It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

I oppose the regulations contained in Fed Reg Not 12/17/10 (Vol75 No242 Pg79021), 60 day Emerg Notice....Report of Mulit-Sale ... Rifles.

I believe that this an unduly burdensome and costly reg without proven benefit.

Principally, this is an attempt, using regulation, to restrict a constitutional right of a citizen. We all must abide by the constitution, regardless of our personal wishes or philosophy.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register. 

This expansion of BATFE power is unnecessary and will not help the violence along our southern border.

The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

Federal Firearms License holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

This action should not be approved.

Thank you for your time.

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

To Whom It May Concern:

I am writing on behalf of the National Rifle Association of America, Inc. (NRA), to offer our comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB).

The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive...
business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees.

The reasons for that lack of authority are fully explained in the attached legal memorandum; but in short, the Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. ATF seemed to understand that point when it responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."

These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion."
The scope of the proposed collection suggests in itself that the proposal exceeds ATF’s statutory authority. The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States.

A second type of demand letter was sent to only 450 dealers nationwide.

Now, ATF proposes to issue demand letters to approximately 8,500 licensees. That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

The burden estimate in the proposal appears to assume that each licensee subject to a demand letter will respond once during the proposed duration of the program. Given the great variety in size and sales volume among the thousands of licensees in the border states, this seems unlikely.

Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers' voluntary, real-time reports of possible "straw purchases."

If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

The NRA is well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the
international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF’s request to approve its proposed collection of information. If you have any questions about our comments, please do not hesitate to contact my office.

Chris W. Cox

Executive Director

NRA Institute for Legislative Action
ATF HAS NO AUTHORITY TO IMPOSE
MULTIPLE SALES REPORTING FOR RIFLES

The December 17, 2010 "Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles" does not indicate the statutory authority upon which ATF relies for its proposed multiple sales reporting requirement. However, a statement by ATF Deputy Director Kenneth Melson posted online at www.atf.gov indicates that licensees will be sent "demand letters" seeking the information. This memorandum explains why ATF's "demand letter" authority does not authorize the proposed collection.

The statutory authority for "demand letters" is 18 U.S.C. § 923(g)(5)(A), which provides:

Each licensee shall, when required by letter issued by the Attorney General, and until notified to the contrary in writing by the Attorney General, submit on a form specified by the Attorney General, for periods and at the times specified in such letter, all record information required to be kept by this chapter or such lesser record information as the Attorney General in such letter may specify.

In determining whether § 923(g)(5)(A) authorizes ATF to require the reporting of multiple sales of certain rifles, its words "must be read in their context and with a view to their place in the overall statutory scheme."

Davis v. Michigan Dept. of Treasury, 489 U.S. 803, 809 (1989). More recently, the Supreme Court has explained:

In determining whether Congress has specifically addressed the question at issue, a reviewing court should not confine itself to examining a particular statutory provision in isolation. The meaning—or ambiguity—
of certain words or phrases may only become evident when placed in context.... A court must therefore interpret the statute "as a symmetrical and coherent regulatory scheme," . . . and "fit, if possible, all parts into an harmonious whole . . . ."

*InMastro Plastics Corp.* v. *Labor Board*, 350 U.S. 270, 285 (1956), the Court rejected an interpretation of a statute which read words in isolation:

"If the above words are read in complete isolation from their context in the Act, such an interpretation is possible. However, "In expounding a statute, we must not be guided by a single sentence or member of a sentence, but look to the provisions of the whole law, and to its object and policy." (citations omitted).

1

350 U.S. at 285.

Thus, in determining the scope of ATF's authority under § 923(g)(5)(A), not only must § 923(g)(5)(A) itself be considered, but other statutory provisions must be considered to ascertain Congress' intent and give effect to the legislative will.

*Philbrook*

v.

With respect to multiple sales reporting, Congress has already expressly addressed this question. 18 U.S.C. § 923(g)(3)(A) provides:

(A) Each licensee shall prepare a report of multiple sales or other
dispositions whenever the licensee sells or otherwise disposes of, at one
time or during any five consecutive business days, two or more pistols, or
revolvers, or any combination of pistols and revolvers totalling two or
more, to an unlicensed person. The report shall be prepared on a form
specified by the Attorney General and forwarded to the office specified
thereon and to the department of State police or State law enforcement
agency of the State or local law enforcement agency of the local
jurisdiction in which the sale or other disposition took place, not later than
the close of business on the day that the multiple sale or other disposition
occurs.

It is well-established that "a statute ought, upon the whole, to be so construed that,
if it can be prevented, no clause, sentence, or word shall be superfluous, void, or
insignificant."

omitted).

If § 923(g)(5)(A) authorizes ATF to require the reporting of multiple sales of
certain rifles, § 923(g)(3)(A) is rendered superfluous and insignificant because ATF
could use the authority of § 923(g)(5)(A) to require the submission of reports of multiple
handgun sales. That Congress deemed necessary the enactment of § 923(g)(3)(A) reveals
that Congress did not intend that § 923(g)(5)(A) have the broad reach ascribed to it by
ATF.

Further, "[w]hen a statute limits a thing to be done in a particular mode, it
includes a negative of any other mode."

Christensen v. Harris County, 529 U.S. 576, 583
(2000).

1 Here, Congress expressly limited multiple sales reporting to pistols and
revolvers, thereby negating multiple sales reporting of certain rifles.

The legislative history of § 923(g)(5)(A) confirms that Congress did not intend that § 923(g)(5)(A) would be used to require reporting of multiple sales reporting of certain rifles.

See also Bulova Watch Co. v. United States, 365 U.S. 753, 758 (1961)("It is familiar law that a specific statute controls over a general one").

The original demand letter regulation (27 C.F.R. § 178.126) was promulgated under, and became effective on the same date as, the Gun Control Act of 1968, December 16, 1968. § 105(a), P.L. 90-618, 82 Stat. 1213 (1968); 33 F.R. 18555, 18556 (Dec. 14, 1968). Harold Serr, Director of the Alcohol and Tobacco Tax Division, wrote to Senator Frank Church on December 17, 1968:

[Under no circumstances does the Alcohol and Tobacco Tax Division intend to require licensed firearms dealers to submit all records of firearms transactions to a central location. This would be in effect gun registration and the Congress clearly showed its desires in this area when gun legislation was voted on.

131 Cong. Rec. S9129 (July 9, 1985).

Serr wrote that the demand letter regulation would be used "when we become aware of violations of the law by an unscrupulous dealer."

Id. An example would be a dealer illegally selling handguns to out-of-state residents who stated that "they could give him any name they chose." In such a situation, "we would require the dealer to submit records of his sales, not for the purpose of registration, but for the purpose of proceeding against the dealer for a criminal violation of the law."
Id. Serr emphasized, however, that ATF had "no intention of requiring law-abiding gun dealers to report their firearms transactions to us."

Id.

Section 103 of FOP A, 100 Stat. 454, amended § 923(g)(1)(A) to provide that licensees "shall not be required to submit to the Secretary reports . . . except as expressly required by this section." Such records "include, for instance, multiple sales reports and certain informational reports used in connection with tracing." S.Rep. 98-583, at 15. "See, e.g., proposed 18 U.S.C. 923(g)(4) and (5), discussed in more detail infra." Id.

n.32.

Subparagraph (4) would be enacted as the demand letter provision. § 103 of FOP A, 100 Stat. 455. That provision "is based on existing Treasury regulations describing activities which facilitate the Secretary's ability to trace the disposition of firearms in connection with criminal investigations."

S.Rep. 98-583, at 17. The report continues:

2

Subparagraph (5) would be enacted as § 923(g)(3), which provides that a licensee shall report to the Secretary the sale of two or more handguns in a five-day period.

