It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use it’s authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Ms. Terrell, I disagree with this proposal on several different levels.

a. Collecting this information will have negligible affect on deterring or stopping the flow of illegal arms from the US to Mexico.

b. The collection of this information is designed more of an impedance to law abiding American Citizens than it is to stop the flow of illegal weapons to Mexico.

c. Our Federal Government could stop the illegal flow of weapons to Mexico by more effectively and thoroughly closing the border than by any other means, but they choose to use ineffective border closure methods proving to me they are insincere about effectively stemming the flow of illegal arms.

d. The collection of this information in the border states is just as maneuver and stepping stone to restrict our second amendment rights as American citizens.

Please consider my response a request for the OMB to deny ATF's request to approve its proposed collection of information.

Thank you.

Dear Ms. Terrell:

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post: White House delayed rule meant to stop gun flow to Mexico, Washington Post, Dec. 17, 2010, On-line edition.

The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

FFL holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Sincerely,

Doug Larson  
Scottsdale, AZ
Good afternoon, I am not sure if this is the correct place to send this email. I am replying to the request for comments regarding the ATF’s proposal. If this is the incorrect place for this response, then please delete and spend no more of your time reading this.

However if this is the correct place then let me begin by saying that I appreciate the opportunity to voice my opinion in such a way that those who are in a position to do something might consider it.

It seems that the proposal is well intentioned and considering the threat to U.S. Citizens abroad and perhaps more importantly to citizens here at home that it has the "best of intentions". My concern here is that for one, unless there is an amendment made to the Gun Control Act, it doesn't seem that Congress has enumerated these powers to the ATF. If any arm of the Federal Government wishes to expand its power or influence it must seek the approval of those that it is responsible to. For instance, the Border Patrol would have to get law changed if it was going to begin issuing citations for traffic violations. Now this is a small stretch but one can clearly understand the comparison.

If legislation already exists that permits the ATF the ability to do this then the above contention falls as far as the ATF is concerned.

Secondly, why is it the ATF feels the need to increase its efforts on the reporting of law abiding citizens? From what I was able to read concerning the proposal there is no stipulation about whether reporting will be specified to those rifle enthusiasts who may have a criminal record and those who do not. Now of course we should keep weapons out of the hands of criminals with a violent background or those who are not eligible under current gun laws, but I see no real justification for these new laws.

Now, there is a great deal of effort put into the estimation of manpower and time it would take to process all of this new reporting. As I am most certain that that comes with any new proposal, the effort to describe how much it will take underscores the fact the ATF is surely working at its limits already. This seems to be why the proposal goes to great lengths discussing how it will only be so many hours and so forth. Now, this data surely must have a small bias, considering the source; the ATF isn't going to publish information that would show an unusual amount of manpower etc. because as an agency, you want to show that you can do the most with the least. This brings credit to all those within the Agency. Let me also say that I am sure the men and women that make up the ATF are of the highest caliber and some of our Nation's finest. Furthermore, these estimations are on a "best case scenario", they do not take into consideration all of the "nature of the beast" problems associated with typical bureaucratic operations.

Currently many states are proposing budget cuts as is also taking place at the national level. At a time when historically our nation's economy is not at its strongest any tax payer funded organization faces a tough sell when seeking more of anything. The ATF must make its case, however to ask a simple cost benefit analysis question: Will the benefits of this reporting truly outweigh the cost to implement the reporting?

It seems that based on the proposal a loop hole exists. From the ATF's standpoint the agency would basically like to know of every person whose intention it seems is to own more than one semi-automatic rifle. One can see why the ATF might want that information but what exists to stop someone from simply waiting longer than the proposal's allotted amount of time concerning the purchase of said rifle's. Wouldn't this person just more slowly acquire the same amount of weapons and potentially stay under the "radar"? If that is the case then why even require the reporting in the first place? It seems like a waste of time, either that or this is just a bid for more power and more control and a platform for further invasive proposals.

Perhaps my final thought on this matter, and this one I will admit is certainly a little more far fetched, is should the worst happen and the end of our sovereignty occur, what would a malicious power not bound by our constitution do with these records. For example, everyone remembers the film "Red Dawn"; I am sure the ATF deals with several individuals who may take that movie a little too seriously, but to make a point, perhaps it
could be a good thing that records do not exist on every single person who may own more than one semi-
automatic rifle who purchased them more than one at time. Now that is again a far fetched contention but none
the less the point is valid.

I feel that changes should be made to this proposal. I think that the government should track the sale of
arms in our country but in a limited scope. There doesn't seem to be a need for these new laws, what is the
motivation behind them? I will not waste time quoting the 2ND Amendment as I am sure you probably are
more familiar with than I am, but in a democracy there must exist a balance between those who govern and
those who consent to be governed.

Once again thank you for allowing me the opportunity to voice my opinion, I hope that this is helpful and I
look forward to any response that you may have to my opinion, or any further explanation of the proposal,
perhaps I have been misinformed.

Respectfully Submitted

texascorps@yahoo.com
I am writing to offer my comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB).

The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees.

The reasons for that lack of authority are fully explained in the attached legal memorandum; but in short, the Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. ATF seemed to understand that point when it responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."

These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion."

The scope of the proposed collection suggests in itself that the proposal exceeds ATF's statutory authority. The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States. A second type of demand letter was sent to only 450 dealers nationwide.
Now, ATF proposes to issue demand letters to approximately 8,500 licensees. That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

The burden estimate in the proposal appears to assume that each licensee subject to a demand letter will respond once during the proposed duration of the program. Given the great variety in size and sales volume among the thousands of licensees in the border states, this seems unlikely.

Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers' voluntary, real-time reports of possible "straw purchases." If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

The NRA is well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

I do not like your reporting on long gun sales. How fare are you going to take it. I live next to Canada. Will we be next, to report gun sales.

Hooker Hailstone
The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines.

When I read the above statement, I was astonished. The “Bureau” has no rights to demand anything. The “Bureau” has no rights; is not a natural person and certainly not a United States citizen.

So, wake up and stop these unfounded demands.

We are NOT giving up our 2nd Amendment rights, period.
As a fan of the 2nd amendment you need to respect, NO REPORT OF LONG RIFLE SALES!! in any what shap or form.
The BATFE has extended the prying eyes of the federal government too far with the December 17, 2010 Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles. This request will only require more bureaucratic paperwork to be performed, eliminating the benefit of having officers performing their real job... 'serve and protect'. I urge you to recall this wasteful proposition.
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

To Whom It May Concern:

I am writing as a concerned weapons owner and supporter of the Second Amendment to the request that the ATF made to the OMB.

The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

There are enough laws in place and further information is not needed to enforce laws already in place.

Thank you.

Subject: Oppose Regulation Expanding Multiple Sale Reporting

I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but
ostensibly it would be for criminal investigations. Subjecting law
abiding gun owners to this type of investigation under the guise of
"information collection" is an overt attempt to prevent them from
exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Washington, DC 20226.

Dear Barbara A. Terrell,

Please do not allow the ATF to overstep their legal authority by implementing the suggested December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles", and require yet more illegal and frivolous regulation on the legal right to keep and bear arms granted the people of this great nation.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

There is a problem with crime on the Mexican border. Penalizing law abiding gun owners and dealers of the United States of America won’t fix it.

Thank you in advance for using your control and influence to preserve the rights of the people of our nation.

Sincerely,

Joni M. Hatch

RE: Federal Register Notices, OMB Number 1140-New

In reference to the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

My requested comment:

Thank you for requesting comments from the public. It is too bad that there is not enough time in a lifetime to actually read all the multitude of Federal Register Notices. Actions are processed without a reasonable notice to the consent of the governed.

Declaring emergency after finding none exist is contemptible abuse of process.

This proposal appears unconstitutional on it’s face and an abuse of process in and of itself.

Sanctioning the people of USA with excessive red tape is, not the best example of economical progress, defeating any purpose.

I agree with the National Rifle Association, notice to OMB dated Feb. 10th, 2011, regarding this as a matter of record.

I request that all burdens of such alluded proposals be accompanied with a United States Government Agency Claim Form 95. To be included with any documents to each and every individual business owner or agent for service rendered. The alternative request would be to avoid the process altogether as unequal compounded reporting and/or excessive processes.

"Let's meet our responsibility to the citizens who scent us here." -- President Barack Obama (USA)

Federal Firearm Regulations have been punitive to the law abiding far too often.

If you have any questions regarding this, please do not hesitate to call me at: (310) 431-6092. Also, please do email response to: daleleehitt1957@hotmail.com
Sincerely,

Dale Hitt

As soon as it became apparent that legally purchased US weapons were being smuggled across the border into illegal Mexican cartel hands, it became appropriate and legal for the US federal government to step in to stop that movement regardless of the state laws involved. That smuggling not only crosses state lines it involves international obligations that no state may address. Only the federal government can do that, and it must.

Sadley another valid issue is being approached from the wrong angle. This collection of information will do nothing to stop the possession of guns by criminals. Please reconsider attacks on 2nd amendment rights in favor if solutions that really attack the problem. That's what everyone wants....safe borders, criminals prosecuted and our right to self defense without government oversight or interference. Another government information collection is simply another waste in spending at a time when we cannot afford it.

Sincerely,

Dale L. Robertson

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Dale Platner

Ms Terrell,

Realizing how busy you must be during these trying times, I will be as brief as possible. Sales reporting of firearms is unnecessary in most regards but particularly negligible pertaining to criminal organization's arsenals. As I am certain you are aware there is a black market in which criminals procure their goods and services. I am confident that if a person has access to large amounts of contraband or the ability to organize smuggling of said items including but not limited to items such as narcotics, illegal firearms made in other foreign nations, people etc... would not be purchasing firearms from small legitimate businesses. While I do not live in any of the states in the BATFE proposal, I do feel that the reporting of any legally purchased firearm is unwarranted. I recognize the necessity of the BATFE and am an avid supporter of law enforcement personnel, however the laws currently in place need only be enforced. With so few monetary resources to go around, wouldn't your budget and manpower be better utilized with them set on controlling the routes used? Perhaps gathering intelligence from those captured or the property owners that live in those areas would be of better service to you. I know Robert Krantz was a firearm owner and probably had a several which did him no good when he was gunned down on his own property by these criminal organization's personnel. I am fairly certain the arms used by said individuals were not purchased legally from US gun stores. Thank you very much for your time Ms. Terrell.

Regards,

Daniel Bock
Ms. Terrell,

The ATF has no legal authority to demand reports on long gun sales, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

ATF does not have the statutory authority to impose this requirement on licensees.
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

I am writing in opposition to the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.
* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Dan Chiariello

Dear Ms. Terrell,

I respectfully object to the proposed DOJ/BATFE collection of information regarding multiple sale or disposition of certain rifles as published by Notice in the 17 DEC 10 Federal Register. The Federal Beaucracy cannot close our boarders to illegal drug trade, or illegal boarder crossings so the proposed solution is to make more burdsome unnecessary restrictions on the American people.

1. I strongly believe that the proposed collection of information in not necessary and will be of no practical use for the reasons stated below:

   My opinion is based upon the frequent (but inaccurate) Administration and agency statements to the effect that 90% of the Mexican gun supply originates from the United States. This lack of accuracy has been discussed elsewhere for several months. One example of a very recent report from a prominent source is available at the link below. Reprinting or republication of this report on websites is authorized by prominently displaying the following sentence, including the hyperlink to STRATFOR, at the beginning or end of the report.

   "Mexico's Gun Supply and the 90 Percent Myth is republished with permission of STRATFOR."

   According to the original GAO report on weapons, a total of approximately 30,000 firearms were seized from criminals by Mexican agencies in 2008. The GAO stated that only some 7,200 of these seized firearms were the subject of information provided to BATFE for tracing. Of the 7,200 weapons, approximately 4,000 could be traced at all. Only approximately 3,800 of these could be traced to origins within the United States. While 95% of the traceable weapons were of US origin, only approximately 12.7% of the seized weapons were of U.S. origin.
The GAO report identifies neither the percentage nor the number of these seized weapons (of U.S. origin) that were rifles of the type now the subject of the BATFE proposal. The GAO report also fails to provide any delineation between “sporting” and “assault” weapons/rifles.

If one was to generously (but incorrectly) assume that half of the traceable weapons of U.S. origin were rifles (1,900), and that half of these were “sporting” rifles (950), these would represent a mere 3.2% of the entire inventory of seized weapons. One can only guess how many of these “sporting” rifles might have been of the semi-automatic variety now of such interest to BATFE.

There is little practical utility in the BATF collection of personal information on the sale of such rifles.

2. I also strongly feel that the agency’s estimates of the cost and agency manpower burden of proposed information collection are understated for the reasons stated below:

   There is no accurate estimate of the cost of forms generation & distribution.
   There is no accurate estimate of the timeline and cost for developing a related new database, or for modifying an existing database. There is no accurate estimate of the timeline or cost for establishment of the electronic means of transmitting the required data to the agency. There is no accurate estimate of the cost associated with tracking and dissemination of such data in a meaningful manner.

