words in the plural form shall include the singular, and vice versa, and words imparting the masculine gender shall include the feminine. The terms "includes" and "including" do not exclude other things not enumerated which are in the same general class or are otherwise within the scope thereof.

Article. Any of the arms, ammunition, and implements of war enumerated in the U.S. Munitions Import List.

Bureau. Bureau of Alcohol, Tobacco, and Firearms, the Department of the Treasury.

Carbine. A short-barrelled rifle whose barrel is generally not longer than 22 inches and is characterized by light weight.

Chemical agent. A substance useful in war which, by its ordinary and direct chemical action, produces a powerful physiological effect.

Defense articles. Any item designated in § 447.21 or § 447.22. This term includes models, mockups, and other such items which reveal technical data directly relating to § 447.21 or § 447.22. For purposes of Category XXII, any item enumerated on the U.S. Munitions List (22 CFR Part 121).

Defense services. (a) The furnishing of assistance, including training, to foreign persons in the design, engineering, development, production, processing, manufacture, use, operation, overhaul, repair, maintenance, modification, or reconstruction of defense articles, whether in the United States or abroad; or

(b) The furnishing to foreign persons of any technical data, whether in the United States or abroad.

Director. The Director, Bureau of Alcohol, Tobacco and Firearms, the Department of the Treasury, Washington, DC 20226.

Executed under the penalties of perjury. Signed with the prescribed declaration under the penalties of perjury as provided on or with respect to the application, form, or other document or, where no form of declaration is prescribed, with the declaration: "I declare under the penalties of perjury that this ______ (insert type of document such as statement, certificate, application, or other document), including the documents submitted in support thereof, has been examined by me and, to best of my knowledge and belief, is true, correct, and complete."

Firearms. A weapon, and all components and parts therefor, not over .50 caliber which will or is designed to or may be readily converted to expel a projectile by the action of an explosive, but shall not include BB and pellet guns, and muzzle loading (black powder) firearms (including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system) or firearms covered by Category I(a) established to have been manufactured in or before 1898.

Import or importation. Bringing into the United States from a foreign country any of the articles on the import List, but shall not include intransit, temporary import or temporary export transactions subject to Department of State controls under Title 22, Code of Federal Regulations.

Import List. The list of articles contained in § 447.21 and identified therein as "The U.S. Munitions Import List".

Machinegun. A "machinegun," "machine pistol," "submachine-gun," or "automatic rifle" is a fire-arm originally designed to fire, or capable of being fired fully automatically by a single pull of the trigger.

Permit. The same as "license" for purposes of 22 U.S.C. 1934(c).

Person. A partnership, company, association, or corporation, as well as a natural person.

Pistol. A hand-operated firearm having a chamber integral with, or permanently aligned with, the bore.

Revolver. A hand-operated firearm with a revolving cylinder containing chambers for individual cartridges.

Rifle. A shoulder firearm discharging bullets through a rifled barrel at least 16 inches in length, including combination and drilling guns.

Sporting type sight including optical. A telescopic sight suitable for daylight use on a rifle, shotgun, pistol, or revolver for hunting or target shooting.

This chapter. Title 27, Code of Federal Regulations, Chapter II (27 CFR Chapter II).

United States. When used in the geographical sense, includes the several States, the Commonwealth of Puerto Rico, the insular possessions of the United States, the District of Columbia, and any territory over which the United States exercises any

Subpart C—The U.S. Munitions Import List

§ 447.21 The U.S. Munitions Import List

The U.S. Munitions List compiled by the Department of State, Office of Defense Trade Controls, and published at 22 CFR 121.1, with the deletions indicated, has been adopted as an enumeration of the defense articles subject to controls under this part. The expurgated list, set out below, shall, for the purposes of this part, be known as the U.S. Munitions Import List:

THE U.S. MUNITIONS IMPORT LIST

CATEGORY I—FIREARMS

(a) Nonautomatic and semiautomatic firearms, to caliber .50 inclusive, combat shotguns, and shotguns with barrels less than 18 inches in length, and all components and parts for such firearms.

(b) Automatic firearms and all components and parts for such firearms to caliber .50 inclusive.

(c) Insurgency-counterinsurgency type firearms of other weapons having a special military application (e.g. close assault weapons systems) regardless of caliber and all components and parts for such firearms.

(d) Firearms silencers and suppressors, including flash suppressors.

(e) Riflescopes manufactured to military specifications and specifically designed or modified components therefor.

NOTE: Rifles, carbines, revolvers, and pistols, to caliber .50 inclusive, combat shotguns, and shotguns with barrels less than 18 inches in length are included under Category 1(a). Machineguns, submachineguns, machine pistols and fully automatic rifles to caliber .50 inclusive are included under Category 1(b).

CATEGORY II—ARTILLERY PROJECTORS

(a) Guns over caliber .50, howitzers, mortars, and recoiless rifles.

(b) Military flamethrowers and projectors.

(c) Components, parts, accessories, and attachments for the articles in paragraphs (a) and (b) of this category, including but not limited to mounts and carriages for these articles.

CATEGORY III—AMMUNITION

(a) Ammunition for the arms in Categories I and II of this section.

(b) Components, parts, accessories, and attachments for articles in paragraph (a) of this category, including but not limited to cartridge cases, powder bags, bullets, jackets, cores, shells (excluding shotgun shells), projectiles, boosters, fuzes and components therefor, primers, and other detonating devices for such ammunition.

(c) Ammunition belting and linking machines.

(d) Ammunition manufacturing machines and ammunition loading machines (except handloading ones).

NOTE: Cartridge and shell casings are included under Category III unless, prior to their importation, they have been rendered useless beyond the possibility of restoration for use as a cartridge or shell casing by means of heating, flame treatment, mangling, crushing, cutting, or popping.

CATEGORY IV—LAUNCH VEHICLES, GUIDED MISSILES, BALLISTIC MISSILES, ROCKETS, TORPEDOES, BOMBS AND MINES

(a) Rockets (including but not limited to meteorological and other sounding rockets), bombs, grenades, torpedoes, depth charges, land and naval mines, as well as launchers for such defense articles, and demolition blocks and blasting caps.

(b) Launch vehicles and missile and anti-missile systems including but not limited to guided, tactical and strategic missiles, launchers, and systems.

(c) Apparatus, devices, and materials for the handling, control, activation, monitoring, detection, protection, discharge, or detonation of the articles in paragraphs (a) and (b) of this category. Articles in this category include, but are not limited to, the following: Fuses and components for the items in this category, bomb racks and shackles, bomb shackle release units, bomb ejectors, torpedo tubes, torpedo and guided missile boosters, guidance system equipment and parts, launching racks and projectors, pistols (exploders), igniters, fuse arming devices, intervalometers, guided missile launchers and specialized handling equipment, and hardened missile launching facilities.

(d) Missile and space vehicle powerplants.

(e) Military explosive excavating devices.

(f) Ablative materials fabricated or semi-fabricated from advanced composites (e.g., silica, graphite, carbon, carbon/carbon, and boron filaments) for the articles in this category that are derived directly from or specifically developed or modified for defense articles.

(g) Non/nuclear warheads for rockets and guided missiles.

(h) All specifically designed components or modified components, parts, accessories, attachments, and associated equipment for the articles in this category.

NOTE: Military demolition blocks and blasting caps referred to in Category IV (a) do not include the following articles:

(a) Electric squibs.

(b) No. 6 and No. 8 blasting caps, including electric ones.

(c) Delay electric blasting caps (including No. 6 and No. 8 millisecond ones).

(d) Seismograph electric blasting caps (including SSS, Static-Master, Vibrocap SR, and SEISMO SR).

(e) Oil well perforating devices.

NOTE: Category V, “Munitions List,” deleted as inapplicable to imports.
**CATEGORY VI—VESSELS OF WAR AND SPECIAL NAVAL EQUIPMENT**

(a) Warships, amphibious warfare vessels, landing craft, mine warfare vessels, patrol vessels, auxiliary vessels and service craft, experimental types of naval ships and any vessels specifically designed or modified for military purposes.

(b) Turrets and gun mounts, arresting gear, special weapons systems, protective systems, submarine storage batteries, catapults and other components, parts, attachments, and accessories specifically designed or modified for combatant vessels.

(c) Mine sweeping equipment, components, parts, attachments and accessories specifically designed or modified therefor.

(d) Harbor entrance detection devices (magnetic, pressure, and acoustic ones) and controls and components therefor.

(e) Naval nuclear propulsion plants, their land prototypes and special facilities for their construction, support and maintenance. This includes any machinery, device, component, or equipment specifically developed or designed or modified for use in such plants or facilities.

**NOTE:** The term “vessels of war” includes, but is not limited to the following:

(a) Combatant vessels:
   (1) Warships (including nuclear-powered versions):
      (i) Aircraft carriers (CV, CVN)
      (ii) Battleships (BB)
      (iii) Cruisers (CA, CG, CGN)
      (iv) Destroyers (DD, DDG)
      (v) Frigates (FF, FFG)
      (vi) Submarines (SS, SSM, SSBN, SSG, SSAG)
   (2) Other Combatant Classifications:
      (i) Patrol Combatants (PC, PHM)
      (ii) Amphibious Helicopter/Landing Craft Carriers (LHA, LPD, LPH)
      (iii) Amphibious Landing Craft Carriers (LKA, LPA, LSD, LST)
      (iv) Amphibious Command Ships (LCC)
      (v) Mine Warfare Ships (MSO).

(b) Auxiliaries:
   (1) Mobile Logistics Support: (AD, AF, AFS, AO, AOE, AOR)
      (i) Under way Replenishment
   (2) Support Ships: (ARS, ASR, ATA, ATF, ATS)
      (ii) Other Auxiliaries (AG, AGDS, AGF, AGM, AGOR, AGOS, AGS, AH, AK, AKR, AOG, AOT, AP, APB, ARC, ARL, AV, AVF).

(c) Combatant Craft:
   (1) Patrol Craft (PB, PCF, PCH, PTF)
   (ii) River, Roadstead Craft (ATC, PBR)
   (2) Amphibious Warfare Craft:
      (i) Landing Craft (AALC, LCAC, LCM, LCP, LPCR, LCU, LWT, SLW)
      (ii) Special Warfare Craft (LSSC, MSSC, SDV, SWCL, SWCM)
   (3) Mine Warfare Craft:
      (i) Mine Countermeasures Craft (MSB, MSD, MSI, MSN, MSR).

(d) Support and Service Craft:
   (1) Tugs (YTB, YTL, YTM)
   (2) Tankers (YO, YOG, Y)
   (3) Lighters (YC, YCF, YCV, YF, YFN, YFNB, YFNX, YFR, YFRN, YFU, YG, YGN, YGON, YON, YOS, YSR, YWN)
   (4) Floating Dry Docks (AFDB, AFDL, AFDM, ARD, ARDM, YFD)
   (5) Miscellaneous (APL, DSRV, DSV, IX, NR, YAG, YD, YDT, YFB, YFND, YEP, YFR, YHLC, YM, YNG, YP, YPD, YR, YRB, YRN, YRDH, YRDM, YRR, YRST, YSD).

(e) Coast Guard Patrol and Service Vessels and Craft:
   (1) Coast Guard Cutters (CGC)
   (2) Patrol Craft (WPB)
   (3) Icebreakers (WAGB)
   (4) Oceanography Vessels (WAGO)
   (5) Special Vessels (WX)
   (6) Buoy Tenders (WL, WLM, WLI, WLR, WLIC)
   (7) Tugs (WYTM, WYTL)
   (8) Light Ships (WLV).

**CATEGORY VII—TANKS AND MILITARY VEHICLES**

(a) Military type armed or armored vehicles, military railway trains, and vehicles specifically designed or modified to accommodate mountings for arms or other specialized military equipment or fitted with such items.

(b) Military tanks, combat engineer vehicles, bridge launching vehicles, halftracks and gun carriers.

(c) Self-propelled guns and howitzers.

**NOTE:** Category VII (d) and (e) of U.S. Munitions List deleted as inapplicable to imports.

(d) Amphibious vehicles.

**NOTE:** Category VII (f) and (g) of U.S. Munitions List deleted as inapplicable to imports.

(e) Engines specifically designed or modified for the vehicles in paragraphs (a), (b), (c), and (f) of this category.

**NOTE:** All specifically designed or modified components and parts, accessories, attachments, and associated equipment for the articles in this category, including but not limited to military bridging and deep water fording kits.

**NOTE:** An “amphibious vehicle” in Category VII(f) is an automotive vehicle or chassis which embodies all-wheel drive, which is equipped to meet special military requirements, and which has sealed electrical systems and adaptation features for deep water fording.

**CATEGORY VIII—AIRCRAFT, SPACECRAFT, AND ASSOCIATED EQUIPMENT**

(a) Aircraft, including but not limited to helicopters, non-expansive balloons, drones and lighter-than-air aircraft, which are specifically designed, modified, or equipped for military purposes. This includes but is not limited to the following military purposes: gunnery, bombing, rocket or missile launching, electronic and other surveillance, reconnaissance, refueling, aerial mapping, military liaison, cargo carrying or dropping, personnel dropping, airborne warning and control, and military training.

**NOTE:** Category VIII (b) through (j) and Categories IX, X, XI, XII and XIII of “Munitions List” deleted as inapplicable to imports.

**NOTE:** In Category VIII, “aircraft” means aircraft designed, modified, or equipped for a military purpose, including aircraft described as “demilitarized.” All aircraft bearing an original military designation are included in Category VIII. However, the following aircraft are not so included so long as they have not been specifically equipped, reequipped, or modified for military operations:

(a) Cargo aircraft bearing “C” designations and numbered C-45 through C-118 inclusive, and C-121 through C-125 inclusive, and C-131, using reciprocating engines only.

(b) Trainer aircraft bearing “T” designations and using reciprocating engines or turboprop engines with less than 600 horsepower (s.h.p).

(c) Utility aircraft bearing “U” designations and using reciprocating engines only.

(d) All liaison aircraft bearing an “F” designation.

(e) All observation aircraft bearing “O” designations and using reciprocating engines.

**CATEGORY XIV—TOXICOLOGICAL AGENTS AND EQUIPMENT AND RADIOLOGICAL EQUIPMENT**

(a) Chemical agents, including but not limited to lung irritants, vesicants, lachrymators, and tear gases (except tear gas formulations containing 1% or less CN or CS), stenulators and
irritant smoke, and nerve gases and incapacitating agents.

(b) Biological agents.

(c) Equipment for dissemination, detection, and identification of, and defense against, the articles in paragraphs (a) and (b) of this category.

(d) Nuclear radiation detection and measuring devices manufactured to military specification.

(e) Components, parts, accessories, attachments, and associated equipment specifically designed or modified for the articles in paragraphs (c) and (d) of this category.

NOTE: A chemical agent in Category XIV(a) is a substance having military application which by its ordinary and direct chemical action produces a powerful physiological effect. The term “chemical agent” includes, but is not limited to, the following chemical compounds:

(a) Lung irritants:
   (1) Diphenylcyanooarsine (DC).
   (2) Fluorine (but not fluorine).
   (3) Trichloronitro methane (chloropicrin PS).

(b) Viscants:
   (1) B-Chlorovinylchlooroarsine (Lewisite, L).
   (2) Bis(dichloethyl) sulphide (Mustard Gas, HD or H).
   (3) Ethylchlooroarsine (ED).
   (4) Methylchlooroarsine (MD).

(c) Lachrymators and tear gases:
   (1) A-Brombenzyl cyanide (BBC).
   (2) Chloroacetophenone (CN).
   (3) Dibromodimethyl ether (DCM).
   (4) Dichlorodimethyl ether (C2Cl6).
   (5) Ethylbromocloroarsine.
   (6) Phenylcarbylamine chloride.
   (7) Tear gas solutions (CNB and CNS).
   (8) Tear gas orthochlorobenzal- malononitrile (CS).

(d) Stermutators and irritant smokes:
   (1) Diphenylamine chloroarsine (Adamite, DM).
   (2) Diphenylchlooroarsine (BA).
   (3) Liquid pepper.

(e) Nerve agents, gases, and aerosols. These are toxic compounds which affect the nervous system, such as:
   (1) Dimethylaminoethoxycyanophosphine oxide (GA).
   (2) Methyisopropoxyfluoro-phosphine oxide (GB).
   (3) Methylpinacol oxyfluoro-phosphine oxide (GD).
   (f) Antiplant chemicals, such as: Butyl 2-chloro-4-fluorophenoxycetate (LNF).

CATEGORY XV [RESERVED]

CATEGORY XVI—NUCLEAR WEAPONS DESIGN AND TEST EQUIPMENT

(a) Any article, material, equipment, or device, which is specifically designed or modified for use in the design, development, or fabrication of nuclear weapons or nuclear explosive devices.

(b) Any article, material, equipment, or device, which is specifically designed or modified for use in the devising, carrying out, or evaluating of nuclear weapons tests or any other nuclear explosions, except such items as are in normal commercial use for other purposes.

NOTE: Categories XVII, XVIII, and XIX of “Munitions List” deleted as inapplicable to imports.

CATEGORY XVII—SUBMERSIBLE VESSELS, OCEANOGRAPHIC AND ASSOCIATED EQUIPMENT

(a) Submersible vessels, manned and unmanned, designed or modified for military purposes or having independent capability to maneuver vertically or horizontally at depths below 1,000 feet, or powered by nuclear propulsion plants.

(b) Submersible vessels, manned or unmanned, designed or modified in whole or in part from technology developed by or for the U.S. armed Forces.

(c) Any of the articles in Category VI and elsewhere in this part specifically designed or modified for use with submersible vessels, and oceanographic or associated equipment assigned a military designation.

(d) Equipment, components, parts, accessories, and attachments specifically designed for any of the articles in paragraphs (a) and (b) of this category.

CATEGORY XXI—MISCELLANEOUS ARTICLES

Any article not specifically enumerated in the other categories of the U.S. Munitions List which has substantial military applicability and which has been specifically designed or modified for military purposes. The decision on whether any article may be included in this category shall be made by the Director, Office of Defense Trade Controls, Department of State, with the concurrence of the Department of Defense.

CATEGORY XXII—SOUTH AFRICA

(a) Defense articles enumerated on the U.S. Munitions List (22 CFR Part 121).

(b) Technical data relating to defense articles enumerated on the U.S. Munitions List.

(1) Classified information relating to defense articles and defense services;

(2) Information covered by an invention secrecy order;

(3) Information which is directly related to the design, engineering, development, production, processing, manufacture, use, operation, overhaul, repair, maintenance, modification, or reconstruction of defense articles. This includes, for example, information in the form of blueprints, drawings, photographs, plans, instructions, computer software and documentation. This also includes information which advances the state of the art of articles on the U.S. Munitions List. This does not include information concerning general scientific, mathematical or engineering principles.

Editor’s Note:

Category XXII is no longer a Munitions Import List category. The regulation will be amended to formally remove it.

§ 447.22 Forgings, castings, and machined bodies.

Articles on the U.S. Munitions Import List include articles in a partially completed state (such as forgings, castings, extrusions, and machined bodies) which have reached a stage in manufacture where they are clearly identifiable as defense articles. If the end-item is an article on the U.S. Munitions Import List, including components, accessories, attachments and...
§ 447.30 Registration and refund of fee.

(a) Application for registration must be filed on ATF Form 4587, and must be accompanied by the registration fee at the rate prescribed in this section. The appropriate ATF officer will approve the application and return the original to the applicant.

(b) Registration may be effected for periods of from 1 to 5 years at the option of the registrant by identifying on Form 4587 the period of registration desired. The registration fees are as follows:

<table>
<thead>
<tr>
<th>Period</th>
<th>Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 year</td>
<td>$250</td>
</tr>
<tr>
<td>2 years</td>
<td>$500</td>
</tr>
<tr>
<td>3 years</td>
<td>$700</td>
</tr>
<tr>
<td>4 years</td>
<td>$850</td>
</tr>
<tr>
<td>5 years</td>
<td>$1,000</td>
</tr>
</tbody>
</table>

(c) Fees paid in advance for whole future years of a multiple year registration will be refunded upon request if the registrant ceases to engage in importing articles on the U.S. Munitions Import List. A request for a refund must be submitted to the appropriate ATF officer at the Bureau of Alcohol, Tobacco and Firearms, Washington, DC 20226, prior to the beginning of any year for which a refund is claimed.

(Approved by the Office of Management and Budget under control number 1512–0021)

§ 447.31 Registration requirement.

Persons engaged in the business, in the United States, of importing articles enumerated on the U.S. Munitions Import List must register by making an application on ATF Form 4587.

§ 447.32 Application for registration and refund of fee.

(a) Application for registration must be filed on ATF Form 4587, and must be accompanied by the registration fee at the rate prescribed in this section. The appropriate ATF officer will approve the application and return the original to the applicant.

(b) Registration may be effected for periods of from 1 to 5 years at the option of the registrant by identifying on Form 4587 the period of registration desired. The registration fees are as follows:

<table>
<thead>
<tr>
<th>Period</th>
<th>Fee</th>

<tr>
<td>5 years</td>
<td>$1,000</td>
</tr>
</tbody>
</table>

(c) Fees paid in advance for whole future years of a multiple year registration will be refunded upon request if the registrant ceases to engage in importing articles on the U.S. Munitions Import List. A request for a refund must be submitted to the appropriate ATF officer at the Bureau of Alcohol, Tobacco and Firearms, Washington, DC 20226, prior to the beginning of any year for which a refund is claimed.

(Approved by the Office of Management and Budget under control number 1512–0021)

§ 447.33 Notification of changes in information furnished by registrants.

Registered persons shall notify the appropriate ATF officer in writing, in duplicate, of significant changes in the information set forth in their registration.

(Approved by the Office of Management and Budget under control number 1512–0021)

§ 447.34 Maintenance of records by persons required to register as importers of Import List articles.

(a) Registrants under this part engaged in the business of importing articles subject to controls under 27 CFR Parts 478 and 479 shall maintain records in accordance with the applicable provisions of those parts.

(b) Registrants under this part engaged in importing articles on the U.S. Munitions Import List subject to the permit procedures of subpart E of this part must maintain for a period of 6 years, records bearing on such articles imported, including records concerning their acquisition and disposition, including Forms 6 and 6A. The appropriate ATF officer may prescribe a longer or shorter period in individual cases as such officer deems necessary. See § 478.129 of this chapter for articles subject to import control under part 478 of this chapter.

(Approved by the Office of Management and Budget under control number 1512–0387)

§ 447.35 Forms prescribed.

(a) The appropriate ATF officer is authorized to prescribe all forms required by this part. All of the information called for in each form shall be furnished as indicated by the headings on the form and the instructions on or pertaining to the form. In addition, information called for in each form shall be furnished as required by this part. The form will be filed in accordance with the instructions for the form.

(b) Forms may be requested from the ATF Distribution Center, P.O. Box 5950, Springfield, Virginia 22150–5950, or by accessing the ATF Web site http://www.atf.treas.gov.

Editor’s Note:

The correct website is www.ATF.gov.

§ 447.41 Permit requirement.

(a) Articles on the U.S. Munitions Import List will not be imported into the United States except pursuant to a permit under this subpart. For articles subject to control under parts 478 or 479 of this chapter, a separate permit is not necessary.

(b) Articles on the U.S. Munitions Import List intended for the United States or any State or political subdivision thereof, or the District of Columbia, which are exempt from import controls of 27 CFR 478.115 shall not be imported into the United States, except by the United States or agency thereof, without first obtaining a permit under this subpart.

(c) A permit is not required for the importation of—

1. (i) The U.S. Munitions Import List articles from Canada, except articles enumerated in Categories I, II, III, IV, VI(e), VIII(a), XVI, and XX; and

   (ii) Nuclear weapons strategic delivery systems and all specifically designed components, parts, accessories, attachments, and associated equipment thereof (see Category XXI); or

2. (i) Minor components and parts for Category I(a) and I(b) firearms, except barrels, cylinders, receivers (frames) or complete breech mechanisms, when the total value does not exceed $100 wholesale in any single transaction.

§ 447.42 Application for permit.

(a)(1) Persons required to obtain a permit as provided in §447.41 must file a Form 6—Part I. The application must be signed and dated and must contain the information requested on the form, including:

(i) The name, address, telephone number, license and registration number, if any (including expiration date) of the importer;

(ii) The country from which the defense article is to be imported;

(iii) The name and address of the foreign seller and foreign shipper;

(iv) A description of the defense article to be imported, including—

   (A) The name and address of the manufacturer;
§ 447.43 Terms of permit.

(a) Import permits issued under this subpart are valid for one year from their issuance date unless a different period of validity is stated thereon. They are not transferable.

(b) If shipment cannot be completed during the period of validity of the permit, another application must be submitted for permit to cover the unshipped balance. Such an application shall make reference to the previous permit and may include materials in addition to the unshipped balance.

(c) No amendments oralteration of a permit may be made, except by the appropriate ATF officer.

§ 447.44 Permit denial, revocation or suspension.

(a) Import permits under this subpart may be denied, revoked, suspended or revised without prior notice whenever the appropriate ATF officer finds the proposed importation to be inconsistent with the purpose or in violation of section 38, Arms Export Control Act of 1976 or the regulations in this part.

(b) Whenever, after appropriate consideration, a permit application is denied or an outstanding permit is revoked, suspended or revised, the applicant or permittee shall be promptly advised in writing of the reasons therefor.

(c) Upon written request made within 30 days after receipt of an adverse decision, the applicant or permittee shall be accorded an opportunity to present additional information and to have a full review of his case by the appropriate ATF officer.

(d) Unused, expired, suspended, or revoked permits must be returned immediately to the appropriate ATF officer.

§ 447.45 Importation.

(a) Articles subject to the import permit procedures of this subpart imported into the United States may be released from Customs custody to the person authorized to import same upon his showing that he has a permit for the importation of the article or articles to be released. For articles in Categories I and III imported by a registered importer, the importer will also submit to Customs a copy of the export license authorizing the export of the article or articles from the exporting country. If the exporting country does not require issuance of an export license, the importer must submit a certification, under penalty of perjury, to that effect.

(i) In obtaining the release from Customs custody of an article imported pursuant to a permit, the permit holder will prepare and file Form 6A according to its instructions.

(ii) The ATF Form 6A must contain the information requested on the form, including:

(I) The name, address, and license number (if any) of the importer;

(ii) The name of the manufacturer of the defense article;

(iii) The country of manufacture;

(iv) The type;

(v) The model;

(vi) The caliber, gauge, or size;

(vii) The serial number in the case of firearms, if known; and

(viii) The number of defense articles released.

(b) Within 15 days of the date of their release from Customs custody, the importer of the articles released will forward to the address specified on the form a copy of Form 6A on which will be reported any error or discrepancy appearing on the Form 6A certified by Customs and serial numbers if not previously provided on ATF Form 6A.

(Approved by the Office of Management and Budget under control number 1512–0017)

§ 447.46 Articles in transit.

Articles subject to the import permit procedures of this subpart which enter the United States for temporary
deposit pending removal therefrom and such articles which are temporarily taken out of the United States for return thereto shall be regarded as in transit and will be considered neither imported nor exported under this part. Such transactions are subject to the Intransit or Temporary Export License procedures of the Department of State (see 22 CFR Part 123).

Subpart F—Miscellaneous Provisions

§ 447.51 Import certification and delivery verification.

Pursuant to agreement with the United States, certain foreign countries are entitled to request certification of legality of importation of articles on the U.S. Munitions Import List. Upon request of a foreign government, the appropriate ATF officer will certify the importation, on Form ITA–645P/ATF–4522/DSP53, for the U.S. importer. Normally, the U.S. importer will submit this form at the time he applies for an import permit. This document will serve as evidence to the government of the exporting company that the U.S. importer has complied with import regulations of the U.S. Government and is prohibited from diverting, transshipping, or re-exporting the material described therein without the approval of the U.S. Government. Foreign governments may also require documentation attesting to the delivery of the material into the United States. When such delivery certification is requested by a foreign government, the U.S. importer may obtain directly from the U.S. District Director of Customs the authenticated Delivery Verification Certificate (U.S. Department of Commerce Form ITA–647P) for this purpose.

(Approved by the Office of Management and Budget under control number 0625–0064)

§ 447.52 Import restrictions applicable to certain countries.

(a) It is the policy of the United States to deny licenses and other approvals with respect to defense articles and defense services originating in certain countries or areas. This policy applies to Cuba, Iran, Iraq, Libya, Mongolia, North Korea, Sudan, Syria, Vietnam, and some of the states that comprised the former Soviet Union (Armenia, Azerbaijan, Belarus, and Tajikistan). This policy applies to countries or areas with respect to which the United States maintains an arms embargo (e.g., Burma, China, the Federal Republic of Yugoslavia (Serbia and Montenegro), Haiti, Liberia, Rwanda, Somalia, Sudan, UNITA (Angola), and Zaire). It also applies when an import would not be in furtherance of world peace and the security and foreign policy of the United States.

NOTE: Changes in foreign policy may result in additions to and deletions from the above list of countries. The ATF will publish changes to this list in the Federal Register. Contact the Firearms and Explosives Imports Branch at (202) 927–8320 for current information.

(b) Notwithstanding paragraph (a) of this section, the appropriate ATF officer shall deny applications to import into the United States the following firearms and ammunition:

1. Any firearm located or manufactured in Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russian Federation, Turkmenistan, Ukraine, and Uzbekistan, and any firearm previously manufactured in the Soviet Union, that is not one of the models listed below:

(i) Pistols/Revolvers:

(A) German Model P08 Pistol.
(B) IZH 34M, .22 caliber Target Pistol.
(C) IZH 35M, .22 caliber Target Pistol.
(D) Mauser Model 1896 Pistol.
(E) MC–57–1 Pistol.
(F) MC–1–5 Pistol.
(G) Polish Vis Model 35 Pistol.
(H) Soviet Nagant Revolver.
(I) TOZ 35, .22 caliber Target Pistol.

(ii) Rifles:

(A) BARS–4 Bolt Action Carbine.
(B) Biathlon Target Rifle, .22LR caliber.
(C) British Enfield Rifle.

(D) CM2, .22 caliber Target Rifle (also known as SM2, .22 caliber).
(E) German Model 98K Rifle.
(F) German Model G41 Rifle.
(G) German Model G43 Rifle.
(H) IZH–94.
(I) LOS–7 Bolt Action Rifle.
(J) MC–7–07.
(K) MC–18–3.
(L) MC–19–07.
(M) MC–105–01.
(N) MC–112–02.
(O) MC–113–02.
(P) MC–115–1.
(Q) MC–125/127.
(R) MC–126.
(S) MC–128.
(T) Saiga Rifle.
(U) Soviet Model 38 Carbine.
(V) Soviet Model 44 Carbine.
(W) Soviet Model 91/30 Rifle.
(X) TOZ 18, .22 caliber Bolt Action Rifle.
(Y) TOZ 55.
(Z) TOZ 78.
(AA) Ural Target Rifle, .22LR caliber.
(BB) VEPR Rifle.
(CC) Winchester Model 1895, Russian Model Rifle;

Editor’s Note:

This list has been modified. The regulation will be amended to formally incorporate the revised list. The current list of affected firearms is available at www.ATF.gov.

(2) Ammunition located or
manufactured in Georgia, Kazakhstan, Kyrgyzstan, Moldova, Russian Federation, Turkmenistan, Ukraine, or Uzbekistan, and ammunition previously manufactured in the Soviet Union, that is 7.62x25mm caliber (also known as 7.63x25mm caliber or .30 Mauser); or

(3) A type of firearm the manufacture of which began after February 9, 1996.

c) The provisions of paragraph (b) of this section shall not affect the fulfillment of contracts with respect to firearms or ammunition entered or withdrawn from warehouse for consumption in the United States on or before February 9, 1996.

d) A defense article authorized for importation under this part may not be shipped on a vessel, aircraft or other means or conveyance which is owned or operated by, or leased to or from, any of the countries or areas covered by paragraph (a) of this section.

e) Applications for permits to import articles that were manufactured in, or have been in, a country or area proscribed under this section may be approved where the articles are covered by Category I(a) of the Import List (other than those subject to the provisions of 27 CFR Part 479), are importable as curios or relics under the provisions of 27 CFR 478.118, and meet the following criteria:

(1) The articles were manufactured in a proscribed country or area prior to the date, as established by the Department of State, the country or area became proscribed, or, were manufactured in a non-proscribed country or area; and

(2) The articles have been stored for the five year period immediately prior to importation in a non-proscribed country or area.

(f) Applicants desiring to import articles claimed to meet the criteria specified in paragraph (e) of this section shall explain, and certify to, how the firearms meet the criteria. The certification statement will be prepared in letter form, executed under the penalties of perjury, and should be submitted with the application for an import permit. The certification statement must be accompanied by documentary information on the country or area of original manufacture and on the country or area of storage for the five year period immediately prior to importation. Such information may, for example, include a verifiable statement in the English language of a government official or any other person having knowledge of the date and place of manufacture and/or the place of storage; a warehouse receipt or other document which provides the required history of storage; and any other document that the applicant believes substantiates the place and date of manufacture and the place of storage. The appropriate ATF officer, however, reserves the right to determine whether documentation is acceptable. Applicants shall, when required by the appropriate ATF officer, furnish additional documentation as may be necessary to determine whether an import permit application should be approved.

§ 447.53 Exemptions.

(a) The provisions of this part are not applicable to:

(1) Importations by the United States or any agency thereof;

(2) Importation of components for items being manufactured under contract for the Department of Defense; or

(3) Importation of articles (other than those which would be “firearms” as defined in 18 U.S.C. 921(a)(3)) manufactured in foreign countries for persons in the United States pursuant to Department of State approval.

(b) Any person seeking to import articles on the U.S. Munitions Import List as exempt under paragraph (a)(2) or (3) of this section may obtain release of such articles from Customs custody by submitting, to the Customs officer with authority to release, a statement claiming the exemption accompanied by satisfactory proof of eligibility. Such proof may be in the form of a letter from the Department of Defense or State, as the case may be, confirming that the conditions of the exemption are met.

§ 447.54 Administrative procedures inapplicable.

The functions conferred under section 38, Arms Export Control Act of 1976, as amended, are excluded from the operation of Chapter 5, Title 5, United States Code, with respect to Rule Making and Adjudication, 5 U.S.C. 553 and 554.

§ 447.55 Departments of State and Defense consulted.

The administration of the provisions of this part will be subject to the guidance of the Secretaries of State and Defense on matters affecting world peace and the external security and foreign policy of the United States.

§ 447.56 Authority of Customs officers.

(a) Officers of the U.S. Customs Service are authorized to take appropriate action to assure compliance with this part and with 27 CFR Parts 478 and 479 as to the importation or attempted importation of articles on the U.S. Munitions Import List, whether or not authorized by permit.

(b) Upon the presentation to him of a permit or written approval authorizing importation of articles on the U.S. Munitions Import List, the Customs officer who has authority to release same may require, in addition to such documents as may be required by Customs regulations, the production of other relevant documents relating to the proposed importation, including, but not limited to, invoices, orders, packing lists, shipping documents, correspondence, and instructions.

§ 447.57 U.S. military defense articles.

(a) (1) Notwithstanding any other provision of this part or of parts 478 or 479 of this chapter, no military defense article of United States manufacture may be imported into the United States if such article was furnished to a foreign government under a foreign assistance or foreign military sales program of the United States.

(2) The restrictions in paragraph (a)(1) of this section cover defense articles which are advanced in value or improved in condition in a foreign country, but do not include those which have been substantially transformed as to become, in effect, articles of foreign manufacture.

(b) Paragraph (a) of this section will not apply if:
(1) The applicant submits with the ATF Form 6—Part I application written authorization from the Department of State to import the defense article; and

(2) In the case of firearms, such firearms are curios or relics under 18 U.S.C. 925(e) and the person seeking to import such firearms provides a certification of a foreign government that the firearms were furnished to such government under a foreign assistance or foreign military sales program of the United States and that the firearms are owned by such foreign government. (See § 478.118 of this chapter providing for the importation of certain curio or relic handguns, rifles and shotguns.)

(c) For the purpose of this section, the term “military defense article” includes all defense articles furnished to foreign governments under a foreign assistance or foreign military sales program of the United States as set forth in paragraph (a) of this section.

(Approved by the Office of Management and Budget under OMB Control No. 1512–0017)

§ 447.58 Delegations of the Director.

The regulatory authorities of the Director contained in this part are delegated to appropriate ATF officers. These ATF officers are specified in ATF O 1130.34, Delegation of the Director’s Authorities in 27 CFR Part 447. ATF delegation orders, such as ATF O 1130.34, are available to any interested party by mailing a request to the ATF Distribution Center, PO Box 5950, Springfield, VA 22150–5950, or by accessing the ATF Web site http://www.atf.treas.gov/.

Editor’s Note:

The correct website is www.ATF.gov.

Subpart G—Penalties, Seizures and Forfeitures

§ 447.61 Unlawful importation.

Any person who willfully:

(a) Imports articles on the U.S. Munitions Import List without a permit;

(b) Engages in the business of importing articles on the U.S. Munitions Import List without registering under this part; or

(c) Otherwise violates any provisions of this part;

Shall upon conviction be fined not more than $1,000,000 or imprisoned not more than 10 years, or both.

§ 447.62 False statements or concealment of facts.

Any person who willfully, in a registration or permit application, makes any untrue statement of a material fact or fails to state a material fact required to be stated therein or necessary to make the statements therein not misleading, shall upon conviction be fined not more than $1,000,000, or imprisoned not more than 10 years, or both.

§ 447.63 Seizure and forfeiture.

Whoever knowingly imports into the United States contrary to law any article on the U.S. Munitions Import List; or receives, conceals, buys, sells, or in any manner facilitates its transportation, concealment, or sale after importation, knowing the same to have been imported contrary to law, shall be fined not more than $10,000 or imprisoned not more than 5 years, or both; and the merchandise so imported, or the value thereof shall be forfeited to the United States.

§ 447.64 Additional penalties for informal submissions.

Editor’s note:

The correct website is www.ATF.gov.
The purpose of this subpart is to establish policies and procedures implementing the Brady Handgun Violence Prevention Act (Brady Act), Public Law 103-159, 107 Stat. 1536. The Brady Act requires the Attorney General to establish a National Instant Criminal Background Check System (NICS) to be contacted by any licensed importer, licensed manufacturer, or licensed dealer of firearms for information as to whether the transfer of a firearm to any person who is not licensed under 18 U.S.C. 923 would be in violation of Federal or State law. The regulations in this subpart are issued pursuant to section 103(h) of the Brady Act, 107 Stat. 1542 (18 U.S.C. 922 note), and include requirements to ensure the privacy and security of the NICS and appeals procedures for persons who have been denied the right to obtain a firearm as a result of a NICS background check performed by the Federal Bureau of Investigation (FBI) or a State or local law enforcement agency.

§ 25.2 Definitions.

Appeal means a formal procedure to challenge the denial of a firearm transfer.

ARI means a unique Agency Record Identifier assigned by the agency submitting records for inclusion in the NICS Index.

ATF means the Bureau of Alcohol, Tobacco, and Firearms of the Department of Treasury.

Audit log means a chronological record of system (computer) activities that enables the reconstruction and examination of the sequence of events and/or changes in an event.

Business day means a 24-hour day (beginning at 12:01 a.m.) on which state offices are open in the state in which the proposed firearm transaction is to take place.

Control Terminal Agency means a State or territorial criminal justice agency recognized by the FBI as the agency responsible for providing State or territory-wide service to criminal justice users of NCIC data.

Data source means an agency that provided specific information to the NICS.

Delayed means the response given to the FFL indicating that the transaction is in an "Open" status and that more research is required prior to a NICS "Proceed" or "Denied" response. A "Delayed" response to the FFL indicates that it would be unlawful to transfer the firearm until receipt of a follow-up "Proceed" response from the NICS or the expiration of three business days, whichever occurs first.

Denied means denial of a firearm transfer based on a NICS response indicating one or more matching records were found providing information demonstrating that receipt of a firearm by a prospective transferee would violate 18 U.S.C. 922 or State law.

Denying agency means a POC or the NICS Operations Center, whichever determines that information in the NICS indicates that the transfer of a firearm to a person would violate Federal or State law, based on a background check.

Dial-up access means any routine access through commercial switched circuits on a continuous or temporary basis.

Federal agency means any authority of the United States that is an "Agency" under 44 U.S.C. 3502(1), other than those considered to be independent regulatory agencies, as defined in 44 U.S.C. 3502(10).

FFL (federal firearms licensee) means a person licensed by the ATF as a manufacturer, dealer, or importer of firearms.

Firearm has the same meaning as in 18 U.S.C. 921(a)(3).

Licensed dealer means any person defined in 27 CFR 478.11.

Licensed importer has the same meaning as in 27 CFR 478.11.

Licensed manufacturer has the same meaning as in 27 CFR 478.11.

NCIC (National Crime Information Center) means the nationwide computerized information system of criminal justice data established by the FBI as a service to local, State, and Federal criminal justice agencies.

NICS means the National Instant Criminal Background Check System, which an FFL must, with limited exceptions, contact for information on whether receipt of a firearm by a person who is not licensed under 18 U.S.C. 923 would violate Federal or State law.

NICS Index means the database, to
be managed by the FBI, containing information provided by Federal and State agencies about persons prohibited under Federal law from receiving or possessing a firearm. The NICS Index is separate and apart from the NCIC and the Interstate Identification Index (III).

NICS operational day means the period during which the NICS Operations Center has its daily regular business hours.

NICS Operations Center means the unit of the FBI that receives telephone or electronic inquiries from FFLs to perform background checks, makes a determination based upon available information as to whether the receipt or transfer of a firearm would be in violation of Federal or State law, researches criminal history records, tracks and finalizes appeals, and conducts audits of system use.

NICS Representative means a person who receives telephone inquiries to the NICS Operations Center from FFLs requesting background checks and provides a response as to whether the receipt or transfer of a firearm may proceed or is delayed.

NRI (NICS Record Identifier) means the system-generated unique number associated with each record in the NICS Index.

NTN (NICS Transaction Number) means the unique number that will be assigned to each valid background check inquiry received by the NICS. Its primary purpose will be to provide a means of associating inquiries to the NICS with the responses provided by the NICS to the FFLs.

Open means those non-cancelled transactions where the FFL has not been notified of the final determination. In cases of "open" responses, the NICS continues researching potentially prohibiting records regarding the transferee and, if definitive information is obtained, communicates to the FFL the final determination that the check resulted in a proceed or a deny. An "open" response does not prohibit an FFL from transferring a firearm after three business days have elapsed since the FFL provided to the system the identifying information about the prospective transferee.

ORI (Originating Agency Identifier) means a nine-character identifier assigned by the FBI to an agency that has met the established qualifying criteria for ORI assignment to identify the agency in transactions on the NCIC System.

Originating Agency means an agency that provides a record to a database checked by the NICS.

POC (Point of Contact) means a State or local law enforcement agency serving as an intermediary between an FFL and the federal databases checked by the NICS. A POC will receive NICS background check requests from FFLs, check state or local record systems, perform NICS inquiries, determine whether matching records provide information demonstrating that an individual is disqualified from possessing a firearm under Federal or State law, and respond to FFLs with the results of a NICS background check. A POC will be an agency with express or implied authority to perform POC duties pursuant to State statute, regulation, or executive order.

Proceed means a NICS response indicating that the information available to the system at the time of the response did not demonstrate that transfer of the firearm would violate Federal or State law. A "Proceed" response would not relieve an FFL from compliance with other provisions of Federal or State law that may be applicable to firearms transfers. For example, under 18 U.S.C. § 922(d), an FFL may not lawfully transfer a firearm if he or she knows or has reasonable cause to believe that the prospective recipient is prohibited by law from receiving or possessing a firearm.

Record means any item, collection, or grouping of information about an individual that is maintained by an agency, including but not limited to information that disqualifies the individual from receiving a firearm, and that contains his or her name or other personal identifiers.

STN (State-Assigned Transaction Number) means a unique number that may be assigned by a POC to a valid background check inquiry.

System means the National Instant Criminal Background Check System (NICS).

§ 25.3 System information.
(a) There is established at the FBI a National Instant Criminal Background Check System.
(b) The system will be based at the Federal Bureau of Investigation, 1000 Custer Hollow Road, Clarksburg, West Virginia 26306-0147.
(c) The system manager and address are: Director, Federal Bureau of Investigation, J. Edgar Hoover F.B.I. Building, 935 Pennsylvania Avenue, NW, Washington, D.C. 20535.

§ 25.4 Record source categories.
It is anticipated that most records in the NICS Index will be obtained from Federal agencies. It is also anticipated that a limited number of authorized State and local law enforcement agencies will voluntarily contribute records to the NICS Index. Information in the NCIC and III systems that will be searched during a background check has been or will be contributed voluntarily by Federal, State, local, and international criminal justice agencies.

§ 25.5 Validation and data integrity of records in the system.
(a) The FBI will be responsible for maintaining data integrity during all NICS operations that are managed and carried out by the FBI. This responsibility includes:
(1) Ensuring the accurate adding, canceling, or modifying of NICS Index records supplied by Federal agencies;
(2) Automatically rejecting any attempted entry of records into the NICS Index that contain detectable invalid data elements;
(3) Automatic purging of records in the NICS Index after they are on file for a prescribed period of time; and
(4) Quality control checks in the form of periodic internal audits by FBI personnel to verify that the information provided to the NICS Index remains valid and correct.
(b) Each data source will be responsible for ensuring the accuracy and validity of the data it provides to the NICS Index and will immediately correct any record determined to be invalid or incorrect.

§ 25.6 Accessing records in the system.
(a) FFLs may initiate a NICS background check only in connection with a proposed firearm transfer as required by the Brady Act. FFLs are strictly pro-
hibited from initiating a NICS back-
ground check for any other purpose.
The process of accessing the NICS for
the purpose of conducting a NICS
background check is initiated by an
FFL’s contacting the FBI NICS Opera-
tions Center (by telephone or electronic
dial-up access) or a POC. FFLs in each
state will be advised by the ATF
whether they are required to initiate
NICS background checks with the
NICS Operations Center or a POC and
how they are to do so.

(b) Access to the NICS through the
FBI NICS Operations Center. FFLs
may contact the NICS Operations Cen-
ter by use of a toll-free telephone num-
ber, only during its regular business
hours. In addition to telephone access,
toll-free electronic dial-up access to the
NICS will be provided to FFLs after the
beginning of the NICS operation. FFLs
with electronic dial-up access will be
able to contact the NICS 24 hours each
day, excluding scheduled and un-
scheduled downtime.

(c)(1) The FBI NICS Operations Cen-
ter, upon receiving an FFL telephone or
electronic dial-up request for a back-
ground check, will:

   (i) Verify the FFL Number and
code word;

   (ii) Assign a NICS Transaction
Number (NTN) to a valid inquiry and
provide the NTN to the FFL;

   (iii) Search the relevant data-
bases (i.e., NICS Index, NCIC, III)
for any matching records; and

   (iv) Provide the following NICS
responses based upon the con-
solidated NICS search results to the
FFL that requested the back-
ground check:

   A) "Proceed" response, if
no disqualifying information was
found in the NICS Index, NCIC,
or III.

   B) "Delayed" response, if
the NICS search finds a record
that requires more research to
determine whether the prospec-
tive transferee is disqualified
from possessing a firearm by
Federal or State law. A "De-
layed" response to the FFL indi-
cates that the firearm transfer
should not proceed pending re-
cceipt of a follow-up "Proceed"
response from the NICS or the
expiration of three business
days (exclusive of the day on
which the query is made),
whichever occurs first. (Exam-
ple: An FFL requests a NICS
check on a prospective firearm
transferee at 9:00 a.m. on Fri-
day and shortly thereafter re-
ceives a "Delayed" response
from the NICS. If State offices in
the state in which the FFL is lo-
cated are closed on Saturday and
Sunday and open the fol-
lowing Monday, Tuesday, and
Wednesday, and the NICS has
not yet responded with a "Pro-
ceed" or "Denied" response, the
FFL may transfer the firearm at
12:01 a.m. Thursday.)

   (C) "Denied" response, when
at least one matching rec-
ord is found in either the NICS
Index, NCIC, or III that provides
information demonstrating that
receipt of a firearm by the pro-
spective transferee would vio-
late 18 U.S.C. 922 or State law.
The "Denied" response will be
provided to the requesting FFL
by the NICS Operations Center
during its regular business
hours.

   (2) None of the responses pro-
vided to the FFL under paragraph
(c)(1) of this section will contain any
of the underlying information in
the records checked by the system.

(d) Access to the NICS through
POCs. In states where a POC is des-
ignated to process background checks
for the NICS, FFLs will contact the POC
to initiate a NICS background check.
Both ATF and the POC will notify FFLs
when at least one matching re-
cord is found in either the NICS
Index, NCIC, or III that provides
information demonstrating that
receipt of a firearm by the pro-
spective transferee would vio-
late 18 U.S.C. 922 or State law.
The "Denied" response will be
provided to the requesting FFL
by the NICS Operations Center
during its regular business
hours.