3

In 1994, Congress enacted § 923(g)(7), which created an explicit duty of a licensee to respond to a trace request, "orally or in writing, as the Attorney General may require" within 24 hours and authorized the Attorney General to make such requests by telephone. A trace request pursuant to § 923(g)(7) was, however, only for the purpose of
"determining the disposition of 1 or more firearms in the course of a bona fide criminal investigation."

3

The purpose of Paragraph (4) is to clarify and ensure the Secretary's authority to conduct legitimate tracing activities in connection with bona fide criminal investigations. The authority granted to the Secretary under this Paragraph is intended to provide access to all information legitimately needed in sensitive criminal investigations, such as the investigation of President Reagan's attempted assassination. However, because of the breadth of the authority granted, limitations on the use of such information, which do not exist under current regulations, were included to restrict any potential for the abuse of the rights of law-abiding licensees.

Id.
at 18.

The use of § 923(g)(5)(A) in relation to traces would be limited not only to "bona fide criminal investigations," but would be further confined by what would be enacted as § 926(a).

4

As the Senate report, which referred to the demand-letter provision as the "tracing provision[,]" further explained:
The multiple sales, out-of-business records, and tracing provisions, which, in certain respects, codify existing regulations, were included in the Committee amendment to achieve an appropriate balance between legitimate law enforcement needs and the Committee's determination to substantially restrict the circumstances under which inspections are authorized. This, in turn, reduces the potential for unwarranted intrusions
into the business affairs of law-abiding licensees. However,... the authority granted under 18 U.S.C. 923(g) (3), (4) and (5), as well as that contained in paragraph (1), as amended, are not to be construed to authorize the United States . . . to use the information obtained from any records or form which are required to be maintained for inspection or submission by licensees under Chapter 44 to establish any system of registration of firearms, firearms owners, or firearms transactions or dispositions.

Id.
at 18.

§ 926(a) provides in part that the Attorney General may not promulgate a "rule or regulation" which would:

require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States . . . .

4

Specifically, § 106 of FOP A, 100 Stat. 459-60, amended § 926(a) to prohibit BATF from requiring that licensee records "be recorded at or transferred to" a government facility or establishing any registration system, but allowing the authority to conduct traces "in the course of a criminal investigation." The report states that "this 'tracing' authority is codified in the Committee's amendment," obviously referring to what would be enacted as § 923(g)(5)(A). Senate Report 98-583 at 27.

In later Senate debate, Senator Hatch explained of § 926(a) that "the authority to request tracing information for dealers can never be used to establish any centralized or regional registration system for firearms or firearm owners." 131 Cong. Rec. S8691 (June 24, 1985). Senator Hatch also clarified the understanding of the 1968 demand letter regulation which FOP A would codify as follows:

_In order to facilitate tracing offirearms used in violent crimes, licensed dealers currently are required to provide the Secretary of Treasury with information about specific weapons upon request._

Further a dealer must report multiple handgun sales to the same person which occur within 5 consecutive business days, and if the dealer is going out of business, he must send his records to the BATF rather than destroy or otherwise dispose of them. These tracing authorities are included currently in Federal regulations.

131 Cong. Rec. S8691 (June 24, 1985) (emphasis added).

Senator Hatch added that "the authority to request tracing information for dealers can never be used to establish any centralized or regional registration system for firearms or firearm owners."

_Id._ Hatch stated about § 923(g)(5)(A) that "Congress had no intent to require all law-abiding gun dealers to report all their firearms transactions" to BATF.

_Id._

at S9129 (July 9, 1985). For the purpose of "clarifying the record information submission requirement for firearms licensees," Senator Hatch inserted into the record ATF Director Serr's explanation of the purpose of the demand letter regulation quoted above.

Not a single senator voiced a contrary view of the purpose of § 923(g)(5)(A).
Thus, the canon of statutory construction that it "is the sponsors that we look to when the
5
Senator James McClure, the chief FOPA sponsor, provided the following
concise explanation: "The central compromise of the Gun Control Act of 1968 - the
\textit{sine qua non}
for the entry of the Federal Government into any form of firearms regulation was
this: Records concerning gun ownership would be maintained by dealers, not by the
Federal Government and not by State and local governments." 131 Cong. Rec. S9163-64
(July 9, 1985).
5
meaning of the statutory words is in doubt,",
\textit{Schwegmann Bros. v. Calvert Corp.}, 341
U.S. 384, 394-395 (1951), applies with particular emphasis with respect to §
923(g)(5)(A).
When the bill was being considered by the House after Senate passage, Edward T.
Stevenson, Deputy Assistant Secretary, Enforcement and Operations, Department of the
Treasury, explained the understanding of the United States of the language which became
§ 923(g)(5)(A):
Initially, the bill could be interpreted to remove the statutory authority by
which the Government may require licensees to report information from
required records. Based on this authority, licensees are currently required
by regulations to provide information about particular firearms
transactions on request, to report multiple sales of handguns to the same
person, and to turn in to the Government out-of-business records upon
ceasing business. Under S. 49, as passed by the Senate, these existing
reporting requirements would be preserved and now specifically required
by statute.

Legislation to Modify the 1968 Gun Control Act: Hearings Before the Committee on the
Judiciary, House of Representatives, 99

th Cong., 1st & 2d Sess., 1139 (1986) (emphasis
added).

As discussed,

supra, the "existing reporting requirements" referred to by Deputy
Assistant Secretary Stevenson were "existing Treasury regulations describing activities
which facilitate the Secretary's ability to trace the disposition of firearms in connection

Thus, it was the clear understanding of both Congress and the executive branch
prior to the enactment of § 923(g)(5)(A) that both the original regulation and the statute
as enacted by FOP A were limited in scope to (1) information from dealers who were in
violation of the law, and (2) information from any dealers about specific firearms
dispositions necessary for bona fide criminal investigations.

Since the proposed multiple sales demand letters will apparently be sent to all
dealers in a four-state area, including those who have never been found in violation of
any law, and will request information about firearms that are not the subject of any
criminal investigation, ATF has no authority for the proposed information collection.

6
Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

abbe kanner
809 sw 8 ter
ft lauderdale, FL 33315
Dear Ms. Terrell,

I am referring to the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations. PENALTIES SHOULD REFLECT THE SEVERITY OF THE GUN VIOLENCE CRIMES AND THOSE FEW THAT ARE COMMITTING VIOLENCE (SHOOTING OTHERS) WITH GUNS SHOULD BE SEVERELY PROSECUTED, PUNISHED AND PUT TO DEATH, IF FOUND GUILTY. WE SHOULD NOT PUNISH AND TAKE AWAY THE RIGHTS OF NON-VIOLENT LAW ABIDING CITIZENS. THAT IN ITS SELF IS A CRIME AGAINST OUR CONSTITUTION AND OUR RIGHTS!

I am opposed to ATF’S demands and I’m requesting you help put a stop to the federal government’s plan to register Americans’ gun purchases.

Bill Jergins
Saint George, Utah 84770
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Subject: Oppose Regulation Expanding Multiple Sale Reporting

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of
"information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Andy

Please OPPOSE the  “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Adam Barker

To Whom It May Concern:

I am writing on behalf of the National Rifle Association of America, Inc. (NRA), to offer our comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB).

The lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF’s request to approve its proposed collection of information. Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers' voluntary, real-time reports of possible "straw purchases." If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

Dear Barbara Terrell,

I disagree wholeheartedly with the request that the BATFE has put forth concerning the 2 or more long guns reporting requirement. It has been shown repeatedly that gun stores are not where the gangs and drug lords are getting their weapons. The states specified are border states, and are under an unprecedented attack from our neighbors to the South. The requirement does nothing to halt these sales, it merely introduces a weapons registration that has been denied consistently by the U.S. Supreme Court and Congress. The easiest way to stop the drug lords, gangs and other predators from obtaining these weapons is to close, police or otherwise secure cross border traffic.