3. I again strongly believe that the estimated burden upon firearms dealers and members of the rifle-purchasing public are invalid for the reasons stated below:

   There is no data available in the proposal defining the number of the seized, traceable, semi-automatic rifles of U.S. origin that were purchased in the either the proposed states of interest or in the United States as a whole.
   There is no definition via data, or assumed data, as to how many of these rifles were purchased in the quantity or timeline of interest as stated in the proposed collection of information. There is no definition of what “other disposition” information may be collected as part of the proposed effort. There is no data supporting the estimated number of individuals who may be burdened with providing the proposed information.
The agency has provided no data demonstrating the accuracy or applicability of the assumptions made in defining the scope of the proposed collection effort.

The only reasonable and logical thing to do is to cancel the proposed information collection operation. Strong consideration should be given to making an honest effort to closing our boarders to all illegal activity which would solve the root of the problem.

Thank you for implementing my recommendations,
Dan Clark
It's time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With regard to the December 17, 2010 "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles", I am never surprised when bureaucrats look for more authority and claim this new authority will help them do their job and without it, they cannot. There are many (too many) laws already on the books giving governments too much information and authority especially regarding guns. I have read the NRA comments and they make many strong points specific to the law that should be more than sufficient to reject the ATF’s request.

Nevertheless, the ATF only gets its authority from Congress and Congress has not granted them this authority. Please direct the ATF to do their job using the laws they have. No more authority should be granted by bureaucrats.

I'm not a DEM, nor am I a Republican. I believe more restrictions should be placed on Government & less restrictions on the American public, regarding guns, EPA, on & on. Thank you. I do love this country.
Ms. Terrell:

This comment is in response to the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles” proposal. Bad law. BAD law. It will, if allowed to take effect, affect sales of almost every common rifle caliber commonly in use worldwide. The keeping of a list of multiple weapon purchasers is not lawful under the 1968 GCA, and should not be made lawful by administrative rule-making.

I understand that comments for and against the proposal are being tallied. Please add this to the “against” side of the ledger.

Thank you.

Have a great day today and a better day tomorrow. Stay safe, and may God bless. I wish you His peace.

Dan

Dear Ms. Terrel,

Respectfully, please cease and desist from efforts to require the reporting of long gun sales under the Subject "Notice".

This effort will do little to deter criminals but will do much to infringe on the Second Amendment rights of free and law abiding citizens.

Except in a political sense, the BATF surely cannot believe that instating this requirement will provide any real results.

Sincerely,
Daniel Long

To: Terrell, Barbara A.
Subject: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021)

I say no to this as does the NRA please see below where the 4th Circuit Court also says no;

The scope of the proposed collection suggests in itself that the proposal exceeds ATF's statutory authority. The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States.

A second type of demand letter was sent to only 450 dealers nationwide

I have also written my congressman on this issue as well stating the same NEGATIVE response to this ACT.

Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

Dana Stewart
8144 Sunset Road
Lakeside, CA 92040
Simply put there is not sufficient reason to encumber Licensed Gun Dealers with the proposed "Long Gun Sales Reporting". Close the Southern border to prevent our guns from going to Mexico and leave lawful gun dealers out of the equation. Very Sincere, Gary Chambers
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

Ms. Terrell,

I would like to ask you to report to the BATF, that this not only takes more time for FFL’s to comply with regulations and just more paper work that will not help the problem of guns crossing our borders to the south. This puts a real burden on FFL’s if they are a big store, because one sales person may sell a rifle to a person on Monday, another sells person sells a rifle on Wednesday to the same person. Now there was 60 guns or 100 guns sold for this three day time period and someone misses this person name and does not report it to BATF. What is going to happen to the owner of the store? He is going to get racked over the coals if he is lucky, if not he could be closed. I do not have the answer to that problem, but as a FFL, I do not need that burden hanging over my nick. I will not sell to anybody more than one in one or two weeks. This would include a large number of different rifles, not only the rifles of choice like the AR’s and AK’s. Like I said I am picky who I sell to, and how many I sell. I would like for you to report that I am not in favor of this.

Thank You,
Daniel Burns

Salutations,

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

~Daniel

we dont need any control or reg of long guns haven't we wasted enough time tring to control guns even long guns a
criminal will always have a gun please don't burden any of us honest citizen with any more yokes
thank you daniel
The proposed regulation will be ineffective and a waste of government resources.

Additionally, it will lower public support of your agency in a year when budget cuts are the top concern of congress.

Additionally, the regulation violates the rights of innocent gun owners.

If this goes through, I'm voting for anyone who proposes budget cuts to the ATF.

-Dan

Long gun reporting. Unconstitutional. Un-American. Just wrong. Why is an agency that's supposed to be looking out for the American people following the lead of the oh-so-UN-American left that is out to destroy our country?

We won't tell. Get more on shows you hate to love
(and love to hate): Yahoo! TV's Guilty Pleasures list.
Dear Ms. Terrell:

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

Please note this citizen's opposition to this unwarranted power grab by the Executive Branch. Such a monstrous extension of BATFE power must be subject to proper and open debate in the Congress. There is no "emergency" to justify this extension of BATFE power.

Dan Szatkowski

Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

Hi Barbara, I just wanted to inform you of my views on multi gun reporting. Please stay out of private citizens business. ATF may find one or two sales out of thousands but criminals do not follow laws and what will ATF do investigate all sales? I live in Calif. when I purchase a gun I always buy multi guns because of the hassle I must go through to even buy one gun it is hours of my time and the State tax is 30$ for one or dozen guns. Us law following citizens do not trust our government if you pass this law thousands of these citizens will probably buy dozens of guns that they would not otherwise purchase. If you really want to stop the violence in Mexico two things would work 1. Legalize all drugs and give them away free or 2. Try to get Mexico to follow our constitution if the Mexican population was armed the Drug cartels could not do what they are doing. I do admit that most guns I buy are not the ones you are talking about but we need less laws not more. 95% of the people that you will investigate will have nothing to do with what’s happening to Mexico. Do not include another law that you will be responsible for you guys have enough to do. Keep up the good work! Thank you a US citizen Dan Musetti

Dear Mrs. Terrell,

I am writing you over my concern that you are considering a reporting program on the sale of long guns in the southern states. Our second amendments rights are clearly stated in the Constitution and this attempt to limit that right is out of line. The only effect of this regulation will be another layer of meaningless paperwork on a system that is already overwhelmed with paperwork. Please consider that the problem of crime with guns are that the laws that are already on the books are not being enforced. More laws will not help.

Remember, it's not the guns that are the problem, it is the criminals that are using them improperly that are the problem. Focus attention on that and our problems could be solved.

Sincerely,
Danny Baumstark
Hermann, MO  65041
Ms. Terrell,

I appreciate the situation you may be in with the border problems. However, I do not agree with the recent proposal for American gun dealers to report the sale of more than one semi-automatic firearm within a given time period. My personal deer rifle is semi-automatic and is very much a sporting rifle. If I were to come across a good deal on more than one rifle in the same day, I would certainly take advantage of the opportunity. I am a life-long hunter and shooter who is a law abiding citizen. Please consider that the law abiding citizen can be unreasonably punished by criminals (foreign and domestic) and that the American people deserve the right to have a say in regulation of lawful practices. As a Missouri resident, I hope that the proposed practices will never approach my region. I appreciate your time and hope that you consider the views of someone from a different state than the proposal addresses.

Sincerely,
Daniel Bellew
Please do not let this pass! You have my support to help block it!

Ma'am we don't need more paper work then we have ,Please stop ATF from demanding all this unnecessary paper work ,the guns doesn't hurt people is the people behind the guns that hurt people,and a bad person can get an illegal gun not even register and go on rampage.thank you
The proposal that the BATF be given the authority under the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles” is an unconstitutional power play and will impact the gun industry negatively. Why must the ATF consider gun owners and 2nd amendment supporters unlawful and in need of regulation. In a free society, there is an inherent risk to life that comes from people. We can't know what is in peoples hearts. Some people are determined to hurt other people and will do so with whatever means they can find. It is other peoples right to protect themselves, especially the weak and handicapped. It is a statistical fact that when people are disarmed, crime goes up. As for semi-auto rifles, many hunting, sporting and competition rifles will be affected. It has been proven that the rifles showing up in Mexico are not from this side of the border. Most of the weapons confiscated are from the Mexican Army or other countries. As a free society, we should not have to have our rights threatened by the actions of citizens of other countries. Secure the borders and control immigration. Let Mexico solve their own problems.
Please use common sense and do not introduce more laws that only law abiding citizens would follow anyway. Please use your resources to curb ILLEGAL gun trafficking. Not legal purchases by law abiding, honest sportsmen and gun enthusiasts.
Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Danny Lynch

Barbara

I am not the sharpest tack in the box, but it looks to me like you and your people are more concerned with controlling the lives of legal gun owners than that of the illegal gun traffickers, if they are breaking the law go after them, but I don't see the need to punish those who are doing things legal by snooping in their lives, we have enough of that going on already in this FREE country. People who break the law don't care how many laws you make up or how much paper you have on them because it's not their real name anyway.

According to what I've read and the NRA you are overstepping your 'LEGAL RIGHTS' as well. Knowing how many guns I buy or what guns I buy will not help you with the drug people, or the black market of stolen guns.

Punish those who break the laws and leave the legal gun owners, collectors and sportsman alone, use the brain that God gave you to understand that we are not the enemy of you or the ATF.

Thank you for your time and the Good work you and your people do for this country just remember we are doing things legal and don't need more regulation placed on us.

Thank You, DANNY UDEN
please do not support any request to report long gun sales in the border states of California, Arizona, New Mexico and Texas. This is an unconstitutional action and is not allowed by our governing laws.

This would also be completely ineffective in controlling violence in Mexico, since very few of the guns used in violent crimes in Mexico are coming from this side of the border.

If you people at the BATFE would concentrate on enforcing the current laws and policies, and the Border Patrole would enforce our immigration laws, things would be much better in both our country as well as Mexico. I currently live in California.

Thank you.

Daniel Palen

danpalen@juno.com
If the federal government wants to control guns going into Mexico, why don't you send some personnel to the scene and control the borders? Enforce the laws that are on the books, before you make new laws!

Dan Shelnutt
Dear Barbara Terrell,

Writing to you to voice my concern about the ATF wanting registration of long guns. I don’t know why the people of our government want to stick their noses in any law abiding citizens right to buy and sell long guns at their discretion. The Government has a problem with drug cartels buying these types of guns so right away it is the citizens of the USA that are selling them the guns. I am against any and all registration of any firearm that is owned by any law abiding citizen of this country. The ATF should start hassling those immigrants that are crossing our borders with illegal hand and long guns,. Lets start enforcing the existing laws and not start asking for powers that they don’t have right now. Lets get serious, no interference by any branch of government on our citizens is going to change what is happening in Mexico. The Mexican government has to handle that. So let’s not give any branch of our government the right to tread on our gun rights.

As a taxpayer and a gun owner, I’m against this measure.

The notice proposed an "emergency" requirement that certain federal firearms Licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Thanks,
Dear Barbara Terrell,

I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.  

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:
White House delayed rule meant to stop gun flow to Mexico, Washington Post, Dec. 17, 2010, Online edition:  
* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.
* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).
* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

This regulatory action should not be approved.

Ms. Terrell:
This bill has come to my attention and deeply concerns me. Although I have not purchased a long gun in a long time, I do not believe it is my government's job to keep up with a citizen's purchases. That is what this will boil down to. Lawabiding citizens will do what is required of them. But, that will not slow down those who are making purchases for other reasons. The law breakers will continue, without hesitation.

I want to voice my objection to this bill and hope to see it defeated.

Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.
Ms. Terrell: Please do all in your power to table, withdraw, kill this ill conceived ruling. Frankly, it is not in the best interest of citizens or the government to regulate in this manner.

Thank you for your consideration.

It's time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Mrs. Terrell; I have worked in law enforcement (CBP) or 25 years. My thoughts and experience are; that this kind of record keeping is only good for inconveniencing the law-abiding citizen. The firearms taken into MX is not being done legally, so my question is how many laws does one have to break to make an act legal and to lock someone up for it. Do your checks at border crossings. Prosecute the dealers that are caught breaking law. Enforce the laws on the books and I am sure the BATF will have plenty to keep them busy.

Thanks
David Billips

I am sure that you think this action will reduce the level of violence along our southern border with Mexico but I will tell you for certain; IT WILL NOT. All this action would accomplish is to burden legal firearms sellers with another level or eight of unnecessary paperwork, which would increase their risk of minor errors which would then be used by the anti-gun nazis to shut down these miscreants. OH! Now I see the goal of your madness. This action is in direct contravention of the 2/nd Amendment to the U.S. Constitution and is way beyond the bounds set down in the 10/th Amendment. Do not do this thing, please.....