   (1) Verify the eligibility of the FFL
either by verification of the FFL num-
ber or an alternative POC-verifica-
tion system;

   (2) Enter a purpose code indicat-
ing that the query of the system is for
the purpose of performing a NICS
background check in connection with
the transfer of a firearm; and

   (3) Transmit the request for a
background check via the NCIC in-
terface to the NICS.

(e) Upon receiving a request for a
NICS background check, POCs may
also conduct a search of available files
in State and local law enforcement and
other relevant record systems, and may
provide a unique State-Assigned
Transaction Number (STN) to a valid
inquiry for a background check.

(f) When the NICS receives an in-
quiry from a POC, it will search the
relevant databases (i.e., NICS Index,
NCIC, III) for any matching record(s)
and will provide an electronic response
to the POC. This response will consoli-
date the search results of the relevant
databases and will include the NTN.
The following types of responses may
be provided by the NICS to a state or
local agency conducting a background
check:

   (1) No record response, if the
NICS determines, through a com-
plete search, that no matching record
exists.

   (2) Partial response, if the NICS
has not completed the search of all
of its records. This response will indi-
cate the databases that have been
searched (i.e., III, NCIC, and/or NICS
Index) and the databases that have
not been searched. It will also pro-
vide any potentially disqualifying in-
formation found in any of the
databases searched. A follow-up re-
sponse will be sent as soon as all the
relevant databases have been
searched. The follow-up response
will provide the complete search
results.

   (3) Single matching record re-
sponse, if all records in the relevant
databases have been searched and
one matching record was found.

   (4) Multiple matching record re-
sponse, if all records in the relevant
databases have been searched and
more than one matching record was
found.

   (g) Generally, based on the re-
sponse(s) provided by the NICS, and
other information available in the state
and local record systems, a POC will:

   (1) Confirm any matching records;
and

   (2) Notify the FFL that the transfer
may proceed, is delayed pending fur-
ther record analysis, or is denied.
"Proceed" notifications made within
three business days will be accom-
panied by the NTN or STN traceable
to the NTN. The POC may or may
not provide a transaction number

113
(NTN or STN) when notifying the FFL of a "Denied" response.

(h) POC Determination Messages. POCs shall transmit electronic NICS transaction determination messages to the FBI for the following transactions: open transactions that are not resolved before the end of the operational day on which the check is requested; denied transactions; transactions reported to the NICS as open and later changed to proceed; and denied transactions that have been overturned. The FBI shall provide POCs with an electronic capability to transmit this information. These electronic messages shall be provided to the NICS immediately upon communicating the POC determination to the FFL. For transactions where a determination has not been communicated to the FFL, the electronic messages shall be communicated no later than the end of the operational day on which the check was initiated. With the exception of permit checks, newly created POC NICS transactions that are not followed by a determination message (deny or open) before the end of the operational day on which they were initiated will be assumed to have resulted in a proceed notification to the FFL. The information provided in the POC determination messages will be maintained in the NICS Audit Log described in § 25.9(b). The NICS will destroy its records regarding POC determinations in accordance with the procedures detailed in § 25.9(b).

(i) Response recording. FFLs are required to record the system response, whether provided by the FBI NICS Operations Center or a POC, on the appropriate ATF form for audit and inspection purposes, under 27 CFR part 478 recordkeeping requirements. The FBI NICS Operations Center response will always include an NTN and associated “Proceed,” “Delayed,” or “Denied” determination. POC responses may vary as discussed in paragraph (g) of this section. In these instances, FFLs will record the POC response, including any transaction number and/or determination.

(j) Access to the NICS Index for purposes unrelated to NICS background checks required by the Brady Act. Access to the NICS Index for purposes unrelated to NICS background checks pursuant to 18 U.S.C. 922(f) shall be limited to uses for the purpose of:

(1) Providing information to Federal, state, or local criminal justice agencies in connection with the issuance of a firearm-related or explosives-related permit or license, including permits or licenses to possess, acquire, or transfer a firearm, or to carry a concealed firearm, or to import, manufacture, deal in, or purchase explosives; or

(2) Responding to an inquiry from the ATF in connection with a civil or criminal law enforcement activity relating to the Gun Control Act (18 U.S.C. Chapter 44) or the National Firearms Act (26 U.S.C. Chapter 53).

§ 25.7 Querying records in the system.

(a) The following search descriptors will be required in all queries of the system for purposes of a background check:

(1) Name;

(2) Sex;

(3) Race;

(4) Complete date of birth; and

(5) State of residence.

(b) A unique numeric identifier may also be provided to search for additional records based on exact matches by the numeric identifier. Examples of unique numeric identifiers for purposes of this system are: Social Security number (to comply with Privacy Act requirements, a Social Security number will not be required by the NICS to perform any background check) and miscellaneous identifying numbers (e.g., military number or number assigned by Federal, State, or local authorities to an individual's record). Additional identifiers that may be requested by the system after an initial query include height, weight, eye and hair color, and place of birth. At the option of the querying agency, these additional identifiers may also be included in the initial query of the system.

§ 25.8 System safeguards.

(a) Information maintained in the NICS Index is stored electronically for use in an FBI computer environment. The NICS central computer will reside inside a locked room within a secure facility. Access to the facility will be restricted to authorized personnel who have identified themselves and their need for access to a system security officer.

(b) Access to data stored in the NICS is restricted to duly authorized agencies. The security measures listed in paragraphs (c) through (f) of this section are the minimum to be adopted by all POCs and data sources having access to the NICS.

(c) State or local law enforcement agency computer centers designated by a Control Terminal Agency as POCs shall be authorized NCIC users and shall observe all procedures set forth in the NCIC Security Policy of 1992 when processing NICS background checks. The responsibilities of the Control Terminal Agencies and the computer centers include the following:

(1) The criminal justice agency computer site must have adequate physical security to protect against any unauthorized personnel gaining access to the computer equipment or to any of the stored data.

(2) Since personnel at these computer centers can have access to data stored in the NICS, they must be screened thoroughly under the authority and supervision of a State Control Terminal Agency. This authority and supervision may be delegated to responsible criminal justice agency personnel in the case of a satellite computer center being serviced through a State Control Terminal Agency. This screening will also apply to non-criminal justice maintenance or technical personnel.

(3) All visitors to these computer centers must be accompanied by staff personnel at all times.

(4) POCs utilizing a State/NCIC terminal to access the NICS must have the proper computer instructions written and other built-in controls to prevent data from being accessible to any terminals other than authorized terminals.

(5) Each State Control Terminal Agency shall build its data system around a central computer, through which each inquiry must pass for screening and verification.

(d) Authorized State agency remote terminal devices operated by POCs and having access to the NICS must meet the following requirements:

(1) POCs and data sources having terminals with access to the NICS must physically place these terminals in secure locations within the authorized agency;

(2) The agencies having terminals
with access to the NICS must screen terminal operators and must restrict access to the terminals to a minimum number of authorized employees; and

(3) Copies of NICS data obtained from terminal devices must be afforded appropriate security to prevent any unauthorized access or use.

(e) FFL remote terminal devices may be used to transmit queries to the NICS via electronic dial-up access. The following procedures will apply to such queries:

(1) The NICS will incorporate a security authentication mechanism that performs FFL dial-up user authentication before network access takes place;

(2) The proper use of dial-up circuits by FFLs will be included as part of the periodic audits by the FBI; and

(3) All failed authentications will be logged by the NICS and provided to the NICS security administrator.

(f) FFLs may use the telephone to transmit queries to the NICS, in accordance with the following procedures:

(1) FFLs may contact the NICS Operations Center during its regular business hours by a telephone number provided by the FBI;

(2) FFLs will provide the NICS Representative with their FFL Number and code word, the type of sale, and the name, sex, race, date of birth, and state of residence of the prospective buyer; and

(3) The NICS will verify the FFL Number and code word before processing the request.

(g) The following precautions will be taken to help ensure the security and privacy of NICS information when FFLs contact the NICS Operations Center:

(1) Access will be restricted to the initiation of a NICS background check in connection with the proposed transfer of a firearm.

(2) The NICS Representative will only provide a response of "Proceed" or "Delayed" (with regard to the prospective firearms transfer), and will not provide the details of any record information about the transferee. In cases where potentially disqualifying information is found in response to an FFL query, the NICS Representative will provide a "Delayed" response to the FFL. Follow-up "Proceed" or "Denied" responses will be provided by the NICS Operations Center during its regular business hours.

(3) The FBI will periodically monitor telephone inquiries to ensure proper use of the system.

(h) All transactions and messages sent and received through electronic access by POCs and FFLs will be automatically logged in the NICS Audit Log described in § 25.9(b). Information in the NICS Audit Log will include initiation and termination messages, failed authentications, and matching records located by each search transaction.

(i) The FBI will monitor and enforce compliance by NICS users with the applicable system security requirements outlined in the NICS POC Guidelines and the NICS FFL Manual (available from the NICS Operations Center, Federal Bureau of Investigation, 1000 Custer Hollow Road, Clarksburg, West Virginia 26306-0147).

§ 25.9 Retention and destruction of records in the system.

(a) The NICS will retain NICS Index records that indicate that receipt of a firearm by the individuals to whom the records pertain would violate Federal or State law. The NICS will retain such records indefinitely, unless they are canceled by the originating agency. In cases where a firearms disability is not permanent, e.g., a disqualifying restraining order, the NICS will automatically purge the pertinent record when it is no longer disqualifying. Unless otherwise removed, records contained in the NCIC and III files that are accessed during a background check will remain in those files in accordance with established policy.

(b) The FBI will maintain an automated NICS Audit Log of all incoming and outgoing transactions that pass through the system.

(1) Contents. The NICS Audit Log will record the following information: Type of transaction (inquiry or response), line number, time, date of inquiry, header, message key, ORI or FFL identifier, and inquiry/response data (including the name and other identifying information about the prospective transferee and the NTN).

(i) NICS Audit Log records relating to denied transactions will be retained for 10 years, after which time they will be transferred to a Federal Records Center for storage;

(ii) NICS Audit Log records relating to transactions in an open status, except the NTN and date, will be destroyed after not more than 90 days from the date of inquiry; and

(iii) In cases of NICS Audit Log records relating to allowed transactions, all identifying information submitted by or on behalf of the transferee will be destroyed within 24 hours after the FFL receives communication of the determination that the transfer may proceed. All other information, except the NTN and date, will be destroyed after not more than 90 days from the date of inquiry.

(2) Use of information in the NICS Audit Log. The NICS Audit Log will be used to analyze system performance, assist users in resolving operational problems, support the appeals process, or support audits of the use and performance of the system. Searches may be conducted on the Audit Log by time frame, i.e., by day or month, or by a particular state or agency. Information in the NICS Audit Log pertaining to allowed transactions may be accessed directly only by the FBI and only for the purpose of conducting audits of the use and performance of the NICS, except that:

(i) Information in the NICS Audit Log, including information not yet destroyed under § 5.9(b)(1)(iii), that indicates, either on its face or in conjunction with other information, a violation or potential violation of law or regulation, may be shared with appropriate authorities responsible for investigating, prosecuting, and/or enforcing such law or regulation; and

(ii) The NTNs and dates for allowed transactions may be shared with ATF in Individual FFL Audit Logs as specified in § 25.9(b)(4).

(3) Limitation on use. The NICS, including the NICS Audit Log, may not be used by any Department, agency, officer, or employee of the United States to establish any system for the registration of firearms, firearm owners, or firearm transactions or dispositions, except with respect to persons prohibited from
receiving a firearm by 18 U.S.C. 922(g) or (n) or by State law. The NICS Audit Log will be monitored and reviewed on a regular basis to detect any possible misuse of NICS data.

(4) Creation and Use of Individual FFL Audit Logs. Upon written request from ATF containing the name and license number of the FFL and the proposed date of inspection of the named FFL by ATF, the FBI may extract information from the NICS Audit Log and create an Individual FFL Audit Log for transactions originating at the named FFL for a limited period of time. An Individual FFL Audit Log shall contain all information on denied transactions, and, with respect to all other transactions, only non-identifying information from the transaction. In no instance shall an Individual FFL Audit Log contain more than 60 days worth of allowed or open transaction records originating at the FFL. The FBI will provide POC States the means to provide to the FBI information that will allow the FBI to generate Individual FFL Audit Logs in connection with ATF inspections of FFLs in POC States. POC States that elect not to have the FBI generate Individual FFL Audit Logs for FFLs in their states must develop a means by which the POC will provide such Logs to ATF.

(c) The following records in the FBI-operated terminals of the NICS will be subject to the Brady Act's requirements for destruction:

(1) All inquiry and response messages (regardless of media) relating to a background check that results in an allowed transfer; and

(2) All information (regardless of media) contained in the NICS Audit Log relating to a background check that results in an allowed transfer.

(d) The following records of State and local law enforcement units serving as POCs will be subject to the Brady Act's requirements for destruction:

(1) All inquiry and response messages (regardless of media) relating to the initiation and result of a check of the NICS that allows a transfer that are not part of a record system created and maintained pursuant to independent State law regarding firearms transactions; and

(2) All other records relating to the person or the transfer created as a result of a NICS check that are not part of a record system created and maintained pursuant to independent State law regarding firearms transactions.

§ 25.10 Correction of erroneous system information.

(a) An individual may request the reason for the denial from the agency that conducted the check of the NICS (the "denying agency," which will be either the FBI or the State or local law enforcement agency serving as a POC). The FFL will provide to the denied individual the name and address of the denying agency and the unique transaction number (NTN or STN) associated with the NICS background check. The request for the reason for the denial must be made in writing to the denying agency. (POCs at their discretion may waive the requirement for a written request.)

(b) The denying agency will respond to the individual with the reasons for the denial within five business days of its receipt of the individual's request. The response should indicate whether additional information or documents are required to support an appeal, such as fingerprints in appeals involving questions of identity (i.e., a claim that the record in question does not pertain to the individual who was denied).

(c) If the individual wishes to challenge the accuracy of the record upon which the denial is based, or if the individual wishes to assert that his or her rights to possess a firearm have been restored, he or she may make application first to the denying agency, i.e., either the FBI or the POC. If the denying agency is unable to resolve the appeal, the denying agency will so notify the individual and shall provide the name and address of the agency that originated the document containing the information upon which the denial was based. The individual may then apply for correction of the record directly to the agency from which it originated. If the record is corrected as a result of the appeal to the originating agency, the individual may so notify the denying agency, which will, in turn, verify the record correction with the originating agency (assuming the originating agency has not already notified the denying agency of the correction) and take all necessary steps to correct the record in the NICS.

(d) As an alternative to the above procedure where a POC was the denying agency, the individual may elect to direct his or her challenge to the accuracy of the record, in writing, to the FBI, NICS Operations Center, Criminal Justice Information Services Division, 1000 Custer Hollow Road, Module C–3, Clarksburg, West Virginia 26306–0147. Upon receipt of the information, the FBI will investigate the matter by contacting the POC that denied the transaction or the data source. The FBI will request the POC or the data source to verify that the record in question pertains to the individual who was denied, or to verify or correct the challenged record. The FBI will consider the information it receives from the individual and the response it receives from the POC or the data source. If the record is corrected as a result of the challenge, the FBI shall so notify the individual, correct the erroneous information in the NICS, and give notice of the error to any Federal department or agency or any state that was the source of such erroneous records.

(e) Upon receipt of notice of the correction of a contested record from the originating agency, the FBI or the agency that contributed the record shall correct the data in the NICS and the denying agency shall provide a written confirmation of the correction of the erroneous data to the individual for presentation to the FFL. If the appeal of a contested record is successful and thirty (30) days or less have transpired since the initial check, and there are no other disqualifying records upon which the denial was based, the NICS will communicate a "Proceed" response to the FFL. If the appeal is successful and more than thirty (30) days have transpired since the initial check, the FFL must recheck the NICS before allowing the sale to continue. In cases where multiple disqualifying records are the basis for the denial, the individual must pursue a correction for each record.

(f) An individual may also contest the accuracy or validity of a disqualifying record by bringing an action against the state or political subdivision responsible for providing the contested information, or responsible for denying the transfer, or against the United States, as the case may be, for an order directing that the contested information be corrected or that the firearm transfer be approved.

(g) An individual may provide written consent to the FBI to maintain information about himself or herself in a Voluntary Appeal File to be established by the FBI and checked by the NICS for the purpose of preventing the future erroneous denial or extended delay by the NICS of a firearm transfer. Such file
shall be used only by the NICS for this purpose. The FBI shall remove all information in the Voluntary Appeal File pertaining to an individual upon receipt of a written request by that individual. However, the FBI may retain such information contained in the Voluntary Appeal File as long as needed to pursue cases of identified misuse of the system. If the FBI finds a disqualifying record on the individual after his or her entry into the Voluntary Appeal File, the FBI may remove the individual's information from the file.

§ 25.11 Prohibited activities and penalties.

(a) State or local agencies, FFLs, or individuals violating this subpart A shall be subject to a fine not to exceed $10,000 and subject to cancellation of NICS inquiry privileges.

(b) Misuse or unauthorized access includes, but is not limited to, the following:

(1) State or local agencies, FFLs, or individuals purposefully furnishing incorrect information to the system to obtain a "Proceed" response, thereby allowing a firearm transfer;

(2) State or local agencies, FFLs, or individuals purposefully using the system to perform a check for unauthorized purposes; and

(3) Any unauthorized persons accessing the NICS.
§ 1715. Firearms as nonmailable; regulations.

Pistols, revolvers, and other firearms capable of being concealed on the person are nonmailable and shall not be deposited in or carried by the mails or delivered by any officer or employee of the Postal Service. Such articles may be conveyed in the mails, under such regulations as the Postal Service shall prescribe, for use in connection with their official duty, to officers of the Army, Navy, Air Force, Coast Guard, Marine Corps, or Organized Reserve Corps; to officers of the National Guard or Militia of a State, Territory, Commonwealth, Possession, or District; to officers of the United States or of a State, Territory, Commonwealth, Possession, or District whose official duty is to serve warrants of arrest or commitments; to employees of the Postal Service; to officers and employees of enforcement agencies of the United States; and to watchmen engaged in guarding the property of the United States, a State, Territory, Commonwealth, Possession, or District. Such articles also may be conveyed in the mails to manufacturers of firearms or bona fide dealers therein in customary trade shipments, including such articles for repairs or replacement of parts, from one to the other, under such regulations as the Postal Service shall prescribe.

Whoever knowingly deposits for mailing or delivery, or knowingly causes to be delivered by mail according to the direction thereon, or at any place to which it is directed to be delivered by the person to whom it is addressed, any pistol, revolver, or firearm declared nonmailable by this section, shall be fined under this title or imprisoned not more than two years, or both.

These items are often extracts from the original material. Where sections of law have been altered or amended but the purpose or intent of the ruling, procedure, or industry circular remains in effect, a text modification has been made, and the word "amended" appears in brackets at the end in the following manner: [Amended].

RULINGS

27 CFR 178.41: General
(Also 178.42, 178.50)

Firearms or ammunition may not be sold at gun shows by a licensed dealer, but orders may be taken under specified conditions; Revenue Ruling 66-265 superseded.

Rev. Rul. 69-59

Advice has been requested whether a person who is licensed under 18 U.S.C. Chapter 44 (which superseded the Federal Firearms Act (15 U.S.C. Chapter 18)) or who is continuing operations under a license issued to him under the Federal Firearms Act as a manufacturer, importer or dealer in firearms or ammunition may sell firearms or ammunition at a gun show held on premises other than those covered by his outstanding license.

Under 18 U.S.C. 923(a), "a separate fee" is required to be paid for each place at which business as a licensee is to be conducted. Further, each applicant for a license is required to have in a State "premises from which he conducts business" (18 U.S.C. 923(d)(1)(E)) and to specify such premises in the license application. In addition, records are required to be maintained at the business premises covered by the license (18 U.S.C. 923(g)).

Therefore, a person holding a valid license may engage in the business covered by the license only at the specific business premises for which his license has been obtained. Thus, a licensee may not sell firearms or ammunition at a gun show held on premises other than those covered by his license. He may, however, have a booth or table at such a gun show at which he displays his wares and takes orders for them, provided that the sale and delivery of the firearms or ammunition are to be lawfully effected from his licensed business premises only and his records properly reflect such transactions.

There are no provisions in the law for the issuance of temporary licenses to cover sales at gun shows, and licenses will be issued only for premises where the applicant regularly intends to engage in the business to be covered by the license.

This ruling does not apply to the activities of licensed collectors with respect to the receipt or disposition of curios and relics by such collectors. For provisions relating to transactions by licensed collectors of curios and relics, see 27 CFR 178.50 of the regulations.

Editor's Note:

In 1986, the GCA was amended to allow licensees to sell firearms at gunshows in the State in which their licensed premises are located, and was further amended in 1997 to allow licensees to sell curio or relic firearms to other licensees at any location. Moreover, the interstate controls no longer apply to ammunition sales. However, the ruling is still applicable to licensees’ off-premises sales not addressed by these amendments.

27 CFR 178.114: Importation by Members of the U.S. Armed Forces

ATF Rul. 69-309

This ruling was revoked by T.D. ATF-426.

27 CFR 178.41: General
(Also 178.42, 178.45, 178.49)

Licensed firearms dealers operating at multiple locations may establish a common expiration date for all licenses.

ATF Rul. 73-9

Licensed firearms dealers operating more than one location for which a license is required may establish a common expiration date for all licenses issued to their several locations. Dealers wishing to establish such a date for all licenses issued to them may make application in writing to the Regional Director (Compliance) of the region in which the businesses or activities are operated. The application should set out the requested common expiration date and should list all licensed premises in the region covered by the application. The Regional Director (Compliance) will advise the dealer whether the request may be approved and, if approved, will provide the necessary instructions and renewal application. It is pointed out that approval of a request will entail a one-time loss associated with the existing license, as it will be cancelled on and after the date of issuance of the license bearing the requested common expiration date, and the regulations do not provide for prorated refunds.
27 CFR 178.11: MEANING OF TERMS
(Also 178.23, 178.44)

Because of the nature of operations conducted by a gunsmith, he shall not be required to have business premises open to the general public or to have regular business hours.

ATF Rul. 73-13

Because of the nature of operations conducted by a gunsmith, any applicant for a license who intends to engage solely in this type of business and so specifies on his application will not be required to maintain regular business hours. Further, if the business is conducted from a private dwelling, a separate portion should be designated as the business premises, which need not be open to all segments of the public but only accessible to the clientele that the business is set up to serve. However, the licensed premises of the gunsmith are subject to the inspection requirements of 18 U.S.C. 923(g) and 27 CFR 178.23, and the gunsmith must maintain the required records as specified in 27 CFR 178.121 et seq.

Further, since a gunsmith is a licensed firearms dealer, if he engages in the business of buying and selling firearms, he must record his transactions on Form 4473 (Firearms Transaction Record) for each sale, and maintain the firearms acquisition and disposition records required of all licensed dealers. However, if a gunsmith engages in the business of buying and selling firearms during the term of his current license, he may be required to submit a new Form 7 (Firearms) at the time of renewal in accordance with 27 CFR 178.45 and meet the requirements of an applicant engaging in the business of buying and selling firearms, such as having business premises open to the general public and having regular business hours.

(Amplified by ATFR 77-1)

27 CFR 178.11: MEANING OF TERMS
(Also 178.23, 178.44, 178.99, 178.124)

Because of the nature of operations conducted by a consultant or expert, he shall not be required to have business premises open to the general public or to have regular business hours.

ATF Rul. 73-19

Revenue Ruling 69-248, C.B. 1969-1, 360 (Internal Revenue) permits firearms licensees to ship, transport, or deliver firearms in interstate commerce to their nonlicensed employees, agents, or representatives for business purposes. As was clarified in Industry Circular 72-23 the ruling also permits firearms licensees to similarly transfer firearms to nonlicensed professional writers, consultants, and evaluators for research or evaluation. Title 18 U.S.C., Section 922(a)(2)(A), permits an individual to ship or transport firearms in interstate commerce to a firearms licensee for repair or customizing. Furthermore, the definition of a firearms dealer in 18 U.S.C. 921 and 27 CFR 178.11 is sufficiently broad that it can be interpreted to include a qualified firearms consultant or expert who is engaged in the business of testing or examining firearms. In view of these provisions, the Bureau has determined that firearms consultants or experts may be licensed as firearms dealers in order that they may receive firearms from nonlicensed individuals for testing and examination.

Because of the nature of operations conducted by a firearms consultant or expert, any licensed dealer who engages solely in this type of business will not be required to maintain regular business hours. If the business is conducted from a private residence, a separate portion of the dwelling should be designated as "business premises." Such premises need not be open to all segments of the public but only accessible to the clientele that the business is set up to serve. However, the licensed premises of the firearms consultant-expert shall be subject to inspection under the authority of 18 U.S.C. 923(g) and 27 CFR 178.23.

A licensed firearms consultant or expert shall maintain records of receipt and delivery of firearms, as is required by 27 CFR 178, Subpart H, except that the licensee need not prepare Forms 4473, Firearms Transaction Record, reflecting the firearms examined.

However, shipments and deliveries of firearms shall not be made in care of persons who are ineligible "to ship or transport in interstate or foreign commerce, or possess in or affecting commerce, any firearm or ammunition; or to receive any firearm or ammunition which has been shipped or transported in interstate or foreign commerce" under 922(g).

A firearms consultant or expert who desires to obtain a license as a dealer in firearms shall file Form 7 (Firearms), Application for License Under 18 U.S.C. Chapter 44, Firearms, in the manner prescribed by 27 CFR 178.44. The application shall include a statement that the applicant is engaged in business as a bona fide firearms consultant or expert and, where the applicant intends to perform testing or examination services for one or more persons on a continuing basis, the statement shall include the name, address, and nature of business of such persons. A license as a dealer in firearms will be issued only after the Regional Director (Compliance) is satisfied that the applicant is a bona fide consultant or expert and is otherwise qualified under the law.

Since a licensed firearms consultant or expert is a firearms dealer, if he engages in the business of buying and selling firearms, he must record his transactions on Form 4473, Firearms Transaction Record, for each sale, and maintain the firearms acquisition and disposition records required of all licensed dealers. If a firearms consultant or expert engages in the business of buying and selling firearms during the term of his current license, he may be required to submit a new Form 7 (Firearms) at the time of renewal in accordance with 27 CFR 178.45 and meet the requirements of an applicant engaging in the business of buying and selling firearms, such as having business premises open to the general public and having regular business hours.

[This ATF ruling does not apply to firearms within the purview of the National Firearms Act (26 U.S.C. Chapter 53)]

27 CFR 179.104: REGISTRATION OF FIREARMS BY CERTAIN GOVERNMENTAL ENTITIES

When NFA firearms are registered
on Form 10 by governmental entities, subsequent transfers of such firearms shall be made only to other governmental entities.

**ATF Rul. 74-8**

Advice has been requested whether the Bureau will approve transfer of National Firearms Act weapons by a State or political subdivision (police department) to a special occupational taxpayer where such firearms were registered in the National Firearms Registration and Transfer Record pursuant to 27 CFR 179.104.

27 CFR 179.104 provides that any State, any political subdivision thereof, or any official police organization of such a government entity engaged in criminal investigations, which acquires for official use a firearm not registered to it, such as by abandonment or by forfeiture, will register such firearm with the Director by filing Form 10 (Firearms), Application for Registration of Firearms Acquired by Certain Governmental Entities, and that such registration shall become a part of the National Firearms Registration and Transfer Record.

The purpose of the above regulation was to permit the limited registration of firearms by certain governmental entities for official use only. 27 CFR 179.104 may not be used as a vehicle to register otherwise unregisterable firearms for the purpose of introducing such firearms into ordinary commercial channels. Accordingly, when registration of firearms by governmental entities is approved on Form 10, the form will be marked "official use only." The Bureau will approve subsequent transfers of such firearms only to other governmental entities for official use. Otherwise, such firearms must be destroyed or abandoned to the Bureau.

**[74 ATF C.B. 67]**

**27 CFR 178.114: IMPORTATION BY MEMBERS OF THE U.S. ARMED FORCES**

A member of the U.S. Armed Forces who is a resident of any State or territory which requires that a permit or other authorization be issued prior to possessing or owning a handgun shall submit evidence of compliance with State law before an application to import a handgun may be approved.

**ATF Rul. 74-13**

Handguns have been transported, shipped, received, or imported into the United States by members of the United States Armed Forces to their place of residence without such members having obtained the required permit or other authorization required by their State of residence which would permit them to possess or own (as opposed to a license to purchase) handguns in that State.

18 U.S.C. 925(a)(4) provides that when established to the satisfaction of the Secretary to be consistent with the provisions of 18 U.S.C. Chapter 44 and other applicable Federal and State laws and published ordinances, the Secretary may authorize the transportation, shipment, receipt, or importation into the United States to the place of residence of any member of the United States Armed Forces who is on active duty outside the United States (or has been on active duty outside the United States within the 60-day period immediately preceding the transportation, shipment, receipt, or importation), of any firearm or ammunition which is:

(a) Determined by the Secretary to be generally recognized as particularly suitable for sporting purposes, or determined by the Department of Defense to be a type of firearm normally classified as a war souvenir; and

(b) Intended for the personal use of such member.

27 CFR 178.114(a) provides that an application for a permit to import a firearm or ammunition into the United States to the place of residence of any military member of the United States Armed Forces on active duty outside the United States shall include a certification by the applicant that the transportation, receipt, or possession of the firearm or ammunition to be imported, would not constitute a violation of any State law or local ordinance at the place of the applicant's residence.

In order to assure that the transportation, shipment, receipt, or importation of handguns under 27 CFR 178.114 is not in violation of applicable State laws, it is held that, any member of the United States Armed Forces who is a resident of any State or territory which requires that a permit or authorization be obtained prior to possessing or owning a handgun shall, in addition to making the required certification in the application, submit with his application to the Director a copy of the license, permit, certificate of registration, or firearm identification card, as applicable and as required by his State, in order to obtain a permit to import a handgun into the United States.

[74 ATF C.B. 60]

**27 CFR 178.124: FIREARMS TRANSACTION RECORDS**

(Also 178.123, 178.125, 178.147)

Form 4473 shall not be required to record disposition of a like replacement firearm when such firearm is delivered by a licensee to the person from whom the malfunctioning or damaged firearm was received, provided such disposition is recorded in the licensee's permanent records.

**ATF Rul. 74-20**

It is held that a firearms transaction record, Form 4473, shall not be required to record the disposition of a replacement firearm of the same kind and type where such a firearm is delivered by a licensee to the person from whom the malfunctioning or damaged firearm was received.

It should be noted, however, that the licensee is required by 27 CFR 178.125 to maintain in his permanent records the disposition of such a replacement firearm. (See also ATFR 76-25)

[74 ATF C.B. 61]

**27 CFR 178.11: MEANING OF TERMS**

(Also 173.11)

A small caliber weapon ostensibly designed to expel only tear gas, similar substances, or pyrotechnic signals, which may readily be converted to expel a projectile by means of an explosive, classified as a firearm.

**ATF Rul. 75-7**

The term "firearm" as used in 18 U.S.C. 921(a)(3) includes "any weapon (including a starter gun) which will or is designed to or may
readily be converted to expel a projectile by the action of an explosive."

A small caliber weapon ostensibly designed to expel only tear gas, similar substances or pyrotechnic signals by the action of an explosive, which may readily be converted to expel a projectile by means of an explosive, constitutes, a "firearm" within the purview of 18 U.S.C. 921(a)(3)(A).

Tests performed on these weapons have established that they may readily be converted to expel a projectile by the action of an explosive, normally by means of a minor alteration of the expended Helix cartridge and/or the simple attachment of a barrel/chamber to the firing mechanism.

Such weapons manufactured within the United States on or after June 1, 1975, will be subject to all of the provisions of Chapter 44 and 27 CFR Part 178. Such weapons manufactured before June 1, 1975, will not be treated as subject to the provisions of Chapter 44 and 27 CFR Part 178 in order to allow persons manufacturing and dealing in such weapons to comply with the provisions of Chapter 44 and 27 CFR Part 178.

Since such weapons are not generally recognized as particularly suitable for or readily adaptable to sporting purposes (18 U.S.C. 925(d)(3)), the importation of such weapons is prohibited unless such importation comes within one of the statutory exceptions provided in 18 U.S.C. 925.

[75 ATF C.B. 55]

27 CFR 178.94: SALES OR DELIVERIES BETWEEN LICENSEES

A firearms licensee may continue operations until his renewal application for a license is finally acted upon.

ATF Rul. 75-27

Under 5 U.S.C. 558, when a licensee has made timely and sufficient application for a renewal in accordance with agency rules, a license with reference to an activity of a continuing nature does not expire until the application has been finally determined by the agency. In accordance with section 558, a firearms licensee who timely applies for renewal of his license is authorized to continue his firearms operations as authorized by his license until his renewal application is finally acted upon. As provided by 27 CFR 178.94, a transferor licensee is authorized to continue to make shipments to a licensee for not more than 45 days following the expiration date of the transferee’s license.

Held, a transferor licensee may continue to make firearms and ammunition shipments to a licensee who has timely applied for renewal of his license but has not had his application acted upon within 45 days after the expiration of his license. The transferor licensee shall, however, in cases where the 45-day period has passed, obtain appropriate evidence that the transferee’s license renewal application is still pending in the office of the Regional Director (Compliance), Bureau of Alcohol, Tobacco and Firearms. Such evidence should consist of a letter from the Regional Director (Compliance), to the transferee licensee stating that his renewal application has been timely received and that action thereon is currently pending.

[75 ATF C.B. 60]

27 CFR 178.92: IDENTIFICATION OF FIREARMS

Importers may adopt serial numbers placed on certain firearms by foreign manufacturers.

ATF Rul. 75-28

The Bureau has determined that in some cases the serial number placed on a firearm by a foreign manufacturer is adequate to provide the identification number required by section 178.92. See, also, section 178.22(a).

Held, where a serial number has been placed on the frame or receiver of a firearm by a foreign manufacturer in the manner contemplated by 27 CFR 178.92, and such serial number does not duplicate a number previously adopted or assigned by the importer to any other firearm, the importer may adopt the serial number of the foreign manufacturer:

Provided, the importer shall in all cases place his name and address (city and State, or recognized abbreviation thereof), and any other marks necessary to comply with the identification requirements of 27 CFR 178.92, on such imported firearms.

[75 ATF C.B. 59] [Amended]

27 CFR 178.11: MEANING OF TERMS
(Also 179.11)

A hand-held device designed to expel by means of an explosive two electrical contacts (barbs) connected by two wires attached to a high voltage source in the device classified as a firearm.

ATF Rul. 76-6

Taser Model TF-1, a hand-held device designed to expel by means of an explosive two electrical contacts (barbs) connected by two wires attached to a high voltage source in the device, is a "firearm" within the purview of 18 U.S.C. 921(a)(3)(A). It is also "any other weapon" under the National Firearms Act (26 U.S.C. 5845(e)).

In order to allow persons manufacturing and dealing in such weapons to comply with the provisions of Chapter 44 and 27 CFR Part 178, this ruling will be applicable to such weapons manufactured within the United States on or after May 1, 1976. Such weapons manufactured before May 1, 1976, will not be treated as subject to the provisions of Chapter 44 and 27 CFR Part 178. With respect to the "any other weapon" classification under the National Firearms Act, pursuant to 26 U.S.C. 7805(b), this ruling will not be applied to such weapons manufactured before May 1, 1976. Accordingly, such weapons manufactured on or after May 1, 1976, will be subject to all the provisions of the National Firearms Act and 27 CFR Part 179.

(Amplified by ATFR 80-20)

[76 ATF C.B. 96]

27 CFR 178.124: FIREARMS TRANSACTION RECORD
(Also 178.125, 178.126a)

Certain reporting and record-keeping requirements of pawnbrokers are explained.

ATF Rul. 76-15

The regulations do not require that a pawnbroker execute Form 4473 when a firearm is pledged for a loan. However, he must record the receipt thereof in his permanent acquisition and disposition record as required by
27 CFR 178.125(e). At the time a firearm is redeemed by a nonlicensee pledgor, Form 4473 must be executed and the appropriate entry made in the permanent acquisition and disposition record. Although a redemption is not considered a sale, it is a disposition for purposes of 27 CFR 178.124(a), 178.125(e), and 178.126a. See Hud- dleston v. United States, 415 U.S. 814 (1974).

However, no report of multiple sales and other dispositions is required to be filed with ATF when the handguns are returned to the person from whom received.

Held, Form 4473, Firearms Transaction Record, need not be executed when a pawnbroker accepts a firearm as a pledge for a loan. However, if a nonlicensee pledgor redeems the firearm or if disposition of the firearm is made to any other nonlicensee, Form 4473 must be executed.

Held further, pawnbrokers must enter into their permanent acquisition and disposition record the receipt of a firearm as a pledge for a loan and any disposition, including redemption, of such firearm.

Held further, pawnbrokers must submit reports of multiple sales and other dispositions of pistols and revolvers as required by 27 CFR 178.126(a) when the person receiving them is not the person who pawned the firearms.

[76 ATF C.B. 100][Amended]

27 CFR 179.11: MEANING OF TERMS

Mere possession of a license and a special tax stamp as a dealer in firearms does not qualify a person to receive firearms transfer-tax-free.

ATF Rul. 76-22

The mere possession of a license and a special (occupational) tax stamp as a dealer in firearms does not qualify a person to receive firearms transfer-tax-free. Any person holding a license and a special tax stamp as a dealer in firearms and not actually engaged within the United States in the business of selling NFA firearms may not lawfully receive NFA firearms without the transfer tax having been paid by the transferor. Where it is, therefore, determined that the proposed transferee on a Form 3, Application for Tax-Exempt Transfer of Firearm and Registration to Special (Occupational) Taxpayer, is not actually engaged in the business of dealing in NFA firearms, such application will be denied. In addition, if such person receives NFA firearms without the transfer tax having been paid, such firearms may be subject to seizure for forfeiture as having been unlawfully transferred without payment of the transfer tax.

[76 ATF C.B. 103]

27 CFR 178.121: GENERAL
(Also 178.147)

Recordkeeping requirements for firearms from which parts are salvaged for use in repairing firearms are clarified.

ATF Rul. 76-25

Section 921(a)(3) of Title 18, United States Code, and the regulations at 27 CFR 178.11 define the term "firearm" to include any weapon which will, or is designed to, or may readily be converted to, expel a projectile by the action of an explosive, and the frame or receiver of any such weapon.

The regulations in 27 CFR 178.122, 178.123 and 178.125 require each licensed importer, licensed manufacturer, and licensed dealer, respectively, to maintain such records of acquisition (including by manufacture) or disposition, whether temporary or permanent, of firearms as therein prescribed.

Held, a licensee who purchases a damaged firearm for the purpose of salvaging parts therefrom shall enter receipt of the firearm in his firearms acquisition and disposition record. If the frame or receiver of the firearm is damaged to the extent that it cannot be repaired, or if the licensee does not desire to repair the frame or receiver, he may destroy it and show the disposition of the firearm in his records as having been destroyed. Before a firearm may be considered destroyed, it must be cut, severed or mangled in such a manner as to render the firearm completely inoperable and such that it cannot be restored to an operative condition.

Where the repair of a customer's firearm results in an exchange of a frame or receiver, an entry shall be made in the licensee's records to show the transfer of such replacement part, as it is a "firearm" as defined in 18 U.S.C. 921(a)(3). Further, as held in ATF Ruling 74-20, 1974 ATF C.B. 61, a Form 4473, Firearms Transaction Record, shall not be required to record the disposition of a replacement firearm of the same kind and type where the firearm is delivered by the licensee to the person from whom the malfunctioning or damaged firearm was received. The frame or receiver received from the customer shall be entered as an acquisition, and if destroyed, it shall be entered in the disposition record as destroyed.

With regard to National Firearms Act firearms as defined in 26 U.S.C. 5845(a), in addition to the above recordkeeping requirements, the registration and transfer procedures of 27 CFR Part 179 must be complied with.

[76 ATF C.B. 99]

27 CFR 178.121: GENERAL
(RECORDS)

The recordkeeping requirements for licensed gunsmiths are clarified. ATF Rul. 73-13 amplified.

ATF Rul. 77-1

ATF Ruling 73-13, 1973 ATF C.B. 92, held that a licensed gunsmith must maintain the required records as specified in 27 CFR 178.121 et seq., and if a gunsmith engages in the business of buying and selling firearms, he must record these transactions on a Form 4473 (Firearms Transaction Record) for each sale. However, as provided in Section 178.124(a), a Form 4473 is not required to record the disposition made of a firearm delivered to a gunsmith for repair or customizing when the firearm is returned to the person from whom received.

The Bureau recognizes the necessity for having on-the-spot repairs made to firearms at skeet, trap, target, and similar organized events. It is, therefore, held that licensed gunsmiths may take immediate on-the-spot repairs to firearms at skeet, trap, target, and similar organized shooting events.

Held further, a licensed gunsmith must enter into his bound acquisition and disposition record, required to be maintained by 27 CFR 178.125(e),
each receipt and disposition of firearms, except that a firearm need not be entered in the bound acquisition and disposition record if the firearm is brought in for adjustment or repair and the owner waits while it is being adjusted or repaired or if the gunsmith returns the firearm to the owner during the same business day it is brought in. If the firearm is retained from one business day to another or longer, it must be recorded in the bound acquisition and disposition record.

**Held further**, a licensed gunsmith is not required to prepare a Form 4473 (Firearms Transaction Record) where a firearm is delivered to him for the sole purpose of customizing, adjustment, or repair and the firearm is returned to the person from whom received. However, if a licensed gunsmith engages in the business of selling firearms, he must record these transactions on a Form 4473 for each sale in addition to maintaining the bound firearms acquisition and disposition record required by 27 CFR 178.125(e).

ATF Rul. 73-13, 1973 ATF C.B. 92, is hereby amplified.

[77 ATF C.B. 185]

27 CFR 178.124: FIREARMS TRANSACTION RECORD

Means of identification furnished by a nonlicensee purchasing a firearm.

ATF Rul. 79-7

This ruling is superseded by ATF Rul. 2001-5.

27 CFR 178.112: IMPORTATION BY A LICENSED IMPORTER

Applications to import surplus military firearms or nonsporting firearms or ammunition for individual law enforcement officers for official use must be accompanied by the agency’s purchase order.

ATF Rul. 80-8

The Bureau of Alcohol, Tobacco and Firearms has received several inquiries from firearms importers and dealers, law enforcement agencies, and the public requesting clarification of the statutes, regulations and procedures regarding the importation of firearms for law enforcement agencies.

Importation of surplus military firearms or firearms not particularly suitable for or readily adaptable to sporting purposes is generally prohibited by section 925(d)(3) of Title 18, United States Code. However, section 925(a)(1) provides that this prohibition does not apply to the importation of firearms or ammunition sold or shipped to, or issued for the use of the United States or any department or agency thereof or any State or any department, agency, or political subdivision thereof.

Pursuant to section 925(a)(1), the Bureau has previously allowed the importation of surplus military firearms and nonsporting firearms for individual law enforcement officers for official use. In approving such importation applications, the Bureau required federal firearms licensees to obtain from the agency employing the officer a certificate of the chief law enforcement officer stating that the firearm ammunition is for use in the performance of official duties.

However, once these firearms are imported for the individual officer for “official use,” there is no prohibition in the law against the officer’s resale or retention of the firearms for personal use. The purpose of section 925(a)(1) is to permit importation of firearms for the exclusive use of government agencies. The statute was not intended and may not be used as a vehicle by which unimportable firearms can be introduced into ordinary commercial channels in the United States.

Held, a licensee’s application to import surplus military firearms or nonsporting firearms or ammunition for law enforcement officers will not be approved unless accompanied by a purchase order from a department or agency of the United States or any department, agency or political subdivision of any State. The term “State” includes the District of Columbia, the Commonwealth of Puerto Rico, and the possessions of the United States.

[80 ATF C.B. 20]

27 CFR 178.11: MEANING OF TERMS

(Also 27 CFR 179.11)

A hand-held device with a hand grip bent at an angle to the bore and having a rifled bore which is designed to expel, by means of an explosive, two electrical contacts (barbs) connected by two wires to a high voltage source within the device is classified as a firearm. ATF Rul. 76-6 is amplified.

ATF Rul. 80-20

The Bureau has determined in ATF Rul. 76-6 that the Taser Model TF1 was a firearm as that term is defined in Title 18, United States Code (U.S.C.), section 921(a)(3), and that the Model TF1 also met the “any other weapon” definition found in the National Firearms Act (NFA), Title 26, U.S.C., section 5845(e). This ruling was limited in its application to Taser Models TF1 produced on or after May 1, 1976. The Taser Models TF76 and TF76A were subsequently developed and differ from the Taser Model TF1 in that these models each have a hand grip bent at an angle to the bore and the bore of each is rifled.

The changes in the design of the Taser Models TF76 and TF76A bring them within the exclusion found in the “any other weapon” definition of the NFA for pistols and revolvers having a rifled bore or rifled bores.

Held, the Taser Models TF76 and TF76A are not subject to the provisions of the NFA. However, they are firearms as defined in Title 18, U.S.C., section 921(a)(3) and are subject to the provisions of Title 18, U.S.C., Chapter 44 and Title 27, Code of Federal Regulations, Part 178.

ATF Rul. 76-6, 1976, ATF C.B. 96 is hereby amplified.

[ATFB 1980-4 24]

27 CFR 178.11: MEANING OF TERMS

An out-of-State college student may establish residence in a State by residing and maintaining a home in a college dormitory or in a location off-campus during the school term.

ATF Rul. 80-21

“State of residence” is defined by regulation in 27 CFR 178.11 as the State in which an individual regularly resides or maintains a home. The regulation also provides an example of an individual who maintains a home in State X and a home in State

126
Y. The individual regularly resides in State X except for the summer months and in State Y for the summer months of the year. The regulation states that during the time the individual actually resides in State X he is a resident of State X, and during the time he actually resides in State Y he is a resident of State Y.

Applying the above example to out-of-State college students it is held, that during the time the students actually reside in a college dormitory or at an off-campus location they are considered residents of the State where the dormitory or off-campus home is located. During the time out-of-State college students actually reside in their home State they are considered residents of their home State.

[ATF 1980-4 25]

27 CFR 178.111: GENERAL

Nonresident U.S. citizens returning to the United States and nonresident aliens lawfully immigrating to the United States may obtain a permit to import firearms acquired outside of the United States, provided such firearms may be lawfully imported.

ATF Rul. 81-3

Section 922(a)(3) of Title 18, United States Code, makes it unlawful, with certain exceptions, for a person to bring into his State of residence a firearm which he acquired outside that State. An unlicensed resident of a State must, therefore, arrange for the importation of the firearm through a Federal firearms licensee.

The definition of "State of residence" in 27 CFR 178.11 provides that the State in which an individual regularly resides or maintains a home is the State of residence of that person. U.S. citizens who reside outside of the United States are not residents of a State while so residing. A person lawfully immigrating to the United States is not a resident of a State unless he is residing and has resided in a State for a period of at least 90 days. Therefore, such persons are not precluded by section 922(a)(3) from importing into the United States any firearms acquired outside of the United States that may be lawfully imported. The firearms must accompany such persons since once a person is in the United States and has acquired residence in a State he may import a firearm only by arranging for the importation through a Federal firearms licensee.

As applicable to this ruling, 18 U.S.C. 925(d) provides that firearms are importable if they are generally recognized as particularly suitable for, or readily adaptable to, sporting purposes, excluding National Firearms Act (NFA) firearms and surplus military firearms.

Held: a nonresident U.S. citizen returning to the United States after having resided outside of the United States, or a nonresident alien lawfully immigrating to the United States, may apply for a permit from ATF to import for personal use, not for resale, firearms acquired outside of the United States without having to utilize the services of a Federal firearms licensee. The application on ATF Form 6 Part I (7570.3A), Application and Permit for Importation of Firearms, Ammunition and Implements of War, should include a statement, on the application form or on an attached sheet, that:

(1) the applicant is a nonresident U.S. citizen who is returning to the United States from a residence outside of the United States or, in the case of an alien, is lawfully immigrating to the United States from a residence outside of the United States; and

(2) the firearms are being imported for personal use and not for resale.

[ATF 1981-3 77]

27 CFR 179.11: MEANING OF TERMS

The AR15 auto sear is a machinegun as defined by 26 U.S.C. 5845(b).

ATF Rul. 81-4

The Bureau of Alcohol, Tobacco and Firearms has examined an auto sear known by various trade names including "AR15 Auto Sear," "Drop In Auto Sear," and "Auto Sear II," which is a combination of parts designed and intended for use in converting a weapon to shoot automatically more than one shot, without manual reloading, by a single function of the trigger. Consequently, the auto sear is a machinegun as defined by 26 U.S.C. 5845(b).