The mom and pop gun store is not a haven for people bent on destruction as a method for obtaining those means. In full disclosure, I am an NRA member and have proudly descended from 5 generations of combat veterans. I speak for all of them when I ask you to reconsider this hasty attempt at a solution that will ultimately prove unworkable.

Respectfully,
Adam Hult
Ma'am,

I'd bet you've received a fair amount of email re the proposed new rules on reporting. Allow me to add my two cents. I disagree.

And Oh, I see two more agents shot today, my guess is your forensic trace is already complete. How many hundreds of guns not recovered?

No, the BATFE does not need more power.

MANY people are now awake and watching and we see cockroaches. Some have maintained that the Agents are good people, maybe so. Simple agents are not running the Department.

I've taken the liberty of enclosing the latest Action Alert for your perusal.

Thank You for your kind attention,

Adam Lannon

Barbara.Terrell@atf.gov

The comment period has been extended for the ATF's proposed “temporary,” emergency regulation requiring firearms dealers to file reports every time someone purchases more than one semi-auto long gun, but that comment period closes this Tuesday, February 15.

The ATF claims the reporting is necessary to combat the flow of firearms across the border into Mexico, but recent revelations and accusations raise significant questions about ATF's motives and the efficacy of such a reporting requirement.

In what has been dubbed “Project Gunwalker” ATF is accused of allowing hundreds of AR and AK-type rifles to be sold in questionable sales and smuggled across the border – including two rifles recovered after a shootout with bandits on the border in which Border Patrol Agent Brian Terry was killed.

The implications of the Project Gunwalker scandal are that ATF has already been receiving significant, voluntary cooperation from gun dealers in the border states, but that the agency has used that cooperation more to build support for their Project Gunrunner interdiction program and justify the need for the emergency reporting regulation by inflating the numbers of illegally “trafficked” weapons tracked across the border.

Beyond the complications of Project Gunwalker, the idea of requiring reporting of multiple long gun sales is clearly in conflict with established congressional mandates and restrictions on ATF's authority.

Back in 1968 when the federal Gun Control Act was passed Congress included a requirement that multiple sales of handguns be reported to ATF and local law enforcement. At that time, and several times since, Congress has had the opportunity to include multiple sales of long guns in the reporting requirements and they have chosen not to do so.

Congress has also passed several resolutions and included language in laws restricting ATF and other government agencies from instituting any sort of registration program or collecting detailed information from firearms sales without a direct connection to a specific criminal investigation. By attempting to push through this major regulatory change without congressional approval, ATF is seriously overstepping their legal authority.

Here is a sample letter which we ask you to copy and paste into an email or use as a template for writing a letter of your own to email in response to this proposal.

Barbara,

I do think this is more wasted time put on law enforcement. This implies the border patrols are not doing there jobs by letting guns get to Mexico. We both know this is wrong the weapons used take Federal license not only to sell to buy also. It would seem to me a Government is supplying them or could it be that Mexico’s own government cannot control the theft of there weapons?
We America need to stop giving money to the other side of the world and start taking care of this side first. Controlling are border and helping or replacing Mexico’s government.

Adam See
To whom it may concern,

I feel it is a violation of privacy and a waste of valuable resources to report the sales of two or more firearms sales within a five day period to a single consumer. By requiring this type of paperwork to be filled out, your agency will be spending more time checking in on legal gun sales to law abiding citizens than paying attention to the types of sales and arms deals that have a much higher risk to our national security. Making it more difficult for a person to legally purchase a gun will not reduce crime. I encourage you to look at the cities around the world where gun ownership has been outlawed. You will notice that these particular cities have much higher crime rates per capita than cities that have no restrictions.

In closing, I strongly encourage you to re-evaluate the decision to report legal sales of sporting rifles to law abiding citizens as it is a waste valuable resources.

Thank you

No new long gun reporting! the second amendment is inviolable!

If you’re one of the nearly 71 million Americans who live in the four southwest border states, some of your gun purchases could soon be reported to the federal government. And whether you live in one of those states or elsewhere, your help is needed now to stop the federal government’s plan to register Americans’ gun purchases.

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.
Ms Terrell,

As a free law abiding of these states united, I despise any attempt to place further burdens on already heavily burdened Americans. I especially oppose it when the statistics to substantiate this type of action are erroneous and used largely to manipulate the dialog and the federal government to take the action like that being proposed.

Until we get the borders 'sealed' any attempt to place the onus on law abiding American citizens to compensate for the lack of action by the federal government is unconscionable.

Please, do NOT make this unlawful requirement a part of the already burdensome regulatory bureaucracy. The proposed 'regulation' is not a law, nor should it become one.

Respectfully Submitted,

Jerry Wood

ATF Long Gun Sales Reporting!

RE: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

2-11-2011

Enough over-reach.

Withdraw from demanding these new reports.

What is the 'legal basis' for requesting such reports?

Fred Pitzner

-----------------------------
Barbara A. Terrell
Firearms Industry Programs Branch
Bureau of Alcohol, Tobacco, Firearms and Explosives
99 New York Avenue, N.E.
Washington, DC 20226. Barbara.Terrell@atf.gov
Fax: (202) 648–9640

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.
I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register. 

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.
* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).
* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

This regulatory action should not be approved.
Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Ms. Terrell,

It is unbelievable, but I have lived though it and seen the efforts of anti-gunners to punish the law abiding, instead of the criminals, that ATF would once again pursue such a course.

Illegals, Drug Lords, and possible Terrorists on the border of the US should be the target of the ATF. Efforts to control these criminal problems, I support fully. But, seeking an illegal, unconstitutional remedy that is only aimed at law abiding gun owners in unacceptable.

The ATF, and the American people, will be better served by attacking the true problem. Illegals, Drug Lords, and Terrorists, who have no regard for the laws of this country, should be the targets, not law abiding American citizens.

The efforts of the ATF in this direction, will be appreciated.

Understanding the strength of the ATF, I, as a law abiding citizen, have fears of being placed on a "list" for my lawful, civil comments, but the importance of this issue, forces me to email, regarding it.

Cordially yours,

Andrew Kyle, Jr.

Mexico's Gun Supply and the 90 Percent Myth

By Scott Stewart | February 10, 2011

For several years now, STRATFOR has been closely watching developments in Mexico that relate to what we consider the three wars being waged there. Those three wars are the war between the various drug cartels, the war between the government and the cartels and the war being waged against citizens and businesses by criminals.

In addition to watching tactical developments of the cartel wars on the ground and studying the dynamics of the conflict among the various warring factions, we have also been paying close attention to the ways that both the Mexican and U.S. governments have reacted to these developments. Perhaps one of the most interesting aspects to watch has been the way in which the Mexican government has tried to deflect responsibility for the cartel wars away from itself and onto the United States. According to the Mexican government, the cartel wars are not a result of corruption in Mexico or of economic and societal dynamics that leave many Mexicans marginalized and desperate to find a way to make a living. Instead, the cartel wars are due to the insatiable American appetite for narcotics and the endless stream of guns that flows from the United States into Mexico and that results in

Ms. Terrell:
The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations. Although I do not own this type of weapon I strongly object to burdening law abiding businesses with oppressive regulations.
As a voter and tax payer, I object to this ATF Form 3310.12 requirement. Another Big Government program with no believable benefit.