Dear Ms. B. Terrell,

As a citizen I respectfully request of all my elected representatives that they require all bureaucracies to continue to follow the guidelines as put forth in the Constitution in order that each citizen may carry out their responsibility to each other to restrict government intervention into areas that are against the law. In the meantime I would ask that the BATF refrain from additional onerous regulations upon fellow citizens that prohibit citizens from their responsibilities as good, decent, law-abiding folks. The protectors fo the republic are ultimately its own people. Thank you,

Sincerely,

Dave Haskins

re: December 17, 2010 "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles."

I would like to express my disapproval of ATF plans to require reporting of long gun sales in the four states adjacent to Mexico. This is just one step towards building a database of legally owned firearms by peaceable US citizens in contravention to the expressed will of congress and the people.

The inability or unwillingness of the federal government to control our border with Mexico, or the Mexican government to enforce it's own laws is not an acceptable reason to erode the right of US Citizens to own firearms of the type and quantity of their choosing.

David E. Hickey

Dear Ms. Terrell:

In a nation based on a constitutionally defined federal government, a decent respect for that constitution and its subsequent laws requires that the ATF should declare the constitutional authority under which it may act regarding this matter. Until such time as the ATF can declare this authority, that same respect for our nation's constitution and its subsequent laws equally requires not take it proposed actions.

I respectfully ask that the ATF reconsider its position.

Thank you.

Please stop the plan to register, even temporarily, firearms in border states. I do not believe this practice will yield significant benefits in law enforcement but will definitely establish a dangerous precedence for personal rights. Stronger border security is what is needed to stop drug and gun runners along the borders, not citizen firearms registration.

Thank you,

To Whom It May Concern;

I have read your proposal on long gun reporting and find it another one of the governments waste of money and disregard for the 2ND Amendment. If you people would enforce the laws we already have, keep the criminals behind bars instead of letting them out and back on the street, send all illegal aliens back to where they came from and recognize and remove the Waco's from society, the biggest problems would be solved. Forget about your foolish laws and withdraw your proposal now. I will be watching !!!!!

Dave Peck

Don't get soaked. Take a quick peek at the forecast with the Yahoo! Search weather shortcut.
This is ridiculous! The idea that drug cartels and organized crime are obtaining firearms through shady gun dealers to take over the border for illegal purposes is not the issue! Some guns maybe, but the shear volume of weapons being exported by criminals indicates a vast underground weapons smuggling system that will not pay attention to any new gun restrictions. Once again, some mildly effective gun control laws will be applauded as the way we want to progress, but they will not be effective at stopping the very offenders we should fear. Please, do not grant the ATF the authority to violate the 2nd amendment's original intent based on a trumped up crises, it will only make it harder for law abiding citizens to enjoy their heritage.

Thank you,

Dave Pedreira

Gun registration is not allowed by any U.S. law. The guns you are so worried about and used by the Mexican cartels are largely full automatic weapons, and could not be purchased in the United States without extensive BATF paperwork and background checks. The RPGs, AK-47's, .50 caliber M-2's are not purchased from dealers licensed by the BATF, they are purchased from governments; USA and foreign. It is no secret that weapons we (the U.S.A.) have sold to the Mexican military and police have found their way into the drug cartels armories, and account for the majority of weapons seized from the cartels. Please reconsider this ill conceived and illegal plan to try to register these SEMI-AUTOMATIC weapons.

Thank you for your consideration,

Respectfully,

D. Slemp
I urge you to NOT impose any reporting of long gun sales, for a number of very crucial reasons.

Thank you for your consideration.

Dave Spanfelner
Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

Dave Steinke
4911 SW Barnes Rd
PORTLAND, OR 97221
What is this, a registry of rifles? Only the honest and legal citizens are affected by this type of thinking. The criminals, by definition, are crime producing persons and they do not care or not affected by laws. Why put the emphasis on the gun; why not put it on the persons committing the crimes? We keep blaming the gun, an inanimate object, like blaming the car for drunk drivers... doesn't make any sense. When will we learn to make people responsible for their actions?
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

Royersford, PA 19468
Dear Ms Terrell:
I am writing on behalf of the of the concerned people in the United States, to offer our comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB). The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees.

This shows blatant disregard to the Constitution that is our heritage. Please cease and stop this insidious ploy that affects our 2nd amendment rights.

Sincerely,
David D. VanDeVenne
147 Monet Ave
White Lake, MI 48383

Dave Wiig
141 Benton Rd
MORRIS, CT 6763
Already the politicians are turning a deaf ear to the public. If our representatives are not representing us, then they should all be given vacations on the border to ask the drug runners and kidnappers to please give up their guns and stay on their side of the border. Even after the elections they still can not get it right who pays the taxes and their salary.

Dave Sekol
ATF does not have the statutory authority to impose this requirement on licensees.

Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. ATF seemed to understand that point when it responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."

These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion." Now, ATF proposes to issue demand letters to approximately 8,500 licensees.

That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

We are well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF's request to approve its proposed collection of information.

Best Regards,

JD and Helen Batson

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Very respectfully,

David Kollstedt

Consider this my disapproval of the proposed act; report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.
Dear Barbara Terrell,

It's time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

David Bauer

Greetings,

I am writing to strongly oppose any reporting of sales of two or more automatic guns. We should not be penalized for the actions of a corrupt foreign people. Mexico should deal with their own problems and we should put more effort in protecting our border. More enforcement at the border level would benefit both sides. It serves no good purpose to hold law abiding American citizens responsible, in any way, for Mexico's troubles. Thank you for your time.

Dave Christensen

Ms. Terrell,

Perhaps you could provide me with an update of the investigation into the "project gunwalker" that charges ATF agents with providing guns to the Mexican drug cartel via strawman purchases. Investigating this and finding the truth ought to take precedence over further restrictions on law abiding citizens. Perhaps someone ought to investigate the recent actions of NYC mayor Bloomberg too for his flagrant infractions of existing gun laws.

Thank you

David W Decker

When the cold winds of war, Press hard against your back
All you can do is turn And face them.
Dear Ms. Terrell,

I strongly object to the new bill being introduced:

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

I agree with the statements and arguments put forward by Mr. Cox of the NRA as expressed in his attached letter. I am a long time gun owner, I have held a CCW responsibly for 30 years, a Vietnam Combat veteran, and a member the NRA. If you want to fix the problem in Mexico, seal the border, stop illegal immigration, and leave honest gun owners and dealers and their rights alone.

Thank you.

David W Decker

Barbara A. Terrell,

I have only just this evening become aware of The BATF's effort to require reporting and registration of long guns by Americans. Since I will not be able to get a hard copy of my comments to you through the US mail by the February 14th deadline, I will try to get my point of view to you via email. I will also be contacting my Representative and Senators on the same subject.

There is much that could be said about the reasons why this is a bad idea and based on inaccurate data, but I will choose tonight to speak only to principle. This idea has been said many times in many different ways, but the clearest statement is, "Those who would give up Essential Liberty to purchase a little Temporary Safety, deserve neither Liberty or Safety...Benjamin Franklin."

So I could refute the reasons for your registration request with logic and data that clearly show it is based on inaccurate information, but rather choose to appeal to your American values. Why are you willing to compromise all principle, justify any degree of government intrusion, sell out the hundreds of thousands of men who have died defending the entire Constitution (including the 2nd Amendment,) for some temporary politically correct expediency?

Sincerely,
David DeZwaan

Dear Barbara Terrell,

What's wrong with you? This is a no brainer that you don't need to get public comments on. The public is sick and tired of no action from this Whitehouse and this Gongress. Thousand are being murdered every year and our Government is not sure what to do about it! Get off your asses now and authorize the ATF and the Justice Department to start arresting those gun dealers who refuse to comply with the law. And tell the NRA that We The People will no longer tolerate their interference in the pursuit of safer, stricter, more common sense gun laws.

It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

If you want reports of Multiple sales you in fact will have a registry of who purchases firearms. You do not need to keep files, just check that they are eligible to purchase.

NO to Reporting long gun sales reporting in the USA.

David F.
Dear Barbara Terrell,

Time to do more!! crack down on the gun smuggling carried out by the Mexican drug cartels.

The ATF's proposal to require dealers along the border to report bulk sales of assault rifles (just like they already do with handgun sales) makes sense!!

More than 30,000 people already murdered in cartel wars makes this an emergency that demands our government’s immediate attention.

David G.S. Greene
17219 Quaker Lane
Sandy Spring, MD 20860
Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

David Gallagher

8247 Toll House Road,
Annandale, VA 22003
RE: "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles."

Ms. Barbara Terrill,

The BATFE has no statutory authority to impose the requirement of information gathering on firearms licensees in this particular instance. Moreover, Congress has comprehensively defined what the BATFE may and may not require of licensees' records. By going forth with this initiative, the BATFE would be performing an unlawful act and exceeding their legal powers.

Respectfully,
David J. Gerber

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

David Gilmore

"Look at it this way. If America frightens you, feel free to live somewhere else. There are plenty of other countries that don't suffer from excessive liberty. America is where the Liberty is. Liberty is not certified safe." -- Arfin Greebly
It's time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

David Girves

Columbus, OH 43220
Sirs,

I do not believe that the ATF has legal authority to demand these reports. This new paperwork requirement would waste scarce law enforcement resources that should be spent on legitimate investigations. Requirements like this will do nothing to curb illegal activity but it does add cost the consumer.

Respectfully,
David Givens
NRA member
Huntsville, AL
Barbara,

DON'T LET THIS HAPPEN!!!

Hello

I oppose the following regulation.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

Sincerely,
David Harness

Ms. Terrell;

I strongly oppose any additional reporting requirements such as the one proposed for long guns. There is no justification for placing another unfunded requirement upon dealers when ATF, itself, is assisting in the movement of guns into Mexico, via project “gunwalker”. ATF should be abolished.

David G. Hasselback

It never ceases to amaze me that the government mentality is that drug/weapons runners and terrorists are going to register their weapons. Only law abiding citizens register their guns. Additionally, the burden imposed can very likely be more than indicated. If a weapon is lost or stolen, then used in the commission of a felony it will only trace back to the original owner and then his time is imposed on again for questioning.

Mexico driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers. We are well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico but this is nothing more than an end run at firearms registration.

Furthermore, if the US would keep it's weapons on US soil a large part of the problem would be alleviated. Why is our government selling weapons to the very countries with which we are/are likely to be engaged in battle with? The latest being the sale of F-16's to Iran.

Sincerely,
David Herrle

Greetings,

I am writing to express my opposition to the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

Criminals, especially Mexican drug cartels, do not buy their weapons from U.S. licensed dealers. A review of the violent attacks in Mexico reveals the majority of the weapons come from military sources.

Please refrain from implementing this useless and burdensome data collection process.

Sincerely,

David Hicks

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.
* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).
* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.
* This regulatory action has not allowed the public sufficient time to comment. This regulatory action should not be approved.
David H. Holtz Sr.

Elgin, Il.
To Whom it may concern I a natural born citizen of this wonderful country find this a very disturbing attempt to control the law abiding citizens of this country by means that are not statutory permissible no matter how well intentioned. I am also a life member of the NRA and this an attempt to correct a bad situation by circumventing the law which is a method that the former KGB would have used on Soviet citizens and will not be tolerated by the ATF. Please do the right thing and only do what is allowed by our Statutes. Sincerely David M Hughes.

Dear Ms. Terrell

I am concerned about this issue in that your agency is not authorized to do this kind of data gathering from your enabling legislation.

I am concerned at the added burden not only the affected dealers who are already doing their best to aid your agency and other law enforcement to stop any illegal use of firearms but that your agency and the state and local agencies that also get copies of the handgun notification are already over burdened and do not need another task to use up their valuable time.

I am concerned about this issue as it seems to be one more "feel good" effort that will have no real effect on criminals who only very rarely, per your own agency's research, get firearms by purchase from gun shops.

In closing, I am opposed to your agency taking on this additional burden.

Sincerely,

David W. Loeffler
7740 Zuni Canyon Road
Grants, NM 87020

I will neither bow my head nor bend my knee to any man. The peers of any realm strive to be my equal. I am an American. – David W. Loeffler

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

David Martin
15735 Morningside Drive
Guerneville, CA 95446
Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

This is just another example of the BATFs true agenda. The BATF does not enforce the law. It's real agenda is to criminalize gun ownership.

Sincerely,

David Mazanec
460 W Glebe Rd
Alexandria, VA 22305
As a police officer and an NRA member I oppose the BATFE request to be given the authority to require the reporting of long gun sales in border states or otherwise! It doesn't take a genius to figure out what is going on. It is just another excuse to encroach on our civil rights, to register and then later down the road, confiscation, which will lead to violent confrontations between law enforcement and otherwise law abiding citizens and it will be the government's fault for starting it in the first place!

SECURE THE GOD DAMN BORDER!! Our government has been letting murderers, rapists, drunk drivers, thieves, T.B. positive persons and all the dregs of Mexican society sneak into our country and violate our laws, murder, rape and rob our citizens!! Not to mention that, but Islamic terrorists have been using our southern border to gain illegal entry into the country as well and radical Islamic violent hate literature and tapes have been found along our border as well, and all this is gun owners and gun dealers fault????!!!!!