With respect to the machinegun classification of the auto sear under the National Firearms Act, pursuant to 26 U.S.C. 7805(b), this ruling will not be applied to auto sears manufactured before November 1, 1981. Accordingly, auto sears manufactured on or after November 1, 1981, will be subject to all the provisions of the National Firearms Act and 27 CFR Part 179.

[ATFB 1981-3 78]

Editor's Note:

Regardless of the date of manufacture of a drop in auto sear, possession of such a sear and certain M-16 fire control parts is possession of a machinegun as defined by the NFA. Specifically, these parts are a combination of parts designed and intended for use in converting a weapon into a machinegun and are a machinegun as defined in the NFA. (See "Information Concerning AR15-Type Rifles" under "General Information" in this publication.)

27 CFR 179.11: MEANING OF TERMS

The KG-9 pistol is a machinegun as defined in the National Firearms Act.

ATF Rul. 82-2

The Bureau of Alcohol, Tobacco and Firearms has examined a firearm identified as the KG-9 pistol. The KG-9 is a 9 millimeter caliber, semiautomatic firearm which is blowback operated and which fires from the open bolt position with the bolt incorporating a fixed firing pin. In addition, a
component part of the weapon is a disconnector which prevents more than one shot being fired with a single function of the trigger.

The disconnector is designed in the KG-9 pistol in such a way that a simple modification to it, such as cutting, filing, or grinding, allows the pistol to operate automatically. Thus, this simple modification to the disconnector together with the configuration of the above design features (blowback operation, firing from the open bolt position, and fixed firing pin) in the KG-9 permits the firearm to shoot automatically more than one shot, without manual reloading, by a single function of the trigger. The above combination of design features as employed in the KG-9 is normally not found in the typical sporting firearm.

The National Firearms Act, 26 U.S.C. § 5845(b), defines a machinegun to include any weapon which shoots, is designed to shoot, or can be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger.

The "shoots automatically" definition covers weapons that will function automatically. The "readily restorable" definition defines weapons which previously could shoot automatically but will not in their present condition. The "designed" definition includes those weapons which have not previously functioned as machineguns but possess design features which facilitate full automatic fire by a simple modification or elimination of existing component parts.

**Held:** The KG-9 pistol is designed to shoot automatically more than one shot, without function of the trigger. Consequently, the KG-9 pistol is a machinegun as defined in section 5845(b) of the Act.

With respect to the machinegun classification of the KG-9 pistol under the National Firearms Act, pursuant to 26 U.S.C. § 7805(b), this ruling will not be applied to KG-9 pistols manufactured before January 19, 1982. Accordingly, KG-9 pistols manufactured on or after January 19, 1982, will be subject to all the provisions of the National Firearms Act and 27 CFR Part 179.

[ATFB 1982-1 18]
weapon to operate automatically. Thus, this simple modification to the trip lever (disconnecter), together with STEN submachinegun design features and components in the YAC STEN MK II carbine, permits the firearm to shoot automatically, more than one shot, without manual reloading by a single function of the trigger. The above combination of machinegun design features as employed in the YAC STEN MK II carbine are not normally found in the typical sporting firearm.

The National Firearms Act, 26 U.S.C. 5845(b), defines a machinegun to include any weapon which shoots, is designed to shoot, or can be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger.

The "shoots automatically" definition covers weapons that will function automatically. The "readily restorable" definition defines weapons which previously could shoot automatically but will not in their present condition. The "designed" definition includes weapons which have not previously functioned as machineguns but possess specific machinegun design features which facilitate automatic fire by simple alteration or elimination of existing component parts.

**Held:** The YAC STEN MK II carbine is designed to shoot automatically more than one shot, without manual reloading, by a single function of the trigger. Consequently, the STEN MK II semiautomatic carbine is a machinegun as defined in Section 5845(b) of the Act.

[ATFB 1983-3 35]

**27 CFR 179.111: IMPORTATION PROCEDURE**

A National Firearms Act (NFA) firearm may not be imported for use as a sample for sales to law enforcement agencies if the firearm is a curio or relic unless it is established that the firearm is particularly suitable for use as a law enforcement weapon.

**ATF Rul. 85-2**

The Bureau of Alcohol, Tobacco and Firearms has approved a number of applications to import National Firearms Act (NFA) firearms for the use of registered importers to generate orders for such firearms from law enforcement agencies.

A review of the characteristics of the NFA firearms approved for importation as sales samples indicates that some of the firearms are not being imported for the purposes contemplated by the statute. Some of the NFA firearms imported are, in fact, curios or relics and are more suitable for use as collector's items than law enforcement weapons.

Importations of NFA firearms are permitted by 26 U.S.C. 5844, which provides in pertinent part:

"No firearms shall be imported or brought into the United States or any territory under its control or jurisdiction unless the importer establishes, under regulations as may be prescribed by the Secretary, that the firearm to be imported or brought in is:

1. being imported or brought in for the use of the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or

2. ***

3. being imported or brought in solely for ... use as a sample by a registered importer or registered dealer; except that, the Secretary may permit the conditional importation or bringing in of a firearm for examination and testing in connection with classifying the firearm."

The sole purpose of the statute permitting the importation of NFA firearms as sales samples is to permit registered importers to generate orders for firearms from government entities, primarily law enforcement agencies, on the basis of the sample.

The implementing regulation, 27 CFR Section 179.111, provides that the person importing or bringing a firearm into the United States or any territory under its control or jurisdiction has the burden of proof to affirmatively establish that the firearm is being imported or brought in for one of the authorized purposes. In addition, a detailed explanation of why the importation falls within one of the authorized purposes must be attached to the application to import. The mere statement that an NFA firearm is being imported as a sales sample for demonstration to law enforcement agencies does not meet the required burden of proof and is not a detailed explanation of why the importation falls within the import standards.

**Held:** an application to import a National Firearms Act firearm as a sample in connection with sales of such firearms to law enforcement agencies will not be approved if the firearm is determined to be a curio or relic unless it is established by specific information that the firearm is particularly suitable for use as a law enforcement weapon. For example, the importer must provide detailed information as to why a sales sample of a particular weapon is suitable for law enforcement purposes and the expected customers who would require a demonstration of the weapon. Information as to the availability of firearms to fill subsequent orders would help meet the burden of establishing use as a sales sample. Also, letters from law enforcement agencies expressing a need for a particular model or interest in seeing a demonstration of a particular firearm would be relevant.

[ATFB 85-2 62]

Editor's Note:

The importation of machineguns for use as sales samples must also meet the requirements of 27 CFR 179.185(d).

27 CFR 178.118: IMPORTATION OF CERTAIN FIREARMS CLASSIFIED AS CURIOS OR RELICS (Also 178.11 and 178.26)

Surplus military firearms frames or receivers alone not specifically classified as curios or relics by ATF will be denied importation.

**ATF Rul. 85-10**

Section 233 of the Trade and Tariff Act of 1984, 98 Stat. 2991, amended Title 18, United States Code, section 925 to allow licensed importers to import firearms listed by the Secretary as curios or relics, excluding handguns not generally recognized as particularly suitable for or readily adaptable to sporting purposes. The amendment had the effect of allowing the importation of surplus military curio or relic firearms that were previously prohibited from importation by 18 U.S.C. section 925(d)(3).
Congressional intent was expressed by Senator Robert Dole in 130 CONG. REC. S2234 (daily ed., Mar. 2, 1984), as follows:

First. This provision is aimed at allowing collectors to import fine works of art and other valuable weapons.

Second. This provision would allow the importation of certain military surplus firearms that are classified as curios and relics by regulations of the Secretary of the Treasury.

Third. In order for an individual or firm to import a curio or relic it must first be put on a list by petitioning the Secretary of the Treasury. The Secretary must find the firearm’s primary value is that of being a collector’s item.

Fourth. The only reason a person would purchase these firearms is because of their peculiar collector’s status. And, in fact, they must be special firearms and classified as such in order to import.

This language clearly shows that Congress intended to permit the importation of surplus military firearms of special interest and value to collectors and recognized by ATF as meeting the curio or relic definition in 27 CFR 178.11. The regulation defines "curios or relics" as firearms of "special interest to collectors by reason of a quality other than is ordinarily associated with sporting firearms or offensive or defensive weapons."

The USAS-12 shotgun has a bore of more than one-half inch in diameter and is not generally recognized as particularly suitable for sporting purposes. Therefore, it is classified as a destructive device for purposes of the National Firearms Act, 26 U.S.C. Chapter 53.

The USAS-12 is a 12-gauge, gas-operated, autoloading semiautomatic shotgun which is chambered for 12-gauge 2 3/4-inch ammunition. It has an 18 1/4-inch barrel, is approximately 38 inches long, and weighs 12.4 pounds unloaded and approximately 15 pounds with a loaded magazine, depending on the capacity of the magazine. The USAS-12 is equipped with a 12-round detachable box magazine, but a 28-round detachable drum magazine is also available. The shotgun is approximately 11 inches deep with a box magazine. There is an integral carrying handle on top of the receiver, forward of the barrel. An optional telescopic sight may be attached to the carrying handle. The barrel is located below the operating mechanism in such a fashion that the barrel is in a straight line with the center of the buttstock.

Section 5845(f), Title 26, U.S.C., classifies certain weapons as "destructive devices" which are subject to the registration and tax provisions of the NFA. Section 5845(f)(2) provides as follows:

(f) Destructive device. -- The term "destructive device" means ***

(2) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Secretary or his delegate finds is generally recognized as particularly suitable for sporting purposes;

A "sporting purposes" test which is almost identical to that in section 5845(f)(2) appears in 18 U.S.C. § 925(d)(3). This provision of the Gun Control Act of 1968 (GCA) provides that the Secretary shall authorize a firearm to be imported into the United States if the firearm is "generally recognized as particularly suitable for or readily adaptable to sporting purposes." With the exception of the "readily adaptable" language, this provision is identical to the sporting
shotgun exception to the destructive device definition. The definition of "destructive device" in the GCA (18 U.S.C. § 921(a)(4)) is identical to that in the NFA.

In determining whether shotguns with a bore of more than one-half inch in diameter are "generally recognized as particularly suitable for sporting purposes" and thus are not destructive devices under the NFA, we believe it is appropriate to use the same criteria used for evaluating shotguns under the "sporting purposes" test of section 925(d)(3). Congress used virtually identical language in describing the weapons subject to the two statutory schemes, and the language was added to the GCA and NFA at the same time.

In connection with the determination of importability, ATF determined that the USAS-12 shotgun was not eligible for importation under the sporting purposes test in section 925(d)(3). In reaching this determination, ATF evaluated the weight, size, bulk, designed magazine capacity, configuration, and other characteristics of the USAS-12. It was determined that the weight of the USAS-12, 12.4 pounds, made it much heavier than traditional 12-gauge sporting shotguns, which made it awkward to carry for extended periods, as in hunting, and cumbersome to fire at multiple small moving targets, as in skeet and trap shooting. The width of the USAS-12 with drum magazine, approximately 6 inches, and the depth with box magazine, in excess of 11 inches, far exceeded that of traditional sporting shotguns, which do not exceed 3 inches in width or 4 inches in depth. The large size and bulk of the USAS-12 made it extremely difficult to maneuver quickly enough to engage moving targets as is necessary in hunting, skeet, and trap shooting. The detachable box magazine with 12-cartridge capacity and the detachable drum magazine with 28-cartridge capacity were of a larger capacity than traditional repeating sporting shotguns, which generally contain tubular magazines with a capacity of 3-5 cartridges. Additionally, detachable magazines permit more rapid reloading than do tubular magazines. Finally, the combat-style pistol grip, the barrel-to-buttstock configuration, the bayonet lug, and the overall appearance and general shape of the weapon were radically different from traditional sporting shotguns and strikingly similar to shotguns designed specifically for or modified for combat and law enforcement use.

Section 7805(b), Title 26, U.S.C., provides that the Secretary may prescribe the extent, if any, to which any ruling relating to the internal revenue laws shall be applied without retroactive effect. Accordingly, all rulings issued under the Internal Revenue Code are applied retroactively unless they specifically provide otherwise. Pursuant to section 7805(b), the Director, as the delegate of the Secretary, may prescribe the extent to which any ruling will apply without retroactive effect.

Held: The USAS-12 is a shotgun with a bore of more than one-half inch in diameter which is not particularly suitable for sporting purposes. The weight, size, bulk, designed magazine capacity, configuration, and other factors indicate that the USAS-12 is a semiautomatic version of a military-type assault shotgun. Accordingly, the USAS-12 is a destructive device as that term is used in 26 U.S.C. § 5845(f)(2). Pursuant to section 7805(b), this ruling is applied prospectively effective March 1, 1994, with respect to the making, transfer, and special (occupational) taxes imposed by the NFA. All other provisions of the NFA apply retroactively effective March 1, 1994.

ATFB 1993-94-1 21]

(Nonsporting shotgun having a bore of more than one-half inch in diameter)

The Striker-12/Streetsweeper shotgun has a bore of more than one-half inch in diameter and is not generally recognized as particularly suitable for sporting purposes. Therefore, it is classified as a destructive for purposes of the National Firearms Act, 26 U.S.C. Chapter 53.

ATF Rul. 94-2

The Bureau of Alcohol, Tobacco and Firearms (ATF) has examined a firearm identified as the Striker-12/Streetsweeper shotgun to determine whether it is a destructive device as that term is used in the National Firearms Act (NFA), 26 U.S.C. Chapter 53.

The Striker-12 and Streetsweeper shotguns are virtually identical 12-gauge shotguns with a spring-driven revolving magazine. The magazine has a 12-round capacity. The shotgun has a fixed stock or folding shoulder stock and may be fired with the folding stock collapsed. The shotgun with an 18-inch barrel is 37 inches in length with the stock extended, and 26.5 inches in length with the stock folded. The shotgun is 5.7 inches in width and weighs 9.24 pounds unloaded. The Striker/Streetsweeper has two pistol grips, one in the center of the firearm below the buttstock, and one on the forearm. The Striker/Streetsweeper was designed and developed in South Africa as a military, security, and anti-terrorist weapon. Various types of 12-gauge cartridges can be fired from the shotgun, and a rapid indexing procedure allows various types of ammunition to be loaded into the cylinder and selected for firing. All 12 rounds can be fired from the shotgun in 3 seconds or less.

Section 5845(f), Title 26, U.S.C., classifies certain weapons as "destructive devices" which are subject to the registration and tax provisions of the NFA. Section 5845(f)(2) provides as follows:

(f) Destructive device – The term "destructive device" means * * *

(2) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Secretary or his delegate finds is generally recognized as particularly suitable for sporting purposes; * * *

A "sporting purposes" test which is almost identical to that in section 5845(f)(2) appears in 18 U.S.C. § 925(d)(3). This provision of the Gun Control Act of 1968 (GCA) provides that the Secretary shall authorize a firearm to be imported into the United States if the firearm is "generally recognized as particularly suitable for or readily adaptable to sporting purposes." With the exception of the readily adaptable language, this provision is identical to the sporting shotgun exception to the destructive devices definition. The definition of "destructive device" in the GCA (18
U.S.C. § 921(a)(4)) is identical to that in the NFA.

In determining whether shotguns with a bore of more than one-half inch in diameter are "generally recognized as particularly suitable for sporting purposes" and thus are not destructive devices under the NFA, we believe it is appropriate to use the same criteria used for evaluating shotguns under the "sporting purposes" test of section 925(d)(3). Congress used virtually identical language in describing the weapons subject to the two statutory schemes, and the language was added to the GCA and NFA at the same time.

In 1984, ATF ruled that the Striker-12 was not eligible for importation under section 925(d)(3) since it is not particularly suitable for sporting purposes. In making this determination, the 1984 letter-ruling notes that the Striker was being used in a number of "combat" shooting events. In a letter dated June 30, 1986, ATF again denied importation to the Striker-12, on the basis that it did not meet the "sporting purposes" test of section 925(d)(3). This letter states that, "We believe the weapon to have been specifically designed for military and law enforcement uses."

In evaluating the physical characteristics of the Striker 12/Street sweeper, ATF concludes that the weight, bulk, designed magazine capacity, configuration, and other features indicate that it was designed primarily for military and law enforcement use and is not particularly suitable for sporting purposes.

The weight of the Striker-12/Street sweeper, 9.24 pounds, is on the high end for traditional 12-gauge sporting shotguns, which generally weigh between 7 and 10 pounds. Thus, the weight of the Striker-12/Street sweeper makes it awkward to carry for extended periods, as in hunting, and cumbersome to fire at multiple small moving targets, as in skeet and trap shooting. The width of the Striker-12/Street sweeper, 5.7 inches, far exceeds that of traditional sporting shotguns, which do not exceed three inches in width or four inches in depth. The large size and bulk of the Striker-12/Street sweeper make it extremely difficult to maneuver quickly enough to engage moving targets as is necessary in hunting, skeet, and trap shooting. The spring driven revolving magazine with 12-cartridge capacity is a much larger capacity than traditional repeating sporting shotguns, which generally contain tubular magazines with a capacity of 3-5 cartridges. The folding shoulder stock and the two pistol grips are not typical of sporting-type shotguns. Finally, the overall appearance and general shape of the weapon are radically different from traditional sporting shotguns and strikingly similar to shotguns designed specifically for or modified for combat and law enforcement use.

Section 7805(b), Title 26, U.S.C., provides that the Secretary may prescribe the extent, if any, to which any ruling relating to the internal revenue laws shall be applied without retroactive effect. Accordingly, all rulings issued under the Internal Revenue Code are applied retroactively unless they specifically provide otherwise. Pursuant to section 7805(b), the Director, as the delegate of the Secretary, may prescribe the extent to which any ruling will apply without retroactive effect.

Held: The Striker-12/Street sweeper is a shotgun with a bore of more than one-half inch in diameter which is not particularly suitable for sporting purposes. The weight, size, bulk, designed magazine capacity, configuration, and other factors indicate that the Striker-12/Street sweeper is a military-type shotgun, as opposed to a shotgun particularly suitable for sporting purposes. Accordingly, the Striker-12/Street sweeper is a destructive device as that term is used in 18 U.S.C. § 5845(f)(2). Pursuant to section 7805(b), this ruling is applied prospectively effective March 1, 1994, with respect to the making, transfer, and special (occupational) taxes imposed by the NFA. All other provisions of the NFA apply retroactively effective March 1, 1994.

[ATFB 1993-1994-1 23]

DESTRUCTIVE DEVICE
DESTRUCTIVE DEVICE

(Firearm having a bore of more than one-half inch in diameter)

37/38 mm gas/flare guns possessed with cartridges containing wood pellets, rubber pellets or balls, or bean bags are classified as destructive devices for purposes of the Gun Control Act, 18 U.S.C. Chapter 44, and the National Firearms Act, 26 U.S.C. Chapter 53.

ATF Rul. 95-3

The Bureau of Alcohol, Tobacco and Firearms (ATF) has examined various 37/38 mm gas/flare guns in combination with certain types of ammunition to determine whether these are destructive devices as defined in the Gun Control Act (GCA), 18 U.S.C. Chapter 44, and the National Firearms Act (NFA), 26 U.S.C. Chapter 53.

Section 5845(f), Title 26, United States Code, classifies certain weapons as "destructive devices" which are subject to the registration and tax provisions of the National Firearms Act (NFA). Section 5845(f)(2) provides as follows:

(f) Destructive device. — The term "destructive device" means * * *

(2) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Secretary or his delegate finds is generally recognized as particularly suitable for sporting purposes."

Section 5845(f)(3) excludes from the term "destructive device" any device which is neither designed or redesigned for use as a weapon and any device, although originally designed for use as a weapon, which is redesigned for use as a signaling, pyrotechnic, line throwing, safety, or similar device.

The definition of "destructive device" in the GCA (18 U.S.C. § 921(a)(4)) is identical to that in the NFA.

ATF has previously held that devices designed for expelling tear gas or pyrotechnic signals are not weapons and are exempt from the destructive device definition. However, ammunition designed to be used against individuals is available for these 37/38 mm devices. This "anti-personnel" ammunition consists of cartridges containing wood pellets, rubber pellets or balls, and bean bags.
When a gas/flare gun is possessed with “anti-personnel” type ammunition, it clearly becomes an instrument of offensive or defensive combat and is capable of use as a weapon. Since these gas/flare guns have a bore diameter of greater than one-half inch, fire a projectile by the means of an explosive, and, when possessed with “anti-personnel” ammunition, are capable of use as weapons, the combination of the gas/flare gun and “anti-personnel” ammunition is a destructive device as defined in the GCA and NFA. As a result, registration as a destructive device is required. Any person possessing a gas/flare gun with which “anti-personnel” ammunition will be used must register the making of a destructive device prior to the acquisition of any “anti-personnel” ammunition. In addition, the gas/flare guns are classified as firearms as defined by the GCA when possessed with “anti-personnel” type ammunition.

Each gas/flare gun possessed with anti-personnel ammunition will be required to be identified as required by law and regulations (27 CFR §§ 178.92 and 179.102), including a serial number. Any person manufacturing the gas/flare gun and the “anti-personnel” ammunition must, if selling them in combination, have the appropriate Federal firearms license as a manufacturer of destructive devices and must have paid the special (occupational) tax as a manufacturer of National Firearms Act firearms. Any person importing the gas/flare gun and, fire a projectile by the means of an explosive, and, when possessed with “anti-personnel” ammunition must, if importing them in combination, have the appropriate Federal firearms license as an importer of destructive devices and must have paid the special (occupational) tax as an importer of National Firearms Act firearms.

Further, the “anti-personnel” ammunition to be used in the gas/flare launchers is ammunition for destructive devices for purposes of the GCA. Any person manufacturing the “anti-personnel” ammunition must have the appropriate Federal firearms license as a manufacturer of ammunition for destructive devices. Any person importing the “anti-personnel” ammunition must have the appropriate Federal firearms license as an importer of ammunition for destructive devices.

Held: 37/38 mm gas/flare guns possessed with “anti-personnel” ammunition, consisting of cartridges containing wood pellets, rubber pellets or balls, or bean bags, are destructive devices as that term is used in 18 U.S.C. § 921(a)(4) and 26 U.S.C. 5845(h)(2).

[ATFB 95-3 28]

18 U.S.C. § 923 (a): ENGAGING IN THE BUSINESS OF DEALING IN FIREARMS (Auctioneers)

Auctioneers who regularly conduct consignment-type auctions of firearms, for example, held every 1-2 months, on behalf of firearms owners where the auctioneer takes possession of the firearms pursuant to a consignment contract with the owner of the firearms giving the auctioneer authority to sell the firearms and providing for a commission to be paid by the owner upon sale of the firearms are required to obtain a license as a dealer in firearms.

ATF Rul. 96-2

An association of auctioneers has asked the Bureau of Alcohol, Tobacco and Firearms (ATF) for a ruling concerning the auctions conducted by their members and whether the sale of firearms at such auctions requires a Federal firearms license as a dealer in firearms.

The auctioneers’ association stated that their members generally conduct two types of auctions: estate-type auctions and consignment auctions. In estate-type auctions, articles to be auctioned, including firearms, are sold by the executor of the estate of an individual. In these cases the firearms belong to and are possessed by the executor. The auctioneer acts as an agent of the executor and assists the executor in finding buyers for the firearms. The firearms are possessed by the estate and their sale to third parties is controlled by the estate. The auctioneer is paid a commission on the sale of each firearm by the estate at the conclusion of the auction.

The association states that, in consignment-type auctions, an auctioneer may take possession of firearms in advance of the auction. The firearms are inventoried, evaluated, and tagged for identification. The firearms belong to individuals or businesses who have entered into a consignment agreement with the auctioneer giving the auctioneer authority to sell the firearms. The agreement states that the auctioneer has the exclusive right to sell the items listed on the contract at a location, time, and date to be selected by the auctioneer. The consignment-type auctions generally involve accepting firearms for auction from more than one owner. Also, these auctions are held on a regular basis, for example, every 1-2 months.

Section 923(a), Title 18, U.S.C., provides that no person shall engage in the business of dealing in firearms until he has filed an application and received a license to do so. Section 922(a)(1), Title 18, U.S.C., provides that it is unlawful for any person, other than a licensee, to engage in the business of dealing in firearms. Licensees generally may not conduct business away from their licensed premises.

The term “dealer” is defined at 18 U.S.C. § 921(a)(11)(A) to include any person engaged in the business of selling firearms at wholesale or retail. The term “engaged in the business” as applied to a dealer in firearms means a person who devotes time, attention, and labor to dealing in firearms as a regular course of trade or business with the principal objective of livelihood and profit through the repetitive purchase and resale of firearms. A dealer can be “engaged in the business” without taking title to the firearms that are sold. However, the term does not include a person who makes occasional sales, exchanges, or purchases of firearms for the enhancement of a personal collection or for a hobby, or who sells all or part of his personal collection of firearms. 18 U.S.C. § 921(a)(21)(C).

In the case of estate-type auctions, the auctioneer acts as an agent of the executor and assists the executor in finding buyers for the estate’s firearms. The firearms are possessed by the estate, and the sales of firearms are made by the estate. In these cases, the auctioneer does not meet the definition of “engaging in the business” as a dealer in firearms and would not require a license. An auctioneer engaged in estate-type auctions, whether licensed or not, may perform this function, including delivery of the firearms, away from the business premises.

In the case of consignment-type auctions held on a regular basis, for example, every 1-2 months, where
persons consign their firearms to the auctioneer for sale pursuant to an agreement as described above, the auctioneer would be "engaging in the business" and would require a license. The auctioneer would be disposing of firearms as a regular course of trade or business within the definition of a "dealer" under § 921(a)(11)(A) and must comply with the licensing requirements of the law.

As previously stated, licensed auctioneers generally must engage in the business from their licensed premises. However, an auctioneer may conduct an auction at a location other than his licensed premises by displaying the firearms at the auction site, agreeing to the terms of sale of the firearms, then returning the firearms to the licensed premises for delivery to the purchaser.

Held: Persons who conduct estate-type auctions at which the auctioneer assists the estate in selling the estate’s firearms, and the firearms are possessed and transferred by the estate, do not require a Federal firearms license.

Held further: Persons who regularly conduct consignment-type auctions, for example, held every 1-2 months, where the auctioneer takes possession of the firearms pursuant to a consignment contract giving the auctioneer the exclusive right and authority to sell the firearms at a location, time and date selected by the auctioneer and providing for a commission to be paid upon sale are required to obtain a license as a dealer in firearms pursuant to 18 U.S.C. § 923(a).

[ATFB 96-2 101]

(Nonsporting shotgun having a bore of more than one-half inch in diameter)

The registration period for the USAS-12, Striker 12, and Streetsweeper shotguns closed on May 1, 2001, pursuant to ATF Rul. 2001-1.

ATF Rul. 2001-1

Pursuant to ATF Rulings 94-1 (ATF Q.B. 1994-1, 24) and 94-2 (ATF Q.B. 1994-1, 24), the Bureau of Alcohol, Tobacco and Firearms (ATF) classified the USAS-12, Striker 12, and Streetsweeper shotguns as destructive devices under the National Firearms Act (NFA), 26 U.S.C. Chapter 53. The NFA requires that certain "firearms" be registered and imposes taxes on their making and transfer. The term "firearm" is defined in section 5845 to include "destructive devices." The term "destructive device" is defined in section 5845(f)(2) as follows:

[The term ‘destructive device’ means . . . (2) any type of weapon by whatever name known which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, the barrel or barrels of which have a bore of more than one-half inch in diameter, except a shotgun or shotgun shell which the Secretary finds is generally recognized as particularly suitable for sporting purposes;

The USAS-12, Striker 12, and Streetsweeper shotguns were classified as destructive devices pursuant to section 5845(f) because they are shotguns with a bore of more than one-half inch in diameter which are not generally recognized as particularly suitable for sporting purposes.

Pursuant to 26 U.S.C. 7805(b), ATF Ruls. 94-1 and 94-2 were issued prospectively with respect to the making, transfer, and special (occupational) taxes imposed by the NFA. Thus, although the classification of the three shotguns as NFA weapons was retroactive, the prospective application of the tax provisions allowed registration without payment of tax. ATF has contacted all purchasers of record of the shotguns to advise them of the classification of the weapons as destructive devices and that the weapons must be registered. ATF has registered approximately 8,200 of these weapons to date.

Held, the registration period for the USAS-12, Striker-12, and Streetsweeper shotguns will close on May 1, 2001. No further registrations will be accepted after that date. Persons in possession of unregistered NFA firearms are subject to all applicable penalties under 26 U.S.C. Chapter 53.

Date signed: February 2, 2001.

27 CFR 47.45: IMPORTATION OF SURPLUS MILITARY CURIO OR RELIC FIREARMS

Importers of surplus military curio or relic firearms must submit originals of all appropriate statements supporting the Form 6 application.

ATF Rul. 2001-3

The Bureau of Alcohol, Tobacco and Firearms (ATF) has received inquiries from firearms importers concerning supporting documents required to be submitted with applications to import surplus military curio or relic firearms. Importers often rely upon documents obtained by the foreign shipper or seller and have asked whether copies of the documents, rather than originals, may be submitted with the application. For the reasons stated below, ATF has found that importers of surplus military curio or relic firearms must submit originals of all appropriate statements supporting the application.

ATF has the authority pursuant to section 38 of the Arms Export Control Act (AECA), 22 U.S.C. 2778, and implementing regulations, to approve import permits, as well as to deny, revoke, suspend, or revise import permits without prior notice whenever the proposed importation is found to be inconsistent with the purpose or in violation of section 38 or its implementing regulations. See 27 CFR 47.41, 47.44(a).

Under the AECA and implementing regulations, it is the policy of the United States to deny licenses and other approvals with respect to defense articles and defense services originating in certain countries or areas as determined by the Department of State. This policy applies to countries or areas with respect to which the United States maintains an arms embargo. See 27 CFR 47.52(a). Nonetheless, applications for permits to import articles that were manufactured in, or have been in, a proscribed country or proscribed area may be approved where the articles:

Are covered by Category I(a) of the Import List (other than those subject to the provisions of 27 CFR Part 179);

Are importable as curios or relics under the provisions of 27 CFR 178.118;
Were manufactured in a proscribed country or area prior to the date the country or area became proscribed, or, were manufactured in a non-proscribed country or area; and,

The articles have been stored for the five year period immediately prior to importation in a non-proscribed country or area.

22 U.S.C. 2778(b)(1)(B); 27 CFR 47.52(e).

Any persons seeking to import articles under these provisions must explain and certify how the firearms meet the applicable criteria. The certification statement must be executed under the penalties of perjury. In addition, the statement must be accompanied by documentary information both on the country or area of original manufacture, and on the country or area of storage for the five year period immediately prior to importation. Such information may, for example, include a verifiable statement in the English language of a government official or any other person having knowledge of the date and place of manufacture and/or the place of storage. ATF reserves the right to determine whether documentation provided is acceptable, and to require the submission of additional documentation as may be necessary.

27 CFR 47.52(f).

To ensure the lawfulness of the importation of surplus military defense articles, ATF must be able to rely upon the validity of import permit applications and all supporting documentation. This documentation includes but is not limited to appropriate and verifiable documentation of the above-referenced:

(1) Importer certification statement;

(2) Statement on the country or area of original manufacture; and,

(3) Statement on the country or area of storage for the five year period immediately prior to importation. In the past, import permit applicants have submitted photocopies of the required statements. ATF has become aware that, in some cases, the photocopies are fraudulent. To assist ATF in confirming the validity and authenticity of these statements, importers must submit original statements in support of all import permit applications. Consistent with the purpose of section 38 of the AECA and implementing regulations, ATF will deny all permit applications that fail to include the above-described original statements.

Held, all importers submitting permit applications to import surplus military defense articles, importable as curio or relics, must provide with the permit applications originals of all necessary supporting statements. ATF will deny permit applications when applicants fail to provide appropriate original statements, as ATF finds that copies are not acceptable documentation within the meaning of 27 CFR 47.52(f).

Date signed: October 31, 2001

IDENTIFICATION OF TRANSFEREE
27 CFR 178.124: FIREARMS TRANSACTION RECORD

Licensees may accept a combination of valid government-issued documents to satisfy the identification document requirements of the Brady Act. The required valid government-issued photo identification document bearing the name, photograph, and date of birth of the transferee may be supplemented by another valid, government-issued document showing the transferee's residence address. A member of the Armed Forces on active duty is a resident of the State in which his or her permanent duty station is located, and may satisfy the identification document requirement by presenting his or her military identification card along with official orders showing that his or her permanent duty station is within the State where the licensed premises are located.

ATF Rul. 2001-5

The Bureau of Alcohol, Tobacco and Firearms (ATF) has received numerous inquiries from Federal firearms licensees (FFLs) regarding the acceptance of identification documents that do not show the purchaser's current residence address. FFLs have asked whether they may accept other documents, such as tax bills or vehicle registration documents, to establish the current residence address of the purchaser.

It has been ATF's longstanding position that licensees may accept a combination of documents to establish the identity of a firearm purchaser. ATF Rul. 79-7, ATFQB 79-1, 26, interpreted a licensee's obligation to obtain satisfactory identification from a purchaser in the manner customarily used in commercial transactions, pursuant to the existing regulations under the Gun Control Act of 1968 (GCA). The ruling held that satisfactory identification of a firearms purchaser must include the purchaser's name, age or date of birth, place of residence, and signature. The ruling also held that while a particular document may not be sufficient to meet the statutory requirement for identifying the purchaser, any combination of documents that together disclosed the required information would be acceptable.

ATF Rul. 79-7 has been superseded by an amendment to the GCA. The Brady Handgun Violence Prevention Act (Brady Act), which took effect in 1994, mandated the use of photo identification documents for transfers subject to the Act. Under the permanent provisions of the Brady Act, which went into effect on November 30, 1998, a licensed importer, manufacturer, or dealer is generally required to initiate a background check through the National Instant Criminal Background Check System (NICS) prior to transferring a firearm to an unlicensed individual.

The Brady Act requires a licensee to identify the nonlicensed transferee by examining a valid government-issued identification document that contains the photograph of the holder. See 18 U.S.C. 922(t)(1)(C). This requirement applies to all over-the-counter transfers, even where the transferee holds a permit that qualifies as an exception to the requirement for a NICS check at the time of transfer. 27 CFR 178.124(c)(3)(i).

The Brady Act incorporates the definition of an "identification document" provided by 18 U.S.C. 1028(d)(2), which is set forth in relevant part as follows:

[A] document made or issued by or under the authority of the United States Government, any State, political subdivision of a State, a foreign government, political subdivision of a foreign
government, an international governmental or an international quasi-governmental organization which, when completed with information concerning a particular individual, is of a type intended or commonly accepted for the purpose of identification of individuals.

ATF regulations further require that the identification document must contain the name, residence address, date of birth, and photograph of the holder. 27 CFR 178.11.

ATF has received questions from licensees regarding purchasers who present a State-issued driver's license or other identification document that shows either an out-of-state residence address or a mailing address (such as a post office box) in lieu of a residence address. ATF has advised that these identification documents, standing alone, would not satisfy the requirements of the regulations implementing the Brady Act.

It is ATF's position that a combination of documents may be used to satisfy the Brady Act's requirement for an identification document. The prospective transferee must present at least one valid document that meets the statutory definition of an identification document; i.e., it must bear the transferee's name and photograph, it must have been issued by a governmental entity, and it must be of a type intended or commonly accepted for identification purposes. ATF recognizes, however, that some valid government-issued identification documents do not include the bearer's current residence address. Such an identification document may be supplemented with another valid government-issued document that contains the necessary information.

Thus, for example, a licensee may accept a valid driver's license that accurately reflects the purchaser's name, date of birth, and photograph, along with a vehicle registration issued by the State indicating the transferee's current address. Licensees should note that if the law of the State that issued the driver's license provides that the driver's license is invalid due to any reason (i.e., the license is expired or is no longer valid due to an unreported change of address), then the driver's license may not be used for identification purposes under the Brady Act. If a licensee has reasonable cause to question the validity of an identification document, he or she should not proceed with the transfer until those questions can be resolved.

The licensee must record on the Form 4473 the type of identification document(s) presented by the transferee, including any document number. Examples of documents that may be accepted to supplement information on a driver's license or other identification document include a vehicle registration, a recreation identification card, a fishing or hunting license, a voter identification card, or a tax bill. However, the document in question must be valid and must have been issued by a government agency.

ATF has also received questions from licensees as to how to comply with the identification document requirement in the case of purchasers who are in the military. Some active duty military personnel may not have driver's licenses from the State in which they are stationed. The only identification document carried by some active duty military personnel is a military identification card that bears the holder's name, date of birth, and photograph, but does not reflect the holder's residence address.

Section 921(b) of the GCA provides that a member of the Armed Forces on active duty is a resident of the State in which his permanent duty station is located. The purchaser's official orders showing that his or her permanent duty station is within the State where the licensed premises are located suffice to establish the purchaser's residence for GCA purposes. In combination with a military identification card, such orders will satisfy the Brady Act's requirement for an identification document, even though the purchaser may actually reside in a home that is not located on the military base.

Licensees should note that for purposes of the GCA, military personnel may in some cases have two States of residence. For example, a member of the Armed Forces whose permanent duty station is Fort Benning, Georgia, may actually reside in a home in Alabama. For GCA purposes, that individual is a resident of Georgia when he or she is in Georgia and a resident of Alabama when he or she is in Alabama. If such an individual wishes to purchase a firearm in Alabama, he or she must of course comply with the identification document requirement in the same way as any other Alabama resident.

Held: the Brady Act and the implementing ATF regulations require licensed importers, manufacturers, and dealers to examine a valid government-issued identification document that bears the name, residence address, date of birth, and photograph of the holder prior to making an over-the-counter transfer to any unlicensed transferee. Licensees may accept a combination of valid, government-issued documents to satisfy the identification document requirements of the Brady Act. A government-issued photo identification document bearing the name, photograph, and date of birth of the transferee may be supplemented by another valid, government-issued document showing the transferee's current residence address.

Held further, a purchaser who is a member of the Armed Forces on active duty is a resident of the State in which his or her permanent duty station is located, and may satisfy the identification document requirement by presenting his or her military identification card along with official orders showing that his or her permanent duty station is located within the State where the licensed premises are located.

ATF Ruling 79-7, ATFBO 79-1, 26, is hereby superseded.

Date signed: December 31, 2001

Editor's Note:

“Identification document” currently is defined in 18 U.S.C. 1028(d)(3).

27 CFR 179.105: TRANSFER AND POSSESSION OF MACHINEGUNS

Applications to transfer two (2) machineguns of a particular model to a Federal firearms licensee as sales samples will be approved if documentation shows necessity for demonstration to government agencies.

ATF Rul. 2002-5

The Bureau of Alcohol, Tobacco, and Firearms (ATF) has received inquiries from dealers in machineguns concerning the justification necessary to obtain more than one machinegun of a particular model as dealer sales samples. Specifically, the inquiries
are from machinegun dealers who demonstrate machineguns to large police departments and Special Weapons and Tactics (SWAT) teams, which requires the firing of thousands of rounds of ammunition during a single demonstration. Section 922(o) of Title 18, United States Code, makes it unlawful for any person to transfer or possess a machinegun, except a transfer to or by or under the authority of the United States or any department or agency thereof or a State or a department, agency, or political subdivision of; or any lawful transfer or lawful possession of a machinegun lawfully possessed before May 19, 1986.

The regulations in 27 CFR 179.105(d) provide that applications to register and transfer a machinegun manufactured or imported on or after May 19, 1986, to dealers registered under the National Firearms Act (NFA), 26 U.S.C. Chapter 53, will be approved if three conditions are met. The conditions required to be established include (1) a showing of the expected government customers who would require a demonstration of the weapon; (2) information as to the availability of the machinegun to fill subsequent orders; and (3) letters from government entities expressing a need for a particular model or interest in seeing a demonstration of a particular weapon. The regulation further provides that applications to transfer more than one machinegun of a particular model must also establish the dealer's need for the quantity of samples sought to be transferred.

The dealer sales sample provision is to permit properly qualified dealers to demonstrate and sell machineguns to law enforcement agencies. Neither the law nor the implementing regulations were intended to impose unnecessary obstacles to police departments and other law enforcement agencies in obtaining the weapons they need to carry out their duties. Accordingly, if a dealer can provide documentation that the dealer needs to demonstrate a particular model of machinegun to an entire police department or SWAT team, ATF will approve the transfer of two (2) machineguns of that model to the dealer as sales samples.

This ruling should not be interpreted to imply that under no circumstances may a Federal firearms licensee (FFL) receive more than two (2) machineguns as sales samples. Consistent with past practice, an FFL who can show a bona fide reason as to why they need more than two (2) machineguns, may be able to receive more than two (2) if the request is accompanied by specific documentation.

**Held:** applications to transfer two (2) machineguns of a particular model to a Federal firearms licensee as sales samples will be approved if the dealer provides documentation that the dealer needs to demonstrate the machinegun to all the officers of a police department or the department's SWAT team or special operations team. An FFL who can show a bona fide reason as to why they need more than two (2) machineguns, may be able to receive more than two (2) if the request is accompanied by specific documentation.

Date signed: September 6, 2002

18 U.S.C. 923(i): LICENSING
26 U.S.C. 5842: IDENTIFICATION OF FIREARMS

27 CFR 179.102: IDENTIFICATION OF FIREARMS
27 CFR 178.92: IDENTIFICATION OF FIREARMS, ARMOR PIERCING AMMUNITION, AND LARGE CAPACITY AMMUNITION FEEDING DEVICES

In accordance with 27 CFR 178.92 and 27 CFR 179.102, identification of firearms, armor piercing ammunition, and large capacity ammunition feeding devices, the terms "conspicuously" and "legibly" as used therein mean, respectively, that the markings are wholly unobstructed from plain view and that the markings contain exclusively Roman letters and Arabic numerals.

ATF Rul. 2002-6

The Bureau of Alcohol, Tobacco and Firearms (ATF) has been asked by State and local law enforcement officials to trace firearms that are marked, in part, with non-Roman letters, and/or non-Arabic numbers. Specifically, ATF received a request to trace a Makarov type pistol made in Bulgaria. The original manufacturer marking was IM 18 355. Because the importer did not stamp the firearm with a unique identifier that could be recognized by either ATF or a State or local law enforcement official, and because the marking contained a Cyrillic character, the firearm was not properly recorded, resulting in a failed trace of the weapon.

Because markings with non-Roman characters or non-Arabic numbers are not easily recorded or transmitted through ordinary means by importers, dealers or distributors, many firearm traces have proved unsuccessful. In some cases, an importer attempts to translate portions of the markings into Roman letters and Arabic numbers and re-marks the weapon with "translated" symbols. For example, an imported SKS rifle was marked with the serial number ДМ7639И. The importer translated the marking as LM7639и, but rather than restamp the entire number merely added the letters "L" and "I" below the original markings. This practice often results in failed traces because those required to record the markings (importers, dealers, or distributors) may record only the translated portions or both sets of markings. Moreover, law enforcement recovering a firearm with such markings may submit a trace.
request lacking some portion of the markings, further impeding efforts to successfully trace the firearm.

In addition, ATF has found that some traces have failed because the required markings on the firearms barrel were wholly or partially obstructed from plain view by a flash suppressor or bayonet mount, resulting in an inaccurate record. ATF has been unable to trace hundreds of firearms as a result of nonstandard or obscured markings.

As a result of these practices, some licensed importers may not be in compliance with the marking requirements set forth in 27 CFR 178.92 and 27 CFR 179.102 because they have marked using non-Roman letters (such as Greek or Russian letters, Δ or Д) or non-Arabic numbers (e.g., XXV).

The above regulations require markings that legibly identify each item or package and require that such markings are conspicuous. ATF has consistently taken the position that "legibly" marked means using exclusively Roman letters (A, a, B, b, C, c, and so forth) and Arabic numerals (1, 2, 3, 4, 5, 6, and so forth), and "conspicuous" means that all required markings must be placed in such a manner as to be wholly unobstructed from plain view. These regulations apply to licensed manufacturers and licensed importers relative to firearms, armor piercing ammunition, and large capacity ammunition feeding devices, and to makers of National Firearms Act firearms.

Firearms, armor piercing ammunition, and large capacity ammunition feeding devices which contain required markings or labels using non-Roman letters (such as Greek or Russian letters, Δ or Д) or non-Arabic numbers (e.g., XXV), must be completely remarked or relabeled with a new serial number or other required markings that satisfy the legibility requirements described above. It is not sufficient to simply add an additional Roman letter or Arabic numeral to a nonconforming marking; a new and unique marking using Roman letters and Arabic numerals is required. Where feasible, the new markings should be placed directly above the non-compliant markings.

Similarly, firearms and large capacity ammunition feeding devices which contain required markings obstructed in whole or in part from plain view must be remarked with required markings that satisfy the conspicuousness requirements described above. For example, required markings may not be placed on a portion of the barrel where the markings would be wholly or partially obstructed from view by another part of the firearm, such as a flash suppressor or bayonet mount.

In certain unavoidable circumstances owing mainly to firearms of unusual design or other limiting factor(s) which would limit the ability of the manufacturer or importer to comply with the above legibility and conspicuousness requirements, alternate means of identification may be authorized as described in 27 CFR 178.92(a)(3)(i), (ii), or (iii) and 27 CFR 178.92(c)(3)(i).

Held, a Makarov type pistol imported from Bulgaria utilizing Cyrillic letters or non-Arabic numbers is not marked in accordance with 27 CFR 178.92 and 27 CFR 179.102.

Held further, an imported firearm with any part of the required marking partially or wholly obstructed from plain view is not marked in accordance with section 27 CFR 178.92 and 27 CFR 179.102.

Date signed: November 5, 2002

26 USC 5844, 18 USC 922(o), 22 USC 2778

IMPORTATION OF BROWNING M1919 TYPE RECEIVERS FOR UNRESTRICTED COMMERCIAL SALE

An ATF-approved method of destruction for the Browning M1919 type machinegun will result in the severed portions of the receiver being importable for unrestricted commercial sale.

The Browning M1919 is a machinegun as defined in 26 U.S.C. 5845(b). The receiver of a Browning M1919 is also a machinegun as defined. Various manufacturers made Browning M1919 style machineguns in caliber .30-06 and 7.62x51mm (.308). The M1919 is a recoil-operated, belt-fed machinegun designed to be fired from a mount.

Section 5844 of Title 26, United States Code, makes it unlawful to import any firearm into the United States, unless the firearm to be imported or brought in is: (1) being imported for use by the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or (2) the firearm is being imported for scientific or research purposes; or (3) it is being imported solely for testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or dealer. Additionally, the Secretary may permit the conditional importation of a firearm for examination and testing in connection with classifying the firearm.

Section 922(o) of Title 18, United States Code, makes it unlawful for any person to transfer or possess a machinegun, except a transfer to or by the United States or any department or agency thereof or any State or department, agency, or political subdivision thereof; or any lawful transfer or lawful possession of a machinegun
lawfully possessed before May 19, 1986.

A review of the statutes above indicates that machineguns and machinegun receivers cannot be lawfully imported for unrestricted commercial sale. Accordingly, machinegun receivers may be imported for commercial sale only if they are destroyed in a manner that will prevent their function and future use as a firearm. The resulting severed receiver portions would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o); however, these articles would be subject to the provisions of the Arms Export Control Act, 18 U.S.C. 925, 22 U.S.C. 2778, and implementing regulation at 27 CFR Part 47. It is important to note that these machinegun receivers must be destroyed and cannot be imported whether they are serviceable or unserviceable.

An ATF-approved method of destruction for a Browning M1919 type machinegun receiver requires three diagonal torch cuts that sever or pass through the following areas: (1) the trunnion or barrel mounting block (corner to corner), (2) the center area of the bolt handle slot, and (3) the cover catch and back plate spline. All cutting must be done with a cutting torch having a tip of sufficient size to displace at least ¼ inch of material at each location. Each cut must completely sever the receiver in the designated areas and must be done with a diagonal torch cut. Using a bandsaw or a cut-off wheel to destroy the receiver does not ensure destruction of the weapon.

This method of destruction is illustrated in the diagram below.

Alternative methods of destruction may also be acceptable. These alternative methods must be equivalent in degree to the approved method of destruction. Receivers that are not sufficiently modified cannot be approved for importation. To ensure compliance with the law, it is recommended that the importer submit in writing the alternative method of destruction to the ATF Firearms Technology Branch (FTB) for review and approval prior to importation.

**Held,** an ATF-approved method of destruction for a Browning M1919 type machinegun receiver will result in the severed portions of the receiver being importable for unrestricted commercial sale. The severed articles would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o), but would continue to be subject to the provisions of the Arms Export Control Act, 22 U.S.C. 2778. Alternative methods of destruction may also be acceptable. It is recommended that such methods be reviewed and approved by the ATF Firearms Technology Branch prior to the weapon's importation.