On Fri, Jan 7, 2011 at 7:15 AM, FIPB Regulatory Email inquiries <FEB@usdoj.gov> wrote:

Thank you for your comment regarding the 60-day emergency notice of information collection relating to ATF Form 3310.12 (Report of Multiple Sale or Other Disposition of Certain Rifles), published in the Federal Register on December 17, 2010. The Federal Register and supplement form may be found at: http://www.atf.gov/regulations-rulings/rulemakings/general-notices.html

The primary purpose of this program is to improve law enforcement’s ability to identify firearms traffickers, to disrupt the criminal activity and to stop deadly violence plaguing the Southwest Border States and Mexico. The multiple sales reports will apply only to rifles that are semi-automatic, greater than .22 caliber, and have the ability to accept a detachable magazine. ATF intends to implement this program to require that Federal firearms licensees in the States of California, Arizona, New Mexico, and Texas complete the form for those transactions in which an individual purchases two or more of these rifles within five business days. We intend to evaluate the results at the end of a 1 year pilot period, at which time ATF may expand, narrow or discontinue the program.

As mentioned in the notice, if granted by the Office of Management and Budget (OMB), the emergency approval of the form is valid for 180 days. All comments received in response to the notice will be carefully considered and, if warranted, revisions to the form will be made.

Harrasing US gun dealers will do nothing to limit the importation of arms, real weapons of war, into Mexico from any number of foreign countries. US hunting and sporting guns are not the problem. Worthless rules just makes ATF look silly.

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

James A Parker

PLEASE STOP THE CONTINUING REGULATION OF OUR FREEDOM. PERSONALLY WE NEED TO DO AWAY WITH THE
Bureau of Alcohol, Tobacco, Firearms and Explosives. WE HAVE THE FBI, CIA, THE LOCAL POLICE, SHERIFF DEPARTMENT, THE POSTAL POLICE AND GOD KNOWS WHAT OTHER POLICE DEPARTMENT WE HAVE TO MAKE UP STUPID REGULATIONS. IF WE DIDN'T HAVE THEM BEFORE OR NEED THEM IN THE PAST THEN IT STANDS TO REASON WE DON'T NEED THE REGULATION NOW. IF I WERE PART OF YOUR DEPARTMENT I WOULD BE WORRIED. WE NEED TO CUT THE FAT AND YOU GUYS DO NOTING TO HELP THE REGULAR CITIZEN, BUT YOU SURE GO OUT OF YOUR WAY TO HELP THE CROOKS. WHY DO WE NEED YOU? I THINK EVERY GOV. DEPARTMENT WE HAVE NEEDS TO RE-INTERVIEW FOR THEIR JOB AND EXPLAIN WHY WE NEED THE DEPARTMENT. WE CAN DO THINGS LOCALLY MUCH BETTER AND FOR MUCH LESS THEN WHAT WE PAY TO KEEP THIS DEPARTMENT GOING. THANK YOU, MAYBE IF YOU HAD A REGULAR JOB YOU WOULD STOP A LOT OF THE BS THAT COMES OUT OF THIS DEPART.

I am opposed to the proposed long gun legislation regarding long guns with removable magazines.

Alan H. Poff
Garland, Texas
I am writing to oppose the so called emergency regulation to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g) (3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL" holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations:
Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation ... may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

ms. terrell,

with all due respect why don't you let mexico sort it's own problems out. their government is a disaster and that is where the problem lies, not in this country. i fail to see how registering any gun in this country can be construed as germain to solving the problems in mexico, assuming you belive that it is incumbent upon this country to solve mexico's internal problems in the first place.

i no more expect mexico to be involved in solving the crime rate in detroit than i expect my government to be involved in solving their gang problem, drug related or not.

mexico is a lovely country, i've been there twice, although not in the last 20 years and it is a travesty that it is not safe for me to take my family there to visit the people and explore the country, it's history, culture and geography. but......their problem is internal and not of this country's making and certainly not the result of the activities of the law abiding, gun owning american citizen.

having said all of that, please leave me to continue to enjoy my second amendment rights, guarenteed by the constitution of this country, unobstructed and uninfringed upon.

thankyou for your time.

respectfully,
alan turner
Please stop this over-reach of beauracratic power. This measure does not appear to be a valuable use of resources and does not seem in line with the constitutional rights I have sworn to uphold. Thank you.

Ms. Terrell,
I have been made aware of BATFE's proposed rule to report multiple sales of certain rifles. I protest strongly. In addition to being outside the authority granted by congress, this rule will in no way affect firearms availability for illegal activities, here or in Mexico. Those people have funds available to buy huge quantities of firearms without using US firearms dealers.
Please spend your taxpayer provided budget for something more useful.

Alan Wild

This regulation is both illegal and unnecessary. Further there is no justification for any "emergency" implementation as reported by the Washington Post: White House delayed rule meant to stop gun flow to Mexico, Washington Post, Dec. 17, 2010, On-line edition: ( http://www.washingtonpost.com/wp-dyn/content/article/2010/12/17/AR2010121706598.html ).

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* FFL holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of "certain types of firearms" as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). "No such rule or regulation . may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established."

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of "information collection" is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Sincerely,

Alan Wenger

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a). Will any such list lead to a violation of the 4th Amendment? It reads: “The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no Warrants shall issue, but upon probable cause, supported by Oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.” Will this regulation violate the 2nd Amendment? It reads: “A well regulated Militia, being necessary to the security of a free State, the right of the people to keep and bear Arms, shall not be infringed.” The key phrase here is “the right of the people to keep and bear Arms, shall not be infringed” with the meaning of infringed being “to encroach or trespass upon.”

Because we are a Republic, we are built upon the Rule of Law and not the Rule of Decree. Any requirement such as the one being proposed should be done by elected representatives of the people and not appointed persons within the Executive Branch of Government.

Both laws and the US Constitution do matter. This unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Albert H. Whitley

Ms Terrell, after reading the proposal of the ATF regarding the registering of certain rifles titled “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles” my question is wasn't this the same type of situation that occurred in Nazi Germany before World War 2?

Al Isola
If the government is going to wiggle their nose into the tent under these circumstances, how long before the whole camel will be inside the tent?

Of course not! Stop intruding and meddling with the intent of the 2nd Amendment! Leave all of it intact, unaltered, untouched, and out of political hacks hands!

Al Christensen

Dear Barbara as a concerned gun owner these new gun bills brought to the table are concerning. It's easy to see that they are not only unconstitutional but grossly unsestandable. Are police officers are already underwater as it is. Let's not enact more worthless legislation that will undoubtedly lead to more gun restrictions and as we all know more crime. Don't ignore the facts!

MEMORANDUM FOR OMB
Office of Information and Regulatory Affairs  
Attention: Department of Justice Desk Officer  
Washington, DC 20503

Barbara A. Terrell  
Firearms Industry Programs Branch  
Bureau of Alcohol, Tobacco, Firearms and Explosives  
99 New York Avenue, N.E.  
Washington, DC 20226.

FROM: Alfred D Hawley III, 767 W 2225 S, Syracuse, UT 84075

SUBJECT: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

1. This seems like a very bad idea as it would include a huge amount of data about perfectly appropriate guns sales to regular citizens without giving any meaningful data to law enforcement. It would take a huge amount of manpower from an already undermanned force to data reduce the volume of information this would produce.

2. Wouldn’t it make more sense to develop a plan with incentives to FFL dealers to provide much more relevant data regarding actual suspicious sales rather than data that is going to primarily include legal sales that have to be separated from the suspicious sales?

3. I’m afraid I don’t understand the justification for penalizing the citizens and dealers for something that is not likely to provide useful predictive data. This information is already available if there is a need to build a history for a specific case.

VR
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

To Whom It May Concern:

I am writing on behalf of the National Rifle Association of America, Inc. (NRA), to offer my comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF) information collection request to the Office of Management and Budget (OMB), as expressed in a letter by the National Rifle Association of America, Inc.