Here is a novel idea, if criminal scum are behind bars they can't get guns to harm people with. And here's another, if our border was secured as it should be, as Americans have been screaming for, criminal scum wouldn't be pouring over our border and the piece of sh-t drug cartels would be kept in Mexico! We are willing to pay taxes for the border security we need, we aren't willing to pay taxes so that politicians can buy votes with them and hand our money out to there special interest friends!

There is a famous quote that goes like this, "those who are willing to give up freedom for security will have neither." If the US government would secure the southern border as the American people have been demanding, this whole issue would be moot and you know it.

I am SWORN to uphold the law and the US Constitution and I take that oath very seriously, and would give my life for my country, and it makes people and officers like me mad as hell to see our own federal government thumb it's nose at the nations' laws and purposely endanger it's own citizens so businesses can hire all the illegal aliens they want to get away with paying them diddly squat because they know it's far better than what they would make in Mexico!

We are NOT going to give up our civil rights because the federal government refuses to enforce the laws or secure our nation! This is a NATION OF LAWS, NOT OF MEN.

SECURE OUR SOUTHERN BORDER NOW!

Ms. Terrel:

I oppose the creation of the *de facto* firearms registration scheme detailed in the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This proposed regulation is directly contrary to the provisions of Title 18 United States Code § 923(g)(3)(A) which states:

(3)(A) Each licensee shall prepare a report of multiple sales or other dispositions whenever the licensee sells or otherwise disposes of, at one time or during any five consecutive business days, two or more pistols, or revolvers, or any combination of pistols and revolvers totaling two or more, to an unlicensed person. The report shall be prepared on a form specified by the Attorney General and forwarded to the office specified thereon and to the department of State police or State law enforcement agency of the State or local law enforcement agency of the local jurisdiction in which the sale or other disposition took place, not later than the close of business on the day that the multiple sale or other disposition occurs.

Clearly, the requirements of 18 USC 923(g)(3)(A) apply only to handguns, not semi-automatic rifles or any other classification of firearm.

The proposed regulation also violates Title 18 U.S.C. § 926(a) which states:

*Sec. 926. Rules and regulations*

(a) The Attorney General may prescribe only such rules and regulations as are necessary to carry out the provisions of this chapter, including--

(1) Regulations providing that a person licensed under this chapter, when dealing with another person so licensed, shall provide such other licensed person a certified copy of this license;

(2) Regulations providing for the issuance, at a reasonable cost, to a person licensed under this chapter, of certified copies of his license for use
as provided under regulations issued under paragraph (1) of this subsection; and (3) regulations providing for effective receipt and secure storage of firearms relinquished by or seized from persons described in subsection (d)(8) or (g)(8) of section 922. No such rule or regulation prescribed after the date of the enactment of the Firearms Owners' Protection Act may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or dispositions be established. Nothing in this section expands or restricts the Secretary's authority to inquire into the disposition of any firearm in the course of a criminal investigation.

Clearly, this proposed regulation and its record keeping and reporting requirements is directly contrary to be the prohibition "... that any system of registration of firearms, firearms owners, or firearms transactions or dispositions be established. Moreover, the proposal obtains no provision for the destruction of the collected information, and therefore is not legal.

The problems in Mexico related to drug cartel violence are just that: Mexico's problem. Contrary to the assertions that the drug-fueled violence in Mexico is a result of firearms being smuggled from the US into Mexico, people in the United States do not have access to the machine guns, grenades, rocket-propelled grenades, and explosives being used by the cartels. These weapons are shown to be from illicit sources elsewhere in the Americas, including Mexico, including firearms illegally diverted from shipments of firearms provided by the United States Government to other nations' military and police forces.

RE: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

Dear Ms. Terrell:

I just recently became aware of the disturbing FR Notice referenced above, and felt compelled to offer my comments on the matter.

As you must be well aware, the 12-17-10 FRN proposed an "emergency" requirement that certain federal firearms licensees (FFLs) must report multiple sales whenever the licensee sells or otherwise disposes of two or more rifles within any 5 consecutive business days when the rifles possess the following characteristics:

(a) Are Semi automatic;
(b) Are in a caliber greater than .22; and
(c) Which have the ability to accept a detachable magazine.

I'm no expert on the law, but I'm pretty sure this is not something within the existing purview of BATFE, and may well require a change to the Gun Control Act, which we learned about in CCW classes.

I can't imagine that this undeserved reporting burden is in any way a good thing for the thousands of law-abiding FFLs or the clientele of honest gun owners and hunters they serve down here in the Southwest Corner States of AZ, CA, NM & TX.

Now, don't misunderstand, I am very aware that BATFE feels pressure to take strong steps to address drug-related violence in Mexico. I agree that something needs to be done. However, the obscene lawlessness in Mexico clearly attributable to drug cartels with access to any and all types of arms on the international black market, is no excuse for U.S. law enforcement agencies to spend precious resources on programs like the one proposed.

In my personal opinion, OMB should deny BATFE's request to approve its proposed collection of information on semi-auto rifle sales. As proposed the program goes too far and jeopardizes the rights of many, many hunters and gun collectors in our 4 states who have perfectly legitimate motives for buying several semi-auto rifles within a short period of time.

Please convey my comments to whomever may be in a position to take them seriously and to act accordingly to reverse this proposed action.

Sincerely,
David A. Rickard, Ph.D.
1928 E Secretariat Dr
Tempe, AZ 85284
December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

Please do not allow this collection of information to even get started. This is another overreaching government intrusion into the lives of individuals of this country, just enforce the current laws.

Thank you

--David Ritchie
To Whom It May Concern:
I am writing to let you know of my concern about, the notice proposed an "emergency" requirement that certain federal firearms Licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.
I’m asking that ATF drop this request for it is an infringement of My rights as a US citizen.

Thank you, David W. Roach

Dear Barbara Terrell,

It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

To Whom It May Concern:
I am writing on behalf of the National Rifle Association of America, Inc. (NRA), to offer our comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB). The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees.

The reasons for that lack of authority are fully explained in the attached legal memorandum; but in short, the Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. ATF seemed to understand that point when it responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."1

These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion."2

The scope of the proposed collection suggests in itself that the proposal exceeds ATF's statutory authority. The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States.3 A second type of demand letter was sent to only 450 dealers nationwide.4

Now, ATF proposes to issue demand letters to approximately 8,500 licensees. That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

---

1 Tel: (703) 267-1140 • www.nraila.org • Fax: (703) 267-3973
The burden estimate in the proposal appears to assume that each licensee subject to a demand letter will respond once during the proposed duration of the program. Given the great variety in size and sales volume among the thousands of licensees in the border states, this seems unlikely.

Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers' voluntary, real-time reports of possible "straw purchases." If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

The NRA is well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

The Myth that the US is responsible for 90% of Mexico's Guns is a Lie by the Obama Regime.

"According to the GAO report, some 30,000 firearms were seized from criminals by Mexican authorities in 2008. Of these 30,000 firearms, information pertaining to 7,200 of them (24 percent) was submitted to the U.S. Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) for tracing. Of these 7,200 guns, only about 4,000 could be traced by the ATF, and of these 4,000, some 3,480 (87 percent) were shown to have come from the United States. This means that the 87 percent figure relates to the number of weapons submitted by the Mexican government to the ATF that could be successfully traced and not from the total number of weapons seized by Mexican authorities or even from the total number of weapons submitted to the ATF for tracing. In fact, the 3,480 guns positively traced to the United States equals less than 12 percent of the total arms seized in Mexico in 2008 and less than 48 percent of all those submitted by the Mexican government to the ATF for tracing. This means that almost 90 percent of the guns seized in Mexico in 2008 were not traced back to the United States."

I think the founding fathers were as worried about the possibility of tyranny from the government they formed as they were of outside forces. It is not in the interest of our country to place controls or regulations here. The old story 'if guns are outlawed ...only outlaws' tells part of the story; the real stability comes from the balance.

Those are my thoughts, I hope yours are in the same vein.

David P. Hendry

Dear Ms. Terrell,

As a member of the NRA, I am writing to request that the ATF withdraw its request for authority to require dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles for rifles larger than .22 caliber and use detachable magazines.

The ATF has no legal authority to demand the report of these sales and this is intrusive on our freedoms. In addition, this will create a large amount of new paperwork which will waste scarce law enforcement resources that could spend their time more effectively on legitimate investigations.

Please reference the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles”

Thank you for your time and attention regarding this matter

Best regards,

David Savage

Ms. Terrell,

As a law abiding American and gun owner, I am angry and frustrated that your agency wants to track legal sales of long guns from licensed gun dealers and pawn shops in the southwest. Your agency will be wasting resources on legal purchases.

Many in government continue to act as though Mexican drug cartels are coming across the border and buying the majority of their firearms from licensed firearms dealers and/or gun shows. This has been shown to be false, yet it seems to be the focal point for many gun control schemes. American firearms dealers are not selling rocket and grenade launchers and fully automatic weapons to Americans, much less to foreigners. Drug cartels are very well funded, and are able to purchase their weapons on the worldwide black market. They are not buying hunting rifles. There is no need for them to buy less capable firearms in the U.S. We should be focusing energy and funds on the influx into the southwest of the armed Mexican drug cartels and other unlawful entrants.

This proposal would be burdensome and costly, cause additional red tape, adversely impact your critical functions, and do little if anything to reduce the flow of weapons. This will impact the sale of semi-automatic rifles in common use in this country. These are firearms which are great demand by the cartels. It really constitutes an illegal registration of law abiding gun owners. Your agency is supposed to be addressing illegal sales and transfers, not legal gun purchases.

You need to focus and work with the US Border Patrol to stop the flow of illegal weapons and explosives coming in from Mexico, not punishing honest people in the exercise of their Second Amendment rights.

This proposal would prove to be ill advised, ineffective, expensive, and most likely unconstitutional. A serious backlash might be expected from this proposal, as well as legal action to halt it.

Sincerely,

David P. Colwell, Cotopaxi, Colorado

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Dear Barbara A. Terrell:

I am writing in regards to the ongoing campaign to bog down legal gun ownership and our ability as a country to enforce the laws and regulations now in force. I encourage you to NOT support the new legislation - December 17, 2010 "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles - now pending. The law will do nothing to aid in the safety of anyone, but will burden both law enforcement and legal sellers with more government paperwork and consume more valuable time that could otherwise be productive in the field and elsewhere.

Thank you for your time.

Regards,

David L. Bozsik

Stop spending our money gathering useless information that will never be used. You will hire people as managers; purchase or rent offices; hire more people as staffers; purchase copy machines; hire people as worker bees; purchase computers; hire people as computer operators and programmers; purchase office supplies; hire people as janitors; purchase tables, desks, and chairs; hire more people to work with lobbyists. All the information will sit in a file and gather dust. Your new people will send out information to the State or States involved to get something done about all this research you have collected. They will tell you to go to *&##*, they have better things to do. You will stop the project and place all these people in some other gigantic government bureaucracy that will keep them on the payroll until they die. STOP! STOP! This has to STOP!

Dear Barbara. I would like to tell you that I am against any kind of gun registration. In my opinion, what needs to be done, is stricter enforcement of laws against people who use deadly force in the commission of a crime. If people who kill other people during the commission of a crime were to face the death penalty, that would be justice. Putting regulations on people who are law abiding citizens that would never break the law, is a travesty of justice. They should not be put on a watch list simply because they are gun owners or gun enthusiasts or collectors. Put the law to work against the criminals, not Americans that live under the constitution and are law abiding people.

Thank you.

Dean Bryson

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

dean esch

Dear Barbara Terrell:

The ATF does not have the statutory authority to impose this requirement on licensees. The Congress has defined what ATF may and may not require with respect to licensees’ records. By specifically requiring reports ONLY OF MULTIPLE HANGUN SALES.

If ATF requires reporting of multiple Rifle sales, the Gun Control Act needs to be amended.

Therefore, OMB should deny ATF’s request to approve its proposed collection of information.

Sincerely,
Dean G. Sparks

We need, for the stability of the region, to stop this traffic in weapons of mass destruction. The firepower we are unleashing will make it impossible to control crime in our border areas, and will destabilize an otherwise friendly country to the south.

This is an issue that affects Americans as well. How can we stop the sale and use of these lethal and totally unnecessary weapons without the aid of our governments (American and Mexican). How many innocent lives must be lost for the supposed right to "bear arms"?

We have become a culture of armed violence, let's stop this now!

Dear Barbara:

As a registered legal gun owner, and a registered voter, I feel compelled to comment on the request by the ATF to be notified when someone purchases more than 2 guns in a 5 day period. Please note that most of my family lives in an area that would be affected by the rule, and I am very concerned about the out of control violence in our border towns.

First, the most obvious problem with this as a law enforcement tool is that criminals typically do NOT purchase their guns in a manner that would allow reporting. It certainly is not difficult for a felon to obtain a gun of any type illegally on the street, through ads in the paper, or from a fellow felon.