**26 USC 5844, 18 USC 922(o), 22 USC 2778**

**IMPORTATION OF FN FAL TYPE RECEIVERS FOR UNRESTRICTED COMMERCIAL SALE**

An ATF-approved method of destruction for the FN FAL type machinegun will result in the severed portions of the receiver being importable for unrestricted commercial sale.

**ATF Rul. 2003–2**

The Bureau of Alcohol, Tobacco and Firearms (ATF) has received inquiries about modifications necessary to the receiver of an FN FAL type machinegun to make it importable under 26 U.S.C. 5844 and 18 U.S.C. 922(o) for unrestricted commercial sale.

The FN FAL is a machinegun as defined in 26 U.S.C. 5845(b). The receiver of an FAL is also a machinegun as defined. Various manufacturers made FAL style machineguns in caliber 7.62x51mm (.308). The FAL is a gas-operated, shoulder-fired, magazine-fed, selective-fire machinegun.

Section 5844 of Title 26, United States Code, makes it unlawful to import any firearm into the United States, unless the firearm to be imported or brought in is: (1) being imported for use by the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or (2) the firearm is being imported for scientific or research purposes; or (3) it is being imported solely for testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or dealer. Additionally, the Secretary may permit the conditional importation of a firearm for examination and testing in connection with classifying the firearm.

Section 922(o) of Title 18, United States Code, makes it unlawful for any person to transfer or possess a machinegun, except a transfer to or by the United States or any department or agency thereof or a State or a department, agency, or political subdivision thereof; or any lawful transfer or lawful possession of a machinegun lawfully possessed before May 19, 1986.

A review of the statutes above indicates that machineguns and machinegun receivers cannot be lawfully imported for unrestricted commercial sale. Accordingly, machinegun receivers may be imported for commercial sale only if they are destroyed in a manner that will prevent their function and future use as a firearm. The resulting severed receiver portions would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o); however, these articles would be subject to the provisions of the Arms Export Control Act, 18 U.S.C. 925, 22 U.S.C. 2778, and implementing regulation at 27 CFR Part 47. It is important to note that these machinegun receivers must be destroyed and cannot be imported whether they are serviceable or unserviceable.

An ATF-approved method of destruction for an FN FAL type machinegun receiver requires three
diagonal torch cuts that sever or pass through the following areas: (1) the threaded portion of the receiver ring and magazine well opening at bottom, (2) the hinge pin, ejector block and bolt guide rails, and (3) the body locking lug and bolt guide rails. All cutting must be done with a cutting torch having a tip of sufficient size to displace at least ¼ inch of material at each location. Each cut must completely sever the receiver in the designated areas and must be done with a diagonal torch cut. Using a bandsaw or a cut-off wheel to destroy the receiver does not ensure destruction of the weapon.

This method of destruction is illustrated in the diagram below.

Alternative methods of destruction may also be acceptable. These alternative methods must be equivalent in degree to the approved method of destruction. Receivers that are not sufficiently modified cannot be approved for importation. To ensure compliance with the law, it is recommended that the importer submit in writing the alternative method of destruction to the ATF Firearms Technology Branch (FTB) for review and approval prior to importation.

Held, an ATF-approved method of destruction for an FN FAL type machinegun receiver will result in the severed portions of the receiver being importable for unrestricted commercial sale. The severed articles would not be subject to the provisions of 26 U.S.C. 5844 and 18 U.S.C. 922(o) for unrestricted commercial sale.

The G3 is a machinegun as defined in 26 U.S.C. 5845(b). The receiver of a G3 is also a machinegun as defined. Various manufacturers made G3 style machineguns in caliber 7.62x51mm (.308). The G3 is a delayed blowback, shoulder-fired, magazine-fed, selective-fire machinegun.

Section 5844 of Title 26, United States Code, makes it unlawful to import any firearm into the United States, unless the firearm to be imported or brought in is: (1) being imported for use by the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or (2) the firearm is being imported for scientific or research purposes; or (3) it is being imported solely for testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or dealer. Additionally, the Secretary may permit the conditional importation of a firearm for examination and testing in connection with classifying the firearm.

Section 922(o) of Title 18, United States Code, makes it unlawful for any person to transfer or possess a machinegun, except a transfer to or by the United States or any department or agency thereof or a State or a department, agency, or political subdivision thereof; or any lawful transfer or lawful possession of a machinegun lawfully possessed before May 19, 1986.

A review of the statutes above indicates that machineguns and machinegun receivers cannot be lawfully imported for unrestricted commercial sale. Accordingly, machinegun receivers may be imported for commercial sale only if they are destroyed in a manner that will prevent their function and future use as a firearm. The resulting severed receiver portions would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o); however, these articles would be subject to the provisions of the Arms Export Control Act, 18 U.S.C. 925, 22 U.S.C. 2778, and implementing regulation at 27 CFR Part 47. It is important to note that these machinegun receivers must be destroyed and cannot be imported whether they are serviceable or unserviceable.

An ATF-approved method of destruction for a Heckler and Koch G3 type machinegun receiver requires four diagonal torch cuts that sever or pass through the following areas: (1) the chamber area, (2) the grip assembly locking pin hole, (3) the ejection port, and (4) the buttstock locking pin hole. All cutting must be done with a cutting torch having a tip of sufficient size to displace at least ¼ inch of material at each location. Each cut must completely sever the receiver in the designated areas and must be done with a diagonal torch cut. Using a bandsaw or a cut-off wheel to destroy the receiver does not ensure destruction of the weapon.

This method of destruction is illustrated in the diagram below.

Alternative methods of destruction may also be acceptable. These alternative methods must be equivalent in degree to the approved method of destruction. Receivers that are not sufficiently modified cannot be ap-
import any firearm into the United States Code, makes it unlawful to Section 5844 of Title 26, United States Code. A machinegun to make it importable for unrestricted commercial sale. The severed articles would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o), but would continue to be subject to the provisions of the Arms Export Control Act, 22 U.S.C. 2778. Alternative methods of destruction may also be acceptable. It is recommended that such methods be reviewed and approved by the ATF Firearms Technology Branch prior to the weapon’s importation.

26 USC 5844, 18 USC 922(o), 22 USC 2778

IMPORTATION OF STEN TYPE RECEIVERS FOR UNRESTRICTED COMMERCIAL SALE

An ATF-approved method of destruction for the Sten type machinegun will result in the severed portions of the receiver being importable for unrestricted commercial sale.

ATF Rul. 2003–4

The Bureau of Alcohol, Tobacco and Firearms (ATF) has received inquiries about modifications necessary to the receiver of a Sten type machinegun to make it importable under 26 U.S.C. 5844 and 18 U.S.C. 922(o) for unrestricted commercial sale.

The Sten is a machinegun as defined in 26 U.S.C. 5845(b). The receiver of a Sten is also a machinegun as defined. Various manufacturers made Sten style machineguns in caliber 9x19mm (9mm Luger). The Sten is a blowback-operated, shoulder-fired, magazine-fed, selective-fire submachinegun.

Section 5844 of Title 26, United States Code, makes it unlawful to import any firearm into the United States, unless the firearm to be imported or brought in is: (1) being imported for use by the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof; or (2) the firearm is being imported for scientific or research purposes; or (3) it is being imported solely for testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or dealer. Additionally, the Secretary may permit the conditional importation of a firearm for examination and testing in connection with classifying the firearm.

Section 922(o) of Title 18, United States Code, makes it unlawful for any person to transfer or possess a machinegun, except a transfer to or by the United States or any department or agency thereof or a State or a department, agency, or political subdivision thereof; or any lawful transfer or lawful possession of a machinegun lawfully possessed before May 19, 1986.

A review of the statutes above indicates that machineguns and machinegun receivers cannot be lawfully imported for unrestricted commercial sale. Accordingly, machinegun receivers may be imported for commercial sale only if they are destroyed in a manner that will prevent their function and future use as a firearm. The resulting severed receiver portions would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o); however, these articles would be subject to the provisions of the Arms Export Control Act, 18 U.S.C. 925, 22 U.S.C. 2778, and implementing regulation at 27 CFR Part 47. It is important to note that these machinegun receivers must be destroyed and cannot be imported whether they are serviceable or unserviceable.

An ATF-approved method of destruction for a Sten type machinegun receiver requires three diagonal torch cuts that sever or pass through the following areas: (1) the threaded portion of the receiver/chamber area, (2) the return spring cap socket, and (3) the sear slot in the lower side of the receiver. All cutting must be done with a cutting torch having a tip of sufficient size to displace at least ¼ inch of material at each location. Each cut must completely sever the receiver in the designated areas and must be done with a diagonal torch cut. Using a bandsaw or a cut-off wheel to destroy the receiver does not ensure destruction of the weapon.

This method of destruction is illustrated in the diagram below.

Alternative methods of destruction may also be acceptable. These alternative methods must be equivalent in degree to the approved method of destruction. Receivers that are not sufficiently modified cannot be approved for importation. To ensure compliance with the law, it is recommended that the importer submit in writing the alternative method of destruction to the ATF Firearms Technology Branch (FTB) for review and approval prior to importation.

Held, an ATF-approved method of destruction for a Sten type machinegun receiver will result in the severed portions of the receiver being importable for unrestricted commercial sale. The severed articles would not be subject to the provisions of 26 U.S.C. 5844 or 18 U.S.C. 922(o), but would continue to be subject to the provisions of the Arms Export Control Act, 22 U.S.C. 2778. Alternative methods of destruction may also be acceptable. It is recommended that such methods be reviewed and approved by the ATF Firearms Technology Branch prior to the weapon’s importation.
Persons with a valid Federal Firearms license and/or registered as an importer of articles enumerated on the U.S. Munitions Import List seeking to import firearms, ammunition and implements of war may submit the ATF Form 6, Application and Permit for Importation of Firearms, Ammunition and Implements of War, electronically using the eForm 6 online electronic filing system, provided such persons have met certain registration requirements.

ATF Rul. 2003-6

The Gun Control Act of 1968 (GCA), 18 U.S.C. Chapter 44, and the National Firearms Act (NFA), 26 U.S.C. Chapter 53, provide that, with certain exceptions, no firearm, firearm barrel, or ammunition shall be imported or brought into the United States unless the Director of the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) has authorized its importation. See 18 U.S.C. 925(d); 26 U.S.C. 5844. The Arms Export Control Act (AECA), 22 U.S.C. 2778, gives the President the authority to control the export and import of defense articles and defense services in furtherance of world peace and the security and foreign policy of the United States. Authority to administer the permanent import provisions of the AECA was delegated to the Attorney General, while the authority to administer the export and temporary import provisions of the AECA was delegated to the Secretary of State. Executive Order 11958 of January 18, 1977, as amended by Executive Order 13284 of January 23, 2003, 3 CFR Executive Order 13284.

Persons who wish to import firearms or ammunition must file with the Director an ATF Form 6 (Firearms), Application and Permit for Importation of Firearms, Ammunition and Implements of War, in triplicate, executed under the penalties of perjury. See 27 CFR 478.112, 478.113, 479.112, 479.113, and 447.42. The Form 6 must contain the information specified in 27 CFR Subpart G. If the Director approves the application, the approved application will serve as the import permit. See 27 CFR 478.112(b).

The Government Paperwork Elimination Act (GPEA), enacted in 1998, requires executive agencies to provide for the option of the electronic maintenance, submission, or disclosure of information, as a substitute for paper, and for the use and acceptance of electronic signatures, when practicable, by October 2003. See Government Paperwork Elimination Act, Pub. L. No. 105-277, § 1704, 112 Stat. 2681-749, 2681-750 (1998). In accordance with the GPEA’s mandate, ATF developed the eForm 6 online electronic filing system for persons with a valid Federal Firearms license and persons registered as an importer of articles enumerated on the U.S. Munitions Import List.

The eForm 6 online electronic filing system enables licensees and registered importers to file the ATF Form 6 and obtain an approved import permit from ATF electronically via the Internet. eForm 6 online applications will be approved, returned for correction, or denied and a paper copy returned to the applicant. If approved, the paper copy will serve as the import permit and may be submitted to United States Bureau of Customs and Border Protection. The system also enables licensees and registered importers to obtain status updates regarding both electronic and paper import permit applications they have filed. The applicable laws, regulations, policies, and procedures pertaining to import applications also apply to the eForm 6.

To register for the eForm 6 online electronic filing system, licensees and registered importers (or employees of licensees and registered importers) must complete a registration form, the ATF Form 5013.3, eForm 6 Access Request. Each individual requesting access to the system must sign the ATF Form 5013.3 certifying that they intend the electronic credentials assigned to them to substitute for their original signature and that any eForm 6 submissions will be treated as bearing an original signature. The user also agrees to be bound by the No-
participate. Licensees and registered importers may continue to submit ATF Form 6 on paper to ATF.

Sections 478.22 and 479.26, Title 27, CFR, provide that the Director may approve an alternate method or procedure in lieu of a method or procedure specifically prescribed in the regulations when he finds that:

(1) Good cause is shown for the use of the alternate method or procedure;

(2) The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure and that the alternate method or procedure is substantially equivalent to that specifically prescribed method or procedure; and

(3) The alternate method or procedure will not be contrary to any provision of law and will not result in an increase in cost to the Government or hinder the effective administration of Parts 478 and 479.

ATF finds that there is good cause to authorize a variance to the provisions of 27 CFR 478.111, 478.112, 478.113, 479.111, 479.112, and 479.113 and 447.42 requiring the filing of ATF Form 6, Application and Permit for Importation of Firearms, Ammunition and Implements of War, in paper form due to the mandate of the GPEA that executive agencies provide the option of electronic submission of information as a substitute for paper, and for the use and acceptance of electronic signatures. Accordingly, ATF authorizes the following alternate method or procedure to the ATF Form 6 filing requirements of 27 CFR 478.111, 478.112, 478.113, 479.111, 479.112, 479.113, and 447.42.

The ATF Form 6 may be filed in electronic form on ATF eForm 6, provided that:

(1) The applicant has registered with ATF by submitting the registration form, ATF Form 5013.3, eForm 6 Access Request;

(2) The applicant has received a unique user ID and password, and has agreed that the electronic signature assigned to them is intended as their original signature on eForm 6 submissions; and

(3) The applicant has agreed to be bound by the Notices and Agreement governing the use of the eForm 6 system.

Licensees and registered importers who fail to abide by the conditions outlined above may be advised by ATF that their privilege of utilizing the eForm 6 electronic filing system has been terminated.

ATF finds that the above alternate method is consistent with the provisions of 27 CFR 478.111, 478.112, 478.113, 479.111, 479.112, 479.113 and 447.42 because it will ensure that the required information is captured on the eForm 6 and that the eForm 6 is signed under penalties of perjury. The alternate method is not contrary to any provision of law, will not increase costs to ATF, and will not hinder the effective administration of the regulations in 27 CFR Parts 478, 479, and 447.

Held, pursuant to 27 CFR 478.22 and 479.26, ATF authorizes a variance from the requirements of 27 CFR 478.111, 478.112, 478.113, 479.111, 479.112, 479.113, and 447.42 for Federal Firearms licensees and registered importers of articles enumerated on the U.S. Munitions Import List filing ATF Form 6, Application and Permit for Importation of Firearms, Ammunition and Implements of War. As an alternate method or procedure, the ATF Form 6 may be filed in electronic form on ATF eForm 6, provided that:

(1) The applicant has registered with ATF by submitting the registration form, ATF Form 5013.3, eForm 6 Access Request;

(2) The applicant has received a unique user ID and password, and has agreed that the electronic signature assigned to them is intended as their original signature on eForm 6 submissions; and

(3) The applicant has agreed to be bound by the Notices and Agreement governing the use of the eForm 6 system.

Date signed: July 11, 2003

27 CFR 478.11, 478.124(c)(3)(ii): DEFINITIONS, TRANSFER OF FIREARMS

A Federal firearms licensee (FFL) may not lawfully transfer a firearm to a nonimmigrant alien who has not resided in a State continuously for at least 90 days immediately prior to the FFL conducting a National Instant Criminal Background Check System (NICS) check.

ATF Rul. 2004-1

The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) has received questions from nonimmigrant aliens concerning how aliens satisfy the Gun Control Acts (GCA) State of residence requirement. Several nonimmigrant aliens have asked why they have been prohibited from purchasing a firearm from a Federal firearms licensee (FFL), even though the aliens believe they have lived in the State where the FFL is licensed for more than 90 days.

The GCA provides that an FFL generally may not transfer a handgun to an unlicensed person who does not reside in the State where the licensee’s premises are located. 18 U.S.C. 922(b)(3). FFLs may transfer long guns to residents of other States in over-the-counter transactions, if the sale, delivery, and receipt of the firearm comply with the laws of the FFL’s State and the buyer’s State. Id. In order to satisfy these long gun sale requirements, the buyer must reside in a State within the United States.

The regulations implementing the GCA define “State of residence” as: “[t]he State in which an individual resides. An individual resides in a State if he or she is present in a State with the intention of making a home in that State.” For aliens, the definition also provides that a legal alien “shall be considered to be a resident of a State only if the alien is residing in the State and has resided in the State for a period of at least 90 days prior to the date of sale or delivery of a firearm.” 27 CFR 478.11.

Moreover, the GCA regulations require that after an alien completes ATF Form 4473 (Firearms Transaction Record), the FFL shall have the alien present documentation establishing that the alien is a resident of the State (as defined in section 478.11) in which the FFL’s business premises are located. The regulation states that “[e]xamples of acceptable documentation include utility bills or a lease agreement which show that the
transferee has resided in the State continuously for at least 90 days prior to the transfer of the firearm.” 27 CFR 478.124(c)(3)(i)).

ATF interprets these provisions to mean a nonimmigrant alien must reside in the State continuously for 90 days immediately preceding the NICS check. If this temporal requirement is not imposed, the purpose of the 90 continuous days requirement will be defeated. Documentation that a nonimmigrant alien reside in a State continuously for 90 days at some point in the past does not establish the alien’s State of residence at the time of the NICS check.

Moreover, for all non-U.S. citizens, NICS checks include a check of Bureau of Immigration and Customs Enforcement (ICE) databases. These databases generally contain records of when nonimmigrant aliens enter and exit the United States. Accordingly, when a nonimmigrant alien attempts to receive a firearm from an FFL, the background check generally will show if the nonimmigrant alien has left the United States in the preceding 90 days.

ATF recognizes that some nonimmigrant aliens who temporarily leave the United States may have an intent to reside in a State within the United States, and are simply going on a trip abroad. However, ATF has determined that evidence of a nonimmigrant alien leaving the country represents a break in residency that will defeat the residency requirement, a NICS check demonstrates a nonimmigrant alien has left the United States during the 90 days immediately preceding the NICS check, the nonimmigrant alien does not satisfy the 90 day State of residency requirement. This is the case even if the nonimmigrant alien has provided other documentation, such as utility bills or a lease, to demonstrate 90 days of continuous residency immediately preceding the NICS check.

Held, pursuant to 18 U.S.C. 922(b)(3), 27 CFR 478.11, and 478.124(c)(3)(ii), Federal firearms licensees may not lawfully transfer firearms to nonimmigrant aliens who have not resided in the State where their business premises are located (or in the case of a long gun, in any State) for at least 90 continuous days immediately preceding the National Instant Criminal Background Check System (NICS) check.

Held further, that if a National Instant Criminal Background Check System check demonstrates a nonimmigrant alien has left the United States during the 90 days immediately preceding the NICS check, the nonimmigrant alien does not satisfy the 90 day State of residency requirement. This is the case even if the nonimmigrant alien has provided other documentation, such as utility bills or a lease, to demonstrate 90 days of continuous residency immediately preceding the NICS check.

Date signed: March 22, 2004
26 U.S.C. 5812, 5841, 5844, 5861, 5872
27 CFR 479.11, 479.26, 479.105, 479.111, 479.112, 479.114 – 479.119:
IMPORTATION OF FIREARMS SUBJECT TO THE NATIONAL FIREARMS ACT
18 U.S.C. 921(a)(3), 922(I), 922(o), 923(e), 924(d), 925(d)(3)
22 U.S.C. 2778
27 CFR 447.11, 447.21: TEMPORARY IMPORTATION OF DEFENSE ARTICLES
The Bureau of Alcohol, Tobacco, Firearms and Explosives has approved an alternate method or procedure for importers to use when temporarily importing firearms subject to the National Firearms Act, the Gun Control Act and the Arms Export Control Act for inspection, testing, calibration, repair, or incorporation into another firearm or other weapons.” Section 5844 of the NFA provides that no firearm may be imported into the United States unless the importer establishes that the firearm to be imported is—

(1) Being imported or brought in for the use of the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof;

(2) Being imported or brought in for scientific or research purposes;

(3) Being imported or brought in solely for testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or registered dealer.

Regulations implementing the NFA in 27 CFR Part 479 require importers to obtain an ATF Form 6, Application and Permit for Importation of Firearms, Ammunition and Implements of War, prior to importing NFA firearms into the United States. 27 CFR 479.111. In addition, the regulations require importers to register the firearms they import by filing with the

Statutory Background

1. The National Firearms Act

The NFA imposes restrictions on certain firearms, including regulation requirements, transfer approval requirements, and import restrictions. 26 U.S.C. 5812, 5841, 5844. The term “firearm” is defined in 26 U.S.C. 5845(a) to include machineguns, short-barrel shotguns, short-barrel rifles, silencers, destructive devices, and “any other weapons.” Section 5844 of the NFA provides that no firearm may be imported into the United States unless the importer establishes that the firearm to be imported is—

(1) Being imported or brought in for the use of the United States or any department, independent establishment, or agency thereof or any State or possession or any political subdivision thereof;

(2) Being imported or brought in for scientific or research purposes;

(3) Being imported or brought in solely for testing or use as a model by a registered manufacturer or solely for use as a sample by a registered importer or registered dealer.
Director an accurate notice on Form 2, Notice of Firearms Manufactured or Imported, executed under the penalties of perjury, showing the importation of a firearm. 27 CFR 479.112. When an NFA firearm is to be exported from the United States, the exporter must file with the Director an application on Form 9, Application and Permit for Exportation of Firearms, to obtain authorization to export the firearm. 27 CFR 479.114-119.

Regulations in 27 CFR Part 479 indicate that NFA firearms may be imported for scientific or research purposes or for testing or use as a model by a registered manufacturer or as a sample by a registered importer or registered dealer. 27 CFR 479.111(a). However, section 479.105(c), implementing section 922(o) of the GCA, clarifies that machineguns manufactured on or after May 19, 1986, may be imported only with a purchase order for transfer to a governmental entity, or as a dealer's sales sample pursuant to section 479.105(d).

The regulations in Part 479 give the Director the authority to approve an alternate method or procedure in lieu of a method or procedure specifically prescribed in the regulations when it is found that:

1. Good cause is shown for the use of the alternate method or procedure;
2. The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure and that the alternate method or procedure is substantially equivalent to that specifically prescribed method or procedure; and
3. The alternate method or procedure will not be contrary to any provision of law and will not result in an increase in cost to the Government or hinder the effective administration of the GCA or regulations issued thereunder.

2. The Gun Control Act

Import provisions of the GCA, 18 U.S.C. 922(j) and 925(d)(3), generally prohibit the importation of firearms subject to the NFA, except for the use of governmental entities. 18 U.S.C. 925(a)(1). The term "firearm" is defined in section 921(a)(3) to include any weapon which will or is designed to or may be readily converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm silencer; and any destructive device. In addition, section 922(o) of the GCA prohibits the transfer or possession of a machinegun manufactured on or after May 19, 1986, except for the official use of governmental entities.

Regulations implementing the GCA in 27 CFR Part 478 require that persons importing firearms into the United States obtain an approved ATF Form 6, Application and Permit for Importation of Firearms, Ammunition and Implements of War, prior to bringing the firearms into the United States. 27 CFR 478.111-114. Regulations in Part 478 provide that the Director may approve an alternate method or procedure in lieu of a method or procedure specifically prescribed by the GCA and regulations when it is found that:

1. Good cause is shown for the use of the alternate method or procedure;
2. The alternate method or procedure is within the purpose of, and consistent with the effect intended by, the specifically prescribed method or procedure and that the alternate method or procedure is substantially equivalent to that specifically prescribed method or procedure; and
3. The alternate method or procedure will not be contrary to any provision of law and will not result in an increase in cost to the Government or hinder the effective administration of the GCA or regulations issued thereunder.

27 CFR 478.22.

3. The Arms Export Control Act

The Arms Export Control Act (AECA), 22 U.S.C. 2778, gives the President the authority to control the export and import of defense articles and defense services in furtherance of world peace and the security and foreign policy of the United States. Authority to administer the permanent import provisions of the AECA was delegated to the Attorney General, while the authority to administer the export and temporary import provisions of the AECA was delegated to the Secretary of State. Executive Order 11958 of January 18, 1977, as amended by Executive Order 13333 of January 23, 2003, 3 CFR Executive Order 13284.

The term "defense article" is defined in 27 CFR 447.11 as any item designated in sections 447.21 or 447.22. Section 447.21, the U.S. Munitions Import List, includes a number of defense articles that are also subject to the GCA and NFA. Category I, "Firearms," includes nonautomatic and semiautomatic firearms to caliber .50 inclusive, combat shotguns, shotguns with barrels less than 18 inches in length, and firearms suppressors and silencers. All Category I firearms are subject to the GCA. "Combat shotguns" include the USAS-12 shotgun and the Striker-12/Streetsweeper shotgun, which have been classified as destructive devices under the GCA and NFA. In addition, all shotguns with barrels of less than 18 inches in length are subject to both the GCA and NFA. All rifles with barrels of less than 16 inches in length are subject to both the GCA and NFA, and silencers are subject to both the GCA and NFA.

Category II, "Artillery Projectors," includes guns over caliber .50, howitzers, mortars, and recoilless rifles. Firearms over .50 caliber have a bore of more than one-half inch in diameter and are "destructive devices" as defined in the GCA and NFA.

Category IV, "Launch Vehicles, Guided Missiles, Ballistic Missiles, Rockets, Torpedoes, Bombs and Mines," includes rockets, bombs, grenades, torpedoes, and land and naval mines. All these articles are "destructive devices" as defined in the GCA and NFA.

Regulations of the Department of State implementing the AECA generally require a temporary import license, DSP-61, for the temporary import and subsequent export of unclassified defense articles, unless otherwise exempted. 22 CFR 123.3. Regulations in 22 CFR 123.4 provide an exemption from licensing if the item temporarily imported:

1. Is serviced (e.g., inspection, testing, calibration or repair, including overhaul, reconditioning and one-to-one replacement of any defective parts or components, but excluding any modification, enhancement, upgrade or other form
of alteration or improvement that changes the basic performance of the item), and is subsequently returned to the country from which it was imported. Shipment may be made by the U.S. importer or a foreign government representative of the country from which the goods were imported; or

(2) Is to be enhanced, upgraded or incorporated into another item which has already been authorized by the Office of Defense Trade Controls for permanent export; or

(3) Is imported for the purpose of exhibition, demonstration or marketing in the United States and is subsequently returned to the country from which it was imported; or

(4) Has been rejected for permanent import by the Department of the Treasury [after January 24, 2003, the Department of Justice] and is being returned to the country from which it was shipped; or

(5) Is approved for such import under the U.S. Foreign Military Sales (FMS) program pursuant to an executed U.S. Department of Defense Letter of Offer and Acceptance (LOA).

Willful violations of the AECA are punishable by imprisonment for not more than 10 years, a fine of not more than $1,000,000, or both. 22 U.S.C. 2778(c). Articles imported in violation of the AECA are also subject to seizure and forfeiture. 18 U.S.C. 545.

Discussion

A temporary import license authorizing the temporary importation and subsequent export of a defense article by the Department of State satisfies all legal requirements under the AECA. Importers may also comply with AECA requirements if the importation meets one of the exemptions in 22 CFR 123.4. However, if the defense article is subject to the GCA and NFA, the importer must also comply with the requirements of those statutes. Neither the GCA nor NFA make a distinction between temporary importation and permanent importation, as is the case under the AECA. Regulations implementing the GCA and NFA make it clear that an "importation" occurs when firearms are brought within the territory of the United States. 27 CFR 478.11 and 479.11. Accordingly, any bringing of firearms into the territory of the United States is subject to the import provisions of the GCA and NFA. Issuance of a temporary import license by the Department of State, or exemption from licensing under regulations in 22 CFR Part 123, will not excuse compliance with the GCA and NFA.

The statutes and regulations outlined above do not address the importation of machineguns manufactured after May 19, 1986, for scientific or research purposes or for testing, repair, or use as a model by a manufacturer or importer. Nor do the regulations address the importation of post-86 machineguns for repair, inspection, calibration, or incorporation into another defense article.

For other "defense articles" that are subject to the requirements of the GCA and NFA, such as silencers, destructive devices, and short-barrel weapons, ATF has the authority to approve the importation of such firearms for scientific or research purposes or for testing or use as a model or sample by a registered importer or registered dealer. However, such importations must comply with all applicable provisions of the NFA, including filing of a Form 2, Notice of Firearms Manufactured or Imported, to effect registration. If such articles are subsequently exported, a Form 9, Application and Permit for Permanent Exportation of Firearms, must also be approved prior to exportation.

As with post-86 machineguns, neither the law nor regulations specifically address the importation of firearms subject to the NFA for purposes of repair, inspection, calibration, or for incorporation into another defense article.

ATF recognizes that inspection, repair, calibration, incorporation into another defense article, and reconditioning of machineguns, destructive devices, and other NFA firearms is often necessary for National defense. These defense articles are frequently sold to allies of the United States for their legitimate defense needs. Accordingly, ATF believes it is appropriate to recognize an alternate method that allows importers to temporarily import these firearms, subject to requirements to ensure the security of these articles while they are in the United States and accountability of the persons who import them.

Pursuant to 27 CFR 478.22 and 479.26, ATF hereby authorizes an alternate method or procedure for importers of defense articles to use for temporary importation of such articles for inspection, calibration, repair, or incorporation into another defense article when such articles are subject to the requirements of the NFA and GCA. The procedure requires that importers--

(1) Be qualified under the GCA and NFA to import the type of firearms sought for importation;

(2) Obtain a temporary import license, DSP-61, from the Department of State in accordance with 22 CFR 123.3 OR qualify for a temporary import license exemption pursuant to 22 CFR 123.4;

(3) Within 15 days of the release of the firearms from Customs custody, file an ATF Form 2, Notice of Firearms Manufactured or Imported, showing the importation of the firearms. The DSP-61 must be attached to the Form 2. If the importation is subject to a licensing exemption under 22 CFR 123.4, the importer must submit with the ATF Form 2 a statement, under penalty of perjury, attesting to the exemption and stating that the article will be exported within four years of its importation into the United States;

(4) Maintain the defense articles in a secure place and manner to ensure that the articles are not diverted to criminal or terrorist use; and

(5) Export the articles within 4 years of its importation into the United States.

Importers who follow the procedures outlined above will be in compliance with all the provisions of the GCA, NFA, and AECA administered and enforced by ATF. All other provisions of the law must be followed.

ATF finds that the procedure outlined above meets the legal requirements for an alternate method or procedure because there is good cause to authorize the importation of defense articles for repair, inspection, calibration, or incorporation into another defense article. Because such defense articles are often provided to
has approved an alternate method or procedure for importers to use when temporarily importing firearms subject to the Gun Control Act, National Firearms Act, and the Arms Export Control Act for inspection, testing, calibration, repair, or incorporation into another defense article. This procedure applies to all defense articles that are also subject to the NFA and GCA. The procedure requires that importers---

1. Be qualified under the GCA and NFA to import the type of firearms sought for importation;

2. Obtain a temporary import license, DSP-61, from the Department of State in accordance with 22 CFR 123.3 or qualify for a temporary import license exemption pursuant to 22 CFR 123.4;

3. Within 15 days of the release of the firearms from Customs custody, file an ATF Form 2, Notice of Firearms Manufactured or Imported, showing the importation of the firearms. The DSP-61 must be attached to the Form 2. If the importation is subject to a licensing exemption under 22 CFR 123.4, the importer must submit with the ATF Form 2 a statement, under penalty of perjury, attesting to the exemption and stating that the article will be exported within four years of its importation into the United States;

4. Maintain the defense articles in a secure place and manner to ensure that the articles are not diverted to criminal or terrorist use; and

5. Export the articles within 4 years of importation into the United States.

Held further, temporary conveyance of NFA weapons from the importer to a contractor within the United States for purposes of inspection, testing, qualification, repair, or incorporation into another defense article may be accomplished through advance approval of ATF Form 5, Application for Tax Exempt Transfer and Registration of Firearm, for approval prior to conveying a firearm for repair or manipulation. In the alternative, the importer should convey the weapon with a letter to the contractor, stating: (1) the weapon is being temporarily conveyed for inspection, testing, calibration, repair, or incorporation into another defense article; and (2) the approximate time period the weapon is to be in the contractor's possession. The transferee must be properly licensed to engage in an NFA firearms business.

Held, pursuant to 27 CFR 478.22 and 479.26, the Bureau of Alcohol, Tobacco, Firearms and Explosives
be readily restored to shoot, automatically more than one shot, without manual reloading, by a single function of the trigger.” 26 U.S.C. 5845(b). The term also includes "the frame or receiver of any such weapon, any part designed and intended solely and exclusively, or combination of parts designed and intended, for use in converting a weapon into a machinegun, and any combination of parts from which a machinegun can be assembled if such parts are in the possession or under the control of the person."  Id.; see 18 U.S.C. 921(a)(23); 27 CFR 478.11, 479.11.

ATF and its predecessor agency, the Internal Revenue Service (IRS), have historically held that the original, crank-operated Gatling Gun, and replicas thereof, are not automatic firearms or machineguns as defined. See Rev. Rul. 55-528, 1955-2 C.B. 482. The original Gatling Gun is a rapid-firing, hand-operated weapon. The rate of fire is regulated by the rapidity of the hand-cranking movement, manually controlled by the operator. It is not a "machinegun" as that term is defined in 26 U.S.C. 5845(b) because it is not a weapon that fires automatically.

The Minigun is not a Gatling Gun. It was not produced under the 1862 -1893 patents of the original Gatling Gun. While using a basic design concept of the Gatling Gun, the Minigun does not incorporate any of Gatling’s original components and its feed mechanisms are entirely different. Critically, the Minigun shoots more than one shot, without manual reloading, by a single function of the trigger, as prescribed by 26 U.S.C. 5845(b). See United States v. Fleischli, 305 F.3d 643, 655-656 (7th Cir. 2002). See also Staples v. United States, 511 U.S. 600, 603 (1994) (automatic refers to a weapon that "once its trigger is depressed, the weapon will automatically continue to fire until its trigger is released or the ammunition is exhausted"); GEORGE C. NONTE, JR., FIREARMS ENCYCLOPEDIA 13 (Harper & Rowe 1973) (the term "automatic" is defined to include "any firearm in which a single pull and continuous pressure upon the trigger (or other firing device) will produce rapid discharge of successive shots so long as ammunition remains in the magazine or feed device - in other words, a machinegun"); WEBSTER’S II NEW RIVERSIDE- UNIVERSITY DICTIONARY (1988) (defining automatically as "acting or operating in a manner essentially independent of external influence or control"); JOHN QUICK, PH.D., DICTIONARY OF WEAPONS AND MILITARY TERMS 40 (McGraw-Hill 1973) (defining automatic fire as "continuous fire from an automatic gun, lasting until pressure on the trigger is released").

The term "trigger" is generally held to be the part of a firearm that is used to initiate the firing sequence. See United States v. Fleischli, 305 F.3d at 655-56 (and cases cited therein); see also ASSOCIATION OF FIREARMS AND TOOLMARK EXAMINERS (AFTE) GLOSSARY 185 (1st ed. 1980) ("that part of a firearm mechanism which is moved manually to cause the firearm to discharge"); WEBSTER’S II NEW RIVERSIDE- UNIVERSITY DICTIONARY (1988) ("lever pressed by the finger in discharging a firearm").

Held, the 7.62mm Minigun is designed to shoot automatically more than one shot, without manual reloading, by a single function of the trigger. Consequently, the 7.62mm Minigun is a machinegun as defined in section 5845(b) of the National Firearms Act. See United States v. Fleischli, 305 F.3d at 655-56. Similarly, the housing that surrounds the rotor is the frame or receiver of the Minigun, and thus is also a machinegun. Id.; see 18 U.S.C. 921(a)(23); 27 CFR 478.11, 479.11.

To the extent this ruling is inconsistent with Revenue Ruling 55-528 issued by the IRS, Revenue Ruling 55-528, 1955-2 C.B. 482, is hereby modified.

Date signed: August 18, 2004
PROCEDURES

PART 178: COMMERCE IN FIREARMS
(Also 27 CFR 178.94, 178.12)

Recordkeeping procedures for "drop shipments" of firearms are prescribed.

ATF Proc. 75-3

Purpose: This ATF procedure sets forth the recordkeeping procedures for "drop shipments" of firearms (other than National Firearms Act firearms as defined in section 5845(a) of Chapter 53, Title 26, U.S.C.) and ammunition between federally licensed firearms dealers, importers, and manufacturers.

Background: The Bureau has experienced difficulty in tracing firearms in instances where drop shipments have been made to third parties and where the recordkeeping procedures employed by the three parties do not lend themselves to easy and fast tracing of firearms and ammunition. For this reason, the Bureau has prescribed recordkeeping procedures for "drop shipments" as set forth below.

Procedures: (1) Where licensee "A" places an order for firearms or ammunition with licensee "B" and "B" transmits the order to licensee "C" for direct shipment (drop shipment) to "A," a certified copy of the license of "A" must be forwarded to "C" prior to shipment of the order. On shipment of the order to "A," "C" shall enter in his bound record the disposition of the firearms or ammunition in his bound record reflecting receipt from the manufacturer. The wholesaler, although a part of the business transaction, neither acquires nor disposes of the firearms and would, therefore, enter nothing of the transaction in his bound record.

NFA Firearms: Transfer of National Firearms Act firearms may be accomplished only pursuant to the manner outlined in Subpart F, Part 179, Title 27, Code of Federal Regulations.

Inquiries: Inquiries concerning this procedure should refer to its number and be addressed to the office of the appropriate Regional Director.

[75 ATF C.B. 78]

27 CFR 179.35: EMPLOYER IDENTIFICATION NUMBER
(Also see 179.34, 179.84 179.88, 179.90, 179.103 and 179.112)

Identification Number for Special (Occupational) Taxpayer

ATF Proc. 90-1

Purpose: The purpose of this ATF procedure is to inform Federal Firearms licensees who have paid the special (occupational) tax to import, manufacture, or deal in National Firearms Act (NFA) firearms of the discontinuance of the use of the ATF Identification Number and the replacement with the use of the Employer Identification Number (EIN) on all NFA transaction forms.

Background: Section 5801 of Title 26, U.S.C. provides that on first engaging in business, and thereafter on or before the first day of July of each year, every importer, manufacturer, and dealer in NFA firearms shall pay the appropriate special (occupational) tax. In addition, section 5802 requires each importer, manufacturer, and dealer to register with the Secretary his name and the address of each location where he will conduct business. The filing of ATF Form 5630.5, with payment of the appropriate tax required by section 5801, also accomplishes registration requirements under section 5802.

The regulations at 27 CFR 179.34 require that the special tax be paid by return (ATF Form 5630.5, Special Tax Registration and Return) and require that all information called for on the return be provided, including the Employee Identification Number. 27 CFR 179.35 provides the instruction for applying for an EIN.

In 1980, because of delays in the issuance of special tax stamps resulting in the inability of special taxpayers to conduct business operations, ATF Procedure 80-6 was implemented. This procedure notified taxpayers that they could obtain an ATF identification number which should be used in lieu of the IRS special tax stamp number on all NFA transaction forms. This procedure was established to facilitate the processing of NFA forms and to eliminate the delay caused by the time period required for IRS processing of the special tax stamp.

ATF has recently taken over the collection of special tax from the Internal Revenue Service, and is now issuing the special tax stamps. The number used to identify the special tax stamp is the EIN.
Because the number used to identify the special tax stamp is the EIN, this number must appear on all forms (applications, notices, and returns) involving NFA firearms. The problems that caused the implementation of the procedure in 1980 have been resolved. In fact, the assignment of an ATF identification number is now duplicative and requires more paperwork of the taxpayer. Accordingly, the use of the ATF identification number is no longer necessary and is discontinued.

ATF Procedure 80-6 is cancelled.

Inquiries: Inquiries regarding this ATF procedure should refer to its number and be addressed to the Bureau of Alcohol, Tobacco and Firearms, Chief, National Firearms Act Branch, Washington, DC 20226.

[ATFB 1990-1 55]
INDUSTRY CIRCULARS

Industry Circular 72-23

SHIPMENT OR DELIVERY OF FIREARMS BY LICENSEES TO EMPLOYEES, AGENTS, REPRESENTATIVES, WRITERS, AND EVALUATORS

Purpose. The purpose of this circular is to clarify the provisions of 18 U.S.C. Chapter 44, and Subpart F of the regulations thereunder (27 CFR 178) pertaining to the shipment of firearms in interstate commerce by a firearms licensee to its own nonlicensed employees, agents, and representatives, for the use and benefit of the licensee's business. The position of the Bureau is set out in Revenue Ruling 69-248.

Background. Revenue Ruling 69-248 provides as follows: [See RR 69-248].

Scope. Included within the category of agents and representatives discussed in the Revenue Ruling are professional writers, consultants and evaluators who in the course of their professions acquire firearms from a licensee for research or evaluation. The Revenue Ruling applies only to firearms acquired from a licensee for limited lengths of time and where the title to and ultimate control of the firearm remains in the licensee. Should the writer or evaluator desire to permanently keep the examined firearm, prior arrangements must be made to acquire the firearm through a licensee in such writer's or evaluator's State of residence and the Revenue Ruling in such writer's or evaluator's State of residence.

Restriction. This Revenue Ruling also does not apply to firearms and ammunition within the purview of the National Firearms Act (26 U.S.C. Chapter 53).

Records. The licensee should enter in his firearms records the shipment or delivery of firearms to the employee, agent, representative, writer, consultant, or evaluator according to Subpart H of the regulations. Upon the completion of the business purpose for which the firearms were received the firearms must be returned to the licensee who acquire firearms for his personal collection. Such firearms must be entered in his permanent acquisition records and subsequently be recorded as a disposition to himself in his private capacity. If such personal firearms remain on the licensed premises, the procedures described above with respect to segregation and identification must be followed.

The above procedures will facilitate the examination and inspection of the records of firearms dealers and result in less inconvenience to licensees.

Industry Circular 72-30

IDENTIFICATION OF PERSONAL FIREARMS ON LICENSED PREMISES NOT OFFERED FOR SALE

Purpose. The purpose of this circular is to urge licensed firearms dealers to identify their personal collection of firearms kept at the business premises.

Scope. The provisions of Section 923(g), 18 U.S.C. Chapter 44, and Subpart H of the regulations (27 CFR 178) require all licensed firearms dealers to maintain records of their receipt and disposition of all firearms at the licensed premises. Section 178.121(b) of the regulations and the law further provide for the examination and inspection during regular business hours or other reasonable times of firearms kept or stored on business premises by licensees and any firearms record or document required to be maintained.

Guidelines for Identifying Personal Firearms on the Business Premises of Licensed Dealers. A presumption exists that all firearms on a business premises are for sale and accordingly must be entered in the records required to be maintained under the law and regulations. However, it is recognized that some dealers may have personal firearms on their business premises for purposes of display or decoration and not for sale. Firearms dealers who have such personal firearms on licensed premises should not intermingle such firearms with firearms held for sale. Such firearms should be segregated from firearms held for sale and appropriately identified (for example, by attaching a tag) as being "not for sale". Personal firearms on licensed premises which are segregated from firearms held for sale and which are appropriately identified as not being for sale need not be entered in the dealer's records.

There may be occasions where a firearms dealer utilizes his license to acquire firearms for his personal collection. Such firearms must be entered in his permanent acquisition records and subsequently be recorded as a disposition to himself in his private capacity. If such personal firearms remain on the licensed premises, the procedures described above with respect to segregation and identification must be followed.

Mail Order Sales: When the shipment is to be made to an address other than the transferee's premises as listed on his license or on his certified list, it is suggested that the transferee verify the address as being that of the transferee.

Industry Circular 77-20

DUPLICATION OF SERIAL NUMBERS BY LICENSED IMPORTERS

ATF has noted cases where some licensed importers have adopted the
same serial number for more than one firearm. These instances of duplication have generally occurred when firearms are received from more than one source.

Title 27, CFR section 178.92 requires that the serial number affixed to a firearm must not duplicate the number affixed to any other firearm that you import into the United States. Those of you who import destructive devices are under the same requirement due to the inclusion of destructive devices in the definition of firearm as used in 27 CFR 178.11. ATF Ruling 75-28 stated that a serial number affixed by the foreign manufacturer may be adopted to fulfill this unique serial number requirement. However, the manufacturer's serial number must be affixed in the manner set forth in 27 CFR 178.92 and must not duplicate a number previously adopted by you for another firearm.

If you receive two or more firearms with the same serial number, it is your responsibility to affix additional markings to make each serial number unique.

ATF Ruling 75-28 also reminds you of the other identifying marks required by 27 CFR 178.92. In addition to a unique serial number, each firearm must be marked to show the model (if any); the caliber or gauge; the name of the manufacturer and importer, or recognizable abbreviations; the country of manufacture; and the city and State (or recognized abbreviations) in which your licensed premises are located.

1. INFORMATION ABOUT ATF

For assistance with applications, records, transactions, and other regulatory matters, contact your local ATF office. Information about criminal violations of Federal firearms laws also should be referred to that office.

A list of ATF field offices is on page 198 of this publication.

Requests for ATF forms and publications should be directed to the ATF Distribution Center, P.O. Box 5950, Springfield, Virginia 22150-5950. Most forms and publications also are available at www.ATF.gov.

ATF publishes the ATF Quarterly Bulletin, by which the agency informs interested persons about current alcohol, tobacco, firearms, and explosives matters, including regulatory, procedural, and administrative information; items of general interest; and, excerpts concerning AR-15 type rifles with M16 internal components should have those parts removed and replaced with AR-15 Model SP1 type parts which are available commercially. The M16 components also may be modified to AR-15 Model SP1 configuration.

It is important to note that any modification of the M16 parts should be attempted by fully qualified personnel only.

Should you have any questions concerning AR-15 type rifles with M16 parts, please contact your nearest ATF office. A list of ATF field offices is on page 198 of this publication.

2. INFORMATION CONCERNING AR-15 TYPE RIFLES

ATF has encountered various AR-15 type assault rifles such as those manufactured by Colt, E.A. Company, SGW, Sendra and others, which have been assembled with fire control components designed for use in M16 machineguns. The vast majority of these rifles which have been assembled with an M16 bolt carrier, hammer, trigger, disconnector and selector will fire automatically merely by manipulation of the selector or removal of the disconnector. Many of these rifles using less than the 5 M16 parts listed above also will shoot automatically by manipulation of the selector or removal of the disconnector.

Any weapon which shoots automatically more than 1 shot without manual reloading, by a single function of the trigger, is a machinegun as defined in 26 U.S.C. 5845(b), the National Firearms Act (NFA). The definition of a machinegun also includes any combination of parts from which a machinegun may be assembled, if such parts are in possession or under the control of a person. An AR-15 type assault rifle which fires more than 1 shot by a single function of the trigger is a machinegun under the NFA. Any machinegun is subject to the NFA and the possession of an unregistered machinegun could subject the possessor to criminal prosecution.

Additionally, these rifles could pose a safety hazard in that they may fire automatically without the user being aware that the weapon will fire more than 1 shot with a single pull of the trigger.

In order to avoid violations of the NFA, M16 hammers, triggers, disconnectors, selectors and bolt carriers must not be used in assembly of AR-15 type semiautomatic rifles, unless the M16 parts have been modified to AR-15 Model SP1 configuration. Any AR-15 type rifles which have been assembled with M16 internal components should have those parts removed and replaced with AR-15 Model SP1 type parts which are available commercially. The M16 components also may be modified to AR-15 Model SP1 configuration.

3. FEDERAL AGE RESTRICTIONS

Federal law prohibits Federal firearms licensees from selling or delivering any firearm or ammunition to any individual who the licensee knows or has reasonable cause to believe is less than 18 years of age, and, if the firearm is other than a shotgun or rifle, or ammunition for a shotgun or rifle, to any individual who the licensee knows or has reasonable cause to believe is less than 21 years of age. (18 U.S.C. 922(b)(1), 27 CFR 478.99(b)(1).)

Ammunition interchangeable between rifles and handguns (such as .22 caliber rimfire) may be sold to an individual 18 years of age, but less than 21, if the licensee is satisfied that the ammunition is being acquired for use in a rifle.