I am in total agreement with the following comments by the NRA and, as one of its four million members, urge you to listen to the voices of the law-abiding members you are trying to punish.

The notice proposed an "emergency" requirement that certain federal firearms licensees report multiple sales or other dispositions whenever the licensee sells or otherwise disposes of two or more rifles within any five consecutive business days with the following characteristics: (a) Semi automatic; (b) a caliber greater than .22; and (c) the ability to accept a detachable magazine.

Now, the OMB has denied the "emergency" request. But regardless of the timeframe in which approval is sought, ATF does not have the statutory authority to impose this requirement on licensees.

The reasons for that lack of authority are fully explained in the attached legal memorandum; but in short, the Congress has comprehensively defined what ATF may and may not require with respect to licensees' records. By specifically requiring reports only of multiple handgun sales, Congress implicitly rejected the idea of requiring reports on multiple sales of other firearms. ATF seemed to understand that point when it
responded in October to a recommendation for multiple long gun sales reporting by the Department of Justice Inspector General. ATF's comment on that recommendation was that it would "explore the full range of options" but that such a requirement "may require a change to the Gun Control Act."1

These reports will be requested through "demand letters"—a mechanism that for many years had been used only to conduct firearm traces, to obtain aggregate manufacturing statistics, or to obtain contact information for buyers of certain firearms later declared to be subject to the National Firearms Act. Even when ATF began to use demand letters to seek a broader range of firearm transaction records, one court upholding that program cautioned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in an open-ended fashion."2

The scope of the proposed collection suggests in itself that the proposal exceeds ATF's statutory authority. The Fourth Circuit stressed that the letter at issue in the RSM case was sent to only 41 licensees out of the 80,000 licensees in the United States.3 A second type of demand letter was sent to only 450 dealers nationwide.4

Now, ATF proposes to issue demand letters to approximately 8,500 licensees. That estimate appears to be based on the total number of licensed dealers and pawnbrokers in California, Arizona, New Mexico and Texas. If so, nearly one out of seven firearm retailers in the United States would receive demand letters for multiple rifle sales.

The burden estimate in the proposal appears to assume that each licensee subject to a demand letter will respond once during the proposed duration of the program. Given the great variety in size and sales volume among the thousands of licensees in the border
states, this seems unlikely.

Even if the burden estimate in the proposal is correct, it is unclear how ATF could make effective use of the large number of reports that would be generated. Recent media reports suggest that ATF is already unable to handle dealers' voluntary, real-time reports of possible "straw purchases." If processing thousands of additional mandatory reports takes even more resources away from investigating these suspicious transactions, the proposed information collection may be more harmful than helpful.

The NRA is well aware that ATF would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF's request to approve its proposed collection of information.

3 Id. at 63.

AS A 60 YEAR OLD FREEDOM LOVING AMERICAN THAT YEARS AGO TOOK A OATH TO SUPPORTS AND DEFEND OUR CONSTITUTION I DISAGREE WITH THE PROPOSAL (Federal Register /Vol. 75, No. 242 / Friday, December 17, 2010 /Notices 79021)

THE PROBLEM WITH OUR BORDERS TO THE SOUTH IS OUR GOVERNMENT WON'T FIND A GENERAL ANDREW JACKSON OR A GENERAL PATTON TO TAKE CARE OF IT. OUR PRESIDENT PAST AND PRESENT HAS NOT HAD THE GUTS TO STOP THE DRUG GROWERS AND DEALERS BY KILLING THEM AND DESTROYING THEIR BUSINESS. HOW ABOUT FLYING THOSE DRONES OVER MEXICO OR ANY WHERE THEY EXIST. THIS PROBLEM HAS NOTHING TO DO WITH LEGAL, LAW BIDING, TAX PAYING AMERICAN CITIZENS BUYING ONE OR HOW EVER MANY GUNS THEY WANT. IF THESE THUGS SHOW UP ON YOUR PORCH, WOULD WANT A SINGLE SHOT, I WOULD WANT SEVERAL HIGH CAPACITY MAGAZINE IN MY POCKET. I FEEL FOR THOSE AMERICANS LIVING ON OUR BORDERS OR INTERCITY’S, BEING TOLD NOT TO PROTECT THEIR SELVES. IF THIS IS A GOOD PROPOSAL PUT IT TO A REAL VOTE WITH THE AMERICAN CITIZEN’S.

I don't understand how the additional proposed long gun sales report proposed by the BATFE. will be a deterrent to the use of firearms by the drug trade. According to independent non-governmental reports most of the firearms used in the illegal drug trade are either stolen or purchased from other countries. All this proposal will do is place an additional record keeping burden on the firearms dealers involved. I hunt in Texas. If my rifle should break during a hunt I could only buy one replacement and if it should get stolen by a drug dealer then I am out of luck. Please don't require this additional burden on the American public. It will NOT have the desired effect.

Sincerely Allen A. Adams.
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

It has come to my attention that the OMB has proposed to the Bureau of Alcohol, Tobacco, Firearms, and explosives an information collection request that some federal firearms licensees report multiple sales when said licensee sells two or more rifles within any five consecutive business days if said rifles are semi automatic, greater than .22 caliber, and accept a detachable magazine.

First of all, the ATF does not have the statutory authority to impose this upon federal licensees. It has been defined by Congress as to what the ATF can require of licensees' records. Congress rejected the idea of requiring reports on multiple sales of other firearms when they specifically required reports of multiple handgun sales only. Also, the scope of the proposed collection suggests that the said proposal exceeds the ATF's authority.

Furthermore, it appears that these reports will be requested by sending "demand letters". As you know, the ATF has used such methods before. One court, in RSM, inc. vs. Buckles, warned that the demand letter statute "is not a limitless delegation of authority" and "cannot be construed in and open-ended fashion."

Also, the processing of thousands of additional mandatory reports unecessarily takes away valuable resources from the investigation of suspicious transactions, and may do more harm than good.

It has occurred to me that this proposal may have been created in an effort to address the increase of violent gun crime in Mexico. The truth to that matter is that the said crime in Mexico is drug related, and lawlessness in Mexico by drug cartels with access to all kinds of illegal firearms on the blackmarket, is not excuse for further imposing of restrictions or more requirements from U.S. firearm licensees. Thank you for your time.

Respectfully,

Travis A. Best
To: Bureau of Alcohol, Tobacco, Firearms, and Explosives

I am writing to voice my opposition to the proposed multiple rifle sales reporting requirement in Border States. I agree with the position of the NRA that you have no authority to ask for this information and that this overreach of authority will lead to even further erosion of the rule of law. If you continue to play fast and loose with the laws that Congress allows you to operate under you will cease to have any authority, and although I feel that is the proper course for any rouge bureau of the federal government it would be better for you to obey the laws and observe the will of the people to govern themselves.

Sincerely,
Allen Godin

Please do not involve the American people in more political malarky.
WE THE PEOPLE, does mean exactly that, a few elected officials think they speak for the people, but they don’t.
“Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles. Is pure silliness, law abiding dealers and consumers are just that, LAW ABIDING.
There are so many repetitive laws out on the books already that cover improper or illegal sale/purchase of firearms. All these types of laws are a waste of tax payers money and your time.
There are issues that need fixing but this is not one of them. Please make every attempt to dismiss frivolous proposals like this in the future if you would. Let’s spend the money on issues like homeless and the hungry here at home.

Thanks in advance for your time.

Another great waste of time and Tax payers money!!!!!!!
Reference: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

The ATF has no legal authority to collect this information or require these reports. This is as stupid as demanding the same information be collected and reported on the purchase of 2 or more bottles of beer, wine, wine coolers, and all other sorts of alcohol products. If this makes sense, then the same should be done with all purchases of 2 or more packs or cans of smoke and smokeless tobacco products.