Second, this will incur administrative costs that will outweigh the negligible benefits the information might provide. Businesses are struggling, the government is in debt, and individuals are fed up with paying for the encroachments of government that they don’t want or need.

Finally, the **REAL solution** for the problems we are having with drug cartels, drug smuggling, and drug related violence is to prosecute to the full extent of the law with a vengeance! Less than 2% of those arrested on drug related charges are ever brought to trial in Mexico! While our percentage is far better than that, **the sentences being passed down are ludicrous when you consider the financial gain that these criminals stand to make by continuing their crimes!**

It is high time for all agencies of government to use the laws that we already have on the books to the fullest extent. Quit letting repeat offenders back out on the streets, and QUIT PLEA BARGAINING WITH THEM! Honest citizens are not the ones that should be restrained, tracked, and penalized for the actions of criminals! It's time to get on the right track and use our existing laws as the real deterrent they were designed for!

Putting sale limits on semi automatic rifles and shotguns will only put honest gun owners under undue hardships. This unnecessary reporting will not work to limit gun sales to criminals. The four states in question that would fall under this law are being singled out unfairly because of their geography. Leave honest, legal gun owners and dealers alone. Get the bad guys.

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

Why does the ATF think it needs info on long gun purchases? It's a well known fact that the rifles going into Mexico ARE NOT coming from the US gun dealers or gun shows. In fact there are ATF agents posting on the Internet that the ATF is purposely "salting" border areas with weapons so they can enhance their position and budget.

It also appears that the ATF does not have any statutory authority to add this requirement to the already burdensome requirements for FFL's. This was specifically rejected by Congress when sales of multiple handguns was implemented.

Barbara,

Please don't support added rules on gun control that could lead to disaster as they did in England and Australia.

Thanks

John Hinton
Pres. Johns Appliance and Bedding Inc.
I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register. 

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from
exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.
Madam,

With all due respect, I am upset with ATF’s attempt to further control gun sales. I wish the concept of criminals commit the crimes, not guns would resonate with more in this country. We have rampant disregard for securing the borders. The President just said yesterday that the Mexican border problem is not a priority. Yet, legislators and those like you appear to have no regard for the danger that regulating gun sales the way proposed affects our safety as citizens. I won’t even get into the Second Amendment issue which to me is plain as day, and interpreting that law to anything other than what is written, is quite unbelievable.

PLEASE RECONSIDE this attempt at further restricting access to firearms. INSTEAD GET TOUG on criminals and border security. This is where the problem is and it is so upsetting as a citizen to watch this problem be ignored by yet another President. This is insanity and I just wish that logic would prevail among our legislative leaders.

Thank you in advance.

I strongly feel that the NRA’s ever-more strident support of the second amendment has less to do with the right to bear arms than their members’ right to profit from selling guns. This must be brought under control. Guns from our country are fueling horrific violence in our neighbor to the south, and we must act to end this weapons pipeline, even if some gun dealer doesn't get to make a “killing.”

Deirdre Weber

Ms. Terrell,

I am writing to you today so that you will have my comments on record concerning the subject Notice. I find it disturbing that our government is wasting time, efforts and money on such a study. They weapons in question are not weapons which normal civilians can purchase and are, in fact, weapons used by military. Fully automatic weapons. So it frustrates me to see a minority of misinformed uneducated antigun people can make a little noise and the antigun communist government will jump on the band wagon and try to limit my constitutional right and have to report purchases I may make. I guess anyone with any intelligence will bypass the four states the study involves. Furthermore, I believe the study should be to see what branch of the USA or other governments that are shipping the weapons, in question, to the drug cartels. This is where my concern lies. Wouldn’t be the first time the US government supported non US military authorized activity. So before the BATFE decides to restrict my rights, they better think about the millions of dollars that will be wasted in such a program to record purchases. One look to the north in Canada and see how much money can be wasted should be done FIRST. A look at where the arms are really coming from would be SECOND. And an investigation into the legal costs would be THIRD. Time for some common sense here which is not something normally used by the US Government.

Best Regards,

It's time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Mr. Denis L Ratliff

I would like to say this is nothing but another B.S. to give the government control of all who buy any type of long or small arms in this country, I have said it before and will say it again. A free country stays free without gun control and any country with gun control is not free when the government take away your gun rights. I was born free and intend to stay free and if you want this country to be free then quit leaning in the way it is taking this country to the way of people right and control of our freedom, I suggest that if you like that type of control then please move to a country that already has that kind of control and see what it is really like before you try and apply it here. Dennis Marler Medford, Or
Ms. Terrell,

I, as are all rational Americans, am opposed to any policy requiring special reporting of long gun sales in the Southwestern states of Texas, New Mexico, Arizona and California. For the following reasons:

1. Such reporting places an unreasonable burden on firearms dealers, affecting their businesses and livelihoods
2. Such reporting accomplishes nothing, other than identifying lawful purchasers of firearms.
3. This onerous policy does not and will not lessen violence in the border region, nor will it have any significant effect on the availability of arms to those criminals committing the violence.

Concernedly,

Dennis Chappell
Pueblo CO
Please stop the ATF from requiring law abiding citizens to register multiple long gun purchases. More and more the ATF is overstepping its authority. Quite frankly its time the ATF is overhauled and funds cut. Thanks

Fix Bayonets.... 2012

Maame: I think this a knee jerk proposal to our unfortunate experience in Tucson, Mexico and a blatant move to make those of us who live in the southwest scapegoats. All we ask is for you to lock down the border and enforce laws on the books already we do not need more laws. Yes Lone Wolf should have seen a red flag an large buys and contact local law enforcement about and in all probability should have had better judgment.
Dear Ms. Terrell,

As a law-abiding Texan, I respectfully take exception to and protest the information collection proposal cited below:

“Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This will do nothing to combat the lawlessness in Mexico, and will be an unwarranted burden on lawful gun dealers.

Thank you.

Dennis Hahn
Ms Terell,

The premise embodied by December 17, 2010 "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles" is absurd, impractical, costly and sure to be ineffective.

The arsenal of south and central America has ample weapons to supply the drug cartels and other criminal elements in Mexico. Mexico has been rife with corruption for decades and the government is not effective at dealing with the problem. The problem is Mexico and the other corrupt Latin American nations.

The ATF would not be any more effective at it's legal mission with a new and unneeded power.

The concept is a bad one and it should not happen.

Dennis Hansen
5714 Arboles
Houston, TX  77035
What does the ATF think they will gain by registering "Long Guns". This is stupidity at it's height by a government organization. The Republican House need to cut off the funding for ATF NOW!  This is why we are losing faith in our government to govern in a reasonable manner.

--

Dennis & Edna
dennis@hining.com
I live in California, I see that you wish to make me report long rifle sales. I urge you not to pursue this issue, it does nothing to help curtail guns reaching the drug runners, gangsters or whatever the lawless are called. It poses a problem to law abiding citizens and I fall in that category.

Barbara A. Terrell  
Firearms Industry Programs Branch  
Bureau of Alcohol, Tobacco, Firearms and Explosives

Dear Babara: I am a Law abiding citizen of the United States. I strongly oppose what your office at The Bureau of Alcohol, Tobacco, Firearms and Explosives, is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines.

I believe that the ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations, and that this against the citizens of the United State's 2nd Ammendment Right to Purchase, Keep and Bear Arms for our personal protection.

I ask that reconsider your request and not demand this requirement of our federal government.

Sincerely

Dennis M. Krummel
I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

White House delayed rule meant to stop gun flow to Mexico, Washington Post, Dec. 17, 2010, Online edition:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does
not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

New York, NY 10023
Barbara Terrell:

If we allow the ATF to collect information concerning rifle sales in California, Arizona, New Mexico, and Texas what is to stop them from wanting to do it in every state in America? As an American I have the right to own and bare arms without the ATF being told if I buy more than two rifles in a five day period.

Giving the ATF the ability to collect information of this type is wrong and should not be allowed. I do not have to report how many hammers I buy in a five day period and I see no reason why the ATF should have the right to know how many guns I buy. When the government controls the people's rights the people have no rights. This is American not a dictatorship.

In reference to the 'Dec 17 2010 Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles': As a concerned citizen I'm opposed to the BATF seeking to impose greater regulations on firearms licensees than that which their statutory authority allows. This is an effort for greater federal control of legitimate business & people's rights. We need to lessen, not increase bureaucratic red-tape with misguided regulations which serve no honest legitimate purpose. Please deny this power grab by the BATF.

Respectfully, Dennis Wilson

We the American People have the right to be free. To live without fear of our government which we have elected! We as a whole nation want a safer America but to hinder law abiding citizens in any way from practicing their constitutional rights is wrong!!! What needs to be done is to secure our southern borders, restricting illegal actives by non American persons NOT restrict the American tax payer!! The U.S. government has forgotten whom pays the bills and who pays their salary!!!!!!! We don't need any firearms registrations or any more regulations against our freedoms!!!

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

To Whom It May Concern:

I am writing as member of the National Rifle Association of America (NRA) and a concerned U.S. citizen, to offer my condemnation of the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB). The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees. It is a total waste of resources and goes well beyond any limits of authority by the ATF. Please see that this disregard for proper authority is not supported in any way. Thank you for your responsible handling of this matter in advance.

Sincerely,

Denny A. Evans

Miss Terrell,

I would like to comment on the December 17, 2010 "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.” I am very disillusioned that the BATFE would choose to burden lawful firearms dealers with this pointless registration of a multiple sale of certain rifles. It is also a direct attack on an individual’s 2nd amendment rights to force registration of lawful consumers. Please do everything in your power to see that this authority is not granted to the BATFE.

Thank You

Anthony DePiero

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Thank you.

Ms. Terrell,
Regarding the current proposal on Long Gun Reporting for the border states:

Please do not enact this ineffective and unlawful legislation. There are better solutions to the real problem which has much more to do with enforcement than it does the effectiveness of laws such as the one being debated now.

Thanks,
Derek Bristol

Dear BATFE,

As a concerned citizen, I suggest you OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is also not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved, both because it violates existing law, and because it wastes taxpayer funds alienating law abiding citizens. Please, dedicate the money to increasing the incentives for law enforcement guarding the border.

Sincerely,
Deric Quesenberry, MS-1

Dear Ms. Terrell,

I'm writing today in reference to the "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles" to voice my deep dissatisfaction with the ATF concerning it's efforts to require firearms dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semi automatic rifles within five business days, if the rifles are larger than .22 caliber and use detachable magazines. The ATF has no legal authority to demand these reports and I want the ATF stop these efforts immediately and use it's resources and time on legitimate investigations.

I'm a registered voter in my state and a lifetime NRA member and I will with thousands of others be following this issue closely.

Sincerely,

Donald E. Swafford

Dear Barbara Terrell,

This proposal is one of ignorance. For a responsible and law-abiding (terms I'm certain you have heard before) gun owner it is a real "slap in the face" to hear of laws such as this being considered. Please consider the PROPER ENFORCEMENT of the many laws against guns the U.S. already has in place. The forced reporting of every long gun over .22 cal. purchased by an average hunter to the federal government would be a crime in its self, an obvious invasion of privacy. I do not know what the ATF's reason for this law is, but I do know that the ATF is wrong for wanting it observed. I only wonder what will be proposed next. STOP wasting my tax dollars proposing laws meant to make the government bigger than it already is.

Thank you for taking the time to read this email,

-Devin F. (NRA member)
I don't agree forcing gun registration for people in bordering states. If you want to stop the problems with smuggling across the border build a wall.

Thanks

DMG

The following is being sent to the OMB
Office of Management & Budget
Office of Information and Regulation Affairs
Attention: Department of Justice Desk Officer
Washington, DC 20503

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242,
Page 79021), 60-Day Emergency Notice of Information Collection Under
Review: Report of Multiple Sale or Other Disposition of Certain Rifles

To Whom It May Concern:

I am writing on my behalf, to offer my comments on this Bureau of Alcohol, Tobacco,
Firearms, and Explosives (ATF) information collection request to the Office of
Management and Budget (OMB). The notice proposed an "emergency" requirement
that certain federal firearms licensees report multiple sales or other dispositions
whenever the licensee sells or otherwise disposes of two or more rifles within any five
consecutive business days with the following characteristics: (a) Semi automatic; (b) a
caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the
timeframe in which approval is sought, ATF does not have the statutory authority to
impose this requirement on licensees.

The reasons for that lack of authority are fully explained in the attached legal
memorandum; but in short, the Congress has comprehensively defined what ATF may
and may not require with respect to licensees' records. By specifically requiring reports
only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports
on multiple sales of other firearms. ATF seemed to understand that point when it
responded in October to a recommendation for multiple long gun sales reporting by the
Department of Justice Inspector General. ATF's comment on that recommendation was
that it would "explore the full range of options" but that such a requirement "may
require a change to the Gun Control Act."
These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion."