Additionally, it generally is unlawful for a person to transfer a handgun to a juvenile (a person less than 18 years of age) and it generally is unlawful for a juvenile to possess a handgun. Exceptions are provided for the transfer of a handgun to and possession by a juvenile for the purposes of employment, ranching, farming, target practice or hunting as provided for in 18 U.S.C. 922(x).

Pursuant to regulations at 27 CFR 478.103, ATF distributes posters to licensed importers, manufacturers, and dealers that caution against the transfer of handguns to juveniles, as well as the possession of handguns by juveniles, in violation of 18 U.S.C. 922(x). The regulations require licensees to display the posters on their premises. Some licensees erroneously interpreted the poster to mean that they may now lawfully transfer handguns to anyone over 17 years of age. Enactment of section 922(x) making it unlawful to sell handguns to juveniles (persons under 18 years of age) and for juveniles to possess handguns did not alter section 922(b)(1) of the GCA that continues to prohibit licensees from transferring handguns to persons under 21 years of age.

4. SALES TO LAW ENFORCEMENT OFFICERS

Section 925(a)(1) of the GCA exempts law enforcement agencies from the transportation, shipment, receipt, or importation controls of the GCA when firearms are to be used for the official business of the agency. An individual law enforcement officer's receipt and possession of firearms for use in carrying out official duties on behalf of an agency is also exempt, unless the officer has been convicted of a misdemeanor crime of domestic violence.

If a law enforcement officer is issued a certification letter on the agency's letterhead, signed by a person in authority within the agency stating the officer will use the firearm in performance of official duties and that a records check reveals that the purchasing officer has not been convicted of a misdemeanor crime of domestic violence, the officer specified in the certification may purchase a firearm from a licensee regardless of the State in which the officer resides, or in which the agency is located. A licensee is not required to prepare a Form 4473 covering this particular sale, as the certification letter is evidence of the transaction. Moreover, a licensee is not required to comply with the Brady law (e.g., conduct a NICS check) where the purchase is
made pursuant to such letter. However, disposition to the officer is to be entered in the licensee’s permanent records and the certification letter kept in his files. The permanent records should show the residence address of the purchasing officer, not the address of the officer’s employing agency.

If a law enforcement officer desiring to purchase a firearm does not have a certification letter, a licensee may still make the sale if the requirements of the Brady law (18 U.S.C. 922(t)), including a NICS background check of the purchaser, are met. A Form 4473 covering such a sale must be prepared, the transaction must be entered in the licensee’s permanent records, and all other applicable requirements of the law and regulations must be met.

ATF considers the following as persons having authority to certify that law enforcement officers purchasing firearms will use the firearms in performance of official duties:

a. In a city or county police department, the director of public safety or the chief or commissioner of police.

b. In a sheriff’s office, the sheriff.

c. In a State police or highway patrol department, the superintendent or the supervisor in charge of the office to which the State officer or employee is assigned.

d. In Federal law enforcement offices, the supervisor in charge of the office to which the Federal officer or employee is assigned.

The Bureau would also recognize someone signing on behalf of a person in authority, provided there is a proper delegation of authority and overall responsibility has not changed in any way. If the purchasing officer is a supervisory officer, the certification must be made by that officer’s supervisor. In other words, the purchasing officer and the certifying officer may not be the same person.

5. SALES TO ALIENS IN THE UNITED STATES

a. Domestic Sales

In order to purchase firearms in the United States from a Federal firearms licensee, an alien must:

(1) Be 18 years of age (21 for handguns);

(2) Provide the licensee with a government-issued photo identification document;

(3) Complete ATF Form 4473, Firearms Transaction Record;

(4) Comply with the Brady law, 18 U.S.C. 922(t);

(5) Be a resident of the State in which the firearm purchase is made for a period of 90 continuous days before the transfer (if purchasing a long gun, the alien must establish 90-day continuous residency in any State) and substantiate residency by documentation (for example, utility bills or a lease agreement);

(6) Not be an illegal or nonimmigrant alien (for exceptions to the nonimmigrant alien prohibition, see 18 U.S.C. 922(y)(2) and (3)) ; and

(7) Not be a felon or within any other category of prohibited persons.

An alien who is legally in the United States will be considered to be a resident of a State for the purpose of complying with the GCA if he or she is residing in that State and has resided in that State continuously for at least 90 days before purchasing a firearm. Note, however, that even a legal resident alien who has lived in the United States for many years will have to wait 90 days before purchasing a firearm if the alien changes his or her State of residence.

b. Export Sales

Removal of a firearm or ammunition from the U.S. by anyone is an exportation. With few exceptions, the firearms licensee must obtain an export license (Form DSP-5) from the State Department’s Directorate of Defense Trade Controls (DDTC) or the Commerce Department’s Bureau of Industry and Security (BIS) prior to exportation. When a licensee exports firearms directly to an alien’s residence outside the United States, the licensee need only record the name and address of the foreign customer in his or her bound book. ATF Form 4473 need not be completed.

DDTC takes the position that when a dealer knows or believes that a foreign customer intends to take a rifle or handgun out of the U.S., the dealer is legally obligated to notify DDTC that the firearm was sold for the purpose of exportation.

Exportation Guidelines

Exportation of firearms other than sporting shotguns is regulated by the Department of State, DDTC.

Any person who intends to export, temporarily export or to import temporarily firearms, ammunition or components as defined under the United States Munitions List (22 CFR 121) must obtain the approval of the DDTC prior to export or temporary import, unless the export or temporary import qualifies for an exemption under the provisions of the International Traffic in Arms Regulations (22 CFR 120-130).

For further information about the exportation or temporary importation of firearms and ammunition, contact:

DIRECTORATE OF DEFENSE TRADE CONTROLS
U.S. DEPARTMENT OF STATE
PM/DDTC, SA-1, ROOM 1200
WASHINGTON, DC 20037
TELEPHONE: 202-663-1282
WEBSITE: WWW.PMDTC.ORG

Exportation Guidelines (Shotguns and Related Parts, Components, Shotgun Shells, and Certain Muzzle Loading Firearms)

The Department of Commerce regulates the exportation of shotguns with a barrel length of 18 inches and over, as well as related parts, components, shotgun shells, and certain muzzle loading (black powder) firearms. The Department of Commerce requires a specific license to export or re-export these items to most destinations. For further information, contact:

OUTREACH AND EDUCATION SERVICES DIVISION
OFFICE OF EXPORTER SERVICES
BUREAU OF INDUSTRY AND SECURITY
DEPARTMENT OF COMMERCE
1401 CONSTITUTION AVENUE, N.W., ROOM 1099-C
WASHINGTON, DC 20230
TELEPHONE: 202-482-4811
WEBSITE: WWW.BIS.DOC.GOV

c. Sales to Diplomats

Diplomats, as individuals, are not exempt from Federal, State or local firearms laws. Sales to individuals, including diplomats and embassy personnel, must comply with all requirements of the GCA and the firearms regulations (27 CFR Part 478), including the general prohibition on nonimmigrant aliens unless the diplomat is purchasing the firearm/ammunition for official purposes.
d. Sales to Embassies or Consulates

Special provisions have been made to allow for the sale of small quantities of firearms to foreign missions for the purpose of the physical security of embassy grounds. The arms become the property of the government whose embassy made the purchase, not the private property of an individual.

The dealer should obtain documentation which will show that the sale was a bona fide sale to a foreign mission and not a sale to an individual diplomat. Documentation should contain one of the following:

1. A purchase order or invoice from the foreign mission;
2. Payment out of government funds rather than from private funds; or
3. A written statement by the principal officer of the embassy or consulate that the weapons are being purchased by, and will be the property of, the mission.

Once the dealer has documented that a sale is to a foreign mission, he or she may complete the transaction by shipping or delivering the firearms directly to the foreign mission. Form 4473 need not be completed because ATF considers the sale to be an exportation. ATF views the transaction as an exportation because embassy grounds are regarded as foreign territory.

However, DDTC does not view the sale of "reasonable quantities" of firearms to a foreign embassy to be an exportation. Consequently, the dealer need not obtain an export license from DDTC to deliver firearms to the embassy. DDTC should be contacted for further information.

6. CANADIAN FIREARMS INFORMATION

a. General

Implementation of the Firearms Act on December 1, 1998, brought about extensive changes to Canadian firearm regulations. Most changes affecting visitors bringing firearms into Canada came into effect on January 1, 2001.

b. Individuals Bringing Firearms Into Canada

An individual must be at least 18 years of age to bring a firearm into Canada. Prohibited firearms (see discussion below on prohibited firearms) may not be brought into Canada or transported through Canada.

Restricted firearms (see discussion below on restricted firearms) may only be imported with prior authorization from the Chief Firearms Officer of the province or territory to which you are traveling.

Anyone entering Canada must declare all firearms to Canadian Customs.

For more information on bringing firearms into Canada, contact the Canada Firearms Centre at 1-800-731-4000.

1. Prohibited firearms

The following firearms are classified as prohibited firearms and cannot be brought into Canada:

- short-barreled handguns (handguns with a barrel length equal to or less than 105 mm)
- .25 caliber handguns
- .32 caliber handguns
- .38 caliber handguns
- .357 caliber handgun
- .380 caliber handgun
- .40 caliber handgun
- .44 caliber handgun
- .45 caliber handgun
- .454 caliber handgun
- .457 caliber handgun
- .460 caliber handgun
- .465 caliber handgun
- .475 caliber handgun
- .476 caliber handgun
- .50 caliber handgun
- .50 caliber long pistol
- .50 caliber magnum
- .500 caliber magnum
- .500 caliber magnum revolver
- .500 caliber magnum revolver with a barrel length equal to or less than 105 mm
- .500 caliber magnum revolver with a barrel length greater than 105 mm and less than 470 mm
- .500 caliber magnum revolver with a barrel length greater than 470 mm
- .500 caliber magnum revolver with a barrel length greater than 660 mm
- .500 caliber magnum revolver with a barrel length equal to or less than 105 mm
- .500 caliber magnum revolver with a barrel length greater than 105 mm and less than 470 mm
- .500 caliber magnum revolver with a barrel length greater than 470 mm and less than 660 mm
- .500 caliber magnum revolver with a barrel length greater than 660 mm and less than 850 mm
- .500 caliber magnum revolver with a barrel length greater than 850 mm and less than 1050 mm
- .500 caliber magnum revolver with a barrel length greater than 1050 mm
- .500 caliber magnum revolver with a barrel length greater than 1250 mm
- .500 caliber magnum revolver with a barrel length greater than 1575 mm
- .500 caliber magnum revolver with a barrel length greater than 1875 mm
- .500 caliber magnum revolver with a barrel length greater than 2175 mm
- .500 caliber magnum revolver with a barrel length greater than 2475 mm
- .500 caliber magnum revolver with a barrel length greater than 2775 mm
- .500 caliber magnum revolver with a barrel length greater than 3075 mm

No handgun listed above is prohibited if it is prescribed by regulation for use in competitions governed by the rules of the International Shooting Union.

- sawed-off rifles or sawed-off shotguns less than 660 mm in overall length
- sawed-off rifles or sawed-off shotguns which have a barrel length of less than 457 mm and are equal to or more than 660 mm in overall length
- all automatic firearms
- automatic firearms that have been converted to semiautomatic or single shot
- all firearms prescribed by regulation (military and paramilitary firearms and firearms deemed to have no legitimate sporting or recreational use).

Cartridge magazines are also regulated. Generally, magazines used in semiautomatic, centerfire rifles and shotguns, with a capacity to contain more than 5 cartridges are prohibited. Magazines for semi-automatic handguns that can contain more than 10 cartridges are also prohibited.

When a prohibited firearm is declared at Canadian Customs, a customs officer may allow the firearm to be exported back to its country of origin. Firearms that are not immediately exported are forfeited.

For information on firearms prohibited by regulations or on firearms prescribed as International Shooting Union handguns, contact the Canada Firearms Centre at 1-800-731-4000.

2. Restricted firearms

The following firearms are classified as restricted firearms requiring an Authorization to Transport from a Chief Firearms Officer to bring into Canada:

- all handguns which are not prohibited firearms
- semiautomatic centerfire rifles and shotguns that have a barrel length less than 470 mm and are not prohibited
- rifles and shotguns that can fire after being reduced to an overall length of less than 660 mm, by any temporary means such as folding or telescoping
- all firearms prescribed by regulation as restricted (for information on these regulations, contact the Canada Firearms Centre).

Anyone bringing a restricted firearm into Canada must have an Authorization to Transport for the restricted firearm. This authorization will permit transport of the restricted firearm between specified places within Canada. This authorization must be obtained in advance from the Chief Firearms Officer of the Canadian province or territory to be visited.

An applicant for an Authorization to Transport must have a valid purpose for bringing restricted firearms to Canada, such as for use in target practice, or a target shooting competition at an approved shooting club or range. Restricted firearms cannot be used for hunting.

For more information on Authorizations to Transport, call the Chief Firearms Officer of the Canadian province or territory that you will be visiting. You can obtain the address, telephone and fax numbers from the Canada Firearms Centre.
3. January 1, 2001: Confirmed Firearms Declarations

All persons who possess or use firearms in Canada must have a license authorizing possession of firearms as of January 1, 2001. Visitors to Canada will require authorization to possess firearms in the form of a confirmed Firearms Declaration. When firearms are declared on entry into Canada, the declaration will be confirmed by a customs officer.

Firearms Declarations must normally be made in writing. In certain cases, a customs officer can accept an oral declaration. In some cases, it will be possible to complete and mail in a pre-declaration form, which can be confirmed when you arrive at the border. Firearms Declaration forms are available through outfitters, hunting and shooting clubs, Canadian tourism offices, and the Canada Firearms Centre.

The declaration requires basic information about the visiting firearm user, the destination in Canada, and the reason for bringing a firearm into Canada. Background checks, including a criminal history search, may be conducted. Descriptive information about each firearm being brought into the country will also be required (i.e., make, model, serial number, caliber/gauge).

4. Confirmation

On arrival at the border, a customs officer may review the Firearms Declaration and examine the firearms. If everything checks out, the customs officer will confirm the Firearms Declaration and, where restricted firearms are being imported, the Authorization to Transport. The visitor will receive a confirmation number either in writing or orally.

A confirmed Firearms Declaration will serve two purposes:

- it will act as a temporary license authorizing possession of the firearm(s) listed thereon; and
- it will serve as a temporary registration certificate for the firearms imported.

A Firearms Declaration will expire after 60 days. However, a Firearms Declaration for restricted firearms will expire on the earlier of 60 days or the expiration date of the Authorization to Transport. A new Firearms Declaration will be required for every reentry into Canada. A Firearms Declaration may be extended from within Canada by contacting the Chief Firearms Officer of the province or territory visited.

5. Refusal to confirm

A customs officer can refuse to confirm a Firearms Declaration if:

- the declaration form is not completed truthfully, or required information is not provided;
- the requirements set out in the Firearms Act and regulations are not met; or
- he or she concludes that it is desirable, in the interests of the visitor’s safety and/or the safety of others, that the firearm not be allowed to enter Canada.

If the customs officer refuses to confirm the Firearms Declaration, then, depending on the situation, the officer may:

- require that the firearm be exported from Canada; or
- detain the firearm and give the visitor a reasonable amount of time to comply with requirements.

6. Fee

The fee for a 60-day Firearms Declaration is $50 in Canadian funds. This amount will be payable only once every 12 months. If, within the 12-month period, the Firearms Declaration is extended, or a new declaration is issued on reentry to Canada, the fee will be waived. The $50 fee covers all firearms imported by the same individual.

There is no fee for the Authorization to Transport restricted firearms.

c. Borrowing Firearms while in Canada

On April 1, 1999, a temporary license authorizing non-residents to borrow firearms was introduced. The Non-Resident’s Sixty-Day Possession License allows a holder to borrow nonrestricted firearms (ordinary rifles and shotguns) in Canada. Persons who are 18 years of age or over may get a license to borrow firearms for the following purposes:

- hunting under the supervision of an outfitter or other person authorized to provide organized hunting services in Canada;
- hunting with a Canadian resident who has the proper firearms license and hunting license;
- competing in a shooting competition;
- target practice at an approved shooting club or range;
- participating in a historical reenactment or display;
- engaging in a business or scientific activity being carried on in a remote area where firearms are necessary for the control of predators;
- participating in a parade, pageant or other similar event; or
- using firearms for movie, television, video or theatrical productions or publishing activities.

Visitors are advised to apply for this temporary license well in advance of arrival at the Canadian border. License application forms are available from the Canada Firearms Centre.

Fee: The fee for a Non-Resident’s Sixty-Day Possession License for borrowed firearms will be $30 in Canadian funds. This license may be renewed once in a 12-month period at no extra charge. Subsequent renewals cost $30.

d. Storing, Transporting and Handling Firearms in Canada

Canadian federal law requires that firearms be transported unloaded. Restricted firearms must also be rendered inoperable with a secure locking device and locked inside an opaque container that cannot be readily broken open or into or accidentally opened during transportation. When left in an unattended vehicle, the firearms must be in a locked trunk or a similar compartment. Where the vehicle does not have a trunk or similar compartment, the firearms must be locked inside the vehicle and out of sight. Provincial and municipal regulations may require a nonrestricted firearm to be transported in a case in certain areas and at certain times.

When stored, firearms must be unloaded and rendered incapable of being fired, by using a secure locking device, by removing the bolt or bolt carrier or by storing the firearm in a sturdy, secure, locked container or room. Restricted firearms must be stored in a sturdy, secure, locked container or room and rendered inoperable with a secure locking device. Ammunition must be stored separately, unless it is in a se-
curely locked container (ammunition and firearms may be stored in the same secure, locked container).

More information on requirements for the safe storage, transportation and handling of firearms in Canada is available from the Canada Firearms Centre.

e. Canada Firearms Centre

The Canada Firearms Centre Administration is an agency of the Government of Canada responsible for the implementation of the Firearms Act. For more information or to order a copy of the Firearms Act and regulations, or other Canada Firearms Centre publications, contact the CFC at:

CANADA FIREARMS CENTRE
OTTAWA, ONTARIO, CANADA
K1A 1M6

TELEPHONE: 1-800-731-4000
WEBSITE: http://www.cfc.gc.ca
E-MAIL: cfc-cafc@cfc-cafc.gc.ca

This article is intended to provide general information only. For legal references, refer to the Firearms Act and its regulations. Provincial, territorial and municipal laws, regulations, and policies may also apply.

7. OPERATIONS BY LICENSED COLLECTORS

a. Licensing

A collector of curios or relics may obtain a collector's license under the GCA. The privileges conferred by this license extend only to curio or relic transactions, as discussed in detail below. In transactions involving firearms not classified as curios or relics, the licensed holder is the same status as a nonlicensee. A person need not be federally licensed to collect curios or relics. However, the individual must be licensed in order to lawfully receive curios or relics from outside his or her State of residence. Federal law, regulations, and general information pertaining to licensed collectors and curios or relics can be found in this publication.

Recordkeeping requirements for licensed collectors are discussed in detail in 27 CFR Part 478.

b. What are Curios or Relics?

As set out in the regulations (27 CFR 478.11), curios or relics include firearms which have special value to collectors because they possess some qualities not ordinarily associated with firearms intended for sporting use or as offensive or defensive weapons.

Please note that ammunition is no longer classified as curios or relics since the Congress in 1986 removed the interstate controls over ammunition under the GCA.

To be recognized as curios or relics, firearms must:

1. Have been manufactured at least 50 years prior to the current date, but does not include replicas thereof; or

2. Be certified by the curator of a municipal, State or Federal museum which exhibits firearms to be curios or relics of museum interest; or

3. Derive a substantial part of their monetary value from the fact that they are novel, rare, or bizarre, or from the fact of their association with some historical figure, period, or event.

ATF has recognized only complete, assembled firearms as curios or relics. ATF's classification of surplus military firearms as curios or relics has extended only to those firearms in their original military configuration.

Frames or receivers of curios or relics are not generally recognized as curios or relics by ATF since they are not of special interest or value as collectors' items. Specifically, they do not meet the definition of curio or relic in 27 CFR 478.11 as firearms of special interest to collectors by reason of a quality other than is ordinarily associated with sporting firearms or offensive or defensive weapons.

Collectors wishing to obtain a determination whether a particular firearm qualifies for classification as a curio or relic in accordance with 27 CFR 478.26 should submit a written request for a ruling. The letter should include:

1. A complete physical description of the item;

2. Reasons the collector believes the item merits the classification;

3. Data concerning the history of the item, including production figures, if available, and market value.

In some cases, actual submission of the firearm may be required prior to a determination being made. Requests should be sent to the Bureau of ATF, Firearms Technology Branch, 244 Needy Road, Martinsburg, West Virginia 24501.

ATF's classifications of curios or relics are published in ATF P 5300.11, Firearms Curios or Relics List. Curios or relics are listed in the publication under the following headings:

Section I. Ammunition Classified as Curios or Relics: As noted above, Congress ended the recognition of ammunition curios or relics. Thus, no ammunition has received curio or relic classification since August 1986.

Section II. Firearms Classified as Curios or Relics Under the GCA:

Licensed collectors may acquire, hold or dispose of these firearms as curios or relics. However, they are still firearms as defined in 18 U.S.C. 921(a)(3) and are, therefore, subject to all GCA controls. Generally, this category includes commemorative handguns, semiautomatic pistols, revolvers and rifles.

Section III. NFA Firearms Removed From the NFA as Collectors' Items and Classified as Curios or Relics Under the GCA: Weapons in this section are excluded entirely from the provisions of the NFA. Thus, approval from ATF to transfer these weapons is not required. They need not be registered in the National Firearms Registration and Transfer Record and they are not subject to the transfer tax. These weapons are still firearms under the GCA and remain subject to regulation under 27 CFR Part 478.

Section IIIA. Weapons Removed from the NFA as Collectors' Items Which Are Antiques not Subject to the Provisions of the GCA: Weapons in this section are not subject to the provisions of either the NFA or the GCA.

Section IV. NFA Firearms Classified as Curios or Relics Under the GCA: These weapons (e.g., machine-guns) are firearms within the scope of the NFA and are subject to all the Act's provisions. Accordingly, these weapons cannot be lawfully transferred or received unless they are registered with ATF in the National Firearms Registration and Transfer Record.

c. Licensed Collector's Activities

Subject to other applicable provisions of the law and regulations, a collector's license entitles its holder to transport, ship, receive and acquire curios or relics in interstate or foreign commerce and to dispose of curios or relics in interstate or
foreign commerce to any other Federal firearms licensee. Dispositions of curios or relics by licensed collectors are not subject to the requirements of the Brady law; however, dispositions should not be made to any person whom the collector knows or has reasonable cause to believe is a felon or is within any other category of persons to whom sales are prohibited by 18 U.S.C. 922(d).

Those collectors having questions concerning the importability of specific curio or relic firearms should contact the Bureau of ATF, Firearms and Explosives Imports Branch.

The principal advantage of a collector’s license is that the collector can lawfully acquire curios or relics from both licensees and nonlicensees without regard to his/her State of residence. A licensed collector may acquire and dispose of curios or relics at any location, the only limitation being that a disposition made to a nonlicensee is to be made to a resident of the same State in which the collector is licensed.

d. Restrictions on Licensed Collector’s Activities

As stated earlier, the collector’s license covers only transactions in curios or relics. A licensed collector has the same status as a nonlicensee with respect to transactions in firearms that are not curios or relics.

While a licensed collector may acquire and dispose of curios or relics from a personal collection, the collector is not authorized to engage in a firearms dealing business in curios or relics pursuant to a collector’s license. As stated in 27 CFR 478.41(d), “...if the acquisitions and dispositions of curios or relics by a collector bring the collector within the definition of a manufacturer, importer or dealer under this part, he shall qualify as such.” For example, if a collector acquires curios or relics for the purpose of sale rather than to enhance a collection, the collector would have to be licensed as a dealer in firearms under the GCA. Additionally, if the collector is dealing in NFA firearms, the collector would be liable for the special (occupational) tax prescribed by the NFA. The sole intent and purpose of the collector’s license is to enable a firearms collector to obtain a curio or relic from outside his or her State of residence.

8. ANTIQUE FIREARMS

Under section 921(a)(16) of the GCA, the term antique firearm means:

(A) any firearm (including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system) manufactured in or before 1898; or

(B) any replica of any firearm described in subparagraph (A) if such replica—

(i) is not designed or redesigned for using rimfire or conventional centerfire ammunition, or

(ii) uses rimfire or conventional centerfire fixed ammunition which is no longer manufactured in the United States and which is not readily available in the ordinary channels of commercial trade; or

(C) any muzzle loading rifle, muzzle loading shotgun, or muzzle loading pistol, which is designed to use black powder, or a black powder substitute, and which cannot use fixed ammunition.

For purposes of subparagraph (C), a muzzle loading rifle, shotgun, or pistol is not an “antique firearm” for purposes of the GCA if it incorporates a firearm frame or receiver, if it is a firearm which is converted into a muzzle loading weapon, or if it can be readily converted to fire fixed ammunition by replacing the barrel, bolt, breechblock, or any combination of such parts.

Under section 5845(g) of the NFA, antique firearm means:

“...Any firearm not designed or redesigned for using rimfire or conventional centerfire fire ignition with fixed ammunition and manufactured in or before 1898 (including any matchlock, flintlock, percussion cap, or similar type of ignition system) or firearms covered thereof, whether actually manufactured before or after 1898) and also any firearm using fixed ammunition manufactured in or before 1898, for which ammunition is no longer manufactured in the United States and is not readily available in the ordinary channels of commercial trade.”

To illustrate the distinction between the two definitions of antique firearm under the GCA and NFA, a rifle manufactured in or before 1898 would be an antique firearm under the provisions of the GCA, even though it uses conventional ammunition. However, if such rifle has a barrel of less than 16 inches in length AND uses conventional fixed ammunition which is available in the ordinary channels of commercial trade, it would not be an antique firearm under the NFA.

An antique firearm as defined in both the GCA and NFA is exempt from all of the provisions and restrictions contained in both laws. Consequently, such an antique firearm may be bought, sold, transported, shipped, etc., without regard to the requirements of these laws.

Under the Arms Export Control Act certain “antique firearms” are not subject to the import controls under that Act. These “antique firearms” are defined as muzzle loading (black powder) firearms (including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system) or firearms covered by Category I(a) established to have been manufactured in or before 1898.” No all-inclusive list of antique firearms is published by ATF.

Under the Export Administration Act, the Bureau of Industry and Security (BIS) maintains export control requirements on a wide range of dual-use commodities, software, and technology. BIS requires an export license for muzzle loading (black powder) firearms with a caliber less than 20 mm that were manufactured later than 1937 and that are not reproductions of firearms manufactured earlier than 1890. This BIS control does not apply to weapons used for hunting or sporting purposes that were not specially designed for military use and are not of the fully automatic type. This exemption does not apply if the weapon meets certain control requirements. Contact BIS at 202-482-4811 for additional information.

9. IMPORTATION BY NONLICENSEES

a. Nonlicensed U.S. Residents

A permit must be obtained to import or bring into the United States any firearm or ammunition. The firearm or ammunition must be generally recognized as particularly suitable for, or readily adaptable to, sporting purposes.

Surplus military firearms are generally excluded from importation into the United States except for certain curio or relic surplus military firearms imported by licensed importers only.

A federally licensed firearms dealer located in the nonlicensee’s State of residence may act as an agent to import the nonlicensee’s personal firearm, provided that the firearm is lawfully importable. The form to be used by the licensee is ATF Form 6, Part I, Application and Permit For Importation of Fire-
A nonlicensee may obtain a permit to import sporting ammunition for personal use (excluding armor piercing handgun ammunition, or tracer or incendiary ammunition) or firearm parts (other than frames or receivers) without engaging the services of a Federal firearms licensee. Silencer parts and certain machinegun parts are subject to the NFA and may not be imported. If the nonlicensee chooses to have a licensee handle the importation, the licensee should complete and send to ATF an ATF Form 6, Part I, in accordance with the instructions on the form. The nonlicensee's name, address, and telephone number should appear in Item 9, "Specific purpose of importation."

No permit or authorization from ATF is required to bring into the United States a firearm or ammunition that was previously taken out of the U.S. by the person bringing it in. U.S. Customs and Border Protection (CBP) is authorized to release a firearm or ammunition without a permit from ATF upon a proper showing of proof that the firearm or ammunition was taken out of the country by the person bringing it in. This proof is best established by having registered the item or items on CBP Form 4457, Certificate of Registration, at the point and time of departure.

For further information, see ATF Rul. 81-3 and ATF Rul. 85-10, set out within the Rulings, Procedures, and Industry Circulars portion of this publication.

b. Non-resident U.S. Citizens Returning to the United States and Non-resident Aliens Immigrating to the United States

A non-resident U.S. citizen returning to the United States, or a non-resident alien lawfully immigrating to the United States, may apply for a permit from ATF to import for personal use, and not for resale, firearms and ammunition without having to utilize the services of a federally licensed firearms dealer. ATF Form 6, Part I application should include a statement, on the application form or on an attached sheet, that:

(1) the applicant is a non-resident U.S. citizen who is returning to the United States from a residence outside of the United States, and

(2) the firearms and ammunition are being imported for personal use and not for resale.

No permit will be issued to import firearms or ammunition which are not generally recognized as particularly suitable for, or readily adaptable to, sporting purposes, surplus military firearms, or National Firearms Act (NFA) firearms (e.g., machineguns, silencers, destructive devices, short-barreled rifles, short-barreled shotguns, etc.).

The firearms must accompany non-resident U.S. citizens, since once a person is in the United States and has acquired residence in a State, he or she may import a firearm only by arranging for the importation through a federally-licensed firearms dealer. Non-resident aliens must bring in the firearms within 90 days of their arrival, which is when they obtain State residency.

Section 922(a)(3) of Title 18, U.S.C. makes it unlawful, with certain exceptions, for a person to bring into his State of residence a firearm which he or she acquired outside that State. An unlicensed resident of a State must, therefore, arrange for the importation of the firearm through a federally licensed firearms dealer.

(1) Import Permit Requirements

Section 925(a)(4) of the GCA provides that:

When established to the satisfaction of the Attorney General to be consistent with the provisions of this chapter [the GCA] and other applicable Federal and State laws and published ordinances, the Attorney General may authorize the transportation, shipment, receipt or importation into the United States to the place of residence of any member of the United States Armed Forces who is on active duty outside the United States (or who has been on active duty outside the United States within the 60 day period immediately preceding the transportation, shipment, receipt, or importation), of any firearm or ammunition which is:

(A) determined by the Attorney General to be generally recognized as particularly suitable for sporting purposes, or determined by the Department of Defense to be a type of firearm normally classified as a war souvenir, and

(B) intended for the personal use of such member.

Applications to import such firearms are filed on ATF Form 6, Part II and should include a detailed description of each firearm to be imported. Incomplete information will cause return of your application. Applications should be completed in triplicate and mailed to the Bureau of ATF, Firearms and Explosives Imports Branch.

A member of the Armed Forces who does not meet the above criteria must obtain the services of a Federal firearms licensee located in his or her State of residence to import a firearm on behalf of the member. The licensee would submit an application on ATF Form 6, Part I.

If your application is approved, the original will be returned to you. This will be your authorization to import the firearm(s) described on the form. The permit is valid for 1 year from the date of approval. If disapproved, your application will be stamped disapproved and returned to you with the reason for disapproval stated.

A permit must be obtained for all firearms to be imported, regardless of the date purchased. However, this does not apply to a firearm previously taken out of the United States by the person bringing it in (if they can prove they previously took the firearm out of the United States), nor to a firearm shipped by a licensee in the United States to a serviceperson on active duty outside the United States or to an authorized rod and gun club abroad specifically for the serviceperson importing the firearm.

Authorization will not be given to import a machinegun, or any other firearm as defined in the NFA, regardless of the degree of serviceability.

Authorization will not be given to import any surplus military firearm (unless it has been listed as a curio or relic in accordance with 18 U.S.C. 921(a)(13) and 925(e)) and is being imported by a licensed importer.

To determine whether or not a handgun may be authorized for importation as particularly suitable for sporting purposes, the "factoring" criteria for
pistols and revolvers (ATF Form 4590) is used.

(2) Importation of War Souvenirs or War Trophy Firearms

The regulations (27 CFR 478.114(c)) provide that firearms determined by the Department of Defense to be war souvenirs may be imported into the United States by members of the U.S. Armed Forces under such provisions and procedures as the Department of Defense may issue.

For information regarding the classification of war souvenirs or trophies by the Department of Defense, see DOD regulations AR 608-4, OPNAV/INST 3460.7A, AFR 125-13, and MCO 5800.6A, describing articles and material that are not considered war trophies and may not be kept or imported into the United States by members of the U.S. Armed Forces.

The aforementioned Department of Defense regulations list machineguns and other firearms coming within the purview of the NFA, regardless of the degree of serviceability, among the items which are prohibited from being retained and introduced into the United States by Armed Forces personnel.

CBP is authorized to release a firearm without an import permit from ATF where a properly executed DD Form 603, Registration of War Trophy Firearms, is presented certifying that the firearm to be brought in has been classified as a war souvenir under DOD regulations. To be valid, the DOD Form 603 must have been issued during a period authorized by DOD.

(3) ATF Ruling 74-13

ATF was informed by State and local authorities that handguns were being transported, shipped, received, or imported into the United States by members of the U.S. Armed Forces to their State of residence without such members having obtained the required permits or other authorizations required by the State for lawful possession or ownership of handguns in that State.

Ruling 74-13 holds that a member of the U.S. Armed Forces who is a resident of any State or territory which requires that a permit or other authorization be issued prior to possessing or owning a handgun shall submit evidence of compliance with State law before an application to import a handgun may be approved.

ATF Rul. 74-13 is set out within the Rulings, Procedures, and Industry Cir-
culars portion of this publication.

10. SPECIAL TAXPAYERS AND NFA FIREARMS

a. General

Anyone wishing to manufacture, import, or deal in firearms as defined in the NFA must:

1. Be properly licensed as a Federal firearms licensee;
2. Have an employer identification number (even if you have no employees); and
3. Pay the Special (Occupational) Tax required of those manufacturing, importing, or dealing in NFA firearms.

Those weapons defined as NFA firearms can be found in sections 5845(a)-(f) of the NFA.

After payment of the tax, you will receive a Special (Occupational) Tax Stamp as evidence you have paid the required occupational tax as a NFA manufacturer, importer, or dealer.

b. What You Need To Proceed

If you do not already have an employer identification number (EIN), you must obtain and complete a Form SS-4 application to obtain such a number. This number must appear on all registration documents when you apply to receive or transfer any NFA firearm. You may obtain the Form SS4 from any Social Security Administration Office, any IRS Service Center, or IRS District Office.

Federal firearms licensees who wish to engage in the business of importing, manufacturing, or dealing in NFA firearms are required to pay Special (Occupational) Tax for each business location. The tax year begins July 1st and ends June 30th of the following year. If you begin business any time during the tax year, you are responsible for the full amount of tax for the entire year, i.e., the taxes are not prorated.

If you want to be a Class 3 dealer, you could have a Type 01, Type 02, Type 07, or Type 08 Federal firearms license. The tax you would pay (Class 3) only allows you to deal in NFA firearms. Being a Class 3 dealer will not, however, have any effect on your business activity involving non-NFA firearms.

Submit ATF Form 5630.7, Annual Special Tax Registration and Return, along with your check or money order [not cash] to:

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND EXPLOSIVES
P.O. BOX 371970
PITTSBURGH, PENNSYLVANIA 15250-7970

Upon receipt of your properly completed ATF Form 5630.7, together with your remittance, a Special Tax Stamp will be mailed directly to you.

c. Permanent Changes

If you change your address, location, or trade name, you must file a new ATF Form 5630.7 advising us of that change. You may accomplish this easily by attaching ATF F 5630.7 to your Special Tax Stamp and mailing them to the Pittsburgh address shown above.

To change your trade name, you must also obtain an amended Federal firearms license. This is done by sending a copy of your license (with the changes noted thereon) to the Federal Firearms Licensing Center.

To change your location, you must file an Application for an Amended Federal Firearms License, ATF Form 5300.38, with the Chief, Federal Firearms Licensing Center, not less than 30 days prior to the move. You must obtain the amended license before commencing business at the new location.

We suggest that you contact the NFA Branch if there is a change in who controls the business or in business structure.

d. Applications to Make or Transfer NFA Firearms

All applications to transfer or make NFA firearms must be submitted in duplicate, with both copies bearing original signatures. Extra care in ensuring that the applications are completed accurately will expedite the flow of your paperwork. Particular attention should be given to the serial number of the weapon to ensure that it does not have suffixes or prefixes.
With regard to transfers going to individuals, please ensure that the law enforcement certification is signed by someone acceptable to sign, and that the certifying officer does, in fact, have jurisdiction where the transferee resides. See Question M18 on acceptable certifying officials.

All ATF Form 4 applications must be accompanied by 2 properly completed sets of fingerprint cards (FBI Form FD-258). In some cases, particularly when fingerprints have not been properly taken, fingerprint classification can, and does, take several months. For your Form 4 applications to be expeditiously acted upon, it is imperative that the fingerprint cards you submit be complete.

All applications for taxpaid making or transfer (ATF Forms 1 and ATF Forms 4) should be forwarded, together with proper remittance, to the following address:

BUREAU OF ATF
P.O. BOX 73201
CHICAGO, ILLINOIS 60673

All other applications and correspondence should be forwarded to the National Firearms Act Branch at the address appearing at the end of this item.

e. Machineguns

Machineguns produced, imported, or registered after May 19, 1986, the effective date of 18 U.S.C. 922(o), generally are unlawful except for use by a government agency or for exportation. We will allow Class 3 dealers to receive necessary "sales samples" of these firearms if they obtain a letter from a local law enforcement agency, on the agency's letterhead, indicating a bona fide need to see the weapon.

If we, through an error in processing, fail to note on your transfer document(s) that certain weapons are restricted, such error will not exempt you from complying with the restrictions of 18 U.S.C. 922(o).

f. Forms

Forms you may need to conduct your business (but not bound books which are privately sold) are available from:

ATF DISTRIBUTION CENTER
PO BOX 5950
SPRINGFIELD, VIRGINIA 22150-5950

(1) NFA Activities Only Machineguns. If you, as a Special (Occupational) Taxpayer, decide not to renew your payment of the special tax, all machineguns which you possess that are restricted under 18 U.S.C. 922(o) must be transferred to a Special (Occupational) Taxpayer having a legitimate need for the weapon(s) or be exported. Such transfer must occur before you allow your Federal firearms license and special tax status to expire. Otherwise, these machineguns must be abandoned to ATF or be subject to seizure and forfeiture. Additional information relating to possession of registered machineguns, other NFA firearms, and record keeping requirements following discontinuance of business is provided below.

g. Going Out Of Business

Pre-86 Machineguns. When a Special (Occupational) Taxpayer goes out of business as a dealer in NFA firearms, if the business is a sole proprietor, the proprietor may continue to possess machineguns lawfully imported or manufactured prior to May 19, 1986 (the effective date of 18 U.S.C. 922(o)) and which are registered to the sole proprietor. The proprietor should record the disposition of the firearms by the business to the individual proprietor in the acquisition and disposition book. If all firearms business is being discontinued and there is no successor, all records required by the GCA must be delivered within 30 days to the Out-of-Business Records Center (see Questions C5-C7, later in this publication). As these firearms are "grandfathered" weapons not subject to the restrictions of 18 U.S.C. 922(o), they may be transferred to any person who is not otherwise prohibited by law from possessing them in accordance with the NFA.

When a Special (Occupational) Taxpayer goes out of business as a dealer in NFA firearms and the business is a corporation, partnership, or other type of artificial business entity, the business may continue to possess pre-86 machineguns registered to the business only if the corporation or partnership continues to exist under State law and only if the title to the machineguns remains in the business after the Special (Occupational) tax stamp expires. If the corporation or partnership is dissolved or otherwise ceases to exist under State law, then the machineguns will have been transferred to whomever possess them after dissolution. If all firearms business is being discontinued and there is no successor, all records required by the GCA must be delivered within 30 days to the Out-of-Business Records Center (see Questions C5-C7, later in this publication). Subsequent transfers of the registered weapons are subject to all the provisions of the NFA and GCA.

Post-86 Machineguns. When a Special (Occupational) Taxpayer goes out of business as a dealer in NFA firearms, machineguns lawfully imported or manufactured on or after May 19, 1986, may not be retained by the business. Such machineguns are subject to the restrictions of 18 U.S.C. 922(o) and must be transferred to a law enforcement agency for official use or to another qualified NFA dealer as dealer sales samples in accordance with 27 C.F.R. 479.105(d). Post-86 machineguns that are not transferred prior to expiration of the special tax stamp are subject to seizure and forfeiture.

NFA Firearms Other Than Machineguns. When a Special (Occupational) Taxpayer goes out of business as a dealer in NFA firearms and the business is a sole proprietor, the proprietor may continue to possess firearms other than machineguns registered to the business only if the corporation or part
ness, the licensee will underline the final entry in each bound book, note the date of transfer, and deliver all records and forms kept by the licensee to the successor (who must apply for and receive his own license before lawfully engaging in business) or deliver the records and forms to the ATF Out-of-Business Records Center. If there is no business successor, within 30 days of business discontinuance the licensee must ship the required records and forms to the ATF Out-of-Business Records Center, 244 Needy Road, Martinsburg, WV 25401.

h. If You Have Questions or Problems

In the event you have any inquiries relating to your NFA business activity, please contact: Bureau of Alcohol, Tobacco, Firearms and Explosives, National Firearms Act Branch.

11. MOVING NFA FIREARMS INTERSTATE

A person who desires to transport a machinegun, short-barreled rifle, short-barreled shotgun, or destructive device interstate must first apply to ATF for permission to do so. ATF Form 5320.20, Application to Transport Interstate or to Temporarily Export Certain National Firearms Act (NFA) Firearms, can be used for this purpose. Only after the person receives ATF approval can the firearm be taken into another State, even for a short period of time. This requirement does not apply to a licensee qualified under the National Firearms Act to engage in business with respect to machineguns or other NFA firearms.

Alternatively, the lawful owner of the firearm may write a letter, in duplicate, giving:

a. A complete description and identification of the device or weapon to be transported;
b. A statement whether such transportation involves a transfer of title;
c. The need for such transportation;
d. The approximate date such transportation is to take place;
e. The present location of such device or weapon, the place to which it is to be transported, and the transportation to be used (including, if by common carrier, the name and address of the carrier); and
f. Evidence that the transportation or possession of such device or weapon is not inconsistent with the laws at the place of destination.

An application will not be approved if possession of the firearm at the place of destination would place the possessor in violation of State or local law.

If you have any questions regarding this subject, please contact: Bureau of Alcohol, Tobacco, Firearms and Explosives, National Firearms Act Branch.

12. LISTS OF LICENSEES/PERMITTEES

Current lists of Federal firearms licensees and Federal explosives licensees and permittees are available. Prices are quoted on request.

For a copy of the order form, contact: the Bureau of Alcohol, Tobacco, Firearms and Explosives, Disclosure Branch.

We must advise, however, that Federal law generally prohibits the disclosure (either affirmatively or negatively) of information concerning the registration of NFA firearms. Therefore, please do not ask us for the names of persons engaged in business with respect to machineguns or other NFA firearms.

13. IDENTIFYING FIREARMS (MARKINGS)

To ensure that firearms are properly identified, ATF wishes to remind licensees that it is their responsibility to ensure that firearms are properly identified in accordance with the law. The markings on the firearms are vital to our tracking program. Violations of the law and regulations may result in criminal and administrative action, including license revocation and denial of license renewal applications. For required markings see 27 CFR 478.92 and 479.104. See also ATF Ruling 2002-6, set out within the Rulings, Procedures, and Industry Circulars portion of this publication.

14. NFA FIREARMS IN DECEDENTS’ ESTATES

Possession of an NFA firearm not registered to the possessor is a violation of Federal Law and the firearm is subject to seizure and forfeiture. However, a reasonable time is allowed for transfer of lawfully registered firearms in a decedent’s estate.

It is the responsibility of the executor or the administrator of an estate to transfer firearms registered to a dece-
15. STRAW PURCHASES

Questions have arisen concerning the lawfulness of firearms purchases from licensees by persons who use a "straw purchaser" (another person) to acquire the firearms. Specifically, the actual buyer uses the straw purchaser to execute the Form 4473 purporting to show that the straw purchaser is the actual purchaser of the firearm. In some instances, a straw purchaser is used because the actual purchaser is prohibited from acquiring the firearm. That is to say, the actual purchaser is a felon or is within one of the other prohibited categories of persons who may not lawfully acquire firearms or is a resident of a State other than that in which the licensee's business premises is located. Because of his or her disability, the person uses a straw purchaser who is not prohibited from purchasing a firearm from the licensee. In other instances, neither the straw purchaser nor the actual purchaser is prohibited from acquiring the firearm.

In both instances, the straw purchaser violates Federal law by making false statements on Form 4473 to the licensee with respect to the identity of the actual purchaser of the firearm, as well as the actual purchaser's residence address and date of birth. The actual purchaser who utilized the straw purchaser to acquire a firearm has unlawfully aided and abetted or caused the making of the false statements. The licensee selling the firearm under these circumstances also violates Federal law if the licensee is aware of the false statements on the form. It is immaterial that the actual purchaser and the straw purchaser are residents of the State in which the licensee's business premises is located, are not prohibited from receiving or possessing firearms, and could have lawfully purchased firearms from the licensee.

An example of an illegal straw purchase is as follows: Mr. Smith asks Mr. Jones to purchase a firearm for Mr. Smith. Mr. Smith gives Mr. Jones the money for the firearm. If Mr. Jones fills out Form 4473, he violates the law by falsely stating that he is the actual buyer of the firearm. Mr. Smith also violates the law because he has unlawfully aided and abetted or caused the making of false statements on the form.

Where a person purchases a firearm with the intent of making a gift of the firearm to another person, the person making the purchase is indeed the true purchaser. There is no straw purchaser in these instances. In the above example, if Mr. Jones had bought a firearm with his own money to give to Mr. Smith as a birthday present, Mr. Jones could lawfully have completed Form 4473. The use of gift certificates would also not fall within the category of straw purchases. The person redeeming the gift certificate would be the actual purchaser of the firearm and would be properly reflected as such in the dealer's records.

16. FEDERAL EXCISE TAX

A Federal excise tax is imposed by 26 U.S.C. 4181 on the sale by the manufacturer, importer or producer of firearms, shells, and cartridges. The tax is 10 percent of the sale price for pistols and revolvers, 11 percent of the sale price for firearms and 11 percent of the sale price for shells and cartridges. This tax was formerly administered by ATF. Now, the tax is administered by the Alcohol and Tobacco Tax and Trade Bureau (TTB), Department of the Treasury.

The excise tax attaches only to the sale of complete firearms and ammunition or firearms that, although in a knockdown condition, are complete as to all component parts.

The term firearm for excise tax purposes includes all portable weapons, such as rifles, carbines, machineguns, shotguns, and fowling pieces from which a shot, bullet, or projectile may be discharged by an explosive. The term firearm also includes pistols and revolvers. Antique firearms are also subject to the excise tax.

Shells and cartridges include any article consisting of a projectile, explosive, and container that is designed, assembled, and ready for use without further manufacture in firearms, pistols or revolvers.

Reloading of used shells or cartridges is considered manufacturing for purposes of excise tax. Sale of such shells by the reloader is subject to the excise tax. However, if the reloader merely reloads shells belonging to a customer and is paid for labor and materials, the reloading service is not a taxable sale, as long as the reloader returns the identical shells provided by the customer to that same customer. In such instances the customer is the manufacturer and would not be liable for tax if the shells are manufactured for personal use. If the customer sells reloaded shells or uses them in a business, e.g., shooting range, the customer would be liable for the tax.

Returns and Deposits

Regulations in 27 CFR Part 53 require that taxpayers incurring a tax liability on the sale or use of firearms and ammunition file excise tax returns quarterly on TTB Form 5300.26, Federal Firearms and Ammunition Excise Tax Return. In addition, taxpayers are required to make semimonthly deposits of tax on TTB Form 5300.27.

Further Information

For more detailed information regarding firearms and ammunition excise taxes, refer to the TTB web site, www.TTB.gov.

17. ARMOR PIERCING AMMUNITION

For purposes of the prohibitions imposed upon manufacture, importation, and transfer of armor piercing ammunition in 18 U.S.C. 922(a)(7)-(8) and
923(e), armor piercing ammunition includes the following:

**KTW AMMUNITION**, all calibers. Identified by a green coating on the projectile.

**ARCANE AMMUNITION**, all calibers. Identified by a pointed bronze or brass projectile.

**THV AMMUNITION**, all calibers. Identified by a brass or bronze projectile and a head stamp containing the letters SFM and THV.