Subject: Please OPPOSE the BATFE's proposal to report multiple sale of certain rifles

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Alvin Owens

OMB
Office of Information and Regulatory Affairs
Attention: Department of Justice Desk Officer
Washington, DC 20503

Regarding: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles”

I object to the ATF (or any government agency) collecting information on the sales of Long guns (or any firearms) because it has NO LEGAL RIGHT.

I can not believe that the drug dealers in Mexico are buying “semi automatic” rifles one or two at a time from the United States and transporting them across the border.

This is a waste of taxpayers money and a dangerous precedent for collecting information on firearm sales. This could be the “foot in the door” to the collecting of information and registration of all firearms, in all States, which I am firmly opposed to.

Thank you for your consideration on this matter.

Hello,

This regulation is both illegal and unnecessary. Further there is no justification for any “emergency” implementation as reported by the Washington Post:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* "FFL” holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of “certain types of firearms” as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). ”No such rule or regulation ... may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established.”

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of “information collection” is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

* This regulatory action has not allowed the public sufficient time to comment.

This regulatory action should not be approved.

Thank you for your time,

Andrei Muresan

RE: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

GREETINGS:

I am writing to express our opposition to the proposed new ruling:

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

Sincerely:
Amir ABDALLAH YASIN, Resident of the State of Alabama

To Whom It May Concern:

I am writing as a concerned southern border state resident and gun owner to offer my comments on this Bureau of Alcohol, Tobacco, Firearms, and Explosives (BATFE) information collection request to the Office of Management and Budget (OMB).

First there is no "Emergency" except the one BATFE participated with "Operation Gunrunner" where they broke the law and allowed sales to go through to straw buyers they sent. Plus, the lie the BATFE is a party to about 90% of the guns recovered in Mexico coming from the US which has been disproven by numerous news media outlets and the NRA. Mexico is lying to the United States about where the guns used by the drug cartels are coming from.

This is a backdoor scheme to register long guns by the BATFE in violation of Federal law and I firmly believe the Constitution.

BATFE is trying to make laws which only Congress has the authority to do.

As someone who lives in a southern border state (New Mexico) if I find a great deal on 2 rifles with which to protect my family from the lawlessness spilling across our unsecured border with one of the most lawless countries in the western hemisphere, I should be allowed to purchase them without going on a BATFE hit list. They are legal purchases and I can pass the NICS.

I am well aware that BATFE would, understandably, like to take strong steps to address drug-related violence in Mexico. But lawlessness in Mexico—driven by multi-billion dollar drug cartels with access to any and all types of arms on the international black markets—is no excuse for U.S. law enforcement agencies to spend scarce resources on programs that exceed their legal powers.

Therefore, OMB should deny ATF's request to approve its proposed collection of information. If you have any questions about our comments, please do not hesitate to contact my office.

Sincerely,

Michael A. Prato
Master Sergeant (ret) USAF
Life Member NRA

In regards to the December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles” I don’t think it would be advantageous to the government to try and collect all of this information. It would only cost us, the tax payers, more money.

Amy Brooks

Dear Barbara Terrell,

It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

We are aware of your actions regarding the following:

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

Please do not take these actions. You are jeopardizing our rights.

Best regards,

Austin Douglas

Dear Barbara Terrell,

The Federal government must use its authority to crack down on gun smuggling by Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles. It is the responsibility of the ATF to collect this information, and it should be funded and pressed to better enforce similar laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

Andrew Curtis
7 Park Ln
Jamaica Plain, MA 02130
Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,
Andrew Dalton

To whom it may concern,

Requiring firearms dealers to report these long gun sales is just another attempt to go through the backdoor to require that all guns be registered. It will start along the border and before you know it they will be required to do it in Michigan. Like it or not the constitution of this great country gives law abiding Americans the right to keep and bear arms and does not put a limit on how many they can buy. The real problem along the border is the border itself. We need to make it more secure and instead of creating more paperwork which will require people to check it out, we need to spend that money on border agents and fencing.

Sincerely,
Andy Heinrich

Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Andrew Jelmert

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Andrew Leckrone
Harrisonburg, Virginia
This is a terrible idea to have to report the purchase of 2 semi auto weapons. What in the world is this really going to help?

Subject: Semiautomatic Registration in Border States

Re: Federal Register Notice of December 17, 2010 (Volume 75, Number 242, Page 79021), 60-Day Emergency Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles

I write you as a gun-owner, American citizen, and taxpayer. The ATF's proposal to register semiautomatic rifles in the four border states is a ridiculous idea and will do nothing BUT WASTE MORE AMERICAN MONEY. From what I understand the ATF does not possess statutory authority to impose this requirement on licensees. It is my expectation that the ATF follow the RULE OF LAW and not put an unnecessary burden upon gun dealers in the states of California, Arizona, New Mexico and Texas.

Regards,

--

To whom it may concern:

This is a solution to a non-problem. I have heard the last long guns that found their way to Mexico was escorted there by ATF agents. I am not sure that is true but in today's atmosphere I find it believable. Perhaps you could tell me if it is in fact true.

Thank you

Sincerely

Andrew Ring

Ms Terrell:

It came to my attention the proposed collections...thingy, I didn't see a number, and being a gun owner I really don't see the reason for the legislation. Not only is it our right, as law abiding American citizens to own guns and purchase them as we see fit, but also to think that the criminal element would abide by this...thingy is short sighted.

I'm a proponent of owning as many guns as one possibly can, and the ammo to go with it, but unless I had some dastardly plan to take over TX or DC, which I don't, I don't see why you have to know anything about my gun ownership, storage or new purchases. I promise you that if my intention was nefarious neither you, or anyone else in the government would know anything, and it sure is a waste of our overstretched Govt. resources to put any more strain on Y'all to monitor legal purchases of guns. Why???

I'm a tax paying, legal gun owner and please do us a favour and leave us and our legal activity alone. Don't waste our tax payer dollars on foolish and blind legislation, no matter what the intended result.

Respectfully yours:

Andrew Simpson

I am against your proposed law that would require gun dealers in 4 states to report long gun sales. This will just add more cost when I purchase a gun. With the idea that our newly elected officials went into office (lowering big government costs), this does not make any sense. You guys at ATF have more important things to do than knowing every single American that wants to purchase a gun or guns. Remember this is our constitutional right to purchase, use, and bear arms.

Sincerely,
Andrew Bradley
Florida resident
Ms. Terrell:

I am commenting on the attempt by ATF to extract further information from the American people and American businesses regarding sale of two or more rifles larger than .22 and uses detachable magazines.

It is my understanding that ATF has no statutory authority to extract this information. It is also my understanding that ATF is busy enough dealing with attempts at “straw purchases” and essentially would be overloaded with such reports to the point where it would interfere with legitimate investigations.

Because it affects only California, Arizona, New Mexico, and Texas, my guess is that it has something to do with the current drug wars in Mexico. Please tell me, how is harassment of legitimate businesses in these states going to stem the tide of selective fire AK47s, RPG launchers, crew-served weapons, and ammo for the above being sent in from, for example, Red China and the Middle East?

Why would a drug kingpin tell one of his aids to go to, say, San Francisco Gun Exchange, to buy a pair of semiauto-only AK47 clones, do all the federal paperwork, and hope he doesn’t get caught (e.g., non-citizen, felon attempting to buy a firearm using forged documentation, Etc.), when he can get full-auto AKs from Red China or the Middle East?

The only thing this does is harass law-abiding people, puts additional paperwork burdens on legitimate businesses, and interferes with legitimate investigations through overload with documents of questionable value. The fact that ATF has no statutory authority to ask for this additional information says something.