The scope of the proposed collection suggests in itself that the proposal exceeds ATF's statutory authority. The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States. A second type of demand letter was sent to only 450 dealers nationwide.

Now, ATF proposes to issue demand letters to approximately 8,500 licensees. That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

The burden estimate in the proposal appears to assume that each licensee subject to a demand letter will respond once during the proposed duration of the program. Given the great variety in size and sales volume among the thousands of licensees in the border states, this seems unlikely.

Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers' voluntary, real-time reports of possible "straw purchases." If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

The NRA and myself are well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF's request to approve its proposed collection of information.

DeWayne Nelson

Alexandria, MN 56308
Ms. Terrell,

I write to express my concern and objection to the proposed implementation of an onerous and needless regulation to further restrict and burden those that handle the sale of firearms in CA, N.M, AZ &TX. I find this to also be an overreach of regulatory power and I see it as a further threat to freedoms that relate to the ownership of firearms. Please reconsider your intentions of moving forward with this and any action that impedes the constitutional freedoms of the second amendment and the usurpation of authority that circumvents established constitutional procedures and legislative purview.

Respectfully,

Dewey Dixon
Dear Barbara Terrell,

COMMENTARY on recent efforts to register Americans’ gun purchases in California, Arizona, New Mexico and Texas.

The plan afoot by the ATF to have gun dealers register select firearm purchases in the four border states along the Mexico border is simply a knee jerk reaction to the recent shooting in Arizona. Further legislation creating reactionary laws is not what is needed. We simply need to enforce the laws already on the books and make sure we stop letting criminals off with a slap on the wrist when caught. Sure, this may not have prevented the recent tragedy, but it certainly would have a greater effect on slowing this type of incident than creating more hassles for America’s gun dealers and burdening already understaffed law enforcement agencies. We need to spend the time and effort in putting more emphasis on the judicial process to put and keep these criminals where they belong. I am not a legal expert in fact, but feel that gun registrations already required, has this information on the forms we fill out and can be used to track gun technical information. Use common sense instead of emotion when constructing the system and we will all be better off for your efforts.

Thank you for your time.

Sincerely,

Dexter Tart
Environmental Manager
ARGOS USA Southeast Zone
international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF's request to approve its proposed collection of information.

David F. Burr  Branchport, Ny 14418
Dear Barbara Terrell

I am writing today about your new proposal. December 17, 2010; Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles. I am against the record keeping of individual buying semi auto long guns for protection.

The Gov. will not secure the boarders. The illegal immigrants are bringing in drugs and FULL auto. weapons and large clips, hand grenades and other weapons into the 4 states that you porpoising to start keeping records.

We need deterrents on the Illegals then people would not feel they need extra protection.

99% of the time the police show up after the crime has been committed. and write up a death certificate .. Which does not help the individual that was killed.

As a woman testified to congress or senate ( one of them ) that her and her parent were eating in a restaurant. Some one drove a truck through the building and started shooting people. She had a permit to carry a weapon but did not have with that day because of state laws. If she had it her parent most likely would still be alive. Law abiding citizens should be able to carry guns.. If they want to.. without a lot of restrictions.

Thank you

In reference to the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.” ...Please stop this silly-ness of Long gun sales reporting. We need less paperwork and less reporting. This does nothing but hurt decent honest law abiding citizens.

thanks, Robbie Gianni

This information collection is both illegal and unnecessary. Furthermore, there is no justification for any “emergency” implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* The attempt by ATF is universally and overwhelmingly opposed by citizens and their congressional delegations. See the following: [http://rehberg.house.gov/index.cfm?sectionid=26&parentid=5&sectiontree=5,26&itemid=1584](http://rehberg.house.gov/index.cfm?sectionid=26&parentid=5&sectiontree=5,26&itemid=1584)

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation … may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established.”

There is a grave potential for this information collection to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law-abiding gun owners to this type of investigation under the guise of “information collection” is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

Thank you.

I've had to reconsider -- something I never thought I'd do. Since Reagan, it's not crime or terrorism that is our greatest threat, but our own government, which has exercised its power to reallocate our public dollars from the poor and working class, into the bank accounts of the very rich. I never thought our govt would go so low as to take our money out of programs that helped impoverished women and children by proclaiming that the 6% of the budget that went into AFDC was "more than we can afford".

The DEMANDS that the public now pay the taxes owed by the filthy rich, via billions of dollars of annual "tax relief," have become routine.

Welfare "reform" only whet the appetite of the rich and greedy in govt. It has been a powerful tool to suppress wages and wipe out labor protections, pulling more people into poverty. Conditions worsened tremendously with Clinton's NAFTA. Our political royalty has been working to steal all the money that generations of our families have paid into Social Security. It will be necessary for govt to compel families to provide for their elderly and disabled, on their own declining wages, which should finish off the middle class, increasing the already-large portion of the population in poverty.

As much as our media ignores it, we do have a volatile situation, with millions of Americans who have nothing left to lose, and a govt hell-bent on worsening conditions for the sake of rewarding rich campaign donors.

Proposed gun control measures would, in effect, restrict gun ownership to the wealthy, significantly reducing access to guns to everyone else. Looking at the bigger picture of political changes over the last 30+ years, and the hell-bent determination of the Republican Party to steal Social Security, maybe this isn't the time to work toward reducing access to guns - especially in poor communities.

JENSEN BEACH, FL 34957
Dear Barbra
I live in Texas and do not think that this will help. The people who send fire arms to Mexico only want guns like SKS not any others. They can buy them in other states and will. You need to push for more money so that you can stop all problems with the border crossings.

NOTE If I were a person wanting to get into the US other than a Worker I would come in through Mexico. I have walked along the border at Big Bend Park and it would be easy to come on over. Then some one could pick me up and pay a lot to get transported to the other states.

Please try to get this to people who can help control the border.
The people doing the gun transporting are the problem not US!

Thank You
Russell Dienell, S.E., P.E.

972-946-8292
It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

This concerns the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.” Simply put the BATFE does not have the statutory authority from Congress to impose the firearms dealers' long gun reporting requirements being sought. Congress has already expressly addressed this question and authorized reporting for pistols and revolvers only.

To Mrs. Hutchison, Mr. Cornyn, and Mr. Olson, I read the entire report by the U.S. Department of Justice's Office of the Inspector General's Evaluation and Inspections Division's "Review of ATF's Project Gunrunner - November 2010" along with several statistical articles such as those found at "Statfor Global Intelligence" that show around 90% of the seized Mexican trace firearms are NOT proven to be from the U.S. It appears that the authority improperly sought by the BATFE is for a problem that has not been proven to exist. Please reply with a summary of what steps you plan to take to insure that the Executive Branch is not allowed to bypass the Legislative Branch of the federal government in this matter.

What a joke, more regulation and reporting required of free Americans!

What is this RUSSIA? Saudi Arabia?

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

VOTE NO WAY.

Thank you,

Donald Jackson

Dear Ms. Terrell,

Why is it so important to strangle the rights of the law abiding citizens? If there is really a firearms issue as inferred why isn’t the ATF taking appropriate action. How does increasing the ATF paper work help solve the current cartel problem? The ATF cannot currently handle the dealer’s voluntary reports of possible straw issues. That is a drop in the bucket compared to this initiative. ATF should be doing investigatory work not pushing paper that they are not capable of handling the volume. Does it make sense that 15% of the U.S. rifle sales have useless paper work filed on them? Do you actually think paper work will solve the problem with Mexico? How about we have the Mexicans do their own work so our ATF can focus on fighting crime. Pandering to anti-gun advocates is beneath the dignity of the ATF. Why would the ATF chose to violate the licensee record authority as defined by Congress?

I am all for eliminating cartel power. I am not in support of U.S. citizens loosing their rights or being punished to eliminate the cartel power. Maybe you could recommend to the Department of Justice Inspector general that the focus on fighting crime not on piling up useless paper work.

Thank you for you time and consideration.

Danny Burgin

Hello Ms. Terrell,
I'm writing to you because of the ATF's involvement in multiple rifle sales. As an American, I abide by the laws of this great country, and I don't believe that the Government needs to spend money, that we don't have, on tracking these rifles. That money sure could be better spent on protecting our border's from illegal entry by those who just want to live here and take every advantage of section 8 housing, food stamps, etc. I have no problem with people abiding by the law and becoming a US citizen the correct way. People who have been in this country for over 10 yrs. and still can't speak a word of English. So, we shell out money for interpiters and the like to make it easier on them. No one makes my house payment or gives me free food!
Sorry for getting off the original subject, but our borders need to be shut down and right now to stop the flow of illegal people flowing into my and your country.
I hope you will look at this firearm controversy and make the right decision pertaining to these rifles.
Thank you for your time and all that you do.

Sincerely
Denny Henchal
I strongly object to long guns sales reporting changes proposed in the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”
Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Derrick Lightford Sr
dlightfordsr@comcast.net
I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.
Dear Barbara Terrell:

As an owner of guns and hunter, living in the state of California. I think that more gun laws are not the way to stop the criminals from using a gun to commit a crime. being the family member of a murdered cousin. Sammy Leigh MCcllough in Stockton, Ca, Shot and dismembered buy Death Row Inmate Danny Ray Horning. Who has been sitting on Death Row in San Quentin since his conviction in 1992. Who had just served a one year sentence for molesting his own Daughter. What we need is better enforcement of the laws that we have, and to keep the life time criminals off the street. Not a way to punish the law abiding citizen, That just wants to live a life that was given to us by our four fathers and the great Nobel men and women who have fought and died to obtain and preserve the rights given to us. Even though my cousin Sammy was shot by a gun, he was killed by a man. A man that should not have been walking around free, and a man that should not still be sitting on death row. We have plenty of laws, But no enforcement. No consequences for the action of the criminals. The proposal December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.” is not what is needed. Please help protect our your 2nd amendment.

Thank You
David Ramey

530-873-1864
Ms. Terrell,

May I respectfully voice my outrage at this horrendous waste of time, talent, money, and even paper. There is NO need to enact this type of, dare I call it "legislation"? Please reconsider, and please register me as one who protests this crazy scheme that will only waste resources.

Thank you for your consideration of my email.

Sincerely,

Dr. Tim Gottleber

Keller, TX  76248
Amendment II

A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.

The ATF does not have the statutory authority to impose this requirement on licensees.

The reasons for that lack of authority, the Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. ATF seemed to understand that point when it responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."¹ (Which would require an act of Congress)

Best wishes on restraining law abiding citizens Rights in order to disarm criminals,

Bob McCune
It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

I live in the southwest. I am firmly against ATF or any other entity to take any gun rights from any American who is legal to buy weapons. All your going to do is increase the buying os such weapons before you could enact such laws and drive the prices up. Poor decision to mess with our second amendment rights. Besides we will just go to another state. Think before you make a foolish decision. Don Arnett
THIS IS TOTALLY ABSURD WE ARE GUARANTEED THE RIGHT TO BEAR ARMS BY THE CONSTITUTION. THIS RIGHT WAS WRITTEN IN THERE TO PROTECT THE CITIZENS FROM OVER ZEALOUS POLITIONS AND GOVERNMENT. THERE IS NO REFERENCE TO REGISTRATION OR ACCOUNTING TO ANY ONE IF WE CHOOSE TO ARM OURSELVES TO PROTECT OUR FAMILIES FROM HARM. THE GOVERNMENT IS SUPPOSED TO REPRESENT THE PEOPLE AND THE PEOPLE ARE A PRODUCT OF A DEMOCRATIC DEMOCRACY. YOU ARE WRONG IF YOU PROCEED WITH THIS OBJECTIVE. THANK-YOU, DON PITTMAN
I AM 67 YEARS OLD AND A BORN CITIZEN OF THIS GREAT COUNTRY. I HAVE NO CRIMINAL RECORD NOR HAVE EVER BEEN ARRESTED.

I AM COMPLETELY AGAINST "LONG GUN SALES REPORTING". YOU WILL GAIN NOTHING FROM IT OTHER THAN MORE GOVERNMENT INVASION OF LAW ABIDING CITIZENS RIGHTS AND PRIVACY.

RESPECTFULLY,

DONALD W STRAWN

I don’t want any more restrictions imposed on gun owners or gun dealers because of some emergency condition proclaimed by a department of the government. Mexico has problems and their problems should not impact us in any way. The biggest part of their guns come from places other than the United States and I don’t want them dictating to us what we should go about our gun laws.

I look forward to your reply.

Sincerely,

Ms. Terrell,

As an American citizen, I am appalled that my government is considering taking the actions proposed in the “Report of Multiple Sale or Other Disposition of Certain Rifles.” Our freedoms as American citizens are constantly under attack by good-intentioned, but ill-advised individuals and groups who seek to ultimately deny all of us the absolute protections of the 2\textsuperscript{nd} Amendment. I urge all with the power to do so to defeat this and all attempts to dilute our freedoms.

