It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

**Subject:** FR Doc. 2010-31761

Dear Ms. Terrell,

I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

<http://edocket.access.gpo.gov/2010/pdf/2010-31761.pdf>

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

White House delayed rule meant to stop gun flow to Mexico, Washington Post, Dec. 17, 2010, On-line edition:

( <http://www.washingtonpost.com/wp-dyn/content/article/2010/12/17/AR2010121706598.html> ).

\* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

\* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

\* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

This regulatory action should not be approved.

Dear Ms. Terrell

In my experience, the only effect of all the federal gun laws is to make it difficult for law abiding citizens to purchase, use, trade, and engage in law abiding activities related to firearms. There is absolutely no proof of which I am aware that the federal gun laws have since 1934 inhibited criminal use of firearms.

The current laws, rules, and regulations are a burden on businesses that deal in firearms. Again, there is no proof this burden inhibits criminal use of firearms.

Finally, if the ATF would stop supplying the Mexican drug cartels with semi-automatic firearms, the perceived problem would evaporate.

**Subject:** Support for the Reporting of Multiple Sales of Long Guns

Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

**Attachments:** Roses.jpg

Please OPPOSE the "Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles."

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

To the Obama administration: please use the power that you have to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just the way they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.