I am adamantly opposed to this idea.

Sincerely,

Andy Breglia.
Long gun reporting will only work to occupy man hours at the ATF. Mexican cartels can afford to drive to Oklahoma or Louisiana or to break in to gun stores and steal what they want. A sealed border between the US and Mexico is the only solution. This action of long gun reporting is anti-American and is the first step in regulation that would go against the 2nd amendment.

Dear Barbara Terrell,

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Dear Barbara,

Re: December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

I am absolutely opposed to this action. We are law abiding tax paying citizens who like to hunt and target shoot. This action will not affect the "bad guys" only those of us who do it right and according to the law.

Once again, the good guys get punished.

Do not consider this action......it is ill advised and not practical.

Sincerely,

Ann Peterson
It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

PATCHOGUE, NY 11772
Oppose ATF authority to require dealers to report multiple long gun sales.

This is simply a knee jerk reaction to a bigger problem. As usual with gun laws, you need to address the problem not the symptom.

For a start, we need to address tightening up the borders and enforce existing immigration laws.

Thank you for your time and consideration

Anne Fairchild
It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. § 923(g)(3)(A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. § 926(a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Annette M. Losik

It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

Dear Ms. Terrell:

In view of the need for ATFE to investigate crime and bring criminals to justice. I am somewhat alarmed at ATFEs request to demand the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. The ATFE has no legal authority to demand these reports, and the flood of new paperwork will waste already scarce law enforcement resources that should be spent on legitimate investigations. While ATFE is busy doing this exercise. Real criminals and terrorist can sneak under the radar and sell illegal weapons to those who are hostile to the United States and her interest. Both in the nation and abroad.

I am asking you not to do this. In the interest of honoring the rights of Americans and going after real criminals.

Thank you and have a great day.

Sincerely,

Anthony Czerski
It’s time that Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

Dear Ms. Terrell;

Please understand that the ATF is overstepping its authority in requiring California, Arizona, New Mexico and Texas gundealers to report all semiautomatic rifle sales. This encroachment upon the rights of peaceful citizens to acquire and use self-loading long guns is yet another example of the ignorant knee-jerk reactions so many of our D.C. legislators fall victim to. They certainly could use their time more constructively.

We would expect your agency to act in behalf of a law abiding citizenry and outright reject the legal folly currently under consideration.

Very truley yours,

Anthony Eastwood, Committee Chairman
Saratoga County 4-H Shooting Sports
New York State

I am writing to oppose the proposed regulation to register multiple sales of certain rifles with the Bureau of Alcohol, Tobacco, Firearms, and Explosives (BATFE) as described in FR Doc. 2010–31761 from the 12/17/2010 Federal Register.

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.

* “FFL” holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).

* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of “certain types of firearms” as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). “No such rule or regulation ... may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established.”

There is a grave potential for this regulation to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of “information collection” is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

Sincerely,

- Anthony Garcia

OMB has denied the "emergency request.

I would be opposed to any other requirements of FFL license holders, on multiple sales of certain types of rifles, as an emergency requirement. This is outside the scope of the BATFE, and is not in the best interest of Texas or the USA. This is in conflict of the GCA of 1968. This is a waste of LE limited resources, and does not target the criminal element, but legitimate business. This is a legislative matter that can be best handle in that manner.

I appreciate the BATFE's dedicated service and efforts to respond to and see to the needs of USA

Barbara;
I am totally against the passage of any Legislation pertaining to ATF Long Gun Sales Reporting, any time or any where. In my opinion you are punishing Honest and Moral people who have never done anything wrong or do they intend on doing anything wrong, they just want to buy a weapon to Hunt with or even take to a rifle range, or even a family member, a gift for Christmas. In that list of people he is buying a gift for, totals to let’s say 2 or more people, and because of a good deal and he has the funds to do that, so now he is ear marked as suspicious, and opens him up to investigation and whatever else you can dream up. Just another way to snoop into a Legal Citizens, 2nd Amendment Rights. Not to mention the Gun Dealer who is trying to make a living.
Thanks for Your Attention.

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government's immediate attention.

All vehicles require registration, inspection and a license, as do all drivers of these vehicles in their many different classes: these vehicles may hurt or kill but that is not their purpose.

The only purpose of any gun is to kill: it only makes sense that the same rules should be applied to the weapons, the owners, and anyone in possession of them, as are applied to vehicles and drivers.

It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

Dear Ms. Terrell,

The federal government’s plan to register Americans’ gun purchases in the States on the Southern boarder with Mexico or anywhere else is absolutely unacceptable and is of my opinion flat out Unconstitutional; additionally, Government “Lists” of any form or subject matter is also Unconstitutional.

In conclusion: The December 17, 2010 “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.” must be scraped for law enforcement resources to be spent on legitimate investigations. Thank you very much for your time.

Sincerely,

Arnold M. Kapushion II

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06s like the popular Remington 7400.

The ATF has no legal authority to demand these reports, and the flood of new paperwork will waste scarce law enforcement resources that should be spent on legitimate investigations.

I copied this from NRA news alert and I can not state it any better then what is written above.

I am appalled ATF would do such an act that would in now way what so ever help in stopping crime or gun trafficking. If you want to really help us then do more to stop the crime around these towns with out doing more harm to our citizens then the criminals.

Don't be one of Obam's and Clintons flunkies. Prove you are here to help us and not hinder us.

Thanks TODD PERRY

It appears that our government is now beginning the first step towards universal gun registration which could eventually lead to more draconian legislation and possible confiscation through declaration of martial law. This should not be allowed to go forward. It is obvious what is happening here. Mexican drug cartels are not buying one or two guns at a time in the U.S. to arm their gangs. They are getting them wholesale from international gun dealers as evidenced by the type of heavy weapons and fully automatic weapons they are using, which cannot be obtained in the U.S. without an FFL. This fiat if enacted, will cause an undue burden on law enforcement which is already overburdened and constrained by our politically correct lawmakers. ENFORCE our borders!!!!! Stop the foolishness and waste of OUR money!!!!

To: Terrell, Barbara A.

The Federal government needs to concentrate on catching the bad guys and leave law abiding citizens alone. We don't like people mudering others, but reporting long rifle sales is not the way to do it. Its not up to the feds to make laws because of what they think the american people need, or because they think we are stupid and can't take care of ourselves. I vote against this bullshit, and will uphold the 2nd amendment all the way.

Ms, Terrell,

Please see attached letter. As a retired government employee charged with enforcing Federal environmental law, I know too well the uselessness of much government red tape.

Art Hosey
Dear Ms. Terrell,

I just read where the ATF is asking for all gun dealers in the Southwest to report purchases of 2 or more long guns of .22 caliber or larger.

I can understand the reason for the request but ask that it be retracted. I believe that the emphasis should be on protecting our borders, not registering long guns.

On the surface it appears that the ATF is trying to restrict the rights of U.S. citizens to purchase long guns by requiring them to be registered. I'm pretty sure that the intent is to restrict the flow of guns into Mexico and I agree that that needs to be done. However, there may be other solutions that will work as well such as insuring that only U.S. citizens can purchase guns of any kind or perhaps increasing our border patrol resources. I'm sure there are many other options that can be viable.

Personally, I am a U.S. citizen, a veteran, a gun owner and already have what I need for hunting. What about the next generation that is coming up? Are they going to have the same opportunities as I did in selecting what guns to purchase without the concern of "Big Brother" looking over their shoulder? I truly hope not.

Please reconsider what the ATF is asking and retract the request.