Thank you,
Don Cavness

Dear Ms. Terrell,

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations. Additionally this foolish attempt to once again curb gun owners rights would be adversely affected thousands of businesses as they would be forced to fill out more regulatory paperwork and face the loss of revenue. I am making said comments available to the Office of Information and Regulatory Affairs to be entered into public record.

Kind regards,
Donald Fox

Federal law prohibits the registration of firearm sales; the BATFE has no legal power to require the registration of semi-auto rifles, or any firearm, in border states, or any of the United States. Such a proposed move (the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”) sets a dangerous precedent, and will have no effect on the ludicrous claim that Mexican drug lords obtain their firearms from legitimate dealers in these border states. I therefore oppose this illegal and useless proposed action by the BATFE.

Sincerely,

Don Francisco
Crystal River, FL
Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

Barbara Terrell

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of
"information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Ms Terrell;

Please see the attached memorandum from Chris Cox, Executive Director of the NRA.

I have reviewed the letter and attached legal memorandum and my opinion is the same as the Mr. Cox.

Please share my concerns with the other in the BATFE, OMB Office of Information and Regulatory Affairs Department of Justice Desk Officer and any others as may be appropriate.

Thank you.

Sincerely,

Don J. Fruhwirth

RE: Long gun multiple sales regulation

This smacks of more Feinstein type idiocy and will likely have little affect on crime!!

WE don't need anymore steenking regulations!!

WW
Please just close the borders! No need to report long guns! I believe the 2ND Amendment still is working.
Thank You  Don LeCount - Indiana
Concerning December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

I wish to go on record as opposing this proposal.

I believe that the ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

In addition, the short period of time allowed for comments based on when the ATF “first made the proposal” seems to be only a way to get around allowing US citizens time to be educated and make decisions on this proposal.

Re: "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles."

Dear Ms. Terrell:

It is my understanding the Bureau of Alcohol, Tobacco, Firearms and Explosives plans to require gun dealers in South West Border States to report long gun purchases of anything larger than a .22 caliber that has a detachable magazine. I oppose this and any such measure, and would appreciate it if you would take whatever steps you can to ensure this requirement, and/or any others like it, is not implemented.

Please feel free to pass this along to anyone that may be influential in the decision to require reporting of gun purchases.

Thank you for your time.

Sincerely,
Don Pomeroy

Sent: Friday, December 17, 2010 1:11 PM
To: Terrell, Barbara A.
Subject: Long Gun Multiple Purchases

Ms. Terrell,

I am writing in opposition to the proposed rules being advanced by the ATF in the Federal Register /Vol. 75, No. 242 / Friday, December 17, 2010 / Notices

1. Multiple sales reporting of long guns will actually make it more difficult for licensed retailers to help law enforcement as traffickers modify their illegal schemes to circumvent the reporting requirement. Traffickers will go further underground, hiring more people to buy their firearms. This will make it much harder for retailers to identify and report suspicious behavior to law enforcement.

2. Long guns are rarely used in crime (Bureau of Justice Statistics).
3. Imposing multiple sales-reporting requirements for long guns would further add to the already extensive paperwork and record-keeping requirements burdening America’s retailers – where a single mistake could cost them their license and even land them in jail.
4. Last year, ATF inspected 2,000 retailers in border states and only two licenses were revoked (0.1%). These revocations were for reasons unknown and could have had nothing to do with illicit trafficking of guns; furthermore, no dealers were charged with any criminal wrongdoing.
5. According to ATF, the average age of a firearm recovered in the United States is 11 years old. In Mexico it’s more than 14 years old. This demonstrates that criminals are not using new guns bought from retailers in the states.
6. Congress, when it enacted multiple sales reporting for handguns, could have required multiple sales of long guns – it specifically chose not to.

Best Regards,

Don L. Short, II
Omaha, NE  68144

Hello Ms Terrell,

I am writing to you as a gun owner and a proud American. Please do enact another bill as the one pending now which would require dealers and law enforcement more unnecessary paperwork.

Reporting 2 sells in a 5 day period is just one more example of the current administrations attempt to further reduce our 2nd amendment rights.

The already overreaching government must use its limited resources in a better way, as in closing our almost nonexistent borders, both north and south.

Thank you for your time,

A proud lifetime member of the NRA,

Don

Dear Barbara A. Terrell,
Firearms Industry Programs Branch
Bureau of Alcohol, Tobacco, Firearms and Explosives

I strongly discourage your intentions that require reports to be filed for consecutive long arm sales.

It's understandable, that the ATF would like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Fire arm sales in the US are not the problem. The drug cartels don't nee the US to get their guns.

I approve the attached document and forward it to you as my own.
Phillip White
The ATF has no right to make decisions on long gun sales reporting, according to the constitution that is left to the legislative branch.

Stop treading on our rights!

Ms. Terrell,
This action will not do anything constructive but provide more ILLEGAL information to the BATF which has no authority to request and less authority to receive this information on any US citizen in the southwest or any part of the USA. The law are in place and must be obeyed to purchase the rifle from the establishment and this is just another way to try and usurp what freedom we have left to purchase rifles.

Thank you for your time.

Ms. Terrell,

What is it with this administration and guns? I just read where your office wants gun dealers in the four southwestern states to report on sales of two or more long arm guns within a five-day period.

Aren't we already up to here in debt? Why are you adding more work for the government? We don't have the man power to chase the bad guys now, so how is it going to help by creating more paperwork they have to chase after?

The administration just had one of the biggest election losses in my lifetime, and you still don't get it.

Dear Ms. Terrell,

Please be advised that I oppose the proposed ATF authority to require the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. There is no reason for this. We all know that the weapons used in Mexico by the drug cartels are automatics, rocket propelled grenades and hand grenades that are not sold or available in the U.S. These are weapons are procured in other countries and used in Mexico. The misconception of our current leaders and the president of Mexico have that these weapons come from the U.S. is absurd. Besides the ridiculous nature of the requirement, the ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations. Stop this waste.

I don’t know where the BATFE thinks the registration of semi-automatic rifles in the south west will curtail the violence in and around the Mexico border. The Mexico drug cartel can smuggle drugs what stops them to also include guns also from other countries. This will help bankrupt our already strapped economy. Also if the firearms they use were or are checked I would bet they are mostly full automatics not from the USA. This registration is another invasion of our government into the law abiding US citizens lives.

Re:  Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

Gentlemen,

The reporting requirement requested by the ATF is costly, intrusive and a further abridgement of 2nd amendment rights: Costly because of all the forms and paperwork that translate into more unnecessary cost to the consumer. Intrusive-because the first act of disarming a populace is to “register” their weapons, then comes an “emergent event” which is spun to justify confiscation….which is the full violation of the 2nd amendment. This is a toe-in-the-door request. Please slam the door.

I oppose the reporting requirement being requested by the ATF using border violence from drug traffickers and illegal immigrants as justification for the encroachment on citizens rights.

If you really wanted to curtail drug trafficking, stop funding it with taxpayers dollars. I suggest that the Federal and state governments are funding a majority of drug traffic with entitlement checks directly or indirectly. Start by requiring every entitlement recipient to show up in person and take a drug test each month before they get their check/debit card. Then discontinue payments for 60 days to all those who are users.

If the office of homeland security really wanted to stop illegal border traffic in drugs, weapons, and illegal immigrants….they would create a DMZ with fences and a soldier with orders to shoot trespassers in the zone at 100 yard intervals. By my calculations it would take less than 35,000 troops to cover the area in this fashion…less than we use in several other “wars”.

Sincerely,

Don Kenney

98 to 99% of Americans are law-abiding citizens. Why are we making new laws that take their rights away because of 1 to 2% that aren't? Why aren't we enforcing the laws right now 100% to the max on 1 to 2% law breakers in this great land. One more law will not affect them at all; they don't obey the laws now. They are criminals. Laws mean nothing to them. We need to pass a law that will get rid of them once and for all.

I VOTE NO TO ANY NEW GUN LAWS until we quit letting criminals out of jail and letting them plea bargain their crimes down.

Thank You for your time

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Donald Seal

Luray Va. 22835
Dear Ms. Terrell:

Just a quick input regarding the above question. If the person buying the two semi-auto's within five days is, in actuality, an honest, law-abiding citizen, this info collection will have been a waste of time and valuable gov't. resources. If the person is buying the guns for illegal purposes they will be aware that purchasing two guns within five days will get them reported, hence, they will switch to buying two guns every six days or some variation that will not significantly affect their ultimate goal. Also, the AR15 type rifle is a .22 caliber weapon which, I’m sure, you don't want excluded from being reported. You may have to change the wording to "all centerfire calibers" or some such.

Thank you for reading my comments,

Donald Silvernail

What does it matter if guns are registered or not when this Administration does NOT WANT TO CLOSE THE BORDERS AND KEEP TERRORISTS OUT OF THE USA? IT’S NONE OF THE GOVERNMENT’S BUSINESS IF A PERSON WANTS TO OWN A GUN OR SEVERAL. IF THE TSA AND BORDER PATROL DID THEIR JOBS RIGHT AND WERE ALLOWED TO DO THEIR JOBS RIGHT (THANKS TO OBAMA, THEY CANNOT....HE WANTS OPEN BORDERS....LET ANY AND EVERYONE IN, NO MATTER WHO IT IS). HE IS A MUSLIM ISLAMIC RADICAL AND NEEDS TO BE IMPEACHED AND REMOVED FROM OFFICE FOR SUBVERTING OUR CONSTITUTION....SOMETHING HE CANNOT STAND.

HE IS THE PROBLEM! WE DO NOT WANT A DICTATOR TELLING US WE CAN OR CANNOT OWN, EVEN DOWN TO LIGHT BULBS, FOR GOODNESS SAKE...WHAT WILL IT BE NEXT....CONTROLLING WHEN WE CAN OR CANNOT DRIVE OUR CAR, WHAT STREET WE WILL BE ALLOWED TO DRIVE ON, WHAT RESTAURANT WE WILL BE ABLE TO GO TO????

STOP THE CONTROL OF PEOPLE. READ THE CONSTITUTION OF THE USA. CITIZENS, OF WHICH THIS SO-CALLED PRESIDENT IS PROBABLY NOT, HAVE “INALIENABLE RIGHTS”!!!

NO GUN CONTROLS!!! STOP THE ILLEGALS FROM COMING INTO OUR COUNTRY AND I DON’T MEAN JUST MEXICO!!!

Ms. Terrell,

I am writing you today to express my disdain with your office seeking to legislate law and circumventing our lawmakers. If you wish to effect a change in the requirements of Southwest gun dealers it should be accomplished with the participation of the Congress and not arbitrarily by a government agency.

I will be contacting my Representatives urging them to investigate and modify your agencies procedures so you can not attempt to change laws that govern your agency in the future. Please consider you might be opening a door that swings both ways and I and other legal firearm owners will be watching with great interest and urging our elected Representatives to shut it.

The ATF has no legal authority to demand these reports, and the new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

If your goal was to stop a flow of firearms across our southern boarder, which most firearms owners have discovered is grossly exaggerated by your agency, you would have long ago used your existing laws to stem this dubious tide of firearms from the U.S.

Which leaves me to believe you are attempting to seize some perceived opportunity to legislate and you can be assured legal firearm owners will be watching and contacting our legislators to assure your efforts are not effective.

Respectfully,
Robert Statkus
December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

I do not think such a right should be in the Governments hands to know who is buying this type of long guns. I am not a hunter nor a big gun owner. I think the government should worry more about securing the boarders of who is coming into the states. We have a big border concern here in Texas and I do believe it is going to be a bad thing when the Cortel decide to take over more of this state. And when they make the move to do this here and in other states boarding Mexico it will happen quicker than our law enforcements large and small can handle. I know that this is probably where this law is heading because of all the legal mess we have let take control of our government. But I ask you not to put US citizens as the fault of buying and having to register the long rifles.

Thank you for your time.

Doug

To: Terrell, Barbara A.
Subject: Oppose Regulation Expanding Multiple Sale Reporting

Ms Terrell,

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Sincerely,

Doug Batten

As I understand it, the BATF is considering registering long gun purchases in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines.

I find this simply a form gun registration. Please remember that the BATF proved that most of the illegal firearms used in Mexico come in from foreign companies through the drug trade. This firearms mainly consist of full automatic weapons and explosive devices that aren't readily available in the US.

I oppose, strongly oppose this measure.

Sincerely,

Doug Chism

What part of "WE THE PEOPLE" Does the ATF not understand? I am in total disagreement with your proposal to track long gun sales in the S.W. USA.
Why would the mex. Drug cartels use straw man purchases in the usa when they can get fully automatic, class III military weapons in central & So. America?
Your published numbers of confiscated weapons from mex/usa, Are totally false and misleading.
Sincerely;
Doug DeVan
Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Doug Dyer
Miss Terrell,

As a concerned American I'm appalled that the ATF is willing to break the law and be an accessory to a murder in order to further erode the rights of our citizens. Why is subjecting me to addition draconian laws better than confronting the law breakers within the government.

Our rights are not derived from government. Government cannot take what God has given.