**CZECHOSLOVAKIAN** manufactured 9mm Parabellum (Luger) ammunition having an iron or steel bullet core. Identified by a cupronickel jacket and a head stamp containing a triangle, star, and dates of 49, 50, 51, or 52. This bullet is attracted to a magnet.

**GERMAN** manufactured 9mm Parabellum (Luger) having an iron or steel bullet core. Original packaging is marked Pistolenpatronen 08 m.E. May have black colored bullet. This bullet is attracted to a magnet.

**MSC AMMUNITION**, caliber .25. Identified by a hollowpoint brass bullet. **NOTE:** MSC ammunition, caliber .25 identified by a hollowpoint copper bullet is not armor piercing.

**BLACK STEEL ARMOR PIERCING AMMUNITION**, all calibers, as produced by National Cartridge, Atlanta, Georgia.

**BLACK STEEL METAL PIERCING AMMUNITION**, all calibers, as produced by National Cartridge, Atlanta, Georgia.

7.62mm NATO AP, identified by black coloring in the bullet tip. This ammunition is used by various NATO countries. The U.S. military designation is M61 AP.

7.62mm NATO SLAP. Identified by projectile having a plastic sabot around a hard penetrator. The penetrator protrudes above the sabot and is similar in appearance to a Remington accelerator cartridge.

**PMC ULTRAMAG**, .38 Special caliber, constructed entirely of a brass type material, and a plastic pusher disc located at the base of the projectile. **NOTE:** PMC ULTRAMAG 38J late production made of copper with lead alloy projectile is not armor piercing.

**OMNISHOCK**. A .38 Special cartridge with a lead bullet containing a mild steel core with a flattened head resembling a wad cutter. **NOTE:** OMNISHOCK cartridges having a bullet with an aluminum core are not armor piercing.

7.62x39mm with steel core. These projectiles have a steel core. **NOTE:** Projectiles having a lead core with steel jacket or steel case are not armor piercing.

In addition, the Violent Crime Control and Law Enforcement Act of 1994 added to the definition of armor piercing ammunition the following:

"... a full jacketed projectile larger than .22 caliber designed and intended for use in a handgun and whose jacket has a weight of more than 25 percent of the total weight of the projectile."

**Exemptions:** The following articles are exempted from the definition of armor piercing ammunition.

5.56 mm (.223) SS 109 and M855 Ammunition, identified by a green coating on the projectile tip.

U.S. .30-06 M2AP, identified by a black coating on the projectile tip.

18. ASSEMBLY OF NONSPORTING SEMIAUTOMATIC RIFLES AND SHOTGUNS

Section 922(r), Title 18, U.S.C., makes it unlawful for any person to assemble from imported parts any semiautomatic rifle or any shotgun which is identical to any rifle or shotgun prohibited from importation under section 925(d)(3) of the GCA. Regulations implementing the law in 27 C.F.R. 478.39 provide that a violation of section 922(r) will result if a semiautomatic rifle or shotgun is assembled with more than 10 of the following imported parts:

- (1) Frames, receivers, receiver castings, forgings, or stampings
- (2) Barrels
- (3) Barrel extensions
- (4) Mounting blocks (trunnions)
- (5) Muzzle attachments
- (6) Bolts
- (7) Bolt carriers
- (8) Operating rods
- (9) Gas pistons
- (10) Trigger housings
- (11) Triggers
- (12) Hammers
- (13) Sears
- (14) Disconnectors
- (15) Buttpockets
- (16) Pistol grips

Federal firearms licensees are required to report the theft or loss of firearms from their inventory or collection to local authorities as well as to ATF within 48 hours after the theft or loss is discovered.

The notification to ATF must be made through our toll free theft hotline number which is 1-800-930-9275. The hotline is operational 24 hours a day, 7 days a week. The caller should indicate that he or she is a Federal firearms licensee and be ready to furnish his or her Federal firearms license number. The hotline representative will provide the licensee with an incident number which should be recorded in the licensee's bound book.

The verbal notification must be followed up by a written notification to ATF within the same 48-hour period. The written notification should be made on ATF F 3310.11, Federal Firearms Licensee Theft/Loss Report, in accordance with the instructions on the form. This form is available from the ATF Distribution Center.

Theft or loss of NFA firearms should be reported to the NFA Branch immediately upon discovery.

20. IMPORTATION OF SEMIAUTOMATIC ASSAULT RIFLES AND MODIFIED VERSIONS OF SUCH RIFLES

Section 925(d)(3), Title 18, U.S.C., states that the Attorney General shall authorize a firearm or ammunition to be imported or brought into the United States if it is of a type that does not fall within the definition of a firearm in section 5845(a) of the Internal Revenue
Code of 1986 and is generally recognized as particularly suitable for or readily adaptable to sporting purposes, excluding surplus military firearms.

In 1989, ATF identified a type of rifle known as a semiautomatic assault rifle and found that weapons of this type were not generally recognized as particularly suitable for or readily adaptable to sporting purposes under the sporting purposes test for importation in 18 U.S.C. 925(d). Accordingly, on July 6, 1989, ATF determined that rifles of this type were not importable into the United States. ATF's finding was based, in part, on the determination that these rifles have certain characteristics that are common to modern military assault rifles and that distinguish them from traditional sporting rifles. These characteristics include the ability to accept a detachable magazine, folding/telescoping stocks, separate pistol grips, ability to accept a bayonet, flash suppressors, bipods, grenade launchers, and night sights. It was decided that any of these military features, other than the ability to accept a detachable magazine, would make a semiautomatic assault rifle not importable. The particular rifles barred from importation were as follows:

**AKS Variants**
- AK 47 type
- AK47S type
- AK74 type
- AKS type
- AKM type
- AKMS type
- ARM type
- 84S type
- 84S1 type
- 84S3 type
- 86S type
- 867S type
- Galil type
- Type 56 type
- Type 56S type
- Valmet M76 type
- Valmet M78 type
- M76 counter sniper type

**AK47 Variants**
- HK91 type
- HK93 type
- HK94 type
- G3SA type
- K1 type
- K2 type
- AR100 type
- M14S type
- MAS223 type
- SIG 550SP type
- SIG 551SP type
- SKS with detachable magazine

Subsequent to the 1989 decision, certain semiautomatic assault rifles that failed the 1989 sporting purposes test for importation were modified to remove all of their military features other than the ability to accept a detachable magazine. They could still accept the large capacity magazines originally designed and produced for the military assault rifles from which they were derived. The modified weapons were permitted to be imported because they met the 1989 sporting purposes test for importation.

On November 14, 1997, the President and the Secretary of the Treasury ordered a review of the importation of modified versions of semiautomatic assault rifles into the United States. Consequently, it was decided on April 6, 1998, that the following modified versions of semiautomatic assault rifles could no longer be imported under the sporting purposes test.

**AK47 Variants**
- MAKO90
- 314
- 56V
- 89
- EXP56A
- SLG74
- NMH90
- NMH90-2
- NMH91
- SA85M
- SA93
- A93
- AK762
- SA2000
- ARM
- MISR
- MISTR
- SA85M
- Mini PSL

**21. IMPORTATION OF HANDGUNS**

Section 925(d)(3), Title 18, U.S.C., states that the Attorney General shall authorize a firearm or ammunition to be imported or brought into the United States if it is of a type that does not fall within the definition of a firearm in section 5845(a) of the Internal Revenue Code of 1986 and is generally recognized as particularly suitable for or readily adaptable to sporting purposes, excluding surplus military firearms. The statute also prohibits the importation of any frame, receiver, or barrel of a firearm that would be prohibited if assembled.

In 1968, the Secretary of the Treasury established the Treasury Department Firearms Evaluation Panel. The purpose of this panel was to assist in the establishment of guidelines for use in determining if a particular firearm would be importable under the sporting purposes test prescribed by section 925(d)(3). This panel was composed of representatives from the firearms industry, law enforcement, and the military.

The panel developed objective numerical criteria with minimum qualifying scores to determine if a handgun is par-
particularly suitable for or readily adaptable to sporting purposes. The criteria, ATF Form 4590, Factoring Criteria for Weapons, assigns point values to handguns based on dimensions, material used in construction, weight, caliber, safety features and miscellaneous equipment. The criteria also have prerequisite requirements concerning safeties and minimum dimensions.

Form 4590 is divided into two parts. The right side of the form is used to evaluate revolvers and the left side is used to evaluate pistols. The minimum qualifying score for a revolver is 45 points and the minimum qualifying score for a pistol is 75 points. The form also provides that revolvers must pass a safety test.

Any handgun being imported into the United States must pass these criteria. The fact that a particular weapon may be of domestic manufacture or classified as a curio or relic does not exempt it from the factoring criteria.

If you have any questions concerning Form 4590, or the score a particular handgun achieves, please contact the ATF Firearms Technology Branch.

22. IMPORTANT INFORMATION FOR CHIEF LAW ENFORCEMENT OFFICERS (CLEOs) RECEIVING COPIES OF ATF FORM 3310.4 (REPORT OF MULTIPLE SALE OR OTHER DISPOSITION OF PISTOLS AND REVOLVERS)

18 U.S.C. 923(g)(3)(B) provides that Chief Law Enforcement Officers (CLEOs) receiving copies of ATF Form 3310.4 from FFLs for sales to non-prohibited persons may not disclose the contents of the forms and must destroy the forms and any record of the content of the forms within 20 days of receipt. This provision also requires CLEOs to certify in writing to the United States Attorney General every six months that no such disclosures have been made and that the forms on non-prohibited persons have been destroyed as required by law. CLEOs making this certification should send the certification to:

A. GENERAL QUESTIONS

(A1) Does the law regulate who can be in the business?

Yes. The Gun Control Act (GCA), administered by the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) of the Department of Justice, contains Federal licensing standards for various firearms businesses (manufacturers, importers, and dealers). An example of these standards is that the applicant must have a business premises.

[18 U.S.C. 923(d), 27 CFR 478.47]

(A2) Does the Federal Government issue a license or permit to carry a concealed weapon?

No. Neither ATF nor any other Federal agency issues such a permit or license. Carrying permits may be issued by a State or local government.

(A3) Do antique firearms come within the purview of the GCA?

No.

[18 U.S.C. 921(a)(3) and (16), 27 CFR 478.11 and 478.141(d)]

(A4) What kinds of ammunition are covered by the GCA?

Ammunition includes cartridge cases, primers, bullets or propellant powder designed for use in any firearm other than an antique firearm. Items NOT covered include blank ammunition, tear gas ammunition, pellets and nonmetallic shotgun hulls without primers.

Generally, no records are required for ammunition transactions. However, information about the disposition of armor piercing ammunition is required to be entered into a record by importers, manufacturers, and collectors. A license is not required for dealers in ammunition only.

[18 U.S.C. 921(a)(17) and 922(b)(5), 27 CFR 478.11 and 478.125]

(A5) Does the GCA control the sale of firearms parts?

No, except that frames or receivers of firearms are “firearms” as defined in the law and subject to the same controls as complete firearms. Silencer parts are also firearms under the GCA, as well as under the National Firearms Act (NFA). Certain machinegun parts, such as conversion parts or kits, are also subject to the NFA.

(A6) Does the GCA prohibit anyone from making a handgun, shotgun or rifle?

With certain exceptions a firearm may be made by a nonlicensee provided it is not for sale and the maker is not prohibited from possessing firearms. However, a person is prohibited from assembling a semi-automatic rifle or nonsporting shotgun from imported parts. In addition, the making of an NFA firearm requires a tax payment and approval by ATF. An application to make a machinegun will not be approved unless documentation is submitted showing that the firearm is being made for a Federal or State agency.

(A7) How can a person apply for relief from Federal firearms disabilities?

Under the provisions of the Gun Control Act of 1968 (GCA), convicted felons and certain other persons are prohibited from possessing or receiving firearms. The GCA provides the Attorney General with the authority to grant relief from this disability where the Attorney General determines that the person is not likely to act in a manner dangerous to the public safety and granting relief would not be contrary to the public interest. The Attorney General delegated this authority to ATF.

Since October 1992, however, ATF’s annual appropriation has prohibited the spending of any funds to investigate or act upon applications for relief from Federal firearms disabilities submitted by individuals. As long as this provision is included in current ATF appropriations, the Bureau cannot act upon applications for relief from Federal firearms disabilities submitted by individuals.

[18 U.S.C. 922(g), 922(n) and 925(c)]

(A8) Are there any alternatives for relief from firearms disabilities?

A person is not considered convicted for Gun Control Act purposes if he has been pardoned, had his civil rights restored, or the conviction was expunged or set aside, unless the pardon, expungement, or restoration expressly provides the person may not ship, transport, possess, or receive firearms.

Persons convicted of a Federal offense may apply for a Presidential pardon. 28 CFR 1.1-1.10 specify the rules governing petitions for obtaining Presidential pardons. You may contact the Pardon Attorney’s Office at the U.S. Department of Justice, 500 First Street, N.W., Washington, D.C. 20530, to inquire about the procedures for obtaining a Presidential pardon.

Persons convicted of a State offense may contact the State Attorney General’s Office within the State in which they reside and the State of their conviction for information concerning any alternatives that may be available, such as pardons and civil rights restoration.

[18 U.S.C. 921(a)(20) and (a)(33)]

B. UNLICENSED PERSONS

(B1) To whom may an unlicensed person transfer firearms under the GCA?

A person may sell a firearm to an unlicensed resident of his State, if he does not know or have reasonable cause to believe the person is prohibited from receiving or possessing firearms under Federal law. A person may loan or rent a firearm to a resident of any State for temporary use for lawful sporting purposes, if he does not know or have reasonable cause to believe the person is prohibited from receiving or possessing firearms under Federal law. A person may sell or transfer a firearm to a licensee in any State. However, a firearm other than a curio or relic may not be transferred interstate to a licensed collector.

[18 U.S.C. 922(a)(3) and (5), 922(d), 27 CFR 478.29 and 478.30]

(B2) From whom may an unlicensed person acquire a firearm under the GCA?

A person may only acquire a firearm within the person’s own State, except that he or she may purchase or otherwise acquire a rifle or shotgun, in person, at a licensee's premises in any State, provided the sale complies with State laws applicable in
the State of sale and the State where the purchaser resides. A person may borrow or rent a firearm in any State for temporary use for lawful sporting purposes.

(B3) May an unlicensed person obtain a firearm from an out-of-State source if the person arranges to obtain the firearm through a licensed dealer in the purchaser's own State?

A person not licensed under the GCA and not prohibited from acquiring firearms may purchase a firearm from an out-of-State source and obtain the firearm if an arrangement is made with a licensed dealer in the purchaser's State of residence for the purchaser to obtain the firearm from the dealer.

[18 U.S.C. 922(a)(3) and 922(b)(3)]

(B4) May an unlicensed person obtain ammunition from an out-of-State source?

Yes, provided he or she is not a person prohibited from possessing or receiving ammunition.

[18 U.S.C. 922(g) and (n)]

(B5) Are there certain persons who cannot legally receive or possess firearms and/or ammunition?

Yes, a person who –

1. Has been convicted in any court of a crime punishable by imprisonment for a term exceeding 1 year;
2. Is a fugitive from justice;
3. Is an unlawful user of or addicted to any controlled substance;
4. Has been adjudged as a mental defective or has been committed to a mental institution;
5. Is an alien illegally or unlawfully in the United States or an alien admitted to the United States under a nonimmigrant visa;
6. Has been discharged from the Armed Forces under dishonorable conditions;
7. Having been a citizen of the United States, has renounced his or her citizenship;
8. Is subject to a court order that restrains the person from harassing, stalking, or threatening an intimate partner or child of such intimate partner; or
9. Has been convicted of a misdemeanor crime of domestic violence

cannot lawfully receive, possess, ship, or transport a firearm.

A person who is under indictment or information for a crime punishable by imprisonment for a term exceeding 1 year cannot lawfully receive a firearm. Such person may continue to lawfully possess firearms obtained prior to the indictment or information.

[18 U.S.C. 922(g) and (n), 27 CFR 478.32]

(B6) Do law enforcement officers who are subject to restraining orders and who receive and possess firearms for purposes of carrying out their official duties violate the law?

Not if the firearms are received and possessed for official use only.

The law prohibits persons subject to certain restraining orders from receiving, shipping, transporting or possessing firearms or ammunition. To be disabling, the restraining order must:

1. Specifically restrain the person from harassing, stalking, or threatening an "intimate partner" of the person (e.g., spouse);
2. Be issued after a hearing of which notice was given to the person and at which the person had an opportunity to participate; and
3. Include a finding that the person subject to the order represents a credible threat to the "intimate partner" or child of the "intimate partner" OR explicitly prohibits the use, attempted use, or threatened use of force against the partner.

However, the GCA has an exception for the receipt and possession of firearms and ammunition on behalf of a Federal or State agency. Therefore, the GCA does not prohibit a law enforcement officer under a restraining order from receiving or possessing firearms or ammunition for use in performing official duties. Possession of the firearm for official purposes while off duty would be lawful if such possession is required or authorized by law or by official departmental policy. An officer subject to a disabling restraining order would violate the law if the officer received or possessed a firearm or ammunition for other than official use. (See Question Q13 on officers' receipt and possession of firearms and ammunition after a conviction of a misdemeanor crime of domestic violence. The government exception does not apply to such convictions.)

[18 U.S.C. 921(a)(32), 922(g)(8) and 925(a)(1)]

(B7) May a nonlicensee ship a firearm through the U.S. Postal Service?

A nonlicensee may not transfer a firearm to a nonlicensed resident of another State. A nonlicensee may mail a shotgun or rifle to a resident of his or her own State or to a licensee in any State. The Postal Service recommends that long guns be sent by registered mail and that no marking of any kind which would indicate the nature of the contents be placed on the outside of any parcel containing firearms. Handguns are not mailable. A common or contract carrier must be used to ship a handgun.

[18 U.S.C. 1715, 922(a)(3), 922(a)(5) and 922(a)(2)(A)]

(B8) May a nonlicensee ship a firearm by common or contract carrier?

A nonlicensee may ship a firearm by a common or contract carrier to a resident of his or her own State or to a licensee in any State. A common or contract carrier must be used to ship a handgun. In addition, Federal law requires that the carrier be notified that the shipment contains a firearm and prohibits common or contract carriers from requiring or causing any label to be placed on any package indicating that it contains a firearm.

(B9) May a nonlicensee ship firearms interstate for his or her use in hunting or other lawful activity?

Yes. A person may ship a firearm to himself or herself in care of another person in the State where he or she intends to hunt or engage in any other lawful activity. The package should be addressed to the owner. Persons other than the owner should not open
the package and take possession of the firearm.

(B10) May a person who is relocating out-of-State move firearms with other household goods?

Yes. A person who lawfully possesses a firearm may transport or ship the firearm interstate when changing his or her State of residence.

Certain NFA firearms must have prior approval from the Bureau of ATF before they may be moved interstate. The person must notify the mover that firearms are being transported. He or she should also check State and local laws where relocating to ensure that movement of firearms into the new State does not violate any State law or local ordinance.

[B11] What constitutes residency in a State?

The State of residence is the State in which an individual is present; the individual also must have an intention of making a home in that State. A member of the Armed Forces on active duty is a resident of the State in which his or her permanent duty station is located. If a member of the Armed Forces maintains a home in one State and the member’s permanent duty station is in a nearby State to which he or she commutes daily, then the member has two States of residence.

An alien is considered to be a resident of a State only if the alien is residing in that State and has resided in that State continuously for at least 90 days prior to the purchase. An alien acquiring firearms from a licensee is required to prove both his identity, by presenting a government-issued photo identification, and his residency with substantiating documentation showing that he has resided in the State continuously for the 90-day period prior to the purchase.

See also Item 5, “Sales to Aliens in the United States,” in the General Information section of this publication.

(B12) May a person who is not an alien who resides in one State and owns property in another State purchase a handgun in either State?

If a person maintains a home in 2 States and resides in both States for certain periods of the year, he or she may, during the period of time the person actually resides in a particular State, purchase a handgun in that State. However, simply owning property in another State does not qualify the person to purchase a handgun in that State.

An alien legally in the U.S. may acquire firearms if he has a State of residence. An alien has a State of residence only if he is residing in that State and has resided in a State continuously for at least 90 days prior to the purchase. An alien acquiring firearms from a licensee is required to prove both his identity, by presenting a government-issued photo identification, and his residency with substantiating documentation showing that he has resided in the State continuously for the 90-day period prior to the purchase. Examples of qualifying documentation to prove residency include: utility bills, lease agreements, credit card statements, and pay stubs from the purchaser’s place of employment, if such documents include residential addresses.

See also Item 5, “Sales to Aliens in the United States,” in the General Information section of this publication.

(B14) May a parent or guardian purchase firearms or ammunition as a gift for a juvenile (less than 18 years of age)?

Yes. However, possession of handguns by juveniles (less than 18 years of age) is generally unlawful. Juveniles generally may only receive and possess handguns with the written permission of a parent or guardian for limited purposes, e.g., employment, ranching, farming, target practice or hunting.

(B15) Are curio or relic firearms exempt from the provisions of the GCA?

No. Curios or relics are still firearms subject to the provisions of the GCA; however, curio or relic firearms may be transferred in interstate commerce to licensed collectors or other licensees.

(B16) What recordkeeping procedures should be followed when two private individuals want to engage in a firearms transaction?

When a transaction takes place between private (unlicensed) persons who reside in the same State, the Gun Control Act (GCA) does not require any record keeping. A private person may sell a firearm to another private individual in his or her State of residence and, similarly, a private individual may buy a firearm from another private person who resides in the same State. It is not necessary under Federal law for a Federal firearms licensee (FFL) to assist in the sale or transfer when the buyer and seller are “same-State” residents. Of course, the transferor/seller may not knowingly transfer a firearm to someone who falls within any of the categories of prohibited persons contained in the GCA. See 18 U.S. C. §§ 922(g) and (n). However, as stated above, there are no GCA-required records to be completed by either party to the transfer.

There may be State or local laws or regulations that govern this type of transaction. Contact State Police units or the office of your State Attorney General for information on any such requirements.

Please note that if a private person wants to obtain a firearm from a private person who resides in another State, the firearm will have to be shipped to an FFL in the buyer’s State. The FFL will be responsible for record keeping. See also Question B3.

(B17) How do I obtain a classification from ATF for my “potato gun”?

Any person desiring a classification of a “potato gun,” “spud gun” or similar device must submit a written request (not e-mail) to the Director and include a complete and accurate description of the device, the name and address of the manufacturer or importer, the purpose for which it is intended, and such photographs, diagrams, or drawings as may be necessary to make a classification. A final determination may require physical examination of the device. Such requests for classification should be submitted to: Bureau of ATF, Firearms Technology Branch.
C. LICENSING

(C1) Who can get a license?

ATF will approve the application if the applicant:

• Is 21 years or more of age;

• Is not prohibited from shipping, transporting, receiving, or possessing firearms or ammunition;

• Has not willfully violated the GCA or its regulations;

• Has not willfully failed to disclose material facts in connection with his application;

• Has premises for conducting business or collecting; and

• The applicant certifies that:

  (1) the business to be conducted under the license is not prohibited by State or local law in the place where the licensed premises is located;

  (2) within 30 days after the application is approved the business will comply with the requirements of State and local law applicable to the conduct of the business;

  (3) the business will not be conducted under the license until the requirements of State and local law applicable to the business have been met;

  (4) the applicant has sent or delivered a form to the chief law enforcement officer where the premises is located notifying the officer that the applicant intends to apply for a license; and

  (5) secure gun storage or safety devices will be available at any place in which firearms are sold under the license to persons who are not licensees (“secure gun storage or safety device” is defined in 18 U.S.C. 921(a)(34)).

[18 U.S.C. 923(d)(1), 27 CFR 478.47(b)]

(C2) How does one get a license?

Submit ATF Form 7, Application for License, or ATF Form 7CR, Application for License (Collector of Curios or Relics), with the appropriate fee in accordance with the instructions on the form to ATF. These forms may be obtained from the Federal Firearms Licensing Center or your local ATF office.

[18 U.S.C. 923, 27 CFR 478.44 and 478.45]

(C3) May one license cover several locations?

No. A separate license must be obtained for each location. However, storage facilities are not required to be covered by a separate license, although the records maintained on licensed premises must reflect all firearms held in the separate storage facility. Firearms may be shipped directly to separate storage facilities as long as they are properly recorded as an acquisition in the licensee's records.

[27 CFR 478.50]

(C4) Does an importer or manufacturer of firearms also need a dealer's license?

No, as long as the importer or manufacturer is engaged in the business of dealing in firearms at the licensed premises in the same type of firearms authorized by the importer's or manufacturer's license.

[27 CFR 478.41(b)]

(C5) If a person timely files an application for renewal of a license and the present license expires prior to receipt of the new license, may the person continue to conduct the business covered by the expired license?

Yes. A person who timely files an application for renewal of a license may continue operations authorized by the expired license until the application is finally acted upon. An application is timely filed when it is received accurate and completed at the P.O. Box listed on the application form with the appropriate renewal fee.

If a person does not timely file a license renewal application and the license expires, the person must file ATF Form 7, Application for License, or an ATF Form 7CR, Application for License (Collector of Curios or Relics), as required by 27 CFR 478.44, submit the application fee applicable to a new business, and obtain the required license before continuing business activity.

[27 CFR 478.45]

(C6) Must a licensed importer's, manufacturer's, or dealer's records be surrendered to ATF if the licensee discontinues business?

If the business is being discontinued completely, the licensed dealer, manufacturer or importer is required, within 30 days, to forward the business records to the following address:

BUREAU OF ATF
ATF OUT-OF-BUSINESS RECORDS CENTER
244 NEEDY ROAD
MARTINSBURG, WV 24501

Failure to surrender required records is a felony and could result in the licensee being fined up to $250,000, imprisoned up to 5 years, or both. Alicensee discontinuing business also must notify the Federal Firearms Licensing Center within 30 days.

If someone is taking over the business, the original licensee should underline the final entry in each bound book, note the date of transfer, and forward all records and forms to the successor (who must apply for and receive his or her own license before lawfully engaging in business) or forward the records and forms to the ATF Out-of-Business Records Center. If the successor licensee receives records and forms from the original licensee, the successor licensee may choose to forward these records and forms to the ATF Out-of-Business Record Center.

(C7) What records am I required to forward to ATF upon discontinuance of my business?

The records consist of the licensee's bound acquisition/disposition (A/D) records, ATF Forms 4473, ATF Forms 3310.4 (Report of Multiple Sale or Other Disposition of Pistols and Revolvers), ATF Forms 3310.11 (Federal Firearms Licensee Theft/Loss Report), records of transactions in semiautomatic assault weapons, records of importation (ATF Forms 6 and 6A), and law enforcement certification letters. If the licensee was granted a variance to use a computerized recordkeeping system, the licensee is required to provide a complete printout of the entire A/D records.

[27 CFR 478.127]
(C8) May a successor owner of a business entity, other than one who is a successor under the provisions of 27 CFR 478.56 (for example, the surviving spouse or child, or a receiver or trustee in bankruptcy), commence a firearms business prior to receiving a Federal firearms license in the successor’s name?

No. Each person intending to engage in business as a firearms dealer, importer or manufacturer or an ammunition importer or manufacturer must obtain the required Federal firearms license prior to commencing business.

[27 CFR 478.41]

(C9) Does a Federal firearms license allow the licensee to carry a firearm in the course of business?

No. A Federal firearms license confers no right or privilege to carry a firearm, concealed or otherwise. Permits to carry are issued by State or local authorities.

(C10) May a person obtain a dealer’s license to engage in business only at gun shows?

No. A license may only be issued for a permanent premises at which the license applicant intends to do business. A person having such license may conduct business at gun shows located in the State in which the licensed premises is located and sell and deliver curio or relic firearms to other licensees at any location.

[18 U.S.C. 923(a) and (j)]

(C11) May a licensee change the location of the licensed business or activity?

To change your location, you must file an application for an amended license, ATF Form 5300.38, not less than 30 days prior to the move. You must obtain the amended license before commencing business at the new location. The application for an amended license includes a certification of compliance with State and local laws and notification of local law enforcement officials.

[27 CFR 478.52]

(C12) Are black powder dealers required to be licensed as ammunition dealers under the GCA?

No. However, black powder dealers are subject to the provisions of 27 CFR Part 555, Commerce in Explosives, which requires that a dealer in any quantity of black powder must have a license as a dealer.

[18 U.S.C. 842]

D. ATF FORM 4473 FIREARMS TRANSACTION RECORD

(D1) Where can a dealer get ATF Forms 4473?

They are available free of charge from the ATF Distribution Center. The current address is P.O. Box 5950, Springfield, VA 22150-5950. Please order a quantity of forms estimated for 6 months use.

(D2) Does an unlicensed person need an ATF Form 4473 to transfer a firearm?

No. ATF Form 4473 is required only for transfers by a licensee.

[27 CFR 478.124]

(D3) Does a dealer have to execute ATF Form 4473 to take a weapon out of the dealer’s inventory for his or her own use?

No. However, the “bound book” must reflect the disposition of the firearm from business inventory to personal use.

However, if the business is a corporation, and the firearm is being transferred to a corporate officer or director for other than business purposes, then a Form 4473 must be executed.

[27 CFR 478.124 and 478.125a]

(D4) Who signs ATF Form 4473 for the seller?

ATF Form 4473 must be signed by the person who verified the identity of the buyer.

(D5) Is a Social Security card a proper means of identification for purchasing a firearm from an FFL?

No. A Social Security card, alien registration card, or military identification alone does not contain sufficient information to identify a firearms purchaser. However, a purchaser may be identified by any combination of government-issued documents which together establish all of the required information: Name, residence address, date of birth, and photograph of the holder.

[27 CFR 478.11 and 478.124(c)]

(D6) When must the ATF Form 4473 be signed?

Part I used for over-the-counter sales must be completed, signed and dated by the buyer prior to delivery of the firearm.

Part II (green form) used for intra-state non-over-the-counter sales must be completed, signed and dated in duplicate by the buyer at the time of sale.

[27 CFR 478.124(c) and 478.124(f)]

E. RECORDS REQUIRED – LICENSEES

(E1) What is a “bound book”?

A “bound book” is a permanently bound book or an orderly arrangement of loose-leaf pages which must be maintained on the business premises. The format must follow that prescribed in the regulations and the pages must be numbered consecutively.

[27 CFR 478.121 and 478.125]

(E2) May a dealer keep more than one “bound book” at the same time?

Yes. A dealer in firearms is not limited to using only one “bound book.” It may be convenient for a dealer to account for different brands or types of firearms in separate “bound books.”

(E3) Does the Government sell a record book for licensees to use in recording their receipts and dispositions of firearms?

No. Certain trade associations have them available at nominal cost. Your supplier should be able to tell you about this.

(E4) What is the dealer’s responsibility where a variance from normal regulatory practice has been authorized?

The ATF letter authorizing the variance must be kept at the licensed premises and available for inspection. For businesses with more than a single licensed outlet, each outlet covered by the variance must have a copy of the letter authorizing the change.
(E5) How much time does a dealer have to record acquisitions and dispositions of firearms in his or her "bound book"?

Generally, licensees have to enter the acquisition or purchase of a firearm by the close of the next business day after the acquisition or purchase and shall record sales or other dispositions within 7 days.

However, if commercial records containing the required information are available for inspection and are separate from other commercial documents, dealers have 7 days from the time of receipt to record the receipt in the "bound book."

If a disposition is made before the acquisition has been entered in the "bound book," the acquisition entry must be made at the same time as the disposition entry. [27 CFR 478.125]

(E6) Are the ammunition record-keeping requirements the same as for firearms?

No. No records are required for ammunition other than armor piercing ammunition. See 27 CFR 478.125 for details on recordkeeping requirements.

(E7) Are rental firearms subject to recordkeeping control?

Yes, if the firearms are taken off the premises of the licensee. However, the recordkeeping is not imposed on the loan or rental of firearms for use only on the premises of the licensee. [27 CFR 478.97]

(E8) May a licensee who has firearms in his or her private collection sell any of these firearms without making firearms record entries?

A licensee may sell a firearm from his or her personal collection, subject only to the restrictions on firearm sales by unlicensed persons, provided the firearm was entered in the licensee’s bound book and then transferred to the licensee’s private collection at least 1 year prior to the sale. When the personal firearm is sold, the sale must be recorded in a "bound book" for dispositions of personal firearms, but no ATF Form 4473 is required. [18 U.S.C. 922(b)(3)]

(F1) Does the Federal firearms law require licensees to comply with State laws and local published ordinances when selling firearms?

Yes. It is unlawful for any licensed importer, licensed manufacturer, licensed dealer, or licensed collector to sell or deliver any firearm or ammunition to any person if the person’s purchase or possession would be in violation of any State law or local published ordinance applicable at the place of sale or delivery. [27 CFR 478.22 and 478.125(h)]

(F2) May a licensed dealer sell a firearm to a nonlicensee who is a resident of another State?

Generally, a firearm may not lawfully be sold by a licensed dealer to a nonlicensee who resides in a State other than the State in which the seller’s licensed premises is located. However, the sale may be made if the firearm is shipped to a licensed dealer whose business is in the purchaser’s State of residence and the purchaser takes delivery of the firearm from the dealer in his or her State of residence. In addition, a licensee may sell a rifle or shotgun to a person who is not a resident of the State where the licensee’s business premises is located if the transaction complies with State law in the State where the licensee is located and in the State where the purchaser resides. [27 CFR 478.125a]

(F3) May a dealer sell firearms to law enforcement agencies and individual officers in another State?

Yes. Sales and deliveries of firearms to out-of-State police and sheriff departments are not prohibited by the GCA. A dealer may also sell or ship firearms, other than NFA firearms, to an individual law enforcement officer, regardless of age, if the dealer has a signed statement from the officer’s agency, stating that the items are to be used in the buyer’s official duties and that the officer has not been convicted of a misdemeanor crime of domestic violence. No ATF Form 4473 or NICS check is required; however, the bound book must be properly posted, and the signed statement included in the dealer’s records. For further information on sales of firearms to law enforcement officers, see Item 4, “Sales to Law Enforcement Officers”, in the General Information section of this publication. You should contact your State’s Attorney General’s Office to ensure there is no State prohibition on such sales. [18 U.S.C. 925(a) (1), 27 CFR 478.134 and 478.141]

(F4) May an employee of a licensed dealer, such as a manager or clerk, who is under 21 years of age, sell handguns and ammunition suitable for use in handguns for the licensee?

Yes, if the employee is not a prohibited person (e.g., a felon). However, to sell handguns, a person less than 18 years of age must have the prior written consent of a parent or guardian and the written consent must be in the person’s possession at all times. Also, the parent or guardian giving the written consent may not be prohibited by law from possessing a firearm. Moreover, State law must not prohibit the juvenile from possessing the handguns or ammunition. [18 U.S.C. 922(k)]

(F5) As a licensed dealer, must I advise ATF if I sell more than one handgun to an individual?

If you sell or dispose of more than one handgun to any nonlicensee during a period of 5 consecutive business days, the sale must be reported on ATF Form 3310.4, Report of Multiple Sale or Other Disposition of Pistols and Revolvers, not later than the close of the business day on which you sold or disposed of the second handgun. The licensee must forward a copy of the Form 3310.4 to the ATF office specified thereon, and another copy must be forwarded to the State police or local law enforcement agency where the sale occurred. A copy of the Form 3310.4 also must be attached to the firearms transaction record, ATF Form 4473, documenting
the sale or disposition of the second handgun.

A business day for purposes of reporting multiple sales of pistols or revolvers is a day that a licensee conducts business pursuant to the license, regardless of whether State offices are open. The application of the term “business day” is, therefore, distinguishable from the term “business day” as used in the NICS context.

Example: A licensee conducts business only on Saturdays and Sundays, days on which State offices are not open. The licensee sells a pistol to an unlicensed person on a Saturday. If that same unlicensed person acquires another handgun the next day (Sunday), the following Saturday or Sunday, or the Saturday after the reporting requirement would be triggered, the subsequent acquisition of a handgun would have to be reported on Form 3310.4 by the close of the day upon which the second or subsequent handgun was sold.

[F6] Does a customer have to be a certain age to buy firearms or ammunition from a licensee?

Yes. Under the GCA, long guns and long gun ammunition may be sold only to persons 18 years of age or older. Sales of handguns and ammunition for handguns are limited to persons 21 years of age and older. Although some State and local ordinances have lower age requirements, dealers are bound by the minimum age requirements established by the GCA. If State law or local ordinances establish a higher minimum age, the dealer must observe the higher age requirement.

[F7] May a licensee sell interchangeable ammunition such as .22 cal. rimfire to a person less than 21 years old?

Yes, provided the buyer is 18 years of age or older, and the dealer is satisfied that it is for use in a rifle. If the ammunition is intended for use in a handgun, the 21 year old minimum age requirement is applicable.

[F8] In transactions between licensees, how is the seller assured that a purchaser of a firearm is a licensed dealer?

Verification must be established by the transferee furnishing to the transferee a certified copy of the transferee's license and by any other means the transferee deems necessary (such as the FFL eZcheck).

[F9] Must a multi-licensed business submit a certified copy of each of its licenses when acquiring firearms?

No. It need only provide the seller a list, certified to be true, correct and complete, containing the name, address, and license number and expiration date for each location.

[F10] May a licensee continue to deliver to a business whose license has expired?

Yes, for a period of 45 days following the expiration date of the license. After the 45-day period, the transferor is required to verify the licensed status of the transferee with the Chief, Firearms Licensing Center. If the transferee’s license renewal application is still pending, the transferor must obtain evidence from the Director of Industry Operations that a license renewal application has been timely filed by the transferee and is still pending.

[F11] Is a license required to engage in the business of selling small arms ammunition?

No. A license is not required for a dealer in ammunition only, but a manufacturer or an importer of ammunition must be licensed.

[F12] May licensed dealers sell firearms at gun shows?

Generally, a licensee may sell firearms at a gun show located only in the same State as that specified on the seller’s license. However, a licensee may sell curio or relic firearms to another licensee at any location.

[F13] What may a licensed dealer do at an out-of-State gun show?

A licensed dealer may sell and deliver curio or relic firearms to another licensee at an out-of-State gun show. With respect to other firearms transactions, a licensed dealer may only display and take orders for firearms at an out-of-State gun show. In filling any orders for firearms, the dealer must return the firearms to his or her licensed premises and deliver them from that location. Any firearm ordered by a nonlicensee must be delivered or shipped from the licensee’s premises to a licensee in the purchaser’s State of residence, and the purchaser must obtain the firearm from the licensee located in the purchaser’s State. Except for sales of curio or relic firearms to other licensees, sales of firearms and simultaneous deliveries at the gun show, whether to other licensees or to nonlicensees, violate the law because the dealer would be unlawfully engaging in business at an unlicensed location.

[F14] Who may ship handguns through the U.S. Postal Service?

Federal firearm licensees may send an unloaded handgun in the mail to another FFL in customary trade shipments. Handguns also may be mailed to any officer, employee, agent, or watchman who is eligible under 18 U.S.C. 1715 to receive pistols, revolvers, and other firearms capable of being concealed on the person for use in connection with his or her official duties.

However, postal service regulations must be followed. Any person proposing to mail a handgun must file with the postmaster, at the time of mailing, an affidavit signed by the addressee stating that the addressee is qualified to receive the firearm, and the affidavit must bear a certificate stating that the firearm is for the official use of the addressee. See the current Postal Manual for details.

The Postal Service recommends that all firearms be sent by registered mail and that no marking of any kind which would indicate the nature of the contents be placed on the outside of any parcel containing firearms. (See also Questions B7 and B8.)

[F15] Must a dealer record firearms received on consignment?

Yes. Firearms received for sale on consignment must be entered in the dealer's "bound book."

Sales of the firearms are handled in the same manner as other firearm sales. Return of the remaining fire-
arms by the licensee to the consignor is entered in the dealer's disposition record. An ATF Form 4473 and a NICS check must be completed.

(F16) To whom does an FFL report stolen or lost firearms?

A theft or loss of firearms must be reported to your local police as well as to ATF within 48 hours after the discovery. Licensees should notify ATF on the 24-hour, 7 days a week toll free line at 1-800-800-3855 and by preparing and submitting ATF Form 3310.11, Federal Firearms Licensee Theft/Loss Report.

Theft or loss of NFA firearms should also be reported to the NFA Branch immediately upon discovery.

[18 U.S.C. 923(g)(6), 27 CFR 478.39 and 479.141]

(F17) If my firearms are stolen or lost, what do I do about my records?

Take an inventory of stock on hand and enter "stolen" or "lost" and the date in the disposition section of the "bound book" for those stolen or lost firearms. In addition, at the time a licensee reports the theft or loss on the ATF toll free line, the licensee will be provided a control number that should be placed in the records as well as on ATF Form 3310.11, Federal Firearms Licensee Theft/Loss Report.

(F18) How many copies of the ATF Form 3310.4, Report of Multiple Sale or Other Disposition of Pistols and Revolvers, must be completed and what becomes of each copy?

ATF Form 3310.4 must be completed in triplicate (3 copies). The original is sent to ATF’s National Tracing Center by FAX at 1-877-283-0288 or by mail to Box 1061, Falling Waters, West Virginia 25419-1061. A copy is to be sent to the designated State police or the local law enforcement agency in the jurisdiction where the sale took place. The remaining copy is to be retained in the records of the dealer and held for not less than 5 years.

[27 CFR 478.126a and 478.129]

(F19) What is my responsibility to respond to a request to trace a firearm?

A licensee must provide the requested information immediately and in no event later than 24 hours after receipt of a request by ATF. Failure to respond to the request for trace information can result in monetary fines, imprisonment, and/or revocation of the licensee's Federal firearms license.

[18 U.S.C. 923(g)(7), 27 CFR 478.25a]

(F20) Does the requirement to give written notification to handgun transferees about juvenile handgun possession apply to a licensed dealer who returns firearms to their owners, for example, handguns that the dealer repaired?

Yes. The requirement to give written notification to nonlicensees applies to the return of handguns, as well as to their sale. It applies even if the licensee ships the repaired firearm to the customer.

[27 CFR 478.103]

(F21) Does the requirement to post a sign on the licensed premises about juvenile handgun possession apply to a licensed dealer who only disposes of handguns to nonlicensees who do not appear at the dealer’s premises?

No. The sign posting requirement does not apply where the licensee only disposes of handguns to nonlicensees who do not appear at the licensed premises (for example, the licensee only ships repaired or replacement handguns to nonlicensees).

[27 CFR 478.103]

G. COLLECTORS

(G1) Is there a specific license which permits a collector to acquire firearms in interstate commerce?

Yes. A person may obtain a collector’s license. However, this license applies only to transactions in curio or relic firearms.

[18 U.S.C. 923(b), 27 CFR 478.41(c), (d), 478.50(b) and 478.93]

(G2) Does a collector’s license afford any privileges to the licensee with respect to acquiring or disposing of firearms other than curios or relics in interstate or foreign commerce?

No. A licensed collector has the same status under the GCA as a nonlicensee except for transactions in curio or relic firearms.

[27 CFR 478.93]

(G3) Does a license as a collector of curio or relic firearms authorize the collector to engage in the business of dealing in curios or relics?

No. A dealer’s license must be obtained to engage in the business of dealing in any firearms, including curios or relics.

[18 U.S.C. 922(a) and 923(a), 27 CFR 478.41]

(G4) Since a licensed firearms dealer may legally deal in curio or relic firearms, is there any reason why a dealer would need both a dealer’s license and collector’s license?

No. A collector’s license enables a collector to obtain curio or relic firearms interstate. A person holding a dealer’s license may also acquire curio or relic firearms interstate, and so there is no need for a licensed dealer to obtain a collector’s license.

(G5) Are licensed collectors required to execute ATF Form 4473 for transactions in curio or relic firearms?

No. However, licensed collectors are required to keep a "bound book" record.

[27 CFR 478.125(f)]

(G6) Are licensed collectors’ transfers of curio or relic firearms subject to the Brady law, including the provision for making background checks on transferees?

No, but it is unlawful to transfer a firearm to any person knowing or having reasonable cause to believe that such person is a felon or is within any other category of person prohibited from receiving or possessing firearms. See also Questions P12 and P13.

[18 U.S.C. 922(d), 27 CFR 478.32(d)]

(G7) Are licensed collectors required to comply with the requirements that written notification be given to handgun transferees and signs be posted on juvenile handgun possession?

The requirement that written notification concerning juvenile handgun possession be given by licensees to a nonlicensee to whom a handgun is delivered applies to curio or relic
handguns transferred by licensed collectors. However, the sign posting requirement does not apply to licensed collectors.

[18 U.S.C. 922(x), 27 CFR 478.103]

(G8) Are licensed collectors required to turn in their acquisition/disposition records to ATF if their collector’s license is not renewed or they discontinue their collecting activity?

No. The GCA requires the delivery of required records to the Government within 30 days after a firearms “business” is discontinued. A license as a collector of curios or relics does not authorize any business with respect to firearms. Therefore, the records required to be kept by licensed collectors under the law and regulations are not business records and are not required to be turned in to ATF when collector’s licenses are not renewed or collecting activity under such licenses is discontinued.

H. MANUFACTURERS

(H1) Must a person who engages in the business of manufacturing and importing firearms have a separate license to cover each type of business?

Yes. A separate license is required to cover each of these types of businesses.

[27 CFR 478.41]

(H2) May a person licensed as a manufacturer of ammunition also manufacture firearms?

No. A person licensed as a manufacturer of ammunition may not manufacture firearms unless he or she obtains a license as a firearms manufacturer.

(H3) May a person licensed as a manufacturer of firearms also manufacture ammunition?

Yes. The person may also manufacture ammunition (not including destructive device ammunition or armor piercing ammunition) without obtaining a separate license as a manufacturer of ammunition.

(H4) Is a person who reloads ammunition required to be licensed as a manufacturer?

Yes, if the person engages in the business of selling or distributing reloads for the purpose of livelihood and profit. No, if the person reloads only for personal use.

[18 U.S.C. 922(a) (i) and 923(a), 27 CFR 478.41]

(H5) Must a licensed manufacturer pay excise taxes?

Yes. Licensed manufacturers incur excise tax on the sale of firearms and ammunition manufactured. See Item 17, “Federal Excise Tax” in the General Information section of this publication.

I. GUNSMITHS

(I1) Is a license needed to engage in the business of engraving, customizing, refinishing or repairing firearms?

Yes. A person conducting such activities as a business is considered to be a gunsmith within the definition of a dealer. See Item 16, “Federal Excise Tax” in the General Information section of this publication.

[27 CFR 478.11]

(I2) Does a gunsmith need to enter in a permanent “bound book” record every firearm received for adjustment or repair?

If a firearm is brought in for repairs and the owner waits while it is being repaired or if the gunsmith is able to return the firearm to the owner during the same business day, it is not necessary to list the firearm in the “bound book” as an “acquisition.” If the gunsmith has possession of the firearm from one business day to another or longer, the firearm must be recorded as an “acquisition” and a “disposition” in the permanent “bound book” record.

(I3) Is an ATF Form 4473 required when a gunsmith returns a repaired firearm?

No, provided the firearm is returned to the person from whom it was received.

[27 CFR 478.124(a)]

(I4) May a gunsmith make immediate repairs at locations other than his or her place of business?

Yes.

(I5) May a licensed gunsmith receive an NFA firearm for purposes of repair?

Yes, for the sole purpose of repair and subsequent return to its owner. It is suggested that the owner obtain permission from ATF for the transfer by completing and mailing ATF Form 5 to the NFA Branch and receive approval prior to the delivery. The gunsmith should do the same prior to returning the firearm.

Only the face of the form needs to be completed in each instance. ATF Forms 5 may be obtained from the Bureau of ATF, NFA Branch. ATF Form 5 is also available on the internet at www.ATF.gov.

(I6) Is a licensed gunsmith required to comply with the requirements to give written notification to handgun transferees and post signs on juvenile handgun possession?

The requirement that written notification on juvenile handgun possession be given to a nonlicensee to whom a handgun is delivered applies to all Federal firearms licensees. It applies to the return of handguns to their owners, as well as to their sale. Thus, a gunsmith who repairs or customizes a nonlicensee’s handgun must provide the notification to the nonlicensee when the handgun is returned. The sign posting requirement also applies to gunsmiths, unless the gunsmith only disposes of handguns to nonlicensees who do not appear at the gunsmith’s licensed premises, for example, when repaired handguns are shipped to nonlicensees.

[18 U.S.C. 922(x), 27 CFR 478.103]

(I7) Is a licensed gunsmith’s return of repaired or customized firearms to their owners subject to the Brady law, including the provision for making background checks on transferees?

No, but it is unlawful to transfer a firearm to any person knowing or having reasonable cause to believe that such person is a felon or is within any other category of person prohibited from receiving or possessing firearms. (See also Question P24.)