Respectfully,

Arthur G. Launier

The Bureau of Alcohol, Tobacco, Firearms and Explosives is demanding the authority to require all of the 8,500 firearm dealers in California, Arizona, New Mexico and Texas to report all sales of two or more semiautomatic rifles within five consecutive business days, if the rifles are larger than .22 caliber and use detachable magazines. For example, a dealer would have to tell the government every time a deer hunter in Sacramento or Amarillo finds a good deal on a pair of semi-auto .30-06 like the popular Remington 7400.

The ATF has no legal authority to demand these reports. This is a direct attempt to control the Constitutional Rights of American Citizens to keep and bear arms to defend himself and his family, and the flood of new paperwork it will require law enforcement agencies to waste valuable resources which could be spent on legitimate investigations. I would like to urge you to make an effort to stop this attempt to seize control over the rights of all American Citizens to purchase or own firearms, which is in direct violation of our Constitution.
Personally I believe that this is an excellent idea.
Most non-anti-gun fruitcakes know that most of the firearms being sold and used in Mexico are coming through other countries to their south and east.
This, if the law requires SEMI-ANNUAL PUBLIC REPORTING within 30 days of the close of the previous period (Period October 01 - March 31, Public report due April 30; Period April 01 - September 30, Public Report Release Date October 30).
These reports will either show everyone that the claims by the Mexican Government are bogus OR it will lead to catching the people illegally exporting guns into Mexico from the US.
I strongly urge three things be done for this law:

1. The law must have a SUNSET CLAUSE which, regardless of what the law reveals that the law will expire after six (6) years and can only be extended if there is definitive proof (through successful prosecution) that there is and remains a problem with illegal exporting of firearms that are legally purchased in the US.
2. The law must be 120% funded by the Mexican government and that NO TAXES, FEES, LEVIES, etc. be issued or collected by the legal purchase or sale of firearms within the United States. This is because it is the Mexican government that is making the allegation that their problems with armed drug cartels are the result of a large, illegal firearms market that crosses from the United States into Mexico.
3. All firearms found in Mexico that came from a legitimate sale in the US must be returned to the US for disposal. This is to ensure that corrupt Mexican officials are not reselling or reusing the firearms to increase the numbers in their claims. I have heard in news articles that the Mexican government will not return the rifles they purport as being illegally imported from the US to ATF for verification and sales tracking.
4. Attached to this law must be a repeal of any state law which restricts or forbids ownership and sales of non-full automatic firearms that can reasonably be used for sporting and target shooting, such as the AR- platform that supports over a dozen different calibers for every North American game animal and nuisance animals.

I know that the NRA does not support illegal sales of firearms to Mexico and that we propose serious measures be taken to prove or disprove the claim of the Mexican government that most of the weapons in their country are coming from the US. If it is done as I suggest then everything will work fine without taxing the law biding citizens of the United States.

I am writing to oppose the so called emergency information collection request to register multiple sales of certain rifles with BATFE as described in FR Doc. 2010-31761 from the 12/17/2010 Federal Register.

This information collection is both illegal and unnecessary. Furthermore, there is no justification for any “emergency” implementation as reported by the Washington Post: 'White House delayed rule meant to stop gun flow to Mexico', Washington Post, Dec. 17, 2010, On-line edition:

* The regulation proposed is outside the statutory grant of authority to record information about multiple sales of firearms. Title 18 U.S.C. § 923(g)(3)(A) specifically grants the authority to collect multiple sale information on handguns and revolvers. Other firearms are excluded and there is no implied authority to extend this reporting requirement to rifles or any other type of firearm.
* This attempt by ATF is universally and overwhelmingly opposed by citizens and their congressional delegations. See the following:

* “FFL” holders are already required by law to respond to BATFE requests for information on firearms distribution pursuant to criminal investigations: Title 18 U.S.C. § 923(g)(7).
* The regulation contains no provision for the destruction of information collected, which establishes a nationwide registry of “certain types of firearms” as proposed. Because of this the regulation as proposed is illegal under Title 18 U.S.C. § 926(a). “No such rule or regulation ... may require that records required to be maintained under this chapter or any portion of the contents of such records, be recorded at or transferred to a facility owned, managed, or controlled by the United States or any State or any political subdivision thereof, nor that any system of registration of firearms, firearms owners, or firearms transactions or disposition be established.”

There is a grave potential for this information collection to unduly burden citizens who are collectors or must obtain purchase permits at the local or state level to possess firearms. The proposed regulation does not say what the agency intends to do with the information but ostensibly it would be for criminal investigations. Subjecting law abiding gun owners to this type of investigation under the guise of “information collection” is an overt attempt to prevent them from exercising their 2nd Amendment rights to purchase and own firearms.

Arthur D. Guilani

I see no need for the reporting of rifles sales as proposed by ATF for the states bordering Mexico. I live close to the border and don't see how this law would be useful for law enforcement purposes yet infringe on our constitutional right to own arms. When guns are outlawed, outlaws will still have guns. What would prevent serious law breakers from going north to purchased weapons for shipment to Mexico? Nothing. Nada. Thanks for reading this message. I hope you read it.

Dear Barbara,

As a gun owner, I find it very interesting that the most open and transparent government in the world is attempting an end run at our 2nd. Amendment Rights. Will this administration stop at nothing to insure they are not removed from power? Are they (the obama administration) afraid we as Citizens will attempt to protect ourselves from their seizure of power. Are we headed for another Nazi Germany? As for the Border States with Mexico I hope they enforce their new law.

Respectfully,

Arthur J. Rago Jr.

It's time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF's proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an emergency that demands our government’s immediate attention.

“Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

Collection of information on rifles other than .22, what about .223 the military weapons, it is .22 caliber? What a joke. Do you really think that keeping track of weekly multiple firearms sales will stop any crime? I don't. Forget this current nonsensical plan.

Sam Jones

I live in Tucson, Arizona. I am outraged not only at the state of gun violence in this country but also the facilitation of gun violence in Mexico and gun violence from Mexican criminals operating on both sides of the U.S/Mexico Border, using guns originating in the U.S. It’s time that the Obama administration does more to crack down on the gun smuggling carried out by the Mexican drug cartels.

I strongly support the ATF’s proposal to require dealers along the border to report bulk sales of assault rifles, just like they already do with handgun sales. The ATF must use its authority to collect this information and better enforce the laws already on the books.

With more than 30,000 people already murdered in cartel wars, this is an EMERGENCY that demands our government’s IMMEDIATE attention.

Please rethink this idea to increase paper work with this effort to register long guns.

Sincerely,

Allan Snow

Barbara Terrell,
Please spend you time and resources finding the international gun traffickers and not "mom and pop' GUN DEALERS. Reports on seizures and autopsies indicate full military weapons in LARGE amounts are being used in the violence in Mexico.

Bruce Mossman

Please OPPOSE the “Notice of Information Collection Under Review: Report of Multiple Sale or Other Disposition of Certain Rifles.”

This is an unnecessary regulation and is not allowed under Federal law. Title 18 U.S.C. & 923 (g) (3) (A) does not grant any such registration of multiple purchases of firearms, except for handguns.

The regulation contains no provision for the destruction of the collected information, and therefore is not legal under Title 18 U.S.C. & 926 (a).

Laws do matter and this unnecessary and extra-legal proposal must NOT be approved.

Sincerely,

Cecil B. Ausbrooks

I'm contacting you in hope you will not support the Dec. 17th notice that requires a person to register semi-auto rifles with multiple clips. Guns don't kill people; people kill people. Laws are not the answer. In the case of the awful shooting in Az.; alot of people, in the chain, let a whacko get by us.

Thanks

Barbara Terrell:

I'm requesting that you do not record long gun sales. In my opinion, that is a whole lot of paper work, and medaling into private American citizens personal affairs. The ATF should have plenty of other ways to spend tax payer money, by going after identified criminals, who are breaking the law.

Respectfully,

Paul Allen Wing, Jr