Thank you,
Doug Eing
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

What do you think you’re doing? Responding to the senator shooting? This is not what you need to be doing with tax payer’s money now or ever.

Please stop this out of control gun control activism and put the money on enforcing or deleting laws you already have. This country is in a crisis and this isn’t it.

Doug Hawkings

NRA Active Member
I am definitely opposed to this proposal to report 2 or more purchases of semiautomatic long guns in a 5 day period. You already have enough laws on the books to arrest anyone at anytime as it is. Why not enforce the existing laws already on the books, keep felons in jail, and secure the borders, send the ILLEGAL aliens back, and watch the crime rates plummet. I really cannot understand why Washington has trouble seeing the real problem. Go beyond the beltway and see what is really happening in the real world and I don't mean on a guided tour.

The fish are biting.

Dear Ms. Terrell

I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of
"information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Sincerely,
Douglas J. Martin

I believe the above proposal to be a knee jerk reaction to a widely publicized non-issue. There is no authority to burden law enforcement or businesses with another ton of paperwork. Additionally, the criteria is entirely too broad.

This kind of action needs to stop now. This kind of thing only hurts the law abiding gun owner. This isn't going to hurt criminals, they don't acquire firearms in the legitimate fashion. They acquire them in ways so that their name isn't attached to the gun. Crack down on the criminals, not the rest of us. It's my second amendment right not to be hindered by this kind of nonsense.

I, as an American citizen who has watched the constant chipping away of American Freedoms for the last 30 years, I EXPRESSLY SAY NO to this obviously Unconstitutional Act. IF the ATF wants to Stop any "flow of American guns to Mexico" I suggest you begin with MEXICO and ask just how THEY are stopping the issue, how THEY are stopping the flow of illicit drugs NORTH. THEN FINISH THE FENCE. 
I also suggest when you do catch someone buying and selling guns illegally that you PROSECUTE to the fullest extent of the law and stop the Catch and Release of criminals back in to society and that when you catch a Mexican National running guns, send them home once, the second time they should be in Yuma prison, making big rocks into little rocks until they die. ENOUGH

NO, NO 1000 times NO to anymore INTRUSIONS IN TO THE LIVES OF the AMERICAN PEOPLE with some gratuitous feel good law that risks making Free Americans Criminals. ENOUGH

To whom it may concern:

As both an FFL holder and an avid gun collector, I would just like to take a moment to express my concern over the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.” I kindly urge you to reconsider the proposed reporting requirements.

As a US citizen, I am deeply concerned about the senseless violence happening just across our border at the hands of the drug cartels. In my opinion, however, the proposed reporting requirement would do little, if anything, to curb the gun violence in Mexico; but rather put an undue burden on the firearms dealers such as myself and expose thousands of law-abiding citizens to the investigation and scrutiny of law enforcement.

The drug cartels have millions of dollars at their disposal, and will always have access to weapons on the black market. Take their use of machine guns, grenades, and rocket launchers as an example. It is obvious they are not purchasing these types of weapons over the counter in the US, but the cartels continually get their hands on them and use them in the bloody drug wars now raging in Mexico and other Central and South American countries. As long as the cartels exist and continue to reap huge profits from their illegal activities, they will always be able to find a way to obtain the weapons they desire.

I do understand that some FFL dealers are completely irresponsible and do not care who they sell to, or even care that the same customer continually purchases dozens of rifles from them. I, however, do care and scrutinize every buyer that purchases any type of firearm from me. In my opinion, law enforcement should concentrate on identifying these unscrupulous gun dealers and put them out of business rather than wasting their valuable time investigating thousands of law-abiding US citizens.

Best regards,

Doyle Johnson

I oppose granting "demand letter" authority to the BATFE to collect additional information from approximately 8500 gun shops.

I agree with the points made in the legal opinion that you received from the NRA.

The request exceeds the intent of the demand letter provision.

No doubt the bureaucrats are under pressure to "do something" about the terrible violence in Mexico, but invading the privacy of US citizens to do so is not acceptable. This will erode privacy and increase the burden on US business owners.

ATF has not demonstrated that they are effectively using data already collected to detect straw purchases, so what will they do with the massive amount of data generated by the requested authority?

We must put a stop to the ever expanding burden of government due to the good intentions of non-elected officials.

STOP IT PLEASE!

It's time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use it's authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

Re: 1) December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”  
2) Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Activities: Proposed collection, comments requested

To Whom It May Concern:

I offer my comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB).

The notice proposed an "emergency" requirement that certain federal firearms Licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees.

Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. The BATF seemed to understand that point when it responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."
These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion."

**The scope of the proposed collection suggests in itself that the proposal exceeds ATF’s statutory authority.** The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States. A second type of demand letter was sent to only 450 dealers nationwide. Now, ATF proposes to issue demand letters to approximately 8,500 licensees.

That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

The burden estimate in the proposal appears to assume that each licensee subject to a demand letter will respond once during the proposed duration of the program. Given the great variety in size and sales volume among the thousands of licensees in the border states, this seems unlikely.

Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers’ voluntary, real-time reports of possible "straw purchases." If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

I am well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, **OMB should deny ATF’s request to approve its proposed collection of information.** If you have any questions about my comments, please do not hesitate to contact my office.

Sincerely,

Dr. Craig M. Bereznoff

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter, and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Dr. Cathy Roberts

Greetings Ms. Terrell

I would like to have my opposition noted regarding Mr. Melson's Demand Letter of December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This suggestion is ludicrous and could only hamper our (U.S. Citizen's) safety. It does not deal with the problem. It also appears unconstitutional.

Thank you,

Don

MS. Terrell,

If the BATFE pursues its attempt to circumvent the 2nd Amendment through its proposal to require long gun sales reporting in my State of Arizona you can count on a legal battle of the like this country has never seen before. Take a close and keen look at how Arizona deals with challenges from the Federal Government...we DO NOT back down, I implore not just your department, but the entire Administration to stop wasting my tax dollars trying to destroy the Constitutional rights of this country's citizens.

Sincerely,

Dr. J. Albert Almendinger

If you received this transmission in error, please immediately contact the sender and destroy the material in its entirety, whether in electronic or hard copy format.
In reference the BATF's "new" proposal to require onerous new reporting of long purchases along the Mexican boarder; I respectfully submit that this regulation goes far beyond the limits of the United States Constitution and SHOULD BE IMMEDIATELY ABANDONED. This perverse regulation will add costs and overburden government and the general public with unwanted and UNNEEDED regulation. With the recent exposé of the bumbling, fumbling and treasonous actions by the BATF in "project Gun Runner", this regulation will be one more attempt to disarm the American public in the false hope of "trying to do something" about the Mexican drug problem. WHY would a drug capo loaded with money try and purchase one firearm or 10 at a time from a retail gun store in Texas when they can BUY a BOAT LOAD from China, North Korea or the Middle East and have them delivered to their doorstep? The BATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations. This insanity of BATF MUST STOP! Instead of one more useless "program" the best fix would be defunding the BATF (American Secret Police/Gestapo) and restoring America to its Constitutional Roots.

Dr. K

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines.

For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400. The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

I am a voter, a sportsman and a volunteer fireman and emt.

RE: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

Dear Ms Terrell,

Unfortunately, I have no time to respond to this latest infringement on my Constitutional rights by the ATF, but submit comment to you just because it can be done in a timely manner before the February 14, 2011 deadline for comment.

I oppose this latest ‘Knee Jerk’ reaction to the tragic shooting in Arizona by a crazed individual. The rest of America morns and deplores this event, but the rest of America should not be held responsible by further infringements on the Second Amendment to the Constitution proposed by the ATF.

As a taxpayer, I will eventually and ultimately be responsible for implementation of this useless registration proposal by the ATF. Not only is my Second Amendment rights violated, but I will have to pay for it as well.

No matter what kind of society we live in, there will be crime. We cannot pass laws to prevent crime; we can only deal with the aftermath, and that includes ANY country you want to name. The emphasis should be on severe punishment when a crime occurs, not design laws and regulations to make further frivolous impositions on its law abiding citizens.

You will never be able to stop a Kamikaze, Jihad, or a crazed person on a mission. They care not of laws. They will obtain by whatever means necessary the tools to carry out their mission. By limiting access of any of these tools to ALL persons just excludes the law abiding citizens, but the social misfits will still obtain them with total disregard for the laws.

You are not a representative of the people, but I IMPLORE you to do everything in your power to oppose any measure(s) that further infringe on the [your] rights of the citizens of this
great country, who have the right to ‘keep and bear arms’ as set forth in the Constitution (as recently affirmed by the Supreme Court).

And the POSSESSION issue is where the LINE should be drawn. How a citizen USES the arms he possesses SHOULD have regulation and harsh penalties for MISUSE. Perhaps defining use and misuse would be better way to spend tax dollars rather than passing useless laws and regulations designed to prevent crime. Never worked, never will.

If you have rebuttal, I would welcome hearing differing opinion.

Very Sincerely,
Duke Wahl

Thank you for your comment regarding the 60-day emergency notice of information collection relating to ATF Form 3310.12 (Report of Multiple Sale or Other Disposition of Certain Rifles), published in the Federal Register on December 17, 2010. The Federal Register and supplement form may be found at: http://www.atf.gov/regulations-rulings/rulemakings/general-notices.html

The primary purpose of this program is to improve law enforcement’s ability to identify firearms traffickers, to disrupt the criminal activity and to stop deadly violence plaguing the Southwest Border States and Mexico. The multiple sales reports will apply only to rifles that are semi-automatic, greater than .22 caliber, and have the ability to accept a detachable magazine. ATF intends to implement this program to require that Federal firearms licensees in the States of California, Arizona, New Mexico, and Texas complete the form for those transactions in which an individual purchases two or more of these rifles within five business days. We intend to evaluate the results at the end of a 1 year pilot period, at which time ATF may expand, narrow or discontinue the program.

As mentioned in the notice, if granted by the Office of Management and Budget (OMB), the emergency approval of the form is valid for 180 days. All comments received in response to the notice will be carefully considered and, if warranted, revisions to the form will be made.

Subject: From Duncans Gunworks

We are writing in opposition to the reporting of multiple sales reporting of long guns. In California, we are already required to list how many long guns a person is purchasing during each transaction. The information is being sent with each DROS.

Long guns are rarely used in crimes and it will actually make it more difficult for dealers to help law enforcement, because the criminals will change their ways to get guns to get around this reporting requirement. It will make it harder for us to identify and report suspicious behavior to law enforcement. Congress, when enacting the multiple handgun reporting had the chance to add long guns, and specifically chose not to.

Please do not add another extensive paperwork and record-keeping requirement to our already heavy load, especially one that will not help keep the guns out of criminals hands.

Ms. Terrell,

Please accept this comment concerning Long Gun Sales Reporting. This requirement will add undue costs to law enforcement as well as to further limit citizens' right to arms. I do not support this action and request that the pursuit of this requirement be ended.

Respectfully,

D. Dye
I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register. 

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

This regulatory action should not be approved

Dustin Drake
Please consider this a letter opposing any legislation regarding Long Gun Sales Reporting in ANY state. Please see below:

"A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed."

The original and copies distributed to the states, and then ratified by them, had different capitalization and punctuation:

“A well regulated militia being necessary to the security of a free State, the right of the People to keep and bear arms shall not be infringed."

The 2nd amendment shall not be infringed upon. These reporting requirements will not stop any crimes or solve any either. I'm a former peace officer and have years of experience. Street gangs and average criminals that utilize firearms during the commission of a crime, do not go and buy multiple long guns such as deer rifles and then go commit the crime.

Most guns are stolen and then used in a crime. Get real. This is just more legislation to keep the honest people, honest. NO MORE! Please read the bill of rights and the constitution. These are the rules that we must follow. Start actually implementing the actual sentences of the criminals you catch. Trust me, that will be much more effective.

Dusty
Orland, Ca. 95963
The BATF as always is overstepping their boundaries in trying to record every sales of long guns in the southwest. This is nothing more than registration in its simplest form in an effort to appease a couple of congressmen / senators. This isn't a political game to be played and you have no authority to do this! If Mexico wants trafficking stopped then let them put their soldiers on the border and keep the drugs in Mexico along with the dealers. If they don't want that pull the troops from Iran and space them every 10 ft from the coast to coast—shoot on sight, like Mexico!
Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

Please do not do this; there are enough rules and paperwork in purchasing firearms. If the ATF wants to do anything try enforcing current laws that pertain to firearms. A example of why this reporting is wrong, when I grow up my father was a avid hunter and when he purchased guns he bought three at a time, one for me, one for my brother, and one for himself and did this multiple times during his life. There is too much paperwork in dealing with the government now and most is redundant or and just busy work to justify adding labor and expanding budgets. Please take into account my comments and do not allow this to go through.

This action would not stop illegals from getting guns only force them to take more extreme action to get them or seek underground way which most do. It would however be another over reaching arm of government infringing on the rights of Americans. I urge you not to go with this.

David Ward
It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.