[18 U.S.C. 922(d), 27 CFR 478.32(d)]

J. PAWNBROKERS

(J1) What disposition records must be kept by a pawnbroker upon the
redemption of a pawned firearm?

The redemption of a pawned firearm is a "disposition" of a firearm under Federal firearms law and is subject to all the recordkeeping requirements under the SCA. Disposition must be properly entered in the pawnbroker’s "bound book," and ATF Form 4473 must be executed in connection with the redemption.

[27 CFR 478.124 and 478.125]

(J2) What is the procedure for a licensed pawnbroker to return a firearm?

The procedure varies, depending upon the firearm and the situation. ATF Form 4473 must be used in each situation. In addition, any State laws regarding pawn transactions must be followed.

Some Examples:

(1) Pawnbroker and nonlicensee are residents of the same State: The pawnbroker may return a handgun or long gun to either the person who pawned it or a holder of the pawn ticket who resides in the pawnbroker's State.

(2) Pawnbroker and nonlicensee are not residents of the same State:

a. The pawnbroker may return a handgun only to the person who pawned it.

b. The pawnbroker may return a rifle or shotgun to the person who pawned it.

c. The pawnbroker may transfer a rifle or shotgun to the holder of a pawn ticket who did not pawn it, provided the transaction complies with the law of the State where the pawnbroker’s business is located and the law of the State where the pawn ticket holder resides.

[18 U.S.C. 922(a)(2), 922(a)(3) and 922(b)(3)]

(J3) Are there categories of persons to whom a pawnbroker cannot return firearms?

Yes. A pawnbroker cannot lawfully return a firearm to a person who is underage or within a prohibited category of persons to whom the sale or other disposition of the firearm would be unlawful. For example, a pawnbroker cannot lawfully return a pawned handgun to a person who is less than 21 years of age, nor can he or she return a firearm to a convicted felon or to anyone else who is prohibited from receiving the firearm under Federal or State law.

[18 U.S.C. 922(d), 27 CFR 478.99]

(J4) Are licensed pawnbrokers required to comply with the requirements that written notification be given to handgun transferees and signs be posted on juvenile handgun possession?

The requirement that written notification on juvenile handgun possession be given to a nonlicensee to whom a handgun is delivered applies to all types of Federal firearms licensees. It also applies to the return of handguns to their owners, as well as to their sale. Thus, a pawnbroker who returns a handgun to its owner, or to another person, upon its redemption from pawn must provide the notification. The sign posting requirement also applies to licensed pawnbrokers.

[18 U.S.C. 922(x), 27 CFR 478.103]

(J5) Are licensed pawnbrokers’ firearms sales or return of firearms redeemed from pawn subject to the Brady law, including the provision for making background checks of transferees?

Yes. Moreover, as provided by Public Law 105-277, enacted on October 21, 1998, a licensed pawnbroker may also contact the National Instant Criminal Background Check System (NICS) for a background check on a person at the time the person offers to pawn a firearm. If NICS advises the pawnbroker that receipt or possession of the firearm by the person attempting to pawn the firearm would violate the law, the pawnbroker must advise local law enforcement within 48 hours after receipt of the information.

A pawnbroker who contacts NICS about a person prior to accepting the person’s firearm in pawn must still comply with the requirements of the Brady law at the time of the firearm’s redemption, i.e., the pawnbroker must contact NICS for another background check at the time of redemption. (See also Questions P17 through P23.)

K. AUCTIONEERS

(K1) Does an auctioneer who is involved in firearms sales need a dealers license?

Generally speaking, there are two types of auctions: estate-type auctions and consignment auctions.

In estate-type auctions, the articles to be auctioned (including firearms) are being sold by the executor of the estate of an individual. The firearms belong to and are possessed by the executor. The firearms are controlled by the estate, and the sales of firearms are being made by the estate. The auctioneer is acting as an agent of the executor and assisting the executor in finding buyers for the firearms. In these cases, the auctioneer does not meet the definition of engaging in business as a dealer in firearms and would not need a license. An auctioneer who does have a license may perform this function away from his or her licensed premises.

In consignment-type auctions, an auctioneer often takes possession of firearms in advance of the auction. These firearms are generally inventoried, evaluated, and tagged for identification. The firearms belong to individuals who have entered into a consignment agreement with the auctioneer giving that auctioneer authority to sell the firearms. The auctioneer therefore has possession and control of the firearms. Under these circumstances, an auctioneer would generally need a license. If you are not sure if a license is needed in a particular consignment auction situation, contact your local ATF office.

See ATF Ruling 96-2.

(K2) If a licensed auctioneer is making sales of firearms, where may those sales be made?

In a consignment auction, firearms may be displayed at an auction site away from the auctioneer’s licensed premises and sales of the firearms can be agreed upon at that location, but delivery may only be made to purchasers after the firearms have been returned to the auctioneer’s licensed premises. The simultaneous sale and delivery of the auctioned firearms away from the licensed premises would violate the law, i.e., engaging in business at an unlicensed location.

However, if the auctioneer is assisting an estate in disposing of firearms, the estate is the seller of the firearms and the estate is in control and possession of the firearms. In this situa-
tion, the firearms may be delivered from the auction site. See also Question K1 and ATF Ruling 96-2.

L. IMPORTING AND EXPORTING

(L1) May a licensed dealer who does not have an importer’s license make an occasional importation?

Yes. A licensed dealer may make an occasional importation of a firearm for a nonlicensee or for the licensee’s personal use (not for resale). The licensee must first submit an ATF Form 6, Part I to ATF for approval. The licensee may then present the Form 6, Part I to U.S. Customs and Border Protection. Contact the Bureau of ATF, Firearms and Explosives Imports Branch for forms, or download them from the ATF webpage at www.ATF.gov.

(L2) Does a licensee need an export license to export a firearm?

The GCA does not require export licenses. However, most firearms and ammunition must be exported in accordance with the provisions of the Arms Export Control Act of 1976. Regulations implementing this Act generally require a license to be obtained from the Directorate of Defense Trade Controls, Department of State, PM/DDTC, SA-1, Room 1200, 2401 E St., N.W., Washington, DC 20037; (202) 663-1282.

The export of sporting shotguns and ammunition for sporting shotguns is regulated by the U.S. Department of Commerce rather than the State Department. An export license is generally required to export these shotguns and ammunition. For further information, contact them at their nearest district office or the Bureau of Industry and Security, Outreach and Educational Services Division, U.S. Department of Commerce, 14th St. & Pennsylvania Ave. N.W., Washington, DC 20230, (202) 482-4811.

When exporting NFA firearms, ATF Form 9 must be completed and approved by ATF prior to export.

(L3) Does ATF regulate the importation of gas masks?

Yes. Gas masks are "defense articles" subject to regulation under the Arms Export Control Act. ATF regulates the importation of gas masks and generally requires an ATF Form 6 import permit for lawful importation of these items. The standard processing time is 4-6 weeks from the date ATF’s Firearms and Explosives Imports Branch receives a complete Form 6 application. You can download the Form 6 at www.ATF.gov.

(L4) What must I do to import gas masks for resale?

A commercial importer must be registered in accordance with the Arms Export Control Act. You can download the application to register, ATF Form 5330.4 (4587), Application to Register as an Importer of U.S. Munitions Import List Articles, at www.ATF.gov. There is a fee and the processing time is 2-4 weeks.

M. FIREARMS - NATIONAL FIREARMS ACT (NFA)

(M1) The types of firearms that must be registered in the National Firearm Registration and Transfer Record are defined in the NFA and in 27 CFR Part 479. What are some examples?

Some examples of the types of firearms that must be registered are:

- Machineguns;
- The frames or receivers of machineguns;
- Any combination of parts designed and intended for use in converting weapons into machineguns;
- Any part designed and intended solely and exclusively for converting a weapon into a machinegun;
- Any combination of parts from which a machinegun can be assembled if the parts are in the possession or under the control of a person;
- Silencers and any part designed and intended for fabricating a silencer;
- Short-barreled rifles;
- Short-barreled shotguns;
- Destructive devices; and,
- "Any other weapon."

A few examples of destructive devices are:

- Molotov cocktails;
- Anti-tank guns (over caliber .50);
- Bazookas;
- Mortars.

A few examples of "any other weapon" are:

- H&R Handguns;
- Ithaca Auto-Burglar guns;
- Cane guns; and,
- Gadget-type firearms and "pen" guns which fire a projectile by the action of an explosive.

[26 U.S.C. 5845]

(M2) How can an individual legally acquire NFA firearms?

Basically, there are 2 ways that an individual (who is not prohibited by Federal, State, or local law from receiving or possessing firearms) may legally acquire NFA firearms:

1. By transfer after approval by ATF of a registered weapon from its lawful owner residing in the same State as the transferee.

2. By obtaining prior approval from ATF to make NFA firearms.

[27 CFR 479.62-66 and 479.84-86]

(M3) What is the tax on making an NFA firearm?

The tax is $200 for making any NFA firearm, including "any other weapon."

(M4) How is this tax paid?

A money order or check made payable to the Bureau of ATF together with the application forms are to be mailed to the Bureau of ATF, NFA Branch.

(M5) What is an unserviceable firearm?

An unserviceable firearm is defined as one which is incapable of discharging a shot by means of an explosive and which is incapable of being readily re-stored to a firing condition.

An acceptable method of rendering most firearms unserviceable is to fusion weld the chamber closed and fusion weld the barrel solidly to the frame. Certain unusual firearms re-
quire other methods to render the firearms unserviceable.

An unserviceable NFA firearm is still subject to the controls of the NFA, but may be transferred tax free as a curio or ornament.

[26 U.S.C. 5845(h) and 5862, 27 CFR 479.11 and 479.91]

(M6) What happens when a State acquires an unregistered NFA firearm through seizure or abandonment?

When a State wants to keep such NFA firearms for official use, they must be registered by filing ATF Form 10 with the Bureau of ATF, NFA Branch.

Since approval of the Form 10 is conditioned on an "official use only" basis, subsequent transfers will not be approved except if the transfer is to another government agency for official use.

[27 CFR 479.104]

(M7) May a private citizen who owns an NFA firearm which is not registered have the firearm registered?

No. The NFA permits only manufacturers, makers, and importers to register firearms. Mere possessors may not register firearms. An unregistered NFA firearm is a contraband weapon and it is unlawful to possess the weapon. The possessor should contact the nearest ATF office to arrange for its disposition.

[26 U.S.C. 5861(d)]

(M8) What can happen to someone who has an NFA firearm which is not registered to him?

Violators may be fined not more than $250,000, and imprisoned not more than 10 years, or both. In addition, any vessel, vehicle or aircraft used to transport, conceal or possess an unregistered NFA firearm is subject to seizure and forfeiture, as is the weapon itself.

(M9) What should a person do if he or she comes into possession of an unregistered NFA firearm?

Contact the nearest ATF office immediately.

(M10) Are there any exemptions from the making or transfer tax provisions of the NFA?

Yes. These are noted below, along with the required form number, if any, to apply for the exemption. Completed forms must be approved by the NFA Branch prior to the making or transfer:

1. Tax-exempt transfer and registration of a firearm between special (occupational) taxpayers: ATF Form 3.
2. Tax-exempt making of a firearm on behalf of a Federal or State agency: ATF Form 1. Tax-exempt transfer and registration of the firearm on behalf of a Federal or State agency: ATF Form 5.
3. A licensed manufacturer under contract to make NFA firearms for the U.S. Government may be granted an exemption from payment of the special (occupational) tax as a manufacturer of NFA firearms and an exemption from all other NFA provisions (except importation) with respect to the weapons made to fulfill the contract. Exemptions are obtained by writing the NFA Branch, stating the contract number(s) and the anticipated date of termination. This exemption must be renewed each year prior to July 1.
4. Tax-exempt transfer and registration of an unserviceable firearm which is being transferred as a curio or ornament: ATF Form 5.
5. Tax-exempt transfer of a firearm to a lawful heir: ATF Form 5.
6. Tax-exempt transfer by operation of law (e.g., court order).

[26 U.S.C. 5851-5853, 27 CFR 479.69, 479.70 and 479.85-91]

(M11) How does a person qualify to import, manufacture, or deal in NFA firearms?

The person must be licensed under the GCA and pay the required special (occupational) tax imposed by the NFA. After becoming licensed under the GCA, he or she must file ATF Form 5307.7 with the appropriate tax payment in the entire amount with ATF. In addition, an importer (except importers of sporting shotguns and shotgun ammunition) must also be registered with ATF under the Arms Export Control Act of 1976.

(M12) When must firearms special (occupational) taxes be paid and how much are the taxes?

These taxes must be paid in full on first engaging in business and thereafter on or before the first day of July. The current taxes are set out in the following table.

------------------------------------------------------------------------
CLASS OF TAXPAYER                     ANNUAL FEE
------------------------------------------------------------------------
1 Importer of Firearms
   (Including "Any Other Weapon") $100.00
2 Manufacturer of Firearms
   (Including "Any Other Weapon") $100.00
3 Dealer of Firearms
   (Including "Any Other Weapon") $500.00
1 Importer of Firearms
   (Including "Any Other Weapon") $500.00
   REDUCED*
2 Manufacturer of Firearms
   (Including "Any Other Weapon") $500.00
   REDUCED*
------------------------------------------------------------------------
* REDUCED = Rates which apply to certain taxpayers whose total gross receipts in the last taxable year are less than $500,000.

(M13) Does a single special (occupational) tax payment entitle a person or firm to import and manufacture firearms?

No. A separate special (occupational) tax payment must be made for each of these activities. However, Class 1 (importer) and Class 2 (manufacturer) special (occupational) taxpayers are qualified to deal in NFA firearms without also having to pay special (occupational) tax as a Class 3 dealer.

[27 CFR 479.39]

(M14) May a licensed collector obtain NFA firearms in interstate commerce?

Only if the firearms are classified as curios or relics, are registered, and are transferred in accordance with the provisions of the NFA. See Question M15.

(M15) What are the required transfer procedures for an individual who is not qualified as a manufacturer, importer, or dealer of NFA firearms?
ATF Form 4 (5320.4) must be completed, in duplicate. The transferee first completes the face of the form. The transferee completes the transferee's certification on the reverse of the form and must have the "Law Enforcement Certification" completed by the chief law enforcement officer.

The transferee is to place, on each copy of the form, a 2-inch by 2-inch photograph of the transferee taken within the past year (proofs, group photographs or photocopies are unacceptable). The transferee's address must be a street address, not a post office box. If there is no street address, specific directions to the residence must be included.

If State or local law requires a permit or license to purchase, possess, or receive NFA firearms, a copy of the transferee's permit or license must accompany the application. A check or money order for $200 ($5 for transfer of "any other weapon") shall be made payable to ATF by the transferee. All signatures on both copies must be in ink.

Fingerprints also must be submitted on FBI Form FD-258, in duplicate. Fingerprints must be taken by a person qualified to do so, and must be clear and classifiable. If wear or damage to the fingertips do not allow clear prints, and if the prints are taken by a law enforcement official, a statement on his or her official letterhead giving the reason why good prints are unobtainable should accompany the fingerprints.

Forward the completed application and appropriate tax payment to the Bureau of ATF, P.O. Box 73201, Chicago, IL 60673.

Transfer of the NFA firearm may be made only upon approval of the ATF Form 4 by the NFA Branch. If the application is approved, the original of the form with the cancelled stamp affixed showing approval will be returned to the applicant. If the tax application is denied, the tax will be refunded.

Upon approval of the ATF Form 4, the transferor should transfer the firearm as soon as possible, since the firearm is now registered to the transferee.

[26 U.S.C. 5812, 27 CFR 479.84-86]

(M16) How does an individual obtain authorization to make an NFA firearm?

Prior to making a firearm, the individual must submit ATF Form 1, Application to Make and Register a Firearm, to the Bureau of ATF, NFA Branch, and receive approval. The applicant must follow the procedures described in Question M15 concerning photographs, fingerprints and certifications. The applicant must forward the original and a duplicate of the form along with a check or money order for $200 made payable to the Bureau of ATF. If the application is approved, the original of the form with the cancelled stamp affixed showing approval will be returned to the applicant. If the application is denied, the tax will be refunded.

Applications to make a firearm will not be approved if Federal, State, or local law prohibits possession of the firearm.

[26 U.S.C 5822, 27 CFR 479.61-65]

(M17) Are parts which would convert a firearm into an NFA firearm subject to registration?

Yes. Examples:

- An M-2 conversion kit (See Question M29);
- Any part designed and intended solely and exclusively to convert a weapon into a machinegun. (See Question M1.)

(M18) What law enforcement officials' certifications on an application to transfer or make an NFA weapon are acceptable to ATF?

As provided by regulations, certifications by the local chief of police, sheriff of the county, head of the State police, or State or local district attorney or prosecutor are acceptable. The regulations also provide that certifications of other officials are appropriate if found in a particular case to be acceptable to the Director. Examples of other officials who have been accepted in specific situations include State attorneys general and judges of State courts having authority to conduct jury trials in felony cases.

[27 CFR 479.63 and 479.85]

(M19) Is the chief law enforcement officer required to sign the law enforcement certification on ATF Form 1 or ATF Form 4?

No law enforcement officer can be compelled to sign the law enforce-
(M23) May a transferor submit an application to transfer an NFA firearm prior to the date on which the transferor receives the weapon?  

No.

(M24) If a person has a pistol and an attachable shoulder stock, does this constitute possession of an NFA firearm?

Yes, unless the barrel of the pistol is at least 16 inches in length (and the overall length of the firearm with stock attached is at least 26 inches). However, certain stocked handguns, such as original semiautomatic Mauser "Broomhandles" and Luger pistols, have been removed from the purview of the NFA as collectors' items.

[M25] Does the owner of a registered NFA firearm have to have any evidence to show it is registered lawfully to him or her?

Yes. The approved application received from ATF serves as evidence of registration of the NFA firearm in the owner's name. This document must be kept available for inspection by ATF officers. It is suggested that a photocopy of the approved application be carried by the owner when the weapon is being transported.

(M26) What is the status of unloaded or dummy grenades, artillery shell casings and similar devices?

Unloaded or dummy grenades, artillery shell casings, and similar devices, which are cut or drilled in an ATF approved manner so that they cannot be used as ammunition components for destructive devices are not considered NFA weapons.

(M27) Are muzzleloading cannons classified as destructive devices?

Generally, no. Muzzleloading cannons not capable of firing fixed ammunition and manufactured in or before 1898 and replicas thereof are antiques and not subject to the provisions of either the GCA or the NFA.

[M28] Are grenade and rocket launcher attachments destructive devices?

Grenade and rocket launcher attachments for use on military type rifles generally do not come within the definition of destructive devices. However, the grenades and rockets used in these devices are generally within the definition.

[M29] What is a "conversion kit?"

A conversion kit is any part or combination of parts designed and intended for use in converting a weapon into a machinegun. A conversion kit is a machinegun for purposes of the NFA. (See Question M17.)

[M30] Are Paintball and/or Airgun Sound Suppressors NFA firearms?

The terms "firearm silencer" and "firearm muffler" mean any device for silencing, muffling, or diminishing the report of a portable firearm, including any combination of parts, designed or redesigned, and intended for use in assembling or fabricating a firearm silencer or firearm muffler, and any part intended only for use in such assembly or fabrication.

Numerous paintball and airgun sound suppressors tested by ATF's Firearms Technology Branch have been determined to be, by nature of their design and function, firearm silencers. Because silencers are NFA weapons, an individual wishing to manufacture or transfer such a silencer must receive prior approval from ATF and pay the required tax. See Questions M15 and 16 for application details.

If I have any further questions as to the classification of a paintball or airgun silencer, who should I contact?

Please send a written request to ATF's Firearms Technology Branch.

[N] MACHINEGUNS - NATIONAL FIREARMS ACT (NFA)

(N1) May an unlicensed person make a machinegun?

Generally, no. However, if documentation can be provided, along with the Application to Make a Machinegun, which establishes that the weapon is being made for distribution to a Federal or State agency, an individual may be permitted to make the machinegun.

(N2) May machineguns be transferred from one registered owner to another?

Yes. If the machinegun was lawfully registered and possessed before May 19, 1986, it may be transferred pursuant to an approved ATF Form 4.

[O] SEMIAUTOMATIC ASSAULT WEAPONS AND LARGE CAPACITY AMMUNITION FEEDING DEVICES (SAWs and LCAFDs)

(O1) What was the semiautomatic assault weapon (SAW) ban?

The SAW ban was enacted on September 13, 1994, by PL 103-322, Title IX, Subtitle A, section 110105. The ban made it unlawful to manufacture, transfer, or possess SAWs. The law defined SAWs as 19 named firearms, as well as semiautomatic rifles, pistols, and shotguns that have certain named features. The ban was codified at 18 U.S.C. § 922(v). SAWs lawfully possessed on September 13, 1994 were not covered by the ban. There also were certain exceptions, such as possession by law enforcement.

(O2) Was the SAW ban permanent?

No. The law enacting the ban provided that it would expire 10 years from the date of enactment, which was September 13, 1994. Therefore, effective 12:01 a.m. on September 13, 2004, the provisions of the law ceased to apply.

(O3) What was the Large Capacity Ammunition Feeding Device (LCAFD) ban?

The LCAFD ban was enacted along with the SAW ban on September 13, 1994. The ban made it unlawful to transfer or possess LCAFDs. The law generally defined a LCAFD as a magazine, belt, drum, feed strip, or similar device manufactured after September 13, 1994 that has the capacity of, or can be readily restored or converted to accept, more than 10 rounds of ammunition. The ban was codified at 18 U.S.C. § 922(w). As with SAWs, there were certain exceptions to the ban, such as possession by law enforcement.

(O4) Was the LCAFD ban permanent?

No. The law enacting the ban provided that it would expire 10 years from the date of enactment, which was September 13, 1994. Therefore, effective 12:01 a.m. on September 13, 2004, the provisions of the law ceased to apply.
(O5) Does expiration of the ban affect records maintained by licensed manufacturers, importers and dealers?

Yes. Federal firearms licensees are no longer required to collect special records regarding the sale or transfer of SAWs and LCAFDs for law enforcement or government sales. However, existing records on SAWs and LCAFDs must still be maintained for a period of 5 years. Moreover, records of importation and manufacture must be maintained permanently and licensees must maintain all other acquisition and disposition records for 20 years.

(07) Does the expiration of the SAW ban change laws regarding assembly of non-sporting shotguns and semiautomatic rifles from imported parts?

No. The provisions of section 922(r) of the GCA and the regulations in 27 CFR 478.39 regarding assembly of non-sporting shotguns and semiautomatic rifles from imported parts still apply.

(09) Does the expiration of the SAW ban affect firearms under the National Firearms Act?

All provisions of the National Firearms Act (NFA) relating to registration and transfer of machineguns, short-barreled rifles, weapons made from rifles, short-barreled shotguns, weapons made from shotguns, any other weapons as defined in 26 USC section 5845(e), silencers, and destructive devices still apply. However, it is now lawful to possess NFA firearms that are also semiautomatic assault weapons, as long as all provisions of the NFA are satisfied.

For example, USAS-12 and Striker12/ Street-sweeper shotguns are still classified as destructive devices under ATF Rulings 94-1 and 94-2 and must be possessed and transferred in accordance with the NFA.

(10) Can tribal law enforcement entities now possess SAWs and LCAFDs?

Yes.

(11) Does the expiration of the ban affect State law?

Expiration of the federal law will not change any provisions of State law or local ordinances. Questions concerning State assault weapons restrictions should be referred to State and local authorities.

P. BRADY LAW

Editor’s Note:

Unless otherwise noted, these questions and answers relate to the permanent provisions of the Brady law found in section 922(t) of the Gun Control Act. These provisions, including the requirement for licensees to initiate background checks of individuals to whom firearms are transferred by contacting the National Instant Criminal Background Check System (NICS), became effective on November 30, 1998. They replace the interim provisions of the Brady law that imposed a Federal 5-day waiting period on licensees’ sales of handguns and required the sending of Brady forms to State or local officials.

(P1) Who must comply with the requirements of the Brady law?

Federally licensed firearms importers, manufacturers, and dealers must comply with the Brady law prior to the transfer of any firearm to a nonlicensed individual.

[18 U.S.C. 922(t), 27 CFR 478.102]

(P2) When did the provisions of the permanent Brady law take effect?

The permanent Brady law went into effect on November 30, 1998. Accordingly, any transfer occurring on or after November 30, 1998, is subject to the requirements of this law.

(P3) Is NICS operated by ATF?

No. NICS is operated by the Federal Bureau of Investigation (FBI).

(P4) Do all NICS checks go through the FBI's NICS Operations Center?

No. In many States, licensees initiate NICS checks through the State point of contact (POC).

(P5) If the State is acting as a point of contact (POC), does that mean that all NICS checks go through the POC rather than the FBI?

That depends on the State. In some States, the POC conducts background checks for all firearms transactions. In other States, licensees must contact the POC for handgun transactions and the FBI for long gun transactions. In some POC States, NICS checks for pawn redeemptions are handled by the FBI.

(P6) How does a licensee know whether to contact the FBI or a State point of contact (POC) in order to initiate a NICS check?

Prior to November 30, 1998, ATF sent an open letter to licensees in each State, providing the licensees with instructions as to how to initiate a NICS check in their State. ATF has alerted FFLs if their State’s procedures have changed since this time. Your local ATF office can advise you...
on the appropriate point of contact for NICS checks or you can check the ATF webpage at [www.ATF.gov](http://www.ATF.gov).

(P7) Is there a charge for NICS checks?

The FBI does not charge a fee for conducting NICS checks. However, States that act as points of contact for NICS checks may charge a fee consistent with State law.

(P8) Must licensees enroll with the FBI to get access to NICS?

Licensees must be enrolled with the FBI before they can initiate NICS checks through the FBI’s NICS Operations Center. Licensees who have not received an enrollment package from the FBI should call the FBI NICS Operations Center at 1-877-444-6427 and ask that an enrollment package be sent to them. Licensees in States where a State agency is acting as a point of contact for NICS checks should contact the State for enrollment information.

(P9) Does the Brady law apply to the transfer of long guns as well as handguns?

Yes.

(P10) Does the Brady law apply to the transfer of antique firearms?

No. Licensees need not comply with the Brady law when transferring a weapon that meets the Gun Control Act’s definition of an “antique firearm.”

(P11) Does the Brady law apply to the transfer of firearms between two licensees?

No. The Brady law only applies when a licensed importer, manufacturer, or dealer is transferring a firearm to a nonlicensee.

(P12) Must licensed collectors comply with the Brady law prior to transferring a curio or relic firearm?

No. Transfers of curio or relic firearms by licensed collectors are not subject to the requirements of the Brady law.

(P13) Is the transfer of a firearm by a licensed dealer to a licensed collector subject to the Brady law?

The Brady law does not apply to the transfer of a curio or relic firearm to a licensed collector. However, a licensed collector who acquires a firearm other than a curio or relic from a licensee would be treated like a nonlicensee, and the transfer would be subject to Brady requirements.

(P14) Must a licensed importer, manufacturer or dealer comply with the Brady law when selling firearms from his or her own personal collection?

No, provided the licensee has maintained the firearm as part of his personal collection for at least 1 year from the date the firearm was transferred from his business inventory into his personal collection or otherwise acquired as a personal firearm and the licensee complies with the recordkeeping requirements in 27 CFR 478.125(a).

(P15) Do the provisions of the Brady law apply to a licensee’s loan or rental of a firearm to a nonlicensee?

If the firearm is loaned or rented for use on the licensee’s premises, the transaction is not subject to the Brady law. However, if the firearm is loaned or rented for use off the premises, the licensee must comply with the Brady law.

(P16) Must licensees conduct NICS checks for sales of firearms to nonlicensees at gun shows?

Yes. A licensed importer, manufacturer, or dealer may not transfer a firearm to a nonlicensee at a gun show without first complying with the requirements of the Brady law.

(P17) Is the redemption of a pawned firearm subject to the Brady law?

Yes. Unlike the interim Brady law, the permanent Brady law that went into effect on November 30, 1998 does not contain an exemption for the return of a firearm to the individual from whom it was received. Accordingly, the redemption of a pawned firearm is considered a transfer subject to the permanent Brady law.

(P18) What should a licensed pawnbroker do with a firearm he or she has in pawn when the NICS check results in a “denied” transaction?

The licensee cannot transfer the firearm to the transferee without violating the law and placing the transferee in violation of the law. Licensees with additional questions should contact their local ATF office.

(P19) If an individual repeatedly pawns the same firearm, is the FFL required to do a NICS check each time the firearm is redeemed?

Yes. The fact that the transferee has redeemed the firearm before does not excuse the pawnbroker from complying with the Brady law.

(P20) Can licensed pawnbrokers conduct NICS checks prior to accepting a firearm in pawn?

Yes. The law provides that a NICS check may be done, on an optional basis, prior to accepting a firearm in pawn. If the check results in a “denied” response, the licensee is required to notify local law enforcement officials within 48 hours after receipt of the “denied” response.

(P21) If a pawnbroker conducts an optional NICS check prior to receiving a firearm in pawn, should the owner of the firearm complete a Form 4473 before the pawnbroker contacts NICS?

Yes. The licensee is required to notify local law enforcement officials within 48 hours after receipt of the “denied” response. If the licensee has not notified the local officials within 48 hours, the sale of the firearm is void. The licensee then must comply with the recordkeeping requirements in 27 CFR 478.125(a).

(P22) What should a licensed pawnbroker do when he or she gets a “denied” response from an optional NICS check conducted prior to the receipt of a firearm in pawn?

ATF suggests that licensees have the owner complete Section A of the Form 4473, record the results of the NICS check on the form, and retain the form in their records for at least 5 years.

(P23) If a licensed pawnbroker conducts a NICS check prior to accepting a firearm in pawn, and gets an “approved” response from NICS, must the pawnbroker conduct another NICS check if the firearm is redeemed from pawn?

Yes, unless the owner complies with the recordkeeping requirements in 27 CFR 478.125(a).

What if it is redeemed from pawn the same day?

 However, if the firearm is loaned or rented for use off the premises, the licensee must comply with the Brady law.

(P16) Must licensees conduct NICS checks for sales of firearms to nonlicensees at gun shows?

Yes. A licensed importer, manufacturer, or dealer may not transfer a firearm to a nonlicensee at a gun show without first complying with the requirements of the Brady law.

(P17) Is the redemption of a pawned firearm subject to the Brady law?

Yes. Unlike the interim Brady law, the permanent Brady law that went into effect on November 30, 1998 does not contain an exemption for the return of a firearm to the individual from whom it was received. Accordingly, the redemption of a pawned firearm is considered a transfer subject to the permanent Brady law.

(P18) What should a licensed pawnbroker do with a firearm he or she has in pawn when the NICS check results in a “denied” transaction?

The licensee cannot transfer the firearm to the transferee without vio-
The law provides that another NICS check must be done at the time of redemption, regardless of how recently the pre-pawn NICS check was conducted. Even if the firearm is redeemed the same day, a separate NICS check must be conducted at the time of redemption.

(P24) A firearm is delivered to a licensee by an unlicensed individual for the purpose of repair. Is the return of the repaired firearm subject to the requirements of the Brady law? Would the transfer of a replacement firearm from the licensee to the owner of the damaged firearm be subject to the requirements of the Brady law?

Neither the transfer of a repaired firearm nor the transfer of a replacement firearm would be subject to the requirements of the Brady law. Furthermore, the regulations provide that a Form 4473 is not required to cover these transactions. However, the licensee’s permanent acquisition and disposition records should reflect the return of the firearm or the transfer of a replacement firearm.

(P25) Is a licensee’s return of a consigned firearm to an unlicensed individual subject to permanent Brady?

Yes.

(P26) Do the requirements of the Brady law apply to sales of firearms to law enforcement officials for official use?

Transfers of firearms to law enforcement officials for their official use are exempt from the provisions of the Brady law when the transaction complies with the conditions set forth in the regulations at 27 CFR 478.134. In general, the purchaser must provide a certification on agency letterhead, signed by a person in authority within the agency (other than the officer purchasing the firearm), stating that the officer will use the firearm in official duties, and that a records check reveals that the purchasing officer has no convictions for misdemeanor crimes of domestic violence. If these conditions are met, the purchasing officer is not required to complete a Form 4473 or undergo a NICS check. However, the licensee must record the transaction in his or her permanent records and retain a copy of the certification letter.

(P27) Do the requirements of the Brady law apply to the sale of a firearm to a law enforcement official for his or her personal use?

Yes. In such transactions, the law enforcement official is treated no differently from any other unlicensed transferee, and a NICS check must be conducted.

(P28) Are there exceptions to the Brady law’s requirement for a NICS check prior to a licensee’s transfer of a firearm to an unlicensed individual?

Firearm transfers are exempt from the requirement for a NICS check in 3 situations. These include transfers: (1) to buyers having a State permit that has been recognized by ATF as an alternative to a NICS check; (2) of National Firearms Act weapons approved by ATF; and (3) certified by ATF as exempt because compliance with the NICS check requirement is impracticable.

(P29) What steps must be followed by an FFL prior to transferring a firearm subject to the requirements of the Brady law?

The following steps must be followed prior to transferring a firearm:

1. The licensee must have the transferee complete and sign ATF Form 4473, Firearms Transaction Record.
2. The licensee must verify the identity of the transferee through a government-issued photo identification document.
3. The licensee must contact NICS through either the FBI or a State point of contact (POC). The licensee initially will get either a “proceed” or “delayed” response from NICS. If the licensee gets a “proceed” response, the firearm may be transferred if there is no additional State waiting period. If the licensee gets a “delayed” response, the transaction is in “open” status and that more research is required prior to a NICS “proceed” or “denied” response. If the licensee gets a “delayed” response and there is no additional response from the FBI or POC, the licensee may transfer the firearm after 3 business days have elapsed. Of course, the licensee must still comply with any waiting period requirements under State law. FFLs contacting the FBI directly will receive information from the FBI indicating when the 3 business days time period elapses on “delayed” transactions.

If the licensee gets a “denied” response prior to the 3 business days elapsing, the firearm cannot be transferred.

In addition, after conducting additional research, the FFL may provide the FFL with a “cancelled” response. Transactions will be cancelled if the FBI discovers that the NICS check was not initiated in accordance with ATF or FBI regulations, e.g., information received from the Bureau of Immigration and Customs Enforcement demonstrates an alien cannot meet the requirement of 90 days of continuous state residence, or a NICS check was initiated for a non-authorized purpose or by a non-authorized individual. A licensee cannot transfer a firearm when he gets a “cancelled” response.

(P30) What form of identification must a dealer obtain from a purchaser under the Brady law?

The identification document presented by the purchaser must have a photograph of the purchaser, as well as the purchaser’s name, address, and date of birth. The identification document must also have been issued by a governmental entity for the purpose of identification of individuals. An example of an acceptable identification document is a driver’s license.

(P31) Under the Brady law, may a licensee transfer a firearm to a nonlicensed individual who does not appear in person at the licensed premises?

In any transaction that is subject to the requirement for a NICS check, the firearm may only be sold over-the-counter. Unless the purchaser appears in person at the licensed premises, the licensee cannot comply with the requirement in the Brady law that the identity of the purchaser be verified by means of a government-issued photo identification document.

(P32) If no NICS check is required, may a licensee transfer a firearm to
a nonlicensed individual who does not appear in person at the licensed premises?

Yes, assuming the transaction otherwise complies with Federal and State law. For example, a licensee may still ship firearms to out-of-state law enforcement officials for official use, as long as the transaction complies with the alternate procedure set forth in the regulations at 27 CFR 478.134. Furthermore, licensees may ship firearms intrastate to State residents who have valid permits that have been recognized as alternatives to the NICS check requirements, in compliance with the procedures set forth in 18 U.S.C. 922(c) and 27 CFR 478.96(b).

(P33) Is the transferee required to provide his or her social security number on the ATF Form 4473?

No. This information is solicited on an optional basis. However, providing this information will help ensure the lawfulness of the sale and avoid the possibility that the transferee will be incorrectly identified as a felon or other prohibited person.

[27 CFR 478.124]

(P34) Will NICS provide an instant response?

NICS will not always provide an instant response. Licensees will receive either a "proceed," "denied," “delayed,” or "cancelled" response from NICS. If a "proceed" response is received, the transfer may proceed. If a "denied" response is received, the transfer may not proceed. If a "delayed" response is received, the transfer must be delayed until a "proceed" response is received from NICS or until the lapse of 3 business days, whichever occurs first. Of course, the licensee must still comply with any waiting period requirements under State law. See Question P29 for a discussion of cancelled transactions.

(P35) For purposes of the Brady law, what is meant by a “business day”?

A business day is defined as any day on which State offices are open.

(P36) If a licensee contacts NICS on Thursday, December 2, and gets a "delayed" response, when may the licensee transfer the firearm if no further response is received from NICS?

The firearm may be transferred on Wednesday, December 8. Assuming State offices are open on Friday, Monday, and Tuesday, and closed on Saturday and Sunday, 3 business days would have elapsed at the end of Tuesday, December 7. Therefore, the licensee may transfer the firearm at the start of business on Wednesday, December 8. The 3 business days do not include the day the NICS check is initiated.

(P37) What should a licensee do if he or she gets a "denied" response from NICS or a State point of contact after 3 business days have elapsed, but prior to the transfer of the firearm?

If the licensee receives a "denied" response at any time prior to the transfer of the firearm, he or she may not transfer the firearm.

[18 U.S.C. 922(d)]

(P38) What should an FFL tell a transferee who is denied by NICS?

The FFL should inform the transferee that the NICS check indicates that the transfer of the firearm should not be made, but that it does not provide a reason for the denial. The FFL should provide the transferee with the NICS or State transaction number and an appeals brochure. The FBI has provided FFLs with brochures that outline the transferee's appeal rights and responsibilities. If you do not have any, the FBI can provide them.

(P39) If a transferee receives a "denied" response from NICS, can the transferee find out why he or she was denied?

Yes. Although the FFL will not know the reason for the denial, the transferee may contact the FBI or the State point of contact in writing to request the reason for denial.

(P40) What information do FFLs have to record on ATF Form 4473 once they hear back from NICS or the State point of contact?

FFLs must record any initial "proceed", "delayed", or "denied" response received, as well as any transaction number provided. If the initial NICS response was "delayed," FFLs also must record the date a later "proceed" or "denied" response was received, or that no resolution was provided within 3 business days if they transfer the firearm after the 3 days. In addition, if an FFL receives a response from NICS after a firearm has been transferred, he or she must record this information.

[27 CFR 478.124(c) (3) (iii)]

(P41) What should licensees do if no transaction number is provided?

The FBI's NICS Operations Center will always provide a transaction number at the time of the initial inquiry. Some State points of contact (POC) may not provide a transaction number for denied transactions. If a State POC does not provide a transaction number for a denied transaction, then the licensee should just record the response without a transaction number. Licensees should note, however, that a transaction number is required if a "proceed" response is issued and the firearm is being transferred within 3 business days of the initiation of a NICS check.

(P42) Do FFLs have to keep a copy of ATF Form 4473 if the transaction is denied or for some other reason is not completed?

FFLs must keep a copy of each ATF Form 4473 for which a NICS check has been initiated, regardless of whether the transfer of the firearm was made. If the transfer is not made, the FFL must keep the Form 4473 for 5 years after the date of the NICS inquiry. If the transfer is made, the FFL must keep the Form 4473 for 20 years after the date of the sale or disposition. Forms 4473 with respect to a transfer that did not take place must be separately maintained.

[27 CFR 478.129(b)]

(P43) When should FFLs contact NICS?

FFLs should contact NICS after the transferee has completed Section A of the ATF Form 4473.

(P44) For what period of time is a NICS check valid?

A NICS check is valid for 30 calendar days, as long as it applies to a single transaction. An FFL may not rely on a NICS check that was conducted more than 30 calendar days prior to the transfer of the firearm.

Example: A NICS check is initiated on December 15, 2004. The FFL receives a “proceed” from NICS. The purchaser does not return to
pick up the firearm until January 22, 2005. The FFL must conduct another NICS check before transferring the firearm to the purchaser, and must record the results of the check on the Form 4473.

[27 CFR 478.124(c)]

(P45) Is a NICS check valid for 30 days from when the check was initiated, or from when a “proceed” is issued?

The NICS check is valid for 30 days from when the check was initiated.

Example: A NICS check is initiated on December 15, 2004. The FFL receives a “proceed” response from NICS on December 17, 2004. The purchaser does not return to pick up the firearm until January 16, 2005. The FFL must conduct another NICS check before transferring the firearm to the purchaser.

Example: A NICS check is initiated on December 15, 2004. The FFL receives a “delayed” response from NICS; no further response is received. The purchaser does not return to pick up the firearm until January 16, 2005. The FFL must conduct another NICS check before transferring the firearm to the purchaser.

[27 CFR 478.124(c)]

(P46) A purchaser places an order for a custom-made firearm, which will not be ready for at least 60 days. Should the NICS check be initiated on the date the order is placed or the day the firearm is ready for delivery?

The issue raised by this question also applies to lay-away purchases.

If the licensee knows that it will be more than 30 days before the firearm is ready, the licensee may want to wait until the firearm is ready for delivery (or in the case of a lay-away purchase, until full payment can be made) to have the purchaser complete Section A of the Form 4473 and contact NICS for a background check. This is because if the purchaser completes Section A of the Form 4473 on the date the order is placed, and a NICS check is initiated on that day, the licensee will have to conduct a second NICS check prior to transferring the firearm and the purchaser will have to complete section C of ATF Form 4473 at the time of delivery.

(P47) Can one NICS check cover two or more separate firearms transactions?

No. An FFL must initiate separate NICS checks for separate transactions. However, an individual may purchase several firearms in one transaction.

Example: A purchaser completes an ATF Form 4473 for a single firearm on February 15. The FFL receives a “proceed” from NICS that day. The FFL signs the form, and the firearm is transferred. On February 20, the purchaser returns to the FFL’s premises and wishes to purchase a second firearm. The purchase of the second firearm is a separate transaction. Therefore, a new NICS check must be initiated by the FFL.

Example: A purchaser completes ATF Form 4473 for a single firearm on February 15. The FFL receives a “proceed” from NICS that day. The purchaser does not return to pick up the firearm until February 20. Before the FFL signs the Form 4473 for the first firearm, the purchaser decides to purchase an additional firearm. The second firearm may be recorded on the same Form 4473. The purchase of the 2 firearms is considered a single transaction. Therefore, the licensee is not required to conduct a new NICS check prior to transferring the second firearm.

(P48) If no exceptions to the NICS check apply, must an FFL always wait 3 business days before transferring a firearm to a transferee?

No. An FFL may transfer a firearm to a transferee as soon as he or she receives a “proceed” from NICS (assuming that the transaction would be in compliance with State law). However, if the FFL does not receive a final “proceed” or “denied” response from NICS, he or she must wait until 3 business days have elapsed prior to transferring the firearm.

(P49) Will a State “instant check” or “point of sale check” system qualify as an alternative to a NICS check?

No. However, it should be noted that many States with their own background check requirements are also acting as points of contact for NICS checks.

(P50) What happens if the transferee successfully appeals the NICS denial but more than 30 calendar days have elapsed since the initial background check was initiated?

The FFL must initiate another NICS check before the firearm may be transferred.

(P51) How does a licensee know whether a permit may be accepted as an alternative to a NICS check?

Prior to November 30, 1998, ATF sent an open letter to licensees in each State, advising them what, if any, permits in that State qualified as alternatives to a NICS check at the time of transfer. Since that time, ATF has informed licensees when a State permit stopped qualifying and when a State permit became a qualifying NICS alternative. Licensees with questions about whether particular State permits are acceptable alternatives to NICS checks should contact their local ATF office, or check online at www.ATF.gov.

(P52) Does a permit qualify as an alternative to a NICS check if the purchaser is using it to purchase a type of firearm that is not covered by the permit?

Yes, assuming the transaction complies with State law.

Example: ATF recognizes the permit to purchase a handgun and the concealed weapons permit as alternatives to a NICS check in State A. Any purchaser who displays a permit to purchase a handgun or a concealed weapons permit in State A is not required to undergo a NICS check prior to purchasing a rifle, assuming the...
transaction complies with State law.

Example: In that same State, a person with a concealed weapons permit wants to purchase a handgun. State law prohibits the sale of any handgun to a person unless he or she has a permit to purchase a handgun. Accordingly, the licensee cannot lawfully sell the handgun (with or without a NICS check) unless the purchaser has a permit to purchase a handgun.

(P53) ATF has recognized the concealed weapons permits in State A and State B as valid alternatives to a NICS check. Can a resident of State A use a concealed weapons permit issued by State A to purchase a longgun in State B without undergoing a NICS check?

No. A permit qualifies as a NICS alternative only if it was issued by the State in which the transfer is to take place.

[18 U.S.C. 922(t), 27 CFR 478.102(d)]

(P54) If State law provides that permits are only valid for 2 years, can a licensee accept as a NICS alternative a permit that was issued 4 years ago?

No. The permit must be valid under State law in order to qualify as an alternative to a NICS check.

[18 U.S.C. 922(l), 27 CFR 478.102(d)]

(P55) If the State has its own instant check system, must the licensee comply with State requirements for a background check as well as the Brady law?

Yes. If the State is not acting as a point of contact for NICS checks, the licensee may have to initiate 2 background checks by contacting (1) the FBI’s NICS Operations Center, and (2) the State system.

(P56) If a licensee gets a “proceed” response from NICS, does he or she still have to wait until the expiration of the State waiting period before transferring the firearm?

Yes. Compliance with the Brady law does not excuse a licensee from compliance with State law.

(P57) If a State is acting as a NICS point of contact (POC) and State law has requirements regarding the amount of time that a licensee must wait before transferring a firearm after contacting the State, should the licensee comply with the State requirements, the Federal requirements, or both?

The licensee must comply with both State and Federal requirements.

Example: State D is acting as a POC for NICS checks. State law requires a background check prior to the transfer of any firearm. State law also requires the licensee to wait 10 days to get a response from the State. The licensee must contact the State POC for a NICS check and a State background check. The licensee must comply with both Federal and State law by waiting 10 days for a response prior to transferring the firearm. If the licensee has not received a response from the State prior to 10 days, he or she may transfer the firearm.

Example: State E is acting as a POC for NICS checks. State law requires a background check prior to the transfer of any firearm. Under State law, the licensee may transfer the firearm if he or she gets no final response from the State by the next day. The licensee contacts the State POC for a NICS check, and gets a “delayed” response. Assuming that the licensee gets no further response from the State POC, the licensee must comply with both Federal and State law by waiting until 3 business days have elapsed prior to transferring the firearm.

(P58) Does an individual (not a corporation or partnership) licensee have to conduct a NICS check on himself or herself prior to transferring a firearm to his or her own personal collection?

No. The regulations do not require a licensee to complete a Form 4473 prior to transferring a firearm to his or her own personal collection. A NICS check is not required either. Such transfers must be recorded in the manner prescribed by the regulations at 27 CFR 478.125a.

(P59) Is a NICS check required for the sale of firearms registered under the National Firearms Act (NFA)?

No, assuming all NFA requirements have been satisfied.

[18 U.S.C. 922(l), 27 CFR 478.102(d)]

(P60) An organization without a firearms license wishes to acquire a firearm from a licensee for the purpose of raffling the firearm at an event. How does the licensee comply with the Brady law?

The licensee must comply with the Brady law by conducting a NICS check on the transferee. If the licensee wishes to transfer the firearm to the organization, a representative of the organization must complete a Form 4473 and a NICS check must be conducted on that representative prior to the transfer of the firearm. Alternatively, if the licensee transfers the firearm directly to the winner of the raffle, the winner must complete a Form 4473 and a NICS check must be conducted on the raffle winner prior to the transfer.

Please note, if the organization’s practice of raffling firearms rises to the level of being engaged in the business of dealing in firearms, the organization must get its own Federal firearms license (and the examples below would not apply).

Example 1: A licensee transfers a firearm to the organization sponsoring the raffle. The licensee must comply with the Brady Law by requiring a representative of the organization to complete the Form 4473 and undergo a NICS check. As indicated in the instructions on the Form 4473, when the buyer of a firearm is a corporation, association, or other organization, an officer or other representative authorized to act on behalf of the organization must complete the form with his or her personal information and attach a written statement, executed under penalties of perjury, stating that the firearm is being acquired for the use of the organization and the name and address of the organization. Once the firearm had been transferred to the organization, the organization can subsequently transfer the firearm to the raffle winner without a Form 4473 being completed or a NICS check being conducted. This is because the organization is not an FFL. However, the organization cannot transfer the firearm to a person who is not a resident of the State where the raffle occurs and cannot knowingly transfer the firearm to a prohibited person.

Example 2: The licensee or his or her representative brings a firearm to the raffle so that the firearm can be displayed. After the raffle, the
firearm is returned to the licensee’s premises. The licensee must complete a Form 4473 for the transaction and must comply with the Brady Law prior to transferring the firearm to the winner of the raffle. If the firearm is a handgun, the winner of the raffle must be a resident of the State where the transfer takes place, or the firearm must be transferred through another FFL in the winner’s State of residence. If the firearm is a rifle or shotgun, the FFL can lawfully transfer the firearm to the winner of the raffle as long as the transaction is over-the-counter and complies with the laws applicable at the place of sale and the State where the transferee resides.

Example 3: If the raffle meets the definition of an “event” at which the licensee is allowed to conduct business pursuant to 27 CFR 478.100, the licensee may attend the event and transfer the firearm at the event to the winner of the raffle. As in Example 2, the FFL must complete a Form 4473 and comply with the Brady law and the interstate controls in transferring the firearm.

Please note, procedures used in Examples 2 and 3 ensure that the winner is not a prohibited person and that there is a record of the final recipient of the firearm in the raffle.

[18 U.S.C. 922(t) and 922(a)(1)(A)]

Q. MISDEMEANOR CRIME OF DOMESTIC VIOLENCE

(Q1) What is a “misdemeanor crime of domestic violence”?

A “misdemeanor crime of domestic violence” means an offense that:

(1) is a misdemeanor under Federal or State law;

(2) has, as an element, the use or attempted use of physical force, or the threatened use of a deadly weapon; and

(3) was committed by a current or former spouse, parent, or guardian of the victim, by a person with whom the victim shares a child in common, by a person who is cohabiting with or has cohabited with the victim as a spouse, parent, or guardian, or by a person similarly situated to a spouse, parent, or guardian of the victim.

However, a person is not considered to have been convicted of a misdemeanor crime of domestic violence unless:

(1) the person was represented by counsel in the case, or knowingly and intelligently waived the right of counsel in the case; and

(2) in the case of a prosecution for which a person was entitled to a jury trial in the jurisdiction in which the case was tried, either –

(a) the case was tried by a jury, or

(b) the person knowingly and intelligently waived the right to have the case tried by a jury, by guilty plea or otherwise.

In addition, a conviction would not be disabling if it has been expunged or set aside, or is an offense for which the person has been pardoned or has had civil rights restored (if the law of the jurisdiction in which the proceedings were held provided for the loss of civil rights upon conviction for such an offense) unless the pardon, expungement, or restoration of civil rights expressly provides that the person may not ship, transport, possess, or receive firearms, and the person is not otherwise prohibited by the law of the jurisdiction in which the proceedings were held from receiving or possessing firearms.

(Q2) What is the effective date of this disability?

The law was effective September 30, 1996. However, the prohibition applies to persons convicted of such misdemeanors at any time, even if the conviction occurred prior to the law’s effective date.

(Q3) Does application of the law to persons convicted prior to the law’s effective date violate constitutional rights?

No. This provision is not being applied retroactively or in violation of the Ex Post Facto clause of the Constitution. This is because the law does not impose additional punishment upon persons convicted prior to the effective date, but merely regulates the future possession and receipt of firearms or ammunition after the effective date. The provision is not retroactive merely because the person’s conviction occurred prior to the effective date.

(Q4) X was convicted of misdemeanor assault on October 10, 1996 for beating his wife. Assault has as an element the use of physical force, but is not specifically a domestic violence offense. May X lawfully possess firearms or ammunition?

No. X may not legally possess firearms or ammunition.

[18 U.S.C. 922(g)(9), 27 CFR 478.32(a)(9)]

(Q5) X was convicted of a misdemeanor crime of domestic violence on September 20, 1996, 10 days before the effective date of the statute. He possesses a firearm on October 10, 2004. Does X lawfully possess the firearm?

No. If a person was convicted of a misdemeanor crime of domestic violence at any time, he or she may not lawfully possess firearms or ammunition on or after September 30, 1996.

[18 U.S.C. 922(g)(9), 27 CFR 478.32(a)(9)]

(Q6) In determining whether a conviction in a State court is a “conviction” of a misdemeanor crime of domestic violence, does Federal or State law apply?

State law applies. Therefore, if the State does not consider the person to be convicted, the person would not have the Federal disability.

(Q7) What State and local offenses are “misdemeanors” for purposes of 18 U.S.C. 922(d)(9) and (g)(9)?

The definition of misdemeanor crime of domestic violence in the GCA includes any offense classified as a “misdemeanor” under Federal or State law. In States that do not classify offenses as misdemeanors, the definition includes any State or local offense punishable by imprisonment for a term of 1 year or less or punishable by a fine. For example, if State A has an offense classified as a “domestic violence misdemeanor” that is punishable by up to 5 years imprisonment, it would be a misdemeanor crime of domestic violence. If State B does not characterize offenses as misdemeanors, but has a domestic violence offense that is punishable by no more than 1 year imprisonment, this offense would be a misdemeanor crime of domestic violence.

(Q8) Are local criminal ordinances “misdemeanors under State law” for purposes of sections 922(d)(9) and (g)(9)?

Yes, assuming a violation of the ordinance meets the definition of “misdemeanor crime of domestic violence” in all other respects.

(Q9) In order for an offense to qualify as a “misdemeanor crime of domestic violence”, does it have to have as an element the relationship part of the definition (e.g., committed by a spouse, parent, or guardian)?

No. The “as an element” language in the definition of “misdemeanor crime of domestic violence” only applies to the use of force provision of the statute and not the relationship provision. However, to be disabling, the offense must have been committed by one of the defined parties.

(Q10) Is a person who received “probation before judgment” or some other type of deferred adjudication subject to the disability?

What is a conviction is determined by the law of the jurisdiction in which the proceedings were held. If the State law where the proceedings were held does not consider probation before judgment or deferred adjudication to be a conviction, the person would not be subject to the disability.

(Q11) What should a licensee do if he or she has been convicted of a misdemeanor crime of domestic violence?

A licensee convicted of a disqualifying misdemeanor may not lawfully possess firearms or ammunition. In addition, a licensee who incurs firearms disabilities during the term of a license by reason of such a misdemeanor conviction may not continue operations under the license for more than 30 days after incurring the disability unless the licensee applies for relief from Federal firearms disabilities.

[18 U.S.C. 922(g)(9) and 925(c), 27 CFR 478.144 (i)]

(Q12) What should an individual do if he or she has been convicted of a misdemeanor crime of domestic violence?

Individuals subject to this disability should immediately dispose of their firearms and ammunition. ATF recommends that such persons transfer their firearms and ammunition to a third party who may lawfully receive and possess them, such as their attorney, a local police agency, or a Federal firearms dealer. The continued possession of firearms and ammunition by persons under this disability is a violation of law and may subject the possessor to criminal penalties. In addition, such firearms and ammunition are subject to seizure and forfeiture.

[18 U.S.C. 922(g)(9) and 924(d)(1), 27 CFR 478.152]

(Q13) Does the disability apply to law enforcement officers?

Yes. The Gun Control Act was amended so that employees of government agencies convicted of misdemeanor crimes of domestic violence would not be exempt from disabilities with respect to their receipt or possession of firearms or ammunition. Thus, law enforcement officers and other government officials who have been convicted of a disqualifying misdemeanor may not lawfully possess or receive firearms or ammunition for any purpose, including performance of their official duties. The disability applies to firearms and ammunition issued by government agencies, purchased by government employees for use in performing their official duties, and personal firearms and ammunition possessed by such employees.

[18 U.S.C. 922(g)(9) and 925(a)(1), 27 CFR 478.32(a)(9) and 478.141]

(Q14) Is an individual who has been pardoned, or whose conviction was expunged or set aside, or whose civil rights have been restored, considered convicted of a misdemeanor crime of domestic violence?

No, as long as the pardon, expungement, or restoration does not expressly provide that the person may not ship, transport, possess, or receive firearms.

R. NONIMMIGRANT ALIENS

(R1) May nonimmigrant aliens legally in the United States purchase or possess firearms and ammunition while in the United States?

Nonimmigrant aliens generally are prohibited from possessing or receiving (purchasing) firearms and ammunition in the United States.

There are exceptions to this general prohibition. The exceptions are as follows:

1. nonimmigrant aliens who possess a valid (unexpired) hunting license or permit lawfully issued by a State in the United States;

2. nonimmigrant aliens entering the United States to participate in a competitive target shooting event or to display firearms at a sports or hunting trade show sponsored by a national, State, or local firearms trade organization devoted to the collection, competitive use or other sporting use of firearms;

3. certain diplomats, if the firearms are for official duties;

4. officials of foreign governments, if the firearms are for official duties, or distinguished foreign visitors so designated by the U.S. State Department;

5. foreign law enforcement officers of friendly foreign governments entering the United States on official law enforcement business; and

6. persons who have received a waiver from the prohibition from the U.S. Attorney General.

Significantly, even if a nonimmigrant alien falls within one of these exceptions, the nonimmigrant alien CANNOT purchase a firearm from a Federal firearms licensee (FFL) unless he or she (1) has an alien number or admission number from the Department of Homeland Security (formerly the Immigration and Naturalization Service) AND (2) can provide the FFL with documentation showing that he or she has resided in a State within the United States for 90 consecutive days immediately prior to the firearms transaction.

[18 U.S.C. 922(g)(5)(b) and 922(y), 27 CFR 478.124, ATF Rul. 2004-1]

(R2) Typically, who are “nonimmigrant aliens?”

In large part, nonimmigrant aliens...
are persons traveling temporarily in the United States for business or pleasure, persons studying in the United States who maintain a foreign residence abroad, and certain foreign workers. Permanent resident aliens are NOT nonimmigrant aliens. Permanent resident aliens often are referred to as people with "green cards."

(R3) How do I obtain a waiver from the Attorney General?

You should contact ATF’s Firearms Programs Division for information on that procedure. However, in order to apply for the waiver you must have resided in the United States continuously for at least 180 days prior to submitting your application.

(R4) I’m a nonimmigrant alien. I have a State concealed weapons permit. Does this exempt me from the prohibition on nonimmigrant aliens possessing or receiving firearms and ammunition?

No. A State concealed weapons license/permit does NOT satisfy the hunting license or permit exception to the prohibition.

(R5) What is an alien number or admission number?

These are 2 different types of numbers. An admission number is the number on an INS Form I-94 or INS Form I-94W, the arrival/departure form Customs and Border Protection (CBP) gives most nonimmigrant aliens when they arrive in the U.S. While most nonimmigrant aliens will automatically receive an admission number when they enter the U.S., Canadians will not. However, if a Canadian asks a CBP official for an admission number when they enter the United States, he/she will be given an admission number.

Most nonimmigrant aliens will not have an alien number. An alien number is a Department of Homeland Security file number. It is issued in a variety of limited situations, such as to nonimmigrant aliens with employment authorization documents.

(R6) I am a nonimmigrant alien. I purchased a firearm in Maine in early 1998 after providing the Federal firearms dealer with documentation showing I had resided in the State for more than 90 days. I was told that this transaction was legal then. Am I entitled to keep that firearm and any ammunition I have on hand? Is there a "grandfather" clause that would protect me from criminal liability?

Since October 21, 1998, when the Gun Control Act was amended to make nonimmigrant aliens a new category of prohibited persons, nonimmigrant aliens generally have not been able to possess firearms and ammunition in the United States. The law does not contain a "grandfather clause." Therefore, unless you obtain a valid State hunting license or permit (or fall within one of the other exceptions), your possession of the firearm and ammunition is NOT legal.

(R7) I have a "green card" and have lived in Texas for several years. Am I prohibited from purchasing firearms and ammunition from an FFL in Texas?

As long as you are not otherwise prohibited from purchasing or possessing firearms and ammunition (for example, a felon), Federal law does not prohibit you from purchasing or possessing firearms or ammunition. However, you will need to put your alien number or admission number on the Form 4473 and provide the FFL with documentation establishing you have resided in Texas for more than 90 consecutive days preceding the transaction. Moreover, you must make sure there are no State or local restrictions on such a purchase.

(R8) I am a nonimmigrant alien who has resided in Idaho for 1 year. I have a valid Montana hunting license. Can I use the Montana license as evidence that I fall within an exception to the nonimmigrant alien prohibition when I go to buy a gun from a dealer in Idaho?

Yes. A valid hunting license or permit from any State within the United States satisfies the hunting license exception to the nonimmigrant alien prohibition. The license does not have to be from the State where the nonimmigrant alien is purchasing the firearm. Please note, the transaction must comply with State and local laws.

(R9) I am a nonimmigrant alien who is on a month-long vacation in the United States. I have a hunting license and an admission number. Can I legally buy a firearm from a Federal firearms licensee (FFL) in the United States and take possession of it in the United States?

No. You cannot legally buy a firearm from an FFL and take possession of it in the U.S. because you have not resided in a State within the United States for 90 days.

(R10) I am a nonimmigrant alien. I'm coming to the United States for 2 weeks. I do not have a hunting license or any alien or admission number. Can I buy a firearm from a Federal firearms licensee (FFL) to take back to my home country?

You may not buy a firearm and take possession of it in the United States. However, the FFL may directly export the firearm to your home country. If the FFL directly exports it, you do not need a hunting license, alien number or admission number or 90 days of State residency. However, the FFL first must obtain an export license from the Department of State or, if the firearm is a sporting shotgun, from the Department of Commerce.

(R11) I am a nonimmigrant alien from Canada and am planning to reside in Florida for 6 months. Do I need an alien number or admission number if I plan to buy a gun after living in Florida for 90 days? If so, how do I get such a number?

All non-U.S. citizens need an alien number or admission number to purchase a firearm from a Federal firearms licensee (FFL). The FFL will not complete the sale if you do not have such a number. This is the case even if you have a State permit that ATF has determined qualifies as a "NICS alternative" and therefore do not need to have a National Instant Criminal Background Check System Check. Most nonimmigrant aliens will automatically receive an admission number when they enter the United States. However, Canadians will not automatically receive this number and therefore should specifically ask for this number when they enter the United States. These numbers only can be issued at a port of entry, so it is important that you request the number when you enter the United States. Please note, most nonimmigrant aliens will not receive alien numbers.

(R12) I am a nonimmigrant alien
and have been residing in Florida for 4 months. I do not have an alien number or admission number. Is there any way I can get a number?

Yes. However, because Customs and Border Protection (CBP) only issues admission numbers at ports of entry, you generally will have to leave the United States and return to the United States to get such a number. One way to accomplish this is to go to either the Canadian border or Mexican border, leave the United States, and then reenter the United States. Upon reentering the United States, you can ask a CBP inspector for an admission number. You do not have to stay in Canada or Mexico for any length of time to do this. You can simply drive over the border, turn around, and reenter at a Customs and Border Protection point of entry. You also could request an admission number at a U.S. airport or seaport if you left the United States and returned by plane or ship. Please note, however, that it will take several weeks for the admission number to be entered into the government records system. You likely will receive a “denied” response from NICS or the State POC if you try to purchase a firearm before the number is entered into the government records system. Most nonimmigrant aliens will not be able to obtain alien numbers.

(R13) ATF regulations give the Attorney General or his delegate (the ATF Director) the authority to require nonresidents temporarily bringing firearms and ammunition into the United States for hunting or other lawful sporting purposes to first obtain an approved import permit. Do all such importations now require an ATF-approved permit?

All nonimmigrant aliens (with a few exceptions which are listed below) must obtain an import permit from ATF to temporarily import firearms and ammunition for hunting or other lawful sporting purposes. Please note this requirement applies to all nonimmigrant aliens, not all nonresidents (e.g., it does not apply to U.S. citizens residing abroad). The exceptions to this permit requirement are for certain foreign military personnel, official representatives of foreign governments, distinguished foreign visitors, and foreign law enforcement officers of friendly foreign governments entering the U.S. on official law enforcement business.

[R14] What type of form do I, as a nonimmigrant alien, need to file with ATF to temporarily import a firearm or ammunition for hunting or other lawful sporting purposes?

You need to file ATF Form 6 NIA (Application and Permit for Importation of Firearms, Ammunition and Implements of War by Nonimmigrant Aliens). The Form is both the application and, once approved, the permit you present to the U.S. Customs and Border Protection when you enter the United States. The Form 6 NIA can be obtained by calling ATF’s Firearms and Explosives Imports Branch or ATF’s Distribution Center. It also can be downloaded from ATF’s Web site at www.ATF.gov.

(R15) Why is the submission of a Form 6 NIA for every importation now necessary?

After the events of September 11th, it was determined that national security and public safety required ATF to know when nonimmigrant aliens are bringing firearms and ammunition into the country and the numbers and types of firearms and ammunition they are bringing in. Moreover, because nonimmigrant aliens generally cannot possess firearms and ammunition in the United States, the permit process is necessary to ensure any nonimmigrant alien bringing firearms or ammunition into the country falls within an exception to the prohibition.

(R16) Do I need to attach any particular documentation to the Form 6 NIA application I submit to ATF?

Yes. When you file your Form 6 NIA application, you must provide ATF with appropriate documentation demonstrating you fall within an exception to the nonimmigrant alien prohibition.

Appropriate documentation includes a valid hunting license/permit from a State of the United States. In order to be valid, the license cannot have expired at the time of submission. An application for a hunting license/permit does not qualify for the exception. A Canadian hunting license/permit also does not qualify.

Appropriate documentation also includes an invitation/registration to attend a target shooting competition or sports or hunting trade show sponsored by a national, State, or local firearms trade organization devoted to the collection, competitive use, or other sporting use of firearms. Invitations/registrations only will qualify for the exception if they are addressed to/filled out by the Form 6 NIA applicant.

If a hunting license/permit or an invitation/registration is faxed to ATF, all information must be legible on the faxed copy.

(R17) Do I need to show anything other than the approved Form 6 NIA permit to U.S. Customs and Border Protection (CBP) when I enter the United States?

When you enter the United States, you must show CBP both your approved Form 6 NIA permit and appropriate documentation demonstrating you fall within an exception to the nonimmigrant alien prohibition.

(R18) I’m a nonimmigrant alien. I provided ATF with a copy of a hunting license when I filed my Form 6 NIA import application. Can I provide Customs and Border Protection (CBP) with a copy of the same hunting license when I enter the United States?

It depends. If the hunting license is still valid (meaning it has not expired) at the time you enter the United States, you may present CBP with a copy of the same license. However, if the hunting license has expired, you must get a new hunting license to present to CBP, or CBP will not allow you to import the firearm or ammunition. Please note, you must have a valid hunting license the entire time you possess firearms or ammunition in the United States or your possession will be illegal.

Similarly, if you provided ATF with a copy of an invitation/registration to attend a target shooting competition or sports or hunting trade show, you may present CBP with a copy of the same invitation/registration, as long as it is for a future event.

(R19) How long does it usually take for ATF to approve a Form 6 NIA permit application?

6 to 8 weeks. Please note, this time
frame begins to run once ATF receives a correctly completed application. The time frame is the same whether the application is submitted to ATF by U.S. mail, FedEx, fax, or hand delivery.

(R20) Can I list more than one firearm on a Form 6 NIA application? Can I also list ammunition on the same form?

You may list more than one firearm on a Form 6 NIA application and may include ammunition on the same form.

(R21) I am a nonimmigrant alien who wants to bring firearms into the U.S. for a hunting trip. Can I fill out and submit the Form 6 NIA myself? Or must I have a Federally licensed importer or dealer complete it and submit it for me?

You may complete the form yourself and submit it yourself.

(R22) May I submit my Form 6 NIA application by fax?

Yes. You may fax your application documents to the Firearms and Explosives Imports Branch. If you would like the permit faxed back to you once it is processed, please include a return fax number, as well as a daytime telephone number so that we can follow-up if necessary.

(R23) I am a nonimmigrant alien. I have obtained an approved ATF Form 6 NIA import permit. Someone mentioned that I have to give Customs and Border Protection (CBP) both the approved Form 6 NIA permit and something called “ATF Form 6A.” Is this correct?

No. Because you are only importing the firearms temporarily, you do not need to complete ATF Form 6A or provide it to CBP.

(R24) I am a nonimmigrant alien and come to the United States at least 6 times a year to go hunting. Do I need to file a new Form 6 NIA application for each trip?

No. The import permit you receive authorizes you to bring in the firearms and ammunition listed on the permit repeatedly for 12 months after the date the permit is approved, as long as you have a valid State hunting license to present to the Customs and Border Protection Inspector at the time of entry.

(R25) I am a nonimmigrant alien and come to the United States for multiple competitive target shooting events each year. Do I need to file a new Form 6 NIA application for each event?

No. When you apply for your import permit, you should attach your invitations/registrations to all the events you will be attending during the next 12 months. These will be attached to your approved permit. The import permit you receive will authorize you to bring in the firearms and ammunition listed on the permit repeatedly for 12 months after the date the permit is approved, as long as the invitations/registrations attached to the permit are for future events. If you do not expect to have invitations/registrations for future competitions until shortly before the competitions, you may want to rely on the hunting license exception to the nonimmigrant alien prohibition. If you attach a hunting license to your application, you will be able to bring in the firearms and ammunition listed on the permit repeatedly for 12 months after the date the permit is approved, as long as you have a valid State hunting license to present to the Customs and Border Protection Inspector at the time of entry. You may rely on this exception even though you are coming to the United States for competitive shooting events, and not to hunt.

(R26) I am a nonimmigrant alien coming to the U.S. for a two-week hunting trip with 10 other nonimmigrant aliens. Do we all have to file separate Form 6 NIA applications?

Yes. Each person must file a separate Form 6 NIA application. Each applicant also must provide his or her own hunting license/permit as part of his/her application. Similarly, if a group of nonimmigrant aliens is coming to the U.S. to compete in a qualifying competitive target shooting event or to attend a sports or hunting trade show, each person must file a separate Form 6 NIA application and provide his/her own invitation/registration as part of the application.

(R27) I’m attending a shooting event in the United States and am not sure if it qualifies for the exception. What should I do?

We suggest that before filing your Form 6 NIA application, you call the Firearms and Explosives Imports Branch and ask if the event qualifies. If it does not qualify, you may obtain a hunting license as an alternative way of meeting one of the exceptions. Checking if the event qualifies before you submit your application will speed up the processing time of your application.

(R28) I am a nonimmigrant alien. Do I need a Form 6 NIA import permit to import a muzzle loading gun that is considered an antique firearm under the Gun Control Act?

No. Because antique firearms are not considered firearms for purposes of the Gun Control Act, none of the import regulations apply to the importation of antique firearms. Moreover, a nonimmigrant alien may possess antique firearms, even if the alien does not fall within an exception to the nonimmigrant alien prohibition. If you are not sure if your firearm is an antique firearm as defined by the Gun Control Act, contact ATF’s Firearms Technology Branch.

(R29) I am a nonimmigrant alien. Are there any restrictions on the types of guns I can temporarily bring into the United States for hunting or for a shooting competition?

Yes. Unregistered National Firearms Act weapons (which include machineguns, short-barreled rifles and shotguns, and silencers); U.S. government origin firearms or firearms that contain U.S. government origin manufactured parts or components; and firearms from certain proscribed countries may not be temporarily imported. If you think the firearm(s) you wish to import may be affected by these restrictions, please contact the Firearms and Explosives Imports Branch.

[R26 U.S.C. 5844, 27 CFR 447.52 and 447.57]

(R30) If I import a firearm temporarily for hunting or match shooting, do I have to take it out of the United States at all? My brother-in-law is a United States citizen and a U.S. resident. Can I just import the firearm, and leave it in the United States with him until I come back
to the U.S. and need the gun again?

You may not leave the firearm with your brother-in-law. The regulations only allow you to temporarily import firearms. Therefore, you must take the firearms you import back out with you when you complete your sporting activity. In fact, the import permit you receive will have a stamp on it stating that the firearm must be taken out of the United States at the conclusion of the hunting or sporting event, as well as a stamp saying the firearm may not be transferred to another person. Therefore leaving the firearm in the United States with your brother will result in an unlawful importation.

(R31) If I can't leave the gun with a friend or relative, could I leave it in the custody of a Federal Firearms Licensee in the United States?

No. Because the regulations require you to take the firearms you import back out with you when you complete the sporting activity, you cannot leave them with anyone in the United States, even a Federal firearms licensee. Also, leaving it with an FFL will violate the stamps on your permit that state the firearm must be taken out of the United States at the conclusion of the hunting or sporting event and may not be transferred to another person.

(R32) If I receive a Form 6 NIA import permit, do I need to obtain an export permit to take the guns and/or any remaining ammunition back out of the United States?

No.

(R33) I'm a nonimmigrant alien who is coming to the United States for two weeks to go hunting. Can I rent a firearm in the United States to use on this trip? What about if I want to go to a shooting range one day - can I rent a firearm there as well?

As long as you possess a valid hunting license from a State within the United States, you may rent firearms to hunt and to use at a shooting range. If you do not have the hunting license, your possession of the firearms and ammunition will be unlawful. The hunting license does NOT have to be from the State where you will be possessing the guns and ammunition. [18 U.S.C. 922(a)(5) and (9), 922(g)(5)(B) and 922(y)]

(R34) I am a U.S. citizen living in Canada with no State of residency in the United States. Do I need an import permit to temporarily bring my gun to the U.S. to hunt or to attend target shooting events?

No. You are not required to obtain an import permit. The import permit requirement only applies to nonimmigrant aliens.

(R35) I'm Canadian and am going to be driving through the United States as a short cut to get from one part of Canada to another part of Canada. I'm going to have a rifle with me. What documentation will I need at the U.S. borders?

You do not need a Form 6 NIA import permit from ATF because you are not temporarily bringing your gun in for hunting or other lawful sporting purposes. You also do not need a DSP-61 import license from the State Department because there is an exception to their license requirement that applies in this situation. However, you do need to have a valid hunting license from a State within the United States to make your possession of firearm legal while you are in the United States.

(R36) I'm a nonimmigrant alien and have been living in the United States for several years. I have a firearm that I legally purchased in the United States and legally possess (I have a valid State hunting license). I'm going to bring my gun with me on a hunting trip to Canada. Will I need to obtain a Form 6 NIA permit to bring the gun back into the United States with me?

You will not need to obtain a Form 6 NIA permit if, when you return to the U.S., you can satisfy the U.S. Customs and Border Protection (CBP) official that you previously took the firearm out of the United States with you. The easiest way to do this is to complete Customs Form 4457 when you leave the U.S. with the gun. Please note that when you return to the U.S. you will have to present the CBP official with documentation (for example, a hunting license/permit) demonstrating you are exempt from the general non-immigrant alien prohibition on possessing firearms.

(R37) I am a Canadian law enforcement officer planning to attend a qualifying competitive target shooting event in the United States. Do I need an import permit?

If you are attending the event in your official capacity as a law enforcement officer and all the firearms you are bringing are for use in that event, you do not need a Form 6 NIA permit if, when you return to the U.S., you can satisfy the CBP official with documentation (for example, a letter on agency letterhead) demonstrating that you are a law enforcement officer and need to use these firearms for official purposes.

If, however, you are attending the event as a private individual, the nonimmigrant alien import permit requirements will apply to you.

Please note that even if you are exempt from the permit requirements as a law enforcement officer on official business, you may not bring in unregistered National Firearms Act (NFA) weapons (e.g., short-barreled rifles and shotguns, machineguns, silencers).

(FBI NICS E-Check users only) FBI NICS E-Check Users Complete this Section

Every FFL & employee wanting to use the FBI NICS E-Check must complete and submit, by mail, this entire form and provide the following additional information then access our web site at www.nicscheckfbi.gov and request a digital certificate:

10. LAST NAME

FIRST NAME

MI CADENCE

11. MOTHER'S MAIDEN NAME (Last name only)

12. E-MAIL ADDRESS:

Note: If there is a change in FFL ownership, the FBI NICS Section must be notified and a new acknowledgment must be signed.

By executing this document and/or by the use of the above code word, the FFL acknowledges understanding of its obligations and responsibilities under the NICS (as detailed in the Gun Control Act of 1968, as amended and the Responsibilities of a Federal Firearms Licensee (FFL) under the National Instant Criminal Background Check System, dated October 1, 2002) and intend to honor those obligations and responsibilities. Intending to be legally bound, I hereby execute this acknowledgment on behalf of the above-mentioned FFL and certify under penalty of perjury that I have full authority from the FFL to make a legally binding commitment on its behalf.

13. User/Applicant Signature: ___________________________ Date executed: ___________________________

14. FFL Witness: ___________________________ Date executed: ___________________________

FEDERAL FIREARMS LICENSEE (FFL) ENROLLMENT FORM ITEMS
1. **FFL NUMBER** - This is the 15 digit number assigned by the Bureau of Alcohol, Tobacco, Firearms and Explosives.

2. **CODE WORD** - This is a code word of your choice to be used as a verification of identity when you contact the NICS Section. The code word MUST be between 6 and 10 characters in length, and can include both numbers and letters. NO OBSCENE WORDS OR PHRASES PLEASE.

3. **BUSINESS PHONE NUMBER** - Please write the complete business telephone number including area code.

4. **NAME OF FEDERAL FIREARM LICENSEE** - The name of the individual or corporation license by the Bureau of Alcohol, Tobacco, Firearms and Explosives to sell firearms. If the name is a corporation name, and additional space is required, you may use the First Name spaces.

5. **NAME OF LICENSEE BUSINESS** - Store name.

6. **STREET ADDRESS** - Please fill in the entire mailing address section - complete with city, state, and zip code.

7. **POINT OF CONTACT PERSON/FBI NICS E-CHECK APPLICANT** - This is the person the FBI will call first when contacting your store. It is only needed if different from the name of the licensee. This may be a store manager or other responsible individual chosen by the licensee to represent the licensee for NICS matters, including codeword changes, validation of the FBI NICS E-Check users, etc.

8. **POINT OF CONTACT PHONE NUMBER** - This is the telephone number the FBI will call first when contacting your store. It is only needed if different from the business phone number. Please include area code.

9. **BUSINESS FAX NUMBER** (optional) - Please fill in the complete number including area code.

</tbody>
</table>

| 13. **SIGNATURE** - Under the authority of Brady Handgun Violence Prevention Act (Brady Act), 18 U.S.C. Chapter 44, as implemented by 28 C.F.R. Part 25, the FBI requires completion of this acknowledgment by all FFLs as a condition of being granted NICS inquiry privileges. The NICS has been established within the FBI’s Criminal Justice Information Services Division (CJIS) of the FBI for the purpose of performing instant background checks on prospective firearm transferees. The primary purpose of this acknowledgment is to ensure that FFLs accessing and using the NICS understand and accept the attendant obligations and responsibilities. This acknowledgment will be used to identify and validate those FFLs who may be granted NICS inquiry privileges, to legally obligate the FFL to comply with these obligations and responsibilities, and as evidence of an FFL’s knowledge and acceptance of these obligations and responsibilities whenever such matters may be in issue. Completion of this acknowledgment by an FFL is voluntary, but an FFL which does not complete this acknowledgment will not be able to make a NICS inquiry. It is a criminal violation of federal law for an FFL to transfer a firearm to a non-FFL without making a NICS inquiry. |
| 14. **FFL WITNESS** - This is the signature of an individual witnessing the aforementioned signature. |
| **DATE EXECUTED** - This is the date that the enrollment document was signed by each person. |

A person is not required to respond to any collection of information unless it displays a currently valid OMB control number. The FBI has created the NICS Enrollment Form so that it is easily understood and requires the least possible burden on you to provide us with information. The reporting burden for collection of information on the NICS Enrollment Form is computed as: 1) learning about the documents, 2 minutes; 2) completing the NICS Enrollment Form, 3 minutes; 3) assembling, mailing (to enroll in the FBI NICS E-Check the enrollment form must be mailed), faxing or e-mailing the form to the FBI, 3 minutes for an estimated average of 8 minutes per response. If you have comments regarding the accuracy of the estimates, or suggestions for making this form simpler, you can write the Federal Bureau of Investigation, NICS Section, P. O. Box 4278, Clarksburg, West Virginia 26302-4278.

**Privacy Act Statement**: Pursuant to the Privacy Act of 1974, 5 U.S.C. 552a, we are providing the following information regarding this collection of information. The authority under which this information is being collected is the Brady Handgun Violence Prevention Act (Public Law 103-159) and title 28 CFR part 25. The principal purposes for which the information will be used are to enroll an FFL into the NICS, log a user onto the FBI NICS E-Check, and identify FFLs that submit NICS checks. The information collected may be shared with other government agencies for authorized purposes and with certain other persons and entities for other purposes as provided for in the most recently published routine uses for the NICS (Justice/FBI-018). The form requests both mandatory and optional information. If you omit mandatory information we may not be able to process your request.
A Federal Firearms Licensee (FFL) will receive the following instructions when a call is transferred from the FBI National Instant Criminal Background Check System (NICS) call center to the FBI NICS Section in an open transaction resulting in a delay:

"--NTN-- will be delayed while the NICS continues its research of potentially prohibiting information on this open transaction and will advise you if it reaches a final determination of proceed or denied. If you do not receive a response from us, the Brady Law does not prohibit the transfer of the firearm on ___day/date ____."  

The following table specifies the day after a delay response on which a firearm may be lawfully transferred under federal law if a final determination has not been received from the NICS (assuming there are no intervening state holidays or closures):

<table>
<thead>
<tr>
<th>Delay Response On</th>
<th>Can Legally Transfer Under Federal Law On</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monday</td>
<td>Friday</td>
</tr>
<tr>
<td>Tuesday</td>
<td>Saturday</td>
</tr>
<tr>
<td>Wednesday</td>
<td>Tuesday</td>
</tr>
<tr>
<td>Thursday</td>
<td>Wednesday</td>
</tr>
<tr>
<td>Friday</td>
<td>Thursday</td>
</tr>
<tr>
<td>Saturday</td>
<td>Thursday</td>
</tr>
<tr>
<td>Sunday</td>
<td>Thursday</td>
</tr>
</tbody>
</table>

If the FFL has not received from the NICS a final determination after 3 business days have elapsed since the delay response, it is within the FFL’s discretion whether or not to transfer the firearm (if state law permits the transfer). If the FFL transfers the firearm, the FFL must note “no resolution was provided within 3 business days” on line 21d of the ATF Form 4473. *(Please refer to pages 24 and 25 of the FBI NICS FFL User Manual.)*

*Best practice recommendation: In open transactions, the FFLs should record on the ATF Form 4473 the date provided in the delay response on which the firearm may be lawfully transferred under federal law if a final determination of proceed or denied is not received from the NICS.*
Applicable Federal Regulations

28 CFR Part 25 - The National Instant Criminal Background Check System

Section 25.6(c)(1)(iv)(B) – Delayed response provided to FFL:

(B) "Delayed" response, if the NICS search finds a record that requires more research to determine whether the prospective transferee is disqualified from processing a firearm by Federal or state law. A "Delayed" response to the FFL indicates that the firearm transfer should not proceed pending receipt of a follow-up "Proceed" response from the NICS or the expiration of three business days (exclusive of the day on which the query is made), whichever occurs first. (Example: An FFL requests a NICS check on a prospective firearm transferee at 9:00 a.m. on Friday and shortly thereafter receives a "Delayed" response from the NICS. If state offices in the state in which the FFL is located are closed on Saturday and Sunday and open the following Monday, Tuesday, and Wednesday, and the NICS has not yet responded with a "Proceed" or "Denied" response, the FFL may transfer the firearm at 12:01 a.m. Thursday.)

Section 25.2 – Definition of “Open” transaction:

“Open” means those non-canceled transactions where the FFL has not been notified of the final determination. In cases of “open” responses, the NICS continues researching potentially prohibiting records regarding the transferee and, if definitive information is obtained, communicates to the FFL the final determination that the check resulted in a proceed or a deny. An “open” response does not prohibit an FFL from transferring a firearm after three business days have elapsed since the FFL provided to the system the identifying information about the prospective transferee.
What is a Business Day?

A business day is any 24-hour day beginning at 12:01 a.m. the day after the check was initiated, in which state offices are open. A business day does not include Saturday, Sunday, or holidays.

The table below advises when a firearm can be transferred if no response is received:

<table>
<thead>
<tr>
<th>NICS Contacted On</th>
<th>Can Legally Transfer On*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sunday</td>
<td>Thursday</td>

</tbody>
</table>

* The transfer day may change depending on holidays.
The NICS has dedicated a Program Analyst to assist you in the following areas:

- Enrollment
- Code word changes/modifications
- Activation and deactivation of NICS privileges
- Troubleshooting system access
- Registration of gun shows
- Providing written correspondence concerning program advancement
- Educating the FFLs and their employees on the NICS via telephone or by representing the NICS Section at various conventions/seminars

Benefits of Using the NICS E-Check

- A reduction in the NICS Call Center traffic.
- A more accurate search facilitated based on the direct entry of descriptive data by the transaction originator, thereby increasing data integrity.
- The ability to retrieve NICS background check results 24 hours per day, 7 days per week.
- The ability to retrieve all checks initiated at the NICS Call Centers or via the NICS E-Check.
- The ability to print completed NICS background check search requests.
- Spanish translation capabilities (a future enhancement under development).
- Increased usability for the hearing and speech impaired.
- The availability of messages regarding the NICS operational status.

Additional Information

For additional information pertaining to the NICS E-Check or the system’s availability in your state, you may contact the FBI NICS Section via 1-877-444-6427 (select option three) or access the E-Check web site.

[Rev. August 2003]
Depending upon the level of each state’s participation with the NICS, every FFL is provided access to the NICS via one of the following three ways:

- Through a designated state point of contact (POC) for those states that have chosen to implement and maintain their own Brady NICS Program;
- Through the FBI NICS Section for those states that have declined to serve as a POC for the system (non-POC states); or
- Through the designated state POC for handguns and the FBI NICS Section for long guns.

In the non-POC states, the FFLs contact the FBI NICS Section using a toll-free telephone number to provide the requisite information to a customer service representative who initiates the check on their behalf. However, 28 Code of Federal Regulations (CFR) Part 25, NICS Regulations, allowed for the development of other electronic means of contact as alternatives in addition to the telephone. Currently, the NICS E-Check is only available in those states whose FFLs are fully serviced by the FBI NICS Section inclusive of those states whose FFLs contact the FBI NICS Section for long gun transactions only.

The NICS E-Check is very easy to use once the registration process has been completed. However, to utilize the NICS E-Check capability, certain restrictions apply:

- You must be a registered FFL;
- You must have Internet access; and
- You must use a web browser with 128-bit encryption technology.

In November 1993, the Brady Handgun Violence Prevention Act of 1993 (Brady Act), Public Law 103-159, was signed into law requiring Federal Firearms Licensees (FFLs) to request background checks on prospective firearm transferees. The permanent provisions of the Brady Act, which went into effect on November 30, 1998, required the U.S. Attorney General to establish the National Instant Criminal Background Check System (NICS) so that any FFL may contact by telephone, or by other electronic means, for information to be supplied immediately, on whether the transfer of a firearm would violate Section 922 (g) or (n) of Title 18, United States Code, or state law.

Access to the NICS E-Check is restricted through computer software and certification authority, thereby providing secure and restricted access. The NICS E-Check is monitored 24 hours a day, 7 days per week, for misuse, etc. In addition, the NICS E-Check denies access to any individual whose identification is not known to the system.
Reasons Why You May Receive a Delayed Response

If you have ever been arrested, (juvenile offenses, old arrest/conviction, misdemeanor arrest/conviction, non-convictions, investigation arrest, and/or current cases), charged, and/or fingerprinted for a criminal investigation.

- A Criminal History with an offense or conviction that could possibly fall under one of nine federal or various state prohibiting standards.

  - Often the National Instant Criminal Background Check System (NICS) receives criminal history records that are incomplete. This requires extensive research by a NICS Legal Instrument Examiner (NICS Examiner) to obtain information that updates any criminal charges listed on the record.

  - Any arrest/conviction that you have could cause a delayed response from the NICS. There is no limit on age of arrest/conviction. If you feel the arrest/conviction is not disqualifying, it may have been reported to the FBI differently, and would require additional research by the NICS.

  - The NICS does not always receive complete disposition information from the courts and may need to research your criminal history record to determine if a specific offense and/or conviction is no longer disqualifying or has been cleared from your record.

- Stolen, Misplaced or Similar Identity:

  - If you have a common name, you may experience a short delay every time you have a background check initiated.

    Someone with a criminal history may have a similar or altered name that causes an incorrect match on your descriptive data. The NICS checks are based on name and descriptive data provided on the Alcohol, Tobacco, Firearm, and Explosives (ATF) Form 4473 (firearm application) form.

  - Stolen or misplaced identity occurs when someone has used your key descriptive data (e.g.) full name, social security number, date of birth, and place of birth). An individual may have used this data to identify themselves at the time of arrest for the commission of a crime.

A Delayed Response

When a delayed response is received from the NICS, this indicates that information you have supplied on the ATF Form 4473 has been matched with information contained in one or more of the three National Criminal Computer Databases. Complete arrest and/or judicial information are not always provided on the criminal history record. When complete information is not provided, the NICS Examiners attempt to obtain complete record information by contacting law enforcement agencies, i.e., local, state, federal courts, arresting and judicial agencies to obtain dispositions, court records and police reports. The NICS updates criminal history records with information received, resolving many delayed transactions.

- Often the various judicial and law enforcement agencies are unable to meet the demand the NICS places on their resources. These agencies are often small and do not have the manpower to support the NICS requests or their court records are not maintained for extended periods of time. The information these agencies maintain is generally public record and can be easily obtained by you, the subject of the record.

- If you are able to obtain a certified copy of your court records, you may send this information along with your fingerprints to the FBI Special Correspondence Unit to be updated on criminal history files. Updating this information may resolve your repeated delayed response to an immediate proceed.

Action You Can Take to Resolve Delayed Responses

- If you have any criminal history arrests/convictions, you should obtain the court certified documentation of the final outcome of your offense and forward the information to the FBI Special Correspondence Unit to update your FBI criminal history record.

- The FBI Special Correspondence Unit will then send the information you provided to the state that holds your record.

- Updating your FBI criminal history record can include having cases expunged, pardoned, conviction level changed or rights restored depending upon the legal process in the state of conviction and/or state of residence.

- State policy on restoration of rights varies from state to state. Contact your state Office of the Attorney General for clarification.

- If you are unsure of what may be on your criminal record, you may request a copy of your FBI record by contacting the FBI Special Correspondence Unit.

- The FBI does not maintain all criminal history records. You may need to contact the state repository for criminal history information.

  1. A state repository is responsible for maintaining criminal history records that are reported to the FBI. This repository, not the FBI NICS Section, is responsible for maintaining and updating the information accessed on a criminal background check.

  2. If you are unsure how to contact the state repository, please contact the state Office of the Attorney General for additional information.
1. Currently under formal charges for a felony or convicted of a felony that can receive more than a one-year sentence or convicted of a misdemeanor that could receive more than a two-year sentence.

2. A fugitive from justice or subject of an active criminal warrant. This includes misdemeanor warrants.

3. Illegal drug possession, current use, or a conviction of controlled substance within the past year.

4. In a court proceeding, formally determined to be a mental defective, involuntarily committed to a mental institution or deemed incompetent to handle your own affairs. This includes final dispositions to criminal charges of “found not guilty by reason of insanity” or “found incompetent to stand trial.”

5. An alien illegally/unlawfully in the United States or a non immigrant who does not qualify for the exceptions under Title 18, United States Code, Section 922(y) (i.e., not having a valid hunting license).

6. Dishonorable discharge from United States Armed Forces.

7. Renounced citizenship of the United States.

8. The subject of a protection order issued after a hearing of which the accused had the opportunity to participate. The protection order restrains the subject from harassing, stalking, or threatening an intimate partner or child of such partner.

9. Persons convicted of a misdemeanor crime of domestic violence including offenses that contain the element of use or attempted use of physical force or threatened use of a deadly weapon in which the victim was a spouse, former spouse, parent, guardian, a person with whom the victim shares a child in common, a person who is cohabitating with or has cohabitated with the victim.

**How to contact the FBI**

To obtain a copy of your FBI Record, you must send a written request to:

**Federal Bureau of Investigation**  
**Special Correspondence Unit**  
1000 Custer Hollow Road  
Clarksburg, WV 26302

You are required to provide the following with your written request:

- An $18 money order payable to the U.S. Treasury;
- A ten-print fingerprint card bearing your fingerprints from a local law enforcement office;
- A return mailing address for your response; and
- A court-certified copy of a final disposition regarding your criminal offense in order to update your FBI Criminal History Record.

Updating this information may resolve your repeated delayed response into an immediate proceed.

The FBI Special Correspondence Unit can only provide information on criminal history records. They have no access to NICS background check records.

Locate information on the FBI Special Correspondence Unit at:

www.fbi.gov/hq/cjisd/fprequest.html

NICS Customer Service  
1 (877) 444-NICS (6427)

**Due to the Privacy Act of 1974 the FBI NICS Section cannot provide criminal history information over the telephone.**
What Prohibits an Individual From the Transfer or Possession of a Firearm?

A delay or deny message from the NICS indicates that either you or another individual with a similar name and/or similar descriptive features has been matched with one or more of the following federally prohibitive criteria:

- Persons convicted of/under indictment (or information) for a crime punishable by imprisonment for a term exceeding one year, whether or not sentence was imposed. This includes misdemeanors with a potential term of imprisonment in excess of two years, whether or not sentence was imposed.

- Persons who are fugitives from justice (the subject of an active warrant).

- An unlawful user and/or an addict of any controlled substance.

- Persons adjudicated as a mental defective or involuntarily committed to a mental institution or incompetent to handle their own affairs.

- An alien illegally/unlawfully in the United States, with the exception of non-immigrants pursuant to Subsection (y)(2).

- Persons dishonorably discharged from the United States Armed Forces.

- A renouncer of United States citizenship.

- The subject of a protective order.

- Persons convicted of a misdemeanor crime of domestic violence.

(Rev. October 2003)
If you have been denied by a Federal Firearms Licensee (FFL) from receiving a firearm/firearm permit because of a record in the FBI’s National Instant Criminal Background Check System (NICS), you may submit a request to appeal your denial decision. The provisions for appeals are outlined by the NICS Regulations at 28 Code of Federal Regulations, Part 25.10 and Subsection 103 (f) and (g) and Section 104 of the Brady Handgun Violence Prevention Act (Brady Act) of 1993.

### Requesting The Reason For Your Denial

You may request the reason for your denial by writing to:

Federal Bureau of Investigation  
NICS Section  
Appeal Services Team, Module A-1  
Post Office Box 4278  
Clarksburg, WV 26302-9922

You must include your complete mailing address in the request. You may also submit your request by facsimile or by e-mail. (See reverse side for the NICS facsimile number and e-mail address.)

You must include your NICS Transaction Number (NTN) with your written request. The NTN can be obtained from the FFL.

The NICS Appeal Services Team (AST) cannot initiate an appeal for you at the request of another individual without your written and signed authorization.

You may submit your fingerprints, which must be rolled by a law enforcement agency, with your initial written correspondence. The submission of fingerprints with your initial written request may hasten the appeal process.

#### The NICS AST will respond to your written request by providing the reason for your denial within five business days after receiving your correspondence.

### Appealing your Denial

The following information outlines the steps you must take to either challenge your record or make a claim that the record used as the basis for your denial pertains to someone other than you.

#### Questions of Identity

In cases involving criminal history records, if fingerprints are not submitted with your initial request, you may be required to submit your fingerprints to establish positive proof of your identity. If your fingerprints are required by the NICS Section and you wish to further the appeal process, you must have your fingerprints rolled by a local law enforcement agency. The law enforcement agency rolling your fingerprints must stamp its agency name, address and telephone number on the fingerprint card and the reason fingerprinted must be marked “For NICS Purposes.”

#### Record Challenges

You may challenge the accuracy of the record used in the evaluation of your denial or declare that your rights to obtain a firearm have been restored, etc. If you have any additional information (e.g., court documentation) that may assist the NICS AST in correcting or updating the record, you should attach the information to your written correspondence. The NICS AST will evaluate your information and provide you with its decision on your appeal in writing.

If the NICS AST is unable to resolve your appeal, you will be provided information to contact the agency that created the record. For correction of the record, you must follow procedures established by the state or federal agency that maintains the original record. The FBI, as custodian of arrest information that has been submitted voluntarily by local, state and federal law enforcement agencies, does not have the authority to change such records unless notified to do so by an authorized criminal justice agency.

You may submit any information to the originating agency that would assist with the correcting and/or updating of your record. (This may also hasten the appeal process.)

If the originating agency corrects your record, the NICS AST must be notified and provided documentation indicating such. The NICS AST will verify and evaluate the information and provide you with its decision on your appeal in writing.

#### Appeal Inquiry

Any inquiry concerning your appeal should be directed to the NICS AST in writing. Due to the Privacy Act of 1974, the NICS Section cannot disseminate specific information to you via the telephone.

#### Successful Appeal

If your appeal is successful, you will be notified by the NICS AST that your denial has been overturned and that you are eligible to receive a firearm. You will be issued a letter, which must be presented to the FFL who initiated your background check.
